

# Prince Alfred College Chronicle

UBI NON EST SCIENTIA ANIMÆ NON EST BONUM.

VOL. IV.—No. 84.

ADELAIDE, JANUARY 5, 1906.

[PRICE SIXPENCE.]

## School Notes.

The cricket match once again showed how keenly the old boys follow the fortunes of their schools, and before and especially after it came wires and letters from many a distant spot, and the telephone was constantly ringing with enquiries and congratulations from west and east, and north and south. Tom Axford of Jamestown, Stan. Fleming of Naracoorte, Campbell of Mt. Gambier, Hubert Chinner of Perth, and Beesley, recalled their old days of keen contest. George Lee wired, Will Miller the Secretary of the Old Boys' Association wrote for himself and his committee, and so on, all received with interest and all stirring.

The generous gifts that are joyfully given to the leading players were never so many, or so appropriate. His Excellency the Governor's silver cup was engraved, "Presented by Sir Geo. Le Hunte for bowling, 1905, to C. E. Dolling" with the school coat of arms. It was adjudged by almost unanimous vote of the team to their captain C. E. Dolling. The awarding was left to the team by His Excellency's expressed wish,

In presenting his cup to Dolling the Governor pointed out that his great wish in offering this trophy was to encourage bowling. Good bowling was apt not to be thought so much of as good batting, and yet was quite as important a factor in success in the game. His Excellency further made the promise to give a similar trophy both here and at St. Peter's as long as he stayed in our State, and added the condition that no one should win this twice. He hoped that the winner of one year would coach and inspire the "coming man." (In the present case this does not seem possible, Dolling is not likely to be here next season.)

The few words which His Excellency addressed to the school as a whole were, after his fashion, brisk, hearty, to the point, and very kindly. He congratulated those who had won their prizes, and also those who had not been so successful, but had done their level best. Winning of prizes did not show all the good work of the school. Good work was done by all, he knew, and every one who was doing his best was keeping up the standard of the school. He knew from the results, from the

Head Master's report, and from the boys themselves, that they had carried the school to a very high level. His advice was to keep it there. Any step must be higher and not downward. Let them keep high the name of Prince Alfred through their life's work. (Applause.) Referring to the cricket match, he said he should have liked a close finish, each player doing his utmost to the very end. That was what taught both cricket and character. He preferred a victory by 1 run instead of the easy walk over by 9 wickets. Such a finish was better for the players, and they got keener cricket. Friendly rivalry between the two schools, St. Peter's and Prince Alfred, made for the best friendship afterwards. On every side he found scholars from both colleges doing good work for themselves and the State. He had received letters from their old comrade, Mr. N. W. Jolly, the first Rhodes scholar, and it was pleasant to know that Mr. Jolly was one of the first to welcome in England the second scholar Mr. Robinson, who went from St. Peter's. He wished them all a pleasant holiday and a happy Christmas tide. (Applause)

At the close of the address Stoddart called for "Three Cheers for the Governor." All rose and heartily responded. The Governor bowed his acknowledgements, and then called for "Three Cheers for the Head Master,

the staff, and the boys," This was heartily given too, though the last item made a big smile accompany and a bit weaken the shouting.

The singing was very sweet and tuneful, thanks to Mr. Robertson's good training, and Clif. Lathlean's solo "Awake," by Pellissier, was capitally rendered, and Moore's recitation "The Slave that Saved St. Michael's" was excellent both in enunciation and power to stir the hearers.

We have again come off splendidly at the University examinations. J. L. Glasson, our dux, heads the Higher Public list. This list began with the 20th century, and the magic letters P.A.C. have stood after the top man of it every time to date. We have five on the General Honor list, the same as last year. In the Special Honor list we come out best in the Pure Mathematics. Seven credits were given, and we have all but the fifth and sixth. In Physics five credits were given, and we have all but the second. In Chemistry we have the first four places out of the six given. The Head Master congratulated Messrs. Grey and Iliffe on these achievements.

The Angas Engineering Exhibition has been awarded to L. W. McNamara, and all the "house" rejoiced, feeling how thoroughly their "head" deserved it.

J. L. Glasson will receive the Hartley Studentship, J. Jona the first University Scholarship, and W. D. Rosengarten another. So we shall carry out four out of five entrance scholarships offered to entrants at the Adelaide University.

In the Senior we came off very well indeed too. A. C. Brown, the dux of our Fifth Form, wins the First University prize, being the highest except of some over age (17). L. G. Tassie is next, and there are eleven of ours in this Honor list altogether—about the same as last year.

In the Special Honor list Brown is top for Chemistry, McDonald top for Physics, and Pitt for Latin (save in last two subjects for over-age candidates). Our Chemistry list is the best, for there we have ten out of twelve given (the other two being over age). In Physics we have six out of eight given. On these facts Mr. Bayly is specially to be congratulated. But to get four credits in Latin is good considering the paper, and so are six in Arithmetic and Algebra, and five in Geometry. Once again there was not a single failure in German—14 took it 14 passed.

On the Junior list we have four places in the General Honors. In all 25 of our boys take the Junior certificate.

Our best lists are—(1) English, where

we have 29 passes, with seven credits, one of them (Keith McEwin) being in the first bracket; (2) Algebra, where there are 29 passes, with six credits; and (3) Geometry, where there are 25 passes, with seven credits. The 24 passes in Chemistry, with four credits, and the 25 in Arithmetic, with Howard in the top bracket, are good results too.

One pleasing and unique feature of the afternoon's proceedings was the presentation by Will Ashton to his old school of a picture—"Pont Marie, Paris"—a companion to the one placed in the Art Gallery, an exceedingly handsome gift, making us all very glad indeed and grateful to our talented "old boy."

The Head Master announced that the third term of 1906 was likely to have fifteen weeks in it. This will bring Speech Day to Thursday, December 20. The calendar year contains one day over the 52 weeks (in a leap year two days over), so we have gradually worked an earlier "break-up." The University authorities promise that if this be done all three lists shall be issued before Speech Day. Two were this year, and the third was only two days late for us.

It is interesting in this connection to note that our Speech Day should have fallen on Thursday, December 20, in

1900, and it did in 1894 and in 1888 and in 1883. There we will leave the rest of the sum to the Arithmetic prizewinner. The nearest to Christmas Speech Day has ever approached was in 1886, when it was Thursday, December 23. It could not well be nearer than that. But there were few W.A. boys at P.A.C. then.

—  
 Speech Day programme, 1886! What it calls up! F. J. Chapple (now Dr.) and A. Chapple played a pianoforte duet, and so did (Dr.) C. T. Cooper and C. A. Cane. Herbert Angas Parsons, now Consul for Japan, recited from Macauley, and so did (the Rev.) Osborne Stephenson (who long since ended suddenly a promising career when a missionary on the West Australian goldfields), and so did Clif. Penny, the eloquent advocate of Perth now. (Messrs.) J. A. Haslam and Wheatley took part in a German scene. H. J. Cohen declaimed "Curfew shall not ring to-night." Messrs. Fowler, (Drs.) Coombe and Hill were reported as winning honors, the first at Cambridge and the others in the medical schools in London, and now their sons are with us. Other names that appear on the programme are those of (Drs.) Holder and Leitch, whose brilliant careers soon after came to an abrupt close. Cecil J. Davenport, for many years now a missionary in China; A. W. Fletcher,

another missionary, whose lonely grave is near Uganda; Alex. Wyllie, long at the head of the electric works of the town of Walsall; Ernest Bailey, a bank inspector in Victoria; (Mr.) Hollidge, the Principal of Kyre College; (Dr.) G. A. Fischer, now the famous eye specialist of our city; and (Drs.) Praagst and F. A. Joyce (of Melbourne), W. A. Verco, C. Magarey, and M. Morgan, of Adelaide. Of those now learned in the law we read of A. W. Piper, A. Melrose, G. M. Evan, J. M. Solomon, N. A. Webb, and J. T. Mellor. Many of these too have sent sons to take the fathers' places, and more will. But look further—the list is not ended. Here is (the Rev.) P. N. Knight, the eloquent Methodist preacher of Toorak, here more lawyers—H. V. Rounsevell, G. F. Michell, S. T. Rowley, C. J. H. Wright (of the Port), and (the Hon.) A. H. Henning, of W.A. "There were giants in the earth in those days—and after." Here is H. W. Charlick, the esteemed superintendent of the Malvern Methodist Sunday School so long. Here J. B. Allen, director of the Technical School in Perth. Here A. H. Clark, manager of a big mine in W.A.; J. Drew, Mayor of the Burra; A. E. Cook, a captain in the South African war; H. W. Rischbieth, who runs a big business in Fremantle; A. E. Stephens, a prominent accountant in Kalgoorlie; F. W. Wilkinson, a leading dentist in Perth; W. E. Demp-

ster, a big sheep farmer near Esperance; Pam. Heath, chairman of the Institute of Insurance Offices in Adelaide; and so the list might run, for we have not exhausted the page of "successes" yet (one page held them all then). And still there are oracles that declare that boys who do well at school never succeed afterwards. How tenacious of life error is.

All the school was glad to learn that our captain, C. E. Dolling, had been selected as a member of the cricket team that is to play against Victoria and New South Wales in January.

Mr. Hugo Leschen has offered for some years a gold medal to the best all-round gymnast. This year he examined our candidates, and gave to K. McEwin  $99\frac{1}{2}$  marks out of 100. The St. Peter's boys present realised that the marks were deserved. Then came forward the Blue champion, W. Gilbert, and he went through the various tests with almost absolute perfection, and he scored  $99\frac{1}{2}$  out of 100. The Reds felt that every mark had been well earned.

In the list of prize winners at the recent Sunday School Union Examinations we note with pleasure the names of S. L. Corry, W. L. Davies, and T. C. Craven, and for certificates, L.

Slade and A. Barnes (1st class), R. Abbott and F. W. Scrymgour (2nd class).

The members of our Wool-classing Class at the School of Mines had a very pleasant and instructive outing on the afternoon of Friday, November 10th. Mr. George W. Cooper an old P.A.C., manager of Messrs. Elder, Smith, & Co., kindly invited us to visit the firm's wool stores at Port Adelaide and inspect the wool that was stored there ready for sale on the following Monday. Mr. George Jeffrey, our skilled and energetic instructor met us at the railway station and conducted us over the premises and taught us much about the wool. Mr. Cooper also entertained us most hospitably at luncheon. Mr. Jeffrey returned thanks in the name of the party, and Mr. Cooper in acknowledging spoke most loyal words about his attachment to his old school, and readiness to help at all times any that belong to it.

Our resuscitated Cadet Corps made its first public appearance on the King's birthday. Holidays and home-ties kept many away from their places in the ranks unfortunately, but about seventy said "here" to the muster roll. Messrs. Leschen, Bayly, and Newman, and indeed the whole corps are to be congratulated upon the steadiness of the marching and the straightness of

the lines. His Excellency the Governor with his usual thoughtful kindness came and addressed the boys and further bade Lieutenant Leschen convey to the Head Master his high appreciation of the steadiness and soldierly bearing of the Cadets representing the College. He hopes to have the pleasure of seeing them often, and wishes them every success. The school values very highly these kind words. Many other congratulations also reached us.

Our Head Master has been elected Warden of the Senate of the University of Adelaide for the twentieth year in succession.

Their old school parts with regret with Mr. F. W. Wheatley, B.Sc., B.A., and Mr. J. F. Ward, B.A. Both are eastward bound, the former to Goulburn, N.S.W., and the latter to Rockhampton, Queensland. To both the school owes many a debt for good work done the last two years. But as both look upon the change as promising a wider sphere of activity, we must rejoice with them and wish them well.

Mr. J. A. Haslam, B.Sc., will be welcomed on to the staff at the beginning of next session. Can another "old boy" be found for to fill the vacancy left by Mr. Ward. Not that any one master is made in the same

pattern as the one he succeeds. Mr. Haslam we understand is to give increased strength to the "commercial" department, and to be the Head Master's lieutenant and Fidus Achates in the House.

During the cricket season a part of the year our First Eleven played 18 matches, won 12, and drew 6 in their favour. Hence there was a very large number of the Head Master's medals (for 50 runs or three wickets in an over) won. The full list:—

Dolling, C. E.	...	10—8	batting and 2 bowling
Drew, C. F.	...	4	batting
Middleton, R. F....	...	4	batting
Rankin, H.	...	2	batting
Stoddart, H. W....	...	2—1	batting and 1 bowling
Wilton, A. C.	...	3	batting
Seppelt, N. E.	...	1	bowling
Pope, H. J.	...	1	batting

It was too much to expect Dolling to make a chain of his ten medals, &c., so the Head Master with his wonted generosity presented to Dolling, Drew, Middleton, and Wilton, a beautiful gold medal each.

### Old Boys.

Newton J. Moore, Minister of Lands, was re-elected for Bunbury unopposed.

Harold Chapple has now completed

the part of his medical course that is provided for at the University, and so has betaken himself to the famous Guy's Hospital, London. At the Entrance Examination he won the second place on the list. For this he was awarded the Senior Scholarship Certificate, and his name appeared in the papers as *proxime accessit*.

David M. Lyall, B.A., has been licensed as a preacher of the Presbyterian Church, and now he has been appointed travelling secretary of the Australian Student Christian Union. He has long worked earnestly in the interests of this Union.

J. H. Allen and Eric M. Ingamells have been accepted as candidates for the Methodist Ministry.

T. H. Nicholls has been appointed to a responsible position in the Crown Law Department.

W. L. Short has been appointed second associate and clerk of arraigns in succession to James P. Boucaut, Jun., who has resigned these offices.

E. T. Bailey has been appointed an inspector on the staff of the Commercial Bank in Victoria.

The Board of Governors of the Public Art Gallery at the recent Federal Ex-

hibition purchased for 150 guineas each pictures by Will Ashton and Hayley Lever. Ashton's is entitled "The Boulevard, Montparnasse, Paris," and Lever's is named "The Last Glow, St. Ives' Fishing Fleet." The press comments on these pictures should be very encouraging to these young artists, and should make their old comrades very proud of them. Ashton has also heard that his picture "Evening" has been hung in the Royal Institute of Painters in Water Colors. Lever has returned to England.

In the Accountants' Examination held by the Central Interstate Board we notice with pleasure that E. Bendall has passed for Auditing, and C. Viner Smith for Book-keeping and Auditing.

J. R. Mitchell has passed the University Examination in Theory of Music, Senior Division, First Class, and Ernest W. Brose in the Second Class.

John Drew has been elected Mayor of the Burra; James O. Tiddy Mayor of Maitland.

H. J. Priest, B.A., B.Sc., has been appointed Lecturer in First Year Mathematics and Demonstrator in Physics at the Adelaide University.

Dr. Thomas Mitchell Drew, M.B., B.S., was married in London to Miss

Blanche Ada Smith, daughter of Mr. J. H. Smith, formerly Railway Commissioner of S.A. Dr. and Mrs. Drew sailed for Adelaide by the Geelong, Dr. Drew being the doctor of the ship. Mrs. Vanes (his sister) also returned to S.A. by the same boat.

Dr. F. F. Muecke has commenced practice at St. John's Wood, near London. He has also taken the F.R.C.S. of London.

Harold Parsons has entered at Dr. Hoch's Conservatorium, Frankfort, Germany, for the further study of the violoncello.

Mr. and Mrs. Arthur H. Hill have returned to the state after a most enjoyable trip to America and Europe, combining business and pleasure, especially miniature rifle-shooting at Bisley.

The Rev. Frank King has been lecturing and preaching in various parts of England and Scotland under the auspices of the S.P.G.

Joe Darling and C. W. Chinner returned to Adelaide by the China towards the end of October.

Clem. Hill made another big score (181) against Mr. Thornton's eleven, at Scarborough, on Sept. 8 and 9.

A. H. Padman is very successful in his breeding of fowls. His White Leg-horns were at the top of the egg-laying competitions both at Roseworthy and in Victoria.

T. A. Neill has returned to Adelaide from England, where he has been studying for the profession of average adjuster. He has served articles for five years with the well-known London firm of Messrs. Manley, Hopkins, Son, and Brookes, and two years ago gained the certificate of the London Chamber of Commerce for marine insurance. He is believed to be the first Australian thus to qualify and become a member of the Association of Average Adjusters. We heartily congratulate him. He was welcomed back by the Old Scholars' Association at their annual meeting.

Irwin Basedow has been given charge of the Government smelter on the Daly River, Northern Territory, as manager and assayer.

J. P. Boucaut, jun., Associate to Mr. Justice Homburg, returned to the state from a short visit to relatives in England.

Dr. J. T. Mitchell, of Ballarat, the first P.A.C. to win a University degree, who was in Adelaide to attend the Medical Conference, gave us a call.

J. R. Wilton, now of Trinity College, Cambridge, was appointed to represent the Adelaide University at an international congress at Liege, Belgium, concerning radiology and ionisation.

To H. R. Nock, of Tarlee, was awarded the first place for prepared speeches. His subject was "Conscription for Australia," and he argued against compulsory military service well and powerfully.

Dr. Lionel F. Praagst favored us with a call early in October. In December, 1880, he passed the Matriculation Examination and went to Melbourne to study medicine. He has long been established in an extensive practice in that great city, and was delighted to find that the Head Master remembered so well reading with him his Racine and his Virgil a quarter of a century ago.

Mr. and Mrs. F. Lathlean have returned to Adelaide after a trip to Europe. Business and pleasure were combined, and much study of wool and its trade made.

Mr. and Mrs. Arnold E. Davey and their three sons returned to our state towards the end of October after a most delightful visit to the old land. Mr. Davey speaks in the most enthusiastic terms about the hospitable reception

that he met with at the hands of so many, and his opinion of the greatness of the mother country has even increased.

Alfred Chapple has taken his M.A. degree at Cambridge. He has been entitled to this degree for some years, but has preferred to postpone proceeding to it till now.

The Rev. T. H. Frewin, M.A.; is spending most of his furlough at Oxford attending divinity lectures, but has found some time to collect funds for the development of mission work in Jamestown and some for mission work in the east end of London.

The Rev. Gilbert Maclaren, better known as "Archie" has been on furlough in this state, and gave us a call almost directly he landed. He is now fully ordained, and has charge of the important circuit of Subiaco in Western Australia. He was most heartily welcomed by all the masters and by the boys who remembered him, for it was always with grateful recollections.

E. L. Grundy is in charge of the Mount Torrens cyanide works.

H. J. Cattle has passed the Junior Commercial Examination.

Alderman A. A. Simpson has re-

turned to South Australia by the Grosser Kurfurst. He has given much attention to municipal matters both in England and in the great cities of the Continent of Europe, so as to fit himself for the discharge of his civic duties.

In the now famous literary tournament held by the South Street Society at Ballarat, Charles M. B. Sparrow, hailing from Fremantle, was awarded five first and three second prizes for elocution, and honorable mention for oration. First in the two test pieces, "The Revenge" and "The Brothers"; first in Australian recital, "A Voice from the Bush"; first in humorous recital, "The Bishop and the Caterpillar"; second in two dramatic recitals; first with Miss Ethel Goddard in humorous dialogue; and second with musical accompaniment.

T. A. Laurance, an old boy of over twenty years, favored us with a call on his way from Davenport in Tasmania back to his former abode in West Australia. He was delighted with the great improvements since his day.

Dr. Shorney is taking up post-graduate work at the London Hospital.

Norman W. Jolly, the first Rhodes Scholar has applied successfully for a post in the Indian Forestry Department. He will have considerable time

allowed for further study, so as to fit himself for the scientific duties.

V. Waldemar Seppelt has been on a trip to Japan and was honored by the government with a commission, empowering him to make enquiries into things of interest on his travels.

Mr. Smith, the Head Master of the Friends' School at Hobart, favored us with a call early in October. He spoke with hearty appreciation of two old boys on his staff, W. C. Annells, M.A., and G. A. Hancock, B.A.

In the list of those successful at the University of Adelaide in the Examination for the Advanced Commercial Certificate we are glad to notice C. A. Bray (with credit), L. J. Canaway, R. H. Cotton (with credit), R. M. Steele.

The Head Masters' three sons, Alfred, Harrold, and Ernest Chapple had a lovely holiday at "Frendraught" near Hantley in Aberdeenshire, as the guests of Mr. and Mrs. Peter Wood, and Mr. and Mrs. Wm. Taylor. There were eighteen Australians in the house party, twelve from Adelaide.

A. L. Taylor, F. W. Porter, and J. C. Marshall, Jun., partners in the well-known firm of Jas. Marshall & Co., of Rundle Street, have sent us a large and

handsome Union Jack, which now floats above the College on great days.

Mr. John Roach has again added to his former kindness to our athletic champions by devoting two Block 10 shares to their reward. He has sold them and sent cheque for the proceeds (nearly ten pounds) to the Head Master to distribute as prizes to the first eleven. The proceeds purchased five gold sovereign cases, which fell to Dolling, Stoddart, Middleton, Rankine, and Goode.

Mr. J. W. Grasby presented a beautiful little gold medal to the one who had the best bowling average, and it was won by Stoddart.

Joe Darling again gave a bat for batting, and it was won by H. Rankin.

Old P.A.C. medicos have been very fortunate in securing good appointments at the Adelaide Hospital. R. G. Burnard has been made resident pathologist, and R. E. Magarey, Dean Dawson, and R. D. Brummitt house surgeons.

The only name of the feminine gender on our schoolroom walls is Lilian Staple Mead, and under that name the authoress has written (to quote the *Register*) "a charmingly got up and most interesting little volume

entitled 'Patsie's Bricks.' It is crowded with interesting incidents from cover to cover."

A. E. Stephens, of Boulder City, gave us a call to renew old associations. We are glad to see that he has been elected an auditor of that municipality. One brother, C. F. Stephens, B.Sc. of Adelaide, and B.A. of Oxford, is a tutor at Yokohama, and another (E. H.) is on a diamond mine in South Africa. So scattered are three brothers that once hailed from Mount Pleasant.

There was quite a gathering of old P.A.C.'s at the show at Dongara, W.A., this October. Newton Moore (Minister of the Crown), Harley Morrell and Stone (Methodist ministers), Walter Stokes, Foster Clarkson and Joe Clarkson, Newman Pearse and Nelson Pearse, Norman Lowe, Charlie Hudson, Reginald Church, Tom Readhead, and Harry Waldeck. All were gladly hailed and welcomed by Mrs. Frederick Waldeck (née Gertrude Chapple).

In our May issue this year was given a long list of our old boys who are superintendents of Sunday Schools in and near Adelaide. Others were added to it, and now we have remembered yet others. H. E. Fuller is superintendent of the School in connection with St. Paul's, and A. H. Roberts that with St. John's. Doubtless there

are many more in town and country, we should be glad to know of them that we might rejoice with them at the glorious privilege that is theirs.

---

Mr. J. A. Haslam, B.Sc., who is joining the staff of his old school has been the recipient of many presents from the staff and the students of the School of Mines. Clem Matters (Chairman of the Students' Association) spoke of Mr. Haslam's tact, and said that he had always been a good friend to the students. That the Council, too, hold the same high opinion the following excerpt from the daily paper will show.

---

At the meeting of the council of the School of Mines and Industries held yesterday afternoon (December 18) reference was made to the fact that it would be the last meeting at which Mr. J. A. Haslam, B.Sc., would be present as registrar of the institution, and on the resolution of Mr. R. E. E. Rogers it was decided to present him with the following testimonial signed by each member of the council:—"The council of the South Australian School of Mines and Industries desire to avail themselves of this opportunity of placing on record their high appreciation of the able, courteous, and thorough manner in which you have fulfilled

your duties as registrar of the school for five years during which you have held that position. Your many sterling qualities cannot be too highly commended, and it is a matter of regret that the institution is losing your valued services. The council have pleasure in wishing you success in your new sphere of labour." In moving the resolution, Mr. Rogers said as one who had had a close intimacy with Mr. Haslam during his term of office, he could say that he had been a painstaking, thorough, and worthy servant of the institution. Under many difficult circumstances Mr. Haslam had never forgotten that his first duty was to the school, and he was satisfied that he was only voicing the sentiments of the whole council when he hoped that Mr. Haslam would be as successful in his new position as house master at Prince Alfred College as he had been as registrar of the School of Mines. In seconding the resolution, Mr. L. Grayson spoke in eulogistic terms of the capable way in which Mr. Haslam had performed his duties as registrar. The President (Sir Langdon Bonython) agreed with all that had been said. From his personal knowledge Mr. Haslam had been a most efficient officer of the council and of the school. The whole of the members of the council joined in the expressions of satisfaction and goodwill, and the resolution was carried unanimously.

### Prince Alfred College Literary Society.

A number of the senior boys early in May discussed the matter and came to the conclusion that to revive the Literary Society in the school would be a very desirable thing. The Head Master was consulted and as he favored the project, a meeting was held in the Sixth Form room on May 31, 1905, to make definite arrangements. The Head Master occupied the chair and it was unanimously decided to resume the meetings of the Society. A sub-committee was appointed to draw up a set of rules, and bring forward any suggestions for the carrying on of the Society. The committee met and presented the result of its deliberations to the members on June 9th. The rules were accepted by the meeting and the following officers were appointed.

President—The Head Master; Vice-Presidents—Mr. F. I. Grey and C. B. Holmes; Secretary and Treasurer—F. M. Moore; Committee—T. R. Caust, J. L. Glasson, H. W. D. Stoddart.

There are now 57 members on the roll, and during the past session 7 meetings have been held with an average attendance of 52 members.

During the session there have been debates on the following topics. "Is the White Australia policy in the best interests of the Commonwealth?" "Which

is the better system of conveyance, Electric Cars or Motor Buses?" "Which is the better game, Cricket or Football?" "Which is the better branch of study, Classics or Mathematics?" An evening was also devoted to Impromptu Speaking and another to Elocution.

We tender our heartiest thanks to Mr. Chapple, Mr. Grey and others, who have taken such interest in the meetings. The boys, who have availed themselves of the opportunity of "speaking," we feel sure, will never regret entering heartily into the working of the Society. Some however have done little, and profited little. We extend a hearty invitation to all seniors to attend our meetings. Membership is not limited to present scholars, and we should be very pleased indeed if old scholars would join our Society, and they could assist it so much. The Constitution, Rules, and By-Laws have been printed on a neat card, and the Secretary will be pleased to forward a copy to any interested "old red."

---

### A Saturday Night.

On October 21st Mrs. Sunter, of East Adelaide, wife of an old boy, kindly brought down some of her friends to give us boarders a pleasant Saturday night. She was very suc-

cessful, and we thoroughly appreciated her kindness. The first part of the programme was of the nature of a concert. Miss Sunter played an overture and also kindly accompanied all the singers very tastefully. Mr. Murray Barlow in his big bass voice gave two rollicking songs, and Mr. Wild, whom all South Australians knew as a great concert singer, showed us how real and true to nature "The King of the Road" and "The Helmsman" were. Our old friend Mr. Lyon (old Red) brought the house with his "Musical Sketches," and later on he recited very realistically "Gerard's Escape from Dartmoor Prison." Mr. Lucy quite curdled the blood by his tragic rendering of "The Corsican," and of "Shakespeare at Dead Horse Creek." Miss Gardiner sang several songs very sweetly, and the little Miss Sunter won great applause for her "Hello, My Baby." Then came the dramatic piece of the evening called "The Fairy Governess." This was very prettily done. Miss Sunter was a very impish, mischievous elf, while Miss Keppen Wendt made a most tired, worn-out governess. Miss Amy Hutchins was a gentle, kindly fairy, and Miss Malin was very good as "a mortal child." This little piece concluded the programme, and we must once again very heartily thank those ladies and gentlemen who entertained us so pleasantly.

### Our Contemporaries.

We beg to acknowledge with thanks the receipt since our last issue of the following:—

- "St. Peter's School Magazine."
- "Wesley College Chronicle" (Melbourne).
- "The Yellow Dragon" (Hong Kong).
- "Hermes" (Sydney University).
- "Otago High School Magazine" (N.Z.)
- "Sibyl" (N.S.W.)
- "The Melburnian."
- "King's School Magazine" (Paromatta).
- "The Student" (Roseworthy).
- "O.B.I. Magazine."
- "The Geelong Grammar School Quarterly."
- "Patchwork" (Pres. Ladies' College, Melbourne).
- "The Scindian" (Napier, N.Z.)
- "The Sydneian" (Sydney Grammar School).
- "The Scotch College Magazine" (Melbourne).
- "The Triad" (Dunedin, N.Z.)
- "The Newingtonian" (Sydney).
- "Prince Albert College Magazine" (N.Z.)
- "The Launcestonian" (Tasmania).
- "The Wellingtonian" (Tasmania).
- "The Brook" (Tintern College, Melbourne).
- "The Black and White,"

**Form Duces at the Close of 1905.**

Upper Sixth—J. L. Glasson.  
 Lower Sixth—A. C. Brown.  
 Upper Fifth—R. A. Haste.  
 Lower Fifth—J. T. Close.  
 Upper Fourth—G. S. Reed.  
 Middle Fourth—W. G. Nicholls.  
 Lower Fourth—A. A. Cooper.  
 Upper Third—A. McCoy.  
 Lower Third—C. M. Lathlean.  
 Upper Second—G. E. Roberts.  
 Lower Second—G. S. Fowler.  
 First Form—A. N. Shuttleworth.

**Annual Sports.**

After a dull and rainy morning, the sun shone out and everything proved favorable for a successful sports meeting on September 22nd. It was hoped that the sports this year would be held on our own splendid grounds, and doubtless next year's committee will be able to make complete arrangements for this. Mr. Bayly again acted as starter, and is to be congratulated on the excellent manner in which he got his fields off. Messrs. Wheatley, Robertson, and Dr. Chapple are to be thanked for acting as judges, Mr. Grey as timekeeper, and last but not least the committee under Mr. Langley for its great services. A double change was made in the programme this year by omitting one old scholars' race, and

by substituting a mile race for the medley. These alterations were a great improvement, and it is hoped the mile event will shortly find its place in the Intercollegiate Sports programme. G. P. Goode again won the College Cup by gaining the 100 Yards Championship, the 440 Yards, and by being the first Cup competitor in the 220 Yards and second in the 120 Hurdles and High Jump. Moore, who with training should make a good runner next year, was second with nine points. Then came Wilton with eight and Stoddart and Davidson with six. Dolling ran very consistently, winning the 220 Yards from the 5-yard mark, and running second in the 440 and 100 Yards. Angwin and Stoddart tied for the High Jump, both clearing 5 ft.  $\frac{1}{2}$  in. Cooper again won the Junior High Jump, the height being 4 ft.  $9\frac{1}{2}$  in. Charlick won the Junior Championship, Whitby the Mile, and Dreyer the Half-Mile. We take the opportunity of giving our sincere thanks to Lady Holder for so kindly presenting the prizes. The events were as follows:—

150 Yards Flat—R. M. Scott, 5 yards, 1; F. M. Moore, scratch, 2. Time, 15 3-5th secs.

100 Yards Flat, under 11—D. Magarey, 10 yards, 1; M. Fowler, 5 yards, 2.

Junior Championship, 100 yards—H. M. Charlick, 1; R. M. Tucker, 2; R. E. Cresdee, 3. 11 4-5th secs.

College Championship, 100 yards—G. P. Goode, 1; C. E. Dolling, 2; F. M. Moore, 3. 10 2-5th secs.

Junior High Jump—J. H. Cooper, 1; H. A. Tuckwell and M. U. Hubbe, 2. 4 ft. 7½ in.

150 Yards Flat, under 16—L. B. Coombe, 4 yards, 1; T. A. Hewish, 5 yards, 2; R. M. Tucker, 6 yards, 3. 16 4-5th secs.

220 Yards Flat—C. E. Dolling, 5 yards, 1; G. P. Goode, scratch, 2; R. M. Scott, 5 yards, 3. 24 3-5th secs.

120 Yards Flat, under 13—L. J. Cresdee, 2 yards, 1; C. S. Charlick, scratch, 2. 16 secs.

300 Yards Steeplechase—A. S. Gedge, 30 yards, 1; E. A. Richardson, 15 yards, 2; J. L. Davidson, 5 yards, 3. 43 4-5th secs.

Senior High Jump—H. Angwin, 1; H. W. D. Stoddart, 2; F. E. Osborne, 3. 5 ft. ½ in.

120 Yards Hurdles, under 15—R. M. Tucker, 3 yards, 1; J. H. Cooper, scratch, 2; H. M. Charlick, scratch, 3. 18 2-5th secs.

440 Yards Flat—G. P. Goode, scr., 1; C. E. Dolling, 5 yards, 2; R. M. Scott, 8 yards, 3. 56 secs.

One Mile Bicycle Race—C. H. Knabe, 150 yards, 1; J. Entwistle, 60 yards, 5. 2 mins. 21 3-5th secs.

120 Yards Flat—G. E. Bateman, 3 yards, 1; T. A. Hewish, 7 yards, 2; S. Abotomey, 5 yards, 3. 13 secs.

Cup Hurdles, 120 yards—J. L.

Davidson, 1; G. P. Goode, 2; A. C. Wilton, 3.

One Mile Flat—R. A. Whitby, 230 yards, 1; H. L. Brose, 250 yards, 2; T. A. Hewish, 100 yards, 3. 4 mins. 52½ secs.

Long Jump—S. Abotomey, 1; H. W. D. Stoddart, 2. 18 ft. 11½ ins.

120 Yards Hurdles—A. Wilson, 5 yards, 1; K. McEwin, scratch, 2. 16 4-5th secs.

Obstacle Race, 300 yards—K. N. Steele, 15 yards; A. M. King, scratch, 2; J. C. Symonds, 5 yards, 3; E. A. Mann, 30 yards, 4.

Old Scholars' 100 Yards Flat—R. D. Brummitt, 1; Scott, 2.

Half-Mile Flat—S. Dreyer, 130 yds., 1; G. V. Bateman, 40 yards, 2; W. B. Reid, 20 yards, 3; H. M. Charlick, 70 yards, 4. 2 mins. 14 3-5th secs.

Consolation, Senior—Matters, 1; Martin, 2.

Consolation, Junior—Cresdee, 1; Close, 2.

Kicking for Goal—C. F. Drew.

---

### Christian Union.

---

Mr. Chapple as usual took charge of the first meeting of the term. How much his former addresses have been appreciated was shown by the large number of boys who turned up to hear the earnest words of our Head Master on the first Wednesday this term.

Our next meeting was taken by the Rev. G. Davidson, M.A. He gave us some original thoughts on the theme "Common Salvation," words that he pointed out only occur in St. Jude. His Scotch accent made his address all the more impressive.

The Rev. Vivian Roberts also gave us inspiring talks.

Mr. J. H. Chinner spoke to us on making our surroundings pure, and took a splendid illustration from the water spider. He told us how the spider is enabled to live below the water because it takes down with it bubbles of air enclosed in a kind of diving bell.

We had the pleasure of hearing Dr. F. J. Chapple this term, instead of last, as he was good enough to give up his meeting last term to another doctor.

We had very fine addresses from Mr. Wheeler, Mr. N. S. Fry, and the Rev. J. Shaw, and to some minds the best of all was given by Dr. F. S. Hone, one Wednesday towards the end of the term. He gave us some very original thoughts on the Youth of Jesus, and some splendid illustrations on his theme.

Miss Chapple and Mr. Ward gave addresses, but many were away at the Public Examinations and the attendance was not nearly as large as usual. The Rev. William Jeffries took the last meeting and gave us one of his quiet

talks, which go straight to the heart. All who have attended the meetings have derived great benefit from them.

**The Cadet Corps.**

---

During the term there has been considerable activity in Cadet work, and this has resulted in marked improvement in the efficiency and steadiness of the two companies. The following non-commissioned officers were appointed:—

Sergeant Major.—H. W. D. Stoddart.  
Sergeants A Company—W. B. Reid,

G. P. Goode, S. W. G. Parnell, F. E. Osborn.

Sergeants B Company—A. C. Wilton, E. E. Lloyd, E. C. Black, R. M. Scott.

They all entered into the work heartily and their improvement in command and power to control their sections relieved the officers very much.

Though we have not any official status, the kindness and goodwill of the officers of the State Military Forces have been most marked and expressed on every possible occasion. Early in the term the Corps was honored by a visit from the Commandant, Colonel Wallack, who addressed us in stirring language, impressed upon us the dignity and responsibility of our position as young citizens of the Commonwealth, and urged each member to do his utmost to make his unit the most efficient in the Corps. In conclusion he invited us to take part in the King's Birthday review.

Our "turn out" at the review was exceedingly good, and the experience was greatly appreciated by every Cadet. We all felt on our mettle, and that it was our duty not only to show that, spite of little preparation, we promised to prove worthy the confidence of those who invited us, but also to show that Cadets were anxious to play their part well in the State, and to be worthy the support of those to whom we must look for approval. The kindly words of the

Governor after the march past, and the complimentary letters to the Head Master from His Excellency and from the Commandant were very gratifying.

As arrangements for shooting are being steadily improved, much good work is being done, at the targets, especially since the arrival of the small bore rifles. Unfortunately, owing to many interfering causes, it has not been possible to arrange for as much general practice as was hoped, so that the idea of a series of matches between the different units had to be abandoned. Next term we hope to arrange for regular practice, systematic records and matches.

The Corps has a great part to play on the school life. When the former Corps was allowed to lapse, it was generally felt that a strong factor in school life had ceased to operate. We trust that the Corps will be permanent. This will be so, if all returning members rally round their officers next year. determined to maintain the efficiency of the Corps, and to subordinate to that some private and personal convenience.

---

### Dr. Frank Hone.

---

Dr. Frank Hone kindly spared the time to come all the way up from the Semaphore and address our Union on November 1. It will be a long while before we forget his earnest words on

"The Youth of Jesus." He said that we much wanted to know what Christ did during those formative years from 12 to 30—the years that we boys were now going through. The Apostle John had taken eight chapters to tell about one week in Jesus's life, but all these years had been summed up in one verse—"And Jesus increased in wisdom and in stature and in favor with God and men." He drew our attention to the fact that wisdom was different from knowledge. We might know more than our fathers did about Latin, but they would have more wisdom in the real things of life. Some boys increased in knowledge—in evil knowledge—but that was not wisdom—it spoilt their moral natures and wrecked them. President Roosevelt, one of the most world-wide known men of to-day, and certainly one of the best, when he was a small boy knew he was delicate, but he learnt how to take care of his body and so strengthened it by exercise and an open-air life that he was able to go through all the strain of the war with Spain and do all the work as President. His increase in wisdom meant increase in stature too. Jesus cared about that, just as boys do to-day—that is why he said later on: "Which of you by taking thought can add one cubit to his stature?" Some boys do things that they know are harmful, and so injure themselves for life, but Jesus spent his years as a

normal boy should—getting knowledge and growing. And "He increased in favor with God and men." Everyone rightly wishes to be popular if he can, and to increase in favor with God, to do that which is well pleasing to Him, is the way to increase in favor with man too when you are young. Christ's teachers were the same that we have—nature and books and men. He noticed every detail of the life around Him, so that He could say, "Consider the lilies of the field, how they grow," and drew therefrom lessons of trust. His books were not many, but He taught Himself Hebrew, a dead language, in order to be able to read His favorites in their original. The highest wisdom was to follow in His steps, and thereby increase in wisdom and stature, and in favor with God and men.

---

### Mr. J. H. Chinner.

---

The Christian Union, which is held every Wednesday, had the pleasure of a visit and an address from Mr. J. H. Chinner, superintendent of Parkside Sunday School and ex-Mayor of Unley, an old scholar of whom the College does well to be proud. The room was very full, and all who attended felt that they went away stimulated and strengthened. Mr. Chinner began with a few remarks on our triple nature, and then, leaving the physical and mental

to be cared for by the College, as he said, he showed us how God had put within the reach of everyone the means whereby the most precious part of us may be kept alive and vigorous. Everywhere in the world, in all departments of life, are to be found things that would kill the spiritual nature, but each soul must create an atmosphere for itself, wherein it can live in the world and yet not be of it, free from that which would prey on and destroy. As illustration he described the diving spider that he had seen many times on the lakes. The spider weaves itself a bell, and thus armed dives into the water. The water is death to it, but blowing air bubbles into the bell drives the water out, and so the spider can live quite safe in that hostile element, and gaining its food from it. So the Christians by prayer can create for himself an atmosphere in which he can live safe and unharmed and true to his ideals. Many great men have left behind them the assurance that in such a habit has lain their power. General Gordon in his great struggles in Egypt, and amid all his duties, at certain times in the day closed his tent door, leaving his handkerchief spread outside, and no aide-de-camp dared to intrude then, for they said, "He is talking to his God." Nelson, of whom we all have been thinking so much recently, left behind as his last writing, just before the Battle of Trafalgar Bay, a written

prayer for his country in their hour of need. With an earnest appeal that at all times and seasons we might make a habit of speaking to the same God, Mr. Chinner commended us to His care.

---

### Intercollegiate Sports.

---

The Eighth Intercollegiate Sports Meeting was held on the Adelaide Oval on Saturday, September 30. We were fortunate in having an ideal day for the sports, and there was a large attendance of friends and supporters of the two schools. His Excellency the Governor and Lady Le Hunte were present and evinced the greatest interest in the various events, and at the close of the sports Lady Le Hunte presented the Cup to H. G. D. Murray, the captain of the St. Peters' team, and the medals and prizes to the individual winners of events. Since the last meeting a die has been made, and each successful competitor received a handsome bronze medal bearing on the obverse the crests of the two Colleges and on the reverse "Intercollegiate Sports Meeting," with the date and name of the winner and event, surrounded by a laurel wreath; the winners of the three old collegians' races received pots as previously. In reviewing the sports we must confess we were disappointed with the result, especially

as Goode again proved himself the finest athlete in the competition. He improved on his last two year's performance by winning the 100 yards, 150 yards, 220 yards, and 440 yards flat races, equalling the previous record time of 10 2-5th secs. in the first, and making a new record for the last with 54 2-5th secs. In the thirteen events we were first in seven, but our second and third men in general did not perform up to expectation. Two years' experience should now impress on us the fact that this is a team's contest in which each representative must play his part, and that combined work and systematic preparation is as necessary here as in the cricket eleven or football eighteen. Our record of seven firsts, two seconds, and five thirds speaks for itself. It was in the hurdle races and jumping events that we failed; in these St. Peter's scored 31 points to our 8. In the junior events our inferiority was marked, and this is a bad sign, for from the juniors of to-day we must expect to obtain the seniors of the future.

This was the first meeting held under the patronage of the recently-formed South Australian Amateur Association, and future meetings will no doubt be held strictly in accordance with its rules. This will necessitate some slight alteration in one or two of the events.

As mentioned above, Goode's was the best individual performance, and

the main feature was the way in which each finish was fought out with Strachan, the leading representative of St. Peter's. Next we have Murray's magnificent effort in the long jump; two years ago Trott made a record which we thought would last for some time, but Murray at his first try got well off the mark and beat Trott's distance by nearly 15 inches. Cooper, who jumped well for us in the junior high jump last year, was the smallest of the six competitors; he has a very neat style, and justified the hopes we formed of him last year by beating the previous junior record by  $\frac{1}{4}$  inch. In the senior high jump also the previous best performance was beaten. Wallack, who had recently come from Victoria with a considerable reputation, won with 5 ft. 3 in., and then cleared the bar when raised to 5 ft. 4 in. Wilton and Drew ran well towards the end of the sports, winning the Steeplechase and Half Mile respectively in very good style.

The scores at the finish were—S.P.S.C., 65 points; P.A.C., 43 points.

The events were as follows:—

150 Yards Flat—1, G. P. Goode, P.A.C.; 2, W. L. Strachan, S.P.S.C.; 3, M. G. Murray, S.P.S.C. This was a very fine race. Strachan had a slight lead on Goode 30 yards from the tape, but Goode finished very strongly, and gained the judges' verdict by a few inches. Dolling hardly ran up to ex-

pectation, finishing fourth. Time, 16 secs.

High Jump (Juniors)—1, J. H. Cooper, P.A.C.; 2, C. G. Chapman, S.P.S.C.; 3, J. T. Creswell, S.P.S.C. Tuckwell and Hubbe fell out at 4 ft. 7 in., and Creswell at 4 ft. 8 in. Cooper and Chapman both cleared 4 ft. 9 in., but the latter failed when the bar was raised, Cooper clearing it at his second attempt. Height, 4 ft. 9 $\frac{3}{4}$  in.

120 Yards Hurdles—1, G. L. Dean, S.P.S.C.; 2, M. G. Murray, S.P.S.C.; 3, C. M. Muirhead, S.P.S.C. This was the first event in which we came to grief, Goode wisely stood down and our three men were Davidson, Drew, and Wilton. Davidson spoilt his chance of finishing well by striking the first three or four hurdles, while Drew and Wilton showed lack of preparation. Dean came away at the last hurdle and won easily. Time, 16 3-5th sec.

100 Yards Flat (junior)—1, E. C. Ashwin, S.P.S.C.; 2, T. B. Taylor, S.P.S.C.; 3, R. Cresdee, S.P.S.C. In this race the experience of the previous one was repeated: we obtained no points. Tucker who finished first for us was easily beaten by Cresdee. Time, 11 1-5th sec.

100 Yards Flat—1, G. P. Goode, P.A.C.; 2, W. L. Strachan, S.P.S.C.; 3, F. N. Drew and J. Hutchins, S.P.S.C.; (dead heat). As in the 150 yards there was a great battle between

Goode and Strachan for first place, and the finish was very close. For third place Drew and Hutchins could not be separated, our second and third representatives finishing close up. Time, 10 2-5th sec.

High Jump—1, G. T. Wallack, S.P.S.C.; H. Angwin, P.A.C., 3, C. L. Herbert and W. V. Gabriel, S.P.S.C.; (equal). After Wallack's fine jumping in the St. Peter's Sports the previous Saturday we had little hope of gaining first place. Angwin however, jumped well for us, and only failed at 5 ft. 3 in., the previous record for the event. Stoddart and Osborn fell out at 5 feet. Height 5 ft. 4 in.

120 Yards Hurdles (juniors)—1, R. Cresdee, S.P.S.C.; 2, J. P. Creswell, S.P.S.C.; 3, R. M. Tucker, P.A.C. Our juniors were again outclassed, finishing behind the three St. Peter's boys. Tucker however, was awarded third place through the disqualification of Taylor who ran round the third hurdle. Time, 17 sec.

220 Yards Flat—1, G. P. Goode, P.A.C.; 2, W. L. Strachan, S.P.S.C.; 3, J. Hutchins, S.P.S.C. The race was slow at the start, but in the straight Goode and Strachan came away from the rest, and fought out the finish. Goode winning by 3 yards. Scott ran well and finished fourth. Time, 24 2-5th sec.

One Mile Bicycle Race—1, J. Forrest, S.P.S.C.; 2, A. J. Lindsay,

S.P.S.C.; 3, W. B. Reid, P.A.C. Grant and Bayly shared the pacing in the first two laps, but Forrest, last year's winner, again proved his superiority by coming away and winning easily from Lindsay and Reid, who had a great struggle for second place. Time, 35 4-5th secs.

440 Yards Flat—1, G. P. Goode, P.A.C.; 2, W. L. Strachan, S.P.S.C.; 3, R. M. Scott, P.A.C. Goode ran a very fine race again, holding a good position behind the pace-makers until the straight was reached. Strachan, as in the previous three races in which they met, kept with him until the finish, when he could not hold him. Scott again ran well, and finished third. Time, 54 2-5th secs.—a record for the race.

500 Yards Steeplechase—1, A. C. Wilton, P.A.C.; 2, G. L. Dean, S.P.S.C.; 3, J. L. Davidson, P.A.C. Dean led over the last jump from Wilton, who by a brilliant effort passed him a few yards from the finish. Davidson ran in his true form, and gained third place. Time, 44 2-5th sec.

Long Jump—1, M. G. Murray, S.P.S.C.; 2, W. R. Warren, S.P.S.C.; 3, F. M. Moore, P.A.C. Murray by his splendid effort won easily, and looked on while the second and third places were decided. Warren beat Moore easily, Abotomey and Stoddart not equalling their own distances in our own sports. Distance, 20 ft. 11½ in.

Half Mile—1, C. F. Drew, P.A.C.; 2, N. C. Russell, S.P.S.C., and R. M. Scott, P.A.C., dead heat. No serious effort was made to force the pace in the earlier stages of the race, which was run slowly. When the competitors reached the pavilion in the second lap, Russell was leading. Drew and Scott then made their run together, Drew passing Russell 20 yards from the finish, while Scott just caught him on the tape. Time, 2 min. 27 sec.

#### OLD SCHOLARS' EVENTS.

150 Yards Hurdles—1, R. Rounsevell, P.A.C.; 2, R. H. Wallman, S.P.S.C.; 3, H. M. Muirhead, S.P.S.C. Rounsevell ran a fine race and won in the fast time of 20 1-3th secs.

100 Yards Flat—1, C. R. Doudy, P.A.C.; 2, W. B. Angwin, P.A.C.; 3, R. Rounsevell, P.A.C. As last year Doudy was too good in this race for his opponents, and our representatives also gained second and third places. Time, 10 4-5th secs.

440 Yards Flat—1, C. Yeatman, S.P.S.C.; W. H. Stevenson, S.P.S.C.; 3, W. B. Angwin, P.A.C. Yeatman and Stevenson ran well, but just failed to equal Goode's time for the same distance. Time, 54 4-5th secs.

#### Old Collegians' Association.

The Annual Meeting was held at Bricknell's Cafe on September 15th, when the President (Mr. P. E. Johnstone) presided over an attendance of

about 50 members. The Annual Report presented many encouraging features, chief among which was the addition of 136 new names to the members' roll, which now has reached a total of 540. May this rate of increase be maintained! The Association will then have little difficulty in soon reaching the thousand—the dream of every energetic secretary.

After due consideration it was decided that as the Head Master's report on W. A. Purvis's conduct and industry was satisfactory, he should be allowed to retain his scholarship for another year.

To the regret of all, Mr. Ashton has been compelled, owing to pressure of business, to resign the position of Secretary. He has only held office for a year, but the enthusiasm and energy that have marked his efforts have been largely responsible for the increase in members, the success of the Annual Dinner, and other features that have made this year one of decided progress in the history of the Association. Our only consolation in his resignation lies in the fact that it has brought forward Mr. Will Miller to fill his place. Mr. Miller has taken up the work with enthusiasm and tact that are inspiring his fellow-workers with confidence, and augur well for continued prosperity.

After the business had been transacted the retiring President gave way to his successor (Mr. W. R. Bayly),

and the meeting took the form of a Smoke Social, during which the items of a very entertaining programme were rendered by Messrs. Newman, Johnstone, Homburg, Lathlean, H. Dunn, Lyon, Ralph, and W. Kither.

To the older members of the Association one of the most pleasing signs of progress was the number of boys who had joined the Association immediately after leaving school. Too often in the past the Association has been "out of sight" and so "out of mind" to the average fellow after leaving school. Recently efforts have been made to remedy this by bringing the claims of the Association under the notice of boys on leaving school—last year with very gratifying results.

Attention is drawn to the last page, especially to that paragraph dealing with the arrangements for those joining the Association immediately after leaving the school.

---

### Old Boys' Successes at Adelaide University.

---

Our old boys continue to win honors at the Adelaide University, as the long list that follows shows:—

UNIVERSITY DIPLOMAS AND FELLOWSHIPS OF SCHOOL OF MINES.

L. M. W. Judell, B.Sc.

W. L. Cleland, B.Sc.

DEGREES.

M.D.—H. H. E. Russell.

M.B. and Ch.B.—

W. M. Hunn (First Class), Everard Scholarship.

Dean Dawson.

R. D. Brummitt.

LL.B.—C. P. Latty.

M.A.—R. A. West, B.A.

B.A.—Honors Degree in Mathematics—L. J. Darwin (First Class).

B.Sc.—Honors Degree in Physiology—K. H. Fry (First Class).

B.A.—Ordinary Degree—G. F. Dodwell.

B.Sc.—Ordinary Degree—

N. S. Giles.

E. W. Holden.

R. Trudinger.

That is, thirteen degrees fall to them this year as last. Dr. Russell is the first to take the Adelaide M.D. by examination. W. M. Hunn has closed a brilliant University and hospital course by winning a First Class and the highest place in it. Dawson and Fry have First Class Honors, the one in Mathematics and the other in Physiology.

INTERMEDIATE EXAMINATIONS.

M.B. and Ch.B.—

4th year—L. W. Pellew (First Class); R. G. Plummer.

3rd year—R. J. Verco (First Class), Dr. Davies Thomas Scholarship; S. G. L. Catchlove; N. C. Shierlaw.

2nd year—J. L. Jona (First Class), Elder Prize; D. R. W. Cowan, R. A. Goode, W. A. V. Drew, M. Erichsen; (March)—L. Jeffries.

1st year—T. G. Fleming, D. M. Steele.

LL.B.—

C. P. Latty—Evidence and Procedure (First Class), Jurisprudence, International Law, Roman Law.

C. W. H. Lake—Property (Part I.), Evidence and Procedure.

C. R. Doudy—Property (Part II.), Economics, Property I. (March).

L. H. Haslam—Psychology and Logic.

G. D. Cowan—Contracts, English Language, and Literature.

J. Homburg—Wrongs, Economics, Constitutional Law (March).

B.A. and B.Sc.—

W. R. Birks—Biology, Chemistry (I.), Compulsory Mathematics (First Class), Compulsory Physics (First Class).

R. Trudinger—Biology, Psysiology (Final), Physics (3rd year).

L. F. Burgess—Chemistry (I.) (First Class), Physics (2nd year), (First Class), Pure Mathematics (2nd year), (First Class), Compulsory Physics (First Class).

F. N. Bennett—Chemistry (I.) (First Class), Pure Mathematics (2nd year), Compulsory Physics (First Class).

- W. W. E. Gray—Chemistry (I.) (First Class), Compulsory Mathematics, Compulsory Physics.
- E. R. H. Darwin—Chemistry (I) (First Class), Physics (2nd year), Pure Mathematics (2nd year), Compulsory Physics (First Class).
- R. J. Dumas—Chemistry (I.), Pure Mathematics (2nd year).
- T. M. Young—Chemistry (I.)
- J. S. West—Chemistry (II.), Practical (First Class) and Theoretical, Applied Mathematics (First Class), Physics (3rd year).
- W. B. Angwin—Chemistry (II.), Practical (First Class), and Theoretical (First Class), Applied Mathematics.
- W. H. Lang — Chemistry (II.) (Practical and Theoretical), Applied Mathematics, Physics (2nd year), Pure Mathematics (2nd year).
- Frank Ellis—Chemistry (II.), Practical (First Class) and Theoretical (First Class), Applied Mathematics, Physics (3rd year).
- E. W. Holden—Applied Mechanics (First Class), Pure Mathematics (2nd year) (First Class).
- H. C. Bowen—Applied Mechanics, (3rd year).
- R. W. Tassie—Applied Mathematics (First Class), Physics (3rd year) (First Class).
- S. L. Corry—Applied Mathematics.
- A. R. Wight—Applied Mathematics, Railway Engineering and Transmission of Power, Physics (2nd year), Hydraulics.

### The Oval Match.

---

The annual cricket match between the teams of St. Peter's and Prince Alfred Colleges commenced on December 9th, 1905. His Excellency the Governor, with his wonted interest in the Colleges, watched the proceedings throughout the greater part of the afternoon. The weather, though not

pleasant for the spectators, was all that could be desired for the game. A gay procession from the College (though it was a Saturday), a cab with the heroes in (in charge of the shield), a big drag, many cabs, red and white flags flying, trumpets blaring. The supporters of both Colleges flocked to the Adelaide Oval to witness the match, in which they expected to see some tall scoring owing to the presence of most of last year's heroes in the teams. The stands presented an animated appearance, and the applause of the barrackers for any good play was a "universal hubbub wild of stunning sounds," without which the match would not be a College Match.

### THE PLAY.

Dolling lost the toss, and had to take the field first. At 12 o'clock the Reds' team filed out into the ground, shortly followed by Pincombe and Bleechmore. Our fast bowler, Stoddart, opened to Pincombe, who scored the first run of the day with a single, and Bleechmore, with a drive for 2 and a pull for 4, played out the first over. Both batsmen settled quickly to work, and Pincombe, with two lovely late cuts and a "wristy" drive for 4 off Dolling, reached 20. Bleechmore, after getting Stoddart away to leg for 4, in cutting a rising ball from Stoddart, was smartly caught by Steele at cover-point.

1—21—39.

With Dean in, Pincombe began to

hit, and got one past Rankin at point for 4, and banged Stoddart to leg for a like number, but in trying to sneak a third run for a late cut, Stoddart returned quickly, and Middleton had the bails off before Dean could reach his crease.

2—5—63.

Powell, the next man, did not stay long, for in playing a ball to Goode, he attempted a run, but a smart return to Dolling, and Middleton again proved equal to the occasion.

3—0—63.

Things were looking bad for the Saints when Duncan, the captain, came in. He opened quietly, but Pincombe, nothing daunted, banged away at the bowling, and with a couple of fours brought the Saints' score to 80, of which he had made 46.

At this stage a change of bowling was effected, two debutants, Seppelt and Steele, coming on *vice* Stoddart and Dolling. Pincombe hit Seppelt's first ball to leg for 2, and the third in the same direction to the boundary. Seppelt sent down the first maiden of the day to Pincombe, and the scoring became very slow owing to Duncan's stone-walling tactics.

Another change of bowling was made, Dolling taking the leather *vice* Steele, and with his first ball knocked out Duncan's middle stump.

4—12—115.

Robertson, the next man, in playing

back to Dolling, potted one to Rankin, who was standing close in, and the chance was accepted.

5—0—115.

L. B. Dean, the next man, opened his account with a drive for 2, but he made a couple of risky strokes before he had increased his tally. Pincombe, after a long silence, livened up the play with two boundary hits to leg off Stoddart and a snick through slips for 4 off Dolling.

At luncheon adjournment the scores were—

Pincombe 85, Dean 5.

On resuming, Dolling and Stoddart were in charge of the bowling. Runs came freely, both men hitting out, especially Pincombe, who was nearing his century, which he reached, amid vociferous cheering, with a four to leg and a couple of singles off Dolling. The fast rate of scoring could not last, for Dean, in hitting out at Dolling, was caught by Goode at mid-off.

6—10—156.

Penny, the eighth man in, after surviving an over from Stoddart, made a fatal mistake in playing back to Dolling, and Rankin took a good one-handed catch at point.

7—0—159.

McKail, the ninth man, broke the ice with a single off Dolling. Runs came chiefly by singles. A change was thought advisable, and Steele relieved Stoddart. McKail, in hitting at a half-

pitcher sent down by Dolling, was bowled.

8—5—175.

Murray, the 10th man, was bowled first ball by a yorker from Dolling.

9—0—175.

Hutchins, the last man in, did not get a chance to distinguish himself, as Pincombe was caught by Dolling at fine slip off Steele.

10—117—175.

Pincombe was very unfortunate in missing the distinction of carrying his bat right through the innings. He batted splendidly for a little over two hours, and hit 17 fours.

The best bowling average was secured by Dolling, who obtained 6 wickets for 69.

At about 10 minutes past 3 the Princes began their first innings, Dolling accompanying Middleton to the wickets. Hutchins and Pincombe opened the attack. Middleton began somewhat shakily, and made the first runs for the side with an uppish cut for 4. Dolling settled down quickly, being especially severe on Hutchins, off whose first over he scored 13. He slashed away at the bowling till he reached 30, while Middleton was making 7. A double change was made, Robertson and Powell relieving Pincombe and Hutchins. Middleton obtained 5 for an overthrow, and Dolling, with two successive fours off Powell, reached his 60.

A few minutes later Middleton, in

attempting to hit one of Robertson's curly ones, was clean bowled.

1—18—77.

On resuming after afternoon tea, Drew accompanied Dolling to the wickets, but to the surprise of everyone, he was bowled first ball by Robertson.

2—0—77.

Wilton saw Dolling pull a ball from Powell to the boundary, but in attempting to make the same stroke, failed, and was bowled by a ball that broke from the off and took the leg stump.

3—0—82.

Stoddart came in at a most critical juncture. He played a maiden to Robertson, but in the next over he hooked one to leg for 4 and drove Robertson down the ground for a similar number. The play livened up, and the spectators saw something like the scoring of Dolling and Townsend in last year's match.

Pincombe now relieved Robertson, who had been bowling well. Dolling glanced one from Pincombe to the pickets, and Stoddart repeated the stroke in the same over. The batsmen had evidently mastered the bowling, for they were reaching the boundary almost every time.

Robertson came on again instead of Pincombe; the first two balls resulted in 4 each by Stoddart, the latter stroke being a chance to Powell, who was standing near the boundary at square-

leg, but the chance was missed. A single by Dolling brought up 150.

Stoddart gave another chance, to Duncan, but was again missed. At this stage Dolling was 88, and three successive fours brought up his century. The pace did not slacken in the least, for Stoddart, with another 4, brought his score to 50, and the total to 175, thus reaching the Saints' first inning's score. Dolling, however, in attempting to cut one from Hutchins, was caught by Les. Dean at cover-point.

4—106—185.

Dolling had played splendid cricket for his 106, in compiling which he hit 17 fours, and did not give a chance.

Rankin joined Stoddart, and opened with a snick for 1. Bleechmore came on *vice* Robertson. Stoddart drove him down the field, but the ball was well fielded by Murray, who had been conspicuous all the afternoon.

Rankin was shaping confidently, and was getting in some pretty strokes, including three to the boundary. Stoddart gave a second chance to Powell at square-leg, but the chance was again missed.

From this time till stumps were drawn the batsmen had the best of it, but the light was somewhat deceptive. Play ended with the total 4 for 251.

Stoddart, 74 not out.

Rankin, 32 not out.

#### SECOND DAY'S PLAY.

The game was resumed on Monday at noon in glorious weather. Stoddart (70) and Rankin (32), the not-out batsmen of Saturday, going to the wickets. Hutchins and Robertson were entrusted with the bowling. Stoddart freely punished the former's loose balls. At 276 Powell relieved Hutchins, but the separation was effected by Robertson at the other end, Stoddart being the victim, finely caught in the slips by Pincombe. Stoddart batted well for his 96, although his innings was marred by a tendency to uppish strokes. His 96 was compiled at a time when it was badly needed, and he is to be congratulated on putting an end to the rot which had set in.

5—96—289.

Rankin was '44. Willsmore, who is new to Oval cricket, now joined Rankin, and the partnership saw the third century completed, the innings having lasted 3 hours 18 minutes. At this stage Pincombe relieved Robertson with effect, for Rankin was soon caught at point with the score at 316. The outgoing batsman had compiled 61 by splendid cricket, without giving a chance. Goode now joined Willsmore, and Robertson was given another chance with the ball, and soon effected a separation, Willsmore being stumped by McKail after a nicely-made 15.

7—15—325.

Steele followed, only to see his

partner leave the wickets, Goode being bowled by Pincombe after making 4.

8—4—325.

Osborn, the first emergency, who had taken Angwin's place, was next. A single was added by Steele, and Osborn was then bowled by a full toss from Robertson.

9—0—328.

Seppelt was the last man in, and was immediately dismissed by Robertson.

10—0—326.

Steele remained not out 1, leaving St. Peter's 152 to make to avoid an innings defeat.

St. Peter's now started on their second venture, Pincombe and Bleechmore being the batsmen. The former took strike to Stoddart. Pincombe seemed to have a liking for Stoddart, scoring 11 off the first over, but when he was 10 he gave a chance to Middleton behind the wickets off Stoddart, which the wicketkeeper failed to hold. In less than ten minutes 25 were put up, Pincombe being 19, most of his runs coming from boundary hits. Dolling at the other end was keeping a good length and mixing his bowling well, thus compelling the batsmen to treat him with respect. With the score at 48 Steele relieved Stoddart, and now runs did not come so freely. Dolling had Pincombe in difficulties several times, and at last reaped his reward, the batsman being well caught by Middleton behind the stumps.

11—51—95.

Dolling, who had been bowling since the commencement of the innings, had had only 31 runs scored off him. G. L. Dean joined Bleechmore, who sent up the century with a square-leg hit to the boundary. At 101 Bleechmore skied a ball from Steele, and was easily caught by Middleton. 2—44—101. Powell was the next man in. At 120 Dolling was replaced by Seppelt, who came in for severe treatment at the hands of the batsmen.

Our men's fielding and wild throwing-in helped on the score. Dolling now thought it advisable to take the ball again vice Seppelt, and Dean gave an easy chance off him to Osborn at silly-leg, which the fieldsman failed to accept, but off the next ball Powell was smartly stumped by Middleton after making 23 by very sound cricket. 3—23—152.

At the fall of the third wicket Saints had reached our score. Captain Duncan now went to the wickets only to see Dean bowled off his pads by Stoddart. 4—26—158

Afternoon tea was now partaken of, and soon after the resumption of play Dolling bowled Robertson, who had only a short life at the wickets. 5—2—163.

L. B. Dean joined his captain. The latter, whose batting was fluky, was soon out in playing forward to Dolling. 6—5—172.

Dolling's average now read 4 for 54. Penny was next, and after compiling 5 was bowled by Dolling 7—5—182.

McKail, the next man in, fell a victim to Steele at 195, after he had made 3. 8—3—195.

Murray took McKail's place at the wicket. Dean's steady play was now broken by a chance, which Goode held in the deep field, Dolling again being the bowler. 9—18—199.

Hutchins was last man in, and a single by Murray completed Saints' second century, which had taken 2 hrs. 35 mins. to compile. Shortly afterwards Hutchins was smartly caught and bowled by Dolling, the innings closing for 204.

Murray was not out (1) and we thus required 54 runs to win.

At 25 minutes past 5 Drew and Dolling set out to wipe off the runs necessary for victory, but the former after making 11 by careful play was bowled by Robertson 1—11—21.

Wilton filled the vacancy, and made some fine boundary hits. With the score at 40 Pincombe was given a chance with the ball, but could not succeed in effecting a separation. A few minutes after six Wilton made the winning hit, and we were left victors with nine wickets to spare.

The feature of the match was the way in which each team seemed compelled to rely almost entirely on the services of one or two men, this being particularly noticeable in the first innings of each side. Pincombe's well-made 117 was of the utmost service to his side,

which would, without it, have been compelled to see credited to them a score on a par with that of 1904. Bleechmore, who is usually to be feared, had to succumb to a piece of bad luck, and did not render his usual aid to the side.

Saints' second score was more evenly distributed, each of the first four men reaching double figures. Nevertheless the larger number failed to add materially to the total, though L. B. Dean made 18.

On our side the batting was of a somewhat similar character, though perhaps not so markedly. Our brilliant captain safely completed his century, but Stoddart was unfortunate in missing his by four runs. Rankin was "all there," both at the wickets and in the field, and his 61 was made by fine cricket. Middleton (18) and Willsmore (15) were the only others to reach double figures in the first innings, though Drew (11) and Wilton (16 not out) partly redeemed their reputation in the second. The team was unfortunate in being without the services of Angwin, who had been shaping well on the turf.

As regards the bowling, Saints' most successful man was undoubtedly Robertson (7 for 123). Hutchins was not particularly successful, and he was lucky in having Dolling's wicket to his credit. Pincombe (2 for 65) also hardly came up to the standard.

The attack of P.A.C. was practically begun, continued, and ended by Dolling (13 for 142), who was of inestimable

value to his side. Stoddart and Steele were also fairly successful.

In the fielding department Saints were all at sea on Saturday, and so gave us many runs, while on Monday some of our fellows seemed to be trying to follow their example, and several bad pieces of work were witnessed.

Special mention must be made of Middleton's work behind the sticks, and of Rankin's and Goode's excellence in the field. Rankin was undoubtedly the smartest man here, his work at point being clean and sure.

The result of the match, however, was the important matter, and our victory was hailed with delight by all Reds—past and present.

Bateman...	6	1	10	19	3.8
Makin ...	3	0	5	7	2.3
Shorney ...	3	0	1	1	.3

### BOWLING.

Torode—19 wickets.

Holder—15 wickets.

### Critique of the First Eleven.

Angwin, H.—Fair bat, with a good solid defence. Has made great improvement. Somewhat slow in the field.

Drew, C. F.—Splendid bat, good defence, strokes all around the wicket. Has a particularly nice off-drive. Fine field at cover.

Goode, G. P.—As a bat has not come up to expectations. Weak on slow bowling, due no doubt to his stiff attitude. A splendid deep field.

Middleton, R. F.—Good bat, plays well on the off and has a good drive; very poor on slow leg-break bowling. Has kept wickets splendidly all through the year, and must be congratulated upon his success in that department.

Osborn, F.—Has made little improvement. His defence is weak, but has a good punishing off stroke. Slow in the field.

Rankin, H.—Has been very consistent all the year. Has made runs in great style, good cut, and has a sure pull. Fields at point, and is the most brilliant field in the team. Has worked hard through the whole season. Fair change bowler.

Seppelt, N. E.—As a bat has a style of his own; has a nice leg stroke. Has been a good change bowler, should learn to keep them up. Has fielded well at mid-wicket.

Steele, K.—Fair bat, has a good drive. Has bowled all the year, keeping a good length, and has a little break from the off. Has fielded well at slip, but is rather slow in the deep field.

Stoddart, H. W. D.—Has made great strides as a bat, plays very hard, inclined to lift too much. Has bowled very consistently. Good solid field.

Willsmore, H.—Good bat, has a strong defence, plays on the leg nicely. Has been a very sure slip, and has well deserved his place.

Wilton, A. C.—Good bat, plays well all around the wicket, rather inclined to take too many risks; should not try to pull too much. Fair change bowler. A good field.

Dolling, C. E. (Captain)—One of the finest bats we have ever had—driving forcible and well timed—places the ball admirably; could make more use of the cut with advantage. Safe field and catch. Bowls a good slow curly ball, and uses his head well. As a captain is invaluable.

 Intercollegiate Bowling.
 

---

The following bowlers have taken more than half the wickets in an innings in the matches P.A.C. v. S.P.S.C. :—

- 1887—Peterson, A. C. (P.A.C.)—7.  
 1888—Jackson, A. E. (P.A.C.)—6.  
 1889 { Blackburn (S.P.S.C.)—6.  
       Blackburn (S.P.S.C.)—6.  
 1894—Padman, E. C. (P.A.C.)—6.  
 1895—Heseltine (S.P.S.C.)—7.

- 1896—Bright (S.P.S.C.)—6.
- 1896—Muecke (P.A.C.)—7.
- 1898—Thomas, G. K. (S.P.S.C.)—6.
- 1903—Townsend, R. B. (P.A.C.)—6.
- 1904—Pflaum (P.A.C.)—6.
- 1905—Robertson (S.P.S.C.)—6.
- 1905 { Dolling (P.A.C.)—6 in 1st inns.  
Dolling (P.A.C.)—7 in 2nd inns.

---

**Intercollegiate Century List.**

---

Century lists in contests between P.A.C. and S.P.S.C. :—

- 1884—Hayward, C. (S.P.S.C.)—126.
- 1885—Darling, J. (P.A.C.)—252.
- 1885—Fry, A. S. J. (P.A.C.)—125.
- 1886—Lander (S.P.S.C.)—115.
- 1893—Hill, C. (P.A.C.)—360 retired.
- 1893—Homburg, R. (P.A.C.)—100.
- 1896—Verco (P.A.C.)—108.
- 1898—Hayward (S.P.S.C.)—112.
- 1900—Lewis, E. (S.P.S.C.)—107.
- 1904—Dolling, C. E. (P.A.C.)—311.
- 1904—Townsend (P.A.C.)—171.
- 1905—Dolling, C. E. (P.A.C.)—106.
- 1905—Pincombe (S.P.S.C.)—117.

---

**S.A. Amateur Athletic Association.**

---

This Association with which we are now affiliated, has decided to hold a Sports Meeting early next April. Much

will depend on the first meeting, and we should like to see some of our Athletes taking part and helping to make it a success. Among the events will be 100 yards, 120 Hurdles, 220 yards, High Jump, Long Jump, Putting the Weight, Teams Flat Race, 440 yards (Handicap), Mile (Handicap), 300 yards Steeplechase (Handicap), 130 yards (Handicap), and a Maiden Event. Detailed information will be obtainable when we return to school after the holidays.

---

**Form Matches.**

---

The following table shows how the various forms scored, counting 3 for a first, 2 for a second, and 1 for a third place :—

	First.	Second.	Third.	Total.
Lower VI. ...	4	7	2	28
Upper IV. ...	3	4	3	20
Upper VI. ...	3	1	4	15
Upper II. ...	4	1	1	15
Upper III. ...	3	1	2	13
Lower V. ...	2	1	3	11
Upper V. ...	2	1	1	9
Lower II. ...	0	1	1	3
Middle IV. ...	0	0	2	2
Lower IV. ...	0	1	0	2
Lower III. ...	0	0	0	0

# Prince Alfred Old Collegians' Association

ESTABLISHED 1878.

## OFFICERS, 1905-1906.

Patron—The Head Master.

President—W. R. Bayly, Esq.

Vice-Presidents—A. S. Lewis, Esq.,  
Dr. F. J. Chapple, P. E. Johnstone, Esq.

Hon. Treasurer—A. G. Collison, Esq.

Hon. Asst. Sec.—D. M. Steele, Esq.

Representatives on College Committee  
—Messrs. J. W. Grasby and E. H. Newman.

Hon. Auditors—Messrs. R. G. Neill  
and C. W. Chinner.

Committee—Messrs. H. R. Adamson,  
S. W. Bailey, W. Lathlean, C. E. Bennett,  
F. J. Searle, A. Rowley,  
and E. J. W. Ashton.

Hon. Secretary—W. Miller, Esq.

The objects of the Association are:—  
To keep Old Boys, wherever they may be, in touch with one another and with the boys at the school; also to foster and maintain their interest in the School.

*The P.A.C. Chronicle*, of which a large part is devoted to matters of special interest to Old Boys, is forwarded to each member of the Association.

A dinner is held annually, at a time which is thought likely to give as many

Old Boys as possible an opportunity of meeting one another; and social gatherings are held whenever any occasion arises that makes them desirable.

The Association gives annually to the School the Old Collegians' Scholarship, of the value of fifteen guineas, and donates five guineas per annum to the Sports' Fund. A Scholarship has also been founded, according to the terms of which the members of the Association have the right of nominating annually the son of one of their number for one year's free education at the School.

The subscription is five shillings per annum, or a life payment of three guineas. To encourage boys on leaving school to join the Association at once, they are admitted as members for the first year without payment of any subscriptions. Any Old Boy wishing to become a member can do so by forwarding his name and address to the Head Master, or to any member of the staff, or to the Hon. Secretary.

W. MILLER, Esq.,  
care of A.M.P. Society,  
King William St., Adelaide.
