UK Literature Tour - 2025

'Beyond the Classroom...'

Tours & Exchanges Program Calendar

Prince Alfred College takes great pride in its camp & touring program, and we believe that the benefits of such experiences can be truly transformational for our boys.

These experiences are carefully curated with an aim of being accessible for boys of all ages and interests, across their journey at PAC.

Ranging from a few days to three weeks, each tour is carefully designed to provide opportunities for students to engage with their passions in a variety of settings, while at the same time, facilitating the development of skills that come from living away from the comforts of home.

The purpose of this calendar is to allow families to plan ahead, taking into account their son's interests, whilst allowing family calendar and budgetary planning for the same.

We believe being part of a larger group that is travelling together, allows students to display organisation, proactivity, empathy, leadership and patience as our boys eat, sleep, travel and learn together. The independence and maturity that comes from tours is often immediately noticeable to parents, on returning home. This, combined with the enduring relationships that are formed between students and between staff and students, from the shared experiences, lead many boys to describe touring as one of the highlights of their time at PAC.

One common benchmark for selection on all tours is a student's attitude to the rigours of school life and the expectation that they apply equal effort and character to all they do. Pastoral staff (Tutors, Heads of House and Heads of Middle & Senior Years) are always consulted prior to tour selections to ensure students who have expressed an interest will make the most of such an opportunity and represent PAC with distinction.

A number of our tours, particularly sports tours, have a set of qualifying criteria, including ability and year level, with priority given to older students. Limits to tour group numbers mean that unfortunately, not everyone who expresses interest may be able to attend.

Each tour is subject to the availability and willingness of staff to lead such tours, with schedules and price guides subject to change.

This schedule should be seen as indicative only, and tours and dates are subject to change.

Troy McKinnon

Director of Co-Curricular Activities
