UBI NON EST SCIENTIA ANIMÆ NON EST BONUM.

VOL. IV -- No. 78.

ADELAIDE, JANUARY 18, 1904.

[PRICE SIXPENCE.]

## School Notes.

Our boys have again been very successful at the University Examinations. At the Higher Public five out of six names on the General Honor List are ours. In the Special Honor List we come out best in Physics and Chemistry. All the Physics credits are ours, and six out of the seven granted in Chemistry. The Head Master on Speech Day congratulated Mr. Hiffe on this result, and the Sixth heartily cheered.

The Angas Engineering Exhibition again falls to a P.A.C. candidate. The first competition for this most valuable prize (£60 a year for three years) was held in 1889, and from that year to this P.A.C. has only been beaten for it once. Keep it up, boys.

Frank Ellis will receive the Hartley Studentship, R. W. Tassie the Angas Engineering Exhibition; and we hear that J. L. Jona is to have the First University Scholarship, Frank Bennett the Second, and Stan. West the

Third, so that all five Entrance Scholarships at the University once again fall to P.A.C.'s.

In the Senior we had some good places too—four out of the first six in the General Honors List. Burgess and Glasson are bracketed for the Second and Third prizes. Arthur is specially to be congratulated on being top of the History list. In our own competition he also won the Smith History Prize. Perhaps our best comparative list here was Chemistry, where we had six places out of the first eight. On this Mr. Bayly should be congratulated.

In the Junior our number of passes is very great—10 in the Honor list and 32 in the Pass list—a "record" total. But the places won in the Honors are not as high as usual; Churchward, the head of our Fifth Form, is highest of ours, but only eighth on the General list. Those above him seem to have been more successful in Greek and Latin. This seems the secret. Greek and Latin have been marked high this time. Our best results in the Special lists are in Arithmetic, Algebra, Geo-

metry, and Chemistry. We have the first places on these four lists, and many high places besides.

Speech Day went off remarkably well. The Town Hall was well filled; many stood at the back; the dress circle and the gallery behind it was filled by ladies. His Excellency the Governor (Sir George R. LeHunte, K.C.M.G.) presided, and there were also upon the platform besides the Head Master and President, Sir Fredk. Holder, the Hons. J. G. Jenkins (Premier), L. Von Doussa (Attorney General), Alfred Catt (Chairman of Committees), Mr. John Darling, M.P., Mr. Soward, M.P., Mr. T. Price, M.P., and many members of the Committee. The singing and combined recitations were well performed, and rarely has there been a better recitation than Malcolm Wood's. The report of the sports by the cricket captain (Vernon Drew) was stirring. He had a good tale to tell, and told it well.

#### CAPTAIN'S REPORT FOR 1903.

Your Excellency, Mr. Head Master, Ladies and Gentlemen—I have the honor to present a report of the past year's sports. The successes of this year have so far been unequalled. We have won every contest against our rivals, St. Peter's, and the four trophies for them now adorn our walls. These have been won mainly by the steady

play of the teams. Not so much by the few who have stood out as far better than the others, but by combined effort and all-round merit. This, though often unnoticed by spectators, has secured these victories for us.

This year more interest than usual has been taken in football. To a great extent this was caused by the visit from Melbourne of the Wesley team, the premiers of the "Public Schools" of Victoria. Wesley played the two colleges of South Australia before the Oval match, and thus a good forecast could be made of what the result of our great contest would be. Rain fell heavily on the day on which we played Wesley, but happily it ceased about noon. The oval was in a bad state for football, but nevertheless we had a hard-fought and trying game. The "purple-and-gold" came out winners by three points, as they kicked a goal two or three minutes before time was called, and thus just got ahead of us. In the match v. St. Peter's we did not show our best form. The play was comparatively very poor. We took the lead from the beginning and kept it till the end. When time was called we were leading by 14 points. In the second term we met with unusual success in our Saturday matches. We played 15, won 11, lost 3, and one was drawn. This success was mainly due to the great improvement of our goal-kicking.

F. Chapple, Esq. (*Head Master*).

J. E. Langley, Esq. (*Sports Master*),

**THE FOUR TROPHIES HELD BY P.A.C., 1904, AND THE FOUR CAPTAINS.**

*Gymnastics*—A. G. Trott.    *Football*—W. H. Lang.    *Running, &c.*—R. Rounsevell.    *Cricket*—W. A. V. Drew.

The gymnastic contest was held on August 21 in the Y.M.C.A. Gymnasium. A large number of boys and other spectators were present to witness the display. Messrs. Leader, Lock, and Grummet acted as judges, and we are greatly indebted to them for their kindness in undertaking such a difficult task. A. G. Trott was our captain, and ours was a good all-round team, and very little doubt was felt as to the result. The judges decided in our favor by 139 points, and the shield was borne away in triumph and hung in our dining hall with Trott's name upon it. This shield has been contested for three times, and Prince Alfred College has won it three times.

This term we won at the intercollegiate sports for the first time during the six years that they have been held. This was somewhat of a surprise for St. Peter's, who were pretty confident that they could beat us again. For our victory we mainly have to thank the fleetness of foot and staying power of Rounsevell. But Trott's record long jump and Townsend's hurdle jumping were of great service. It appeared at one time as if St. Peter's would win, but we gradually closed up, and McCoy finished the scoring by winning the half-mile, and thus putting us 8 points ahead.

The cricket match is too recent to need much comment. This is the second time that the match has been

won by an innings. This year we have two examples of what hard practice can do for a boy. Paton and Strickland, our two highest scorers in the match last Saturday, were at the beginning of the year far weaker batsmen. Now they have the strongest defence of the team, and both have been well rewarded for their hard work. The bowling this year has chiefly been done by Dolling and Townsend. These two have bowled most consistently throughout the season, and have finished up with a grand performance against St. Peter's.

Now, boys of Prince Alfred College, you have four trophies—The Tennyson Football Cup, won in July; the Gymnastic Shield, won in August; the Sports Cup, won in October; and the Cricket Shield, won this week. You have all these trophies. Keep them.

His Excellency showed the kindest interest in all the proceedings, and made a most stirring and stimulating speech, making every boy feel that in him he had a wise and true friend.

#### THE GOVERNOR'S ADDRESS.

His Excellency the Governor said nothing could have been more satisfactory than the reports of the Head Master and Sports Captain. When Mr. Chapple began he really thought he was wearing a pair of rose-tinted spectacles. But as he listened the

rose-tint disappeared and the spectacles were seen to be of pure, clear glass. The hard and fast statistics of the examiners which no one could alter spoke of progress and great achievements. That happy result would please three classes of the audience—the boys, their parents, and the public. He heartily congratulated all of them. As the public were intimately interested in the success of various educational institutions in the state, they were apt to scrutinise very closely the results of examination tests. The boys were now stepping out into the broad way of life. They had all come from different channels, but were now gathered together for a common purpose. Every boy enjoyed the same advantages when he began school life, and the responsibility of individual success rested upon himself. The success, honor and dignity of the school depended upon the personal efforts of the scholars, because they had assumed a responsibility they could not divest themselves of. Let each do his best, whether that best be great or small. He could see that there was splendid esprit de corps and unanimity among the boys, and those excellent attributes were carrying them clean to the front. There was a flood and not an ebb tide going along their stream of life. There were some strong swimmers possessed of physical superiority, and others were gifted with that mysterious talent which no

one could comprehend. Some won the prizes of school life, but they had to work for them. God had given every boy talent, and by a proper use of it he would reap a full reward. Those who failed should never feel discouraged, provided they had done their best. He congratulated them as heartily as he did those who had won prizes, because it was quite clear that the school as a whole were doing their level best. Let them be loyal to the college and to their fellow-scholars throughout their school life. The captain's report was equally as satisfactory as the Head Master's. He was pleased with the genuine modesty of it. Capt. Drew was not quite so much at home on the platform as he was behind the wickets. His sterling sporting qualities, however, would stand him good stead when he grew to manhood. The school had won the four most important field prizes during the year. The captain had finished his report with the words "Keep them." He repeated the words "Keep them"—but qualified the advice by the words "unless you cannot." He hoped that when better boys came along they would yield to them with manly grace. He liked the spirit of friendly rivalry, as distinguished from that of unhealthy jealousy, which was not sport. He was pleased to learn from the Head Master that nearly one-half of the boys in the school came from the country, because the in-

fluences which the college inculcated would thus be distributed throughout the state. The boys had a wonderful future before them—the most interesting that any generation had probably had. Before long many of them would have a voice in the government of the state and the Commonwealth. Let them take example from the lives of two gentlemen on the platform—the Premier and Mr. Darling. He asked them to keep their example in front of them, as he could not advise them to follow better men. Both of these gentlemen had wide minds, and the sagacity to know when to leave well alone. He wished the boys the compliments of the season.

In October we were favored with a visit by the Rev. F. W. Macdonald, M.A. Mr. Macdonald has been visiting Australia, New Zealand, &c., in the interests of that grand institution the British and Foreign Bible Society, which was founded in 1804, and has done an immense amount of good by printing and distributing the Scriptures—millions of copies—in many tongues. A great celebration is to be held in the Centenary Year, 1904, that the society may have fresh strength to go forward. Mr. Macdonald (who was accompanied by his daughter, Miss Florence Macdonald) seemed greatly impressed by all he saw, and gave an excellent earnest address to the boys in assembly, ending

up by asking Mr. Chapple for the sake of their old friendship in the old country of so many years ago to grant the boys a half holiday. The Head Master evidently with some reluctance acceded to the request.

We are pleased to notice that again five out of the six Exhibitioners from the State schools have chosen to come to P.A.C.—L. G. Tassie, from Norwood School, who is first; A. C. Brown, from Sturt Street, who is second; S. E. Holder, from Norwood, who is third; G. H. Pett, from Norwood, who is fourth; and G. M. Potts, from Sturt Street, who is sixth. We welcome them heartily, and trust they will do as well as their predecessors.

### Oval Match.

#### FIRST DAY'S PLAY.

Drew, with his usual bad luck, lost the toss, and Saints took first use of the wicket, as it was not much damaged by the rain of the preceding night.

Stevenson and Jay opened to the bowling of Townsend, the former getting off the mark with a nice leg glance off the first ball, which yielded 4. Dolling trundled from the Cathedral end, and Jay got him away to leg for 4, followed by a single to the on. Stevenson in attempting to hit Dolling was dismissed by a fine catch by

Strickland right on the boundary.

1—4—9.

Duncan started with an uppish cut, and after a boundary and a few singles had been added Jay, who was settling down, was bowled by Dolling.

2—9—21.

Shortly after Yuill, who had joined the captain, was missed by Darling at point off Dolling, but the miss did not prove expensive, for without further addition to the score Yuill got his leg in front of one of Dolling's, and had to retire.

3—3—27.

Mackenzie, the next arrival, started to block, but was evidently not at home facing Townsend, who bowled him before he had scored.

4—0—32.

Duncan, who was inclined to hit rather riskily, had reached his 20 by a couple of lofty drives, when Drew, with a nice catch behind off Townsend's bowling, dismissed Buttfield — the second "duck."

5—0—42.

With five wickets down for 42 there seemed to be very little hope of Saints reaching the hundred, but Duncan continued to hit merrily, especially off Dolling, who was at 48 relieved by Strickland, Rounsevell going on at the other end. Shortly after 50 appeared A. K. Duncan was caught in the slips by Townsend off Strickland.

6—4—57.

As Reinecke came in a light drizzle fell for a few minutes, which, however, did not affect the play. Reinecke, when 5, was completely beaten by a fast one of Rounsevell's.

7—5—66.

Immediately after Strickland broke through Duncan's defence with a curly one.

8—38—68.

Chambers and Moffatt played out time till lunch. On resuming Strickland obtained his third wicket at the expense of Moffatt.

9—1—72.

A couple of maidens and a couple of singles and Chambers was thrown out by a smart return from C. Drew, so the innings closed for 80. The only batsmen who seemed at all at home were Duncan and Jay, and the former's, considering the little assistance he received, was a good effort. Strickland with three for 15 was the most successful bowler.

After the usual interval Darling and Dolling began Princes' innings, and runs came steadily from both bowlers. Darling was scoring the faster, and at 13 he put one up to square-leg, which Job just failed to reach. Shortly after Dolling mis-hit Yuill to mid-on, where Jay took the catch.

1—9—23.

Drew followed, and began by two fine off drives, but before he settled

down he played on one of Stevenson's which was off the wicket.

2—2—28.

At this point Saints' barrackers were much in evidence, thinking that with two of our best men gone we had not so much hope of beating them. This idea was quickly dispelled when Paton, who followed, got going with a couple of boundaries, and the score mounted steadily. Paton's drives were especially good, and were all along the ground. The batting now became much freer, and at 49 the bowling was changed, Buttfield going on in place of Yuill. The change proved effective, for with the score at 60 Darling gave a chance in the slips, which Stevenson accepted.

2—28—60.

Townsend joined Paton, who was 20, and turned the first ball to leg for 4, but immediately after gave an easy chance to W. G. Duncan at mid-off.

4—4—72.

After the adjournment Strickland accompanied Paton to the wickets, and both scored freely, the latter with a good off-drive bringing the total up to that of our opponents, he also a few balls later evoked much applause from the barrackers by hitting Jay over into the pavilion. The same bowler had his revenge later when Paton hit him on to his wicket.

5—44—96.

Paton's innings was the best so far, and all were sorry to see him go. Lang was quite at sea facing Jay, and playing back to an easy ball was bowled before he had scored.

6—0—96.

Rounsevell evidently came in to establish a reputation as a smiter, and so jumped out to everything. His first hit brought the century into view after 90 minutes' play. After a high drive into the country he was stumped by Moffatt off Yuill.

7—10—113.

Jefferis after having an adventure in trying to recover his crease and over-balancing in the effort and rolling in, steadied down to play himself in, while Strickland continued to score freely. At 133 Duncan himself went on, but still the runs came. Strickland, after some narrow escapes from being run out, reached Paton's score, and shortly after his 50. Jefferis meanwhile was playing carefully, scoring an occasional fourer. At 169 W. G. Duncan went behind wickets, and in Yuill's next over stumped Strickland, who had run out and missed the ball.

8—57—181.

Strickland had played good cricket, and his hits included many good strokes, especially his off drives, and both his bowling and batting performances entitle him to the laurels of the day.

Kennett did not stay long, being stumped by Duncan off Yuill.

9—0—181.

C. Drew joined Jefferis, and these two by careful play brought the score to 197, when stumps were drawn, Jefferis being 30 and Drew 6 not out.

#### SECOND DAY'S PLAY.

Yuill opened to Jefferis, and the third ball resulted in a 4. Buttfield then bowled to Drew, who was quickly caught by Duncan, and the whole innings closed for 205, Jefferis being 35 not out.

After the usual interval Saints began their second innings with Jay and Chambers, and Townsend opened to Jay. Dolling took charge of the other end, and Jay played the ball quietly to Townsend, who took it.

1 for 3.

Buttfield joined Chambers, but without scoring was bowled by Townsend with a yorker, thus obtaining the undesirable "pair." Stevenson next tried to retrieve the falling fortunes of the Saints. A mis-hit gave him 2, and then he was caught by Jefferis off Townsend. Dolling was bowling well, and kept his average at 1 for 0 during three overs, Jefferis missing a chance off him close to the pitch. The pitch was very bumpy, Townsend's balls frequently going as high as the batsman's shoulder. In the next over

Drew caught Chambers behind the sticks off a bumpy one of Townsend's.

4 for 15.

Townsend now had the splendid average of three for 5. Yuill was the next man in, and very soon he and Duncan began to make the game more lively. Duncan hit a full toss of Dolling's to the track, and between them the two batsmen scored 12 off the over. Kennett took Dolling's place after this, and Townsend had three tries at an easy chance from Duncan in the slips, but finally dropped it, but on the whole the batsmen rather seemed to like Kennett. After a bit of fast scoring Lang missed Duncan off Kennett, and he changed places with Darling. At this point Rounsevell replaced Townsend. Yuill greeted him by scoring 2 and 4 off his first two balls. Strickland also replaced Kennett, and Duncan was nearly run out by a smart piece of fielding by Dolling. Yuill was keeping Rounsevell's fast bumpy ones down well in the slips considering the state of the pitch, and soon brought his score to 41 by a 4 off Rounsevell, thus capping Duncan's 38 in the first innings. Soon after he brought the score to 80—Saints total in the first innings—by a single off Strickland. Darling then dropped a very easy one from Duncan off Strickland's last ball before lunch.

After lunch Townsend and Dolling started again, and Kennett caught

Duncan off Dolling in the deep field. He judged the ball to a nicety.

5 for 86.

This broke up the partnership between Duncan and Yuill, which was the best for Saints in the whole match. Mackenzie was caught by C. Drew first ball from Dolling. Drew had to run a fair distance, and took a very good catch.

6 for 87.

Townsend then bowled A. K. Duncan for 0, with the second ball of the over.

7 for 87.

Reinecke was next, but only made 2 before being caught by Kennett in the slips.

8 for 89.

Yuill jumped out to one in Dolling's next over, missed it, and was easily stumped by Drew.

9 for 95.

Moffatt then joined Job, and the latter brought the score to 100 and ran into double figures himself by hitting a 2 and a 3 off Townsend. Dolling bowled two maidens, and at last Townsend caught Job off his own bowling, and the innings closed for 107, Moffatt being 2 not out. Thus P.A.C. won by an innings and 18 runs.

NOTES ON THE MATCH.

The cricket match of 1903 will long be remembered for its inconsistent brevity. Ten weeks of hard practice fizzled out in a mild display lasting less than ten hours. The mountain hath again brought forth a mouse! Everyone, Red and Blue alike, was disappointed, though our disappointment was naturally soothed by the sweets of victory. Batsmen were to have had a glorious time, runs were to be as plentiful as blackberries, and the bowlers were to be nowhere. Yet the ball throughout triumphed over the bat. The main factor in this unexpected result was no doubt the weather, particularly on the second and last day of the match.

A soft or slow wicket is a rare experience for college cricket, and like many new sensations has, in the case of the majority of young batsmen, a terrifying and even paralysing effect. The dashing type of batsman, the "unmitigated slogger," on whom Fortune is so wont to smile and the bowler to frown, may rise to the occasion, while the "correct" bat, whose style is "irreproachable" under ordinary conditions, falls a victim to over-anxiety for the safety of his stumps; in other words he "scratches" himself out. Granting all this, Saturday's cricket was generally speaking disappointing, the batsmen quite over-rating the difficulty of the wicket, which, although on

the slow side at first, quickly improved into a batsman's ideal hunting-ground. On Monday, however, good cricket was out of the question. Townsend and Dolling had it all their own way except when Duncan and Yuill were batting. These two played a fine game under very difficult conditions, Yuill in particular treating the spectators to a splendid exhibition of hitting all round the wicket. Duncan should early have gone the way of the rest of his fellow-batsmen, but his confidence in his almost proverbial good luck and in the generosity of our fieldsmen was fully justified till after lunch—so often a fatal repast to a batsman and new life to the men in the field. Thus, before the interval, three easy catches were missed, while after play was resumed three splendid catches were made, two by Kennett—his most valuable contribution to our success—and one, a fine effort after a long run, by C. Drew.

For us the bulk of the batting was done by Paton, Strickland, Darling, and Jefferis. Paton played the best cricket, meeting the ball with the full face of the bat and scoring comfortably off Yuill's "googlers." Strickland was dreamy for the first part of his valuable innings, and the running between the wickets was really distressing—to the beholders. Many easy runs were not attempted, and when runs were ventured upon, the wicketkeeper was given too many opportunities, which he

fortunately did not take full advantage of. Otherwise Strickland's batting was deserving of great praise, some of his drives to the off being beautifully made. Darling did not bat with his usual confidence and vigour, only now and then showing glimpses of his true form. Jefferis, after a very slow start and a bout of gymnastics with the wicket-keeper, played one of his best innings of the season. Of the others, Dolling, Drew, and Townsend, the trio of whom so much was expected, did not come off, their promising careers being early blighted. Drew was unlucky in getting out as he did, but the others had themselves to blame. Dolling's gift to silly mid-on was most gratuitous. C. Drew made a stylish debut. Rounsevell hit merrily for a brief season, and succeeded in livening things up. Kennett and Lang were out to very bad strokes, Kennett being too eager and Lang too cautious; by playing back he made a very easy ball a most difficult one.

Our fielding generally lacked "go," few men going to meet the ball, how ever slowly it was travelling, thus giving the Blues many soft runs. In this respect our opponents were superior, Stevenson and Yuill in particular doing fine work.

Dolling bowled with excellent judgment in both innings, and Townsend was deadly in the second; in the first he did not pitch them up enough.

Strickland met with success for the few overs he had, and kept a good length.

This brings our total of wins up to 11, within three of our rivals, while two matches have been drawn.

---

### The College Sports.

---

The Annual Sports were held on the Adelaide Oval on Friday, September 25. Although heavy showers fell in the early part of the morning, fine weather prevailed throughout the proceedings, which were witnessed by a large and enthusiastic gathering of friends and supporters.

Our thanks are due to Messrs. G. M. Evan, A. W. Piper, A. H. Harry, and F. W. Wheatley, who acted as judges, and to Mr. Bayly, the starter, whose pistol (which as usual was kindly lent by Mr. Ekins) acted in a most exemplary fashion.

At the close of the afternoon Mrs. John Hill graciously presented the prizes to the winners of the several events.

A change had been made from former years so that the College Cup was decided on six events, the 100 yards, high jump, and long jump having been added to the usual 440 yards, 220 yards, and 120 yards hurdles. The Cup contest also differed from previous years in that all competitors were "scratch,"

thus ensuring that the coveted trophy be gained on merit and not on handicap.

The honors of the day fell to R. Rounsevell, who annexed both the Championship and College Cups. Unfortunately W. B. Angwin, our former champion, was prevented from running, except, in the 100 yards, owing to a strained sinew.

Quite a feature of the day was the splendid style in which W. Ingleton won both the 220 and 440 yards events, and we congratulate him on his success.

Mention also must be made of the dashing way Townsend carried off the steeplechase. Though placed on scratch he held the race well in hand from the beginning.

Of the juniors perhaps the most promising is L. L. Davey, who won the hurdles (under 15). He has an easy swinging gait over the jumps, and should do well in a year or two.

The Junior Championship was taken by H. Armstrong, K. McEwin being only an inch or two behind when the tape was crossed. It was expected that H. Ragless would win this event, but he was unfortunately suffering from a strained foot.

Of the other juniors, E. A. DeRose and J. H. Cooper ran in good style in the under 13 events, and gave promise of good running in years to come.

The events were as follows:—

150 yards Flat.—1, A. Darke, 6 yards; 2, S. Abotomey, 11 yards; 3, W. G. Diment, 2 yards.

100 yards Flat (under 11).—1, L. D. Waterhouse, 5 yards; 2, T. E. Cleland, 3 yards; 3, C. M. Lathlean, 5 yards.

100 yards Flat (Junior Championship).—1, Armstrong; 2, McEwin; 3, B. C. Rounsevell.

120 yards Hurdles (under 13).—1, J. H. Cooper, scratch; 2, M. N. Hübbe, scratch; 3, R. Whitfield, 2 yards.

100 yards College Championship.—1, R. Rounsevell; 2, W. B. Angwin; 3, G. P. Goode.

High Jump (Junior).—1, L. B. Day; 2, H. Angwin; 3, L. L. Davey.

150 yards Flat (under 16).—1, T. M. Waddy, 11 yards; 2, S. Abotomey, 5 yards; 3, J. L. Davidson, scratch.

220 yards Flat.—1, W. Ingleton, 15 yards; 2, G. P. Goode, 6 yards; 3, L. Stein, 20 yards.

120 yards Flat (under 13).—1, E. A. DeRose, scratch; 2, A. G. Strawbridge, 3 yards; 3, T. E. Cleland, 15 yards.

300 yards Steeplechase.—1, R. J. B. Townsend, scratch; 2, J. L. Davidson, 7 yards; 3, E. A. H. Russell, 7 yards.

150 yards Medley.—1, J. Carr (hopping); 2, J. Read (hopping); 3, L. Thomas (hopping).

Senior High Jump.—1, A. T. Jefferis; 2, R. Rounsevell; 3, A. G. Trott.

440 yards Flat.—1, W. Ingleton, 25 yards; 2, R. M. Scott, 25 yards; 3, R. W. Tassie, scratch.

120 yards Hurdles (under 15).—1, L. L. Davey, scratch; 2, B. C. Rounsevell, 4 yards; 3, H. Berryman, 5 yards.

One Mile Bicycle Race.—1, W. B. Reid, 60 yards; 2, E. B. Liddelow, 55 yards; 3, A. Williams, 15 yards.

120 yards Flat.—1, A. Darke, 6 yards; 2, C. E. Dolling, 7 yards; 3, C. F. Hummel, 10 yards; 4, W. G. Diment, 2 yards.

120 yards Hurdles.—1, A. T. Jefferis, scratch; 2, R. Rounsevell (5 yards behind); 3, J. L. Davidson, 5 yards.

300 yards Obstacle Race.—1, G. P. Goode, scratch; 2, R. J. Trott, 15 yards; 3, J. A. Carr, 20 yards; 4, P. E. Green, 5 yards.

Long Jump.—1, R. Rounsevell; 2, A. G. Trott; 3, H. M. Hardy.

Half Mile.—1, A. L. Steele, 25 yards; 2, J. L. Davidson, 15 yards; 3, A. Darke, 20 yards; 4, T. M. Waddy, 40 yards.

120 yards Hurdles (Old Scholars).—1, B. L. Gardiner; 2, W. B. Lang.

120 yards Hurdles (Old Scholars).—1, C. Doudy; 2, B. L. Gardiner.

On the Monday following the consolation races were run with the following results:—

Senior.—1, C. T. Drew; 2, W. S. Bascomb.

Junior.—1, H. H. Ragless ; 2, E. R. James.

The football for best kicking for goal fell to A. A. Strickland.

The relative positions of the respective forms may be seen from the following, counting 1st, 3 points ; 2nd, 2 points ; 3rd, 1 point :—

Upper VI. ... ..	18	points
Lower VI. ... ..	15	"

Lower V. ... ..	18	"
Upper IV. ... ..	6	"
Middle IV. ... ..	0	"
Lower IV. ... ..	15	"
Upper III. ... ..	12	"
Lower III. ... ..	5	"
II. and I. ... ..	11	"

### The Christian Union.

During the term just closed work in connection with the Students' Christian Union has gone on steadily. Towards the end of the term the University examinations interfered somewhat with the attendance, still the meetings kept up very well under the enthusiastic leadership of Mr. Allen.

We had the pleasure of listening to many helpful addresses. Mr. Howard's visit was especially appreciated, and his discourse on "growth" was not only helpful but very interesting and instructive. The Head Master's closing address was very appropriate and im-

pressive. He spoke more directly to those who are leaving the College and going out to face the world in earnest. He strongly advised them to stick to the religion of their fathers and the good old way of reading their Bibles and seeking help in prayer.

The fact that another year of college life has closed brings some solemn reflections to our minds. The question may come to each of us—Have we done all that we could have done, has every opportunity of doing good been used to its fullest extent? It is very likely that in most cases not very satisfactory answers can be given. But regrets are vain, and we can only feel thankful that during the year our Union has been blessed, and can believe that it has been a great factor for good in the College. Effects of such work can rarely be estimated, and the good results of the meetings we have held cannot be told. We can only hope and pray that the seed sown may find a resting place in the fertile soil of good and honest hearts and that in after years it will grow and bring forth an abundant harvest to the glory of our all-wise and loving Creator. As we pass out of college life and leave behind us this scene of perpetual youth we earnestly say, "God bless the Christian Union in Prince Alfred College." May its power and influence extend and grow, so that those who are destined to play a part—maybe a leading one—in

the affairs of this Commonwealth may be grounded in the first principles of true wisdom, and may add to the other attributes of their characters the righteousness that exalteth both man and nation.

R. HARKNESS.

---

### The Governor's Visit.

---

His Excellency, Sir George Le Hunte kindly accepted the invitation of the Head Master and paid us a visit on Friday, December 4th. The Governor arrived as promised punctually at noon, accompanied by the Hon. Victor Nelson Hood. He was received in the main hall by the Head Master, the Rev. H. J. Pope (the Hon. Pres.), Mr. G. S. Cotton, (the Hon. Sec.) Mr. E. B. Colton (the Hon. Treas), the Rev. Wm. Jeffries and several other members of the College Committee. His Excellency was conducted round the building, through the class rooms, the science lecture room and laboratory, the gymnasium, the museum, art room, &c., and took most manifest interest in all he saw, asking many questions, and saying words of cheer and appreciation. When the tour of inspection had been completed the Governor came to the big schoolroom where all the boys had assembled. They rose on his entrance, sang heartily a verse of the National Anthem and enthusiastically

clapped as His Excellency ascended the platform. The Head Master then said he had great pleasure in welcoming His Excellency upon this occasion of his first visit to the College. His Excellency had been kind enough to promise to preside at the approaching Speech Day, and as that function would be held in the Adelaide Town Hall, because the school at present had no hall large enough to accommodate its friends as well as the school at its annual gathering (a need that it was hoped would be met before very long) he (the Head Master) had been anxious that the Governor should visit the school before the Speech Day, so as to know it a little better before taking the chair at its meeting. The weeks were so full just now with University and other examinations that it was difficult to find a day when all the senior boys could be present. And yet the Head Master said he wanted them to be present, for 80 or so of them would shortly leave the school for active life. Evening shadows bring pathos, and he felt sure that His Excellency's visit would perhaps best be appreciated by and be most helpful to those who would be in their places here but a few times more. This day, Friday of this week, seemed the one which would suit school arrangements, and therefore it was an additional favour that the Governor had accepted for the time of his visit the first day specially submitted to

him. In the name of the school most sincerely did he thank His Excellency. (Loud cheers.)

His Excellency, who on rising was received with prolonged clapping, first said "If you will excuse me, Mr. Chapple, I am not going to talk to you, or to the President, but to my friends in front." This elicited further hearty applause. "This is my official visit. When a Governor enters upon his duties he pays official visits to various institutions. Now, I want you to understand that my official visit here has terminated—now. Do you understand what that means? From this moment this is a friendly visit to you, for I am here as your friend and not officially. I am going to talk to you in a friendly way, and let me tell you how extremely glad I am that we meet face to face and as friend to friend." His Excellency said that he had visited St. Peter's College in the same spirit. He carried the boys back to his own school days, which he said, had left happy memories. "Now," said he, "When we meet in the street, we will recognise one another; when I notice your red-and-white I will recognise you. I will expect you to recognise me. I have a great respect for boys, and no one need hope to get on who does not respect them." His Excellency added. "No man can be successful in life unless he respects boys. The feeling of respect should be

mutual between boys and their elders, and elders and their boys. This is the key note of success. I shall always say 'Good morning' when I meet you, and I want you to say the same to me. These are the little courtesies of life, they are not limited to superiors, but are for exchange between equal and equal, and friends. Boys, these are gentlemanly courtesies, and as my equals I shall be glad to recognise you. I have many friends at St. Peter's College, and I have made many more to-day and am proud of it." The Governor went on to say that he had been struck with the excellent way the school was equipped, every branch of learning was represented, there seemed nothing wanting in the direction of science, art, or gymnastics at the college. He had noticed great advances in various directions since his school days, and the boys should take full advantage of their opportunities. All should do that, and thereby become a credit both to themselves and their college. If the boys left the gates of the college with a consciousness that they had done their best, whether they had been top of the class and had won prizes or not, they were on the high road to success in life. The leading boys in a school like that had a big responsibility, for the other boys were sure to learn to follow. He was glad to learn that the college had reached a high standard of efficiency.

The boys who left it should try to maintain its reputation and carry it through life. Even in the short time he had been in South Australia he had heard persons favorably referred to as P.A.C., St. Peters, and University boys. It was always a credit to an institution when good things were said about its old scholars. The boys of P.A.C. should carry the colors of their school, not only on the lapels of their coats, but in their hearts. The college had won high distinction at play as well as work, and held four trophies for the games of the field. (Cheers.) The boys were now preparing for their cricket match with St. Peter's College, and he hoped the game would be a good one, and that the best side would be victorious. At the close of his remarks His Excellency asked to speak to the Captain of the school, and on Frank Ellis coming forward the Governor stepped down off the platform. and after a little conversation said to the Head Master that the Captain and he had been making a little plot. It was to express the hope that this pleasant visit might be crowned by a half holiday at such time as the Head Master should please. "We humbly trust this favour may be granted." There were loud cheers at this request, and still louder when the Head Master acceded to it. The Governor then retired. The boys under the direction of Mr. Bayly and

the other masters lined the carriage drive and lustily cheered the Governor as he retired. Even the Union Jack on the flagstaff seemed to wave more vigorously in the breeze.

---

### Obituary.

---

Just as we go to press we regret to say that a cable has been received stating that on January 5th, Samuel Fiddian, M.A., the first Head Master of Prince Alfred College died at Liverpool, England. Mr. Fiddian was Head Master during the years 1869 and 1870, the first two years in the history of the College. He had a distinguished career at St. John's College, Cambridge, and brought to his appointment at Prince Alfred high mathematical attainments. There are many old boys who remember the period of his rule here with gratitude and he always took the greatest interest in his old school. After leaving us Mr. Fiddian conducted a school of his own at Creswick, Victoria. He was on a visit to England, and expected shortly to return to Australia; but it was decreed otherwise. Great sympathy will be felt for Mrs. Fiddian and her three sons.

It is our melancholy duty to record the death of three esteemed old boys. Dr. Hermann Zwar, M.B., B.S., of Melbourne, died at Clermont, Queensland, from the after-effects of enteric fever, though from the disease itself it was hoped he had recovered.

Stanley Arthur Malin, in his fifth year M.B. at Sydney, fell a victim to enteric also.

Horace John Heggaton, so long known and so highly esteemed as managing clerk to Messrs. Gordon, Bright, and Andersen, passed away through a fatal inadvertence, and the community is poorer for the loss of these promising young men, and so is our "old boys" roll.

### Cricket.

#### FIRST ELEVEN MATCHES.

P.A.C. v. Woodville Park.—P.A.C., five for 128; Townsend 32, Darling 31, Jefferis 31, Dolling 25; Townsend one for 15; Dolling one for 18, Cornish one for 54. Woodville Park, four wickets for 51.

P.A.C. v. Early Closers.—P.A.C., 201; Darling 68, Dolling 31, Jefferis 29, Rounsevell 20. Early Closers, first innings 60, second innings 87; Townsend four for 17, Drew five for 38,

Jefferis four for 26, Dolling two for 34, Rounsevell three for 9.

P.A.C. v. G. & R. Wills.—P.A.C., six for 150; Paton 57 not out, Lang 25, Rounsevell 24, Jefferis 19, Darling 10; Dolling four for 156, Rounsevell three for 64, Townsend two for 144, Jefferis one for 72. G. & R. Wills, 356; Sharland 176 not out, Voss 94.

P.A.C. v. Prospect United.—P.A.C., one for 276; V. Drew 171 not out, Darling 69, Strickland not out 17; Dolling four for 13, Rounsevell two for 3, Kennett two for 29, Strickland one for 3, Townsend one for 8. Prospect United, 60.

P.A.C. v. Eastbournes.—P.A.C., 4 for 212; Drew not out 78, Paton 64, Townsend 39, Dolling 14; Dolling one for 4, Rounsevell one for 7, Townsend one for 13. Eastbournes, three for 40.

P.A.C. v. Full Members.—P.A.C., six for 92; C. Drew 25, Strickland not out 22, Goode 15, Lang 11; Darling four for 8, Jefferis two for 1, Townsend two for 13. Full Members, 58; Bruce 23.

P.A.C. v. Bankville B.—P.A.C., five for 163; Townsend 57, Darling 57, Dolling 15; Kennett two for 21. Bankville B, two for 58.

P.A.C. v. Old Scholars.—P.A.C., nine for 278; V. Drew 56 retired, Dolling retired 55, Strickland 53 retired, C. Drew 25 not out, Jefferis 22, Townsend 19; Strickland three for 26, Dol-

ling three for 41, Jeffris 1 for 13, Kennett one for 20. Old Scholars, nine for 173; Richardson 58, Bruce 44.

## FIRST ELEVEN AVERAGES.

BATTING.					
Batsman.	Innings.	Not Out.	Runs.	Highest Score.	Avg.
Drew, V.	10	2	565	202	70·6

Rounsevell	263	4	188	8	23·5
Jefferis ...	456	2	347	12	28·9

## CRITIQUE OF THE TEAM.

H. G. Darling—A good bat, with a strong defence; a most consistent scorer; a very solid field at point.

C. E. Dolling—A strong, forcing batsman, with a good eye; does not play with a straight bat. A good length

bowler, breaking both ways; has a dangerous fast ball. Good field.

C. F. Drew—A fair batsman, with a good late cut stroke; hardly strong and tall enough to be effective. A good field; has made two or three magnificent catches.

A. T. Jefferis—A fair batsman, with some very good strokes on the leg. Was once a bowler, but has gone off lately. A good slip and long field; works very hard, which atones for his faults.

W. R. Kennett—A rather good batsman, who is able to cut well; stands in front of his wicket, and is liable to get out l.b.w. A fair change bowler, with a big leg break. A good man in the long field and a splendid fine slip.

W. H. Lang—A weak batsman; has gone off a great deal. Is a poor field, but now and then puts in a magnificent piece of work.

W. D. Paton—The best new man. A forcing batsman; can cut a ball well; is not afraid to hit. In the field he is rather slow, and does not work hard enough.

R. Rounsevell—A hitter who forgets usually that he can hit, and tries to play carefully. An erratic bowler, but has some deadly balls. A splendid field, though somewhat lazy; can be relied upon to do his duty in any place.

A. Strickland—A surprise this term to everybody. Has shown great improvement in every way. This is no

doubt because he practises with such vigor; has strokes all round the wicket; particularly sweet on a leg stroke, which is all his own. A fairly fast leg break bowler, with some puzzling balls. A good third man and a splendid long pull.

R. J. B. Townsend—A vigorous batsman; too fond of lifting the ball; has strokes all round the wicket; seems satisfied with himself when he has reached fifty, and “slogs.” The best bowler in the team; should not try to bowl too slow. A good field.

W. V. Drew (Captain)—Good solid bat, with strokes all round the wicket; better attack than defence. Very good wicketkeeper and fair change bowler. Has managed his team throughout the season very well.

SECOND ELEVEN MATCHES..

Matches Played, 8; Won, 5; Lost, 0; Drawn, 3.

P.A.C. II. v. Ovingham.—P.A.C., six for 93; Cornish 19, Fuller 12, Ovingham 57.

P.A.C. II. v. S.P.S.C. II.—P.A.C., 127; Goode 30, Ingleton 19, Dellbridge 18, Middleton 15; Wilton, two for 5. S.P.S.C., two for 58.

P.A.C. II. v. Wavertons.—P.A.C., three for 245; Fuller 101, Goode 78, Middleton 50 not out; Pflaum two for 46, Wilton two for 29. Wavertons, five for 141.

P.A.C. II. v. St. Giles.—P.A.C., 165; Middleton 43, Steele 17; Delbridge three for 9. St. Giles, 74.

P.A.C. II. v. Sussex II.—P.A.C., two for 183; Goode 85 not out, Middleton 49, Delbridge 24 not out; Pflaum six for 12, Stoddart four for 19. Sussex, 43.

P.A.C. II. v. Early Closers II.—P.A.C., 101 retired; Delbridge 47, Stoddart 47, Wilton 27, Cornish 27; Pflaum six for 26, Wilton one for 13, Middleton one for 15. Early Closers, 83.

P.A.C. II. v. Rose Park.—P.A.C., eight for 191; Middleton 58 not out, Pflaum 29, Wilton 28, Fuller 24; Pflaum six for 12, Cornish three for 3. Rose Park 58.

P.A.C. II. v. S.P.S.C. II.—P.A.C., 259; Fuller 112, Cornish 80, Stoddart 19, Delbridge 14; Rankin two for 4, Waddy one for 7. S.P.S.C., four for 116.

SECOND ELEVEN AVERAGES.

## THIRD ELEVEN MATCHES.

P.A.C. III. v. Vinedales.—P.A.C., 90. Vinedales, 21.

P.A.C. III. v. S.P.S.C. III.—P.A.C., 62. S.P.S.C., three for 56.

P.A.C. III. v. Kilkenny S.S.—P.A.C., 13 and six for 58. Kilkenny, 27 and 28.

P.A.C. III. v. Silver Star.—P.A.C., 92 and 87. Silver Star, 60 and 15.

P.A.C. III. v. S.P.S.C. III.—P.A.C., 73. S.P.S.C., eight for 95.

---

**Gymnastics.**

---

The Gymnasium Classes have just completed an eventful and highly satisfactory year.

The shield was won fairly easily sometime back, and A. G. Trott has just carried off the intercollegiate championship with greater ease than any of his predecessors. The present champion had for the past two years at least worked so earnestly that it came as no surprise to those who had followed his doings. We all congratulate him most

heartily on his well-deserved victory, and likewise express our great appreciation at his having recovered the title of champion, which had passed over to our rivals' quarters last year.

P. E. Green is also to be congratulated, having secured second place, while the St. Peter's champion (W. Gilbert) came third on the list. Green shot up very quickly, having joined the senior ranks less than twelve months back. This is a most unusual occurrence, and I think only once previously has this been accomplished within the last 12 years, and that by Claude Bennett.

Unhappily the competition clashed with the oval cricket practice, and our old friends R. J. B. Townsend and A. T. Jefferis did not compete.

Looking at the work generally, the classes have done exceedingly well, and the standard reached was up to the best of any previous year. Richardson, Jackson, Wilson, V. C. Thompson, Dix, DeGaris, Angwin, McNamara, Steele, Hancock, Fuller, Bowring, Flecker, Ragless, Kindermann, Evans, and the prize-winners showed the best work.

The following are the results.—

Intercollegiate (Gold Medal, presented by Hugo Leschen, Esq.)—A. G. Trott.

VI. and Lower VI.—S. Parnell.

Upper V.—R. J. B. Townsend.

Upper II., Lower II., and I.—L. Darling.

Upper III. and Lower III.—A. H. Smith.

Lower V.—G. P. Goode.

IV. and Lower IV.—G. J. Seppelt.

Upper IV.—K. McEwin.

General Proficiency—A. P. C. Hart.

Boarders—P. E. Green.

### Intercollegiate Sports.

The Sixth Annual Athletic Sports between S.P.S.C. and P.A.C. were held on the Adelaide Oval on Friday, Oct. 2. Our own sports had been held on the preceding Friday, when, owing to wet weather, the ground was rather heavy; but on this occasion the light rains during the week had the effect rather of improving the condition of the turf, consequently some fast times were made in several of the races. The day was clear and cloudless, and we were favored with a large attendance of spectators, who took the keenest interest in the results of the various events. We had looked forward to the contest this year with some confidence, as we considered we had on this occasion an excellent chance of reversing the verdicts of previous years. There was, however, a disappointment in store for us, as we lost the services of W. B. Angwin, our No. 1 in the 100, 150, and 220 yards flat races; on the other hand,

G. C. Campbell, who for the past three years had been a tower of strength to our rivals, was forced through ill-health to retire from the contest. With these two old rivals absent there seemed to be little difference between the capabilities of the two teams. The racing was well up to the standard of previous years. Many of the finishes were close, and the records in several events were either equalled or beaten. Especial reference must be made to the performance of R. Rounsevell, who proved himself one of the finest all-round athletes we have had in the school; he scored 20 points in all for us, gaining 2 firsts, 3 seconds, and 1 third, being placed in every event in which he competed, and also equaling Campbell's record of 15 3-5ths secs. for the 150 yards flat. Another fine performance was that of A. G. Trott in the long jump; by a magnificent effort at his first attempt he cleared 19 ft. 8½ in., beating the previous record by 4 inches.

The finish of the contest was very keenly fought out. After the Steeplechase had been run the points were equal, and the two events yet to be decided were the long jump and the half mile. When the six competitors came out for the former the excitement was intense. On the results of the previous sports the St. Peter's team seemed to have the better chance of scoring, but as previously mentioned Trott rose to the occasion, and had a well-deserved

ovation when he put the issue almost beyond doubt. Rounsevell as usual was in evidence, and gained second place; this gave us a lead of 7 points, with the final event, the half mile, remaining. In this McCoy, who had run well in the same event in 1902, was our No. 1, and well justified the confidence we placed in him. He ran a nicely judged race, and finishing well just beat Wallman for first place, the Blues filling second and third places. The final scores for the meeting were then posted:—

P.A.C. ... .. 58 points.

S.P.S.C.... .. 50 points.

Thus we had a splendid finish to an evenly contested struggle, and this our first win in Intercollegiate Sports was hailed with enthusiastic cheering.

The old scholars' events, which did not count in the scoring for the cup, provided some excellent racing. In the 150 yards hurdles Gardiner broke the record by doing the distance in the even 20 seconds. He also won the 440 yards after a fine tussle with MacLennan. Another record went by the board in the 100 yards contest, when Doudy just beat his old rival MacLennan in 10 2-5ths secs. All three of these events went to the representatives of P.A.C.

At the conclusion of the sports the cup and medals were presented to the winners by Lady Way, who with

several friends occupied the Vice-Regal box during the afternoon.

The events were as follows:—

150 yards Flat.—1, R. Rounsevell, P.A.C.; 2, C. N. McKenzie, S.P.S.C.; 3, W. H. Lang, P.A.C. Time, 15 3-5ths secs. (equal to the record). Rounsevell ran a good race, and fought out a fine finish with McKenzie, who beat Lang by about a yard for second place.

120 yards Hurdles.—1, R. J. Townsend, P.A.C., and H. M. Muirhead, S.P.S.C., dead heat; 3, R. Rounsevell, P.A.C. Time, 16 3-5ths secs. Townsend has a very taking style, and was leading over the last hurdle, but some slight anxiety as to the position of his nearest opponent caused him to falter slightly, and Muirhead coming fast at the finish caught him in the last yard, and the judges were unable to separate them on the tape.

100 yards Flat (Juniors).—1, A. J. Melrose, S.P.S.C.; 2, W. Kindermann, S.P.S.C.; 3, K. McEwin, P.A.C. Time, 11 2-5ths secs. This was a fast run race, and our representatives were rather badly beaten. McEwin, however, finished well, and gained one point for us.

100 yards Flat.—1, C. N. Mackenzie, S.P.S.C.; 2, R. Rounsevell, P.A.C.; 3, G. P. Goode, P.A.C. Time, 10 3-5ths secs. Mackenzie and Rounsevell again fought out a close finish, the verdict this time going to Mackenzie, who

finished gamely in spite of a strain received in the previous race, which unfortunately prevented his taking any further part in the meeting, the Blues thus losing his services both in the 220 and 440 yards races.

High Jump.—1, F. T. Buttfield, S.P.S.C.; 2, R. Rounsevell, P.A.C.; 3, A. T. Jefferis, P.A.C., and E. D. Bowman, S.P.S.C., equal. Duncan fell out at 4 ft. 8 in., and Trott at 4 ft. 10 in., and of the others Buttfield alone cleared 5 ft. 1 in. On jumping off for second and third places Rounsevell cleared 5 ft., and the other two divided the points for third.

120 yards Hurdles (Junior).—1, C. M. Muirhead, S.P.S.C.; 2, G. C. Church, S.P.S.C.; 3, L. L. Davey, P.A.C. Time, 17 4-5ths sec. Davey, our first representative, did not repeat the fine form over the hurdles he had shown us in our own sports, and as in the previous junior event we had to be content with a single point.

440 yards Flat.—1, W. Ingleton, P.A.C.; 2, L. A. Lewis, S.P.S.C.; 3, W. H. Lang, P.A.C. Time, 56 3-5th secs. This was an unfortunate race, as at the start Tassie and Yuill collided and fell, taking no further part in the race. Ingleton ran well, and on entering the straight was close on Lewis, who was leading. When Ingleton made his effort and was passing Lewis the latter swerved and forced him out from the track, with the result that

Lewis crossed the tape in front of our representative. A protest was of course entered, and the stewards after consideration awarded the race to Ingleton, placing Lewis second. Lang was about 6 yards away, and gained third place. By all the laws of "sport" Lewis should either have been allowed first place or completely disqualified. The compromise was a mistake, and not—to quote Sarah Battle—"the rigour of the game."

Bicycle Race.—1, P. W. Sandford, S.P.S.C.; 2, C. C. Reid, S.P.S.C.; 3, H. Williams, P.A.C. Time, 2 min. 39 4-5th secs. Sandford went away at the start, and was allowed to get a good break on the field which was never made up, as he finished yards in front of Reid and Williams, who had apparently underestimated Sandford's staying powers.

High Jump (Juniors).—1, L. B. Day, P.A.C., and L. L. Davey, P.A.C., equal; 3, C. M. Muirhead, S.P.S.C. The jumping in this event was distinctly good, Day and Davey equalling the record of 4 ft. 8 in. put up by C. Lang some years ago.

220 yards Flat.—1, R. Rounsevell, P.A.C.; 2, G. P. Goode, P.A.C.; 3, W. H. Stevenson, S.P.S.C., and W. Ingleton, P.A.C., equal. Time, 24 1-5th secs. Rounsevell held a good position throughout the race, and coming away at the finish won comfortably from Goode, while Ingleton and Stevenson

provided some excitement by the keenness of their struggle for third place.

300 yards Steeplechase.—1, H. M. Muirhead, S.P.S.C., and R. J. Townsend, P.A.C., dead heat; 3, W. G. Duncan, S.P.S.C. Time, 44 sec. This was not a good contest, the extra six inches on the hurdles seemed to trouble all the competitors, as there was a good deal of striking the jumps during the race, and only the three placed men finished. Townsend led over the last hurdle, but Muirhead was close up, and, as in the Hurdle Race, these two could not be separated by the judges at the finish.

Long Jump.—1, A. G. Trott, P.A.C.; 2, R. Rounsevell, P.A.C.; 3, H. G. Murray, S.P.S.C., and J. A. Yuill, S.P.S.C., equal. This event provided a fine exhibition of jumping. Rounsevell led off with a rather poor jump; Murray followed for the Blues and cleared over 18 feet. Trott then got well up to the mark and amid great applause beat the preceding jump by nearly 18 inches. Buttfield, Hardy, and Yuill followed, but failed to approach Trott's distance. In the second round Trott stood down, and Rounsevell at this attempt got within 5 inches of Trott. Buttfield in his third try equalled Murray's first jump. Trott's distance of 19 ft. 8½ in. makes a record which should stand for some time.

Half Mile.—1, A. G. McCoy, P.A.C., 2, C. R. Wallmann, S.P.S.C.; 3, C. R.

Cudmore, S.P.S.C. Time, 2 min. 20 2-5th sec. McCoy ran well, and finishing strongly gained the five points and assured us of this our first victory since the inauguration of the sports in 1898.

#### OLD COLLEGIANS' EVENTS.

150 yards Hurdles.—1, B. L. Gardiner, P.A.C.; 2, E. Lewis, S.P.S.C.; 3, E. Chapple, P.A.C. Time, 20 secs.

100 yards Flat.—1, C. R. Douady, P.A.C.; 2, J. S. Maclellan, S.P.S.C.; 3, B. L. Gardiner, P.A.C. Time, 10 2-5th secs.

440 yards Flat.—B. L. Gardiner, P.A.C.; 2, J. S. Maclellan, S.P.S.C.; 3, E. Lewis, S.P.S.C. Time, 54 secs.

---

#### Old Boys.

Mr. James T. Mellor, LL.B., has been elected President of the Baptist Union. We heartily congratulate him and trust he may have a year of great happiness and usefulness. Another old P.A.C., Mr. J. R. Fowler, M.A., was similarly honored four years ago.

---

Alfred Chapple spent two months of his long vacation in the works of one of the best machine tool makers in the world, viz., Max, of Messrs. Wm. Muir & Co. of Manchester. Here are produced machines for boring, drilling, slotting, milling, shaping, planing, &c. Wondrous is the wit and genius

and ingenuity of man, in such matters. He has found it a most interesting experience.

Hearty congratulations on the cricket match were wired to us from Clarence Newman (Sydney), Ned Stirling (Claremont, W.A.), W. G. Thompson (Elliston), Messrs. Axford and Fleming (Jamestown). The last "wire" recalled to us that "Stan." Fleming himself has been wielding the willow to some purpose. Perhaps his greatest day was November 9th, when playing for Jamestown v. Yongala. In two hours he put up a total of 203 (including 3 fives and 28 fours) without giving a chance, and then retired, the score standing at 259.

Dr. W. C. Gray, M.B., Sydney has been appointed medical officer of the Bulong Hospital, W.A.

Beauchamp Gardiner won the cup at the first University of Adelaide Athletic Sports. Having successfully completed the theoretical part of his course in Mining at the University he has left for Kalgoolie, to gain practical experience.

C. F. Stephens, B.Sc. (Adelaide) B.A. (Oxford), has just been awarded the high honor at Oxford of the Burdett Coutts Geological Scholarship for research.

The Examination of the Australian Institute of Accountants has been unusually severe this time. Of 44 candidates from S.A. only 5 survived the ordeal. We are glad to notice amongst those 5 the names of Walter Angel and J. H. Burgess. Hearty congratulations.

#### SUCCESSSES DURING 1903.

In London H. H. Formby, M.B., Ch.B., has obtained his F.R.C.S. and A. Chapple, B.A., B.Sc., has been admitted to the Inner Temple We congratulate them both.

At Edinburgh W. J. Colebatch has obtained the F.R.C.V.S. while E. A. Brummitt has passed his "First Professional."

At Glasgow L. J. Dunston has completed his first year M.B.

We congratulate F. W. A. Magarey on obtaining his M.D., and W. C. Grey on his M.B. degree at Sydney, also H. F. Shorney his M.D. at Melbourne University.

In New Zealand Rev. T. E. Thomas has completed his B.A. course.

"Old boys" have again scored signally at the Adelaide University. J. F. Ward obtained his B.A. degree with First Class honors in Classics, and J. R. Wilton his B.Sc. degree with First Class honors in Mathematics and Physics, thus establishing a record in their respective courses. We congratulate them most heartily on their well merited success.

F. H. Cowell is also to be congratulated on having, despite his accident, completed his B.A. with Honors in Classics.

E. Chapple and M. W. Judell also obtained their B.Sc. degrees.

In the post-graduate courses A. E. Paton and B. L. Gardiner in Mining and Metallurgy and E. Chapple in Electrical Engineering, have successfully passed the necessary exams. with Honors, but require six months' practical work to obtain their diplomas.

Of the four scholarships awarded in the Medical School this year, three have been annexed by old P.A.C.'s.

In the fourth year M. L. Scott was awarded the Dr. Davies Thomas Scholarship for being top of the First Class in that year; D. Dawson the Dr. Davies Thomas Scholarship in the third year; and H. K. Fry the Elder Prize in the first year.

Also in the fourth Medicine R. G. Burnard obtained a Second Class.

In the third year W. M. Hunn, First Class; and R. D. Brummitt, Third Class.

In the second year L. J. Pellew and R. G. Plummer are both in the Second Class. (There was no First Class).

In the first year D. R. W. Cowan was Second Class; and H. Flecker, L. W. Jefferis, and R. J. Verco, Third Class.

In the Law course we note that C. P. Latty has passed in Law of Property (I.), and Economics in the Second

Class, and in the Law of Contracts; J. Homburg, Law of Contracts; C. R. Doudy in Latin with Second Class, and L. H. Haslam in English Language and Literature.

For the B.A., A. W. Collins and W. H. Kleeman have passed in Compulsory Physics; E. W. Holden in Physics (second year) and Applied Mathematics; H. E. Pearson in Physics (second year) and English Language and Literature; R. A. West in Applied Mathematics; P. J. Rofe and G. E. Sunter in Modern European History; H. J. Deeble in Psychology and Education; M. M. Maughan in Economics; and we congratulate W. H. Rayner on passing in English Language and Literature, being *prox. acc.* for the John Howard Clark Scholarship.

For the B.Sc., L. T. Cowan has passed in Biology and Chemistry I.; E. M. Ingamells in Biology, Mineralogy, and Petrology I., and Geology I.; G. R. West in Physiology, Chemistry I. (First Class); C. W. Hooper in Chemistry I. and Qualitative Chemistry; G. D. Moore in Chemistry I. and Qualitative Chemistry, Physics (second year), Mineralogy and Petrology I.; W. L. Cleland in Chemistry I. and Applied Mechanics; N. S. Giles in Qualitative Chemistry, Mineralogy, and Petrology I.; J. Shaw in Qualitative Chemistry, Physics (second year), and Applied Mechanics; H. K. Fry, in

Compulsory Mathematics and Chemistry with First Class, and Biology; H. H. Hanton in Compulsory Chemistry (First Class); H. C. Bowen, Compulsory Chemistry and Physics with First Class, and Pure Mathematics I.; L. J. Darwin, Compulsory Chemistry and Physics and Pure Mathematics I., all First Class, and also Physics (second year) and Applied Mathematics; H. T. Phillips in Compulsory Chemistry, Chemistry I., and Qualitative Chemistry; R. Trudinger in Compulsory Chemistry and Physics and Physics (second year); C. T. Rose, R. Asher, and N. H. Edwards in Compulsory Chemistry, and J. H. Allen in Biology.

For the Advanced Commercial Certificate, R. H. Cotton has passed in Economics with Credit, C. B. McMichael in Economics, A. J. Willmore in Commercial Law with Credit, H. Ambrose Solly in Commercial Law with Credit, A. Hogben in Accountancy and Economics, and W. H. Wolter in Accountancy with Credit.

At the S.A. School of Mines, R. F. Blakie has gained the Associateship in Mining, and E. M. Goode in Metallurgy.

---

There was a young person named Tate,  
Who went out to dine at 8.8;  
But I will not relate  
What that person named Tate  
At his tête-a-tête ate at 8.8.

## University Examinations.

### HIGHER PUBLIC.

#### GENERAL HONOR LIST.

- 1 Ellis, F.
- 3 Jona, J. L.  
Tassie, R. W.
- 5 Bennett, F. N.
- 6 West, J. S.

That is, we took five out of the six Honors granted.

#### ANGAS ENGINEERING EXHIBITION.

Tassie, R. W.

*Proxime accessit*—Bennett, F. N.

#### SPECIAL HONOR LIST.

English Literature—

- 3 Ellis, F.

Greek—

- 2 Ellis, F.

Pure Mathematics—

- 3 Ellis, F.

Applied Mathematics—

- 1 Jona, J. L.

Physics—

- 1 Jona, J. L.
- 2 Bennett, F. N.  
Tassie, R. W.

Inorganic Chemistry—

- 1 Tassie, R. W.
- 2 Bennett, F. N.
- 3 Jefferis, A. T.
- 4 Corry, S. L.  
West, J. S.
- 6 Rischbieth, O.

#### PASS LIST.

W. B. Angwin—German, Physics, Chemistry, Geology.

F. N. Bennett—Latin, German, Pure Mathematics, Physics (credit), Chemistry (credit).

W. R. Birks—Pure Mathematics, Applied Mathematics, Physics, Geology.

S. L. Corry—English Literature, German, Pure Mathematics, Chemistry (credit).

R. J. Dumas—German, Pure Mathematics, Physics, Chemistry, Geology.

F. Ellis—English Literature (credit), Greek (credit), Latin, Pure Mathematics (credit), Chemistry.

W. Ingleton—English Literature, German.

A. T. Jefferis—Applied Mathematics, Physics, Chemistry (credit), Geology.

J. L. Jona—Greek, Latin, Pure Mathematics, Applied Mathematics (credit), Physics (credit).

W. H. Lang—Physics, Chemistry, Geology.

O. Rischbieth—Latin, German, Physics, Chemistry (credit).

W. D. Rosengarten—English Literature, German.

A. W. Smith—Latin, German, Chemistry.

R. W. Tassie—Latin, German, Pure Mathematics, Physics (credit), Chemistry (credit).

R. Trimmer—English Literature, Latin.

A. G. Trott—Chemistry.

J. S. West—Latin, German, Pure Mathematics, Physics, Chemistry (credit).

#### SENIOR PUBLIC.

##### GENERAL HONOR LIST.

- 2 Burgess, L. F.
- Glasson, J. L.
- 4 Darwin, E. R. H.
- 6 McNamara, L. W.
- 25 Arthur, J. A.
- Drew, W. A. V.

##### SPECIAL HONOR LIST.

English Literature—  
16 Cowan, G. D.

History—  
1 Arthur, J. A.

Latin—  
3 Glasson, J. L.  
4 Burgess, L. F.

German—  
3 Darwin, E. R. H.

Arithmetic and Algebra—  
1 Glasson, J. L.  
3 Burgess, L. F.  
5 McNamara, L. W.  
7 Darwin, E. R. H.  
10 Berriman, H. S.  
15 Drew, W. A. V.

Geometry—  
1 Darwin, E. R. H.

Glasson, J. L.  
19 Blackett, J. W.  
Burgess, L. F.  
Drew, W. A. V.  
Jackman, S. H.  
King, A. V.

Trigonometry—  
3 Burgess, L. F.

## Physics—

- 3 Glasson, J. L.
- Morcombe, W. G.
- 5 Darwin, E. R. H.

## Chemistry—

- 1 Darwin, E. R. H.
- 2 Burgess, L. F.
- 3 McNamara, L. W.
- 5 Glasson, J. L.
- 6 Leggoe, R. H.
- 8 Hardy, H. M.

## PASS LIST.

J. A. Arthur—English Literature, History (credit), Latin, German, Arithmetic and Algebra, Geometry, Trigonometry.

H. S. Berriman—English Literature, Latin, German, Arithmetic and Algebra (credit), Chemistry.

L. F. Burgess—Greek, Latin (credit), Arithmetic and Algebra (credit), Geometry (credit), Trigonometry (credit), Physics, Chemistry (credit).

G. D. Cowan—English Literature (credit), Latin, French, Geometry, Chemistry.

E. R. H. Darwin—Latin, German (credit), Arithmetic and Algebra (credit), Geometry (credit), Trigonometry (credit), Physics (credit), Chemistry (credit).

W. A. V. Drew—English Literature, Latin, German, Arithmetic and Algebra (credit), Geometry (credit).

J. L. Glasson—Greek, Latin (credit), Arithmetic and Algebra (credit), Geo-

metry (credit), Physics (credit), Chemistry (credit).

H. M. Hardy—Latin, German, Arithmetic and Algebra, Geometry, Physics, Chemistry (credit).

R. Harkness—English Literature, History, Greek, Geometry, Chemistry.

S. H. Jackman—English Literature, German, Arithmetic and Algebra, Geometry (credit), Chemistry.

R. H. Leggoe—Latin, Arithmetic and Algebra, Geometry, Physics, Chemistry (credit).

J. W. McNamara—Latin, German, Arithmetic and Algebra (credit), Geometry, Physics, Chemistry (credit).

J. L. Rossiter—English Literature, Latin, Arithmetic and Algebra, Geometry, Chemistry.

F. Trengove—English Literature, History, Arithmetic and Algebra, Geometry, Physics.

H. H. Wheatley—English Literature, History, Latin, Arithmetic and Algebra, Geometry.

—

D. Beavan—Geometry, Chemistry.

J. W. Blacket—German, Arithmetic and Algebra, Geometry (credit), Chemistry.

A. A. Darke—German, Geometry, Chemistry.

W. S. Diment—English Literature, History, Arithmetic and Algebra, Geometry.

R. J. Dumas—German.

A. Gluis—Arithmetic and Algebra, Geometry.

E. B. Hunter—English Literature, Geometry.

W. Ingleton—English Literature, German.

A. V. King—Arithmetic and Algebra, Geometry (credit), Physics, Chemistry.

W. H. Lang—Arithmetic and Algebra.

W. G. Morcombe—Arithmetic and Algebra, Geometry, Physics (credit).

W. R. Rogers—French, Trigonometry.

H. E. Rowe—Geometry, Trigonometry, Physics, Chemistry.

E. A. H. Russell—Arithmetic and Algebra, Geometry.

D. D. Schild—Arithmetic and Algebra, Geometry, Botany.

L. B. Shuttleworth—Arithmetic and Algebra, Geometry, Trigonometry.

W. M. Sinclair—History, Geometry.

H. W. D. Stoddart—Arithmetic and Algebra, Geometry, Trigonometry, Chemistry.

J. P. H. Tilbrook—English Literature, History, Physiology.

C. M. Torr—History, Arithmetic and Algebra, Geometry.

R. C. Waters—History, Arithmetic and Algebra, Geometry, Trigonometry.

A. C. Wilton—Geometry, Physics, Chemistry.

### JUNIOR PUBLIC.

#### GENERAL HONOR LIST.

(1, English; 4, Greek; 5, Latin; 6, French; 7, German; 8, Arithmetic; 9, Algebra; 10, Geometry; 12, Chemistry).

8 C. M. Churchward—1, 5, 7, 8\*, 9, 10\*, 12\*.

11 P. C. A. Fornachon—1\*, 4, 5\*, 8, 9, 10\*, 12.

15 A. G. Harvie—1\*, 5\*, 7, 8\*, 9\*, 10, 12.

16 H. T. M. Angwin—1, 4, 5, 8\*, 9, 10\*, 12.

22 T. G. Fleming—1, 5, 7, 8\*, 9\*, 10\*, 12.

28 D. R. Longson—1\*, 5, 7, 8\*, 9, 10\*.

33 N. E. Seppelt—1, 5, 7, 8\*, 9, 10\*, 12.

35 P. M. Fuller—1, 7, 8\*, 9\*, 10\*, 12.

41 C. J. W. Mowat—1, 5, 7, 8\*, 9\*, 10, 12.

41 A. Pinch—1, 5, 7, 8\*, 9, 10, 12.

#### SPECIAL HONOR LIST.

English—

19 G. J. Forden.

26 P. C. A. Fornachon.

26 D. R. Longson.

26 G. T. Williams.

31 A. G. Harvie.

Latin—

14 P. C. A. Fornachon.

18 A. G. Harvie.

Arithmetic—

- 30 E. B. Thomas.
- 32 H. W. Bowring.
- 32 W. B. Reid.

## Chemistry—

- 1 R. M. Scott.
- 2 L. G. Muirhead.
- 3 C. M. Churchward.

PASS LIST (*besides those in the Honors*).

W. R. Baker—1, 5, 7, 8\*, 9, 10, 12.

J. Beavan—1, 5, 7, 8, 9, 10\*, 12.

H. W. Bowring—1, 5, 7, 8, 9, 10\*,

12.

H. Brooker—5, 8, 9, 10, 12.

W. G. Clarke—1, 5, 7, 9, 10.

J. W. Crompton—5, 6, 8, 9, 12.

C. F. Drew—1, 5, 7, 8, 10, 12.

G. J. Forden—1\*, 5, 7, 8, 9, 12.

A. P. Hart—1, 8, 9, 10, 12.

S. W. Jeffries—1, 5, 7, 8, 9, 10, 12.

E. C. Mann—1, 5, 8, 9, 10\*, 12.

L. G. Muirhead—5, 8\*, 9, 10, 12\*.

W. B. Reid—1, 6, 8, 9, 10\*, 12.

E. F. Richardson—1, 5, 8, 9, 10, 12.

R. M. Scott—1, 5, 7, 10, 12\*.

A. L. Slade—1, 5, 8\*, 9, 10.

A. A. Strickland—1, 5, 6, 9, 10, 12.

E. B. Thomas—1, 5, 7, 8, 9, 10\*, 12.

L. A. Whittington—1, 7, 8, 10, 12.

G. T. Williams—1\*, 6, 8, 9, 10.

W. A. Williams—1, 5, 8, 10, 12.

T. M. Young—1, 3, 5, 8, 9.

## PASS IN FOUR SUBJECTS.

D. B. Cameron—8\*, 9\*, 10, 12.

A. V. Flecker—8, 9, 10, 12.

E. L. Medlyn—1, 8\*, 9, 10.

D. A. Roberts—1, 5, 8, 12.

W. A. Sowden—1, 2, 3, 8.

C. E. Verco—1, 8, 9, 10.

## PRIMARY EXAMINATION.

The following have passed in—1, English Grammar, Composition, and Dictation; 2, Arithmetic; and in two at least of the following subjects:—

4, English History; 6, Latin; 9, Algebra; 10, Geometry.

H. T. Annells—4, 6, 9, 10.

J. B. Bache—4, 6, 9, 10.

W. T. E. Berryman—4, 9, 10.

H. L. Bröse—4, 6, 9, 10.

H. J. Cattle—4, 9, 10.

G. B. Cooke—4, 9, 10.

L. L. Davey—4, 6, 9, 10.

L. B. Day—4, 6, 9, 10.

G. W. Downing—4, 6, 9, 10.

W. H. L. Essex—4, 6, 9, 10.

J. C. Hains—4, 6, 9, 10.

B. J. Magarey—4, 6, 9, 10.

S. G. Martin—4, 6, 9, 10.

R. F. Mayfield—4, 9, 10.

K. McEwin—4, 6, 9, 10.

R. McEwin—4, 6, 9, 10.

J. R. McGregor—4, 6, 9, 10.

P. T. Morcombe—4, 6, 9, 10.

R. M. Nairn—4, 6, 9, 10.

W. T. Nicholls—4, 9, 10.

G. G. Masson—6, 9, 10.

T. Randle—4, 9, 10.

J. K. Robin—4, 6, 9, 10.

S. E. Rowe—4, 6, 9, 10.

J. S. Verco—4, 6, 9, 10.

H. C. Waterhouse—4, 6, 9, 10.

A. W. Webb—4, 6, 9, 10.

G. G. White—4, 9, 10.

S. M. Wreford—4, 6, 9, 10.

F. ELLIS,

Hon. Manager.

**The Navy League.**

Mr. H. F. Wyatt, the Envoy of the Navy League of England, delivered an address to the Senior Forms on Wednesday, September 11th. He spoke earnestly of the value to Great Britain of its Navy, of the great and glorious history of our sailors and ships, pointed out the imperative need that there was to Australia as to the other parts of the Empire of maintaining the fleet in full efficiency, of keeping open the great highways of commerce. He stated that even so late as 1846 the question was asked by the French "How much

of Australia do you claim?" and that the British answer was "The whole of it." (This reply elicited a burst of cheers.) He showed that this answer would have been but an empty word but for the fact that we were mistress of the seas. Also that our success in South Africa lately notwithstanding the Anglophobia development in Europe was due to our naval supremacy. And he called on all present not only to rejoice in their brave ancestry who had won and secured the greatness of our people, but to seek to maintain it and to hand it down unimpaired. He suggested the formation in P.A.C. of a branch of the Navy League, saying that such there were in some of the great English schools.

The Head Master thanked Mr. Wyatt for his visit, and for his stirring address, saying that if there were any place where such an address should be enthusiastically received, surely it was in a school always loyal to the throne and the Empire, and whose foundation stone had been laid by the son of Queen Victoria—Alfred, the Sailor Prince. He asked Mr. Wyatt to state the steps that should be taken towards forming such a branch as he had mentioned. This Mr. Wyatt briefly and clearly did.

---

### Final Fete.

The final fete for the new fence fund was held at Prince Alfred College on

Saturday, Sept. 19. The large school-room had been transformed by ladies' skill and taste into a fairy palace, where an excellent display of goods was made. In various classrooms were Punch and Judy, magic lantern, afternoon tea, and other attractions.

Setaro's String Band played selections. The Mayoress of Adelaide (Mrs. Cohen) opened the fair. She was accompanied by the two Misses Cohen and by her son. On the dais with the Mayoress sat also Lady Bonython and Mesdames Pope, Chapple, and Charles Goode. The Rev. H. J. Pope (President of the Methodist Conference) moved a vote of thanks to the Mayoress. The Head Master seconded the vote of thanks, and gave a resumé of the history of the movement, how it originated in love to the college, and in a desire to see it equipped with not only what was useful and necessary, but with what should be worthy of it, its past, and its future. In 1895 the first fete was held, and £130 was raised. In the three following years fetes were held, and by that time the bazaars and subscriptions had brought the amount up to £1,100. From 1898 till now there had been a pause, and interest and subscriptions had been accumulating till the total had reached £1,830. He confidently expected that the present effort would complete the £2,000 originally aimed at. Interest had added £300 to the fund, and the largest subscription was Mr. R.

Henning's donation of 100 guineas. The Lieutenant-Governor had opened the fete of 1895, Lady Victoria Buxton those of 1896 and 1897, Lady Way that of 1898, and it was fitting that the final fete should show not only that the college had great friends in vice-regal circles, but in the highest representatives of civic life. Miss Kathleen Davey then handed the Mayoress a beautiful bouquet. The Mayoress in a few graceful words, then stated the pleasure she had in declaring the fete open. She said that Mr. and Mrs. Chapple's names were known and respected in every household in South Australia. After a verse of the national anthem had been sung three hearty cheers were given for the King, the Governor, and the Mayoress. Brisk business then began and continued throughout the afternoon and evening. The chief stallholders were:—Fancy goods, Mesdames W. Taylor, C. H. Goode, F. H. Snow, J. Marshall, A. W. Marshall, A. F. Gardiner, H. Thompson, and Misses Taylor and Porter, &c.; produce, Mesdames H. J. Pope, A. E. Davey, T. Davey, Cowan, W. Flint, F. Davis, Miss Uren, &c.; flowers, Mrs. Giles, Misses Dreyer, Clark, &c.; dolls and toys, Mesdames A. W. Hill, G. W. Trott, H. C. Short, Long, Misses Colwell, Dobbie, Holder, &c.; pinafores, Mesdames J. M. Uren, J. T. Sunter, Brinsden, W. Robertson, &c.; cakes, Lady Bonython, Mesdames Chinner, G. S. Cotton, A. H. Gault,

Craven, Fleming, and Davies, &c.; sweets, Mesdames Burgan and Osborne and the Misses Saint; refreshments, Mesdames Haslam, Mellor, Misses Drew, Evans, Counter, &c. The post office was under the vivacious management of nurses from the Adelaide Hospital, directed by Nurse Harrold. The large dining hall was well filled for high tea, and a capital concert was given under the management of Mr. J. R. Robertson, by Misses Jarvis and Hodge, Messrs. H. McGowan, F. Wilkinson, S. Newman, H. H. Davies, Brewster Jones, and H. Parsons. The total takings reached £140.

There's a train at 4.4, said Miss Jenny,  
Four tickets I'll take; have you any?  
Said the man at the door:  
Not 4 for 4.4,  
For 4 for 4.4 is too many.

### Prince Alfred Old Collegians' Association.

The annual meeting of the Association was held at the College on October 2, when there was only a fair attendance of members. In the absence through indisposition of the President (Mr. A. E. Davey) the Vice-President (Mr. G. W. R. Lee) occupied the chair. After the minutes of the previous meeting had been read and confirmed, the Hon. Secretary (Mr. H. E. Fuller) read the Annual report as follows:—

#### ANNUAL REPORT FOR YEAR ENDING SEPTEMBER 30, 1903.

Gentlemen—In presenting the 25th annual report your Committee congratulate you heartily upon the steady progress of the Association during the past twelve months.

Membership.—Seventeen old scholars have been added to the list, and the number on the roll is now about 375. A large proportion of these, however, are much in arrears with their subscriptions, notwithstanding frequent applications, and it will be the duty of the new Committee to go through the list with a view to striking out such as may be deemed necessary.

Foundation Scholarship.—The most important item of the year's work was the institution of the Foundation Scholarship. At its first meeting your Committee made arrangements to hand

over to the College Committee the sum of two hundred pounds in accordance with a deed of gift by which your Committee were ensured free education for its annual nominee in perpetuity. Nominations were then invited from the members, with the result that five were received, and from these Philip Morcombe was selected, his tuition commencing in the first term of this year. The Head Master's report of his progress has been most satisfactory, and it will be your business to decide to-night whether he shall continue to be the Foundation Scholar for another year or whether the Committee should invite fresh nominations for 1904.

Annual Dinner.—The annual dinner was held at the South Australian Hotel on Friday, July 10. Your Committee felt some hesitancy in altering the usual habitat of this function, but the result fully justified their decision, as the dinner was undoubtedly the most successful ever held by the Association, forming a record not only in attendance, but also in enthusiasm, sociability, and brilliancy of the speeches. A total number of 97 sat down, and in addition to representatives from St. Peter's and Way College Old Boys' Associations two members of Wesley College Old Boys' Association (Melbourne) were present by invitation.

Your President has been the guest of the Old Boys' Associations connected with St. Peter's, Way, and Hahndorf

Colleges at the annual dinners held by them.

Tablet to S.A. Contingent.—In accordance with a suggestion from the Head Master your Committee have lately instituted a subscription list with a view to erecting a memorial tablet in the schoolroom bearing the names of all old boys who were members of the South African Contingents. The estimated cost is £14, and already a few pounds have been collected. There is no doubt that a memorial such as this will do much to keep the traditions of the school before the present boys, as well as to show in practical form the interest the "old boys" still take in matters which affect the Association in any way.

Finance.—The statement which will be read by the Hon. Treasurer shows that notwithstanding our donation to the College Committee, our funds still keep in a healthy state.

In conclusion your Committee trust members will strive during the coming year to augment our members. Considering the thousands of boys who have passed through the College it seems a pity that our membership is not very much larger, and each member should undertake to secure one new member, so that our list may be doubled.

The balance-sheet was also submitted.

BALANCE-SHEET, 1902-1903.

ARTHUR S. COLLISON, Hon. Treas.

Audited and found correct, Adelaide, October 2, 1903.

N. R. ADAMSON, } Hon.  
C. W. CHINNER, } Auditors.

The President moved the adoption of the report and balance-sheet, and after being supported by Messrs. A. W. Piper and F. Chapple they were unanimously adopted.

The election of officers for the ensuing year resulted as follows:—

President—Mr. G. W. R. Lee.  
Vice-President—Messrs. A. E. Davey, P. E. Johnstone, and H. Fisher.  
Hon. Sec.—Mr. H. E. Fuller.  
Assistant Sec.—Mr. E. J. W. Ashton.  
Hon. Treasurer—Mr. A. G. Collison.  
Representative on P.A. College Committee—Messrs. A. S. Lewis and F. Lathlean.

Committee—Messrs. J. A. Haslam, A. H. Harry, E. H. Newman, R. Burnard, W. R. Bayly, H. R. Adamson, and H. W. Miller.

Auditors—C. W. Chinner, and R. G. Neill.

Scholarship Committee — Messrs. Lee, Grasby, and A. E. Davey.

Several items of interest were brought up for discussion, especially a suggestion that some scheme should be formulated to create greater interest in the Association, and the new Committee will have plenty to do during the coming year.

Messrs. A. C. James and S. Palmer were elected members of the Association.

Light refreshments were provided by the Head Master and Mrs. Chapple, and a pleasant time was spent before the meeting dispersed.

The new Committee held their first meeting on December 18. The Secretary reported that subscriptions to the

tablet to the South African Contingent were coming in very slowly, only 22 members having so far subscribed. It was resolved to make special efforts to obtain the balance required. Orders have been given for the erection of the tablet, and it is hoped that it will be ready for unveiling early in the first term. Subscriptions of 1s. and upwards may be sent to the Secretary at his office, now 50 Steamship Buildings, Currie Street.

A sub-committee was appointed to

confer with a committee from St. Peter's Old Collegians' Association as to the best means of increasing the membership of the Associations.

Master Philip Morcombe has been elected as the Foundation Scholar for another year (1904), the Head Master having given an excellent report of his progress last year.

Members are reminded that subscriptions for 1904 are now due.

H. E. FULLER, Hon. Sec.
