

Prince Alfred College Chronicle

UBI NON EST SCIENTIA ANIMÆ NON EST BONUM.

VOL. V.—No. 99.

ADELAIDE, JANUARY, 1911.

[PRICE SIXPENCE.]

School Notes.

Speech Day passed off in lovely weather and heartily, Thursday afternoon, the Town Hall, Adelaide, well filled; mothers and sisters radiant; fathers, brothers and old boys enthusiastic, some only able to slip in for a short time stayed at the back of the hall; the platform well filled with grave members of the College Committee, the Governor hearty and kindly in the chair; on his right hand the Honorary President, the Rev. A. W. Wellington, and the Second Master, Mr. Langley; on his left the Head Master, Mr. Frederic Chapple, near him Mr. Ryan, M.P., Chairman of the Royal Commission on Higher Education; Mr. M. M. Maughan, to represent Mr. Alfred Williams the Director of Education, *multis cum aliis*, ministers and other gentlemen. The tables and pedestals round the hall well filled with good drawings and paintings and specimens of work; no carpentry exhibits this year because of the carters' strike. Botten's pianoforte playing capital, the violin and 'cellos good, the singing sweet, the recitations stirring, the speeches congratulatory, the ap-

plause frequent and truly meant, the national anthem sincerely loyal, a school song vigorously rendered, and Home for the Holidays here we go.

His Excellency the Governor, Sir Day Hort Bosanquet, who was received by the whole school standing and cheering, said Prince Alfred College was generally associated in the public mind with the great Methodist body of South Australia, and he was there that day not only to express his interest in and sympathy with the College, but also to show his deep respect and high esteem for the Methodist Church, among the members of which were to be found some of the greatest philanthropists and most brilliant scholars in the State. (Cheers.) He also desired to associate himself with those who had the highest admiration for the qualities of the Head Master. (Cheers.) He congratulated the College on its long list of scholarships, on the splendid work done during the year, and on having produced the Rhodes scholar from South Australia for 1911. Then stepping down from the higher platform he said he wanted to speak to the boys. First he congratulated Steele on his plucky 117

not out, which he had played on the previous day. He exhorted the boys to pay attention to duty, and even though it might be unpleasant at times, to do it with courage and obedience. They did the unpleasant tasks because of the faith they had in the representatives of their parents and guardians. Obedience to authority was limited to lawful commands. If they had been told to push a boy who could not swim into the sea they would be right in refusing to do so. Their conscience would direct them as to what was right and wrong, and if they followed the path which conscience indicated they would be able to rely upon themselves without having any misgivings, to execute their duty with a firm and steadfast heart. Confidence in superiors and obedience stood for more than most people realised; and in illustration he cited a case which had come under his notice about 300 miles south-west of the Cape. He gave a thrilling account of the rescue of a man who had fallen overboard in a heavy storm amidst rough seas, and pointed out how that had been done only by men risking their lives at the captain's command. They did not understand the reason for the captain's action, but they obeyed, and all were saved. The officer who went out in a small boat to the rescue was afterwards rewarded with a responsible post in the life-saving department in England, being

for this very act, on the captain's recommendation, chosen in preference to 90 other applicants. The boys should realise that the masters were their best friends, and obey their orders promptly and cheerfully. He asked the senior boys to take interest in the juniors, and to encourage in them a love for the honour of their school. He trusted that success would long continue in that great College of the City of Adelaide. (Cheers.)

From the Head Master's Report we beg to extract a few paragraphs that they may live in the school's chronicle or history:—

“There are signs of material progress during the year. We have bought a large house and grounds next door to us, and are altering, renovating, and furnishing it, and so preparing it for beginning service as a Preparatory School with the opening of the new year. Workmen have now been for some months constructing new baths, lavatories, &c., for the better accommodation of the dwellers in the Colton Wing, chiefly occupied by the younger boarders. We have fitted up a special room for the study of biology—the latest addition to the highest part of our course. The quartet of students first making use of it have canonized it by all passing the University examination in this interesting subject.

There are important changes to chronicle in the staff. Mr. H. C. Shortt,

who has given us unbroken service since July, 1877, now retires. He carries with him our grateful memories and best wishes. He will continue to discharge the duties of the College bursar. Mr. J. E. Langley, B.A., Lond., of our staff since 1897, has been raised to the honorable position of Second Master. Mr. J. F. Ward, M. A., whose appointment at this time last year was but temporary, has now been permanently appointed, to our great satisfaction. Mr. A. H. Bell, B.A., another old scholar, will join us with the new year, and we hail his coming with well-grounded hope. Mr. J. K. Robertson, who began his teaching with us in 1885, was selected by the committee out of a large number of worthy candidates for the important post of head of the new Preparatory School. We also congratulate Mr. C. H. Comley, B.A. B.Sc., that by further study and attainments he has added the title of Master of Arts to his other academic distinctions. Not of the staff of masters is the hon. secretary of the committee of management for twenty-five years (in succession to his father, the Hon. G. W. Cotton, to whom, perhaps, more than any other single man, the College owes its foundation). To Mr. G. S. Cotton we owe a debt impossible to over-estimate, and are very sorry to know that he has felt it necessary to resign. We are glad to know that another loyal old scholar (Mr. J. H. Chin-

ner) has consented to fill the important vacancy.

Another feature of the school year's history has been the unprecedented demand for our boys, and we are very grateful that, in spite of the difficulty of obtaining men in the country, so many fathers, aided by elder brothers, have shown their high estimate of the worth of education by still keeping their sons at the school at the cost of additional toil and self-denial on the part of other members of the family. We close the year with nearly eighty boarders, the number with which we began.

We rejoiced that when the body of your Excellency's advisers was reconstituted early in the year a high place was found in it for the Hon. Hermann Homburg as Attorney-General; and that, when Fortune's wheel took another turn, and the "outs" became the "ins," the important office of Treasurer of the State was assigned to the Hon. Crawford Vaughan. One loyal old boy, who has been for some years Premier of Western Australia, was honoured by the King for eminent services with a knighthood, and is now known as Sir Newton Moore, K.C.M.G. In academic walks, perhaps the greatest dignity gained has been the degree of Doctor of Literature of the London University conferred upon Percy Ansell Robin. J. L. Jona's D.Sc. of the Adelaide University is a great achievement too, and so are Harold Chapple's

F.R.C.S. of London, and R. Douglas Brummitt's similar distinction from Edinburgh. Leslie F. Burgess had a grand success in winning the Angas Scholarship in Adelaide; Leslie Glasson in gaining an extension of the Research Scholarship at Cambridge; and now latest, but not least, Cecil T. Madigan is selected as Rhodes scholar."

The following report was read by the Captain of the School, D. M. Steele:—

This year in the Intercollegiate contests our rivals have proved successful in three out of the four matches, winning the tennis, football, and cricket, the athletic sports alone being gained by us. St. Peter's carried off the tennis without much difficulty by 12 rubbers to 3, or 187 games to 117. Our representatives did not play well together and were beaten by a better team.

Our football team enjoyed a fairly successful season, playing 13 matches, winning 8, and losing 5, and showing splendid form throughout the season. We had great hopes for the Oval Match, but it was not to be. On the day of the match the Adelaide Oval was in a shocking state after the heavy rains, and after a most exciting struggle we were beaten by the narrow margin of two points. In spite of the heavy ground both sides gave a good exhibition of football, Howard, Darling, and Willcox, the captain, playing splendidly for us. Next year it is to be

hoped that boundary umpires will be introduced into college football, and so make it more attractive. In July we received a visit from the Wesley Collegians, Melbourne. They have for a long time held high rank in all branches of sport there, and they were our guests for a fortnight. We had a most enjoyable match with them and defeated them by a fairly good margin.

We have at last recovered the Running Cup, and now we must strive hard to keep it in the big schoolroom. All the team, with H. M. Charlick as captain, are to be congratulated on gaining a fine victory by 62½ points to 27½. This was a most deserved result, as our team trained most thoroughly. I. B. Pender ran splendidly for his College, and by winning the 120 Hurdles, 220 and 440 yards, and the Long Jump, and gaining second place in the 100 yards, achieved a record for an individual performance in these series of sports. Charlick also ran well. Mr. Blacket is to be most heartily thanked for looking after the training operations, also our Old Scholar, Mr. Brose, for his assistance and advice.

In the 1909-10 cricket season our team did exceedingly well in the B. Grade, and out of 13 teams competing we finished fourth on the list. Good as this result is, we must aim higher. The recent Intercollegiate match is too fresh in our minds to say much about, but after beginning the season so well,

our team failed to play up to expectations, mistakes in the field probably costing us the match. Ashby and Cole performed well with the ball and Swann played a most plucky innings on the last day of the match. Although we have only had one success, we congratulate St. Peter's on their victories, but with promising players coming forward we have high hopes for the future. The 2nd and 3rd teams have enjoyed very successful seasons.

Some splendid shooting has been done by members of the Cadet Corps, Williams and Warnecke being the two best shots in the whole battalion. A team was entered for the schools of the Empire Competition, but the total was not good on account of insufficient practice. The Sargood Shield was won by 1st Battalion, in which our three companies are. Lieutenants Roberts, Charlick, and Willcox passed their examinations for commissions in the School for Instruction Camp at Cheltenham.

Once more we have to thank the Head Master and the other masters, and particularly our enthusiastic Sportsmaster, Mr. Grey, for the kind interest they have shown in the sports throughout the past year. [While this was being read a voice fittingly cried out "What about Steele?" He was our Captain at cricket, and made grand scores; our Captain at tennis, winning the first single. In football he played a grand game, untiring in the centre; and

in the Mile Race he ran a close second. He has been a great leader and a most indefatigable Secretary].

Our Special Prizes and Scholarships have called forth vigorous competition and have fallen deservedly.

The Sir Thomas Elder (£150), the "Red Ribbon," goes to D. L. Barlow, though he is not much over 16, and it is open to all under 19 years.

Old Collegians' Scholarship, £15 15s. (presented by the Old Collegians' Association)—J. A. Love (worthily won).

Colton Scholarship (founded by the late Sir John Colton)—E. G. Dorsch.

Longbottom Scholarship (founded by Mr. W. Longbottom)—R. L. Davidson.

Robb Scholarship (founded by the late Mr. J. Robb)—D. L. Rooney.

Malpas Scholarship (founded by the late Mr. H. Malpas)—A. H. Guymer.

Wills Scholarship (founded by the late Mr. George Wills, awarded on the result of the Junior Commercial Examination)—R. D. Spinkston.

Shierlaw Scholarship (founded in memory of the late George Croke Shierlaw)—H. H. Payne.

Elder Foundation Scholar (under 16 years of age) two years' free education—awarded on results of Junior Public Examination—R. W. White. Under 15 years of age (one year's free education)—H. L. Rayner.

Old Collegians' Entrance Scholarship—A. D. Shepley.

Cotton Medal, for Agricultural

Chemistry (founded by the late Hon. G. W. Cotton)—C. A. Hemsley.

Head of the Junior School (gold medal presented by Mr. Victor Cohen)—C. E. Dorsch.

Smith Prize for History (presented by Sir E. T. Smith, K.C.M.G.)—H. B. Piper.

Alfred Muecke Prize (founded *in memoriam*)—Awarded on results of Junior Public Examination—A. S. H. Gifford.

Arithmetic Prize (presented by S.A. Cricketing Association)—D. G. French.

Neatness Prize (presented by Messrs. E. S. Wigg & Son)—H. L. Rayner.

Recitation Prize (presented by Messrs. W. C. Rigby, Ltd.)—T. E. Cleland.

Recitation Prize (presented by Mr. E. Reeves)—W. Holden.

Scripture Prize (gold medal, presented by New Zealand members of the Methodist General Conference)—A. S. H. Gifford.

Music, piano (presented by Mr. E. E. Mitchell)—H. W. Botten, E. Rosanove; (presented by Miss Colwell), L. J. Nicholls, A. S. Dearlove.

Music, violin (presented by Mr. T. Grigg)—K. J. McEwin, H. D. Prest, K. M. Drew.

Singing—E. Walford Davies, C. A. Barlow.

Drawing (presented by Mr. James Ashton)—G. C. Davies, R. I. Williams, F. C. White, L. Taplin.

Painting—O. Heinrich, G. C. Davies, K. J. McEwin.

Garlick Prize for Drawing—O. Heinrich.

Mapping (presented by Mr. James Ashton)—A. J. Goudie.

Mapping—J. Parker.

Head Boarders' Prize—I. B. Pender.

Boarders' Scripture Knowledge (presented by the Methodist Book Depot)—G. H. Kendrew.

Librarian and Curator's Prize—R. L. Davidson.

Intercollegiate Sports Medals—I. B. Pender (4), C. A. Willcox, K. Smith, W. G. Peters, G. C. Davies, H. L. Rayner.

Silver Medal for Gymnastics—V. F. A. Norton; IVU., K. J. Mellor; IV., R. DeGaris; IVL., H. Basedow; IIIU., G. Dreyer; III., K. Englebrect; II., R. H. Gordon. Boarders—K. J. McEwin. General proficiency—L. J. Nicholls.

Gold Medal for Gymnastics (presented by Mr. Hugo Leschen)—G. G. Roach.

Cricket Prizes—

First Eleven, Batting—D. M. Steele.

First Eleven, Bowling—I. E. Ashby.

Medals (presented by the Head Master)—Gold Medals: D. M. Steele, C. A. Willcox; Silver Medals: R. Warnecke (2), I. E. Ashby, L. K. Swann.

Second Eleven, Batting: F. H. Collins.

Second Eleven, Bowling: R. F. Nicholls.

Third Eleven, Batting: H. C. Kelly.

Third Eleven, Bowling: T. D. Campbell.

Football Prizes—

Gold Medal (presented by Dr. E. J. Counter)—D. M. Steele.

Football (presented by Messrs. A. S. Toms & Co.)—E. P. Howard.

Football (presented by the Sports-master)—C. A. Willcox.

Tennis Champion—D. M. Steele.

Athletic Sports Champion — I. B. Pender.

RIFLE SHOOTING.

Battalion Competition—

Two best shots in First Battalion, Gold Medals—Cadets R. L. Williams and R. Warnecke.

Detachment Competition—

Gold Medals—Cadets R. L. Williams (B Company), D. C. Kidd (E Company), D. C. Cooper (G Company; Silver Medals—Cadets R. Warnecke (B Company), R. M. Evans (E Company), H. M. Kleinig (G Company).

Twelve of the Head Master's cricket medals were won during the short season. Five times by our Captain, D. M. Steele, with his 131 not out v. East Torrens B, 117 not out v. St. Peter's on the Oval (a grand performance in the face of great odds), 83 v. Gilberton,

78 v. Old Scholars, and 51 v. the University.

C. A. Willcox had a brilliant three innings, 89 v. West Torrens East, 60 v. Adelaide, 82 v. the University.

R. Warnecke scored two fifties, one 56 v. Adelaide B, 78 v. Gilberton.

I. E. Ashby had 68 v. Adelaide.

L. K. Swann, 50 v. Gilberton. His 40 v. Saints in the second innings was most meritorious, but did not quite reach the magic number. He was at last tempted to run in and miss.

D. G. French is to be congratulated heartily on winning the Senior Commercial Scholarship. The course for it is very extensive and severe. It has now been offered three successive years, and each time our man has annexed it—Baseby, Williamson and French. Keep it up, Commercials.

The Hon. President for the year, the Rev. A. W. Wellington, is very popular here. For one reason he is a good cricketer. Many times have we seen his stalwart form at our wickets or fielding on the turf. This love of his for the grand old game came out as he watched attentively on the oval and cheered us on, and broke out on Speech Day when he offered a bat to Steele for his great innings.

At the "Final Assembly" in the big schoolroom, the Head Master in the name

of the School, Past and Present, said good-bye to Mr. H. C. Shortt, recalling the fact that July, 1877, saw Mr. Shortt begin his work here as a Form Master, and now it was to close. He spoke of Mr. Shortt's genial spirit and kindly manner, and faithful service, and called on the Second Master to speak for the rest of the staff. Mr. Langley spoke of the cordial relations that had always existed between Mr. Shortt and the other masters, and said that they were glad that he was still to hold office as Bursar. J. A. Love of the Upper Sixth spoke for the boys, and well expressed what we all wanted to say of our gratitude and regret that Mr. Shortt was going. Mr. Shortt in reply thanked all who had spoken, and said he was very sorry, and yet that he looked back with pleasure on our 33 happy years. Of course there had been some friction sometimes with boys who were like the lilies of the field in that "they toil not," but this friction had been a minimum after all. With hearty cheers for Mr. Shortt all ended.

There were not as many telegrams as usual about the cricket match, but Howard, Judell, Parnell, Rehder, and Ingamells sent "wires" to remind us they were watching, hoping, and wanting to cheer us on. And the second innings was a plucky fight, which it was grand to watch and to share in.

The Committee of the School has resolved to fall in line with the other great public schools of the Commonwealth and open a separate establishment for the very young boys. A suitable house and grounds next door to us has been purchased and extensive alterations and improvements made in it. And with the new school year our "Preparatory" will be in full working order. Under the supervision of our Head Master, and under the direct guidance and teaching of our Mr. J. R. Robertson we may confidently look to it to be a great success from the very start.

The Rev. A. E. Albiston, M.A., of Melbourne, being in Adelaide, and an old "Wesley" boy, the Head Master invited him to address the Assembly on the last Tuesday in October. Taking as his topic the Bible words "As if a man did flee from a lion, and a bear met him: or went into the house and leaned his hand on the wall, and a serpent bit him." He spoke earnest telling elder brotherly words such as these:—

"You will meet difficulties in life, perhaps your own fault, perhaps some one else's. Face them, play the man. Don't shirk them or you make matters worse. Are they money difficulties? Be brave, go without, never listen to the alluring voice of the money-lender. Are they physical difficulties? Don't

listen to anyone that says "Fly to alcohol, that cure-all." Are they mental difficulties? Perhaps your belief of early days? Unbelief has far more difficulties for the mind than the faith your mothers taught you. Courage, and trust in God, conquers. Flying to some cowardly makeshift brings deeper trouble and disgrace."

The Geelong Grammar School old boys are doing great things for the school they are so loyal to. A splendid site of 30 acres has been obtained, and the school is to be transferred to a new building. The total cost of the scheme is set down at £30,000. Already £12,000 has been subscribed towards this, one generous old boy heading the list with £3,000.

The P.A.C. Old Collegians' Freemasons' Lodge have presented to the School two Scholarships to be offered in connection with our Preparatory each January. They are to run for two years, to be open to free competition, one for the best boy under eight years of age, one for the best under ten years.

The public schools of Victoria have decided on important changes as to their Inter-school games. (1) Age of competitors (practically) to be under 20, (2) No paid coach or trainer to be employed for football or athletic teams or for rowing. (3) No paid "rubbers-

down." (4) That schoolboys should not play in senior football.

Further, this conference of Head Masters and old boys asks that in the Defence Act the drills for Senior Cadets should be adapted to school conditions, and that schoolboys should continue as cadets though over 18.

The schools have made vigorous protest against some of the regulations contemplated under the Defence Bill brought before the Federal Parliament. And, it seemed at first, with satisfactory results in two matters at least. Senior Cadets while still at school were not to be ordered to "night drills," day drills were to be substituted. At the age of 18 it was intended to insist on all joining the Militia. This would have deprived the schools of some of their best officers, and there are other important objections. It is now allowed that these may remain in the School Corps as long as they remain at school.

At one of the last assemblies of the term the Head Master mentioned that the Christian Union thought it would be a good thing if the School could help some Prince Alfred Missionary in his work, and had suggested the following: Dr. C. S. Mead, one of our earliest medical missionaries was about to take up new work, living on an island in the Ganges and ministering to the people near. We might give him a boat to

help him in his work. Five pounds was forthwith subscribed for this laudable object.

The Old Boys' Association sent a team to play an all day cricket match with us on Wednesday, December 9th.

The growth of the *Chronicle* is interesting to note. In September, 1905, we printed 700 copies; of our last issue there were 1425, more than doubled in four years. Of course, most of this is due to the hearty way in which the Old Boys' Association has taken it up.

Mr. H. C. Shortt's long career as a master has come to an end. In 1877 he joined our staff, and has rendered diligent and earnest service ever since. We are glad that Mr. Shortt will still be connected with the School as its Bursar and so continue to keep its accounts. The Committee also voted to Mr. Shortt a handsome purse of sovereigns.

Higher Public Examination.

A. GENERAL HONOUR LIST—

D. L. Barlow, (highest in this State).

J. A. Love.

R. L. Davidson.

[1, English; 2, History; 3, Greek; 4, Latin; 5, French; 6, German; 7, Pure Mathematics; 8, Applied Mathe-

matics; 9, Physics; 10, Chemistry; 11, Biology.]

B. SPECIAL HONOUR LIST—

6. E. G. Dorsch (top of list).

7. D. L. Barlow.

8. R. L. Davidson, I. E. Ashby.

9. D. L. Barlow, R. L. Davidson, A. H. Guymer (the first three on the list).

10. D. L. Barlow, J. A. Love (the first two on the list).

11. D. L. Barlow.

PASS LIST.

I. E. Ashby, 8*, 9, 10, 11.

D. L. Barlow, 4, 7*, 9*, 10*, 11*.

R. L. Davidson, 7, 8*, 9*, 10.

E. G. Dorsch, 3, 4, 5, 6*.

A. H. Guymer, 8, 9*, 10, 11.

C. A. Hemsley, 1.

J. A. Love, 4, 7, 9, 10*, 11.

H. K. Nield, 4, 6.

H. B. Piper, 1, 2, 4, 6,

J. H. Rogers, 7, 8.

L. D. Waterhouse, 1, 2.

In these lists the Science comes out best—

5 out of 6 for Physics (with 3 credits)

5 " 8 " Chemistry " 2 "

4 " 4 " Biology " 1 "

It is good to read this of Biology, as so far we are the only School that teaches it.

Mathematics look well too—4 out of 5 for Applied Mathematics (with 2 credits); 4 out of 7 for Pure Mathematics (with 1 credit).

Senior Public Examination.**A. GENERAL HONOUR LIST—**

L. D. Rooney (2nd of S.A. Candidates).

A. R. Southwood (3rd of S.A. Candidates).

R. H. Berriman.

J. N. Davies.

G. de Q. Robin.

B. SPECIAL HONOUR LIST—

Latin—C. R. Cole.

German—P. S. Hossfeld (first on list).

Arithmetic and Algebra — A. R.

Southwood (first on list), L. D.

Rooney (second on list), R. H.

Berriman, G. H. Kendrew.

Geometry—L. D. Rooney, R. H. Berriman.

Trigonometry—R. H. Berriman.

Physics—R. H. Berriman, R. Pender.

Chemistry—R. H. Berriman, L. D.

Rooney, A. R. Southwood (first 3 places).

C. PASS LIST—

[1, English ; 2a, History ; 3, Greek ; 4, Latin ; 5, French ; 6, German ; 7, Arithmetic and Algebra ; 8, Geometry ; 9, Trigonometry ; 10, Physics ; 11, Chemistry ; 14, Physical Geography and Geology.]

R. H. Berriman, 1, 4, 6, 7*, 8*, 9*, 10*, 11*.

A. D. Brooker, 1, 2a, 7, 8, 11.

C. R. Cole, 1, 2a, 4*, 7, 8.

H. W. Davies, 1, 4, 6, 7, 8, 9, 10, 11.

J. N. Davies, 1, 3, 4, 7, 8, 10.

N. B. Hall, 1, 4, 6, 7, 8, 11.

G. H. Kendrew, 1, 4, 6, 7*, 8, 9.

K. H. Kirkman, 1, 4, 7, 8, 9, 11.

L. W. Linn, 1, 7, 8, 9, 10.

J. McNeil, 1, 4, 5, 7, 8, 11.

C. E. H. Palmer, 1, 4, 7, 8, 11.

G. D. Robin, 1, 4, 6, 7, 8, 9, 10, 11.

L. D. Rooney, 1, 4, 6, 7*, 8*, 9, 10, 11*.

A. R. Southwood, 1, 4, 6, 7*, 8, 9, 10, 11*.

H. P. Tuck, 1, 2a, 4, 6, 7, 8, 9, 10, 11.

H. M. Charlick, 1, 4, 6, 8.

T. E. Cleland, 1, 2a, 8, 9.

S. R. Delbridge, 1, 4, 7, 9.

A. K. Gault, 1, 4, 8, 10.

M. Hains, 1, 7, 8, 11.

P. S. Hossfeld, 1, 6*, 7, 8.

I. B. Pender, 1, 4, 8, 11.

R. Pender, 7, 8, 10*, 11.

Junior Public Examination.**A. GENERAL HONOUR LIST—**

R. W. White.

A. S. H. Gifford.

W. K. Collins.

D. B. M. Adams.

D. C. Cooper.

B. SPECIAL HONOURS LIST—

English—W. K. Collins, D. C. Cooper.

Latin—W. K. Collins, R. W. White.

German—A. E. C. Gepp, E. W. G.

Bogner (top of list).

Arithmetic—A. S. H. Gifford.

Algebra—D. B. M. Adams.

Chemistry--D. C. Cooper (top of list), R. W. White, (second), F. R. Hone, D. B. M. Adams, A. G. Drew.

C. PASS LIST—

[1, English ; 2, History ; 4, Greek ; 5, Latin ; 6, French, 7, German ; 8, Arithmetic ; 9, Algebra ; 10, Geometry ; 12, Chemistry.]

D. B. M. Adams, 1, 5, 7, 8, 9*, 10, 12*

E. W. G. Bogner, 1, 2, 4, 5, 7*, 8.

K. W. Bollen, 1, 6, 8, 9, 10, 12.

H. C. Brice, 1, 2, 7, 9, 10.

W. K. Collins, 1*, 5*, 7, 8, 9, 10, 12.

D. C. Cooper, 1*, 5, 7, 8, 9, 10, 12*.

A. E. C. Gepp, 1, 7*, 8, 9, 10.

A. S. H. Gifford, 1, 2, 4, 5, 8*, 9, 10, 12.

F. R. Hone, 1, 6, 8, 9, 10, 12*.

H. F. Hubbe, 1, 5, 7, 9, 10.

R. E. Jolly, 1, 5, 7, 8, 9, 12.

D. B. Kidd, 1, 5, 7, 8, 9, 10, 12.

D. D. Magarey, 1, 8, 9, 10, 12.

G. P. Rayner, 1, 5, 8, 9, 10.

L. N. Rayner, 1, 5, 7, 8, 10.

L. K. Swan, 1, 7, 9, 10, 12.

R. W. White, 1, 4, 5*, 8, 9, 10, 12*.

The following obtained four passes, five being required for a complete pass :

N. Darling, 1, 2, 8, 10.

S. C. Downing, 1, 5, 7, 10.

A. G. Drew, 1, 8, 10, 12*.

R. F. Matters, 1, 2, 8, 10.

D. H. Prest, 1, 5, 7, 10.

—
We again congratulate our Com-

mmercial Classes on doing so well at the University Examinations. First, French has won the Scholarship at the Senior Commercial by passing in all his seven subjects. That Scholarship has been offered three times, and each time a P.A.C. has won it. E. E. Baseby, R. C. Williamson and D. G. French make a fine succession. May it be kept up! French passed in : Commercial Arithmetic, Bookkeeping, Commercial Geography, Commercial History, English Literature, Arithmetic and Algebra, and Physical Geography and Geology. Then in the Junior Commercial, 13 out of 14 passed in English, 12 out of 14 in Bookkeeping (with one credit), 12 out of 13 in Commercial Geography (with three credits), 11 out of 14 in Business Correspondence. The full list is as follows :

[1, English ; 2, Commercial Arithmetic ; 3, Commercial Geography ; 4, Bookkeeping (these four are compulsory) ; 5, Business Correspondence ; 7, History ; 10, Algebra.]

GENERAL HONOUR LIST.

R. D. Spinkston, J. V. Carter.

SPECIAL HONOUR LIST.

(3) R. D. Spinkston, E. M. Baseby, N. D. Richardson.

(4) H. E. Hoad.

(7) F. A. Norton.

PASS LIST.

E. M. Baseby, 1, 2, 3*, 4, 5, 7.

J. V. Carter, 1, 2, 3, 4, 5, 7, 10.

K. M. Drew, 1, 2, 3, 4, 5, 7.

H. E. Hoad, 1, 2, 3, 4*, 5.
 T. A. Shepley, 1, 2, 3, 4, 5.
 R. D. Spinkston, 1, 2, 3*, 4, 5, 7, 10.

B. K. Marshman, 1, 3, 4, 5.
 J. L. Nicholls, 1, 3, 4, 10.
 R. F. Nicholls, 1, 4, 5.
 F. A. Norton, 1, 2, 4, 7*, 10.
 N. D. Richardson, 2, 3*, 4, 5, 7.
 W. G. Green, 1, 2, 3, 5, 7.
 C. B. Thomas, 1, 3, 4, 10.
 C. Tonkin, 1, 3, 5, 7, 10.

Primary Public Examination.

[1, English; 2, Arithmetic; 4, History; 6, Latin; 8, German; 9, Algebra; 10, Geometry.]

A. K. Ashby, 1, 2, 4, 6, 8, 9, 10.
 H. W. Botten, 1, 2, 4, 10.
 A. A. Cooper, 1, 2, 4, 9, 10.
 K. R. Crewes, 1, 2, 4, 9, 10.
 G. C. Davies, 1, 2, 4, 9, 10.
 C. E. Dorsch, 1, 2, 4, 8, 9, 10.
 W. M. Fowler, 1, 2, 4, 6.
 C. I. Harris, 1, 2, 4, 6, 9, 10.
 E. W. Harris, 1, 2, 4, 6, 9, 10.
 S. H. Haslam, 1, 2, 4, 6, 10.
 O. Heinrich, 1, 2, 4, 9, 10.
 C. V. Hodge, 1, 2, 4, 6, 9, 10.
 W. S. Jarrett, 1, 2, 4, 9, 10.
 C. R. Jauncey, 1, 2, 4, 9.
 R. Mahnke, 1, 2, 4, 6, 9, 10.
 F. L. Marchant, 1, 2, 9, 10.
 N. V. Mengersen, 1, 2, 4, 9, 10.
 R. G. Nicholls, 1, 2, 4, 9, 10.

J. E. Porter, 1, 2, 6, 10.
 H. L. Rayner, 1, 2, 4, 6, 9, 10.
 E. Rosanove, 1, 2, 4, 10.
 N. A. Shuttleworth, 1, 2, 4, 6, 9, 10.
 H. W. Stempel, 1, 2, 4, 9, 10.
 L. T. E. Taplin, 1, 2, 4, 9, 10.
 E. M. Trott, 1, 2, 4, 6, 10.
 L. W. Trott, 1, 2, 6, 10.

Royal Drawing Society Examinations.

Mr. Jas. Ashton, our enthusiastic Art Master, is to be thanked and congratulated upon the large number of successes in the above named examinations.

DIVISION I.

Honours—C. Heinrich, G. S. Davies, J. Treloar, R. L. Williams, O. Kennett, A. F. Stanley, L. Taplin, C. T. Moody, W. Davies, T. B. Mills.
 Pass—A. W. McGregor, R. L. Caldwell, F. C. White, R. E. DeGaris, K. J. Mellor, H. W. Stempel, C. F. Hale, R. M. Catt, R. M. Evans, H. E. Hoad, H. G. Green, H. R. Harvey, C. Tonkin, V. J. Lewis, A. G. T. Woods, C. B. Thomas, O. A. Martin, C. Taylor, H. B. Moody, J. Parker.

DIVISION II.

Honours—L. Taplin, R. L. Williams, A. F. Stanley, A. G. T. Woods, C. Tonkin, K. J. McEwin, A. W. Copley, O. R. Kennett.

Pass—K. J. Mellor, E. W. Harris, R. H. Pitt, R. D. Spinkston, H. E. Hoad, F. C. White, R. M. Evans, H. B. Moody, J. W. R. Porker, J. E. C. Plush, W. Davies, G. C. Davies, R. M. Catt, F. R. Nicholls, K. Englis, H. M. Green, A. L. McEwin, R. G. Brandwood, C. B. Thomas, C. T. Moody, H. R. Harvey, W. M. Fowler, H. W. Stempel, P. J. Bowey, J. Parker, E. V. Roberts, F. H. Collins, K. May.

DIVISION III.

Honours—G. C. Davies, R. L. Williams, L. Taplin, A. F. Stanley, W. Davies, E. W. Harris, O. Heinrich.
 Pass—F. C. White, A. G. T. Woods, R. E. DeGaris, V. J. Lewis, H. G. Green, O. R. Kennett, J. E. C. Plush, R. F. Nicholls, T. Treloar, T. B. Mills, C. J. Moody, H. W. Stempel, C. Tonkin, H. E. Hoad.

DIVISION IV.

Honours—L. Taplin, A. F. Stanley, R. J. McEwin, R. S. Williams.
 Pass—H. E. Hoad, R. F. Nicholls, F. C. White, V. J. Lewis, H. W. Stempel, R. G. Brandwood, C. Tonkin, G. C. Davies.

DIVISION V.

Pass—G. C. Davies, O. Heinrich, L. Taplin, F. C. White, O. Kennett, A. F. Stanley.

DIVISION VI.

Pass—R. L. Williams, O. Kennett, G. C. Davies, F. C. White, W. M. Fowler, L. Taplin, G. G. Roach, R. G. Brandwood, C. Tonkin.

Old Boys.

Sir Newton J. Moore has felt compelled to resign the Premiership of Western Australia. The strain of his responsible duties has proved even more than his vigorous frame and spirit could bear. He retires amidst universal regret, and the hope is expressed that his health may soon be fully restored, and that he may again be able to serve his country even if in a less onerous position. On the last occasion on which he called here, when returning from a restful holiday in the Blue Mountains, we were glad to see how much better he looked.

The retirement of Mr George S. Cotton from the Honorary Secretaryship of the College, forms quite an event in the history of our School. Since its foundation only one name has signed the documents as the official executor of its Committee's actions, first that of the Hon. G. W. Cotton, and then that of his eldest son. For 25 years Mr. G. S. Cotton has given unremitting attention to all business of its Executive without a scintilla of fee or reward, and has laid the School under a lasting and incalculable debt of gratitude. We are glad that he will still accept a place on the School Council although only as a private member.

Mr. J. R. Robertson, long a master on

our staff, has been selected out of a large number of candidates to be Head of our newly-established Preparatory School. Mr. Robertson had charge of one of our youngest forms for about eight years, and it came to us as a great pleasure, that though there were many able men in the list of those applying, our Committee after long and careful consideration chose him. He has paid a visit to Melbourne to learn what could help him in his new duties, and the School is under great obligation to Mr. L. A. Adamson of Wesley, Mr. W. S. Littlejohn of the Scotch, and to Mr. G. E. Blanch of the Grammar for the facilities they afforded him in making his enquiries.

Dr. C. S. Mead, B.A., M.B., B.S., after a year's furlough in his native State, South Australia, has returned to East Bengal, where he has been working for many years as a Medical Missionary in connection with the Baptist Church. The Christian Union gave, and collected in the School enough to purchase for him a boat to aid him in his work in passing from island to island in the Ganges.

Leslie Burgess, B.Sc., the Angas Scholar, has paid a visit to Cambridge that he might take counsel with Alfred Chapple, M.A., and learn where best to secure the benefits of his scholarship. He was shown the Colleges and Labor-

atories, but finally determined to betake himself to Manchester and there enter the service of the famous Westinghouse Company.

To J. L. Jona has been awarded the very high degree of Doctor of Science of the Adelaide University. Professor Osborne, of the Melbourne University, who examined the thesis sent in, spoke with great praise of it, as showing original research; some notes on fishes' eyes and their refractive power were quite new discoveries and very valuable contributions to scientific knowledge.

Dr. Harold Chapple, now of Guy's Hospital, London, has obtained the degree of Fellow of the Royal Society of Surgeons of England. This is a very great distinction, and we congratulate him upon it heartily.

Hayley Lever is still at St. Ives, Cornwall. His large canvas, "The Port of St. Ives," which was exhibited at Pittsburg International Exhibition, is now in the new art gallery, Plymouth. "The Haven Beneath the Hill" is hung at the Walker Art Gallery, Liverpool; "The Moonlit Harbour" at Cheltenham Art Gallery; and "Between Lights" at Derbyshire Corporation Art Gallery. He has six pictures in the Royal British Artists' Exhibition, three oils and three water-colours. The large picture "Reflected

Lights" was praised in the *Times* and other London papers, as were also "Afternoon Light" and "Fishing Boats."

A. E. Hamilton has been elected President of the Institute of Accountants, vice T. C. Walker, who resigned.

Dr. Hugo Flecker, who after obtaining the degrees of M.B. and B.S. at the Sydney University proceeded to London, there further to prosecute his studies, has obtained the diplomas entitling him to write M.R.C.S. (Eng.) and L.R.C.P. (London) after his name, signifying further qualifications and success.

To T. Gordon Robertson, B.A., who is following up his theological studies at Mansfield College, Oxford, has been awarded a scholarship of £60 a year for three years.

Dr. David M. Steele, M.B., B.S., who has been resident surgeon of the Adelaide Children's Hospital, has been appointed to a similar position in the Brisbane General Hospital.

We are glad to see that Mr. J. H. Chinner (who has kindly undertaken the duties of school Secretary, so long and so faithfully discharged by Mr. G. S. Cotton) has been re-elected unop-

posed as Mayor of the important City of Unley.

Also A. A. Simpson has been re-elected Alderman for the City of Adelaide.

Dr. W. C. Grey gave us a call early this term. He was on his way from Western Australia, where he has long enjoyed a very successful practice at Kalgoorlie and Boulder Town, to Sydney where he will continue his professional career, and will find further opportunities of usefulness as a demonstrator in the medical school of his one-time University.

Arthur L. Langsford has been appointed assistant secretary of the Y.M.C.A., Adelaide.

Alex. Raws, our cricket captain of 1901, has been engaged in press work ever since. He is now on the staff of the *Argus* of Melbourne. In many ways he continues to take and show interest in his old school.

George Howitt shot splendidly for the Jubilee King's Prize at Williamstown. His score was entered as 321, the winners were 323. With one of the last shots it was signalled that there had been a "miss." A telephone message to the trench caused an examination and the news came back that there was a hit in the magpie ring. It was a

peculiar occurrence, but Howitt was undoubtedly entitled to the three. But he declined to take advantage of any misunderstanding, and insisted on being debited with a miss. This manly action cost him the match. It is a great joy to see in the *Register*, from which the above extract is taken, the bold heading "Howitt's Manly Action."

C. W. Matters was one of four to whom were awarded the Royal Humane Society's medals for conspicuous bravery in the South Mine in rescuing a fellow workman from death, themselves having long, arduous and dangerous work in doing it.

G. Alfred Hancock, M.A., gave us a call. He has been enjoying a furlough in Europe, and is on his way back to his beloved work in Hongkong.

James Shaw, B.Sc., back from his work at Mount Morgan, also looked in to see the old place and note its development.

Drs. E. C. Black, S. L. Corry, and R. A. Goode have been appointed House Surgeons to the Adelaide Hospital for the year 1911.

Dr. Herbert Basedow has written a valuable report to the South Australian Government on "Economic Geology."

The Rev. F. J. Searle, B.A. (Sydney and Oxford), has been ordained to the Congregational Ministry, and has accepted a call to the Church at North Perth, W.A.

Harold Darling, who has been on a business trip to Europe, has now returned to his native State.

We welcome back to his native land, Bret Day, who brings with him the Degree of Doctor of Dental Surgery from the Pennsylvanian University of Philadelphia and L.R.C.D.S. of Edinburgh. To him also was awarded a special Diploma from the Blockley Hospital in recognition of work done at that institution.

A. H. Bell, B.A., has been appointed to the staff to fill the vacancy caused by the promotion of Mr Robertson to be Head of the Preparatory. Mr. Bell comes with a great reputation as a scholar and a teacher, and we welcome him cordially.

The Adelaide University Rifle Team shot capitally in the Imperial Universities' Rifle Match. Oxford won the shield with 1496, and Adelaide came second with 1466, Cambridge third with 1442. Four "old Reds" were put in the S.A. eight—C. T. Madigan, W. W. Cooper, E. C. Black, and A. C. Bøer,

We congratulate them upon so fine a performance.

In the victory of the South Australians over New South Wales, which secured the Sheffield Cricket Shield once again for our State, we were glad to see that in the second innings four P.A.C.'s. were most useful, Clem Hill 156, Roy Hill 123, Dolling 67, and Solly Hill 25, or altogether 371—a goodly part of the total of the 499 scored.

A. E. S. Clarke, who has been the efficient Hon. Secretary of the Northern Areas Literary Societies' Union for the last three years, has now retired from that onerous post and has been elected its President.

To G. E. M. Jauncey, B.Sc., has been awarded a Science Research Bursary.

To J. L. Jona, D.Sc., has been awarded a David Murray Research Scholarship in Science.

J. R. Wilton, B.Sc. (Adel.), B.A. (Cantab.), now a lecturer in Mathematics at Sheffield University, has been appointed an examiner in Mathematics to the Universities of Sheffield, Manchester, and Leeds.

D. W. Stanley McArthur, B.Sc., who

since taking his degree at the Adelaide University has been engaged in mining at Broken Hill, and later at Stannary Hills, where he rose to the position of travelling inspector for the company's mines, is proceeding to the University of California, there further to prosecute studies in scientific mining.

Harold Holland and William Hogarth have left for Europe to further prosecute their studies in engineering.

Mr. and Mrs. Arnold Davey and two of their sons have returned from a trip round the world.

Mr. and Mrs. Percy Magarey have also returned to their native country after a similar enjoyable holiday.

P. "Rupert" Claridge has been taken into partnership by Mr. Edward Davies, the celebrated architect, to whom "splinters" was apprenticed.

Charlie Drew has been doing some splendid batting lately. His 125 for the Adelaide 'Varsity v. Port Adelaide was a fine performance, and so was his 92 against the Sydney University.

Charlie Dolling was chosen captain of the Australian Universities' team that played the South Africans in Sydney.

W. J. Colebatch, B.Sc., who has been Acting Principal of Roseworthy Agricultural College this year, has by the way that he has performed his important duties greatly added to his reputation.

Stanley Newman is having great success as a public singer. Madame Ada Crossley (Mrs. F. F. Muecke) has engaged him for her South African tour that is to begin next March. He was recently the other soloist with Lady Speyor at the Queen's Hall orchestral concert, under the direction of Mr. Henry J. Wood. Mr. Newman was recalled five times after singing Gounod's Vulcan Song, and at length, in spite of a note on the programme forbidding encores, had to sing again.

Arthur E. Howard, President of the Adelaide University Christian Union, is now at the Annual Convention at Blackheath, N.S.W.

J. M. Solomon, B.A., LL.B., who did so much as Hon. Sec. of the P.A.C. Old Collegians' Association in Western Australia, has been spending a holiday in his native state.

Thomas H. Rowell, who went to South Africa with one of the contingents at the time of the Boer war, and has been for some years head paymaster at the Loco. works at Pretoria, has been

appointed inspector of audit on the railways at Port Elizabeth, Cape Colony.

The Rev. E. George Neil, chairman of the Samoa district of the Methodist Missions, who has spent eight years in Samoa, and has been on furlough in his native State, has now returned to his beloved work.

Old boys have again done well this year at the Adelaide University. The full list runs as follows:—

Rhodes Scholar for 1910—C. T.

Madigan, B.Sc.

Angas Engineering Scholarship—L.

F. Burgess, B.Sc.

Science Research Bursary—G. E. M.

Jauncey, B.Sc.

D.Sc.—J. L. Jona, B.Sc.

David Murray Scholarship—J. L.

Jona, B.Sc.

Degrees.

M.B., Ch.B.—

E. C. Black.

S. L. Corry.

R. A. Goode.

M.A.—

C. H. Comley, B.A., B.Sc.

L. J. Darwin, B.A.

B.A. (Honours)—

J. B. Allen, B.Sc.

F. Ellis, B.Sc.

B.A. (ordinary)—

J. L. Rossiter,

B.Sc. (Honours)—

G. E. M. Jauncey.

B.Sc. (ordinary)—

H. T. Angwin.

H. H. L. A. Bröse.

P. C. A. Fornachon.

C. T. Madigan.

R. M. Scott.

Diploma in Applied Science—

W. B. Angwin, B.Sc. (Metallurgy).

R. J. Dumas, B.Sc. (Electrical Engineering).

A. D. Greenlees, B.Sc. (Electrical Engineering).

E. M. Holder, B.Sc. (Mining).

Diploma in Commerce—

A. H. P. Fry.

Final Certificate in Law—

H. C. P. Nesbit.

H. O. A. Rankin.

INTERMEDIATE EXAMINATIONS

(An asterisk denotes First Class.)

M.B. and Ch.B.—

4th year—A. C. Wilton, E. A. H. Russell, I. C. Hains, A. O. Böer, C. E. Dolling, H. W. D. Stoddart, C. F. Drew, L. G. Muirhead, E. B. Thomas, N. E. Seppelt.

3rd year—G. A. Burnell*, K. McEwin, L. G. Tassie.

2nd year—J. S. Verco* (Elder Prize), R. A. Haste*, S. E. Holder, L. L. Davey, B. W. Wibberley, W. J. Close.

1st year—F. L. Wall, E. A. Guymer, K. N. Steele,

LL.B.—

H. O. A. Rankin (Law of Property, I.)

E. W. J. Millhouse (Law of Contracts.)

R. M. Tucker (Law of Contracts).

G. S. Reed (Law of Contracts, Logic).

A. L. Pinch (Law of Wrongs, Private International Law, Psychology).

G. D. Cowan (Constitutional Law).

L. A. Whittington (Private International Law).

B.A. and B.Sc.—

W. G. Clarke—English Language and Literature, Logic.

W. L. Davis—History of the United Kingdom*, Greek (2nd year), Education.

C. G. Bennett—History of the United Kingdom, Education.

A. E. Howard—Latin (2nd year), Greek (2nd year).

C. H. Comley, B.A., B.Sc.—Latin (2nd year).

A. G. Carne—Pure Mathematics (1st year)*, Organic Chemistry.

E. G. Stephens—Pure Mathematics (1st year)*, Physics (1st year)*, Physics (2nd year)*, Theoretical Chemistry (I.)*, Practical Chemistry (I.)*

W. J. E. Phillips—Pure Mathematics (1st year)*, Organic Chemistry, Biology.

F. J. Basedow—Pure Mathematics (1st year), Applied Mathematics, Geology (Part I.)

- A. P. C. Hart—Pure Mathematics (1st year), Education.
 R. G. Wilton—Pure Mathematics (1st year), Physics (1st year), Compulsory Chemistry (Theory only).

AUSTRALIAN CORPORATION OF
 PUBLIC ACCOUNTANTS.

- L. B. Shuttleworth.
 SCHOOL OF MINES AND INDUSTRIES.
 F. G. Rooney—Diploma (Mining and Metallurgy).

 C. R. Sutton—Woolclassing*.
 M. W. R. Rigby—Woolclassing.
 R. G. Wilton—Mechanical Engineering (I.), Woodwork.
 W. W. Cooper—Mechanical Engineering (III.)*
 A. C. Brown—Mechanical Engineering (III.)
 F. C. Catt—Advanced Bookkeeping

- J. S. Shipway—Fitting and Turning*.
 P. E. Correll—Fitting and Turning*.
 R. G. Wilton—Fitting and Turning*.
 W. A. Potts—Fitting and Turning.
 F. A. Potts—Fitting and Turning.
 H. T. M. Angwin—Machine Design.

Obituary.

We regret to record the early decease of Edwin Ernest James. He came to us as a boarder from Balaclava at the beginning of 1905. Later his father moved to the West and engaged in business at Greenbushes. The business grew and Ernie became increasingly valued in it. It is pleasing, though sad, to read in the *South Western Herald* such words as these:—"Ernie James was a young man of fine character. He bore the respect and esteem of all who knew him. Though quiet and unassuming, he wielded a strong influence for good upon his associates. As a son, no parents could have had a better. Honourable and upright in all his dealings, he possessed all those qualities that make for a successful business man. The funeral was one of the largest seen in Greenbushes. Wreath after wreath bore eloquent testimony to the love and esteem kindled in many hearts

by the life which was full of gentleness, manliness, and goodness." A similar testimony was borne by the *Blackwood Times*. The minister officiating at the funeral was an old schoolfellow, the Rev. G. McLaren ("Archie.")

Annual Concert.

The Annual Concert held on October 22nd was as usual the occasion of a display of undoubted, and, in some cases, unsuspected talent. The performance of a varied programme showed careful training, especially on the part of the juniors, and Mr. Robertson is to be congratulated on the splendid result of his efforts. We would take this opportunity of thanking those who so kindly assisted in this concert, the proceeds of which go to the sports fund. The overture from the orchestra paid a high tribute to Mr. Grigg's patience and musical ability. Miss Doris Peacock was again present with us, and delighted all with her charming rendering of "The Lass with the Delicate Air," and "'Neath My Lattice," which was applauded by an audience who would be content with nothing less than an encore of both.

Botten in his usual dashing style won unstinted applause with Frimes' "Reveil du Printemps." The audience was moved almost to tears by Fowler's recitation of the "Suicide," a pathetic story of a razor which was used only for shaving. The Scotch members of the audience were thrilled by the realistic strains of the bagpipes in the chorus "Sandy McClusky," which was droned out by a body of boys trained by Mr. Robertson. Mr. Rowley charmed his audience with his classic rendering of two songs, which if possible even exceeded the expectations of those who heard Mr. Rowley sing at the Old Scholars' Service. Another quartet of small boys raised a hearty laugh by their "Tale of True Love," which should prove a warning to all amorous sausages in the future. Mr. Hancock convulsed all by his original humour, and was recalled again and again. After the interval, during which the company was treated to "John Brown's Donkey," with variations, Botten and Jarrett went to the piano and made a very favorable impression by their performance of "Qui Vive!" Cleland in his usual style contributed an amusing item with Jerome's "Babies." After more well sung choruses by the singing classes, a very enjoyable evening was brought to a close—all too soon for those who in rapt attention had forgotten the flight of time.

Broken Hill P.A.C. Old Collegians' Dinner.

The annual re-union of the Prince Alfred Old Collegians at Broken Hill took place on October 28th when a most enjoyable social was held. Mr. S. G. Lawrence (President) presided. Messrs. A. J. Hall, A. L. Wyly (S.P.S.C.), J. Noonan (C.B.C.) J. Hebbard, and W. E. Wainwright were amongst the visitors present. An apology was received from Mr. E. J. Horwood.

The Chairman proposed the first toast, "The King", which was music-ally honoured.

The toast of "The College" was proposed by the President. He said that in 1869 the College was opened with the Rev. S. Fiddian as Head Master. In 1876 Mr. Frederic Chapple took up the command, and the College went forward with leaps and bounds, and took first place amongst the colleges of South Australia. (Hear, hear.) Many of the Prince Alfred boys were right at the top of the tree in many parts of the world, and they could also account for some Rhodes Scholars. In the cricket field they had Clem Hill and Joe Darling holding up the College's reputation, and in Broken Hill one of the old scholars (Mr. C. Matters) had recently been presented with the Royal Humane Society's medal for an act of bravery in one of the mines. (Applause.) During

the past 12 months the College had, he was sorry to say, lost the services of Mr. Bayly, who had been with them last year. He hoped that the loss thus sustained by the College would not take any of the lustre away from it, as he believed that Mr. Langley, who had taken Mr. Bayly's place, was a good man.

Mr. H. W. Gepp, manager of the De Bavey Mine, in responding, said that one could not go wrong in saying that the College was a place of which they had many kindly remembrances, the place where they had learnt a great deal, and which had prepared them with the knowledge to face the world. The speaker then spoke reminiscently of his College days. He thought that the Prince Alfred College had done a great deal in framing the destiny of South Australia by the many brilliant men that it had turned out. They could go to all parts of the world, and they would find old Prince Alfred boys holding high positions. He had many pleasant recollections of the days he had spent at the College.

Mr. G. M'I. Hunter, accountant of the Central Mine, in proposing the toast of "Kindred Associations" said that in these days of free primary State education it might be asked whether their public schools were necessary. The answer to that was Yes, as it was impossible to duplicate the product, which became a valuable asset in the

national life of the country. The distinguishing features of the public schools were subtle and intangible, and were hard to define. They were more in the shape of character-builders than of imparters of information, intellectual smartness, and technical skill. The result of the public school methods was the building up of a class of men who were loyal and self-reliant, which it was impossible to reproduce under a State system, however well administered by the central bureau. No State system could take the place of the Colleges, but it should increase its usefulness in the primary stage. It therefore behaved all of them to maintain the prestige of the old school. It was necessary for the old scholars to realise and maintain a high ideal of citizenship and to show an active and patriotic appreciation of the grand heritage of the glorious Commonwealth. Those who actively identified themselves with the old scholars' society should not lose sight of the fact that the main object was to spur on and encourage the present and future scholars, and to make them realise the fact that it was no mean thing to be a scholar. They should also keep alive the members' interest in their Alma Mater. It was gratifying to know that there were two such societies in Broken Hill as the St. Peter's Old Collegians' and the Christian Brothers' Old Collegians' societies.

These kindred societies all had the same aims and objects as their own.

Messrs. A. J. Hall and A. L. Wyly (president and secretary of S.P.S.C.) and J. Noonan (C.B.C.) responded.

The toast of "The Prince Alfred Old Collegians" was proposed by the Rev. W. J. Mortimer. He was, he said, sure that if they looked up the various professions that had been followed up by old scholars of Prince Alfred College they would find that the church predominated. The real purposes of the College were the development of the mental faculty, the building up of the individual, and the development of moral character. Although they displayed a spirit of loyalty to their own College, they also desired to show a spirit of appreciation and enthusiasm of members of the other colleges. Touching upon the intellectual side, they could go to all the universities of the world, and they would find that Prince Alfred had men in all of them who were keeping the end of the College up and doing credit to it. Speaking of the physical side of the work of the College, there were many who stood high in the realms of that branch. He wondered that, seeing the Princes' achievements in the world of sport, they had not turned out a Jack Johnson or a Tommy Burns. (Laughter.) The speaker made feeling reference to the splendid show of courage recently displayed by one of their boys

(Clem Matters) in one of the Broken Hill mines. They were in a young Commonwealth, which would become a great nation, and he felt that the boys of the various colleges would be foremost in upholding the prestige of the Alma Mater of which they all felt so proud.

The toast was honored with cheers.

Mr. F. S. Wylie responded.

Mr. C. Matters proposed the toast of "The Visitors," which was responded to by Messrs. Hebbard and Wainwright. The latter, manager of the South Mine, specially referred to the act of heroism of four of his men, in which Clem Matters played an important time.

"The Press" was honored and responded to by the representatives present.

The programme concluded with the drinking of the health of the President, and the singing of "God Save the King."

The musical programme submitted was one of the finest heard at social gatherings, and was contributed to by a combination of talent seldom met with at socials. The contributors to the evening's enjoyment were:—Messrs. Fuller, Len. Dean, E. Broadbent, Clark, Mel. Brooker, Loveridge, Francis, Newbury, Clem Matters, P. Bowering, and S. G. Lawrence. Some exceptionally fine gramophone selections were supplied by Mr. Lawrence

at intervals during the evening. Mr. Mel. Brooker officiated at the piano, and rendered yeoman service.

The committee responsible for the carrying out of the arrangements consisted of Messrs. S. G. Lawrence (president), G. M'I. Hunter (vice president), C. V Matters, A. S. Clarke, G. Bowen, B. Williams, L. Cavanagh, W. R. Kennett, and Dr. Hains. As secretary and treasurer, Mr. F. S. Wylie was the right man in the right place.

J. A. LOVE,

Hon. Manager.

The Christian Union.

The first meeting of the third term was held on Wednesday, September 14th, the speaker being the Rev. Henry Howard, who delivered one of his amusing and spirited addresses, which was highly appreciated by those present. The leader was L. E. Clarke. At the next meeting we were favoured with an address by the Rev. T. B. Angwin, M.A.

Subsequent meetings were addressed by Mr. S. B. Hunt, the Revs. A. H. Teece, B.A., J. G. Raws, and A. J. Wade. The closing meeting was, as usual, taken by the Head Master, who said that the duties of a Christian are, firstly, to keep himself straight, and, secondly, to help others and inspire them to be Christians.

On October 19th, instead of the papers which were to have been read by G. E. Roberts and R. L. Davidson, the former of whom was indisposed, Mr. Haslam gave his missionary address which was appointed for November 19th. He spoke of the objects of the Union, namely to spread Christianity among our schoolfellows, and also throughout the world. He appealed to us all to do something. On November 9th the meeting was taken up by hymns, prayers and Bible reading. On the 16th and 23rd of November, there were no meetings owing to the fact that so many of our number were away for examinations, so that the pleasure

of hearing the Revs. W. A. Dunn, C. H. Nield, and B. Wibberley had to be postponed until next term.

The response to the appeal made by Dr. Mead was very good, and the sum of £2 17s. 6d. was collected from the School. This was made up to the required five pounds from the Christian Union funds. Three of the officers of the Union, Nield, Clark, and Davies, went down to the railway station to see Dr. Mead off, and handed him the amount, which he will use to purchase a suitable boat for his mission work on the Ganges.

The membership for the year has been 60.

The following letter was received from Dr. Mead during the last week of term:—

R.M.S. "Otranto,"

Great Australian Bight,

December 3rd, 1910.

Dear friends,

It was an unexpected pleasure to find three of your number waiting at the railway station with your letter and your gift. I am delighted to have this link with the old school. It was from a boat that the Master preached to the multitudes, and it will be from your boat that I shall have many a chance not only of preaching Christ, but also of exhibiting Him as I go about seeing my patients in the P.A.C. gig.

India is the home of a great nation destined to play a large part in the life

of the awakening East. To-day she is waking, and Christ is watching her wake. He wants us, too, to watch her wake, and not simply to watch her wake, but to take her by the hand, and lead her on to true greatness. She has no religion, among her many religions, that aims at the formation of character.

Christianity is the only religion that aims at this, therefore it is the religion for all men. Let us claim "the everywhere" for Christ, and all of us do our part in seeking to make the claim good.

May Jesus Christ be to each one of you a Master gladly served, and a Lord deeply loved. Dwelling in your hearts He will make every temptation to be as harmless as wet gunpowder.

God bless you all.

Heartily yours,

C. S. MEAD.

Address:—Dr. Mead,
Faridpur,
East Bengal, India.

Our Picnics.

HIGHER AND COMMERCIAL.

After many months of hard and anxious labour, the members of the Upper Sixth and Commercial Fifth forms held their annual picnic on Friday, November 25th. The College was left at 9 o'clock, and as the weather was all that could be desired, we all looked forward to a very pleasant outing. All went well until we reached the Poverty Corner of the Belair Road. On reaching this hill, our ardour was damped somewhat, but our finer thoughts for the noble beasts of toil who were dragging us to our destination prevailed, and with the well-known saying of Cæsar, *veni, vidi, vici*, in our minds, we abandoned the drag and reached the top of the hill. Before we commenced to find out our ascending powers, there was a vigorous discussion as to whether it would not be easier to

turn the hill upside down, but the negative side won. Without further mishap we reached our destination, the Oval, at Belair. A game of cricket was immediately begun, and many showed how well and how badly they could play. While this game was in progress, one of the non-sporting members of our party was attracted by something on the other side of the oval, and suddenly remembered that his horse, which lay (I should say, stood) in that direction, wanted attending to, but he stayed away so long that many others almost yielded to the temptation to go and find him. Cricket ended, lunch appeared. For this operation the boarders wisely retired to a secluded arbor "far from the madding crowd" of day boys whom they regarded with very envious glances. After lunch, cricket was abandoned for the more modern game of boy (?) scouts. On account of his success at this game, we heartily congratulate one who fulfilled all that his name would imply. One of our party, when caught by the other side, proudly gave expression to the now famous saying "What's *your* name? *Mine's* Ar-r-thur!" Our thanks are due to our historian for providing the outfit necessary for the success of this game. At the conclusion, we were suddenly startled by the loud cryings of our inner selves, who clamoured incessantly that their demands should be satisfied. After these intruding, but nevertheless

welcome, spirits had been silenced, we were entertained free, gratis, for nothing by one of our professors. The performer was in high "colour," especially in the face, and we all greatly enjoyed his effort. Finally, lest we might have too much of a good thing, and might not want to come again, we decided to start for home. The Park was left at a quarter to seven. The drive home was very beautiful, and its enjoyment was not a little added to by the singing (?) of our party. After driving through the main streets of the city to the accompaniment of the beautiful strains that lie nearest to every Red's heart, we reached the College at 8 o'clock, after a most enjoyable outing. Our best thanks are due to those who arranged the picnic, and who contributed so largely to its success.

—
SENIOR.

On Thursday, November 24th, one of the events of P.A.C. life took place, namely the Senior Picnic. Of course, it only concerns the boys of the Lower Sixth Form, which contains ALL the athletic and educational talent of the College.

The morning dawned showery and gloomy, but it developed into a delightful day for a picnic, the chief object of which was to soothe our fevered brains, and invigorate our worn out bodies.

Punctually at 9-20 a.m. the drag left the College with all except two of its

intended occupants. One of these was "Long Tom," and the other was—well, need we ask?—it was "Chook." Now we excused "Chook's" being late for the simple reason that he has never yet been known to be early. He did not care about breaking his record. We seek no other reason.

After a most enjoyable drive we reached the National Park Oval. But what was our surprise to see our missing members, plus Prof. Dunstone, who had journeyed up by train. They were evidently very pleased to see us, for they welcomed us with dogged silence and scowling brows, and they even "breathed forth fire."

At the oval we indulged in a game of cricket for some time, till our "inner men" reminded us that "we live to eat." Accordingly we replenished them with excellent repasts—especially the boarders, upon whom the day-boys cast many an envious and hungry look.

When lunch was finished, boys like Wade and Wark, feeling the strain of over-study, had recourse to a game of cricket. While those who loved nature (especially the fruit-gardens) and closely studied her, went for long walks. Some of them succeeded in reaching orchards, but upon asking permission for closer inspection they were refused, and were also warned off by dogs which seemed to have taken a dislike to these innocent and industrious observers of nature.

At about 7-15 p.m. the drag started

on its homeward journey. Some of us were sick of cricket, some sick of long walks, but strange to relate, none of us were sick of strawberries. Hearty songs were rendered as we entered the city, and all along the route we let people know that "Reds can't be beat." Cadet drill also afforded much amusement to us, but great discomfort to passing pedestrians. At last, weary and thirsty, we reached the College, and woke to realise the fact that "we were there because we were there." A hurried consultation was then held as to how many would attend school the next day—a kind of strike against work—and it was unanimously agreed that not more than thirty should put in an appearance; but this agreement was not kept. Three hearty Australian cheers brought to a close a most enjoyable and beneficial picnic.

UNIVERSITY FIFTH.

After our anxious and tedious tasks at the Junior Examination, the Head Master kindly consented to allow us to have a picnic at the National Park on Tuesday, November 23rd. We started from the College grounds at a quarter past nine, after waiting fifteen minutes for our number. We drove along North Terrace and turned into Rundle Street at Gawler Place. We were unable to proceed up Rundle Street on account of its being blocked by the Val-de-Travers Asphalt Co. Our fellows struck up

the school song, and were kept in tune by Jolly, who proved himself very efficient in the use of a tin whistle. We arrived at Karkas Gully at 11 a.m. The two fellows who are in the first eleven then picked up sides for cricket. One side was all out for 27. The ball came out of its cover soon after the others began their innings, and when about six wickets were down Maughan broke the remains of the ball in half, so that cricket had to be given up. Maughan, by-the-bye, is not a break bowler. We then had dinner, after which some of us went after strawberries, and after walking ten miles were at last rewarded with cherries. Two of the fellows saw some young lady friends and were missed for some time. The others played tennis, etc. We left Belair at eight o'clock and arrived at the College at a quarter past nine. Many of the fellows were hoarse, and others were not at school the next day—some could tell why. This is, I think, the only picnic from the College that was catered for, and all the fellows will agree that it was a brilliant success.

SUB-SENIOR AND JUNIOR FEAST.

The combined sub-senior and junior feast was held on Tuesday night, December 6th, and was in every respect a great success. The tables were very daintily laid out, and the catering was of the best. The time devoted to satisfying the inner man was further rendered

pleasant by a splendid programme of songs, recitations, violin and pianoforte selections. Altogether the whole affair was a great success, and the committee are justly proud of it. K. J. McEwin was Chairman for the evening and he filled the position nobly. The other members of the committee were as follows:—R. E. DeGaris, W. S. Jarrett, C. Tonkin, and V. Lewis (treasurer). Mr. Robertson was present at the feast for some time, and caused much laughter by singing a very amusing ditty. He was also very lenient in allowing the merry-makers to prolong their revelry till 9.45 p.m., for which they were deeply grateful to him. The supply of provisions was adequate; indeed there was a superfluity of the dainties which had been provided. H. W. Botten opened the programme at 8 p.m. by rendering a pianoforte solo, then at intervals followed the other performances. W. S. Jarrett sang a song entitled "The Deathless Army;" all admired his voice and the expression he put into his singing. Other items worthy of mention were A. L. McEwin's humorous reading of "An Irish Letter," and A. W. Copley's speech to "Present boys leaving." The chairman congratulated Mr. Robertson on his having been appointed Head of the Preparatory School to be opened next year, and hoped he would have every success, which good wishes all present endorsed. Mr. Robertson thanked the company

and hoped that those leaving School would have every succes in their future life, and that those returning would not work too hard. After this, the toast of the King was proposed and drunk with musical honours and then the company dispersed to their dormitories. All had spent a very merry and never-to-be-forgotten evening. Many thanks are due to the committee for their arranging for the catering, etc., and to H. W. Botten for accompanying the singing. We were very sorry that T. D. Phillips was away at the hospital suffering from mumps, and that our "tailor's dummy" was called away in the afternoon; we missed his jokes and general activity.

Form Notes.

UPPER SIXTH.

Once more a year draws to its close, and we look back with mingled feelings on days spent profitably or otherwise, but now beyond all recall. This one has worked hard, fulfilled his own and (more important) his family's expectations, and looks forward to entering upon a new life at the Varsity next year. That one is just beginning to realize that the year is gone, and he has nothing to show for his wasted time. In the main it has been a pleasant year. We have been a happy little family, and will find it hard to part, never to be re-united. Those who are leaving call

to memory many incidents of their school life as they say farewell to the old College. Their first day, their mad enthusiasm at the intercoll. matches, an imposition, a lark, perhaps at the expense of some other new boy, then, as they grow older, the excitement about exam. results, their first match for the Firsts, the pride with which they hear their names read out on Speech Day—all these pass in review before their minds.

We have not done very brilliantly on the whole in the "Higher" this year, but this is in a large measure due to the popularity of Science among our fellows, who are in many cases taking up the medical or other professions in which science is necessary. This ranks much lower than Greek and Latin in the exams. Thus those in other colleges who specialize more in classics, in many cases take the highest places in the exams. We are pleased to record that our dux, D. L. Barlow, took first place in South Australia, and we heartily congratulate him and also our two other representatives on the general honours list.

Mr. Iliffe has reason to be proud of his year's work, especially in getting the four medicals through in every subject.

We have two representatives in the First Eleven—Ashby and Rogers—and are justly proud of their prowess; the bowling of the former, and the splendid fielding of the latter in particular win-

ning our admiration. Our marsupial pet still "mooches" about, thinking out silly questions to ask the masters. He reports that he has not gone off his feed since hearing the exam. results. Arthur (better known as Bub) is as entertaining as ever with his rendering on every possible occasion, of such classics as "My Wife's Gone," etc. He indignantly denies the assertion that he was seen to enter Simpson's on the day of the physics exam.; he was merely on his way to make a call on the examiner. Another of our fraternity wishes to notify the general public that he has had a surfeit of "fatted calf," and intends to return to the husks, or, failing that, to bread and water. Our only boarder wishes to know why everything looks blue, and life appears unattractive the day after the boarders' feast. We have Barlow's authority for the assertion that he intends to forego "swotting" for Christmas week, and purposes to devote himself, with the ardour which he employs in all his pursuits, to the cultivation of the of the fair sex. We remind him of the famous motto, "Amor omnia vincit." We have been informed that the Golden age of literature is past, and the decadent times of science are among us. We cannot believe it after reading some of Jimmy's effusions, which purport to come from the IV.L. Our famous (?) lawyer, notable in our childhood's days for the pepper incident, assures us that

there is no immediate fear of a quarrel with Georgie. We shall enjoy our holidays much better for the knowledge that he is enjoying his. Others of our noble fellowship, such as the two foot decorators, the socialist, the history genius, and the language crank, have been as much to the fore as usual, and join in wishing everybody inside and outside the college a merry Christmas, a happy New Year, and a jolly vacation.

LOWER SIXTH.

In submitting our third term's report, the first matter to come under notice is the Senior Public Examination. The first paper, arithmetic and algebra, appeared to cause great consternation amongst the majority of the candidates, and the members of our class were unanimous in their opinions that it was the most difficult paper. We all considered the other papers fair enough, and the student who has worked diligently should reap the reward of his labour.

The annual picnic was a most enjoyable affair, and formed a happy ending to the toil of the examinations. While amongst our beautiful hills the weary brain quickly resumed its normal condition.

Our form was well represented in the cricket eleven by Steele (Captain), Willcox (Vice-Captain), Warnecke, Virgint, Cole and Brooker, and we

congratulate the new members on their inclusion in the team.

Southwood is still at the head of our form, and if he does himself justice in the Senior Exam. he should figure prominently in the Honour list. Wade is no longer *sub ferula*, and so the class has lost a most industrious worker.

Several of our number are leaving, and to these we offer our best wishes for future success, and advise them to become members of the Old Collegians' Association, and so keep in close contact with, and be able to do much for, their *Alma Mater* and "the best School of all."

In reviewing the past year, we feel that the work has been satisfactory, and the best fellowship has prevailed among the members. One of the greatest contrasts imaginable has been that between the work done at the beginning of the year and at the end, by some of our fellows. During the third term they actually worked hard. *Fide mains!*

We trust that in after years all will remember the bright and happy days when they toiled at Cicero's "De Senectute," and we hope that they may thus be better fitted to pass through that time of life when age creeps upon them, and deprives them of those pleasures which we all so much enjoy as school boys.

UNIVERSITY FIFTH.

Gifford tops the form this term, and R. White runs a close second. The whole class has been working hard for the Junior Exam. and we are waiting anxiously for the results. We all sympathise with White, who has had trouble with his eyes. We are much indebted to our Form Master for staying and aiding us after school hours, and we hope that he will obtain good results. To Blackney we award the wooden spoon on account of his having a "back." According to one of our masters we have developed two young imps who have proved a veritable mine of amusement during the year. We wish all our masters a Merry Xmas and a Happy New Year, and hope they will all enjoy their rest in the holidays after the year's toil.

COMMERCIAL FIFTH.

The work this term has been undertaken wholeheartedly, and the results of the Junior Commercial should show an improvement on those of other years.

We deeply regret that our form master, Mr. Shortt, is about to give up teaching.

We must congratulate Roach on obtaining his place in the first eleven for cricket; also Norton and R. F. Nicholls, who have been selected as emergencies. Roach is to be congratulated also on obtaining the gold medal as the best gymnast at the College this year, and

for obtaining second place in the Inter-collegiate Gymnastic Competition, Norton for winning the silver medal for gymnastics, and Leslie Nicholls for gaining the general proficiency medal.

We all heartily congratulate Kenneth Drew on obtaining the top place in our form this year.

We held our Annual Picnic at Belair, and as usual had a very pleasant outing.

Very little has been heard of our famous schoolboy detective, but in his silence he has discovered some very interesting facts, which may be obtained on application.

Our bulldog has ceased to bark since he read the "Deserted Village," for he has found out that barking shows the vacant mind.

One of our fellows was so anxious to have a shave, that he could not wait till he got to town, but let some of the senior boarders help him out of the difficulty.

We are very glad to have such distinguished persons as Nolly Goldsmith, Mark Twain, and Marley's Ghost amongst us.

Drew is to be congratulated on his high scores for the seconds in cricket; but of course he never had the luck that other people always have.

Only one strange thing has happened this term--an old rule of geometry has been broken, namely: our Base-b(o)y is nearer the top than the bottom of the form,

We have some very good artists amongst us, Hoad, Tonkin and R. F. Nicholls, who have obtained many passes in the Royal Drawing Society Examination held last term.

Lastly, but not leastly, we wish our masters a very merry Christmas and a happy New Year.

UPPER FOURTH.

With the Primary over, the Upper Fourth entered on the third term with feelings of relief and with interest in new work in preparation for the Junior next year.

In memory, however, of the heroic efforts made to pass the Primary, our fellows held a picnic in the National Park, Belair. Drags left the College packed with enthusiasts off for a day's outing. Belair was reached without accident, and, after an hour or so at cricket, dinner, to which we did full justice, was served. After dinner we filled in our time, some at cricket and tennis, others by going for walks. We left Belair about half-past six, feeling tired and weary at the end of a very enjoyable day. The thanks of the class are due to the energetic secretary, K. J. Mellor, and also to the kind donor of the oranges. The work in class this term has been very well done, sixteen out of the thirty-one fellows gaining certificates. The top boy is H. L. Rayner, who has held this position throughout the year.

The struggle for the Elder Scholarship this year was very keen, four boys entering for it, one from the Middle Fourth and three from our own form. The successful candidate was H. L. Rayner with C. E. Dorsch *proxime accessit*. The class offers its congratulations to both Rayner and Dorsch for the keen fight they put up, ten marks only separating them at the finish.

K. J. Mellor obtains the silver medal for being top in the gymnastic class.

In the Royal Drawing Society's Examination our fellows have been very successful. The following passed:—Heinrich, Davies, Taplin, Copley, Mellor and Fowler. H. W. Botten obtains a music prize presented by Mr. E. E. Mitchell.

We have heard from our friend Menz several times; he hopes to be with us next term.

At the Annual Concert attention was called by the Head Master to the number of Upper Fourths that were distinguishing themselves in the concert, Botten, Jarrett, Fowler, Wade, Mahnke, Humphries, Schmelzkopf, Böer and Heinrich. At the Speech Day, Fowler will be our representative in the recitations, and we have several boys in the choruses. G. C. Davies was chosen by Mr. Ashton to design and paint the School Roll; he and Heinrich obtain prizes for painting and drawing. Although we have not a

member of the class in the cricket team this year, we are proud to state that Wade is the 1st eleven scorer.

MIDDLE FOURTH.

As Mr. Robertson's present scholars, we are glad that the committee have selected him as master of the Preparatory School, and we heartily congratulate him on his success.

We must congratulate Harris and Mengerson on tying for top place in the form, also the boys of our company who passed the Primary at the end of last term.

Our form has been successful in gaining ten certificates and there has been a very healthy rivalry for the first six places.

Although he was not successful, we are glad that our candidate (Mengerson) put up such a good fight for the Lower School Scholarship.

This term we tried to arrange several cricket matches, but for some reason or other the other forms didn't seem anxious to meet us.

We shall be sorry to lose some of the members of our Dormitory and shall miss the witty sallies and artistic designs of "Eblis," and we are sure Mr. Bennett and Mr. Ashton will also greatly miss him.

We wish all our masters the compliments of the Season and hope they will have a very enjoyable holiday.

LOWER FOURTH.

Throughout the year good work has been done and we hope to reap the benefit in time to come. Our elected captain of the Lower Fourth cricket team is G. Teakle, who distinguished himself by gaining a place in the Thirds. The team was successful in all its matches; it only played one, against the Upper Thirds. The only new scholar to enlarge our small (yet intellectual) band was Teakle from Golden Grove. We all congratulate French on coming top of the final examinations, and also Kleinig, who came top of the form. The Lower Fourth has been but little interfered with because of our wornout Pistol, which on the least provocation goes off. This talented youth has written a brilliant poetical effusion, "The Portrait of the Somnambulist," which reflects distinction on the remainder of our illustrious company.

We were lately informed that R. A. Davey has returned from England, and we hope to see him back at school next year, looking the better for his tour round the world.

We all sympathise with Treloar on having his shoulder dislocated, and with Phillips on being accused of having mumps and being carried off in a taxi-cab.

We are sorry to hear several are leaving us this term, and we who are left wish them every success in the new life they enter, and trust that they will

live up to the traditions of the Form and bring to it glory and honour like unto their predecessors. We also trust the deductions they have learnt in mathematics will be of value to them in working out solutions of life's difficulties.

The gymnastics of our class is very satisfactory, and Mr. Bennett has not been compelled to use his bamboo cane so frequently. H. Basedow is top of the gymnastic class, but Kleinig ran him a close second.

We are sorry to hear our mathematical master, Mr. Shortt, is leaving us at the end of the year. We shall miss his facetious little phrases, and kindly parental care, and we wish him every success in the future.

UPPER THIRD.

The Upper Third form have again been successful in sports this term. We are the proud possessors of a cricket team, under the skilful guidance of our old football captain, G. R. Dreyer, with C. R. Williams as vice. We were not successful in winning the first match against Lower Fourth, owing to the fine performance of their captain, Teakle. Our scores were 37 and 155. Amongst the best scores were Claridge 64, Dearlove 19, Pearse 15, and Caldwell 14. In the second match we defeated Lower Third by scoring 98, and 17 for 4 wickets against 51 and 63. Claridge scored 48 not out, and Hall 10. A little later we again showed

our superiority over Lower Thirds by scoring 105 to 64. Pearse 28, Caldwell 21, Dearlove 13, and Snow 12, were the principal scorers.

We heartily congratulate our form master on his success in obtaining his M.A. degree; also Mr. Robertson on his being appointed Head Master of the Preparatory school.

We were very sorry to lose our classmate, Evans, who had to leave us in the middle of the term, owing to business calling him home.

Martin and Dearlove fired for P.A.C. in the Schools of the Empire Rifle Match, at Port Adelaide.

Several Upper Third boys are preparing to recite and sing on Speech Day. We are sure they will do their best for the honour of their class.

We congratulate Dreyer on obtaining the gymnastic medal, for which he has worked hard.

We also congratulate Archie Dearlove on coming top of the form; he has worked well and thoroughly deserves the high position he has gained. Peters, our champion high-jumper, obtained second place.

— LOWER THIRD.

Our class is a little better at cricket than it is at football. We played the Upper Thirds this term. Plush (our Captain) played very well, and Gosling hit Claridge for two sixes. He also secured a number of wickets. How-

ever, in spite of all his exertions we did not win.

In the Gymnasium Engelbrecht has done well, and has kept up the reputation of his form by coming top of both the Lower and the Upper Third, and third of the boarders—a feat that makes us feel justly proud,

The Junior Union picnic was held at Brighton, on October 12th, and the boys with Mr. Blacket and Mr. Carne had a very enjoyable time.

Budding artists are springing up in the form, five of whom competed in a recent examination, in which they proved their ability to such an extent that they all received certificates. These boys are also putting specimens of their art in the Town Hall on Speech Day.

Four of our boys took part in the annual concert held this term.

— SECOND AND FIRST.

We have the same number of boys in our Form this term as last, excepting Bruce, who was promoted to the Lower Third. The top boys are the same as last term's:—Upper Second, F. E. Piper; Lower Second, H. R. Lavis; and First, Stanley Flint, and we heartily congratulate them. We have not won many certificates this term—only two, and they go to F. E. Piper and "Captain" Dingle. We also have to congratulate R. H. Gordon, who came top of our Gymnasium Class.

He was also top last term, and he gets the medal.

One of the boys in our Class thinks that the Village Blacksmith's wife was "Mrs. Smith."

We thank Miss Chapple for the interest she has taken in the Junior Christian Union, and for distributing the presents amongst our members at our last meeting.

Cadet Notes.

We have just concluded a most satisfactory year with regard to the School Cadet Corps. The numbers have been well maintained and great enthusiasm has been displayed by most members of the Corps. The two senior companies have done excellent work, but "G" Company has not shown quite its best form. Until the juniors take a greater pride in their appearance on parade their work will be ineffective.

Signalling has been continued under Sergeant Hübbe, and some of the lads are becoming quite expert in the art of sending messages. Several boys are attending a class of instruction for bugling and are making satisfactory progress.

Our classfiring results for this year show an improvemet on the previous year. The details are as follows:—

B Company.—Marksmen: Lieutenant McCoy, Sgt. N. B. Hall, Cpls. J. M.

Maughan, H. E. Hoad, N. Richardson, Lce.-Cpls. Matters, H. W. Davies, C. Thomas, Cadets R. L. Williams, Warnecke, H. C. Collins, Rogers, Dearlove, Martin, Tonkin, C. R. Williams, K. M. Drew, R. White, Dunsford; First Class, 19; Second Class, 9; Third Class, 10.

E Company.—Marksmen: Capt. Blacket, Lieuts. H. M. Charlick, Willcox, Col-Sgt. Marshman, Sgts. Basedow, Norton, Cpl. Bollen, Cadets Kidd, Heinrich, S. Blacket, Goudie, W. Green, Evans; First Class, 17; Second Class, 13; Third Class, 18.

G Company.—Marksmen: Cpls. Roach, R. F. Nicholls, Cadets Kleinig, R. H. S. Dunn, A. G. Drew, Schmelzkopf; First Class, 14; Second Class, 9; Third Class, 18.

We again entered a team in the Schools of the Empire Shooting Competition, and the match was fired at the Port Adelaide Range, on October 29th. Our period for practising was cut short owing to the rifles being required at the Staff-Office, and this fact, combined with the inexperience of the boys with the new aperture sights, prevented us from putting up a large score. The weather was all that could be desired and a breeze of moderate strength was blowing from the rear. The ranges were 200 and 500 yards, with seven shots and a compulsory sighter at each.

The team and scores are as follows :—

	200	500	Total
Cpl. J. M. Maughan ...	28	29	57
Sgt. F. N. Norton ...	28	26	54
Cadet J. N. Davies ...	28	25	53
Cadet R. Warnecke ...	30	22	52
Cadet R. L. Williams	27	23	50
Cadet D. C. Kidd ...	25	19	44
Cadet O. Martin ...	27	16	43
Cadet A. S. Dearlove	14	13	27

On September 29 and October 6 our detachment was inspected by Captain Ralph, our Staff Officer. The companies were put through a little work by their commanders, and then the sections were handed over to the sergeants, who performed very creditably.

The School was well represented by a strong detachment at the Annual Memorial Service to the soldiers who fell in South Africa. The service was held on September 18th, at the Parade Ground. Our Battalion was under the command of Captain Freeman, and formed with the Garrison Artillery one side of a square. We were at too great a distance from the speakers to hear the addresses. After the service the troops marched to the Soldiers' Statue, on which wreaths were placed by the commander of each unit. We were indeed glad to show our loyal appreciation of those who gave up their lives in their country's cause.

Cricket.

The first half of the cricket season 1910-11 has been, on the whole, very successful. Although the Oval Match against S.P.S.C. was lost, our first eleven has done well. Seven matches in all were played, of which five were won and two lost.

The matches won were against East Torrens and Adelaide (B Grade), the Adelaide Police, a University Eleven, and P.A.C. Old Scholars; those lost against Gilberton and S.P.S.C. (B Grade).

Steele was our most consistent batsman during the season, and of the others Willcox, Darling, Warnecke, Ashby, and Swann showed good form. The bowling honours fell to Ashby, who was well supported by Brooker, Cole, and Willcox. Only four of last year's team were in this season's eleven, and the lack of experience in the other members of the team was a great handicap. Steele (captain) and Willcox (vice-captain) set a good example in fielding, and were well backed up by the rest of the team, so that in this department the eleven compared favourably with the teams of the past few years.

The Second Eleven also had a successful season. Of the six matches played, three (against Koritors, Concordia Col-

lege, and S.P.S.C.) were won and three (against S.P.S.C., Sacred Heart College, and Kyre College) were drawn. Drew, H. and F. Collins, and Norton were most successful in batting, and R. F. Nicholls, and H. and F. Collins in bowling. The team was under the captaincy of Piper and I. Pender.

The Third Eleven also played six matches, their record being—won 4, lost 1, drawn 1. The wins were against High School II., Kyre College II., Harrowville and Adelphians; of the two matches played with S.P.S.C. III., one was lost and one drawn. DeGaris, Richardson, and Kelly did the bulk of the scoring, and Campbell, Clarke and Mengersen took most of the wickets.

A considerable addition has this year been made to the area in the front ground under couch grass. At the close of last football season about an acre was ploughed up, levelled, and sown; the grass has come up well and the ground has been top dressed, so that at the beginning of next year there should be very little of the ground used by the First Eleven not in good order. The contrast between the portion improved and the rest of the ground is now very marked, but as the old boys of the School are taking in hand the completion of the work, we trust that with their generous assistance we shall soon have a sports ground second to none in the State.

v. Adelphians.—P.A.C. 129; French 29, De Garis 28, Wade 19. Adelphians 116, French 4 for 25, Cleland 3 for 5.

v. S.P.S.C. III.—P.A.C. 58, Marshman 19. S.P.S.C. 152; Teakle 2 for 10. Clarke 2 for 18, Mengersen 1 for 2.

CRITIQUE OF THE TEAM.

(By the Captain).

I. E. Ashby.—The best bowler in the team and has performed most consistently in every match, keeping a splendid length, and on a good wicket makes plenty of pace off the pitch. Probably the most improved batsman in the team but needs to improve his defence. Rather slow in the field, but has taken some good catches.

A. D. Brooker.—A promising left hand bowler who gets any amount of work on the ball. Keeps a good length and often entices the batsman to have a go. He might with advantage vary his pace more. As a bat, is steadily improving but is very weak in the field, although a trier.

C. R. Cole.—A much improved all round cricketer. Bowls round the wicket and swings well across, but should bowl more for the slips and fewer full tosses. Is a most difficult batsman to dislodge when runs are needed. Good catch and sure field with good return to the wicket.

V. Darling.—A batsman with a splendid cover stroke and off drives. Rather a bad starter but scores freely all round the wicket when set. Has kept wickets well, but did not do himself justice in the College match. Should be an excellent man next year.

G. E. Roach.—A left-handed batsman with a nice drive, but should endeavour to cultivate more strokes to the on. Too inclined to step away from his wicket, especially to fast bowling, but is gaining more confidence. Smart in the out-field, but his catching might be improved.

J. H. Rogers.—Has improved rapidly as a leg-break bowler, making any amount of pace off the wicket. As a bat has a fairly good defence, but still very weak on the leg stump. Good catch, but must learn to return ball from the out-field as quickly as possible.

L. K. Swann.—Has the makings of a splendid cricketer. A batsman with a very sound defence and possessing great patience, and with more strength and experience will increase his strokes. Bowls a good leg break and is a sure field as cover point.

A. H. Virgint.—Shows decided promise of becoming an excellent bat, having a good defence, but he could with advantage put more power into his off drives. Has fielded splendidly at point and may turn out a good bowler.

R. Warnecke.—A batsman with plenty of strokes and hits hard when

set, but owing to nervousness is a bad starter and at first does not play with a straight bat. Still rather inclined to play back too much. Appears to have gone off in fielding.

C. A. Willcox (Vice-Captain).—Has batted most consistently and with marked improvement. Possesses a fine off-drive and cover stroke, but is rather uppish in the slips. Bowls a medium pace ball with a good length, and is a good catch and fast in the out-field with a good return.

(By the Team).

D. M. Steele (Captain).—Is easily the best bat in the team; he has a splendid defence, hits hard all around the wicket, and places well. He played a magnificent innings in the College match, under trying conditions. He fields brilliantly at mid-off, and is a sure catch (has not missed a single chance in the year). When necessary he can bowl well. As captain he has shown great ability and tact, is a thorough "sport," and has set a good example throughout.

Intercollegiate Cricket.

Ideal conditions prevailed on Saturday, December 10th, when the two colleges met on the Adelaide Oval in friendly rivalry. Murray won the toss from Steele, and sent in Moyes and Richardson to bat on an excellent wicket. Ashby and Brooker opened

the attack for Princes, and in Ashby's second over Moyes was caught in the slips by Wilcox.

1—9—12.

Murray filled the vacancy, only to see Richardson caught by Willcox in the deep field off Brooker.

2—3—12.

Davidson joined his captain, and a determined stand was made. Frequent changes were made in the bowling, but the pair were not separated by lunch time, when the score stood at 95 for 2 wickets, Murray being 57 and Davidson 22.

After lunch the attendance increased to about 2,000, in addition to the college boys. Murray brought up the century by hitting Swann to the leg boundary. Ashby relieved Swann, and at 121 Davidson patted a soft one back to the bowler.

3—30—121.

Davidson had batted well when runs were badly wanted, and the partnership had put on 109 runs. Swift joined Murray, but was soon out l.b.w. to Ashby.

4—2—125.

Pellew came in, and saw Murray touch one from Cole, and Ashby in the slips accepted the catch.

5—79—129.

Murray had batted brilliantly, and hit 6 fours. He was at the wicket for 115 minutes.

Pellew and Daw now came together,

and the rate of scoring fell considerably. When he was 20, Pellew gave a chance to Cole, but the fieldsman slipped and the catch was dropped. Soon after, Ashby badly dropped Daw in the slips off Willcox. Pellew reached his 50 by hitting Ashby to leg for four, and at the tea adjournment the score was 218, Pellew 53, and Daw 35.

When the players came out again, Willcox went behind the wickets in the place of Darling. The batsmen now scored much faster, and Pellew passed his captain's score by cover-driving Ashby to the asphalt. Virgint was given a try to see if fast bowling could separate the pair, and the change proved successful, for in his second over, the bowler clean bowled Pellew.

6—83—269.

Pellew had batted very well, and was at the wickets for one and a half hours. He hit 11 fours, and the partnership yielded 140 runs. Woodley followed, but at 289 Daw's useful but rather lucky innings came to an end. He swung at one from Ashby, missed, and was clean bowled.

7—58—289.

Moulden saw Woodley yorked by Brooker, and the board then showed

8—15—294.

Jose joined Moulden, and runs came steadily. Rogers was put on for the first time, and at the point of time had Jose out l.b.w. for 16. At the end of

the first day the score was 9 for 328, Moulden being not out 8.

—
SECOND DAY.

The game was resumed on Monday in fine weather. Symon accompanied Moulden to the wicket and took strike to Ashby. Brooker bowled from the Cathedral end. The score mounted up, Symon helping it along with some splendid drives. At 368 Symon put his leg in front of one from Ashby, and the innings closed, Moulden remaining not out 18.

The score would have been much smaller if some of the Princes had fielded better; but Steele, Willcox, Cole, and Swann were consistent throughout.

Ashby and Steele opened the innings for the Reds to the bowling of Moyes and Davidson. Disaster set in early. Steele was caught off Moyes without scoring, and off Davidson's fifth ball a snick from Ashby was smartly snapped up in slips. The board then showed 2 for 6, and the Reds' supporters were downcast.

Willcox and Warnecke now became associated and the score increased chiefly by singles. Warnecke was batting confidently, but the field was so well placed that runs were hard to get. The two remained together till lunch time, when the score stood at 2 wickets for 25, Willcox 13 and Warnecke 8.

After the adjournment Warnecke

increased his total by three, and was then clean bowled by Moyes.

3—11—29.

Darling now came in and hit the first boundary of the innings, and soon after brought up the half century by a fine leg hit for three. Pellew now took the ball, and with his second delivery clean bowled Willcox.

4—19—53.

Willcox had batted slowly and hit 15 singles. He had made runs when they were very badly needed.

Swann partnered Darling, who was batting well. Then Darling had a piece of bad luck. Swann hit a ball to point. Darling called for a run, but Swann did not move, and Darling was run out. This was very unfortunate, as Darling was batting well and seemed thoroughly at home with the bowling.

5—17—58.

Virgint partnered Swann, and after making 5 was bowled by Moyes.

6—5—63.

Cole took his place, and started by cutting Moyes twice through the slips, once to the boundary. Swann, who had been in half an hour without scoring, now opened his account, and reached double figures, chiefly by singles. When Cole had made 23, he touched a rising ball from Swift, and Woodley behind the wicket took the catch. Cole had batted very well, and his partnership with Swann had put on 40 runs.

7—23—103.

Roach joined Swann, but in trying to make a short run, Swann was run out.

8-13-103.

Rogers filled the vacancy, but quickly lost his partner, who tried to hook a straight ball from Moyes, and was bowled.

9-3-107.

Brooker and Rogers were now partners, and the latter by forcing cricket brought his score to 11, when a ball from Davidson just removed the off-bail, and the innings closed for 118.

Saints' fielding was excellent, and the bowling was much too good for Princes. Moyes finished with the excellent average of 4 for 48. The innings only lasted 155 minutes.

Richardson and Moyes began Saints' second innings, but Moyes again failed, being the victim of a brilliant one-handed catch by Virgint at point off Ashby.

1-4-6.

Richardson was joined by his captain, and had made 12 when Brooker beat him with a beautiful leg-break.

2-12-26.

Murray and Davidson now came together, and, as in the first innings, runs came freely, especially from Murray. Fifty appeared in even time, and frequent changes in the bowling could not separate the batsmen. At last Cole again got Murray's wicket, this time bowling him with a perfect ball.

3-37-70.

Pellew joined Davidson, and narrowly missed being bowled by Cole's next ball. Stumps were then drawn, the score being 72 for 3 wickets, Davidson 17 and Pellew 2. The Princes' fielding was very good, Steele at mid-off being excellent, both in stopping hot drives and in picking up and returning.

THIRD DAY.

In consequence of St. Peter's having Speech Day in the morning, the game was not resumed till 2 o'clock on Tuesday. The pitch was now becoming broken, and was better suited to the Blues' fast bowling than to the slow bowling of the Reds. Cole and Brooker had charge of the bowling. When Davidson had added one to his overnight total, he was clean bowled by Cole.

4-18-79.

Daw followed, but was bowled by Brooker after making 1.

5-1-80.

Swift joined Pellew, and was bowled by Cole before he had scored.

6-0-81.

Cole was bowling very well, and was keeping a perfect length. Pellew and Symon brought up the 100. Ashby now relieved Cole, who had been bowling for 50 minutes. Pellew hit the new-comer twice to the boundary in

succession and brought up his half century after 75 minutes' batting.

Symon meanwhile had been batting quietly, but was bowled by Willcox when he was 22.

7—22—166.

The partnership had taken the score from 81 to 166. Pellew was now nearing his score of the first innings, but when one short of the total he was bowled by Swann.

8—82—190.

Pellew gave no semblance of a chance and hit well all round the wicket.

Moulden came in and made 8 before being stumped by Darling off Swann; and Woodley was bowled by Cole. The innings closed at 191, Jose remaining not out.

The fielding of P.A.C. was very good, and was a very great improvement on the first day. The fieldsmen were quicker in moving, and much surer in picking up the ball. Cole bowled very well, keeping a good length right through. He finished up with the excellent analysis of 4 wickets for 28. Swann also bowled well.

With an hour and a quarter to bat on Tuesday, Cole and Swann started on the task of making the 442 runs required by P.A.C. to win. Moyes and Davidson opened the bowling, and in the latter's first over Cole was smartly caught in the slips by Pellew.

1—1—2.

Darling was bowled by the same

bowler without any addition to the score, and Warnecke joined Swann. Moyes had bowled four maidens when he was relieved by Pellew. The rate of scoring was very slow. After making 10, Warnecks returned an easy catch to Murray.

3—10—18.

Willcox followed. He batted freely, and had bad luck in getting out. He played back to Murray, but the ball kept very low and shot under his bat.

4—11—36.

Virgint filled the vacancy, but was bowled by Davidson without scoring.

5—0—37.

Stumps were then drawn for the day. Swann remaining 13 not out.

FOURTH DAY.

The main features of the play on Wednesday were the grand innings of Steele, and the patient but valuable innings of Swann. Swann was quite content to keep his wicket up and to let his captain do the scoring. How well he did this is shown by the fact that while he made 27 runs Steele hit up 94.

For a while neither batsmen troubled about runs, but took time to play themselves in. Steele opened out by hitting Davidson to the leg boundary, and a little later drove Moyes hard to the on for four more. At 57 a double change was made in the bowling, Pellew relieving Davidson and Murray his vice-captain.

Steele gave a chance to Murray off his second ball, but the bowler dropped it. This was Steele's only bad stroke. The century was brought up by Steele with a drive for four and a couple of singles. Murray again came on to bowl, and had three fieldsmen each about 3 yards away from Swann in order to tempt him out. Swann at last yielded, for when he was 40 he went out to one from Murray and was stumped.

6-40-177,

Although Swann had taken 3 hours and 20 minutes, his innings was invaluable to his side, and he was loudly cheered on returning to the pavilion.

Ashby filled his place but was bowled by Davidson after making one. Roach was bowled next ball. Rogers saved the hat trick, and saw Steele bring up his century by snicking one off Davidson. Rogers made 8 before retiring, Brooker was out first ball. The innings closed for 209, Steele making 117 and remaining unconquered. Enthusiastic Reds bore Steele shoulder high off the ground. He played a brilliant innings and, with Swann, was the saviour of his side.

We heartily congratulate St. Peters on their well deserved win. Their batting and bowling was much superior, and their fielding was excellent at all times, no bad mistakes being made. Still, one cannot help feeling that if the Princes had shown the form which they

had in other matches, the result might have been different. The fielding on Saturday was very slack at times, and much of the bowling seemed to lack sting. The failure of their batting seemed to be through want of practice against a fast bowler.

Prince Alfred Collegians' Lodge.

On 27th September, at Bricknell's Cafe, the members of this Lodge met together for their Annual Dinner, when a very pleasant time was spent. After an excellent repast had been done justice to, and at which V.Wpl. Bro. J. R. Robertson presided in the absence of the Worshipful Master, Wpl. Bro. W. J. Angus, the following toast list gained the attention of the Brethren present: "The King and The Craft" was submitted by the presiding Master, who also proposed "The Worshipful Master," and during the course of his utterances gave the members some interesting figures regarding the welfare

and development of the Lodge, there being now 65 members on the roll, with 3 candidates awaiting initiation, whilst the financial side was also shown to be in a sound position, which led members to hope that ere long a Scholarship tenable at the College would be established out of the Lodge funds. "The Master-Elect" was in the capable hands of Bro. R. O. Fox, and Bro. A. A. L. Rowley made a masterly speech in responding thereto. Two legal brethren of the Craft, Bros. P. E. Johnstone and Herbt. Solomon, found ample scope for their powers of oratory in proposing and responding respectively to the toast "Our Alma Mater." Wpl. Bro. A. Robertson proposed in gracious terms "Officers, Past and Present," to which Wpl. Bro. W. H. Porter responded very appropriately. Harmony was provided during the evening by Bros. A. G. Annells, R. G. Neill, J. R. Robertson, A. A. L. Rowley, A. W. G. Pitt, W. H. Porter, and F. Lathlean, who proved a capable accompanist.

The installation of Bro. A. A. L. Rowley as Worshipful Master took place at the Freemasons' Hall on 7th October; the ceremony being performed by V. Wpl. Bro. J. R. Robertson, assisted by Wpl. Bro. W. H. Porter. There was a large attendance of visiting Masters and Brethren to witness the installation ceremonial and investiture of officers by Wpl. Bro. A. A. L. Rowley. Those invested were:—S.W., Bro,

E. Bendall; J.W., Bro. E. H. Rhodes; S.D., Bro. W. Lathlean; J.D., Bro. H. H. Cowell; I.G. Bro. A. W. G. Pitt; Stewards, Bros. A. G. Annells, E. J. N. Fisher, P. E. Johnstone, F. A. Wilson; and Tyler, Bro. A. H. Goode. The usual masonic toasts were honoured at the festive board after the ceremony, and the pleasure of the evening was greatly enhanced by the vocal efforts displayed by two visiting brethren from the New Comic Opera Company.

The desire of the Foundation Members was, that when the Lodge became firmly established, Scholarships should be founded in connection with the old School. In October last at the annual dinner of the Lodge, the idea was again mooted when the flourishing condition of its finances became known, through the Lodge having made such rapid progress during the three years of its existence. This desire was carried into effect at the last meeting of the Lodge, when it was resolved that a sum up to 24 guineas should be voted out of the Lodge funds to provide for two scholarships in the Preparatory School which is to be established in connection with the College. It is particularly gratifying to members to be in the proud position to be able to help on the College in a practical manner, and especially so to further the interests of the new Preparatory School, seeing that such a zealous and popular

member of the Lodge as V. Wpl. J. R. Robertson, has been appointed Head of that School.

Jottings from Rangoon.

In the rainy season the elephants always get lumps and boils, and I have just had a most interesting time with some of them, as it was necessary to cut two of the boils. They are splendid creatures and are very good on the whole, though they are in an awful funk all the time; they just put the end of their trunks in their mouths, and stand still for all the world like children. I was cutting one in the middle of the back, when he quietly stopped the operation by the simple process of getting up. It was his way of showing it was very tender, but he lay down again at once till it was over and all cleaned up. They always get in an awful state of nerves when I approach now, as they remember me well, and think I want to cut them again, but they stand quite quiet and let me examine the wounds. There is one old villain here that I shouldn't like to cut, and am very glad he keeps fit.

Two excellent games of "Rugger" this week, which keeps one splendidly fit. A big Rugger tournament is coming off in about three weeks' time, when teams from the regiments up country come to Rangoon and we have a week of it.

Swearing is a funny thing, and it is rather curious to notice how certain words have by use come to be regarded as "swear" words. If one calls a man a "sala," he is cursing him; but the real meaning of "sala" is brother-in-law, which to us is quite ordinary.

Work and rain were the chief features of the past week, though it should be now, at the very end of August, the beginning of the snipe season. A shikari was sent to spy out the land, but reported them as coming in very late and being very scarce this year up to date. Doubtless the last few bright moonlight nights will bring them in and help them on their long journey.

Our new Lieutenant-Governor and his lady have arrived and give their first big entertainment to-day in Rangoon. There is also a big dance given at Government House to the members of the Hunt Club, and the managers of the B.B.T.C.L. also entertained the Hunt Club at the beginning of the week, so you see every one tries not to let the rain damp their spirits too much. The new L.-G. was formerly a member of Council in India, and is a very able man.

You ask me to repeat the story of the placing of the new golden bricks on the great Shive Dagon Pagoda and—by the way—the bricks are pure gold all right. From a platform high up on the Pagoda—just below the sacred golden "hti" or umbrella, presented

and erected by King Minden, and studded with jewels worth fabulous sums, which twinkle in the sunlight or more fascinatingly still, in the moonlight—wires stretch to an enclosure at the foot of the pagoda. A peacock (the emblem of Burma) emerges from the top platform and glides down the wire to the bottom enclosure from which it presently ascends with a golden brick. When it is half way up the wire, a hawk swoops down, but after a sanguinary conflict in mid air the peacock is victorious and triumphantly bears both brick and hawk to the top. Doubtless this all propitiates the "nats," of whom the Burman lives in mortal fear, but at any rate he enjoys the picturesque game. It would be nice to get a photograph of it, but as the rate of progress is about one brick a day, it would be necessary to spend too much time over it.

We are just in the thick of an extremely busy week owing to the visit of H.M.S. Hyacinth, the flagship of the East India Squadron, with Rear-Admiral Slade on board. Government House gave an excellent ball in their honour. It was an extremely pretty scene with the gay uniforms of the naval and military officers which made the dull black of the mere civilians look uninteresting in comparison. The decoration that will interest you most to hear about was that at each corner of the room was set up on a stand covered with ferns a huge block of ice about

four feet square by one and a half thick. In these blocks were inset floral designs which were shown off by an electric lamp behind. Fans playing over these kept the place decently cool.

On Monday a little dance was given at the Fusiliers' Mess. Yesterday morning a number of the officers visited the Dallah Mills to see our elephants at work. We put them through their tricks, and it pleased them so much that the Admiral, who was seedy at the time, has asked if he may come and see them to-morrow. There is also an 'At Home' on board H.M.S. Hyacinth, so you see we are being quite thoroughly gay. Of course we are an owl community here, and except work, of which there is always plenty, nothing ever happens here till after 5 p.m.

Last week we played a great Rugger Tournament. The team 'yours truly' played in, after a great match with the Garrison team in the final, managed to win. The final was a most excellent strenuous game—quite the best we have had this season. It is now quite probable that we shall go up to Maymyo—our hill station—to play in a tournament there about the middle of next month (October.) It will be very jolly if it comes off, as it is a good time to go up there, and it is also a splendid month to miss a little of in Rangoon.

The Late Mr. Chris. Cooper.

The Association recently suffered a loss, through the death at Port Elliot on the 7th November, of one of its prominent members, Mr. Chris. Cooper. Mr. Cooper, who was 51 years of age, was at the College in the early days, and he and his brothers John and Sam have always been staunch advocates of the Association and its interests. Several sons of the deceased member have passed through the College and are now occupying prominent positions in the city and country.

Old Collegians' Association Scholarship.

This year two scholarships become vacant, and the ballot for the right of nominations held at the Annual Meeting resulted in favour of Messrs. Geo. J. Forden, of G. & R. Wills & Co., and M. G. Giles, of Melrose. These gentlemen have each the right to nominate a boy to attend the College for two years, and the cost of their education is borne by the Association. Mr. Forden's choice has fallen on Master Albert Buckland, of the Grange, whilst Mr. Giles has selected Master Allan F. Walsh. We trust that both lads may

prove a credit to the gentlemen who nominated them and to the Association. We understand that neither of the lads would have been able to attend the College if the scholarships had not come their way, and the nominations have therefore given great pleasure to the Committee.

To the Editor.

Dear Sir,

At the annual meeting of the Association the chairman (Col. Catt), announced that as I contemplated resigning my position as Hon. Secretary, the Committee had decided to present me with a cheque for £25 in recognition of any little service I may have done during the past 5 years. This amount has since been received by me, and I wish to take the opportunity of thanking the Committee for their expression of appreciation. I can only say that the work has been a labor of love for me, and I consider I have been well repaid for any service I may have rendered by the great pleasure I have derived in carrying out the work. My work in connection with the Association has brought me in touch with many "Old Boys" whom it has been a pleasure to know, and many close friendships have been made through my connection with the Association.

I might say I was reluctant to give up the Association work, but to retain

the position meant that I must resign from the clerical staff of the A.M.P. Society, as the Association work was clashing to a great extent with my office duties. In view of many promises of support however, I have taken that step, and for the present therefore I will continue to carry on the Secretarial duties of the Association. For the time being I have accepted a position on the Field Staff of the A.M.P. Society and hope now to be able to give more time to furthering the interests of the Association.

Yours truly,

H. W. A. MILLER.

The Old Collegians' Association.

At the first meeting of the New Committee of the Association consideration was given to several suggestions made which might tend to make it more popular with the members. The Committee are exceedingly anxious that the Association should be a live progressive body, and for that reason will be pleased to consider suggestions from members that, if adopted, may tend to that end. The points dealt with at the meeting in question are briefly summarized below:—

The College "Chronicle."—As the Association now take and have for some time taken four-fifths of the number printed, it was felt that we should have

a greater voice in its management. It was therefore decided that the Head Master be requested to set aside a certain portion of the "Chronicle" for the sole use of the Association. The matter in this portion will be written by members of the Committee, and the following have been appointed:—Masonic Section, Mr. J. R. Robertson; University, Mr. F. E. Osborne; School of Mines, Mr. A. W. Collins; general, the Hon. Secretary. It is hoped that this alteration will be appreciated by the members.

Social Functions.—At present all our social functions are held at one period of the year, viz., the middle of July. The Committee consider it desirable that some functions should be held at other times of the year, and if possible any extra social engagements arranged should be of such a nature that the ladies may participate. Messrs. W. G. Rhodes, T. Steele, and the Hon. Secretary were appointed a sub-committee to go thoroughly into the matter, and one meeting has already been held. It is anticipated that by the time this issue is in the hands of members arrangements will be ripe for holding a function in February and another in July. This latter will probably take the form of a dance, and will be held in Old Boys' Week, so as to allow the country members to participate.

LIFE MEMBERS.

The following additional names have been added to the list of life members since the last issue of the "Chronicle":

C. G. Rowe, Cleve.

F. H. Counsell, Grenfell St., City.

T. H. Mildren, Terowie.

J. Drew, Kooringa.

Subscriptions for the current year are now due, and members are asked to give the matter of life membership their consideration.

THE ANNUAL MEETING.

The Thirty-second Annual Meeting of the Association was held in the Old Exchange Cafe, Pirie Street, on Friday, September 30th. The attendance was about equal to that usually experienced, and the business of the Association was discussed in a thorough manner by those present. It is not considered essential to give a full report of the proceedings in these columns, but it may be of interest to deal with a few of the points raised.

The Secretaryship.—It was decided that, as the work of the Association required such a great deal of the Secretary's time, in future the position should carry with it a salary. The amount has been left in the hands of the Committee, and will be decided at the end of each financial year.

The Annual Dinner.—A letter from Dr. Percy Bollen was read, asking that in future all alcoholic drinks be ex-

cluded from the Association's annual dinner. The discussion of this matter occupied a great portion of the evening, and the proposal was warmly debated by both sides. It was finally decided that a vote be taken on the matter at the next annual dinner, and the chairman ruled that a two-thirds majority must be obtained in order to carry the proposal. I think it should be said here that, during the last five years at least, the Association's annual dinners have been very pleasant functions. The behaviour of those present has been of the best, and even the staunchest temperance advocate could not find reason for complaint.

Annual Dance.—Mr. E. Bröse proposed that the Committee should consider the advisability of holding a dance annually. The suggestion seemed to meet with the approval of those present, and the Committee have therefore dealt very fully with Mr. Bröse's proposal.

Our Contemporaries.

We beg to acknowledge with thanks the receipt since our last issue of the following:—

“O.B.I. Magazine.”
 “The Kyrian” (Kyre College).

“Roseworthy Agricultural Student.”
 “M.A.N.” (of the Y.M.C.A.)
 “Scotch Collegian” (Melbourne).
 “The Wesley College Chronicle.”
 “Patchwork” (Pres. Ladies' College, Melbourne).
 “The Melburnian.”
 “The Bluebell” (Methodist Ladies' College, Melbourne).
 “Pegasus” (Geelong College).
 “The Mitre” (Trinity Grammar School, Kew).
 “Geelong Grammar School Quarterly.”
 “The Sydneian” (Sydney Grammar School).
 “The Newingtonian” (Sydney).
 “Townsville Grammar School Magazine.”
 “Hawkesbury Agricultural Journal.”
 “Rockhampton Grammar School Magazine.”
 “Scotch College Reporter” (W.A.)
 “The Launcestonian” (Tasmania).
 “The Scindian” (N.Z.)

 “Waitakian” (N.Z.)
 “The Black and Red” (U.S.A.)

Prince Alfred Old Collegians' Association

ESTABLISHED 1878.

OFFICERS, 1910-1911.

Patron—The Head Master.

President—Col. A. C. Catt.

Vice-Presidents—Messrs. J. R. Robertson, F. N. Simpson, and M. M. Maughan.

Hon. Treasurer—Mr. A. G. Collison.

Representatives on College Committee—Messrs. F. Simpson, P. E. Johnstone, C. R. J. Glover, G. W. R. Lee, J. W. Grasby, W. Lathlean, and H. W. A. Miller.

Hon. Auditors—Messrs. R. G. Neill and C. Viner Smith.

Committee—Messrs. A. W. Collins, C. E. Bennett, R. F. Osborne, A. W. Piper, W. G. Rhodes, T. Steele, and E. J. W. Ashton.

Hon. Secretary—Mr. H. W. A. Miller.

Hon. Assistant Sec.—Mr. R. P. Goode.

Melbourne Branch—J. H. Burgess, 121, Queen Street, Melbourne, Hon. Sec.

Sydney Branch—Alfred G. Newman, Vickery's Chambers, Pitt Street, Sydney, Hon. Sec.

The objects of the Association are:—To keep Old Boys, wherever they may be, in touch with one another and with the boys at the school; also to foster and maintain their interest in the School.

The P.A.C. Chronicle, of which a large

part is devoted to matters of special interest to Old Boys, is forwarded to each member of the Association.

A dinner is held annually, at a time which is thought likely to give as many Old Boys as possible an opportunity of meeting one another; and social gatherings are held whenever any occasion arises that makes them desirable.

The Association gives annually to the School the Old Collegians' Scholarship, of the value of fifteen guineas, and donates five guineas per annum to the Sports' Fund. A Scholarship has also been founded, according to the terms of which the members of the Association have the right of nominating annually the son of one of their number for one year's free education at the School.

The subscription is five shillings per annum. The simplest way is to send along a pound for four years, or to make a life payment of three guineas. Any Old Boy wishing to become a member can do so by forwarding his name and address to the Head Master, or to any member of the staff, or to the Hon. Secretary.

H. W. A. MILLER,

care of A.M.P. Society,

King William St., Adelaide.
