

# Prince Alfred College Chronicle

UBI NON EST SCIENTIA ANIMÆ NON EST BONUM.

VOL. IV.—No. 88.

ADELAIDE, MAY 27, 1907.

[PRICE SIXPENCE.]

## School Notes.

The most alarming note for this issue comes from seeing people at various times in our back playground stepping and measuring and gesticulating, plainly trying to understand the lately-revived proposal of the "straight route" from the Parade, Norwood, to Rundle Street, Adelaide. Worse still, on another day Mr. Moncrieff, the Chairman of the Tramways Trust, and Mr. Mr. Holden, the Mayor of Norwood, the "arch conspirator," were seen walking about with the Head Master and various members of the College Committee, evidently talking on the same matter. We hope nothing will come of it, for as the Head Master's letter to the papers said, the damage done to us by such a road would be irreparable. It was never meant by Parliament, we are sure, that we should be injured by the trams—science room, new lavatories, and stables knocked down, the back playground cut up and made almost useless. We are glad to hear that the Board of Governors will stoutly oppose the invasion, and all the school, past and present, and all our friends, will back up the resistance.

We have little enough room now, and cannot get any more. The only thing left, if they will do this, is to give us some of the parklands opposite.

It was some solatium to the above to read that Mr. George Wills, of Adelaide and London, had left to Prince Alfred College in his will the sum of £500. Men who love their country continue to show that we have done the state some service, and are worth helping and developing.

The junior playground is putting on its mantle of green. There should be some good games of football there this season, and two asphalt pitches are promised, so that we can have four matches on our own grounds every Saturday and plenty of practice during the week.

The "record" number of boarders has been in the house this term—84 in all. But as two left at Easter and two came then, the number present at the same time was 82. Playgrounds, "prep." rooms, all sorts of games and societies, and above all "dining room," full of busy life and fun.

There are nearly 50 sons of "old boys" on the roll of the present term. This is a most gratifying and encouraging circumstance.

---

The singing at "assembly" is kept in good time and made very inspiring by, in addition to Mr. J. A. Haslam so skilful at the organ, Goss with the flute and Puddy, Randell, T. Hoggarth, and Newbold with violins. Sunday evening prayers similarly brightened.

---

The Head Master while in Melbourne interviewed several likely candidates for the vacant mastership. He finally selected Mr. Ernest Anthoney, late a master at All Saints' College, Bathurst. What specially recommended Mr. Anthoney was his acquaintance, in addition to the usual subjects, with Short-hand, Typewriting, &c. The Business Classes had increased so much under Mr. Haslam's skilful and diligent instruction as to render further help in them imperative. The choice was opportune, for the Business Classes are far larger than ever before. Mr. Anthoney has thrown himself heartily into all departments of our life, not only the classrooms, but the cricket, tennis, cadets, &c., and so is heartily welcomed by the school.

---

The football team from Geelong College is thinking of paying a visit to South Australia with the purpose *inter*

*alia* of playing us. Geelong College is not in theory one of the "public schools" of Victoria, but is admittedly equal to them in spirit and in almost all respects (except the important one of being privately owned), and we shall give Mr. Morrison and his men a hearty welcome, all the more sincere because Mr. Hartley Harry, of ours, is sportsmaster.

---

When it was known that it had been decided to put down a turf wicket at the College (indeed that old boys had promised to meet the cost of this), we received an invitation to join the B Grade Association. The committee at first thought it unwise to join, thinking that our team could be supplied with just as good cricket by clubs that we had met in friendly contest for years. Most of these teams, however, play their Saturday matches on asphalt. Some old boys, leading cricketers, were interviewed, and they strongly advised us to join. Although there are disadvantages in the change, it has at length been decided that our first eleven shall join the B Grade next season, and it is hoped that the team will greatly benefit by this step. Arrangements will be made so that we shall meet St. Peter's as usual, and only once throughout the season, and the enthusiasm with which this annual match is surrounded will not be diminished. The Cricket Association

will have nothing to do with this inter-collegiate contest. We hope that our pitch will be in good order early, so that our team may get a good start with the new season and improve in this noblest of British games.

---

We were well represented in the S.A. Tennis Tournament. Roy Taylor was the "runner-up" for the Singles Championship (only put out by the redoubtable Parker, of N.Z. and Sydney), and Taylor and Bowen won the Doubles Championship. Ronald Thomson with his father won the Men's Doubles Handicap, and Wilfred Graves carried off the Junior Singles Handicap.

---

We are sorry that in the Senior Pass List published in our last issue we omitted the names of H. Rankin (who passed in English, History, Latin, Arithmetic and Algebra, and Geometry) and D. A. Roberts (who passed in English, History, Latin, Arithmetic and Algebra, Geometry, Physics, and Chemistry).

---

F. A. Potts, of our Fifth Form, competed for an entrance scholarship at the School of Mines, and was placed first in the examination.

---

H. C. Day, of our Fifth Form, has passed the Civil Service Examination.

The Rev. E. S. Chase, of the Church Missionary Association, paid us a visit one morning in April and gave an interesting address to the "assembly" on his work amongst the blacks in Queensland, and urged the needs and the claims of the missions to the aborigines, especially of the new mission in the Northern Territory.

---

### Cadet Corps.

---

The Corps was re-organised at the beginning of the term. As there were vacancies caused by so many having left school, these were filled either by promoting boys from other companies or by enrolling new members. Many boys enrolled this term but not quite enough to make up for our losses, so that the Corps is somewhat below the strength with which we closed last year. Under these circumstances it was decided to work the Corps as two strong companies rather than as three weak ones. The wisdom of this decision has been amply shown in the rapid improvement in our drill. The larger sections enable those in the ranks to work much better, while better opportunities are given to the sergeants for learning their work and carrying it out in a satisfactory manner. It is hoped however that more fellows will join so that we may be able to realise our hopes when the Corps was established

last year, that P.A.C. would be able to maintain an establishment of three full companies.

The following changes among officers and non-commissioned officers have been made. Mr. Blacket has taken Mr. Newman's place in charge of E Company, while Messrs. Anthony and Carne have applied for Commissions in the Corps. W. W. Cooper has also been promoted to the command of a half company and been recommended for a commission. Sergeant L. G. Tassie has been made Colour Sergeant to B Company, and Sergeant L. L. Davey transferred from G to B Company, while S. E. Holder has been promoted from the ranks to be a sergeant in B Company. W. P. Hoggarth, F. S. Jeffery, G. S. Reed, and B. W. Wibberley were promoted from the ranks to sergeants, Hoggarth being appointed colour-sergeant.

We have been inspected by various officers during the term. Firstly by Colonel Lee, the commandant of the South Australian Forces. He unfortunately came before the arranging of the corps was complete. Owing to this he was unable to inspect our drill, but could only see that there was promise of a satisfactory corps in the future. He, while speaking to us, said that he was pleased to be able to come and inspect us. He congratulated Lieut. Bayly on the large number who had joined so early in the year. He said

that later in life we should all be thankful that we had been when young taught obedience and instructed how to carry ourselves well. He was sure no one would regret that he had been a cadet when at school. He hoped to hear later in the year that no one could turn out smarter companies than could Prince Alfred College. To accomplish this the work of each cadet must be done to the best of his capabilities.

A few weeks later the First Battalion was ordered to assemble on the Parade Ground for inspection by Major-General Hoad, the Federal Inspector of Forces. The day was most oppressively hot, so Major-General Hoad, as soon as he arrived, allowed all who wished to do so to undo their coats, vests, and collars. He ordered two of the companies to be put in motion at once, and ordered the remaining companies to lie down in the shade. This kindly consideration was much appreciated by the boys. When all had been drilled in turn the whole battalion was assembled in the drillshed. Major-General Hoad then addressed us in a vigorous speech. He said he was very pleased with the muster and the drill. He hoped that the cyclists in the battalion would soon be organised into a cycling squad to act as the scouts or eyes of the rest. He regretted that the day was so hot, as had the day been cooler he would have shown us some of the cycling drill. At the close of the speech the cadets ap-

plauded heartily. Major-General Hoad then said that to clap an officer's remarks was contrary to all military regulations. However, he knew the spirit in which it was done, and so would overlook the matter. At this some of us felt like clapping again, but we thought it better to restrain ourselves.

A few weeks back we were inspected by Major Neale, the officer commanding cadets. He in a short speech, after the inspection, said that he was pleased to see so fine a lot of youths obeying their officers and drilling so well. He also remarked that the uniforms and rifles would soon be ready, and he hoped that it would not be long before we should have a miniature rifle range somewhere on the grounds where we might learn to shoot.

It will be thus seen that the work this term has been neither wearisome nor monotonous. Good steady work has been done, and very rapid improvement has been made in the drill, for which all are to be commended. Very early next term we are expecting to receive our uniforms and rifles, when much greater variety will be introduced into the work on parade, and we hope to commence shooting not much later.

We would like to remind all who may be in doubt as to whether to join or not, of the manifest advantages arising from this course of training. We still have room for a few recruits,

but the sooner they come in the better, both for themselves and for the corps.

Finally, we must acknowledge the benefit we have received from the frequent visits of Garrison Sergeant-Major Trask and of Sergeant-Major Shaw. They have impressed the drill on us, and have assisted greatly in improving the standard of our work,

Mr. A. E. Nash, Adelaide manager of Messrs. Walker & Hall's firm, has offered a valuable shield as a trophy for rifle shooting amongst the cadet companies. We must learn the conditions and fire away.

---

## Officers of the School for 1907.

---

### DUX OF THE SCHOOL.

A. C. Brown.

### HEAD BOARDER AND LIBRARIAN.

F. S. Jeffery.

### SPORTS.

General Sports Committee—Messrs. F. I. Grey (Sportsmaster), J. E. Langley, J. R. Robertson, and J. W. Blacket; K. N. Steele, H. B. Willsmore, F. E. Osborn, R. C. Thomson, W. P. Hoggarth, F. T. Axford.

### CRICKET.

Captain—H. B. Willsmore.

Vice-Captain—K. N. Steele.

Sub-Committee—Mr. F. I. Grey, H. B. Willsmore, K. N. Steele, F. E. Osborn.

## TENNIS.

Captain—R. C. Thomson.  
 Sub-Committee—Mr. J. W. Blacket,  
 R. C. Thomson, F. E. Osborn, W. P.  
 Hoggarth.

## FOOTBALL.

Captain—H. B. Willsmore.  
 Vice-Captain—K. N. Steele.  
 Sub-Committee—Mr. F. I. Grey, H.  
 B. Willsmore, K. N. Steele, F. E.  
 Osborn.

## CHRISTIAN UNION.

President—The Head Master.  
 Vice-Presidents—Miss Marian Chap-  
 ple, Mr. J. Haslam, and F. M. Moore.  
 Secretaries—A. E. Howard and T.  
 W. Hoggarth.  
 Treasurer—L. L. Davey.  
 Chairman of Working Committee—  
 L. W. Blacket.

## LITERARY AND DEBATING SOCIETY.

President—The Head Master.  
 Vice-Presidents—Messrs. J. E. Lang-  
 ley and D. A. Roberts.  
 Secretary and Treasurer—A. E.  
 Howard.

Committee—President, Vice-Presi-  
 dents, and Secretary (*ex officio*), together  
 with W. W. Cooper, F. S. Jeffrey, and  
 R. H. Morris.

## PRINCE ALFRED COLLEGE CHRONICLE.

Editor—The Head Master.  
 Manager—A. C. Brown.  
 Committee—The Editor and Manager  
 (*ex officio*) together with A. E. Howard,  
 W. W. Cooper, and L. G. Tassie.

## CADET CORPS.

Lieutenant in charge—Mr. W. R.  
 Bayly.

Lieutenants—Messrs. Blacket, An-  
 thoney, and Crase; F. E. Osborn and  
 W. W. Cooper.

Color-Serjeants—L. G. Tassie, W.  
 P. Hoggarth.

Sergeants—L. L. Davey, S. E. Hol-  
 der, F. S. Jeffery, B. W. Wibberley.

### Christian Union.

---

This branch of modern "public school" life is still continuing to prosper, and is doing good work. At the first business meeting the following officers were elected;—President, Mr. Chapple; Vice-Presidents, Miss Chapple, Mr. Haslam, and F. M. Moore; Secretary, T. W. Hoggarth; Corresponding Secretary, A. E. Howard; Treasurer, L. L. Davey; Chairman of Working Committee, L. W. Blacket.

We have had a varied and very interesting programme this term, which, together with the energy thrown into the work by the Committee, has added greatly to the roll of membership. Our heartiest thanks are due to those gentlemen who have so kindly come and addressed our meetings.

The Head Master gave the opening address of the Session. He took as his text, "Thy servant will go and fight with this Philistine." And said that many a boy's idea of a religious life was performing certain sacred duties, going to Church, reading his Bible, saying his prayers, &c. This was good if done in sincerity, and to please God. Others thought of it as 'keeping straight,' avoiding common sins, being true and honest. These were excellent things to be able to do. The steady aiming at both would prepare for a higher call. David had apparently lived a blameless youth, little noticed, but courage and fidelity had been forming within him in communion with God beneath the stars, and in the shepherd's lowly duties. These had prepared him for greater things; then came the call to them, and he nobly responded that, relying on Divine help, he would undertake them. So would there come from time to time to every true servant of the Master, who was faithful in a few things, an invitation to be "ruler over many things." May all here have grace not to shrink from obedience to the summons.

Next the Rev. W. Jeffries paid us his last visit as pastor of Kent Town Methodist Church, His address was, as usual, exceedingly helpful, and will be remembered by many. Mr. Jeffries' manifest interest in the boys has com-

manded for himself the highest respect, and although he is a little further away we hope he will continue his visits. The boys were greatly taken with Rev. M. C. Farley, and appreciated highly his bright address. Mr. Bayly pleaded for the development of the better part of our being, which rises above the limitations of life, and seems capable of never-ending expansion. The Rev. B. Wibberley, the new minister at Kent Town Church, gave us a very inspiring talk on the "Pilgrim's Progress." Some members are still doing their duty with regard to addressing meetings. G. M. Potts and L. L. Davey gave two very instructive papers on "Noah and the Ark," and A. E. Howard and B. W. Wibberley eloquently discussed "Jacob." Rev. J. F. Horsley supplied the place of Rev. J. G. Raws, and gave a very practical address on the body being the "temple of the Holy Ghost." He emphasised the fact that our bodies were not to be thoughtlessly neglected, and that to be careful of the body would not interfere with the spiritual life. It was his purpose to read a letter which he had received from George Towns, the champion athlete of the world, but time would not permit. Towns' letter runs: "I conscientiously believe that religion is a help and no hindrance to success in athletics. If I had paid no heed to my religious teaching I know for certain

that I would not hold the position I hold to-day in the sculling world. Some have laughed at my stand against Sunday training. I say it is God's law and therefore natural to have one day's rest in seven, and I always felt the better for it. I have often known fellows training who, though they train on Sunday, take a day off during the week, because they felt they needed it. Then why not rest on the day set apart for that rest? Self-control is one of the first things to be possessed in taking part in any contest. I would like to warn all young fellows against taking strong drink. It is in nearly every case the beginning of failure in any calling where the best of strength and endurance is required."

Mr. Valentine Soul, of the Young People's Scripture Union, gave a very interesting and instructive address, and greatly stirred up the enthusiasm of the boys in the direction of systematic Bible-reading.

Rev. Charles Martin, President of the Conference, addressed the last meeting. He spoke on the influence of thought and action on life, and all were greatly impressed.

We cannot conclude without expressing our most heartfelt thanks to Miss Chapple and Mr. Haslam for their strenuous efforts in the interests of the Union, and also to the members who play in the orchestra, which has greatly helped to make our meetings a success.

Hoping that the Society may grow more and more, and that it may be a mighty influence for good amongst the youth of this College, thanking the Father of all Mercies for His blessing, and being assured of His help for the future, let us press on towards the mark, and "never stand still till the Master appear."

### Swimming.

Our swimming sports were held in the O.B.I. Swimming Baths on Tuesday afternoon, March 28. Most of the races were very keenly contested, but we should be better pleased to see more boys entering and competing in some of the events. We congratulate Entwistle and R. G. Wilton on winning the Senior and Junior Championship respectively. The performances of Crase and Rayner are also worthy of mention.

The Judges were F. Chapple, Esq., Kirkham Evans, Esq., and F. I. Grey, Esq.; Starter, J. E. Langley, Esq.; Committee, J. R. Robertson, Esq., K. Steele, W. P. Hoggarth, F. E. Osborn.

The following events were successfully decided:—

1. Senior Championship.—Won by J. Entwistle.
2. Junior Championship.—Won by R. G. Wilton.

3. Neat Dive.—1 L. Rayner, 2 T. N. Crase.

4. Plate Diving.—1 C. R. Roach, 2 F. Hubbe.

5. Obstacle Race.—First Heat—1 R. K. Wood, 2 C. Willcox. Second Heat—1 W. Randell, 2 C. R. Roach. Third Heat—1 T. N. Crase, 2 L. Darling. Final—1 Randell, 2 Darling, 3 Wood.

6. Open Handicap.—Three lengths. First Heat—1 Entwistle, 2 Wilton. Second Heat—1 Webb, 2 James. Final—1 R. G. Wilton (2 secs), 2 Entwistle (scr.), 3 Webb (7 secs.).

7. Under 13 Years of Age.—1 F. Hubbe, 2 Basedow.

8. Breast Stroke.—Six lengths. First Heat—1 Willcox, 2 Matters, 3 Colton. Second Heat—1 Rayner, 2 Benson, 3 Wibberley. Final—1 L. Rayner (10 secs.), 2 S. Matters (scr.), 3 C. Willcox (8 secs.)

9. Lap Dash.—First Heat—1 Wilton, 2 Entwistle. Second Heat—1 Bills, 2 Crase, 3 Webb. Third Heat—1 Richardson, 2 Rose. Final—1 Crase (2 secs.), 2 Webb (2 secs.), 3 Entwistle (scr.)

10. Race in Clothes.—1 R. Whitfield (scr.), 2 E. Chaplin (scr.)

Mr. Chapple handed the prizes to the successful competitors at the assembly on Tuesday, April 9.

### Duxes.

---

FIRST TERM, 1907.

Upper Sixth Form—A. C. Brown (Dux of School).

Lower Sixth Form—A. E. Dawkins.

University Fifth Form—R. C. Cowell.

Business Fifth Form—W. F. Sandow.

Upper Fourth Form—L. G. Webb.

Middle Fourth Form—J. A. Matheson.

Lower Fourth Form—J. D. Holland.

Upper Third Form—A. L. Sandow.

Lower Third Form—L. Gurner.

Upper Second Form—A. S. Blackwell.

Lower Second Form—C. E. Dorsch.

First Form—C. R. Dingle.

---

### Athletic Sports.

---

At a meeting of the boys of the Upper School held during the first week of the term the Sports' Committee for 1907 was elected. The choice fell on Willsmore, Steele, Osborn, Hoggarth, Thompson, and Axford, these six, with Messrs. Langley, Robertson, Blacket, and Grey (Chairman) constituting the General Committee, and at the first meeting Steele was elected Corresponding Secretary and Osborn Boarders' Secretary.

The Committee, during the term, decided to apply for admission to the B grade cricket competition next season, when the turf wicket which was laid down on the ground towards the end

of last year will be ready for use. The practice on turf, and the matches with teams of the calibre of those in the B grade, should stimulate the interest in cricket next season, and should materially improve the play of our First Eleven. The matting wicket in the northern part of the front-ground will still be available for a second match, and we shall soon be able to use also the much improved ground at the rear of the College buildings for junior matches, both in cricket and football.

The Intercollegiate Football Match has been fixed for July 13th, and the Intercollegiate Sports will probably be held on September 28th. For both of these contests it is necessary that all boys who have any desire to represent their School should turn out early to practice so that the Committee may have a fair idea as soon as possible of the material from which to select the teams. Football practice has started well on the ground in the Park Lands opposite the College, and the three wins the team has had should further stimulate the already keen competition for places in the First Eighteen. Although the Sports meeting does not take place until the beginning of the Third Term we should like to see some training done in the latter part of the Second Term, and especially hope to find some promising juniors.

A Gymnastic Demonstration will probably be held this year near the end of the Second Term.

### Chips.

---

Tennis.

Ten rubbers to five.

Ron. Thomson champion.

Mr. Iliffe's lecture a great success.

Wanted—Talent for the Midwinter Concerts.

How much did the "brown bowlers" cost?

Good imitation of Monsieur by "Dicky."

Who told those cadets to march home?

Where are the College poets?

Not a football song? What about "Go in Princes"?

Thomson v. Robertson: 2-6, 7-5, 6-0. Good old Tommy!

Orators at Debating Society becoming quite expert.

Congratulations to tennis team.

Should losing team be photographed with shield?

Is it "good form" don't-cher know?

Where are the uniforms? I have nearly grown out of mine.

Where is that Nelson Shield on Victory oak promised by Mr. Matthews?

Wanted—A remedy for swelled heads.

Noble service rendered by the "orchestra" every Wednesday dinner time.

Does "Curly" sleep in his tennis cap?

Have we no old boys to umpire for us, or did the tennis committee forget?

Our "backs" are ready for football next term, if the Tramways Trust will leave us whole.

Murdock joyfully recognised when we played the Christian Brothers at football.

We congratulate Dick Stoddart on his speedy recovery from sprained ankle.

Now, one and all, to the football field, for the honor of your class and school!

---

### Football, 1907.

---

This season our team promises to be a very good one. There are nine of last year's players back and both emergencies. The half-back line is very solid with Osborn, Cooper, and Davey, and in the right-back division we have Holder, Entwistle, and Lord, all of whom with practice should turn out to be good men. On the right wing we have a very valuable man in Murdoch, and also on the other wing in Matters.

With such players as Willsmore, Steele, Thomson, Plumstead, and Magarey, our forward lines will be very strong.

In the ruck department we have two valuable followers in Randell and Graves, but here we could do with

more weight. Such juniors as Puddy, Darling, Mowat, and Hoggarth show promise of turning out good players. Next term when the game gets into full swing, and under the coaching of Mr. S. Reedman, the team should rapidly improve.

The team will be under the captaincy of Willsmore, who will be assisted by Steele as Vice-Captain.

April 27. P.A.C. v. Corinnas.—P.A.C., 5 goals 13 behinds; Corinnas, 3 goals 13 behinds. Goal-kickers—Willcox (3), Puddy, and Thomson. Wilson, Osborn, Bland, Magarey, and Steele played best for P.A.C.

May 4. P.A.C. v. Kenilworth.—P.A.C., 15 goals 12 behinds; Kenilworth, 6 goals 12 behinds. Goal-kickers—Thomson (5), Magarey (4), Plumstead (4), Willsmore, and Holder. Best players for P.A.C.—Cooper, Willsmore, Plumstead, Murdoch, Randall.

May 7. P.A.C., v. C.B.C.—P.A.C., 4 goals 9 behinds; C.B.C., 3 goals 5 behinds. Goal-kickers—Willcox (2), Willsmore, and Thomson. Best players for P.A.C.—Steele, Murdoch, Willsmore, Graves, Osborn, and W. Cooper.

---

### A Geology Excursion..

On the morning of April 13 Mr. Iliffe and a band of "assistants" set out for Hallett's Cove for the purpose

of taking a series of photos from which to form lantern slides for his lecture on the Cove. We all settled down comfortably behind a pair of smart ponies, and the journey proved uneventful until the last place of habitation, a solitary building on the summit of a hill, was reached. Here a stop was made to fill the "billy" and water-bags, and to securely (?) fasten them beneath the trap. From this stage onwards the "billy" and bags apparently objected to their change of quarters, for they showed a great tendency to take a rest in the roadway. This of course necessitated several short stops to replace the "stragglers." Still no one objected to this except one member for whom the exertion of jumping up and down proved too much. However, the Cove was reached in good time, and an adjournment was made for "tucker." As to that roast duck, let us only say: "Her bones alone rest there!" Having satisfied our appetites we began to visit the examples of interesting geological phenomena in the neighborhood. Tate's ice-scratched rock was the subject of much attention, while the miocene fossil bed to the north of the Cove, and the numerous erratics on the beach, awakened much interest, though we were disappointed to find the most famous erratic covered by the tide.

A pleasant and instructive couple of hours were then spent in visiting the "amphitheatre" with its beds of glacial

till, and the valley of the Field River, in the latter spot of which there is a very good example of an overflow. Several photos of the Cove itself were next taken, and on returning to "camp" preparations were made for the return journey. This, owing to the worn-out state of man and beast, was, to say the least, unexciting.

On arrival in town the ponies were driven to the stables, and one more was added to the long list of enjoyable outings arranged by Mr. Iliffe.

L. G. T.

### Cricket for the Latter Half of the Season of 1906-7.

#### FIRST ELEVEN AVERAGES.

##### BATTING.

Batsman.	Inns.	Not Out.	Highest Score.	Runs.	Avg.
Steele, D. M.	6	2	53	185	46.25
Willsmore	5	2	79*	125	41.66
Magarey ...	5	2	39	122	40.6
Osborn ...	6	1	38	174	34.8
Mowat ...	4	2	43	64	32
Rose ...	5	2	31	68	22.6
Graves ...	3	0	28	56	18.6
Pflaum ...	5	1	35	68	17
Steele, K. N.	5	1	30	49	12.25
Cooper ...	5	2	7*	21	7
Wilson ...	3	0	12	19	6.3

##### BOWLING.

Bowler.	Overs.	Mdns.	Runs.	Wkts.	Avg.
Magarey ...	25	3	88	10	8.8
Osborn ...	52	12	177	12	14.75
Willsmore	62	11	225	15	15
Steele, D. M.	54	5	222	13	17
Steele, K. N.	63	9	210	12	17.5
Graves ...	20	4	82	4	20.5

##### FIRST ELEVEN MATCHES.

P.A.C. v. Ethelton.—Princes, 198 for 6 wickets; Osborn 34, D. Steele 36, Willsmore 79 not out. Ethelton, 91 for 1 wicket; Marks 32 not out, Willoughby 53 not out.

P.A.C. v. Waverton.—Princes, 176; Pflaum 35, Magarey 39, Rose 23 not out. Waverton, 105 for 7 wickets; Schoefield 29, Tilemann 23; K. N. Steele 3 for 15, Randell 1 for 18.

P.A.C. v. Semaphore A.—Semaphore, 144 for 9 wickets; Moyes 35. Princes, 57 for 3 wickets; K. Steele 30; Magarey 1 for 6, D. Steele 2 for 19.

P.A.C. v. Linden Park.—Linden Park, 190; Collins 46, Hood 48. Princes, 84 for 4 wickets; Magarey 30, Rose 31; Willsmore 6 for 36.

P.A.C. v. Methodist Conference.—Conference, 117; Caust 37, Trengove 19. Princes, 61 for 4 wickets; D. Steele 23 not out and 5 for 27, Osborn 19 and 2 for 11.

P.A.C. v. Ramblers.—Ramblers, 170; Cole 45, Cocks 42. Princes, 102 for 4 wickets; D. Steele 25, Graves 28; Magarey 4 for 28, Osborn, 3 for 20.

P.A.C. v. Medicals.—Medicals, 186;

Dolling 98, C. Drew 31. Princes, 84 for 5 wickets, Osborn 38; Magarey 3 for 9, K. Steele 2 for 24.

P.A.C. v. Havelocks.—Havelocks, 131; Toms 27 not out. Princes, 88 for 4 wickets; D. Steele 30 not out, Pflaum 19; Osborn 3 for 16, D. Steele 3 for 27.

P.A.C. v. Stow Ramblers.—Princes, 167 for 4 wickets; D. Steele 53, Mowat 43, Osborn 28, Magarey 25 not out. Stow Ramblers, 137 for 6 wickets; Holland 35, Moyes 22; K. Steele 1 for 11, Osborn 3 for 34.

#### SECOND ELEVEN AVERAGES.

#### SECOND ELEVEN MATCHES.

P.A.C. II. v. Prince Albert—P.A.C., 51; Mowat 14, Davey 15. Prince Albert, 60; Mowatt 6 for 26.

P.A.C. II. v. Kyre College.—Princes, 78; Cooper 25, Holder 15, Wilson 19. Kyre, 58; Wilson 5 for 10, Mowat 2 for 21.

P.A.C. II. v. Sefton Park.—Princes, 146 for 6 wickets; Mowat 61 not out, Randell 46 not out, Goss 17. Sefton Park, 104 for 3 wickets; Mowat 3 for 17.

P.A.C. II. v. Methodist Conference II.—Princes, 116 for 9 wickets; Entwistle 13, Whitfield 22, Holder 29, Goss 15. Methodist Conference, 68; Lord 4 for 18, Randell 2 for 26, Mowat 2 for 5.

P.A.C. II. v. St. Giles.—Princes, 113; Cooper 30, Holder 41. St. Giles, 130; Holder 4 for 18, Nicholls 2 for 20.

P.A.C. II. v. Glenelg II.—Princes, 72 for 9 wickets; Cooper 11, Trengove 12. Glenelg, 88; Nicholls 5 for 16, Cooper 2 for 10.

P.A.C. II. v. Woodville Centrals.—Princes, 173 for 6 wickets; Rose 20, Whitfield 22, Cooper 63 not out, Reading 19 not out. Woodville Centrals, 69 for 3 wickets.

#### THIRD ELEVEN MATCHES.

P.A.C. III. v. S.P.S.C. III.—Won by Saints. Saints, 75; Virgent 3 for 8, Hammill 3 for 22, Willcox 2 for 11, Entwistle 2 for 14. Princes, 16.

P.A.C. III. v. Rose Park II.—Princes, 74; Searby 22, Lord 30 not out. Rose Park, 65; Morrison 4 for 2, Hammill 2 for 13, Lord 1 for 8, Entwistle 1 for 13, Willcox 1 for 4. Won by Princes.

P.A.C. III. v. University College.—U.C., 9 for 155; Bateman 4 for 24, Willcox 3 for 20, Reading 1 for 20, Roach 1 for 20. Princes, 55; Bateman 11, C. R. Roach 12 not out.

P.A.C. III. v. S.P.S.C. III.—Saints, 204 for 5 wickets: Bateman 3 for 37. Princes 109; Symonds 27, Willcox 25, Bateman 13, Martin 13.

P.A.C. III. v. St. Giles B.—Princes, 84; Craven 20, Goss 23, Reading 20, Nicholls 15. St. Giles, 70; Howard 2 for 16; Nicholls 4 for 15, Elkan 2 for 18, Dawkins 1 for 15.

P.A.C. III. v. Flinders Street.—Flinders Street, 38; Symonds 3 for 0, Searby 2 for 2, Elkan 3 for 20, Howard 2 for 10. Princes, 162; Elkan 50, Symonds 26, Howard 24, Craven 15.

P.A.C. III. v. Trebarthas.—Princes, 8 for 52; Howard 18, Craven 12. Trebarthas, 51.

---

### Literary Society.

---

It is pleasing to be able to state that our Literary Society has made an early start this year. But it is rather a disappointment to see so few members taking a keen part in the debates.

Every one that does benefits greatly. Pleasure, instruction, and power are obtained through them. The outlook of the mind is enlarged and broadened by the lectures and debates. Elocution and platform deportment are acquired by all those who recite or speak, and altogether great good is derived through entering heartily into the engagements on the programme.

At present there are forty-three (43) members on the roll (mostly boarders), and some are willing to work, and do the work well when they are asked.

The opening meeting for the Session was held on Friday, March 8th. The Head Master presided. The main business of the meeting was the election of officers for the ensuing year, and the revision of the Rules and By-Laws. The desire that Mr. Chapple should be President again was unanimous. Messrs. J. E. Langley and D. A. Roberts (an active member last year) were elected as Vice-Presidents.

We are glad to see that the Masters are interested in our work, and show their interest in a practical way. May we now take this opportunity to thank those of them who from time to time have helped us. A. E. Howard was unanimously chosen as Secretary and Treasurer, and the seats fell to W. W. Cooper, F. S. Jeffery, and R. H. Morris. As the evening had not completely been occupied with these elections, a few impromptu speeches, rather timidly

spoken, were given by some of the members.

The subject set down for the next meeting was "Readings from Famous Authors." A very enjoyable evening was spent with the thoughts of great men, and the criticisms upon the style, selection of the piece, &c., were spoken with clearness and confidence, and also were very much to the point. The authors chosen were, Charles Dickens, Mark Twain, William Thackeray, Sir Walter Scott, and Charles Kingsley, and the members who read the selections were, W. J. Close, T. R. Caust, W. W. Cooper, G. Reed, and T. Hoggarth.

Friday, April 5th was looked forward to with considerable interest, as the first debate for the year was to be fought out on that date. The question was, "Should joining the Cadet Corps be voluntary or compulsory for school-boys?" R. A. Haste and F. S. Jeffery took up arms for the voluntary, while R. H. Morris and S. E. Holder contended for compulsion. The struggle was not nearly so keen as was anticipated, and the compulsory side won the day by seventeen (17) votes to eleven (11).

The most popular of all the meetings was held on Friday, April 19th. Mr. J. D. Iliffe, B.Sc., had consented to give a geological lecture. He led an expedition to Hallett's Cove (reported elsewhere) to procure slides. Nearly

a hundred boys assembled in the Science Lecture-room. The Lecturer took for his subject the "Geological Formation of the rocks round Hallett's Cove." He said that the rocks of that district were formed during three different periods: (1) The oldest rocks were probably of Cambrian age, characterised by evidences of great stress to which they had been subjected. (2) Above these, and separated from them by an unconformity, a remarkable deposit laid down by ice action was described. This was shown to be younger than the Cambrian, and older than the third series. (3) The youngest rocks were in part fossiliferous, and it was pointed out that great lapses of time had occurred between the deposition of 1 and 2, and between 2 and 3.

Slides were shown of similar deposits laid down by ice in South Africa which are probably of the same age as those at Hallett's Cove.

About sixty fine lantern slides were shown including two or three photos of the Cove, some pictures of large solitary rocks, views of the glacier-scratched rocks, &c. Scattered through the slides were also pictures of some of Mr. Iliffe's willing helpers. These evoked cheers and laughter from the audience. Altogether the lecture was a great success and we feel that we must thank Mr. Iliffe again for his great kindness and for the very instructive talk he has given to the Society.

The last meeting for the term was held on Friday, May 3rd, the subject for the evening's meeting being a debate on the question: "Is a counsel justified in defending a man whom he believes to be guilty of the crime with which he is charged?" The Affirmative side of the question was well supported by W. W. Cooper and D. A. Roberts and it was the task of H. C. Hill and A. E. Howard to prove to those present that an advocate was not justified in such action. Each speaker had evidently taken great pains both in preparing his points and clothing them in suitable language. The vote taken at the close of the meeting was in favor of the Negative by 16 to 6.

## Tennis.

### MATCHES.

P.A.C. v. Medicals.—On two occasions during the term we have tried conclusions with teams from the University Medical School. The first game was arranged by R. J. Verco, and was played on our own courts, and resulted in a win for the doctors.

The second game was played on the Adelaide Oval, and was arranged by another old boy, Reg. Goode.

Results:—

P.A.C.—5 sets, 63 games.

Medicals—11 sets, 83 games.

On another occasion our old boy,

Shirley Jeffries, kindly got together a team to give us a game. This was played on the College courts.

Results:—

P.A.C.—7 sets, 74 games.

Opponents—5 sets, 68 games.

P.A.C. v. R.A.C.—On March 22nd a team from Roseworthy College, under their captain, Mr. Horrocks, paid a visit to our courts. It was a perfect day, and some splendid tennis was witnessed. Every set was well contested, and we were exceedingly fortunate in pulling off three sets on the deciding game. Of the four doubles we won three, and were also successful in five of the eight singles. At the conclusion of the match both teams were kindly entertained at tea by our Head Master.

Results:—

P.A.C.—8 sets, 80 games.

R.A.C.—4 sets, 70 games.

### ANNUAL TENNIS TOURNAMENT.

We have just brought to a close our Annual Tennis Tournament, by means of which we discovered some men, who performed so creditably in the Oval match. The number of entries was again large in all events. A very pleasing fact was that no fewer than twenty-eight entered for the Championship.

Fifty-four entered for the Handicap Doubles, and of these A. Cooper and Moore were successful in the final against Rosé and Close.

Owing to the number of entries for the Handicap Singles it was found necessary to divide the players into two classes. The final of the A Grade, after a splendid struggle, went to L. L. Davey, who won by a point from B. J. Magarey. The B Grade was won by D. Steele, who in the play-off gained a decisive victory over Randell.

R. Thomson demonstrated his right to the title of school champion by defeating Graves, the runner-up, 6-0, 6-5.

At our final assembly the Head Master distributed the prizes to the winners, who were heartily congratulated by their schoolmates.

### Intercollegiate Tennis Tournament.

The Annual Tennis Match Red v. Blue was commenced on the fine turf courts on the Adelaide Oval on Saturday, April 27th, at 11 a.m. The sky was clear, but a strong north wind in the morning spoilt many good strokes and made play uncertain. Owing to some misunderstanding as to the time of starting, spectators began to arrive from 9.45 and onwards. The teams were as follows:—

P.A.C.	S.P.S.C.
R. C. Thomson	J. S. Robertson
A. A. Cooper	H. Nott
S. E. Holder	J. Gardner
W. Graves	L. P. Sweet
B. J. Magarey	W. E. Jervis
L. L. Davey	J. H. Penny
Emergency—W. W. Cooper.	

Soon after 11 o'clock loud cheers greeted the presence of Graves, Magarey, and Davey, as they came forward to play Sweet, Jervis, and Penny respectively.

Graves did not seem to have very much trouble with Sweet, and outclassed him almost everywhere, especially during the progress of the second set. The result was 6-4, 6-3. Won by Graves. He showed the best of any in the morning, and he played with great coolness and judgment.

Magarey and Jervis proved a well-matched pair. Again and again the set was in the balance, and it was not

till 16-14 that Jervois scored the set. It was a fine struggle. The rest of the rubber was postponed till Tuesday. On that day Magarey carried off the other two sets, 14-16, 6-4, 6-4.

Davey had some trouble with Penny at first, and lost the first set. However he recovered and won the next two sets, thus securing his rubber. The scores were 2-6, 8-6, 6-2.

Following on these singles came three doubles. Princes' first, second, and third doubles, against Saints' third, second, and first, respectively.

A great surprise came in the double between Thomson and Cooper, and Jervois and Penny. Our champion was out of form—he had been ill with influenza during the week. Cooper was nervous, and their opponents making certain of every opportunity and punishing every faulty stroke won the rubber by commendable combined play, 6-1, 6-2. Holder and Graves found it very easy to secure a win against Gardner and Sweet. This pair proved most reliable. Their combined play was a pleasure to watch, and each was brilliant in his own way. The scores were 6-1, 6-3.

What was also another surprise was the temporary failure of Robertson and Nott against Magarey and Davey. The last-named two played splendidly against the St. Peter's cracks, and seemed in a fair way to win, but the more experienced pair pulled the rubber

out of the fire and ran out, 6-2, 4-6, 7-5.

After lunch the remaining singles were proceeded with, without delay, Thomson v. Robertson, Cooper v. Nott, Holder v. Gardner.

Thomson was in difficulties from the outset. Up to this time he had not nearly touched "form" and the Reds were very despondent. Robertson won the first set and was 4-1 in the second when Thomson's genius shone forth as from behind a cloud, and he buckled to and pulled off the second set, and then the rubber magnificently, his play in the last set being especially brilliant, 2-6, 7-5, 6-0.

Similarly Nott with a set in and 3-0 looked very much as if he were going to defeat Cooper, but the latter pulling himself together, won in fine style, 4-6, 6-4, 6-4.

The only single in which we were outclassed was Holder v. Gardner. Our man showed too much of a tendency to play the ball into the net, and Gardner defeated him, 6-3, 6-1.

The next trio of doubles to be played were Princes' first, second, and third, against Saints' first, third, and second pairs. Thompson and Cooper were now playing up to their reputation, and Robertson and Nott were no match for them. It seemed as if the two men were of one mind, for what one left, the other was ready to receive. The scores were 6-3, 6-3.

Holder and Graves played a good game against Jervis and Penny. Both sides played well, and the issue was doubtful to the last, when the Reds triumphed, 6-3, 2-6, 10-8.

The last three doubles in the tournament were commenced in a light that was dim and finally failed, so they had to be concluded on Tuesday afternoon. Thomson and Cooper v. Sweet and Gardner, Holder and Graves v. Robertson and Nott, Davey and Magarey v. Jervis and Penny. When play was stopped for the night Saints were in a strong position for two of the doubles, but Magarey and Davey were on the way towards victory. On Tuesday these last two easily beat their opponents, 8-6, 6-4. Holder and Graves were forced to bow before the superiority of Robertson and Nott, 6-4, 4-6, 4-6. Thomson and Cooper managed their rubber, 4-6, 6-0, 7-5.

In closing, may we congratulate our champions on their victory. The last three years we have had to take our "licking" in this branch of sport. But we have now broken the spell, and rejoice accordingly. The Tennis this year has been of a fairly high grade. Ron. Thomson is especially good, his placing, his smashing, and his overhead strokes being especially brilliant. A. Cooper has won a high reputation. Holder has played well for his side. Graves has been cool and consistent throughout, his strokes were clean and

true. Magarey and Davey have surprised all by their ability and their determination.

## SINGLES.

Thomson beat Robertson, 2-6, 7-5, 6-0.

Cooper beat Nott, 4-6, 6-4, 6-4.

Holder lost to Gardner, 4-6, 1-6.

Graves beat Sweet, 6-3, 6-3.

Magarey beat Jervis, 14-16, 6-4, 6-4.

Davey beat Penny, 2-6, 8-6, 6-3.

## DOUBLES.

Thomson and Cooper beat Robertson and Nott, 6-4, 6-3; Holder and Graves beat Gardner and Sweet, 6-1, 6-2; Magarey and Davey beat Jervis and Penny, 8-6, 6-4,

Thomson and Cooper beat Gardner and Sweet, 4-6, 6-0, 7-5; Holder and Graves beat Jervis and Penny, 6-3, 2-6, 10-8; Magarey and Davey lost to Robertson and Nott, 1-6, 6-4, 5-7.

Thomson and Cooper lost to Jervis and Penny, 2-6, 1-6; Holder and Graves lost to Robertson and Nott, 6-3, 2-6, 3-6; Magarey and Davey lost to Gardner and Sweet, 2-6, 4-6.

P.A.C.—10 rubbers, 22 sets,  
195 games.

S.P.S.C.—5 rubbers, 16 sets,  
186 games.

## CRITIQUE OF THE TENNIS TEAM.

[By the Captain].

Cooper, A., has a powerful cut, which is rather difficult to return. A fast

first serve, but rather a weak second. His net play is quick and effective, and his placing is good. A better single than double player.

Holder hits hard, and keeps a very fair length. He plays a solid game at the net, especially in a double. He follows his serve up well, and is very quick on his feet. Plays a better double than single.

Graves is the most consistent player in the team. His play on grass is superior to that on asphalt. He is a sticker, and has a cool, almost careless style, often not deigning to chase a difficult stroke, and trusting to winning the next.

Magarey plays a steady game. His strokes are clean, and he places well. He is good at net, but does not take sufficient advantage of this fact, being too inclined to stay on the back line. His style is good, and he should improve greatly with plenty of good practice.

Davey is at times rather too inclined to hit, but often this has a good result. He is much better on fore-hand than back. A very fast and effective first serve, but the second is rather soft. Very good at the net, hitting hard, and as a rule, making winning strokes of high shots.

Cooper, W. W. (emergency), is a very enthusiastic player, and in fact it was found very difficult to pick the last place, there being so little to

choose between the last two or three men.

[By the Team].

Thomson, R. C. (Captain). Best player in the team. Dashing, and uses his head well. Places well, and is very reliable. Keeps splendid length. Has played consistently in every match.

### Ode to the Original and Literary Column.

(With due apologies to Sir Walter Scott).

Breathes there a youth with soul so  
dead

Who ever to himself hath said—

“ I'll not add to this page ”?

If such there be, go, mark him well!

He in no writer's realms shall dwell!

Great though his knowledge, proud his  
name,

Though he be chief in every game—

Despite that knowledge, power, and  
pride,

The wretch who will this page deride,

Doubly dying shall go down to the vile  
dust from whence he sprung

Unwept, unhonored and unsung!

DER DICHTERLING.

## THE VILLAGE SCHOOLBOY.

The sums that morn were stiff and long ;

He couldn't get a start.

He threw his pen down in disgust

And made a paper dart,

Until the master saw, and said :

“ I'll have to make you smart.

Week in, week out, from morn till  
night,

You never do a stroke,

So I intend to do one now”—

His class-mates saw the joke,

And laughed until their sides did ache

And the windows nearly broke.

To see the master's stalwart palm

The village schoolboy feigns

To feel the most profound alarm ;

But though the master canes

With all his power and all his might,

The youth will not take pains.

And children straying home from school

Look in at the open door ;

They love to see the playful boys

And hear the master roar,

And catch the burning words that fly

Like dust from the thrashing-floor.

---

### Old Boys' Association.

---

The annual dinner has been fixed for Friday, July 12, the evening before the football match. As the Association has increased so greatly in numbers it is hoped that this function will eclipse all previous dinners, and in expectation

of a large gathering the Committee have felt justified in engaging the Adelaide Town Hall for the occasion. All members are consequently earnestly requested to set that night apart for this engagement, and to urge any old boys of their acquaintance who may not be members to do likewise. They wish it clearly understood that attendance at the dinner is not limited to members of the Association, but that all old boys are heartily welcome to attend. They also trust that all periods of the school's history, from its foundation to the present year, will be strongly represented, and efforts will be made to arrange that those who were in attendance at school about the same time may sit near one another.

Efforts are being continued to establish branches of the Association in various centres at a distance. The correspondence has been of great service in calling forth many expressions of enthusiasm, but just the men to take the matter up have not yet been found, except at Broken Hill, whence news of the formation of a branch has just come to hand, of which detailed information is being anxiously awaited by the parent Association.

It is hoped that the enthusiasm evoked by this correspondence may result in old boys of different districts holding a dinner at some central place on the same evening as the dinner is being held in Adelaide. Messrs. H. P.

Goode, C. S. Newman, and J. B. Robertson have taken the matter up very enthusiastically in London, and have met with such encouragement that they hope to carry the matter to a successful issue. May their efforts be emulated in other places and result in the establishment of local Associations that will keep the memory of the old school ever green in those parts!

The following names were omitted from the list in last issue:—

- Old Boys.**
- Associations of "old Reds" are springing up in all directions. We congratulate them, rejoice with them,

*dare quam accipere*; still helping the old school is twice blessed. "It blesseth him that gives, and him that receives."

Perth has long had its cricket match "old Reds v. old Blues," which we have won every year but 1906, and latterly a dinner the same evening. From the gathering of March 7th came the following wire, signed, J. Moss Solomon. We Old Collegians of Perth, &c., assembled at Annual Dinner send greetings and hearty good wishes to College, Head Master, masters, and boys." Needless to say a prompt return wire was sent by Mr. Chapple. A branch association in W.A. has often been mooted, and seems now practically established under Mr. Solomon's vigorous Secretaryship.

From London in the middle of March came a letter from J. B. Robertson, telling that he, H. P. Goode, and Stan. Newman, had taken the initiative in trying to arrange a preliminary meeting of many Old P.A.C.'s., prior to getting together a large gathering to promise to attend a dinner in London, contemporaneously with the Old Scholar's Dinner held in Adelaide. It went on to say "Mr. Alfred Chapple called in to see me in response to a note, and he promises his strong support, as well as that of Harry and Ernie." The letter included a list of twenty names of those in Britain and asked

for additions. The Head Master by return mail doubled it. There are difficulties, for by no means all are in London; but all looks promising for a "good time."

Broken Hill has its branch association fully fledged, with Mr. Chapple elected as Patron, Dr. Hains as President, and Godden as Secretary. A football match soon v. Old Saints, and a dinner on July 12th are fixed.

Sydney Old Boys have often talked of a gathering, and the Head Master's recent visit there has helped things to develop. The Rev. N. J. Cocks now of Pitt Street Congregational Church, and Eric Searle of the Camden College are moving spirits.

In Melbourne there is a movement towards the same, Port Pirie too, Narracoorte and Kadina are also spoken of as likely centres.

Doubtless the old school holds a warm place in old boys' hearts.

Another pleasing feature is the increasing number of old boys who send their sons, often when quite young to the "old school." There have always been some loyal in this best of ways, there are lately more and more. There are 50 sons of old boys on the roll of the present term.

The list of members published in our last issue has awakened great interest and stimulated enrolment. To the 700 names on it are now added 120 more.

The "tokens" too are becoming rapidly popular and are enabling those of different dates to know and greet one another.

The Head Master spent a most enjoyable vacation this summer with Mrs. Chapple and the two Miss Chapples in the Blue Mountains near Sydney. The pleasure was enhanced by meeting so many P.A.C.'s, past and present, visitors and residents. Of those settled in Sydney, one, the Rev. N. J. Cocks, M.A., dates back to 1880, and another, Mr. W. G. C. Millard, to 1881. It was a great delight to be greeted kindly and remembered well after so long separation. George Davey, Alfred and Clarence Newman, and Roy Braddock were also met, and many more heard of, Maurice Davey, Eric and Gordon Searle, Leslie Newman, George and Murray Wilcox, J. U. Hood, Dr. Zwar, Walter Treleaven, M.A., B.Sc., the head of a successful college, the Rev. J. C. Hill, Hugo Flecker, and Fred Harris of the University, Stuart Giles of Newington, &c. Truly we are well represented in the metropolis of Australia.

Both the President and the Secretary

of the Methodist Conference of South Australia for 1907 were once students at Prince Alfred College. It ought to be so, of course, and it is. We heartily congratulate the Rev. Charles Martin and the Rev. W. G. Clarke on the high and important duties for which they have been chosen.

The Rev. A. S. Fry, once of our First XI., has been elected President of the Methodist Church of Western Australia.

Dr. Rupert Magarey has proceeded to England to prosecute further his medical studies.

Leslie Cowan, B.Sc., has taken a trip home to see his brother Frank, a medico in Edinburgh.

Dr. A. M. Morgan has been elected President of the S.A. Ornithological Association.

C. F. Rischbieth of Messrs. G. Wills & Co., returned to Adelaide early in March after a year's visit to Europe.

The Rev. N. J. Cocks, M.A. of Sydney was invited to the pastorate of the Brougham Place Church, but felt that duty required him to remain in Sydney. He has indeed accepted a call to the Pitt Street Congregational Church of that Metropolis.

T. Gordon Robertson has entered the University of Adelaide with a view to taking the Bachelor of Arts degree, and ultimately entering the Ministry of the Congregational Church.

J. T. Mellor, LL.B., was elected one out of two representatives of the District Councils on the Municipal Tramways Trust.

Alfred Chapple, M.A., Cambridge, has been requested by Professor Ewing, Director of Naval Education, to be one of His Majesty's naval examiners for June, 1907. This is the third year in succession in which this high honor has been conferred upon our Head Master's son.

C. R. Doudy and C. W. H. Lake have been admitted to the bar of the Supreme Court of South Australia. Doudy has entered upon a practice as solicitor at Riverton, and Lake has started for a visit to the goldfields of Western Australia, and thence to England and the Continent.

Herbert Basedow has left for Europe, intending to further prosecute his studies at Heidelberg. He has been appointed by the S.A. Government an honorary commissioner to enquire into and report upon matters relating to the mineral industry and economic geology of Great Britain, the Continent of

Europe, and the United States of America.

This seems an appropriate moment for his old school to recall with pride some of the really good scientific work that Basedow has done during the last few years. Some of his papers to the Royal Society are:—

1. On the occurrence of miocene limestones at Edithburg and their stratagraphical relationship to the eocene of Wool Bay.

2. Description of new species of molusca from the miocene limestone near Edithburg.

3. Geological report on the country travelled by the S.A. Government N.W. Prospecting Expedition, 1903.

4. (With C. Hedley). S.A. nudibranchs, and an enumeration of the known Australian species.

5. Anthropological notes made on the S.A. Government N.W. Prospecting Expedition, 1903.

6. Notes on tertiary exposures in the Happy Valley district, with description of new species of septifer.

7. Anthropological notes on certain tribes in the Northern Territory.

8. In the reports made by the Government Geologist, Mr. H. Y. L. Brown, and staff during 1905 there are many pages on geology and minerals credited to H. Y. L. Brown and H. Basedow, and some to H. Basedow alone. He has also inspected mines, classified the mine-

erals and fossils at the School of Mines, and done other important work for the Government. When Basedow returns with his Ph.D. we shall look with confidence for further scientific and public usefulness.

J. B. Cleland, M.D., Ch.M., now of the Health Department in W.A., read several excellent papers at the Science Congress held in Adelaide on January last. In the Biology section (1) on Domestic Animals in W.A., (2) on the Rodents of Perth (with exhibits of the same). In the section of Sanitary Science (1) on Diseases of Animals and Meat Inspection in W.A., (2) Microbiology.

Messrs. Iliffe and Basedow read a paper at the Science Congress which occasioned a good deal of discussion. It was entitled "Notes on Crush Phenomena in the Cambrian Rocks near Blackwood, S.A." Mr. Howchin of the Adelaide University disputed the accuracy of the reasoning, and traced the phenomena to glacier-action, but Mr. Gibb Maitland, Government Geologist of W.A., and president of the geology section, Mr. A. F. McLaren of the geological survey of India, and Mr. Twelvetrees, the Government Geologist of Tasmania, spoke of the work as "an able paper," as "amply borne out by field evidence," indeed, "incontestable as far as it goes."

E. V. Clark also read a paper in the Engineering section.

C. E. Dolling and Roy Hill gave a good account of themselves in the Christmas tour in the eastern states of the S.A. cricket eleven. In the first innings against Victoria Dolling only scored 4, but in the second his 93 (easily top) was largely responsible for the S.A. Victory. Roy Hill helped with his useful 21 and 31. In Sydney Dolling's 37 and 34 were of service, and so were Hill's 23 and 10 and two wickets in bowling.

The pamphlet by H. Angas Parsons, LL.B., entitled "The truth about the Northern Territory" is considered by those able to judge a valuable contribution to the public discussion on what best to do with our tropical dependency.

F. G. Hales writes from Buenos Ayres, speaks of prosperity, sends kind regards, and asks for back numbers of *Chronicle*.

J. R. Wilton is continuing his successful career at Cambridge, and has just won a Major Scholarship at Trinity College. This Scholarship is tenable till the end of his fifth year (if he stays so long at Cambridge), is worth £100 a year till he has taken his degree, £80 after. Dr. Butler, the master of Trinity

College, Cambridge, writing from Trinity Lodge, Cambridge, on March 23, says:—"Dear Mr. Wilton—I am very glad that you have been able to convert your sizarship into a well-won scholarship. The examiners are much pleased with your mathematical papers. Believe me to be, very truly yours, H. Montagu Butler."

Ernest Chapple has been awarded his "blue" for lacrosse at Cambridge, as he played against Oxford. He was also chosen for Combined Oxford and Cambridge v. Combined London Clubs, but studies prevented his playing. He has since been elected secretary of the Cambridge University Lacrosse Club. This involves the captainship the following year. He won the hurdles at the sports of his College (Jesus). And he has been president for the year of the Freshers' Debating Society.

Maurice Holthouse has been appointed to lecture at Roseworthy Agricultural College on dairy work.

Alec Raws has joined the staff of the Melbourne *Argus*, one of the greatest papers of the Commonwealth.

Arthur H. Hill won the Kingship of the Metropolitan Rifle Club by making the remarkable score of 248 out of a possible 260.

Alderman A. Simpson, who acted as

Mayor of Adelaide during the absence of Mr. Bruce in New Zealand, received a hearty vote of thanks from the Council for the capable way in which he had discharged the important duties of the office.

David M. Lyall, the Secretary of the University Christian Union of Australasia, represented that body at the General Conference of the World's Students' Christian Federation held in Tokio, Japan, this April. En route at Hongkong he was glad to meet three old boys—Herbert Wells (of the London Missionary Society), and A. L. Nairn, B.A., and G. A. Hancock, B.A., of the staff of St. Stephen's College, Hongkong.

E. E. Mitchell is the leading spirit in the movement to form a Music Teachers' Association in Adelaide, and intended to improve the status of the profession.

W. J. Robb again this year proved himself a very capable skipper, and managed his yacht, the 'Sayonara, so well that again she won the famous cup, beating the redoubtable Rawhiti of Sydney.

H. Lipson Hancock, general manager of the Wallaroo and Moonta Mines, has been elected a member of the council of the Australasian Institute of Mining Engineers.

Ben Chaffey, who is now the biggest squatter in the western district of N.S.W., came safely out of the great fire on the Darling, a change of wind came in the nick of time. With about 50 men and 100 horses and water-carts he managed to save all but about 30,000 acres of grass.

Will. Bowring is successfully managing his father's branch business at Mildura.

Dr. Dean Dawson has taken a practice at Laura, Dr. Pellew one at Balaklava, and Dr. Ren. Burnard one at Elliston. Dr. Rex Plummer is a house surgeon at the Adelaide Hospital.

Dr. F. S. Butler, M.A., is at Beverley, West Australia.

Dr. Peter Crank has been to Melbourne attending the first Dental Congress held in Australia.

Dr. E. J. Counter has again been elected by the registered dentists of South Australia to be one of their two representatives on the Dental Board.

J. A. Raws, our captain of 1901, has returned to this State from W.A., and is now on the staff of the *Advertiser*. He distinguished himself in the recent cricket match v. the *Register* by scoring 63 out of 186.

Mr. Stanley Newman left for England

by the "Barbarossa" on January 16. He appears to have had a very pleasant trip, and wrote most enthusiastically of the beauty of Colombo and its surroundings. He found on reaching London that he would be unable to commence his musical studies before Easter, and so in company with his friend, Mr. Brewster Jones, the young Adelaide pianist, he went down to Cornwall to spend a few weeks. He evidently found both the country and the people charming, and intended staying down there until after the vacation.

Roland S. Clark, manager of the W.A. branch of the North Queensland Insurance Co., has been elected Vice-Chairman of the Fire Underwriters' Association of Western Australia. Certainly the youngest occupant of such an important office to date.

To Judah L. Jona, B.Sc., there has been awarded a scholarship at Trinity College, Melbourne.

Leslie H. Nicholls, B.A., the head teacher of the State school at Busselton, W.A., has been on leave in his native State, and paid his old School a visit.

Messrs. Alfred, Harold, and Ernest Chapple spent some weeks about Easter time in France to improve their powers of speaking, and to acquire increased facility in the French tongue. They

took rooms in a large chateau near Blois, where no one can speak English. "Even the dogs and the horses will not take any notice unless addressed in French." With British prejudice they dislike the custom of *le petit déjeuner* (simply roll, butter, and coffee), and struggle for *aussi deux œufs à la coque*. They are amused to see dogs harnessed, and drawing carts.

Mr. and Mrs. W. D. Taylor, Mr. and Mrs. Fred Young, and Mr. and Mrs. Percy Stuart are all *en tour* in Europe.

N. W. Jolly has been appointed a probationary student under the Indian Forestry Department. As the *Times* says, "The beginning, one may hope, of a long line of colonials in the Imperial administrations."

James Shaw, B.Sc., is holding a good position on the staff of the Mount Morgan Mine, near Rockhampton, Queensland.

Shirley Jeffries has entered upon his articles as a lawyer with Messrs. Bakewell, Stow, & Piper, and D. A. Roberts with Messrs. Anderson & Gordon. This is as it should be—P.A.C.'s with P.A.C.'s.

Arthur P. C. Hart has passed the Junior and been accepted by the State Education Department as a pupil teacher.

J. H. McDonald has been appointed a teacher at the Blind, Deaf, and Dumb Institution, Brighton.

C. N. Baeyertz, editor of "The Triad" of New Zealand, is having a delightful time in his trip round the world. About five months were spent in Mexico, California, Canada, Niagara, New York, &c. His articles "Obiter Dicta" in "The Triad" are capital reading, sparkling with keen, humorous criticism. He has not forgotten his old school either, but has sent missives from time to time, for which many thanks.

R. Stanley Tucher entered the School with an Exhibition in January, 1902, but after a very short stay with us removed to Western Australia, where he has since attended the Scotch College, Perth. He has been very successful with his studies, and has just carried off a scholarship of £150 a year, for three years, for which he must study at some Australian University. He has chosen to proceed to the Civil Engineering Course at Melbourne. He gave us a call *en route*.

Bertram J. Davey favoured us with a farewell visit in February. He was just leaving for Melbourne, there to take charge of a mill which the firm is opening in the great Victorian metropolis.

Norman Edwards, who is in charge of the State school at Beaconsfield, Tasmania, has also paid a visit to the scenes of his youth.

C. W. Mellor, of the Reedbeds Rifle Club, this February won the Sir E. T. Smith Coronation Trophy against such skilful shots as J. T. Lake, G. Howitt, &c. G. Howitt did some splendid shooting in the King's Match, scoring 258 and winning the second prize, only one point behind the winner of the first prize.

Councillor Lavington Bonython has been elected Chairman of the Adelaide School Board, and E. A. H. Madge its Minute Secretary.

R. Hayley Lever has again had a picture accepted for exhibition by the directors of the New Paris Salon.

Gordon Goode left early in April for the Edinburgh University, there to study medicine.

Fred. Holder has left England for South America to superintend operations in Brazil and Argentine for the British Westinghouse Company.

E. E. Gold was successful in passing the First Year of the Electrical Engineering Course at the School of Mines (omitted from our long list in our last number).

G. Howitt has been selected as one of the two representatives South Australia to shoot at Bisley.

Mr. Stanley Newman has been touring Cornwall with Mr. Brewster Jones. Some London authorities speak highly of the quality of his voice, and predict hopefully of success in oratorio and concerts.

H. E. Fuller continues to discharge the duties of Secretary of the Church of England Sunday School Union with great efficiency. Hearty thanks were awarded to him at the recent annual meeting.

A. E. Cook has been appointed Major of the S.A. Mounted Rifles.

Mr. J. Roach is greatly enjoying his holiday in England with his wife and daughters.

We hear that at least two old boys engineers were candidates for the appointment of engineer of the Adelaide Municipal Tramways Trust, and well qualified ones too—Mr. Alex. Wyllie, Engineer of the Wolverhampton Municipal Electrical Works, and Mr. Laurence Birks, of a similar position in Christchurch, N.Z.

Harry S. Taylor, editor of the *Remark Pioneer*, is not the only old boy in that thriving fruit colony. J. H. Allen is the Methodist minister there, and Herbert Howie is doing well at raisin growing.

I. H. Boas is lecturing in Science at the Perth Technical School.

The Rev. William Hawke has for some years been the esteemed Congregational minister at Bordertown.

Rev. W. H. Rayner is adding to his reputation and to his usefulness at the Congregational Church, Cottisloe, West Australia.

As the annual changes of the S.A. Methodist Ministers have now taken place, it may be interesting to some of our readers to know the stations of our "old boys."

- Rev. John D. Langsford—Kadina.  
 Rev. W. Alfred Langsford—Mt. Barker.  
 Rev. John Blacket—Auburn.  
 Rev. W. G. Clarke (Secretary)—West Adelaide.  
 Rev. Samuel Rossiter—Kapunda.  
 Rev. Charles Martin (President)—Semaphore.  
 Rev. W. A. Millikan—Melrose.  
 Rev. A. D. Bennett—Mitcham.  
 Rev. H. Trewren—Kulpara.  
 Rev. W. J. Mortimer—East Adelaide.  
 Rev. W. A. Dunn—Port Adelaide.  
 Rev. Frank French—Bordertown.  
 Rev. A. B. Lloyd—Solomontown.  
 Rev. Fred. L. Rooney—Port Augusta.  
 Rev. J. P. H. Tilbrook—Port Germein.  
 Rev. C. M. R. Tresise (President's Assistant)—Port Adelaide.  
 Rev. J. H. Allen—Renmark.

- Rev. Frank W. Close—Teatree Gully.  
 Rev. C. B. Holmes—Hallett.  
 Rev. Eric M. Ingamells—Brighton.  
 Rev. R. Broadbent—Elliston.  
 Rev. T. R. Caust—Kangaroo Island.

The Rev. J. H. Sexton has been chosen President of the Baptist Union.

J. B. Robertson, well-known in '90 to '95 for his recitations, is now in London representing the newspaper entitled "The Draper of Australasia" in the world's great commercial centre. He is the moving spirit in an attempt to arrange for an "old Reds" dinner on the same day as our Annual Old Scholars' dinner in Adelaide. He writes in the kindest terms of his old School and his wish to serve it.

We congratulate our old boys who are probationers for the Methodist ministry on the results of their examinations at the recent Conference.

We note that Frank F. French, then of the fourth year, had three Credits and was adjudged Second Honours; A. B. Lloyd, of the third year, won six Credits and Second Honours; F. L. Rooney three Credits and Second Honours; J. P. H. Tilbrook, of the second year, six Credits and First Honours; C. W. R. Tresise, one Credit. Of the first year, F. W. Close four Credits and Second Honours; C. H. Holmes, two Credits. E. M. Inga-

mells had two Credits in the only two subjects he had to take. J. H. Allen had one Credit and one Pass.

James Phillips, one of the first scholars to be enrolled on the books of P.A.C. in 1869, after a long and useful life as a State school teacher, and as helper of his church in preaching and many other good works, but latterly a life of suffering, has passed away.

### Old Boys' Cricket Match at Perth.

The annual match, Old Reds v. Old Blues, was held in Perth on March 6. There was a large and enthusiastic attendance. The luncheon of old boys of the two Colleges and the speeches thereat went off most successfully; and the afternoon tea and attendance of ladies added the social element and beauty to the merry gathering. The scores given below show that P.A.C. again came off victorious, W. Rossiter, Ted Hantke, G. W. Schmidt, and Tommy Coombe (captain) making the biggest scores for us, and Hantke and Charlie Atkins securing the best bowling averages. As there was no time to play out a second innings, the match was decided on the first. P.A.C. won by 103 runs.

# Prince Alfred Old Collegians' Association

ESTABLISHED 1878.

OFFICERS, 1906-1907.

Patron—The Head Master.

President—Mr. W. R. Bayly.

Vice-Presidents—Messrs. A. S. Lewis,  
W. Lathlean, and S. W. Bailey.

Hon. Treasurer—Mr. A. G. Collison.

Representatives on College Committee  
—Messrs. J. W. Grasby and P. E.  
Johnstone.

Hon. Auditors—Messrs. R. G. Neill  
and C. W. Chinner.

Committee—Messrs. E. J. W. Ashton,  
H. R. Adamson, A. W. Collins,  
A. C. Catt, J. L. Davidson, A.  
Rowley, and D. M. Steele.

Hon. Secretary—Mr. H. W. A. Miller.

Hon. Assistant Sec.—Mr. C. E. Bennett.

The objects of the Association are:—  
To keep Old Boys, wherever they may  
be, in touch with one another and with  
the boys at the school; also to foster  
and maintain their interest in the  
School.

The *P.A.C. Chronicle*, of which a large  
part is devoted to matters of special  
interest to Old Boys, is forwarded to  
each member of the Association.

A dinner is held annually, at a time  
which is thought likely to give as many  
Old Boys as possible an opportunity of

meeting one another; and social  
gatherings are held whenever any  
occasion arises that makes them de-  
sirable.

The Association gives annually to  
the School the Old Collegians' Scholar-  
ship, of the value of fifteen guineas, and  
donates five guineas per annum to the  
Sports' Fund. A Scholarship has  
also been founded, according to the  
terms of which the members of the  
Association have the right of nomina-  
ting annually the son of one of their  
number for one year's free education  
at the School.

The subscription is five shillings per  
annum. The simplest way is to  
send along a pound for four years, or  
to make a life payment of three  
guineas. To encourage boys on leav-  
ing school to join the Association at  
once, they are admitted as members for  
the first year without payment of any  
subscriptions. Any Old Boy wishing  
to become a member can do so by for-  
warding his name and address to the  
Head Master, or to any member of the  
staff, or to the Hon. Secretary.

H. W. A. MILLER,  
care of A.M.P. Society,  
King William St., Adelaide.
