UBI NON EST SCIENTIA ANIMÆ NON EST BONUM.

VOL. IV.—No. 80.

ADELAIDE, SEPTEMBER 14, 1904.

[PRICE SIXPENCE.]

School Notes.

The winning of the first Rhodes Scholarship by our "old boy" Norman Jolly was not allowed to pass unnoticed. On the morning after the news was published the school was in a simmer of excitement, and soon a petition to the Head Master was drawn up by the Sixth and signed by them "on behalf of the school," asking that a half holiday should be granted in honor of the great occasion. As told elsewhere, this was conceded. The Head Master called an assembly and explained all about it, and the great honor that Jolly had won for P.A.C., and then let us go. Many congratulations were showered from delighted old boys. Of course the ever sympathetic President was early on the scene for this business. And especially kind and prompt was the letter which the Bishop of Adelaide sent. One paragraph may be quoted: "We in this state are proud to think that our representative at Oxford under the extremely interesting conditions of the first Rhodes Scholar will be one in whom we can repose such entire confidence."

The greatest event this term is that the long-talked-of fence is now in course of construction. Men have been engaged for some time in cutting down the trees and removing the hedge and old posts and rails that have stood for thirty years and more round the grounds. Indeed the boys have helped busily to chop down the trees, so as to have a hand in the improvements. Their fathers helped Mr. Chapple to plant them in 1876, soon after his coming here. But he has not helped to take them down; indeed, he seems sorry to let them go. But already it can be seen what a fine playground we shall have when the roads are filled up and "Smith's paddock" incorporated with the rest of the front ground. The measurements are 650 feet by 517—room for a full-sized football ground and for two cricket matches; indeed the playing space will be quite as large as that of the Adelaide Oval.

Mr. H. A. Dunn, the architect, is an old boy of great reputation for professional ability. Park railings stretching 1,600 feet have not before, we believe, been made and erected in this state, so it will require great skill to

carry the job out well. Messrs. S. Perry, of Hindley Street, were the successful tenderers for this work.

Then besides there is to be erected in a shady corner near the College a pavilion with seating accommodation for 250. Underneath will be two dressing rooms, a lavatory, a shower-bath room, and a committee room, the whole to be done in the best and latest style of sanitary and other arrangements. Tenders for this are to be called at once.

How interesting it is to read in English papers of the tercentenary of the famous Blundell's School in Tiverton, Devon. In 1604 died Peter Blundell. He had begun life as a poor lad, but by industry and thrift had grown wealthy, and he left most of his fortune to the building up and endowing of a grammar school in his native town. And nothing in its history has made that town so famous. Perhaps the best-known alumnus of late years has been Temple, the well-known Head Master of Rugby and great Archbishop of Canterbury. He loved his school with all his heart to the day of his death, and was pointed out as one of the few great English public men that had not been boys at the greater English public schools. The presentation of his portrait to the school was one very fitting incident of the celebration. Of course, this school, hoary with age as it may seem to us, is quite young when com-

pared with Eton, which dates from 1440; and Winchester, from earlier yet, in 1380. But it awakens greater interest from the fact that while Eton claims Henry VI. as its founder, and Winchester is due to the raising by William Wykeham, Bishop of Winchester, of a greater school upon the site of the earlier one which he attended in his youth, "one of the poorer sort who should receive daily victuals," Blundell's traces the good work it has done for three hundred years to one who was a poor boy that had no schooling himself at all.

When Mr. Frank Tate, the Director of Education in Victoria, and Dr. Smythe, the head of the Training College in Melbourne, were on a visit to Adelaide in connection with the Teachers' Conference recently, our Head Master invited them to visit Prince Alfred. They came accompanied by Mr. Inspector Neale, of the S.A. Education Department. They were present at the "assembly," and listened to the Head Master's Bible lesson. At the close of the service Mr. Chapple welcomed the visitors, and said they had been exceedingly kind to him during his recent visit to Victoria, and that he was glad to make some acknowledgment of their courtesy and to reciprocate at least a little by showing them round P.A.C. Mr. Tate, after saying he had long been anxious to see our school, gave a stirring address cen-

tring round the thought: "Life is a game that all must play in, and each should play up, play his best, play an honorable, straightforward, earnest game." At the close the burst of cheering showed that his remarks had told and were highly appreciated. When we had gone to our classes, the Head Master conducted the visitors round the various form rooms, laboratory, gymnasium, &c.

Old Boys.

H. A. Parsons has received his Exequatur as Consul for Japan at the Vice-Regal Court of the State of South Australia.

A. W. Piper has been appointed Lecturer at the University of Adelaide in Commercial Law as *locum tenens* for Professor Salmon.

P. E. Johnstone, B.A., LL.B., under the same circumstances is lecturing on the Law of Contracts and on Constitutional Law. He has also been elected Secretary of the Incorporated Law Society.

N. W. Jolly, B.Sc., the first Rhodes Scholar for South Australia, has now reached England, and is making arrangements for beginning his studies at Oxford. We look forward with confidence to his career.

J. R. Wilton, B.Sc., has left for Cambridge University, to pursue at that

great centre of learning the mathematical studies in which his professors and examiners consider that he has shown so much promise. When he left by the express for Melbourne to join his boat there, a large number of ladies and gentlemen were on the platform to wish him *bon voyage* and every success. Besides his immediate relatives and friends, there were the Head Master of Prince Alfred College (F. Chapple, Esq., B.A., B.Sc.), Professor Bragg, and Mr. R. W. Chapman, M.A. (of the University of Adelaide), Dr. Plummer, H. J. Priest, B.Sc., and other school mates.

Dr. H. H. Formby, M.B., B.S., F.R.C.S., &c., has succeeded Dr. Shone at Strathalbyn.

Dr. B. Smeaton, M.B., B.S., has taken a practice at Mount Barker, and is already winning for himself a great reputation.

F. G. Cowan has passed his First Professional Examination in the Medical Course at Edinburgh. He also distinguished himself in hurdle racing at the University Sports.

The Rev. J. Paynter has been elected President of the Baptist Union, succeeding J. F. Mellor, LL.B., another old P.A.C.

News was received by mail on July 13 that Harold Chapple had got his B.A. and had won a place in the Natural Sciences Tripos at Cambridge. Also that on June 13 he had been selected

to play lawn tennis for Cambridge against Oxford, and thus had obtained the coveted "Blue." Until quite recently tennis was only allowed a "Half Blue," but now a full "Blue" is allowed. It was long felt that it would only be a just thing to recognise the efforts of the tennis players, and would stimulate them to greater efforts and better play, especially as only six men each year are selected from a University of 3,500 or so, a smaller number than compete in any other branch of athletics in a given year. As Harold Chapple received his "Half Blue" for lacrosse in 1902, this is the second year in which he has represented his University against Oxford. Since residing at Cambridge he has been taking lessons in singing and voice production from "Joey Read." His improvement was recognised by his being asked to contribute a number at the St. John's concert during May week. He selected "A Voice by the Cedar Tree" (Somervell), and, accompanied by his brother Alfred, rendered it in such a manner as to evoke an imperative encore. In response they gave "Maire, my girl." This was also received with such favor that another encore followed, and "Birds in the High Hall Garden" (Somervell) was received also with great favor. The two Somervell songs are from The Maud Cycle to Tennyson's works.

W. R. Rogers, of our Sixth Form

last year, removed to W.A., and found an opening at a bank in Perth. Lately, however, applications were invited for cadetships in the Royal Mint. The papers were sent to the Adelaide University to be examined, and Rogers came out top with a good lead. On resigning his position at the bank Rogers had pleasure in nominating for it another O.P. (Old Prince), W. Ingleton, and of seeing his College chum appointed. Ingleton came third on the Mint list. The subjects were Arithmetic, Book-keeping, Algebra, Euclid (I. to IV.), English (Literature, Geography, and History), Australian History, Chemistry, Mechanics, and a choice of two out of the four, History, Literature, Geography, and Language of Rome, Athens, Germany, and France.

C. N. Baeyertz is still in Dunedin engaged in literary work. We acknowledge with thanks the receipt of a copy of the last issue of the *Triad*, which is under his skilful editorship. This monthly magazine is devoted mainly to music and the fine arts, and the eight pages of pictures printed on art paper, chiefly reproductions of some choice morceaux from the studio of Mr. C. N. Worsley, are exceedingly fine. We have not seen their equal in any periodical in the Southern World.

To W. J. Colebatch, B.Sc., F.R.C.V.S., the Government offered the position of Principal of the Agricultural College,

Roseworthy, but the Board of the College in New Zealand declined to set him free to accept this appointment.

B. von Bertouch has been winning for himself great laurels in tennis. We understand that he has been appointed to an important position in the correspondence department of the Nord Deutscher Lloyd at their headquarters at Bremen, and that in order to increase his skill as a linguist he has been staying some months at Neuchatel. In the tennis tournament he won the champion single, the "gentlemen's handicap singles," and the champion double; indeed all that he entered for. The local paper declares he showed himself to be a player of "le premier ordre."

J. B. Cleland, M.B., B.S. (Sydney), has gained with distinction the Diploma of the London School of Tropical Medicine.

A. E. Molineux is Manager of Works at the Government Engineering Workshops at Islington and Inspector of Locomotives.

O. Rogers is representing the Government at the Outer Harbor Works, and controlling much of the construction of that important public enterprise.

Cecil Doudy ran splendidly at the University Sports, winning the 120 and 220 yards H'cap Flat, both from scratch and running second only to Hunter, the Melbourne champion, in the 100 yards race. The time of this last was 10½ secs. G. W. Richards won the

Mile Race from scratch; G. Moore was third. R. J. Verco won the 300 yards Steeple and ran second for the 150 Hurdles. L. Cowan ran second only to the Melbourne man over the 120 Hurdles. L. Haslam made the longest jump, 18 feet 5 inches. M. Scott ran second in the 150 Flat, and third in the Steeplechase.

Herbert Basedow has been awarded the Tate Medal. His thesis was based upon observations he had made while a member of the expedition sent out to explore the north-west of our State; and Professor David, of Sydney, the examiner, spoke very highly of it.

Two omissions in the lists of names on the Memorial Tablet have been pointed out. W. E. Aldersey was in the First S.A. Contingent, and J. U. Hood was a corporal in one N.S.W. Contingent.

Speaking of military matters reminds us that Lieutenant-Colonel A. C. Catt has found it necessary to resign his post of command over the country battalions, as business has brought him to settle in Adelaide and demands increasing attention. We are glad to know that he is still to play his part in another warfare as superintendent of a Sunday School in East Adelaide.

Dean Dawson was captain of the Adelaide University team that played against Melbourne University. In all there were twelve old Reds in the 'Varsity eighteen.

"Play up, play up, and play the game!"

An old "Red" has twice received his "Blue" at Cambridge.

Mr. Langley and Joe Darling again presented footballs to first Eighteen.

An American Tennis Tournament in progress.

Mr. Tate, M.A., of Victoria, gave us a very stirring address.

An Old "Red"—N. W. Jolly—is first Rhodes Scholar for S.A.

Our athletes will be very comfortable in their new pavilion.

Best wishes for future success at Cambridge to Mathematical Wilton.

Harry Chapple received an ovation for his singing at the May Concerts in Cambridge.

Harold Chapple helped Cambridge University to defeat Oxford at tennis.

Goode and Stoddart received footballs for conspicuous play against St. Peter's.

Hearty congratulations to "Explorer" Basedow on his success in winning the Tate Medal.

Saturday geology trips under direction of Mr. Iliffe much appreciated by our local geologists.

Tennis team deeply indebted to Mr. Ernest Chapple for a pleasant and instructive morning at Martin's foundry, Gawler.

F. N. BENNETT,
 Hon: Manager.

Duces.

The following are the *duces* for second term, 1904 :—

Upper Sixth—F. N. Bennett } equal.
 J. L. Glasson }

Lower Sixth—C. M. Churchward.

Upper Fifth—G. M. Potts.

Lower Fifth—G. W. Downing.

Upper Fourth—E. C. Jacobs.

Middle Fourth—A. F. Goode.

Lower Fourth—J. B. Grant.

Upper Third—W. H. Ashton.

Lower Third—R. S. Davey.

Upper Second—H. B. Piper.

Lower Second—L. B. Cox.

First—J. F. Dunn.

Cricket.

We have only three men of last year's Oval team back—Dolling, Drew, and Townsend, but a good three they are. Although we were weak at the beginning of the year, we ought to be able, after ten weeks' hard practice this term to put a good team into the field. In batting, of the new men Wilton, Pflaum, and Middleton show good promise. Others who will no doubt be a good help are Goode, Homburg, and Clarke. Our bowling is again the weakest point. The brunt of the attack rests on Dolling, Townsend, Pflaum, and Stoddart, while Steele and Osborn will be two useful change bowlers.

In the second eleven Cornish, Angwin, and Blacket should do well with the bat; other promising bats are Davidson, Loutit, and Bennett. Waddy, Rowe, and Seppelt will no doubt do good work with the ball.

The following first eleven matches have already been arranged by Stoddart, who is proving himself a capital secretary.

Tennis.

P.A.C. v. KENT TOWN.

Our club played a match against Kent Town on our courts on July 23. Our team consisted of the following players:—Pflaum, Jeffries, Goode, Trott, Davidson, and Dolling. We showed good form throughout, and succeeded in winning by 20 games.

The scores are:—Dolling and Goode beat Allen and F. S. Holder, 6—2, 3—6, 3—6; Pflaum and S. W. Jeffries beat Thomas and Polglase, 6—1, 6—1; Davidson and Trott lost to L. Jeffries and E. M. Holder, 5—6, 4—6. Singles.—Dolling lost to Allen, 3—9; Goode beat F. S. Holder, 9—5; Pflaum beat Thomas, 9—6; Jeffries beat Polglase, 9—4; Davidson beat L. W. Jeffries, 9—3; R. J. Trott beat E. M. Holder, 9—6. Totals.—P.A.C., 8 sets, 81 games; Kent Town, 5 sets, 61 games.

Geological Excursions.

This term has been rather too wintry to allow of all our plans for excursions on Saturday, to be carried out; nevertheless we have made four very enjoyable trips into the hills, and all who have accompanied Mr. Iliffe have considerably added to their store of practical knowledge both in geology and geography. One advantage of these trips in addition to their healthful effect is that they always provide suitable material for writing upon to Herr Drews in *den Briefen für Montag*.

Our first trip was to Mt. Lofty on May 28. After arriving at the Mt. Lofty Station at noon, we walked along the main road to Crafers, taking due note of the soft yellow sandstone of the district and of one or two slight contortions and faults. Thence we walked

along the road to the summit of the Mount. In one place we came across the undecomposed sandstone—a rock almost as hard as quartzite. We ate our lunch on the summit, and then set off along the eastern side of the Mount in search of a greisen (a modification of granite) which had been found in this locality, but although we searched diligently for the rest of the afternoon we found little besides notice boards and private property. While we were returning to the station we found some veins containing iron ore in a cutting on one of the roads.

Next month we commenced by riding as far as the Glynde on the Paradise car. We had less luck this time however with regard to weather, for the sky which had been overcast all the morning, became darker as we approached the hills, and a light drizzle accompanied us for over an hour after we left the Glynde. However the sky cleared, the sun came out, and we had our lunch by the side of the Fifth Creek. The outcrops of Protozoic rocks all along the sides of the gorge and the screes beneath them were very noticeable, and were carefully explained by our leader. After dinner we managed to cross the creek though with some little difficulty, as it was swollen by the recent rains. After examining a fault and taking a dip-reading in a neighbouring quarry, by dint of a little exertion, we climbed to the top of the

Black Hill. Then following a road we descended a rather precipitous hill towards Athelstone, taking note of the succession of the outcrops on the way. We then made straight for the Glynde and there entered the welcome tramcar.

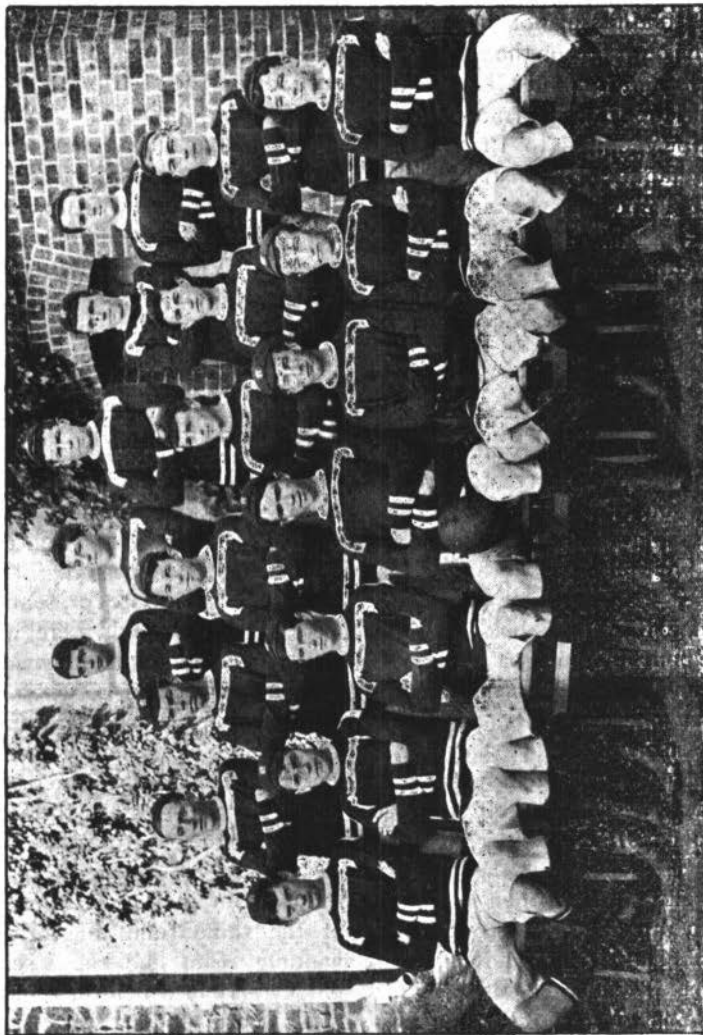

Our next outing was to Blackwood. This was by far the most instructive of all the trips, and was best attended by the boys. During the journey in the train we had ample opportunity of studying the maps which Mr. Iliffe had chromographed for us, so that we had no difficulty in finding our way to the portion of the River Sturt we wished to reach. Near the junction of two streams we examined a beautiful example of a contortion. Here we stayed for lunch (for which our indefatigable leader would only allow ten minutes), and after that we examined carefully the junction line between the Cambrian Glacial Till and the beds below.

Then we had a careful look at this till, and followed it up along a stream until it gave way to quartzites and argillites, when we turned back towards the Sturt and climbed back to the station. At the back of the station we had pointed out to us the unconformity between the Cambrian and the Upland Miocene beds. We then returned home in the train. Next time (July 30) we visited Mitcham where the till was again examined and its margins delineated. Some interesting contortions were also discovered.

The Football Match.

Great interest was, as usual, taken in the football match this year; our team after their trip to Melbourne during the preceding holidays had been training hard, and were determined to make amends, if possible, for the several defeats sustained at the hands of the representatives of the sister schools in Victoria. Saturday, July 9, the day chosen for the match, was almost an ideal day for football, the only drawback being the slight wind, which, blowing almost across the ground, tended to confine the play to the pavilion wing—not, perhaps, altogether a disadvantage from the spectators' point of view. The ground after the rains was in good order and a fast and true game was confidently expected. The friends of both schools were present in great force, as both stands were well filled, and the general opinion was that the attendance on this occasion had only been exceeded at the Royal Match in 1901. His Excellency the Governor and Lady LeHunte were present, and evinced great interest throughout the game. At the close of it His Excellency presented the Tennyson Cup to Lewis, the Captain of the St. Peter's team; at the same time congratulating the winning team and the losers on the plucky way in which they had kept up their efforts to the very end. Sir George also addressed the assembled

Drew N. E. Sppelt, G. Bateman N. Campbell A. V. King

C. E. Dolling J. W. Blacket H. V. Pope S. Parnell W. L. Davies R. F. Middleton
 S. W. Jeffries A. C. Wilton G. P. Goode H. W. Stoddart E. H. Russell J. L. Davidson W. B. Reid

boys of both schools and gave high praise to both teams for the "magnificent exhibition of football they had given." We were unfortunate in losing the services of Shearer, our centre man, who injured his knee on the Saturday preceding the match, otherwise we played our full strength.

The teams were as follows:—

S.P.S.C.—Forrest, Lewis (Capt.), Wallman, Lindsay, Warren, Hawkes, Gill, Cresdee, Webb, Ross, Stevenson, Turner, James, Stephen, Dean, Murray, Pincombe, Moyes.

P.A.C.—Goode, Parnell, Reid, Bateman, Russell, Jeffries, Pope, Stoddart (Capt.), Blacket, Davidson, Davies, Dolling, Campbell, Wilton, Seppelt, Middleton, King, Drew.

As the teams filed out into the ground there were numerous expressions of approval of the neat and effective uniforms worn for the first time by both teams; the change had been for both schools a happy one. The St. Peter's team wore an all-blue jersey instead of the old blue-and-white squares, while our players have discarded the red-and-white vertical stripes for an all-red jersey with white cuffs and band across the shoulders. Both teams looked extremely well, and the mixing of the bright uniforms made the game very picturesque.

First quarter:—The wind gave a slight advantage to the team kicking towards the Cathedral goal, and Stod-

dart winning the toss elected to take that advantage at the beginning of the game. On the bounce the ball was forced towards our opponents' goal, but a free kick against one of our forwards enabled the Blues to rush the ball to the river end, where Moyes obtained their first behind, followed in a few minutes by their second. On the kick-off Stoddart obtained possession and forwarded on the wing to Dolling, thence to King, who marked well within kicking distance and registered our first goal about 12 minutes after the start. On resuming, good play by Goode and Reid in the ruck again put the Blues on the defensive; Wilton sent the ball well forward and from general play in front of the goal Goode and Middleton had chances to score, but only obtained minor points. Able defence by Lewis, Cresdee, and Forest, forced the ball over the centre line, where the half-back line just as ably ward off attack. Stoddart in particular was almost impassable; his high marking was exceptionally good and his well-timed rushes frequently relieved the pressure on our defences. Of the others Goode was in evidence throughout the quarter and was well supported by Parnell, Reid, and Davies. The bell for quarter time rang as the ball was in the air from a kick by one of our forwards, and although touched on reaching the ground, it was allowed to roll through the goal posts, no score

was signalled by the umpire, and the point was immediately raised by those who noticed the incident whether a behind should be scored or not. The question was apparently settled at half time by the field umpire, Kneebone, as one point was then added to our score.

The quarter thus closed with the scores :—

P.A.C.—1 goal 3 behinds.

S.P.S.C.—2 behinds.

Third Quarter :—On the change of ends, the Blues forced the game, but missed several opportunities to score through playing towards the left wing, where the wind continually forced the ball out of bounds. During the whole of the first half a good deal of time was lost through the ball being continually out of play on this wing. Pincombe, the crack St. Peter's forward, was very active, and finally was rewarded with a goal by a quick snap-shot. On the bounce Goode passed on the wing to Davies, who forwarded ; King obtaining possession could only score a behind. The Blues attacked again vigorously, Stevenson beating Davidson in the centre, and in spite of good play by Stoddart, Pope, and Bateman, kept the ball near our goals until the bell rang for half-time, when the Blues led by 12 points to 10. During the first half the play was hardly up to expectation ; there was too much fumbling, and consequently too much close

play with frequent stoppages of the game by the umpire for free kicks for breaches of the rules. Our most prominent men in the first half were Stoddart, Jefries, Pope, and Russell, back ; Goode and Parnell, following ; Davies and Dolling, wings ; and Middleton and King, forward.

Third Quarter :—After the interval both teams determined to do their utmost and the game improved greatly, it was freer and more open and the marking and kicking was much more accurate. The first score of this half was made by Moyes, who had a shot for goal immediately after the start, but one point only resulted. Russell, who was playing with good judgment in goal, kicked off well to the wing ; Davies forwarded to Wilton, and from this our forwards attacked until Goode scored our second goal. Our representatives again attacked the Cathedral goal, and were forcing the play on the Eastern wing, when Davidson, who had been during the quarter putting in good work, was temporarily disabled, but was soon on his feet again and taking an active part in the game. Mr. S. Reedman, our energetic coach, thinking Davidson's injury to be serious, started to his assistance but returned to the pavilion when he resumed play ; Mr. Reedman's action was unfortunately misunderstood and needlessly commented on. Play was still confined to the northern end, and after another behind

was scored from a shot which hit the goal post, Goode further increased our lead with another goal, and the bell for the final change rang with a difference of 11 points in the scores.

P.A.C.—3 goals 6 behinds.

S.P.S.C.—1 goal 7 behinds.

Our hopes were high as we started on the final quarter with our useful lead; the question was, can we maintain it until the end? The Blues began with determination and soon had our men on the defensive; a shot from the wing hit the post, and then in a short 10 minutes the fortune of the game entirely changed. In quick succession we saw 3 goals registered for our opponents, all through the agency of Pincombe. With a quarter of an hour to play, the game was still in doubt, but although both sides put forth every effort, so that the game was keen and intensely exciting right up to the finish, no further score was made until, within a few minutes of time, a fifth goal to the Blues put the issue beyond doubt, the final scores being:—

S.P.S.C.—5 goals 9 behinds=39 points.

P.A.C.—3 goals 6 behinds=24 points.

Thus ended one of the most keenly contested and exciting games in the whole series of intercollegiate contests. We led at the end of the first and third quarters; the Blues at the end of the second and fourth; and until a few minutes before time, there was only

very little difference in the two scores. The way in which the fortunes ebbed and flowed has seldom been equalled in a school contest, and the excitement and enthusiasm of the last quarter will long be remembered by those who saw the great finish.

Of our team two men can be picked out at once for special mention. Stoddart, the captain, played a magnificent game, his splendid marking, well timed rushes, and accurate kicking, saved the situation many a time for his side; Goode, roving or placed, was ever in evidence, and completely justified the confidence we had in his ability. Davies was sure and active on the wing, and made good use of the ball whenever he got it. Dolling did good hand-ball work, but his kicking was defective. Davidson was weak in the first half but showed up well in the closing stage of the game. Jeffries, Russell, and Pope were the best of the backs, and Middleton and King did most work forward. On Parnell and Reid the bulk of the hard work fell, as they followed for a good portion of the game. On the St. Peter's side, Lewis was a tower of strength, and he was well supported by Forrest, Wallman, Cresdee, Stevenson, and Moyes; while Pincombe's accurate shooting for goal was a great factor in their well deserved success, on which we heartily congratulate them, and trust that next year may provide as good and evenly contested game.

Our Contemporaries.

P.A.C. Tennis Club at Gawler.

On Saturday, August 13th, a team consisting of two masters, Mr. Langley and Mr. Newman, and six boys, Dolling,

Goode, Pflaum, Trott, Loutit, and Osborn, went to Gawler to represent the College against the Gawler Methodist Church Senior Club. We started by the 7.40. a.m. train from the Adelaide Railway Station, and arrived at Gawler about 8.50 a.m. The morning was spent in looking over the works of Messrs. Jas. Martin & Co. On these works 510 men are employed. We saw a locomotive in many different stages. Mr. E. Chapple, son of our Head Master, explained each stage as we went along. One thing which seemed to appeal to our boys most, was the use of compressed paper for making wheels for an engine to be used on the Melbourne Express. We lunched at Dean’s restaurant at 12.30, and started play at 2 o’clock. The scores did not go as much in favor of the Reds as might be wished by them, the Gawlers eventually won fairly easily. At the close of the play thanks were given to the Gawler Club for the hospitable manner in which we had been entertained during our stay, and three cheers were given for each side. The trip was a very enjoyable one, and the boys regretted that it was over. We started for town by the 6.20 p.m. train, and arrived in Adelaide at 7.30 p.m. To finish the day, the boys went to Bricknell’s for tea, and spent a very enjoyable hour on the balcony listening to the music rendered by a band.

Football.

FIRST EIGHTEEN.

P.A.C. v. Corinnas.—P.A.C., 5 goals 10 behinds; Corinnas, 2 goals 5 behinds. For Princes, Goode, Mitchell, Davies, were most prominent, while Campbell, Pope, and Lloyd also played well.

P.A.C. v. East Torrens.—P.A.C., 3 goals 8 behinds; East Torrens, 8 goals 14 behinds. We were very unevenly matched and East Torrens had the game nearly all their own way. For Princes, Russell, Jeffries, Bateman, Cowan, and Middleton showed good form.

P.A.C. v. Salisbury.—P.A.C., 4 goals 5 behinds; Salisbury, 6 goals 4 behinds. A very rough game; our team was greatly weakened owing to several of our players taking part in the tennis match. For Princes, Parnell was very conspicuous; Stoddart, Davidson, Martin, King, Drew and Wilton played well.

P.A.C. v. St. Bartholomews.—P.A.C., 3 goals 4 behinds; St. Bartholomews, 5 goals 7 behinds. A very good game throughout. For Princes Goode played best; Wilton, Shearer, Pope, and Reid played well.

P.A.C. v. Elder Smith.—P.A.C., 10 goals 20 behinds; Elder Smiths, 1 goal 7 behinds. From the beginning we had the game all our own way, but our forwards were completely off color. For Princes King, Parnell, Bateman, Davies played well.

P.A.C. v. Corinnas.—P.A.C., 4 goals 4 behinds; Corinnas, 11 goals 11 behinds. The scores by no means show the even nature of the game, as it was a hard fight from start to finish. Davies was again prominent, and was well backed up by Davidson, Russell, Jeffries and Seppelt.

P.A.C. v. Elder Smiths.—P.A.C., 7 goals 13 behinds; Elder Smiths, 2 goals 5 behinds. Our team played a fine combined game and had things their own way. Goode (captain) played best, Campbell, Middleton, Drew, and Reid also did well.

P.A.C. v. Eastbournes.—P.A.C., 12 goals 11 behinds; Eastbournes, 5 goals 1 behind. A very poor game, as our opponents seemed to have very little interest. Stoddart, Parnell, King, Dolling, and Pope showed up well for us.

P.A.C. v. St. Bartholomews.—P.A.C., 5 goals 7 behinds; St. Bartholomews, 5 goals 9 behinds. The best match of the season. Both teams fought hard from start to finish, and at half-time we had an advantage of 1 point. In the final quarter we were somewhat handicapped by losing Goode and Shearer. Goode played splendidly until he was injured, and was well supported by Dolling and Parnell in the ruck, King and Seppelt in the forward line, and Stoddart and Bateman in the defence.

ROSEWORTHY MATCH.

The usual match with Roseworthy was played on the Adelaide Oval on June 13th. The wet weather somewhat marred the game. From the start, Princes took the lead and kept it throughout, although the farmers, owing to the muddy condition of the oval, gave us a harder tussle than we anticipated. King, our right-forward, was in his element, and kicked six majors out of seven, the other goal being snapped from the ruck by Drew. At the bounce, Princes quickly got away and lost no time in scoring, through a quick piece of work by Davies and King. Leppinus and Wiese, however, determined to score, and passed well on to the forward line, where Nash from a fine kick, notched a goal, but from this onwards they scored but once.

The final scores were :—

Roseworthy—2 goals 5 behinds.

Princes—7 goals 13 behinds.

For Roseworthy, Leppinus, Wiese, Nash, and Gurr played best, while for Princes, Stoddart, King, Davies, and Batemam shone out conspicuously.

OLD SCHOLARS' MATCH.

This match, which was looked forward to by the present scholars in the hope of learning a few tactics for the coming match with the Saints, was played on the Adelaide Oval in July. As soon as the bell rang, the old boys

got on the ball, and through good passing by D. Cowan, Hantke registered six points from a fine angle shot. But Princes, undaunted, rushed the leather into King's hands, who punted a good snap-shot. But again the Old Boys got away, owing to the weakness of our centre line, and Hooper, through a good piece of combined work with L. Cowan, managed to raise the two flags again, and at half time the Old Scholars were leading by two goals.

After half time both teams settled down to work, and some good play was witnessed by the few onlookers. Stoddart, our captain, was a tower of strength at back, but we were handicapped somewhat by the small size of our players as compared with the Old Boys, who were too good for us during the second half. The final scores were—Old Boys, 9 goals 4 behinds; P.A.C., 7 goals 2 behinds.

Drew, Cowan, Darling, and Hantke played best for Old Scholars; while for Princes, Pope, Parnell, Dolling, and Goode played well.

COMBINED COLLEGES V. UNIVERSITY.

On August 2 a representative team of the two Colleges met the University on the Adelaide Oval. The attendance was small, as might be expected on a week day.

The University, who had several association players, won comfortably. The College play was not combined

enough, as they had not practised together. From the bounce University led off, and Dempster scored the first goal through the agency of Newland. The Colleges attacked vigorously, but a minor only was the outcome. Dempster again found the opening with a fine snap-shop. Lewis got the ball out of the ruck and passed to Davidson, who put the ball into Stevenson's hands, and the first goal for the Colleges was registered by a good drop-kick.

At half time the University was still leading by 7 points, and continued to add to this till the bell rang.

The final scores were 13 goals 19 behinds to 6 goals 7 behinds. Our goals were kicked by Pincombe (2), Stevenson (2), King, and Lewis, and besides these Stoddart, Goode, Davidson, Stevens, Pope, and Gill played well.

CRITIQUE OF THE TEAM.

[BY THE CAPTAIN].

Bateman, G.—Plays right back on left; good kick and mark; plays a good solid game, has improved greatly.

Blacket, J. W.—Half-back left; good kick and mark; plays a hard game, but too slow on the ground.

Campbell, N. R.—Half-forward right and left wing; splendid kick and fair mark; runs well with the ball.

Davies, L. W.—Left wing; fair kick and mark, gives his man a lively time; has played splendidly all through the season.

Davidson, J. L.—Centre; good mark and fair kick; inclined to play the man too much; a solid man to bump against; has played well since the holidays.

Dolling, C. E.—Left wing and follows; fair mark; although a poor kick, he plays splendidly to his side, which greatly makes up for it. Plays splendidly in the ruck.

Drew, C. F.—Right forward right; good kick and fair mark, played well at the beginning of the season, but went off, rather small for big matches.

Goode, G. P. (Vice-Captain)—Roves all through; splendid kick and mark; very fast with the ball; has played excellently all through. The best man in the team.

Jeffries, S. W.—Right back on the right; good kick and mark. Has done useful work for his side.

King, A. V.—Full forward; good kick and fair mark; very smart and tricky. The best snapshot in the team.

Middleton, R.—Right forward on left; fair kick and mark. A hard man to beat.

Parnell, S. W. G.—Follower and half-forward on right, good kick and mark, has played very consistently and saved his side many a time by his cool play.

Pope, H.—Half-back centre; good long kick and high mark; plays

splendidly in big matches; but lacks energy in minor matches, and a hard man to come up against.

Reid, W. B.—Follower and half-back right, good punt and fair mark, good man in the ruck.

Russell, E. A. H.—Full back: splendid kick, fair mark, shows good judgment in coming out of goal.

Seppelt, N. E.—Half-forward left, splendid kick and fair mark, his left foot kicking has been of great advantage to his side.

Shearer, A.—Half-back left, fair kick and mark, plays a very useful game; his loss to the team owing to an injury has been greatly felt.

Wilton, A. C.—Half-forward centre; fair high mark and kick; played well at the beginning of the season but went off towards the close.

BY A PLAYER.

Stoddart, H. W. D. (Captain).—Half-back centre and follower; splendid mark and kick; fast, and a heavy man to bump against in the ruck. Has captained his team throughout the season in a manner which deserves great credit.

SECOND EIGHTEEN MATCHES.

St. Giles, 3 goals 4 behinds; P.A.C. II., 1 goal 3 behinds. Goal by Blacket. Clarke, Richardson, and D. Goode played well.

Australs, 3 goals 10 behinds; P.A.C. II., 2 goals 4 behinds. Goals—Wood,

L. Young. Rossiter, Martin, and Sawers played well.

S.P.S.C. II., 7 goals 6 behinds; P.A.C. II., 3 goals 7 behinds. Goals—Davey, G. Seppelt, and Wood. Dolling, D. Goode, and Blacket played well.

Sturt Ramblers, 13 goal 20 behinds; P.A.C. II.,—4 goals 7 behinds. Goals—Davey (3). Rossiter, Clarke, and Lloyd played best.

St. Giles, 1 goals 4 behinds; P.A.C. II., nil. Cowan, Grant, Annells and Richardson played best.

THE FORM MATCHES.

The Form Matches and practice for them have been carried on with vigor this term. The scores are —

SIXTH V. FIFTH.

Sixth, 5 goals 6 behinds; Fifth, 3 goals 4 behind.

Sixth, 4 goals 6 behinds; Fifth, 4 goals 4 behinds.

SIXTH V. FOURTH.

Sixth, 2 goals 5 behinds, Fourth, 2 goals 3 behinds.

Fourth, 2 goals 5 behinds; Sixth, 1 goal 6 behinds

FIFTH V. FOURTH.

Fifth, 4 goals 7 behinds; Fourth, 4 goals 2 behinds.

Fifth, 3 goals 4 behinds; Fourth, 1 goal 6 behinds.

The Sixth Form therefore won the Senior Shield (Taylor's), after exciting contests with the Fifth.

UPPER THIRD V. LOWER THIRD.

Upper Third, 3 goals 4 behinds;
Lower Third, 8 behinds.

Lower Third, 2 goals 7 behinds,
Upper Third, 2 goals 2 behinds.

Upper Third, 4 goals 7 behinds;
Lower Third, 2 goals 4 behinds.

LOWER THIRD V. SECOND.

Lower Third, 2 goals 6 behinds;
Second, 2 goals 8 behinds,

Lower Third, 4 goals 5 behinds;
Second, nil.

UPPER THIRD V. SECOND.

Upper Third, 2 goals 4 behinds;
Second, nil.

Upper Third, 2 goals 7 behinds;
Second, nil.

The Upper Third therefore have won the Junior Shield (Lever's) but were run close by the Lower Third.

Gymnastics.

On Friday, August 19, there was a large assemblage in the great hall of the Exhibition to witness the Fourth Annual Intercollegiate Competition in gymnastics.

Messrs. E. H. Lock, T. Leader, and J. K. Samuel had been kind enough to act as judges again, and to them the heartiest thanks of the school are due and have been tendered.

The names of the competitors were as follows:—

Teams for Dumb-bells and Clubs—

S.P.S.C.

P.A.C.

- | | |
|--------------------------------|---------------------------------|
| 1. Wallmann, C.
R. (Capt.) | 1. Parnell, S.
(Capt.) |
| 2. Gilbert, W.
(Vice-Capt.) | 2. Goode, G. P.
(Vice-Capt.) |
| 3. Yeatman, C. | 3. Trott, A. G. |
| 4. Murray, M. G. | 4. Colton, J. S. |
| 5. Moyes, M. H. | 5. McEwin, K. |
| 6. Cresdee, V. C. | 6. Trott, R. J. |
| 7. Dean, G. L. | 7. Seppelt, G. J. |
| 8. Chapman, A. | 8. Loutit, T. O. |
| 9. Fullarton, J. | 9. Davey, L. L. |
| 10. Dempster, N. | 10. Waddy, T. M. |

Horizontal, Parallel Bars, and Rings
or Trapeze—

- | | |
|-----------------|-------------------|
| 1. Wallmann, C. | 1. Parnell, S. |
| 2. Gilbert, W. | 2. Goode, G. P. |
| 3. Yeatman, C. | 3. Trott, A. G. |
| 4. Chapman, A. | 4. McEwin, K. |
| 5. Dean, G. L. | 5. Seppelt, G. J. |
| 6. Dempster, N. | 6. Loutit, T. O. |

Jumping—

- | | |
|------------------|------------------|
| 1. Murray, M. G. | 1. Trott, A. |
| 2. Wallmann, C. | 2. Waddy, T. M. |
| 3. Moyes, M. H. | 3. Steele, A. L. |

Tiger Leaping—

- | | |
|---------------------|-----------------|
| 1. Murray, M. G. | 1. Goode, G. P. |
| 2. Cresdee, V. C. | 2. Trott, R. J. |
| 3. Fullarton, J. R. | 3. Davey, L. L. |

Club Swinging (Champion)—

- | | |
|----------------|------------------|
| 1. Chapman, A. | 1. Colton, J. S. |
|----------------|------------------|

Club Juggling—

- | | |
|----------------|----------------|
| 1. Chapman, A. | 1. Parnell, S. |
|----------------|----------------|

The programme was—1. Dumbbells. 2. Parallel Bars. 3. Leaping. 4. Class Club Swinging. 5. Rings and Trapeze. 6. Club Swinging (Champion). 7. Horizontal Bar. 8. Club Juggling (Champion). 9. Tiger Leaping. And the following rules were printed and distributed amongst the spectators:—Horizontal Bar, Parallels, and Rings or Trapeze.—A certain number of points are allowed to each exercise, according to its merit. Points are deducted for such faults as the following:—Heels not closed, knees not kept straight, feet not pointed, chest not out, head not erect, wrists not over, not hollow in small of back, if not finished in the position of attention; $\frac{1}{2}$ point off for each defect. Jumping.—Three marks allowed for each jump; start, 4 ft. 9 in. Must have—Body square to the front, arms diagonally up, land with heels together, finish in the position of attention; $\frac{1}{4}$ point off for each fault. Tiger Leaping.—Three marks allowed for each jump; start, 5 ft. Must have—Hands placed together well forward on horse, hollow in spine, land with feet together, finish in position of attention.

So was also the following list of scale of points assigned by Mr. Hugo Leschen to the various exercises:—Dumbbells and Clubs.—20 points for each competitor, 5 points for precision; total, 250; 1 point off for each fault. Clubs (Juggling), 25 points; Clubs (Swing-

ing), 25 points. Jumping.—Beginning 4 ft. 9 in., must clear the rope; 3 points for each jump; $\frac{1}{2}$ point off for each fault. Tiger Leaping.—Beginning 5 feet, must clear the rope; rules as for jumping. In the apparatus work each competitor could win 8 for parallels and 8 for horizontals in “compulsory” exercises, and the following for optionals:—

Parallel Bars. Rings or Trapeze. Horizontal Bars. Optional Optional Optional

S.P.S.C.

1. Wallmann, C. R.	20	20	20
2. Gilbert, W. ...	20	18	20
3. Yeatman, C. ...	20	20	20
4. Chapman, A. ...	15	18	15
5. Dean, G. L. ...	18	20	15
6. Dempster, N. M.	15	18	18

P.A.C.

1. Parnell, S. ...	15	20	20
2. Goode, G. P. ...	20	15	15
3. Trott, A. G. ...	20	20	20
4. McEwin, K. ...	20	20	20
5. Seppelt, A. J. ...	15	18	20
6. Loutit, T. O. ...	15	20	15

Giant Swing.—25 points each. S.P.S.C.—1. Wallmann, C. R.; 2. Gilbert, W. P.A.C.—1. Parnell, S.; 2. Trott, A. G.

There had been so much talk in the school about this contest that the greatest possible interest was taken in it. Wallmann won the toss and sent us in with the dumb-bells. The precision and accuracy of our combination aroused loud cheering, and the judges

awarded it 228 out of a possible 250. The parallel bar work was done with great skill and precision; we scored $151\frac{1}{2}$ out of a possible 153. In jumping we were beaten, A. G. Trott seeming not to be quite up to his usual brilliant form. He fell out at 5 feet $10\frac{1}{2}$ inches. Murray, of St. Peter's, cleared this, but no more. His style is very neat, but he could not get as high as usual. (Perhaps the long run or the resin on the board explains this.) The class club swinging was considered weaker than the other exercises on both sides, and the judges only gave us 175 points out of 250. With the trapeze and rings we were in excellent form, and won a good lead, scoring 106 out of a possible 113. Parnell and Trott and Loutit did especially fine work. Jack Colton deserved all the loud applause he got for the manner in which he swung his clubs. He just managed to retain the title of "champion club swinger." This is all the more to his credit, for he had a clever contestant to meet, and he had been in bed for some days with an attack of influenza, unable to practise. Saints gained some points on the horizontal bar, but Parnell, McEwin, and Seppelt did really well. Parnell and Trott were very clever at the "Giant Swing," the hardest of all the exercises, and the ambition of all young gymnasts. In the tiger leaping St. Peter's cleared a greater height and

scored heavily. Mr. Leschen's skill in catching those who sprang over was most clever. L. L. Davey leapt most neatly and gracefully.

The detailed list of marks as awarded by the judges was:—

	Saints.	Princes.
Dumb-bells ...	221	228
Parallel bars ...	$145\frac{1}{2}$	$151\frac{1}{2}$
Jumping ...	40	34
Class clubs ...	173	175
Rings and trapeze ...	98	106
Champion clubs ...	$22\frac{1}{3}$	$22\frac{2}{3}$
Horizontal bar ...	$138\frac{1}{3}$	$134\frac{2}{3}$
Club juggling ...	$22\frac{2}{3}$	18
Giant swing ...	$43\frac{2}{3}$	45
Tiger leaping ...	$83\frac{1}{3}$	$71\frac{2}{3}$
Total ...	$987\frac{1}{3}$	$986\frac{1}{2}$

So it will be seen that the marks assigned to us were higher in six subjects, and that Saints had the advantage in four, but with a greater difference, especially in the leaping.

At the close of the contest the decision of the judges was awaited in suspense (though our friends generally thought we had won). When it was known, and cheers had been raised from both sides, Parnell, at the request of our Head Master, handed over the shield to Wallmann.

In the next assembly the Head Master congratulated our team. He said it was the best team that had represented us in these contests. He was glad that the highest marks were

given to the combined exercises, for they were most valuable. He thought it would be an improvement if a larger number took part.

The judges have since written to Mr. Leschen complimenting him on the excellence of the display and on the evidences of careful training. They also make two suggestions, viz., that the results of each event should in future be announced or posted up immediately at the conclusion of it, and that if a competitor fails in his first jump he should make his second and third attempt immediately. The first seems very desirable, but the second would be rather too hard on the boy jumping.

The Christian Union.

Each new term of college life brings its own particular subjects of interest. The various sports and matches, and the ordeals known as "examinations" mark the progress of the year. There is change and variety in the programme of C.U. work also. From a moral standpoint the Union is a necessary part of our school life. It is a strengthening force to all that is best. We want the whole round complete manhood, not the "lopsided" condition of the individual who has no stamina of body or spirit. Cannot the Christian Union claim to be a means to lead every mem-

ber to more "self-knowledge, self-reverence, self-control, which three alone lead life to sovereign power."

During the term a number of ministers and influential laymen have visited us and given valuable addresses. Among the most welcome of those who spoke were old boys, F. L. Rooney, E. Ingamells, and K. Fry, and the contributions of the members themselves were not the least interesting of the items. Cannot more members take part? We are grateful to the Revs. Lewis, Howard, Reed, and Robertson, and to the Head Master, and Messrs. Delehanty and Langley, to Mr. Holmes, the travelling secretary, and the old boys mentioned.

Mr. Holmes spoke on the work of Christian Union among the Maories of New Zealand.

Next term will be an exciting one in the school on account of the Final or Christmas examinations, and cricket will be much talked of, but with all this the Christian Union rallying cry is to still give time for the cultivation of the higher life.

The Midwinter Concert.

On Saturday, August 6, the occasion of our annual Midwinter Concert, the big schoolroom was filled to overflowing. Every available seat was occupied, and at the last many were standing. As usual the Head Master, Mr. Chapple,

took the chair. In a few opening remarks he said that he was glad to see so many of our friends present, but was sorry that we could not offer them better accommodation, and hoped that some day P.A.C. would have a big hall of its own. The first item on the programme, Rubenstein's familiar pianoforte duet "Tarantelle," was creditably rendered by A. W. Webb and C. E. Dolling. Everyone was delighted when the chairman announced that, although his name was not upon the programme, we should have the pleasure of hearing Mr. Stanley Newman sing, and all prepared themselves for a genuine treat. They were not disappointed, for he gave a very spirited rendering of Joseph Adams's stirring song "The Gladiator." At the conclusion the boys loudly called for more, but, greatly to our disappointment, Mr. Newman merely bowed his thanks. Then Cliff Lathlean gave what was for so young a boy a spirited demand for "Boys' Rights." Four members of the singing class, K. G. Hummel, R. J. Wilton, G. H. Tregenza, and B. Richardson, who were dressed as little black boys, next sang the coon song, "Close Your Dreamy Eyes." After an unfortunate start they finished well, and did themselves and Mr. Robertson credit. E. S. Puddy received hearty and well-merited applause for his violin solo. He gave a skilful and finished interpretation of De Beriot's difficult concerto No. 7. The

Misses Elsie and Gwen Chaplin gave a bracketed number, two duets, "The Angel" and "The Wanderer's Night Song," by Rubenstein. Both were rendered with exquisite taste, and were most charmingly sung, and the voices blended beautifully. Four more of Mr. Robertson's boys sang "I have a Song to Sing, O," wherein they showed to what lengths of self-denial a young man will go "all for the love of a lady." P. M. Wood once more demonstrated his powers of elocution, and he put great vigor, energy, and pathos into his recitation of "The Fireman's Wedding." The final item before the interval was a plantation song, "O, Dinah Dear." It was sung in a very pleasing manner by R. G. Wilton, W. Snow, J. M. Darling, and A. K. Ekins, their black faces and hands made them almost unrecognisable, but gave them confidence.

After an interval of a few minutes for conversation, the programme was resumed with a pianoforte solo by H. L. Bröse, who ably acquitted himself in his playing of "Mandolin." Miss Elsie Chaplin displayed her fine soprano voice to excellent effect in "Roses in June," and her singing caused general pleasure and gained hearty applause. S. G. Sowden, W. D. Sharland, R. K. Wood, and A. G. Strawbridge scored a decided hit with "The Interfering Parrot," and they responded to a well-merited recall by singing the last verse

again. Fritz Homburg's 'cello solo was one of the features of the entertainment, and he manipulated his instrument most skilfully. While Mr. Lyons was getting ready the Head Master thanked the lady visitors for their contributions and congratulated the boys on the success of their performances. Mr. Harry Lyons then displayed his fine powers as a ventriloquist to great advantage, and with his dolls caused endless amusement. The pointed references of the young lady and gentleman, who were seated on his knees, to three or four prominent members of the school were thoroughly understood by the boys. L. Darling, R. S. Davey, A. K. Ekins, and P. L. Hodge caused a broad smile to overspread the features of the audience by their singing of "An Awful Little Scrub," but they made one feel sorry for the poor mother. A most enjoyable concert was brought to a conclusion by the singing of the National Anthem. The proceeds of the concert, which amounted to £13 5s., go to swell the Sports' Fund. Great praise is due to Mr. Robertson, who worked so earnestly and energetically in arranging and carrying through so successful a concert.

Athletic Sports.

At a well-attended meeting, presided over by the Head Master, an excellent committee to make and carry out

arrangements for this year's sports was elected. Stoddart and Russell were appointed secretaries, and to support them Goode, Dolling, Parnell, and Davidson were chosen. In addition Mr. Robertson and Mr. Langley are on the committee to render their assistance, which is of value, owing to their experience and knowledge of the past. The sports have been fixed for Friday, September 23, and if the splendid generosity of the friends of the school is backed up by a good entry list and judicious training, the meeting should prove successful. Important modifications of the old rules have been made. These now read—

(a) No competitor may take more than three prizes.

(b) The College Cup counts as two prizes.

(c) Cup Events—100 Yards, 220 Yards, 440 Yards, Half Mile, 120 Hurdles, High Jump, Long Jump.

(f) The points for the Cup are 5, 3, and 2. These are decided on the position of Cup competitors relative to one another only, but no points are allowed to a competitor who does not finish within a fixed time-limit, or whose jumps do not reach a required standard.

(g) Cup competitors must specify the events for which they wish to count points. In these events they receive no handicap. In other Cup events they may receive handicaps.

Within a fortnight after the holding

of our own sports the Intercollegiate contest will be held, and as our worthy rivals are making a great effort this year to follow our example and win all the trophies, our athletes must look to their laurels. As far as we can judge at present, victory will rest with the best all-round team, and not depend so much on the prowess of any particular "star." Which is as it should be.

The Rhodes Scholarship.

As the month of June in this year was the first time that this important scholarship was awarded, and as there will have to be a similar award each succeeding year, it will be well to enter into detail concerning it. The regulations approved by the trustees for the election of scholars in South Australia were as follows:—

The Committee of Selection consisted of—1, The Governor of the State (in his private capacity); 2, The Chief Justice of South Australia; 3, Four other persons to be appointed annually by the Council of the University of Adelaide, of whom not more than three shall be Professors of that University. [This year Professors Stirling, Bragg, and Henderson, and Mr. J. G. R. Murray were appointed].

Candidates were to be British subjects, unmarried, and not less than 19 or more than 25 years of age on the

first day of October in the year for which they are elected.

Candidates must have lived in South Australia for an aggregate period of four years during the six years immediately preceding the date of their election.

In accordance with the wish of Mr. Rhodes, the Trustees desired that "in the selection of a student to a scholarship regard should be had to (i.) his literary and scholastic attainments; (ii.) his fondness for and success in manly out-door sports such as cricket, football, and the like; (iii.) his qualities of manhood, truth, courage, devotion to duty, sympathy for and protection of the weak, kindness, unselfishness and fellowship; and (iv.) his exhibition during school days of moral force of character and of instincts to lead and to take an interest in his schoolmates." Mr. Rhodes suggested that (ii.) and (iii.) should be decided in any school or college by the votes of fellow students, and (iv.) by the head of the school or college.

Where circumstances render it impracticable to carry out the letter of these suggestions, the Trustees hope that every effort will be made to give effect to their spirit, but desire it to be understood that the final decision must rest with the Committee of Selection.

The S.A. Selection Committee invited application by advertisement, and several candidates responded. **Our**

Head Master had the pleasure of writing testimonials for four "old boys." Two others on consultation with him decided not to apply. It was felt at once that very excellent credentials indeed would be needed to surpass those that could be produced by Norman Jolly and some others.

After carefully reviewing the written testimonials the Committee decided to see all the candidates, and on Wednesday, the 29th of June, they attended at Government House. The decision was then arrived at, but was announced by His Excellency the Governor at a social to the Adelaide University Eight on the following Thursday afternoon; and in accordance with general expectation it was found that the choice had fallen upon N. W. Jolly, B.Sc. All P.A.C.'s past and present rejoiced heartily in the halo of glory our distinguished old scholar had caused to shine round his school. It is an additional reason for rejoicing, when it is remembered that Norman Jolly's father (and brothers) were old P.A.C.'s as well. And still further it may be added for encouragement of "present" boys, that nothing helped him so much in his candidature as his school record.

It may therefore be of service to outline his career. He entered P.A.C. in 1893, and though not 12 years of age, was placed in the Lower Fourth Form. At the end of that year he passed the University Preliminary Examination.

He took the Junior Public in 1895, in the first class, and in 1896 he won a Foundation Scholarship with us. In 1897 he passed the Senior Public in eight subjects with four credits, and won the first of the three scholarships awarded to the most successful candidates in the examination, but he resigned it and continued his studies. He also won the Colton Scholarship. He again sat for the Senior in 1898, and having passed with credits in eight subjects—English, Latin, Greek, German, pure mathematics, applied mathematics, chemistry and physics—and this is at the age of 16 years. In this year also he won the first Elder Scholarship awarded by the bequest of the late Sir Thomas Elder, and the first Hartley Studentship awarded by the University. For the greater part of 1897 and right through 1898 he was dux of Prince Alfred College. At Speech Day, in 1898, the Head Master in referring to the University examinations, said that Jolly had eclipsed all previous records in having taken up eight subjects, and obtained a credit in every one of them. The Lieutenant-Governor (Sir S. J. Way) in his speech, delivered after the Head Master's report had been read, said the greatest success of the year was that of Jolly, who "had done better than any boy in South Australia had ever done before. If he could put the clock back half a century, and go to school again, he would rather have the

record of Jolly than the biggest score Clem Hill ever made. (Loud cheers.) The time would come when they would be as proud at the University of the Elder scholar, Jolly, as they were of his achievements now." (Loud cheers).

In 1899, Jolly entered the University B.Sc. degree course, and passed his first year in mathematics, physics, and chemistry, with credit, and in biology. In the second year he gained credits in mathematics and physics, and in the third year he completed the course with second class honors in mathematics and physics, graduating at the age of 19. In March, 1902, he was appointed junior demonstrator in the physical laboratory of the University, where he remained until September, when he accepted the position of science master at the Townsville Grammar School, Queensland. In July, 1903, he was promoted to the position of senior mathematical and sports master there. On leaving Townsville he was the recipient of a presentation and address from the pupils of the school and a letter of thanks from the trustees.

Norman Jolly has excelled in many games. For three years (1896-8) he was a member of our first football twenty, and in his last year he was vice-captain. He played in the first eleven in 1897-8, and in the latter year was vice-captain, obtaining top batting average, and winning a bat for the highest score in the match against St. Peter's.

During 1897-8 he won five of the Head Master's silver medals. He was a member of several committees, and among other things was in 1898 manager of the school *Chronicle*, secretary of the the Annual sports, and school delegate to the committee of organisation in connection with the first intercollegiate sports meeting. On leaving college he joined the Norwood Football Club, and played senior football during 1899 and 1900. In the following year he was elected a member of the committee, and though only 18 years old was chosen to play for South Australia against Victoria. He played for the Sturt club during the next two years, and was twice picked as a member of South Australian inter-State teams in 1901 and once in 1902. He was a member of the committee, practice captain for the first year, and vice-captain for the second.

As a cricketer he has also a good record. In the season of 1900-1 he was a member of the combined South Australian team against the Victorian Juniors, and in 1901-2 was first wicket-keeper of the Sturt club. In Townsville he was captain of the cricket team which won the competition for the senior association, and of the representative team which played for the premiership of North Queensland. In the next season he devoted his time to organising school cricket, looking after sports, and

editing the magazine of his school. When at the University he was a member of the Adelaide eight-oar crew which rowed against Melbourne and Sydney on the Port River in 1902. He plays tennis and cycles, and is an all-round athlete.

New Fence Fund.

As the amount which the Ladies' Committee started to obtain for the new fence has been fully realised, it is thought desirable to publish a complete list of subscriptions towards it.

The commencement of serious effort was inaugurated by holding a half-day fête in August, 1895. This was succeeded by similar efforts in 1896, 1897, and 1898, subscriptions being meanwhile gathered in, and interest accumulating on moneys in hand.

No other fête was held till the final one in 1903, when the ladies made a determined effort to raise the required balance. Their efforts were crowned with signal success, and the £2,000 was then in hand.

As the secretary was in England during 1901, every effort ceased for that year, so that it really took seven years to raise the amount, which we hoped when we started to get together in five. Considering the great depression which existed in all the States during those seven years, it is exceedingly gratifying

to be able to report its accomplishment in that time. We would like here to tender our best thanks to those ladies who co-operated so untiringly to make the five fêtes so successful, to the boys who so well patronised our sales, and to the many "Old Boys" and old friends whose names appear on the printed list for such useful amounts.

As the fence is in course of erection, we will await its completion before making any further comments on its design, position, or suitability. It must answer for itself.

Complete list of subscriptions to the New Fence Fund, September, 1904:—

Old Collegians' Association.

The Committee have met twice since the last issue of the Chronicle, and the following have been elected members of the Association. F. Goode, A. H. Goode, C. H. Allen, P. J. Rofe, R. E. Powell, D. Steele, W. H. A. Christoph, D. R. Cowan, H. Darling, Ray

Wright, A. G. Bennett, W. Bruce, W. Lang, R. Rounsevell, W. P. Murray, L. Cowan, M. Mitchell, L. Moore, P. A. Fraser, A. H. Chapman, M. B. Saunders, O. Witt, W. Kimber, Dr. Juttner, Dr. Hone, W. Ekins, L. Peacock, E. Graham, H. Hodgson, B. Robertson, C. S. Bray, S. Felstead, J. W. Crompton, L. R. Hill, W. Angwin, and A. Hooper.

The Annual Meeting was held at the York Hotel on Thursday, September 8, when the President (Mr. G. W. R. Lee) presided over an attendance of between 40 and 50. The Hon. Sec. read the Annual report as follows:—

“Gentlemen—Your Committee have pleasure in presenting the 26th Annual Report, and desire to congratulate you upon the success which has attended the Association and the various functions during the past year.

“Membership.—This has been increased by the election of New Members, and our total strength according to the roll book, is about 415. It is to be feared, however, that a large number have lost interest in the Association, and it would be as well for the New Committee to devise some way of nourishing the enthusiasm which is necessary in an Association of this kind. In accordance with the suggestion made at the last Annual Meeting, your committee appointed a sub-committee to confer with a similar committee from the St. Peter's Old Collegians' Associa-

tion with a view of devising some means of increasing the membership of the Associations. The conference however, eventually lapsed, as it was felt that each Association must work its own way, and that no good was likely to result from the Meeting. Your committee feel that the most benefit in this direction, should be obtainable from the Masters at the College, and they hope that some means will be devised by which the Secretary can periodically be supplied with a list of names and addresses of Scholars who are leaving the College, and can thus be kept in touch with likely members.

“S.A. Tablet—Early in the first term of this year, the President of the Association attended an Assembly at the College, and unveiled the tablet which had been erected during the holidays in honor of those Old Boys who fought in the South African War. There were several members of the Association present, and the whole proceedings were most enthusiastic. This tablet has been erected at the total cost of £14 10s. and £12 was subscribed by Members, thus leaving a deficiency of £2, which has temporarily been met from the Association Funds.

“Annual Dinner.—This was held at the York Hotel on Friday, July 8th, and was the most successful yet held, there being over 100 present. The function passed off in a most enthusiastic manner, the speeches all being good.

The opportunity was taken of saying good-bye to Norman Jolly the Rhodes Scholar and J. R. Wilton, both of whom were shortly after leaving for England to pursue their studies.

"The Chairman of the St. Peter's Old Collegians' Association attended the Dinner, and your Chairman and Secretary have been similarly entertained at the Annual Dinner of that Association held in Adelaide Town Hall on August 11th.

"Foundation Scholar.—The Head Master still reports favorably upon the work being done by Phillip Morcombe the Foundation Scholar, who secured the Scholarship for a second year. It will be your business to elect a Committee to-night for the purpose of nominating a Scholar for the ensuing year.

"The Balance Sheet to be submitted shows the Association Fund to be in a sound state.

"In conclusion your Committee trust that the Association will continue to do good work, and to expand, and this can best be done by each Member striving assiduously to carry out one especially of the objects of the Association, viz.—the promotion of unity and friendship among the Old Scholars of P.A.C."

The Hon. Treasurer (Mr. A. G. Collison) read the Balance Sheet.

ARTHUR G. COLLISON,

Sept. 8, 1904.

Hon. Treas.

The President, in moving the adoption of the Report and Balance Sheet, expressed his regret that Mr. Fuller had intimated his intention of giving up the

Secretaryship, a position he had filled for over six years. Those six years had probably been the busiest in the life of the Association, as the Secretary had had to arrange for two farewell socials to the South African Contingents, the presentation of an address and piece of plate to the Head Master, collection for and institution of the Foundation Scholarship, and the Memorial Tablet to the old boys who fought in South Africa. The membership in six years had increased by 129. He congratulated the Association on the revival of interest which seemed to be evident to the members of the Committee.

Mr. F. Chapple seconded the resolution, which was carried.

The election of officers for the ensuing year resulted as follows:—

President—Mr. P. E. Johnstone.

Vice-Presidents—Messrs. H. Fisher, H. E. Fuller, and G. W. Lee.

Hon. Secretary—Mr. E. J. W. Ashton, Queen's Chambers, Pirie Street.

Assistant Secretary—Mr. H. W. A. Miller.

Hon. Treasurer—Mr. A. G. Colison.

Committee—Messrs. W. R. Bayly, L. Cowan, A. R. Noltenius, F. Lath-

lean, F. J. Searle, H. R. Adamson, R. Rounsevell.

College Committee.—Messrs. A. S. Lewis and E. H. Newman.

Auditors.—Messrs. R. G. Neill and C. W. Chinner.

Scholarship Committee.—P. E. Johnstone, A. E. Davey, and J. W. Grasby.

Mr. Lathlean proposed that the annual scholarship should be twenty-five guineas instead of fifteen. It was resolved, however, to leave the matter to the Committee to report to next meeting.

The following were elected members of the Association:—C. R. Douady, L. C. Adcock, A. V. Pitt, F. H. Counsell, C. J. H. Wright, A. E. Hustler, A. Champion, W. G. Kither, G. A. Charllick, R. W. Bennett, H. Boas, A. White, W. G. Rhodes, E. H. Rhodes, F. L. Stapleton.

The Committee had issued a large number of invitations to "old boys" to attend a smoke social and to join the Association. Very few, however, were present. However, a pleasant time was spent, songs being rendered by Messrs. A. Rowley and P. Johnstone, and a capital recitation by A. C. Lyon. Light refreshments were provided, and several names were handed in for proposal.
