

# Prince Alfred College Chronicle

UBI NON EST SCIENTIA ANIMÆ NON EST BONUM.

VOL. VI—No. 67.

ADELAIDE, DECEMBER 18, 1900.

[PRICE SIXPENCE.]

## Notes and News.

In "Assembly" on Dec. 12 the Head Master read a kind letter from His Excellency the Governor, of which the following is the principal paragraph:—

"I write to ask if you will kindly grant to the boys of Prince Alfred College a half-holiday in honor of the proclamation of Australian Federation. The occasion is one of deep importance in the history of Australia. I trust that the boys will realise that they have now become citizens of a vast Commonwealth, and that on their generation a special responsibility will rest, for just at that time when they will be leaving school and going out into the world to take their part in public affairs, traditions will be founded which will influence the nation for many years to come. May every individual resolve to do his utmost that the sentiments which shall guide the young Commonwealth shall be those of loyalty, patriotism, and honor. Pray read this letter to the boys"

After a few words thanking Lord Tennyson, and pointing out some of the things we ought to be thinking about the great event of Federation,

especially as so eminent and wise a person as the Governor thought so much of it, the Head Master agreed to give the half-holiday. So we sang a verse of the National Anthem and cheered the Governor heartily.

The "Speech Day" gathering is to be held in the Adelaide Town Hall in afternoon of Wednesday, Dec. 19th. His Excellency the Governor was unable to take the chair upon this occasion; but he has been good enough to promise to do so next time. We return him our heartiest thanks.

The Committee of the College have invited Professor Bragg to distribute the prizes, and we are glad to say that he has accepted the invitation. For many years our old boys at the Adelaide University have enjoyed the benefit of the lectures and instruction of Professor Bragg in Mathematics and Physics; and how much they have valued these we all know. Then as President of the Adelaide Teachers' Guild and as one of the University Council and Staff, he has always shown great interest in the working of the schools, and has given of his thought and trained intelligence for their welfare

continually. We beg to assure him of the heartiest possible welcome.

The programme has been shortened. Many seemed to think it too long for a summer afternoon. There was to have been a string quartet included, but the too early departure of a boat to W.A. has taken one executant.

The Sixth Form are to be congratulated on the Senior lists just issued. Especially so is Fred Ward, who has taken eight subjects and has passed in all, with the credit mark in every one. This was done once before by Norman Jolly in 1898, and it was thought little likely to be repeated. However, here it is again. This secured for Ward the John Dunn Scholarship worth £150. It is expected that the University authorities will award to him the Hartley Studentship, which will entitle him to three years at the University without fees. On the Special Subject lists Ward stands first in German, Latin, Physics, and Applied Mathematics, second in Pure Mathematics, third in Geology, and fourth in Greek. J. R. Wilton has the second place on the list as a whole, and has been recommended for the First University Scholarship. On the Special lists Wilton is first in Pure Mathematics, Chemistry, and Geology, second in German and in Physics, and fifth in Latin. The full list is given below.

An asterisk denotes that the "credit" mark was earned on that subject.

#### SENIOR PUBLIC EXAMINATION.

##### First Class.

Hooper, C. W.—1\*, 2, 5, 7, 9\*, 10.

Plummer, R. G.—1, 2\*, 3, 7\*, 10, 12\*.

Ward, J. F.—1\*, 2\*, 3\*, 5\*, 7\*, 8\*, 10\*, 12\*.

Wilton, J. R.—1\*, 2\*, 5\*, 7\*, 8, 9\*, 10\*, 12\*.

##### Second Class.

Büring, O. R.—1, 2, 5\*, 7, 9, 10.

Lewis, L. T.—1, 2, 3, 5, 7\*, 10.

Lloyd, A. B.—1, 5, 7, 8, 9\*, 10, 12\*.

Moore, G. D.—1, 2, 5, 7\*, 9, 10.

Roach, P. A.—1\*, 2, 5, 7, 9, 10.

Shierlaw, N. C.—1, 2, 4, 7, 9\*, 10.

##### Third Class.

Cooper, R. W.—1, 2, 5, 9, 10.

Dawson, D.—1, 2, 5, 7.

Latty, C. P.—1, 2, 5, 7, 9, 10.

Noltenius, A. R.—1, 2, 5, 10.

Rooney, F. G.—1, 2, 7, 10.

##### Fourth Class.

Cowell, H. H.—1, 2, 7.

Cowan, F. H.—(March) 1, 2, 4, 7.

1, English; 2, Latin; 3, Greek; 4, French; 5, German; 6, Italian; 7, Pure Mathematics; 9, Chemistry; 10, Physics; 11, Botany and Physiology; 12, Physical Geography and Geology.

##### Credit List.

English—7, J. F. Ward; 9, C. W. Hooper; 11, J. R. Wilton; 13, P. A. Roach.

Latin—1, J. F. Ward; 5, J. R. Wilton; 11, R. G. Plummer.

- Greek—4, J. F. Ward.  
 German—1, J. F. Ward; 2, J. R. Wilton; 4, O. K. Buring.  
 Geology—1, J. R. Wilton; 2, R. G. Plummer; 3, J. F. Ward; 4, A. B. Lloyd.  
 Pure Mathematics—1, J. R. Wilton; 2, J. F. Ward; 4, G. D. Moore; 8, R. G. Plummer; 9, L. T. Lewis.  
 Applied Mathematics—1, J. F. Ward.  
 Chemistry—1, J. R. Wilton; 2, A. B. Lloyd; 2, C. W. Hooper; 5, N. C. Shierlaw.  
 Physics—1, J. F. Ward; 2, J. R. Wilson.

The "Junior" list of 1900 is the best we have ever had in several respects. First, the number of passes is the largest, 31. Then for the first time some from the Lower Fifth competed and two of them passed. Lisle Darwin, the Dux of the Fifth, has won the Second University Prize, worth £5. The First Prize was won by a boy who last year gained the Second Prize at this same examination.

#### JUNIOR PUBLIC EXAMINATION.

##### First Class.

- Darwin, L. J.—1\*, 2, 5\*, 6\*, 7b.  
 Flecker, H.—1, 2, 5\*, 6\*, 7b\*.  
 Kleemann, W. H.—1, 2\*, 5, 6, 7b\*.  
 Schild, S. D.—1, 2, 5, 6\*, 7b\*.

##### Second Class.

- Bowen, H. L.—2, 5, 6, 7b\*.  
 Evans, R. S.—1, 2, 5, 6\*, 7b.

- Fry, H. K.—1, 2, 5, 6, 7b\*.  
 Jackman, C. S.—1, 2, 5, 6, 7b\*.  
 Moffat, W. D.—1, 2, 5, 6, 7b\*.

##### Third Class.

- Cowan, D. R. W.—2, 4, 6, 7b.  
 Ellis, F.—1, 2, 6, 7b.  
 Hese, V. H.—1, 2, 5, 6.  
 Hill, H. E.—1, 2, 5, 6, 7b.  
 Holden, E. W.—2, 4, 6, 7b.  
 Padman, W. S.—1, 6, 7b.  
 Pilgrim, F. S.—5, 6, 7b.  
 Richards, A. C.—5, 6, 7b.  
 Verco, R. J.—1, 2, 5, 6, 7b.  
 West, J. S.—1, 5, 6, 7b.

##### Not Classed (over 16 years of age).

- Bray, C. S.—1, 2, 5\*, 6\*, 7b\*.  
 Catchlove, S. G. L.—2, 5, 6, 7b.  
 Christoph, H. A. W.—2, 5\*, 6, 7b.  
 Close, F. W.—1, 3, 5, 6, 7b.  
 Drew, W. A. V.—5, 6, 7b.  
 Doudy, C. P.—1, 2, 5, 7b.  
 Fraser, P. A.—1, 2, 5, 6, 7b.  
 Richards, G. W.—1, 2, 6.  
 Shortt, C. E.—1, 2\*, 3\*, 6, 7b\*.  
 Stow, E. R.—1, 2, 5, 6, 7b.  
 Temby, W. N.—1, 2, 5, 6\*, 7b.  
 Wight, A. R.—1, 4, 6, 7b.

1, English; 2, Latin; 3, Greek; 4, French; 5, German; 6, Mathematics; 7b, Chemistry.

##### Credit List.

- English—1, L. J. Darwin.  
 Greek—1, C. E. Shortt,  
 German—2, H. A. W. Christoph;  
 4, L. J. Darwin; 5, H. Flecker; 7, C. S. Bray.

Latin—4, W. H. Kleemann; 6, C. E. Shortt.

Mathematics—1, L. J. Darwin; 5, C. S. Bray; 8, W. N. Temby; 10, S. D. Schild; 12, R. S. Evans; 13, H. Flecker.

Chemistry—3, H. K. Fry; 5, C. S. Jackman; 5, C. E. Shortt; 7, S. D. Schild; 7, W. H. Kleemann; 10, C. S. Bray; 10, W. D. Moffat; 14, H. Flecker; 16, H. L. Bowen.

The Cadet Corps is to have an honorable representation at the inaugural ceremony at Sydney. Of the ten going from S.A. we hear that at least six are P.A.C.'s past or present. The University (A Company) are sending four, and of these Fleming, Vaughan, and Atkinson are "old Reds." Our own C Company has chosen worthy men in Robertson and Stirling, and from D Company, East is to go. We congratulate them upon being chosen and the life-long benefits likely to accrue from the visit.

Very disappointing some of the papers at the Senior Examination were. The credit candidates at the Senior English found not a single question on "Macbeth," the best of the three books set, and to which they had devoted most attention. The Chemistry paper was chiefly on the non-metals, the work of the Fifth Form, and little on the later work. The French credit paper

had no Grammar on it, and yet how hard has been the grind at this.

Kirkwood has received an appointment at the Bank of Adelaide. Hill and Noltenius have done well at the examination for entrance at the A.M.P., and seem likely to be appointed there. We shall miss all three. They leave a good name behind them in classroom and playground.

### Old Boys.

We congratulate Spencer Churchward on the brilliant close of a successful course for his Bachelor of Arts degree, First Class Honors in Mental and Moral Philosophy. Couldn't be higher on the lines chosen. The numerous "old boys" who still hold in high honor and grateful memory the name of his father, so long a leading member of the staff at P.A.C., rejoice with the newly crowned Bachelor:

The Bachelor of Laws degree has been gained by J. H. Vaughan and E. C. Padman, who is also one of the Stow Prizemen.

The degree of Bachelor of Science with honors has been conferred upon Harold Chapple, A. S. Clark (second class honors in Geology and Mechanics) and B. H. Moore (first class honors

in Geology and second in Applied Mechanics). Our heartiest congratulations are hereby tendered to these new graduates.

Norman Jolly is continuing his successes on entrance and for last year. He again has "credit" in both branches of his course, Mathematics and Physics.

The following "old Reds" have passed in various stages of their Law courses:—In Constitutional Law, S. H. Fleming (third class); in Law of Procedure, R. G. Nesbit and A. H. O. Atkinson (second class); in Law of Wrongs, T. H. Nicholls (third class); in Logic and Psychology, D. R. Osborne (third class).

In the examinations for the degree of M.B. at the University of Adelaide the following successes have been obtained by our old boys:—In the first year, Malcolm Scott obtained the only first-class pass and was awarded the Physiology prize, and R. G. Burnard gained a second-class pass.

In the third year, F. F. Muecke has the only first-class pass, and gained the Dr. Davies Thomas Scholarship. In the second class R. E. Magarey and L. J. Robertson have obtained passes.

In the examinations for the degree of

B.Sc. the following old boys have passed in the various subjects:—

In Compulsory Mathematics—E. Chapple, W. L. Cleland, W. T. Magarey, and J. Shaw.

In Compulsory Physics—J. H. Allen, E. Chapple, W. L. Cleland, A. D. Greenlees, W. M. Hunn, L. M. W. Judell, W. T. Magarey, A. E. Paton, H. E. Pearson, H. J. Priest, J. Shaw, A. R. Taylor, and W. A. West.

In Compulsory Chemistry—E. Chapple, W. L. Cleland, A. E. Harrington, W. M. Hunn, L. M. W. Judell, W. J. McCarthy, W. T. Magarey, A. E. Paton, H. E. Pearson, H. J. Priest.

In Biology—W. M. Hunn, H. J. Priest.

In Pure Mathematics I.—B. L. Gardiner, B. W. S. McArthur.

In Applied Mathematics—E. Chapple, B. L. Gardiner, A. D. Greenlees, A. E. Paton, H. J. Priest, J. Shaw.

In Geology, Part I.—H. Basedow, W. G. Bell, W. L. Cleland, L. M. W. Judell, D. W. L. McArthur, H. E. Pearson, E. DeW. Whitham.

In the Special Mining Course the following successes have been gained:—

In Physics—W. G. Bell, E. Chapple, A. D. Greenlees, D. W. S. McArthur, W. T. Magarey, A. E. Paton.

In Surveying and Levelling—H. Basedow, W. G. Bell, D. W. S. McArthur.

In Organic Chemistry—B. D. Jolly.

In Assaying—W. Bell, B. L. Gardiner, and D. W. S. McArthur.

In the B.A. course we note with pleasure the following passes:—

In English—H. E. Noltenius, H. H. Rofe, P. J. Rofe, and F. J. Searle.

In English History—H. E. Noltenius and R. A. West.

In Psychology—H. H. Rofe.

In Pure Mathematics—G. F. Dodwell, H. H. Rofe, and R. A. West.

In Physics—H. E. Noltenius and H. H. Rofe.

We have been pleased to receive many visits from old boys lately—Stan. Jones and Bert Brown, back from the war; Dr. Zwar, on "furlough" from the Melbourne Hospital.

S. L. Dawkins has returned to his native land after a successful course at the University of Edinburgh, during which he gained the degrees of M.B. and Ch.B.

I. H. Boas, B.Sc., has added to his previous distinctions by obtaining Diplomas for Mining Engineering and Metallurgy, the latter with second class honors.

We are glad to hear that H. H. Formby and O. Leitch have won their degrees of Bachelor of Medicine and Bachelor of Surgery at the University

of Melbourne. This is at the Pass examinations. The Honors exams. come off in February, when doubtless these will be heard of again.

Frank Cowell has won the Howard Clark Scholarship at the Adelaide University (English literature Scholarship).

We hear from time to time of special events in the histories of "old boys" at the seat of war. The following item, cabled to our daily press, was read with special pride:—

#### GALLANT CONDUCT OF A SOUTH AUSTRALIAN.

London, November 20.

Reuter's agency describes a remarkable act of bravery in which a native of Adelaide won distinction. It states that Mr. Harvey P. Finlayson, only son of Mr. J. H. Finlayson, one of the proprietors of *The South Australian Register*, commanded a detachment of Cape mounted police, who went from the Modder River to relieve a body of Cape Highlanders who were beleaguered at Jacobsdal. When the Britishers were some distance from the town, Finlayson decided to move ahead of the foot police, and taking with him four mounted men, galloped into Jacobsdal. Arrived at the square in the centre of the town, the little band were greeted from all four sides with a fire from Mauser rifles; but, dashing

forward without a halt, they providentially escaped destruction, and gave hot chase to a number of fugitive Boer horsemen. After a while they returned to the town and arrested several "snipers."

Mr. Finlayson, Jun., was educated at Prince Alfred College, Adelaide, and is 20 years of age. Early in the war he went to Natal under engagement as a veterinary surgeon, and afterwards joined the Cape mounted police. For some time he was a prisoner in the enemy's hands.

Still another of our old boys has been rewarded by receiving a commission in the British Army. F. G. Sanders has been appointed a Lieutenant in the Royal Field Artillery.

### The Oval Match.

For the first time this season Kirkwood won the toss and decided to bat. Dean Dawson and Raws went first to the wickets, Raws taking strike against Thomas. The first over proved a maiden, and then Laycock took the ball at the other end. Dawson led off with the first boundary scored; following this up with a splendid drive which resulted in two. Raws was nearly run out, but succeeded in reaching his crease. At 28 Parker was put on in place of Thomas; and at 44 Thomas was again

tried instead of Laycock. Dawson greeted the change with a four. Then at 61 Pile was tried. Raws scored four off a pretty hit, but was soon after bowled by Pile.

1—40—79.

Kirkwood then joined Dawson and started off with a single. When the board showed 90 up, Laycock was again given the ball. Dawson brought the third figure on the board, and shortly afterwards scored four off a difficult chance to leg. Hood then took the ball, but without result. At lunch time the scores were:—Dawson, 72; Kirkwood, 51; total, one for 165. When six more runs had been placed to the credit of the batsmen, Parker, who all along fielded splendidly, did an especially brilliant piece of work. The separation soon followed; Dawson was bowled by Laycock.

2—83—188.

Drew next came in and saw Kirkwood bring up the second century by hitting two fours in succession. Kirkwood then hit the ball straight up to point and started walking off, but Hughes failed to take the opportunity. Parker then replaced Thomas, and at 216 Pile took the ball from Laycock. Kirkwood passed Dawson's score with a single, but in the next over was clean bowled after a very fine innings.

3—84—219.

Hill filled the vacancy, but the over passed without his scoring. Drew

notched a neat four to square leg off Pike and followed with a two and then another boundary. Shortly afterwards Thomas took Parker's place, and Campbell gave Pile a spell at the other end. Hill greeted the change with a four to leg, repeating the performance next over. Off a hard drive to the Cathedral, Hill risked being run out in running five. Laycock then resumed instead of Thomas at the river end. Parker clean bowled Drew.

4—37—280.

Four bowlers had so far each secured one wicket. Noltenius followed and broke his "duck" with a single, but was bowled by Parker without increasing his score.

5—1—282.

After the afternoon tea adjournment Wally Hewer came in, and immediately broke his "duck." Laycock then appealed for leg-before, but the appeal was not allowed. Hewer was very soon caught at leg off Laycock.

6—3—290.

Cowan now left the pavilion, and saw Hill reach 50 and the total 300, but was clean bowled at 6.

7—6—310.

Latty filled the vacant crease, but was caught and bowled by Parker in brilliant fashion for 2.

8—2—326.

Moffat next came to the wicket, and saw Hill, after some splendid hitting, bring the score up to 350 and make his

own score the highest of our first innings. Hill then, However, placed the ball in the sure hands of Parker, off Campbell.

9—85—350.

The last man to come in was Christoph, but he was dismissed by Laycock after breaking his "duck," Moffat remaining not out 11.

10—1—360.

Our opponents started their innings with a splendid score to reach, and they batted splendidly for it, though they were not quite equal to the task.

Duncan-Hughes and Hawkes were sent in at 20 minutes to 6, and they played out time without being separated. Total for no wickets, 15.

#### SECOND DAY'S PLAY.

Play was resumed on Saturday morning at 11.15 a.m., when Hughes and Hawkes faced the bowling of Kirkwood and Christoph. Hughes put Christoph to the asphalt, and in the next over Kirkwood clean bowled Hawkes.

1—9—20.

Parker joined his companion and soon ran into double figures, his first two hits being 3 and 4. As 48 Kirkwood caught Hughes at short-slip off Christoph.

2—16—48.

Jennings, whom the Saints consider their best batsman, next emerged from the pavilion, but the very first ball he patted back to Christoph, who secured

the catch, though he rolled over in the attempt. This exploit was greeted with a roar of cheering from the Princes' camp.

3—0—48.

Captain Campbell next appeared and destroyed Christoph's chance of the "hat trick" by carefully playing the first ball. Parker prettily cut two fours off Kirkwood. Campbell opened his account with a 4 off Christoph, and crept up to 13 by five singles and a couple of twos, when Christoph bowled him with a beauty.

4—13—76.

Lewis took the place of his captain. Things so far looked somewhat blue for our opponents, but the course of affairs was altered somewhat owing to three long stands in succession for the fifth, sixth, and seventh wickets. Parker treated both bowlers with scant respect, and in consequence Dawson and Hewer were put on in place of Kirkwood and Christoph. Parker did not seem to be disconcerted at the change, and brought his score up to 50 by three well-timed balls, scoriug 4, 3, and 4. Lewis meanwhile had been playing very carefully, and had only reached double figures when he saw Parker, who had been scoring very fast, and had played a sterling innings, run out by a piece of brilliant fielding on the part of Cowan. The retiring batsman had made 76, and had given only two very difficult chances to Kirkwood in the slips.

5—76—130.

Thomas next came forth to do battle for his side, and both he and Lewis played very slowly. Another change was made in the bowling, Hill and Raws trying their skill. When the board showed 37 to Lewis he hit one hard back to Raws, but owing to his injured hand the bowler failed to hold it. Lewis crept into the fifties, and was slowly progressing towards top score when Thomas was bowled by Hill.

6—32—198.

G. Campbell now wielded the willow and saw Lewis pass both the total put up by Parker (76) and also that by Hill (85). Noltenius was given a try at the bowling crease, and his three overs resulted in 13 runs, 12 of which were to Lewis. Campbell scored well, and his score included five (the result of an overthrow), and two fours. Kirkwood, seeing that things did not look too rosy for the Princes, went on again, and soon the change was effective, for he bowled Campbell with a "clinker" when the batsman had made a useful 46.

7—46—281.

Laycock then tried conclusions with the bowlers, who at this time were Kirkwood and Dawson, and quickly made 20, when Dawson broke through his defence and displaced the bails.

8—20—320.

Flood now came in, and starting

with a 4 saw Lewis complete his century. Soon after Kirkwood beat Lewis and captured his wicket with a beauty. Lewis made his runs at a critical juncture and saved his side.

9—107—338.

Pile was the last man in, and after hitting a fourer was dismissed by one from Kirkwood, leaving Flood not out with 6.

10—5—345.

With only ten minutes to bat on Saturday, Kirkwood sent in Hewer and Moffat as the initial batsmen. These two played out time without scoring.

#### THIRD DAY'S PLAY.

On Monday Laycock and Thomas were the bowlers. Moffat had the misfortune to be run out without scoring.

1—0—7.

Kirkwood now appeared on the scene, and seemed confident. He started with a two, and soon after saw Hewer bowled by Thomas.

2—7—16.

Dawson joined his captain. Parker was put on, and was hit to the boundary by Kirkwood, but in his next over Kirkwood essayed a lofty hit and was caught by Pile at mid-off.

3—10—36.

Hill then left the pavilion, and had a good reception. Both players scored freely, and Hill with three fours brought his total to 29. Hill was then caught low down by Jennings at mid-

on off Laycock. Dawson was playing well.

4—29—106.

Raws, who had a damaged finger, entered the arena, and being uncomfortable took a long time to make his 17 runs. Thomas bowled him when the total was 153.

5—17—153.

Drew took his place at the vacant crease. Dawson had been scoring very fast, and had reached 50 with the aid of six fours. He took his total to 87 in pretty style, when Thomas crashed into his wicket. During this partnership Parker and Pile were tried unsuccessfully.

6—87—162.

Noltenius came in, determined to show his skill to more advantage than he did in the first innings. Drew was bowled by Laycock after putting together 22 in good style.

7—22—190.

Cowan next appeared at the wicket, and saw Flood dismiss Noltenius by a catch at leg off Thomas's bowling.

8—13—192.

Latty now faced the bowling, and helped Cowan to bring the total to 228, when play was stopped. Cowan 16 not out and Latty 14 not out.

#### FOURTH DAY'S PLAY.

On the Tuesday the two not out batsmen went to the wickets and defied the bowling of Laycock, Thomas, Parker, Pile, Flood, and Lewis. The

pair batted well, and took the total to 273. At this point Parker bowled Cowan for a well-made 37. The pair had put on 81 for the ninth wicket.

9-37-273.

Christoph, the last man in, scored 13 by patient batting. Latty increased his total to 41, and then missed a straight one from Laycock.

10-41-298.

Christoph was 13 not out.

Saints now had 314 to make to win; their pioneer batsmen were Parker and Jennings—their best representatives. Kirkwood and Christoph were the trundlers. Parker cut Kirkwood twice for two and four, but in Kirkwood's next over he skied one to Hill at point and had to depart—but not in peace, as there was a loud shout from the Princes in the pavilion.

1-6-9.

Captain Campbell made his appearance at the wickets and began his score with a three. Jennings cut a ball hard into Hill's hands at point after having reached Parker's score, six.

2-6-15.

Lewis arrived in time to see Campbell hit a four and then get bowled by Kirkwood. Campbell had scored his seven runs in two hits.

3-7-19.

Thomas now joined Lewis and started off with a three. Lewis knocked a fourer and Thomas brought his score up to seven, when the former

was caught by Dawson in the slips off the bowling of Kirkwood.

4-4-30.

Hughes took the place of Lewis and started rapidly, but had the misfortune to see Thomas run out without increasing his score.

5-7-34.

G. Campbell then came on the scene, and his first contribution was a single. Both batsmen played steadily, and at 46 Hewer displaced Christoph at the bowling crease; soon after Dawson took the place of Kirkwood. Kirkwood had a rest and went on again and was successful in capturing Campbell's wicket.

6-17-61.

Laycock was next man in. Duncan-Hughes was at this time 20, and after making 21 more was bowled by Dawson. He played a streaky innings.

7-41-111.

Laycock was now associated with Hawkes, and the former monopolised the scoring for a time. Hill, at point, dismissed Laycock off Christoph's bowling.

8-27-123.

This let Flood in. Hawkes, who had made two singles, was bowled by Kirkwood.

9-2-125.

Pile was the last man. He and Flood were hitting out, but Drew put an end to their career by smartly stumping Flood.

10-18-154.

Thus Princes won a glorious match  
by 159 runs.

Scores:—

## PRINCE ALFRED COLLEGE.

Christmas.

Cricket match.

A win for the Reds.

Thirty-one passes in the Junior.

Were you pleased with your photo?

A stirring letter from His Excellency.

W. E. Stokes is the champion gymnast.

Princes won the cricket match by 159 runs.

Hard luck for Dawson to miss the century.

Darwin gained a £5 prize in the Junior.

"Old Red" is requested to send along his name.

A splendid performance in the Senior by Ward and Wilton.

The government of Japan is a "limited monastery!"

Fair exchange—the Challenge Cup for the Bright Shield.

The Cadet Corps has done good, steady work this term.

Kirkwood, Dawson, and Hill the heroes of the cricket match.

Congratulations to our "old boys" who have done so well at the 'Varsity.

The *Chronicle* offers its heartiest congratulations to Mr. and Mrs. J. A. Haslam.

Why does the Old Scholars' Association not give a welcome social to returned soldiers?

**Cricket Medals.**

The following have availed themselves of the Head Master's generosity and secured medals for scoring fifty or more in one innings:—

H. Kirkwood—	
101 (retired)	v. Way College.
85	v. S.P.S.C.
66 (n.o.)	v. Fulham Park.
59	v. Electric Telegraph.
D. Dawson—	
87	v. S.P.S.C.
83	v. S.P.S.C.
59 (n.o.)	v. Fulham Park.
50 (retired)	v. Waverley
V. Drew—	
60	v. Two Wells Asso.
53 (n.o.)	v. Ramblers
L. R. Hill—	
85	v. S.P.S.C.
A. R. Noltenius—	
83 (n.o.)	v. Electric Telegraph.
J. A. Raws—	
68	v. Electric Telegraph.
E. Chapple—	
56	v. Waverley.

**Cricket.****FIRST ELEVEN MATCHES.**

October 20—P.A.C. v. Erindale.—P.A.C., 99 for nine wickets; Raws 46, Cowan 22; Erindale, 87; Christoph, four for 12.

October 24—P.A.C. v. Early Closers.

—P.A.C., 258; Colebatch 53 retired, Drew 53 retired, Hewer 43 retired; Early Closers, 74.

October 27—P.A.C. v. Ramblers.—P.A.C., one for 72; Drew 53 not out, Rooney 18; Christoph four for 16. Ramblers, 138.

November 3—P.A.C. v. University.—P.A.C., 97; Drew 34, Raws 16; Christoph four for 7. University, 82.

November 10—P.A.C. v. Way College.—Way College, 72 and 73. P.A.C., 106 and two for 156; Kirkwood 101 retired, Noltenius 40 not out, Raws 20; Christoph three for 1, Kirkwood six for 42.

November 24—P.A.C. v. Waverleys.—P.A.C., four for 148; Dawson 50 retired, Kirkwood 45. Waverleys, 194; Hill three for 29.

October 6—P.A.C. v. Fulham Park.—P.A.C., one for 138; Dawson 59 not out, Kirkwood 66 not out. Fulham Park, 106.

**SECOND ELEVEN MATCHES.**

October 7—II. v. Norwood Baptist.—II., 106. Norwood Baptist, 13; D. Cowan 18, Jacka 18, Plummer 26.

November 3—II. v. Malvern College I.—II., 98; Rooner 32, Moffat 15. Malvern College, five for 105.

November 17—II. v. S.P.S.C. II.—P.A.C., nine for 150; Stokes 34 not out, Cowan 32, Throssell 32, Roberts 15 not out. S.P.S.C., 51.

November 10—II. v. Semaphore

Juniors.—II., 120 for five wickets; Cowan 37 retired, Rooney 40 retired, Moffat 20; Burgess six for 11. Sema-phore Juniors, 34.

FIRST ELEVEN BATTING AVERAGES.

Batsman.	Inns.	Not Out.	Highest Score.	Runs.	Avg.
Dawson	6	2	87	286	71.5

Hill	4	87	21.7
Hewer	10	236	23.6
Raws	4	95	23.7

Sports Notes.

The handsome cricket shield presented by T. R. Bright, Esq., has,

after five years' sojourn in the camp of our rivals, come over to us. Needless to say, it is a welcome guest. May its stay be long!

S.P.S.C., 13 wins; P.A.C., 9 wins; 2 drawn.

The match of 1900 must be a record for tall scoring. No fewer than 1,158 runs were made; giving an average of 26 runs per wicket. The batting showed a distinct advance on that of previous years.

At last we have had a "tail" which could effectively "wag." We were beginning to think that the Blues had a monopoly in this line. Cowan and Latty in the second innings fairly excelled themselves, and their success put the issue of the match almost beyond a doubt.

Raws and Hill for us, and Parker for St. Peter's, played the best cricket. Raws started off with an easy confidence, due, no doubt, to the memory of his "double century" last year on the same ground. He batted pluckily in the second innings in spite of a badly crushed finger and against the doctor's advice. But that same finger accounted for a "dropped" catch, and gave Lewis a long life. Hill fairly surprised us, and he is to be congratulated on recovering his form so

completely. He is evidently more at home on a turf wicket than on asphalt: the way in which he lay back and pasted the bowling did one's heart good. Parker, as usual, ran up a score, and provided all lovers of cricket, whether Red or Blue, with a treat: there is a crispness and finish about his batting which one does not expect to see in young cricketers. Much was expected of Jennings, and we were relieved to get rid of him so cheaply in both innings. Christoph's catch was a great effort and fair enough to satisfy the most rigid rectitude, and we must protest against the attempt made by some anonymous writer to stir up strife and spoil the harmony which exists between the two schools.

We are glad to see Kirkwood's bad luck on the oval broken. His first innings, though not in his best form, was a very valuable one; but in the second he fell a victim to rash hitting, as was the case last year. He bowled splendidly in this innings, though his trundling on the Saturday was hardly up to form. He placed his field and changed his bowling with excellent judgment.

To Dawson falls the honor of the highest score on our side and the highest aggregate in the match. At times his batting was nervous and rather "scratchy," but as a rule he

played a healthy, vigorous game. His second attempt was invaluable to his side. He and Parker were the smartest fieldsmen of the two teams. Hill was safe and often brilliant at point, while Cowan did a lot of hard and useful work. Drew shaped well at the wickets, and should next year be quite equal to Jolly. He also batted in good style, but did not help himself to as many runs as he might have done. Christoph quite justified the expectations formed of him as a bowler; his work with the ball, especially in the second innings, was really good, and he had bad luck in not getting more wickets.

Half-a-dozen centuries should have been scored in this match, but fates were unkind to Kirkwood, Dawson, Hill and Parker. Lewis alone gained the coveted distinction and at a time when things were not going any too well for his side. He batted with great judgment for over four hours; and his play, although slow, was the right thing under the circumstances.

Both sides gave the usual interesting exhibition of "How to get run out."

Darling's place as coach has been taken by "Affie" Jarvis, and to him must be given much of the credit of our late victory. His exhortations to punish loose bowling have not been without effect.

Owing to the collapse of the "Junior Association," our Second Eleven has suffered from a dearth of matches this season; but it is hoped that next year this will be remedied and that those who are picked to play will make it a point to turn up, or at least give due notice if they shall be unable to play. In future, a bat and ball will be given for the highest batting and bowling averages in this eleven, provided a sufficient number of matches is played in.

By the votes of the team, Kirkwood receives the bat presented by Mr. Darling to the best all-round player in the oval match; while Dawson, as top scorer, wins the bat given by Mr. Langley. The bat for highest average during the year, which nominally goes to Dawson, will therefore go to Drew. Christoph heads the bowling and so wins the "average" ball.

Swimming sports will probably be held next term, and we would suggest that our swimmers take advantage of the holidays to get into some sort of form. On the last occasion, many competitors showed a sad lack of condition.

### Gymnastics.

The gold medal presented by Herr Leschen to the Intercollegiate Cham-

pion Gymnast was this year won by W. E. Stokes, of Prince Alfred College, with E. Parker, of St. Peter's College, second. The competition proved to be the closest as yet on record, and it was only by the Prince Alfred champion's excellent all-round work that he wrested the coveted prize from his rival.

Medals have been won as follows:—  
Gold Medal.—Champion—W. E. Stokes.

Silver Medal.—Class Prizes—D. R. Cowan, R. J. Townsend, A. T. Jefferis, C. A. Walter, H. V. Throssell, A. E. Richardson, L. H. Haslam. General Proficiency—P. R. Claridge.

### The Cricket Eleven.

[BY THE CAPTAIN.]

Christoph, W. A.—Good bowler, fairly fast, with a slight leg break; rapidly improving in batting and fielding.

Cowan, L. T.—Hits hard and well and a good field at mid-wicket.

Dawson, E.—Hits very hard and well all round the wicket. A fine field wherever placed. Bowls either slow or fast.

Drew, W. A. V.—A fine batsman, his drives and cover hit being very hard. An improving wicket keep,

Hewer, W.—A good length bowler with a little leg break. A good and steady batsman.

Hill, L. R.—A fairly successful fast bowler. A dashing bat, hitting hard and along the ground.

Latty, C. P.—A steady batsman with strong defence. A fair field in the "country."

Moffatt, W. D.—A steady batsman; very hard to bowl. Will have more strength and hit harder next year.

Noltenius, A. R.—Another of our steady men. A fine field out deep and in slip.

Raws, J. A.—Sometimes a steady and at other times a dashing batsman. Bowls a good, slow ball, breaking either from leg or off.

[BY THE TEAM.]

Kirkwood, H. (Captain).—Fine bat, bowler, and field. Best all-round man in the team. Exercises good judgment as Captain.

---

### Gymnastic Display.

On Saturday afternoon, October 13, the arena at the Jubilee Exhibition presented a unique appearance. Over 1,500 pupils of Herren Leschen took part in the gymnastic display for "sweet charity's sake."

Shortly before 3 o'clock His Excellency Lord Tennyson and Lady Tennyson, accompanied by their sons the Hons. Aubrey and Lionel Tennyson, and by Mdle. Dussau and Captain Maurice, arrived, and were welcomed

by the Mayor and Mayoress (Mr. and Mrs. A. W. Ware) and our Head Master. As the Vice-Regal party crossed the green, the Police Band, who were kindly permitted to attend by Colonel Madley, played the National Anthem. At the pavilion a guard of honor had been formed by members of the Cadet Corps. At the conclusion of the National Anthem, children of both sexes, of all ages and sizes, filed into the arena to their allotted positions. Never before had the oval presented such a picturesque and striking appearance, as for fully ten minutes the pupils, clad in the colors assigned to their respective schools, engaged in marching, winding in and out, until many of the spectators thought them in a state of helpless confusion. However, when the music ceased each school was in its place, and a hearty round of applause followed. The free exercises were performed in a pleasing and satisfactory manner, whilst a special feature of the afternoon was the stacking of the "broomsticks" after the conclusion of the staff exercises. The youths simply revelled in their feats, and did splendid work both on the parallel and horizontal bars and on the trapeze, and leaped the tiger with hot-blooded dauntlessness. The enthusiasm of the crowd was greatly aroused, and the neatness and skill with which everything was executed spoke volumes for the Herren Leschen's training. The gavotte

danced by the girls was exceedingly pretty, while the swinging of thousands of clubs was one of the most engrossing features of the afternoon's entertainment. A splendid pyramid at the close afforded a fine chance for the numerous photographers on the ground. The final item on the programme consisted of battalion drill by the Cadet Corps, and they, as usual, acquitted themselves with credit. On the whole there was presented one of the prettiest and grandest demonstrations of gymnastic exercises ever witnessed in Australia, and handsome sums were allotted to deserving benevolent enterprises.

---

### Cadet Corps.

---

"C" Company has gone through a full and interesting programme during the past term. The ordinary drills have been chiefly on camp and sentry work, with a view to going under canvas for a few days at the end of the term, but, unfortunately, that pleasurable excitement has had to be postponed. Other events in which the Cadets have participated are the "reconnaissance in force, which being interpreted is a sham-fight; guard of honor to His Excellency the Governor at the opening of the Commercial Travellers' Carnival; and the welcome of the troops who returned by the *Harlech Castle*. In their number were

Jones and Bert Brown, the latter of whom was mentioned for bravery some time ago, and a few other old P.A.C.'s.

The sham-fight took place on Saturday, October 27th. A strong company of Cadets marched off the Parade Ground with the 1st Battalion, A.R. at 3.30 p.m. Nine or ten miles had been covered by 6.15, then a halt was called for tea about a mile N.E. of the Grange. The bivouac presented a veritable war scene, just such a one as might forcibly bring home the realities of the campaign in South Africa. The road lay between green undulating paddocks, dotted here and there with khaki. On one steep side of the road a thousand khaki forms reclined, enjoying to the full that best of marching drinks—tea—cold, sugarless, milkless, but nectar of the gods to Tommy on the march. Then a great black water-cart drove up, and from time to time a jolly section of signallers, machine-gun men, or sappers came up and stayed, passed, or turned back. At 7 sharp, just as dusk began to fall and night succeeded day, our mounted scouts went forth, and nine companies struggled to fall in within the narrow limits of the road. Not a second was lost, then, "Battalion, form fours. Right. By the left, quick-march." And thus the column set out. The river crossed, the advance was made on each side of the Military road in extended order, companies being at

intervals of 100 yards. Then suddenly came a boom from the right rear. This showed that the artillery were covering the advance.

Soon after, when Col. Lovely's brigade was within four miles or so of Fort Glanville, a flash a mile ahead told that the enemy's outposts were opening fire. After several volleys, the attacking party had the order to retire. This was done in good order—one company retiring through another, while two others carried on the firing. The enemy successfully repulsed every attack, till finally they got within 200 yards of the attacking party by taking the very kopje from which the attack had first been opened. At this stage the A.N.A. and Cadets were defending the bridge formerly crossed, and some of the latter were detailed to scout in an adjacent wood. Then the bugle sounded "Cease firing," and the brigade was headed to Woodville Station. This call was unheard by the artillery some three miles in the background, so they continued to cover the retreat long after the patriotic song stage was reached on the march home.

Most of the boys now in the Corps intend to stick to it next year, and it will repay them to do so, for when Federation takes effect we hope the Cadet Corps will have status in the eyes of the authorities, will receive Government support, and that certain limitations which were unavoidable in

the first year of existence will be removed. But there will be vacancies caused by cadets leaving school, and we want worthy fellows to come forward and fill them.

Then again those who have had the benefit of this year's experience should turn it to their own good account, for with a little reading up the honor and distinction of wearing one stripe or more (for there will be vacancies among the N.C. officers also) lie within the reach of earnest applicants.

The work of the year has been entirely satisfactory, and gives Mr. Leschen, Mr. Bayly, and the other officers great cause for gratification. The Head Master and school are fully justified in the pride they take in the Corps, for whenever the Cadets have had occasion to turn out, they have acquitted themselves with credit and honor.

At the final parade for the term, held on Thursday afternoon, Dec. 13th, Lieut. Hugo Leschen announced, to the great gratification of all, that the Cadet Corps is to be represented at the celebrations in connection with the proclamation of the Commonwealth in Sydney on Jan. 1st; for the Commandant, Brigadier-General Gordon, has considerably included 10 Cadets in the contingent. In consideration of their services during the term, Lieut. Hugo Leschen has decided that "C" Company is to be represented by Color-Sergeant T. G. Robertson and Sergeant E. H. Stirling.

### Junior Picnic.

The boys of the Fifth Form having decided that something ought to be done to recognise that they had worked harmoniously together during the year, proposed to hold a picnic on the Monday following the completion of the Junior Examination, and secured the Head Master's consent to a holiday.

On the appointed day, about twenty of us assembled at the Adelaide Station to start our journey to Belair. Under the able management of one of the form, tickets were obtained at reduced rates. Some who were not aware of this were unlucky enough to have to pay the full fare.

At eleven o'clock, amidst cheers, we began our journey. Many were the loud hurrahs given to those school-mates whom we met on our journey. The trip through the hills gave us beautiful views of the sea and rugged landscape. The tunnels also afforded great fun to some who had not previously passed through them. We arrived at our destination at about 12 o'clock, and made the best of our way to the Belair park. There we assumed possession of the oval, and began dinner. The usual fun and confusion and vigorous exchanges marked the meal.

Dinner being finished, sides were chosen for cricket. The lucky side had the services of Christoph, the great

bowler of the First Eleven. It was arranged that he should not bowl more than one wicket down in one over, but this agreement was not strictly adhered to. During the match the fielding team adjourned to the store, where cool drinks were somewhat freely sold.

After tea Flecker, having brought his camera, desired to get a photo of the party. This was allowed amidst much merriment; but none of us were fated to see the picture, as one of the party partially exposed the negative.

We then returned to the station and caught the six o'clock train up, arriving in town at half-past six, having spent a most enjoyable day, long to be remembered.

---

### Duces.

#### FOURTH TERM, 1900.

- Sixth— { J. F. Ward } (aeg.) Dux of  
           { J. R. Wilton } School.
- Fifth—R. S. Evans.
- Lower Fifth—A. T. Jefferis.
- Fourth—W. B. Angwin.
- Lower Fourth—G. D. Cowan.
- Upper Third—O. A. Schmelzkopf.
- Third—C. M. Churchward.
- Lower Third—H. Bricknell.
- Second—W. W. Cooper.
- Lower Second—L. A. Whittington.
- First—E. C. Grasby.

J. R. WILTON, Hon. Manager.

**P.A.C. Christian Union.**

The work of the year is now drawing to a close, but it is with exceeding thankfulness that we record that it has been very successful. The attendances of both the Senior and Junior Union have been much larger than those of any of the previous years and we have to record a much greater interest in the meetings and general work of the Union.

We took control of one meeting each quarter at either the O.B.I. or the Boys' Brigade, and thus our members had their interest deepened in work among boys.

This last term visits from outsiders, especially Christian merchants, have proved a great help, especially to those who are leaving school and must face the temptations of business life.

Mr. Charles Goode and Mr. James Gartrell very kindly came to us and encouraged us by their sympathy and instructed us from their experience. Mr. J. J. Virgo, the popular Y.M.C.A. Secretary, gave us a rousing address on another day. To these and many others, including the Travelling Secretary of the Union, Mr. J. T. McWilliam, our very heartiest thanks are due.

Many senior members will now leave us, and we cannot help feeling sorry at losing them, and our best wishes follow them.

In the middle of the year Harley

Morrell, our Vice-President, went to begin his work as a bush missionary near Cöckburn, and we wish him every success.

T. G. Robertson took his place as leader.

E. H. Stirling, the Chairman of the Religious Meeting Committee, may not return. He has worked well at the arranging of the meetings and at seeing that the notices about them were posted up. Trott has managed his work well as Chairman of the Missionary Committee. We wish also to thank E. A. Newton for his regular arranging of the room for the meetings. F. Close, the Secretary, and Ward, the Corresponding Secretary, have done their work very willingly. Lloyd has filled the position of Treasurer and handled the funds very successfully, so that there is a balance in hand of 7s. 3d. We have only had one book presented to our library this year; that was given us by Priest. We beg to remind all old members that we shall be glad to receive any addition in that way and will be welcome and useful. We purchased the "Life of Lord Roberts" and added it to the list. All the past and present members again we urge to strive for the highest things.

The Junior Union has been very popular this year. Quite thirty boys have joined it and the meetings have been carefully attended. They have worked well at the making of scrap-

books and toys for sick children. Many plans for work have been carried out. They had an enjoyable picnic together one Saturday recently, and of them as of the older boys we say "Thank God and take courage."

---

An event of some importance to many friends of Prince Alfred College took place on December 1, when Miss Edith Chapple, the eldest daughter of our Head Master, was united in marriage to Mr. Joseph Auburn Haslam, B.Sc., House Master and Lecturer at the Roseworthy Agricultural College. The ceremony was performed at the Kent Town Church by the Rev. James Haslam, of Geelong, father of the bridegroom, assisted by the Rev. Joseph Lloyd, uncle of the bridegroom, and Rev. E. T. Cox, pastor of the Church. The service was choral. Mr. Harold E. Davies, Mus. Bac., presided at the organ, and two hymns were tastefully rendered by the choir. They sang the hymn "Oh! Perfect Love" to a new tune specially composed for the occasion by the organist, and Mr. Harold Davies played the "Wedding March." The bridegroom was accompanied by his brother, the Rev. Lloyd Haslam, of Mount Lyell, Tasmania, as best man. The bride was accompanied by three bridesmaids, two of her sisters, Miss Marian and Miss Gertrude Chapple, and also Miss Alice Haslam, sister of the bridegroom. They were dressed in

“red and white,” the College colors. Mr. and Mrs. Chapple afterwards received about 200 guests at Prince Alfred College. The happy pair left by the Melbourne express for Nairne en route for Mount Gambier, where a short honeymoon was spent. The catering was carried out by F. D. Beach and Sons and gave general satisfaction. The presents received were numerous and handsome.

### Drawing Examinations.

In the November Drawing Examinations, we had the usual success. That is to say, practically all sent up passed in First Grade Geometry, and there was varying success, more or less according to merit in the Freehand and Model. The lists are as follows:—

First Grade Geometry.—Excellent—H. R. S. Penniford. Good—W. B. Angwin, E. C. Black, W. J. Bowering, C. B. Cooper, F. T. Cooper, D. M. Davidson, G. J. DeRose, D. S. Edwards, W. G. Ekins, H. C. James, W. H. Lang, R. K. Lawrance, S. B. Robertson, E. A. H. Russell, H. G. Samuel, D. S. Shannon, A. C. Wilton, G. E. Wood. Pass—A. G. Annells, E. A. Biring, G. D. Cowan, H. A. Gray, H. B. Harris, A. Hooper, L. W. Jeffries, A. V. King, C. W. Mellor, A. V. Pitt, G. H. Read, C. G. Rowe, L. R. Seppelt, C. V. Smith, H. V. Throssell, L. E. Verco.

First Grade Model.—Good—P. Bowering. Pass—E. C. Black, R. P. James, F. H. Menkens, L. R. Seppelt, G. J. Black.

First Grade Freehand.—Excellent—A. Rohde. Good—G. J. Black. Pass—M. Erichsen, A. W. Magarey, O. Schmelzkopf, M. D. Seppelt, E. W. Sullivan, G. G. Swann, B. Townsend.

Second Grade Freehand.—Pass—E. C. Black, F. H. Menkens.

### Preliminary Examination.

Soon after the commencement of this term the lists of the Preliminary Examinations held in September were published, and showed that the following had passed:—

T. H. Burgess, H. G. Darling, L. C. Dobbie, R. B. James, B. R. L. Lindschau, A. W. Magarey, T. H. Menkens, A. F. Trott, W. B. Angwin, E. C. Black, P. Bowering, P. T. Cockrum, G. D. Cowan, D. M. Davidson, D. S. Edwards, S. G. Felstead, F. C. Gray, J. Homburg, L. W. Jeffries, W. H. Lang, R. K. Lawrance, A. E. Martin, F. H. Metters, A. O. Mitchell, A. V. Pitt, J. H. Puddy, G. H. Read, S. B. Robertson, C. V. Smith, F. D. Stapley, G. G. Swan, C. Unbehaun.

This is the last Preliminary Examination, and we are by no means sorry to part with it. It was very narrow, and did its best to disturb regular schoolwork. Instead of it will come the new “Primary” Examination, and that will embrace besides Elementary English and Arithmetic some of the higher work of the Fourth Form.
