

Prince Alfred College Chronicle

UBI NON EST SCIENTIA ANIMÆ NON EST BONUM.

VOL. VI.—No. 59.

ADELAIDE, DECEMBER 12, 1898.

[PRICE SIXPENCE.]

School Notes.

The "old boys" at the University are to be congratulated on the great successes they have won.

In the Medical lists at Melbourne, the only two South Australians through in the Fifth or Final Year are the two old P.A.C.'s, J. A. R. Smith and C. T. Cooper. The honors for this list are examined for in March.

In the Fourth Year, B. T. Zwar has been placed first in the First Class Honors with the exhibition in Therapeutics, Dietetics, and Hygiene, and for this was awarded the Scholarship; and Second Class Honors in Pathology and Anatomy, third on the list.

Oliver Leitch has Second Class Honors in Anatomy and Pathology; Third Class Honors in Therapeutics, &c.

H. Zwar, Second Class Honors in Therapeutics, &c.

The Sydney lists are not out yet, but we doubt not that our representatives there will do worthily.

In the Adelaide lists for the Third Year M.B., H. H. Formby is top of the First Class, and gets the Dr. Davies Thomas Scholarship. In the Second Class are R. D. Heggation and W. A. Hunter; and in the Third Class, T. M. Drew, W. C. Grey, C. A. Verco, and S. M. Verco.

In the Second Year, O. S. Flecker is Second Class; and P. L. Broadbent, W. R. Kelly, and S. A. Malin are Third Class.

In the First Year, F. F. Muecke is the highest man in the First Class, followed by J. L. Robertson. In the Third Class is R. E. Magarey.

No old P.A.C. in these years failed.

The Bachelor of Laws Degree has been won by P. E. Johnstone, B.A. and by J. H. Solomon, B.A., while J. H. Vaughan has passed his Second Year, and has received the Roby Fletcher Scholarship.

In Constitutional Law—A. H. O. Atkinson.

In Law of Property—A. C. James and R. G. Nesbit.

In Law of Contracts—R. Homburg.

In Law of Wrongs—A. C. James.

In the Bachelor of Science Course, A. M. Paton obtains his degree with Second Class in Mathematics and Physics; W. R. Bayly his degree with Second Class Honors in Advanced Organic and Inorganic Chemistry, and pass in Physics.

In the Second Year, I. H. Boas has credit in Geology, and passes in Mathematics, Chemistry, and Assaying; Cuthbert Lillywhite has credit in Physics, and pass in Mathematics.

In the First Year, Harold Chapple (who holds the Angas Engineering Exhibition), A. S. Clark, and S. V. Easter have each obtained credit in Mathematics and Physics, and pass in Chemistry and applied Mathematics.

In the Bachelor of Arts Course, Spencer Churchward is highest in the First Year with credit in Latin and Greek, and passes in Mathematics, Physics, and English; in the Second Year, A. L. Nairn has passed in Latin, Greek, applied Mathematics, and Logic, and obtained the John Howard Clark Scholarship.

In the Higher Public Examinations—

E. G. Mitton has passed in Biology, thus completing his Second Year B.Sc.

A. H. Harry, in Greek, Part II.

C. S. Newman, in Biology.

G. F. Dodwell, in Geology, Chemistry, Part II.

N. S. Giles, in Geology.

W. Trüding, in Geology, Chemistry, Part II.

G. A. Hancock, in Biology and Mathematics, Parts II. and III.

E. W. Whitham, in Physics (I), and Mathematics (I).

H. E. Noltenius, in Physics (I), Mathematics (I), and English; and in Physics, Part I., H. M. Dingle, N. H. Edwards, H. E. Noltenius, P. J. Rofe.

Two more old P.A.C.'s to become Bachelors of Science this year. Of men who have won this degree at the Adelaide University there are now 17 from P.A.C. out of a full total of 26.

Our proportion on this list is much greater than in Arts, though that is good. Of 50 men "capped" for these 29 were from Prince Alfred.

By the way, a curious mistake has been based upon the report of a speech made by the Chancellor of the University recently. He was made to say that three-fourths of the graduates at the Adelaide University came up there from the State Schools. So surprising a statement could not be overlooked, so it has been repeated as gospel in several papers. However good the Public Elementary system is in its limits, no one could expect this of it. The facts are, of course, that scarcely

any young men enter the University without having been boys at one of the leading secondary schools. Of these the "exhibitioners" from the chief city model schools form about a quarter, and the other three-fourths have received practically all their schooling in one of the Great Public Schools of Adelaide. This is what might have been anticipated, and it is astonishing that anyone could believe and repeat without examination any statement to the contrary.

We beg to congratulate our Headmaster on again being elected without opposition to the honorable position of Warden of the Senate of the Adelaide University.

We are glad to note the establishment of a "Hartley" Studentship at the Adelaide University in honor of the memory of our former headmaster, and hope that many P.A.C.'s will win it.

Old P.A.C.'s are taking a leading place in the cricket teams of the colony. In the eleven selected to do battle for South Australia against Victoria, four were our old boys—Darling, Hill, Hugo, and Peters; and so too were the emergencies—Chinner and Drew; that is six out of the first thirteen of the colony, not a bad proportion.

In the Medical Examinations at the

Melbourne University this October there was a wholesale "plucking." In the Fifth Year out of 30 candidates only eight got through; of seven students from Adelaide only two succeeded. We congratulate our old boys, J. A. R. Smith and C. Cooper, on surviving the test. In the Fourth Year too, B. T. Zwar is said to be top of the list, and O. Leitch close to him.

We have been shown three interesting photographs of a gymnastic class held in Albany, W.A. The honorary instructor of this class is Herbert Robinson, a member of our first eleven in 1894, the cup winner that year, and a leading gymnast here also. Mr. Leschen says that the pictures show that the work is being well done, with precision and attention to details which constitute the chief worth of such exercises. Mr. Robinson in memory of his old school has adopted as the colors of the class, "red and white."

Our First Eleven have received a challenge from the Wesley College, Melbourne, and an offer of generous hospitality while there. Of course the players "jumped for joy," and they accepted gladly. Of this, more anon.

Mr. James Marshall with his never failing generosity has sent us two bats to be awarded as prizes to our cricketers. We heartily thank him,

Jolly has the one for batting, and Waldeck for bowling.

The vacancy on the staff, caused by the lamented decease of Mr. H. P. Davies, has been filled by the promotion of Messrs. Mitton and Harry, and the appointment of Mr. F. A. Jennings. Mr. Jennings came from the Commercial College, and in addition to his ordinary work has already rendered valuable services in the teaching of Shorthand and Typewriting.

R. H. Lever continues to make progress in his artistic studies and painting. He showed several pictures at the exhibition of the Easel Club, and of the Society of S.A. Artists, and received appreciative remarks from his Excellency the Lieutenant-Governor in opening the exhibitions, and from the press.

At a recent "assembly" the Head Master announced that Mr. Bayly had now secured the degree of Bachelor of Science as well as Bachelor of Arts, and that he would return to full work next term. The announcement was hailed with hearty cheers.

Old Boys in Great Britain.

Alfred Chapple is greatly enjoying his life at Cambridge, as one of the

demonstrators to Professor Ewing and "coach" to engineering students.

Harold Rischbieth is making good progress in his Medical Course at Cambridge.

Fred Jude has gained his M.B. at Edinburgh, and is staying on for further hospital practice.

Sydney Dawkins enters now upon his last year of his course at the same University; and F. M. Wigg is also following the same course.

W. J. Colebatch is also in Edinburgh, studying agriculture and veterinary surgery.

E. V. Clark, the Angas Scholar, has entered upon an engineering course at University College, London, under the direction of Professor Beare, an old P.A.C., and constant friend of all home-going students from here.

L. Birks is with a well-known engineering firm at Erith.

H. P. Finlayson is studying Veterinary Surgery in London with great success.

Cricket.

P.A.C. v. S.P.S.C.

Owing to the intercolonial fixture with New South Wales our annual match against St. Peter's came off earlier than usual this year. Friday, December 2, was the opening day, and as if to signalise the great event, and

not to be outshone by the brilliant and expectant throng that graced the pavilion, the sun blazed forth in all its summer glory. The Reds had good reason to hope that Dame Fortune would once again smile on them, for had we not five of last year's oval team to our rivals' two, and had we not practised hard and won golden opinions from more than one good judge of cricket?

It was our turn to lose the toss, and of course Hodge for St. Peter's decided to take "first whack" on one of Checkett's "master-pitches." The result was a total of 169—no appalling figures considering the wicket. Kirkwood led off for us with C. Osborne, but their sudden dismissal again proved the delightful (?) uncertainty of cricket. Our drooping spirits were for a time roused by the determined batting of Jolly and Bob Osborne, but the cruellest of luck robbed us of our captain's wicket at this critical stage of the game, and the innings closed for a paltry 104.

The Saints fairly excelled themselves in their second venture, Jennings and Hayward playing first-class cricket. The elements, too, were fighting against us, for on Saturday the heat was overpowering; too much praise cannot be given to our fellows for sticking to their guns as they did. The jaded players relieved the monotony of cricket by drinking healths all round,

the local water supply being in greatest evidence; at judicious intervals volunteer waiters shot out from the depths of the pavilion like good samaritans, and poured in "wine and oil"—or some modern substitute—the players being all either of the blue or red ribbon persuasion, were "above suspicion." However, the Blues were all out for the fine total of 329. Under the circumstances our fielding was good. Jolly's wicket-keeping, Waldeck's and Willsmore's bowling, Kirkwood's and Smith's catches, deserve special mention.

Reds—395 to win!

'Twas with grim determination that Jolly and Willsmore commenced our second innings, and right well did they set about the Herculean labor of reducing the Saints' lead. As the score steadily rose past the half-century, we had dim yet enchanting visions of the the Princes' emerging with honor, if not victorious, from the cloud that was over them. But 'twas not to be! Thomas found the "spot," and after these two fell in quick succession, there came the dreaded collapse. Smith opened confidently, but was foolishly run out. C. Osborne compiled a patient 20, and Chapple batted with spirit; but the end came at 131, before the day was out.

Though wofully disappointed, we most heartily congratulate the Blues on their victory. We were at our worst; they

were at their best. But "hope blooms immortal," and we shall be "up and at them" again in December, 1899. For the present, perhaps, "least said, soonest mended!"

THE PLAY.

(By the Triumvirate).

Having won the toss from Osborne, Hodge sent in Jennings and L. J. Hodge to face the bowling of Drew and Osborne. Jennings cut the first ball, and the batsmen ran, but owing to good fielding by C. Osborne, Hodge was almost run out. Two balls later Hodge broke his "duck," and the next two Jennings slipped to the boundary, the over thus yielding 10 runs. Hodge scored 6 off Osborne's first over. Drew, who had now found his length, bowled a maiden to Jennings. Kirkwood and Waldeck at this stage were doing good work in the field. The first sundry of the match was a no-ball from Drew, but the next ball clean bowled Jennings.

1—12—21.

Hayward filled the vacancy and late cut Drew for 3. Drew's next two overs were maidens, owing chiefly to excellent fielding by Smith in the slips. Osborne having had 17 runs scored off five overs gave place to Willsmore. His first over increased the total by 7. After some uninteresting play Willsmore "did the double" by catching and bowling Hayward.

2—9—44.

C. Hodge joined his brother and

slipped the first ball for 2. Kirkwood now relieved Drew at the cathedral end, and his first over which L. Hodge seemed to know nothing about, was a maiden. But he scored 4 from each of the next two overs. Taylor replaced Willsmore, and shortly after Kirkwood, with a clinker, clean bowled skipper Hodge.

3—14—67.

Parker was the next to emerge from the pavilion. He cut Kirkwood's first ball for 2, and neatly turned the last ball of the over to leg for 4. Magarey then distinguished himself by missing a chance from Hodge, who returned thanks by knocking 10 off the remaining balls of the over. R. Osborne unsuccessfully appealed against Parker for a catch in the slips, and after a smart piece of fielding by Willsmore the lunch adjournment took place, the total standing at 90.

Play was resumed at 1.45, when Parker (11) and Hodge (43) again took their places at the wickets. In his first over, Osborne, who had once more returned to the bowling crease, dismissed Hodge with a full-pitcher.

4—43—93.

Campbell now joined the young Westralian, and played out the over without scoring. Kirkwood followed Osborne's good example and bowled a maiden. Osborne at this point was bowling well, only one run coming from four overs. Jolly, who had been keep-

ing wickets splendidly, now missed a chance of stumping Campbell. Waldeck now gave Kirkwood a rest, and his first two overs were maidens. A single from Campbell's bat brought Saints' first hundred in view. Campbell late cut Waldeck for 4, and Willsmore relieved Osborne, but the separation came from the other end, for after a maiden Waldeck clean bowled Campbell.

5-10-116.

Lewis was the next to appear to do battle for his college, and blocked the rest of the over, but could do nothing with Willsmore's bowling.

Since lunch scoring had been very slow, only 30 runs being made in the first hour. Waldeck, off whom only 7 runs were scored in 9 overs (6 being maidens), was replaced by Drew, who almost immediately disturbed Parker's bails.

6-28-126.

Thomas came in, but did not succeed in scoring from the over. Osborne now took Willsmore's place, and Lewis ran 2 for a hit to leg. Although runs were being kept down wickets were not falling, so after a few overs Smith took Drew's place, and Taylor gave Osborne a rest.

In Taylor's first over Chapple missed a chance at leg from Lewis. Next over, however, Lewis was dismissed, for he was smartly caught in the slips

by Waldeck, off a very swift ball from Smith.

7-13-141.

Parr, as soon as he arrived at the wickets put Smith to the boundary. Taylor's over was a maiden, and then Smith clean bowled Parr with a regular "Jonah."

8-4-145.

Webb filled the vacancy, and broke his duck by cutting Smith for a single. Thomas got one of Taylor's past Chapple to the asphalt at square leg. Smith was bowling well and had Webb "tied up," but it soon became necessary for Kirkwood and Willsmore to give the bowlers a rest. Kirkwood did a piece of excellent fielding and enabled Willsmore to run Webb out.

9-7-162.

Sandland slipped Kirkwood for 4, but Willsmore secured his wicket next over. Thomas 17 not out.

10-6-169.

Afternoon tea over Captain Osborne sent Kirkwood and C. Osborne to the wickets trusting to see a good score up before any wickets fell. But alas, Hayward bowled Kirkwood third ball for 0.

1-0-0.

Osborne, R., now joined his brother and played out the over without scoring. Thomas was bowling from the river end, and Osborne, C., made the first run by a neat drive, but a couple of

overs later Thomas clean bowled him with a fine ball.

2—2—2.

When Jolly came in things began to look a little brighter. He drove Thomas then Hayward for 1. Osborne then broke his duck, and put Thomas in the following over to leg for 2. Jolly was making some grand drives, and Osborne also was batting freely, driving and slipping Hayward to the boundary. Sandland went on in place of Hayward, and Osborne had the misfortune to play a loose leg ball on to his pad, and from there it just rolled against the wicket.

3—13—34.

Magarey went to Jolly's assistance and drove Sandland for 2. Jolly brought the score up to 40 by another drive, and next over scored another couple owing to some bad fielding by Lewis. Jolly and Magarey were now scoring freely, but Webb, who was bowling from the southern end, managed to get Magarey's bails.

4—7—41.

Willsmore was the next to emerge from the pavilion, and he played very steadily, leaving the hard hitting to Jolly. Jolly scored 1 by placing to square leg, and then Hodge let one go past him, for which the batsmen ran 3. Although Webb's last over was a maiden, Hayward went on in his place, and Sandland, who had the last ball of the day, secured a maiden.

4 for 56.

SECOND DAY.

Play was resumed punctually at 11.30 on Saturday morning, when Jolly (27) faced the bowling of Thomas from the river end. Off the fifth ball he scored a single. Hayward took up the trundling from the cathedral end, and Jolly added 5 to his total in his first over. Thomas then changed ends, and Campbell took his original place. Willsmore was stonewalling, but at length hooked Thomas for a brace. Soon afterwards Campbell got Jolly, who had compiled a well-played 36.

5—36—68.

Smith came in, and in trying to "slam" the second ball was clean bowled.

6—0—69.

Chapple filled the vacancy, and played the remaining ball of the over. Willsmore late cut Campbell beautifully for 3. Webb went on vice Thomas, and troubled Chapple at first. In the next over Ernest put one of Campbell's to the pavilion, but he was soon bowled by Webb. Webb's average at this point was 2 for 3.

7—4—79.

Hayward replaced Campbell, and bowled a maiden to Willsmore. Drew started his account with a single off Sandland, who was now bowling at the south end. Drew glanced a ball to leg, and a single was run. Then as the fieldsman mulled the ball both batsmen started again, but hesitated. Suddenly

Drew bolted down the pitch, and Willsmore crossed and was easily run out.

8—11—88.

Taylor, who filled the vacant crease, lost no time in knocking up 7. Then hitting Campbell to leg for 2 he brought 101 into view amid great cheering. A smart piece of fielding by Parker stopped one of Drew's drives. The next over was a maiden. Taylor touched Campbell's first ball, and Hodge held it.

9—9—101.

Waldeck came in, but when he had made 3 Drew placed one of Campbell's into the safe hands of Parker at mid-off, and the innings closed for the small total of 104.

ST. PETERS' SECOND INNINGS.

Jennings and Hodge began Saints' second innings at 1.45 p.m. Jennings took strike to Drew, and a nice back cut realised 3. Osborne took charge of the bowling at the other end. Neither batsman could get the bowlers' length at first. Jennings leg-glanced Drew for 2, and then hit him for 4, so his place was taken by Kirkwood, while Willsmore relieved Osborne. Jennings seemed to relish Willsmore's first over, and knocked 9 off the first three balls. But Willsmore soon had his revenge, as Jennings lifted a well-pitched-up ball into the hands of Kirkwood at mid-off.

1—42—65.

Hayward now came to the wickets.

Kirkwood bowled to Hodge the first maiden of the second innings. Scoring became very slow. Waldeck relieved Kirkwood and 3 runs were knocked off his first over. Hodge was tempted by Willsmore to hit out, and was caught in the deep field by Smith who took a splendid catch.

2—28—80.

After a few runs had been scored Taylor replaced Willsmore, and his first over resulted in 9 runs, 8 of which came from C. Hodge's bat. By leg-glancing Waldeck for 3, the captain brought three figures up. As runs were coming rather freely a double change was resorted to, Drew and Smith taking the places of Taylor and Welbeck. Owing to some smart fielding, Hodge, as in the first innings, was nearly run out by Jolly. Osborne now took Smith's Place, and the change proved effective as Hodge lifted one into Kirkwood's hands at mid-off.

3—51—160.

Parker opened his account with a single off the last ball of the over. Hayward, who had been scoring consistently, pulled Kirkwood for 4. With 170 up Taylor relieved Osborne, and his first over was a maiden. Hayward reached C. Hodge's score by driving Taylor for 3. Willsmore went on vice Taylor, and Parker returned the fifth ball into the bowler's hands.

4—13—194.

Campbell, who now appeared, was

soon dismissed by Waldeck for a o.

5—0—195.

Thomas filled the vacancy, and in Willsmore's next over brought the score to 200 by snicking him for a single. Hayward raised his score to 60, and then drove Drew for 4 (all run). Waldeck improved his average by bowling Thomas.

6—6—211.

With his next ball he clean bowled Lewis.

7—0—211.

Webb did not allow Harry Waldeck to get the "hat trick," but snicked the first away; by 5.30 he had only scored 1, Hayward being then 79.

THIRD DAY.

Play was resumed punctually on Monday morning, when Hayward faced the bowling of Kirkwood, 5 came off the over. Waldeck took up the bowling at the river end; Webb scored 6 and Hayward 1 from his first over. Hayward raised his score to 90 by putting a full pitch from Kirkwood to the boundary. 250 was brought to view by a leg glance for a single by Hayward. Both bowlers were changed, Osborne and Smith going on. Hayward at 98, in trying to put one of Smith's to leg, potted it up, but no fieldsman made an attempt to reach it. He soon afterwards reached the coveted century by hooking Osborne for a brace amidst great applause. Waldeck took Osborne's

place, and 3 were run for a beautiful on drive by Hayward off his second ball. Webb repeated the stroke, and added 2 to his score. Taylor, who until now had not secured a wicket, but had bowled well, and had had several chances off him dropped, now distinguished himself by successfully tempting Hayward to place the ball into the "sure hands" of Chapple at mid-off.

Hayward was carried off the field by some of his fellow players amidst great cheering; he had played a grand innings. Webb and Parr took the score on to 300, and in spite of some risky strokes kept up their wickets till the lunch adjournment.

Play resumed, Parr stepped too far forward to one of Taylor's, and was smartly stumped by Jolly.

9—11—315.

Webb was now let off by V. Drew, who was fielding at leg in place of his cousin. Drew, being short, failed to get well under the ball. Shortly afterwards Jolly again distinguished himself by very smartly stumping Webb, who reached out to Kirkwood.

The total was then 329, Sandland being not out with 7 to his credit.

With the difficult task of having to make 395 to win our fellows started their second innings. Willsmore accompanied Jolly to the wickets. Norm. took strike to Sandland, and off the fifth ball scored 2. Thomas led off at

the Cathedral end, and Willsmore placed the second ball for a single. Thomas soon got his length, and sent down a maiden to Willsmore. Parker, who was at mid-off, succeeded well in stopping Jolly's drives. Hayward relieved Sandland, off whom runs were being scored freely, and Thomas was replaced by Webb.

Willsmore apparently appreciated the change, and scored 6 from Webb's first over, the last hit bringing up 30 on the board.

As runs continued to come Campbell was put on in place of Webb. A smartly run single brought 50 up on the board. Hayward now had a rest, and Willsmore cut his third ball from Parr to the chains. No wickets for 66, and our hopes were rising. Thomas again went on at the river end, and at last bowled Willsmore, who had played a splendid innings.

1-34-66.

Bob Osborne joined Jolly, and runs for some time came very slowly. Osborne drove Thomas for 4, but was clean bowled next ball.

2-6-74.

C. Osborne came in and played the remaining balls of the over. Jolly with a neat cut for 3 brought his score to 34, but soon after was caught behind off Thomas.

3-34-85.

Kirkwood came to Osborne's assistance to continue the uphill fight, but

after having played a few balls Wells seemed to lose heart and was bowled by Thomas.

4-0-85.

Magarey was the next to appear and played a couple of overs without scoring. C. Osborne, however, drove one from Thomas to the boundary. At the close of the over the 4 o'clock adjournment took place.

Play was resumed at 4.25, and Magarey kept up his wicket for several overs without breaking his duck. Osborne continued to score, and Magarey finally slipped Campbell for 3, but Thomas soon after clean bowled him.

5-3-97.

Smith came in determined to make some runs, scored a single off Thomas, and then drove Campbell for 3, thus bringing the score to three figures. Osborne put Campbell to square leg for 4, and brought the total to 105, 1 over the first innings' score. Smith placed a ball from Thomas to the boundary at leg. Sandland and Webb then relieved the bowlers, and the first ball from Webb resulted in Smith's being run out.

6-8-110.

Chapple cut his first ball for 1. Osborne played an off ball from Sandland on to his wicket and had to retire, having just reached his 20.

7-20-112.

Drew made his appearance with

Waldeck to run for him, as he had hurt his knee during Saturday's play. Waldeck's assistance was not required for long, for Drew was clean bowled by Webb.

8—2—117.

Chapple scored 3 for a leg hit off Sandland, and next over a single, which resulted in Taylor being nearly run out. The latter, however, was caught in the slips by Hayward off Webb's next ball.

9—0—121.

Waldeck was the last to come in and drove Webb for 1. The bowlers were now changed; but Chapple continued to score. Finally Webb bowled Waldeck for 2. Chapple, 13 not out.

10—2—131.

CENTURIES SCORED IN ABOVE MATCHES.

1884—C. Hayward, S.P.S.C., 126.
 1885—J. Darling, P.A.C., 252; Fry,
 P.A.C., 125.
 1886—Lander, S.P.S.C., 115.
 1893—C. Hill, P.A.C., 360 retired;
 Homburg, P.A.C., 100.
 1896—Verco, P.A.C., 108 not out.
 1898—Hayward, S.P.S.C., 112.

Notes.

Reds, 8 wins. Blues, 12 wins.

"'Twas not ever thus!"

Our last defeat a surprise to many.

Wanted—cooler heads and stouter hearts. There is a tendency to make the Oval Match a matter of life or death, so confidence is easily wrecked and nerves are quickly unstrung.

A successful cricketer should be a bit of a stoic.

Our batsmen were too content with mere "passive resistance," which doctrine is a delusion and a snare after the first overs, it makes a bowler aggressive and saps a batsman's confidence.

Our fielders should should first field the ball, then, without any preliminary flourish of the arm, let the wicket-

keeper have it hot, and in such a way that he can take it at the height of the bails.

Off-theory is very much 'oph'—with boys.

Norm. Jolly the best wicket-keeper since the days of Clem. Hill. His batting was much admired, though, like Willsmore who so gallantly "kept the bridge" with him, he makes the mistake of crouching too low and holding his bat too near the blade. It is safe, but means loss of power in the stroke.

Smith's running catch, the finest piece of work in the match.

Drew and C. Osborne were naturally "sick" when two good bats like Willsmore and Smith were run out.

The weak spots in our field were very evident. Our captain, Kirkwood, Smith, and Waldeck did the best work. Taylor improved as the game advanced.

Waldeck bowled splendidly and looked like doing the hat-trick. If he had!

Osborne and Hodge had quite an array of bowling talent at their disposal and worked their bowling well. They are both almost ideal captains.

Kirkwood was indeed down on his luck! But has not the real Ranji earned his pair, and did not Hodge the Greater succumb last year to the "baleful turns"? Kirkwood was quite himself in the field, and we may look forward to a batting display that will

do his reputation ample justice when next the oval teams meet.

C. Osborne batted in style for his 20, but why that feminine stamp of the foot? Such expressions of wrath "were better left unsaid."

We were glad to notice so much "bon camaraderie" between the rival teams; but what about that sorry exhibition of concentrated malice and boorish barracking in the pavilion on Monday afternoon! It went to the heart of all true sportsmen.

For St. Peter's, Thomas's bowling in the second innings was first-class. Six wickets for 30 runs proves the deadly character of a slow good length ball in the hands of a man who can break both ways.

Hayward's 112 was a performance which compelled admiration, for the bowling was never loose, and we congratulate him on the revival of the "family complaint." It was in 1884 that his brother made 126 against us.

Jennings and Parker are their two most finished bats. The former's second innings was a display of almost perfect batting, the way he has of placing the ball to leg being reminiscent of Clem Hill and Ranji. Parker is a "little wonder"; his wristiness is remarkable in one so young, and P.A.C. may "look out for squalls" from that quarter in coming years.

The new blazers a step in the right direction, but why so much white and

so little red? Had this anything to do with our players being "off color"?

Our practices this season have suffered through the enforced absence of our popular coach, Joe Darling. We hasten to express our deepest sympathy with him in his trouble.

We can boast of no "centuries" this season, but the following are "captains of fifties":—R. and C. Osborne, Jolly, Kirkwood, and Magarey for the first eleven; and Nesbit for the second eleven.

Our seconds opened badly, but soon pulled themselves together. They have won 3, lost 2, and drawn 1. Nesbit and Haslam have done well with the bat.

Our thirds have won 2 and lost 2. Unfortunately their records are dubious. If they wish their great deeds to be handed down to posterity they must keep their archives intact.

Form matches next term.

The football shields a fact.

Mr. Mitton the "best 'single' tennis player in his class." May he long remain so!

The Fifts easily defeated the Lower Forms, R. Hill scoring 83. The two Fifts also tried conclusions, victory resting with the Upper, for whom Rōoney hit up 60 and Noltenius 51.

A select coterie of juniors play cricket in the back yard. 'Tis said that the chief qualification for membership is good lung power, and that the local

poultry that hang about the out-field are about to enter a protest against this encroachments on their preserves. We shall support the protest.

Cricket.

FIRST ELEVEN.

In order that we might have practice both in batting and in fielding, the agreement was made with each team we played this season that the side which obtained first use of the wickets should close its innings at 5 p.m., and thus leave an hour during which the opposite side might bat. However, whenever our opponents went in first we always managed to dispose of them before the appointed time.

MATCHES.

P.A.C. v. Kensington — Played October 8 and 15. Since the Kensingtons were very anxious to beat us, it was arranged that this match should be played on two consecutive Saturdays in order that each team might have time to complete one innings. On the other hand, we have always considered this a "silver-medal match," since in it two or more fifties are nearly always scored. But this time we were doomed to disappointment; the first six batsmen were down for under fifty, and things seemed hopeless till Willsmore came in. He carefully compiled 33 and was well assisted by Waldeck

and Smith. The Kensingtons succeeded in passing our total though not by many. The scores were:—P.A.C., 145; Kirkwood 14, Willsmore 33 not out. Waldeck 18, Smith 19; Osborne five for 46, Waldeck two for 8, Drew two for 41. Kensington 163; W. B. Bruce 34, W. Bruce 57, Stock 24, Auld 29.

P.A.C. v. Sundridge—Played October 22. The play of this team was much inferior to that of the teams which we are accustomed to play against, and so the bowlers and those of the team who batted had a very good time, materially improving their averages. Scores were:—P.A.C., one for 217; Jolly 89 n.o., Magarey, 63 n.o., Smith 29; Taylor five for 11, Osborne two for 28. Sundridge, 71; Ambrose 23, J. Heath 19.

P.A.C. v. Electric Telegraph—Played October 29. Bob Osborne lost the toss for the first time this season, and as the Telegraphs had the reputation of being a strong batting team, we expected a good afternoon's leather-hunting. However, we were agreeably surprised, and their dismissal for such a small score was due mainly to the fine bowling of Taylor, and the smart wicket-keeping of Jolly, and fielding of the team. Chittleborough was the only batsman who caused trouble; he was not dismissed till he had compiled 46. Our batting was again in evidence. Scores were:—P.A.C., two for 144;

Jolly 55 n.o., C. Osborne 43, D. Osborne 38 n.o.; Drew two for 20, Osborne three for 42, Taylor four for 12. Electric Telegraph, 72; Chittleborough 46.

P.A.C. v. Colleetown — Played November 5. Fine bowling by Webb, backed up by good fielding, caused the dismissal of seven of our batsmen for 38, but then Willsmore and D. R. Osborne became associated, and by good batting raised the score to a respectable total before they were separated. We succeeded in getting rid of six of the opposing batsmen before time was called. Scores were:—P.A.C., 151; Magarey 17, D. Osborne 56 not out, Willsmore 43; Willsmore four for 11. Colleetown six for 84; Nicholls 42, Webb six for 43.

P.A.C. v. Seasides—Played November 12. This match caused us some anxiety, as twice in previous years the Seaside had failed to arrive, and since the intercolonial match began on this date it was feared that we should again be disappointed. By 3 p.m., however, they all arrived safely, bringing with them one or two Ports. Goodwin and Wood batted well for the Seaside, Wood being especially free; but we did not reply with a very large score. Scores were:—Seasides, 104; Goodwin 22, Wood 43. P.A.C., three for 91; Kirkwood 32, Willsmore 25

n.o., Jolly 19; Kirkwood three for 11, Willsmore three for 11.

P.A.C. v. Bankvilles—Played November 19. This may be considered our best performance for the season, and indeed was said by the Bankvilles to be the best performance against them for two years. They have a team very strong in batting and by no means weak in bowling. Our representatives kept possession of the wickets till 5 p.m., and then allowed five of the opposing team to make 59. Scores were:—P.A.C., three for 170; Smith 30, Taylor 25, C. Osborne 85 n.o.; Taylor two for 15, Osborne two for 25. Bankvilles, five for 59; Gapp 26, Edgumbe 19 n.o.

P.A.C. v. Waverley — Played November 26. This is generally considered our best fixture for the season, as the Waverleys have a good team, strong both in batting and in bowling. On this occasion, however, all their best players were absent, being engaged in the match between Saints past and present scholars; this was a source of great disappointment for us, as we wanted the good practice. Batting first we scored 156 for five wickets. C. Osborne 42, D. Osborne 79, and then dismissed five of our opponents for 100. Taylor obtained four wickets at a cost of 33 runs, and Willsmore one for 17.

Past v. Present—Played November 28. This date was set apart for a

match on the Adelaide Oval between the College and the University team, but the Universities were unable to obtain the use of the Oval, and so a match was arranged with the Old Scholars. They got together a strong team comprising R. Homburg, Vic. Hugo, T. M. Drew, W. D. Taylor, R. Magarey, H. Chapple, and others, and allowed us first use of the turf wicket, which was a very good one considering the rain which had fallen a little before. The bowling of Hugo, Homburg, Drew, and Taylor, seemed to frighten our players, who were dismissed for 57, Smith 13, and Jolly 14, being the only scorers who reached double figures. The Old Scholars then went in and gave us a merry time, compiling 186 before being dismissed. Taylor 63 (retired), R. Magarey 33, V. Hugo 22, Homburg 16, Chapple 17. The bowling for us was done by Drew two for 26, Willsmore three for 24, Kirkwood two for 29, and Smith one for 9.

FIRST ELEVEN AVERAGES.

BATTING.					
Name.	Runs.	Highest Score.	No. of Inns.	Not Out.	Avg.
Jolly	265	89*	9	2	37.8
Osborne, D.	215	79	8	2	35.8
Osborne, C.	212	85*	8	1	30.2
Willsmore	146	43	7	2	29.2
Magarey	115	63*	7	2	23
Smith	100	30	7	0	14.2
Taylor	41	24	4	1	13.3
Waldeck	41	18	6	1	8.2

Kirkwood	46	32	7	0	6.7
Chapple	37	13*	8	2	6.1
Drew	29	7	5	0	5.8

SECOND ELEVEN MATCHES.

P.A.C. v. S.P.S.C. II. — Played October 15. S.P.S.C., 132; Hayward 28, Mayo 18, Edwards 26. P.A.C., four for 20; Drew 7.

P.A.C. v. Semaphore II. — Played October 29. P.A.C., 31; Haslam 12. Semaphore, 149; Barrett 15, McPherson 41, Hibbottson 41, Board 15.

P.A.C. v. Erindale. — Played November 5. Erindale, 60; Hastwell 17, Inglis 16. P.A.C., 118; Drew 16, Hill 12, Rooney 25, Logue 28.

P.A.C. v. S.P.S.C. II. — Played on Nov. 12. P.A.C., seven for 150 (innings declared closed; Drew 12, Nesbit 55 retired, Haslam 20, Hanton 18, Holland 13, Jefferies 14 not out. S.P.S.C., six for 95; Mayo 19, Edwards 42, Sewell 15 not out.

P.A.C. v. Semaphore United. — Played on November 19. P.A.C., 150; Nesbit 40, Hill 10, Has-

lam 43, Sullivan 24, Holland 15. Semaphore, 26; Moore 9.

P.A.C. v. Erindale.—Played Nov. 26. P.A.C., 87; Nesbit 17, Haslam 15, Porter 27. Erindale, 42; Inglis 20 retired.

THIRD ELEVEN MATCHES.

P.A.C. v. Woodville—Played on October 22. P.A.C., 99; Holland 10, Rooney 49, Judell 12. Woodville, 75; Donkey 21, Little 14.

P.A.C. v. S.P.S.C. III.—Played on November 12. S.P.S.C., 31. P.A.C., 53; Sullivan 13, Edwards 17.

P.A.C. v. King's School—Played November 19. King's School, first innings, 52; second innings, five for 51. P.A.C., first innings, 49; Hooper 10; second innings, 29 for no wickets; Hanton 8 n.o., Judell 12 n.o.

P.A.C. v. Way College—Played Nov. 26. P.A.C., 117; Sandland 28, Potter 42, Judell 10. Way College, 136; Symons 25, Richardson 43, Bagshaw 17.

CRITIQUE OF THE FIRST ELEVEN.

(By the Captain).

E. Chapple—A good fielder and fair catch. A good bat, with a splendid forward stroke. His bat has not produced as many runs as was expected, but this is mainly due to nervousness. If he could only place more confidence in himself he would prove a powerful run-getter.

A. S. Drew—His position in last

year's team, as well as this, is chiefly on account of his bowling powers. He opens the attack with a fast, good-length ball. He is also a good field, and is a batsman of the hitting persuasion.

N. W. Jolly (vice-captain)—The wicket-keeper of the team. He takes slow and fast bowling with equal skill from either side of the wicket. He very rarely misses an opportunity of snapping the bails off if a batsman moves his back foot. As a batsman he ranks amongst the first in the eleven, and has proved a very consistent scorer.

H. Kirkwood—A very smart and reliable fielder at mid-off. A brilliant bat, having a variety of strokes. A very difficult man to get rid of when once he has overcome his nervousness. He is a good change bowler, bowling a fast length ball.

W. Magarey—A very patient and reliable bat, but he should play forward more than he has done in the past season. This fault has lost for him his wicket on more than one occasion. He puts in some clean fielding at mid-on.

C. Osborne—Through the season he has fielded very badly, but, in the match against St. Peter's, he proved to be a reliable field and thus redeemed his reputation. A dashing bat with a strong defence. He has plenty of confidence and is a consistent scorer.

E. A. G. Smith—A left-hand batsman with a strong defence. His leg

stroke and drive produce most of his runs. He is a very reliable field and a sure catch. A good left-hand fast bowler.

A. R. Taylor—The smallest player in the team. A splendid lob bowler, breaking both ways. He has obtained many wickets through the season. A fair bat; the cut is the most productive of his strokes. Does some smart work at cover point.

H. Waldeck—Obtained his position in the team on account of his bowling. He bowls a straight fast ball. He keeps a splendid length, and thus keeps the runs down. A smart field at slips and at long-off.

A. Willmore—A batsman of the stonewalling type, but shows a decided partiality for loose balls by punishing them severely. He has a very strong defence. A left-hand lob bowler with a natural break from the leg, which rarely fails to prove troublesome to a batsman. He is a good field at point.

(By the Team.)

R. Osborne (Captain)—A left-hand batsman with a strong defence. Scores most of his runs behind the wicket. A good bowler breaking both ways, and a sure field. Makes a splendid captain.

Cricket Medals.

The Headmaster very kindly gives a silver medal to any member of the First

Eleven who makes at least fifty runs in a first eleven match, and to any bowler if he obtains three wickets in one over. These medals are greatly prized by the team, and thus encourage diligent efforts both with the bat and ball.

Of these medals, Jolly has obtained three. The first by making 56 against the Kensingtons in April, the second against the Sundridge. In this innings he scored 89 n.o. by beautiful cricket. His third he secured the following Saturday by compiling 56 n.o. against the Electric Telegraphs.

D. R. Osborne has succeeded in winning two. One by making 56 n.o. against the College Towns, the other against the Waverleys, making 79.

C. H. Osborne has one presented to him for making 85 n.o. against the Bankvilles.

W. Magarey, for making the fine score of 63 n.o., also receives one.

H. Kirkwood has one medal also, for the score of 57 against the Kensingtons in April.

A. Willmore is the only bowler who has been successful enough to capture three of the opponents' wickets in an over. This feat he accomplished against the College Towns.

N. W. JOLLY,
Hon. Manager.

The Junior Picnic.

It has been usual in past years for the Fifth Form to have an outing on the day following the junior, and this year no exception was made to the time-honored custom. Over a score of boys left Adelaide by the 10.20 train on November 28, their destination being the National Park. With the city were left behind all thoughts of exams., and everyone made up his mind to have a good time. After a few minutes' walk from the Belair Station a nice oval was reached, with tennis courts near. Soon a cricket match was in

Progress between two elevens, captained respectively by Howie and Nesbit. The former having been disposed of by 12.30, an adjournment was made for lunch in a rustic summer-house. Each spread his repast *pro bono publico*. Needless to say, the table was soon bare. Just as play was about to be resumed, the rain, which had been threatening all day, descended in torrents. Still, although showers were frequent during the afternoon, the match was continued till 5 o'clock. By then Howie's team had been declared the victors by one run. The batting was not brilliant, to judge by the number of "ducks' eggs" exhibited by the scoring sheet, but Nesbit's 52 (retired) and Throssell's 31 were well put together. A tennis court was also kept going during the afternoon. Town was reached at 6.30 after what all voted to have been a most enjoyable day. The thanks of all concerned are due to Colebatch, our dux, who arranged for excursion fares and in other ways helped to make the outing a success.

Subscriptions.

We beg to acknowledge with thanks the receipt of the following subscriptions:—Messrs. A. Devenish, 2s. 6d.; L. Buring, 4s.; C. H. Frost, 2s. 6d.; J. H. Angas, 2s.

Our Contemporaries.

Prince Alfred Old Collegians’ Association.

The new committee held their first meeting on Tuesday, November 8, under the presidency of Mr. A. Hill. The most important business transacted was the election of Messrs. W. L. Angas, S. Rymill, and J. H. Downer, as members of the Association; the striking off of about 35 old members, who had ceased to pay subscriptions, and in other ways to take interest in the Association; and to fix the date of the summer smoke social.

The social was eventually held in the Old Exchange Room, on Friday evening, December 2nd. It was hoped that being held on the first day of the cricket match, there would be a record attendance, especially as so many members had asked that the social should not be held on Saturdays. The attendance was not quite up to the average, this no doubt being partly due to the Continental on the Adelaide Oval. The programme was a capital one, consisting of songs by Messrs. Chapman, Trudgen, Lathlean, Rowley, Vardon, Newman, and Langley; and recitations by Messrs. N. R. Webb, Forwood, Hall, and J. T. Cooper. A novelty was the series of selections on the gramophone. These, however, were not as successful as they might have been. Light refreshments were provided, and everyone seemed pleased with their evening’s enjoyment.

I have as yet received no response to my enquiry in the last *Chronicle*, about a receipt for a member’s subscription not being claimed. I should be glad to know to whom to credit this subscription.

Christmas.

Speech Day.

Cricket Match.

Oh, what a disappointment!

Win for St. Peter's by 263.

Jolly was our best all-round man.

Willsmore batted well in the second innings.

The football shields are now adorning the classrooms.

All boys in the higher forms should join the Old Scholars' Association on leaving College.

Make an early start and try to win the football, Princes.

All old P.A.C. medical students passed this year at the Adelaide University.

Others are doing excellently at Melbourne and Sydney.

Smith fielded well, and made one specially brilliant catch.

Good luck to the First Eleven in their match against Wesley College, Melbourne.

The new First Eleven blazers are a great improvement on the old 'striped enormities.'

The school crest looks well, and meets with general approbation.

A Fragment.

That the spirit of bribery and corruption so rampant during the reign of George II. has not yet died out is shown by the following delightfully simple note, which was intercepted during night-school:—

My Dear Dave,

Please tell me what you get for your sum, the fraction. *I have got some cake.*

Little by Little.

One step and then another,
And the longest walk is ended;
One stitch and then another,
And the largest rent is mended;
One brick upon another,
And the highest wall is made;
One flake upon another,
And the deepest snow is laid.

Then do not look disheartened
O'er the work you have to do,
And say that such a mighty task
You never can get through;
But just endeavor day by day
Another point to gain,
And soon the mountain which you feared
Will prove to be a plain.

Happiness and whiskers are things
that money cannot buy.
