

# Prince Alfred College Chronicle

UBI NON EST SCIENTIA ANIMÆ NON EST BONUM.

VOL. VI.—No. 108.

ADELAIDE, JANUARY, 1914.

[PRICE SIXPENCE.]

## School Notes.

The Speech Day celebrations passed off splendidly. The boys occupied a solid rectangle of chairs to the left of the platform, and the rest of the Town Hall was well filled with mothers and sisters and even a few brothers, fathers, and grandfathers. There were several slight alterations of the programme approved by the experience of the last few years, but they were all improvements.

His Excellency the Governor presided. This he has done every Speech Day of the tenure of his office, and we were all delighted to see him, this feeling only mingled with regret that he could not be with us again.

We were sorry that the Rev. Henry Howard, the Honorary President of the College for the year, was not able to be in his place, but the Rev. W. H. Cann filled in the vacancy.

The Preparatory boys' recitation delighted the audience, and so did the part songs, and a special word of congratulation should be given to George Davies and Murray Fowler for their spirited rendering of the quarrel scene

from Julius Cæsar. His Excellency the Governor, who kindly consented to adjudicate the prize, found it difficult to decide, and some members of the Committee were most enthusiastic in their praise.

Rayner (our Cricket Captain) read his report of the Sports as follows:—

“The report of the sports played during the past year is perhaps a little brighter this year than last. In five intercollegiate contests we have been successful in three, viz., Athletic Sports, Football, and the Gymnasium Championship; whereas St. Peter's carried off the honours in Tennis and Cricket. Greater interest has been shown in the school for sport, and much has been done to try and encourage everybody, but more especially the juniors. Dissatisfaction has sometimes been expressed at the way the various teams have been selected, but the Committee have felt it their duty to give preference to a promising junior rather than to a senior boy, who, though perhaps quite as good, lacked the promise. For it is to these younger boys that we have to look for future champions to uphold the honour of their old school.

“The Intercollegiate Athletic Sports fell to us by 62 points to St. Peter's 49. Three events for boys under 16 years of age were included in the programme for the first time this year, and we were successful in all three. Only one record was lowered, and that by McGregor, who won the junior hurdles in 18 2-5th secs., the previous best being 19 secs. The Intercollegiate Sports were held before our own sports, and this involved a lot of extra work in selecting the team, as there had to be three or four preliminary ‘run-offs’ in each event to secure the best possible team. This work was undertaken mainly by Mr. Blacket and Mr. Davies, and too much cannot be said of the able way in which they carried it out. These preliminaries had their good effects in our own sports, as they did away with the ‘dark horse’ element which usually plays such a great part in College sports, and made handicapping easier. Our own sports passed off very satisfactorily, and some promising running was seen.

“We were very successful in the football season. It was our first season in the Amateur League, and, considering the weight of the other teams as opposed to our own, we did very creditably in winning six out of the fifteen matches played. E. M. Trott was elected Captain, and filled that position splendidly. The team was coached by Mr. Blacket, and the way in which we

defeated St. Peter's on July 19th by 8 goals 10 behinds to 4 goals 11 behinds speaks volumes for his ability as a coach. The best all-round man for the season was G. R. Dreyer, and he received the gold medal presented by the Old Collegians' Association. Dreyer also received a laurel badge for his consistent play. Trott and Mengersen both received footballs for their splendid efforts against St. Peter's. Second, third, and fourth eighteens played regularly, and a fifth eighteen played three or four matches during the season. All enjoyed a successful season. Thus on some Saturday afternoons there were nearly 100 boys playing football, a fact which speaks for itself of the increased enthusiasm shown for sport during the year.

“The tennis is perhaps the most unsatisfactory intercollegiate contest of the year for one reason, viz., since it comes so soon after football we can only manage, weather permitting, to get a fortnight's practice, and the weather does not always permit. Most turf courts are being top-dressed in September, and it is a difficult matter to get a court to practice on. Mr. Leslie Taylor, an old scholar, generously placed his court at our disposal, and we are deeply indebted to him for his kindness. St. Peter's, of course, are under much the same difficulties, except that they have their own turf courts. They are to be heartily

congratulated on their heavy win of 13 rubbers to 2, but it might be mentioned that 6 of the rubbers were practically won by a single stroke, so that the game was more closely contested than the scores indicate. C. Gurner, our captain, who won our championship earlier in the year in our own tournaments, was defeated for the College Championship by H. O. Hopkins, St. Peters' captain, after a very close match. This is the first time for seven years that St. Peters' have won this distinction. Mr. Ward willingly undertook the well-nigh impossible task of trying to get the team into shape in the short time at his disposal; and he also earned our hearty thanks for the time he sacrificed in making our own tournament such a success.

"One week after the tennis our cricket season opened. The team was in the hands of Mr. Quist, and at various times some of our well-known old scholars came out to give us practice at some more difficult bowling than our own. Mr. Davies, besides helping Mr. Quist, took a number of the younger boys in hand and is making some fine cricketers out of them. More attention was given to fielding and throwing in than formerly, and although the fielding against St. Peter's was disappointing, it was an improvement on last year's. The intercollegiate cricket is still fresh in our memories, and our hearty congratulations go out

to St. Peter's on their decisive victory. The only excuse we have to offer for our first innings' failure, besides the excellence of our opponents' bowling, is that the wicket was too fast for us, coming straight off from our own comparatively slow wickets. A few afternoons' practice at the Oval before the match would remedy this, and we hope for the best for next year. B. C. Collins has been the most consistent batsman during the present season, and L. A. Mander, our vice-captain, has performed best with the ball. R. H. Pflaum has also bowled well and should be heard of later. We have played seven matches and have won three. The second, third, fourth, and fifth eleven have all done creditably and have shown that there is plenty of promising talent in those teams.

"The inter-collegiate gymnasium gold medal contest was held in the next to last week of this term. Four of our boys entered, and we heartily congratulate J. C. Roach on securing top place with 101 points out of maximum 105, and G. C. Davies on coming a close second. W. O. Menz was fourth and L. M. Humphrey seventh.

"On behalf of the boys I should like to express our deep gratitude to Mr. Grey, our sports master, and to the other masters who are members of the committee, for their untiring efforts in the interests of the College sports. It would be a most fitting reward for their

labours if we were to win everything, but since we cannot do that we can do the next best thing: we can try our hardest and show them we know how to win and how to lose."

The Head Master prefaced his report by a few words expressive of the thanks of the school to His Excellency the Governor. He said the Governors of the State had always been good friends of the college, and by their visits and their addresses to the boys had done the school great service. Their words were not only treasured in their memories, but were written in the school annals. He re-read to a Senior Form the other day the noble words of Lord Tennyson, when in 1901, the millenary of King Alfred, he urged upon the boys to be true to the great name they bore. "We feel," continued Mr. Chapple, "that the school has never had a truer friend than Sir Day Bosanquet, and we shall never forget the occasions upon which he has attended our games, and occupied the chair at our speech days. His words help to make our best impulses stronger, and our best purposes more steadfast."

Three more extracts from our Head Master's speech we should like to repeat are: "Hero-worship gives grand inspiration. Every noble mind feels they worth of it. We had a fine outburst of it when Percy Correll returned from the Antarctic, and a still more thrilling one when he read how Madigan had

proved his worth; that Capt. Davis had chosen him as leader of the small party left behind at the main base, to await Dr. Mawson's delayed return, and had said of Madigan that, "No man was more admirably fitted to be a leader."

To the prefects, the cadet officers, the members of the Committees of the sports, of the school Chronicle, and of The Christian Union the school owes much for thoughtful and faithful service. And no head master could hope to have a more whole-hearted or abler staff of coadjutors than I have been favoured with these last few years.

Two pleasing surprises have come to us within the last few days. The first is that Mr. James Ashton, the well known artist, who has been our drawing master for the last 26 years, has presented to the school the handsome shield that stands before you. It is a Milton shield in relievo, by M. Ladeiul, and the cast of it was made in 1866 by Messrs. Elkington, of England. It is given to encourage games within the school, probably as a trophy to be won by the district that produces the best athletes, and in all the manly sports that we play, considered together. The second is that Mr. J. W. Grasby, one of our earliest old scholars (No. 145 on the roll), always a staunch friend of the school, has founded a scholarship on the commercial side open to the best candidate either in the school or out of it. The first examination for this will

be held next month. To both generous donors the hearty thanks of the school are due and are hereby tendered."

His Excellency, who was greeted with prolonged applause, the school standing and cheering, said he was very sensible of the friendly feelings expressed in such gratifying terms by the head master, and highly pleased with his interesting report. He much regretted that this would be the last occasion upon which he would have the pleasure of addressing the boys. During his term of office he had watched with the greatest interest the work being carried on at Prince Alfred College, and had learnt to regard every member of the College with feelings of respect, esteem and pride. He offered his congratulations to the head master and the staff upon the splendid list of honours won by the boys during his stay in the State, not only in the University and in the playing-field, but by the old boys at home and abroad.

#### Education—A Means to an End.

Every man who had risen above the common level had received two educations—first from the teacher, and second from himself. Were not the habits of reflection and accuracy, which enabled a man to train himself in after life, the result of the influence of the old school upon his mind and character? Education, therefore, was not an end in itself, but a means to an end, and, as a

great writer had expressed it, "To make us know our duty and to do it." It was to make them upright in actions and true in thought and words. That was the end and aim of all the instruction the boys were receiving, and that object, once achieved, would carry them through a fine career to a happy and peaceful old age. He referred to the head master, who, after 40 years of labour, appeared the youngest of them all, and urged the boys to learn from him to attend to those habits which governed health. Should they reach 30 years of age with sound constitutions, they would be surprised how easily they could bear the strain should occasions arise calling for exceptional physical exertion.

#### Alfred the Great's Example.

The Head Master had alluded to the great King Alfred, whose name the college bore. That name appealed to the sailor as perpetuating the glory of the first great ruler of England to recognise the importance of sea power upon the history of the world. He was the first ruler who took advantage of the insular position of the country for its protection from the Danes. He foresaw that the power which controlled the sea would win in the end. In the year 872, it was recorded, he put to flight a Danish fleet in the mouth of the Thames. He was not, however, always successful, but he met failure

with courage and a determination to win, and His Excellency exhorted the lads to follow King Alfred's example and to make failure a stepping-stone to success. He rejoiced to learn from the Head Master's report that the College was doing solid, substantial, and good work in the direction of turning out upright, honourable boys. That was the purpose of the institution, and he believed that the system at P.A.C. was successful in the work undertaken.

The Rev. W. H. Cann (Acting President) in proposing a vote of thanks to His Excellency the Governor, said the whole School was thoroughly loyal to King and country. They were proud of the greatness and grandeur of the Empire, of her vast territories, and her numbers of people, but neither territory nor people would constitute a nation's greatness, which depended upon moral character. If they would continue as a great Empire, they must ever maintain good conduct. They were proud of their King, His Majesty George the Fifth, one of the best monarchs who ever sat on the throne. Not only throughout the Empire, but among the nations of the earth, his influence for good was felt, and they rejoiced that in His Majesty's representative in South Australia they had a man of such high character as Sir Day Bosanquet. They had been singularly fortunate in the Governors sent to represent the King in this land. They left a great impression for good upon the

community. His Excellency had taken the deepest interest in everything affecting the good of the people, and the speaker expressed the hope that his future, wherever he might be, would be as happy and as useful as his term of office had been in South Australia.

The Commissioner of Crown Lands (Hon. F. W. Young, L.L.B.), an old P.A.C., who seconded the motion, spoke of the deep interest felt by the Hon. H. Homburg, another "old Red" in the Ministry, in their old School. As also did the Right Worshipful the Mayor of Adelaide sitting by his side, another "Prince". He referred to the deep interest His Excellency had taken in matters pertaining to education, and in the Colleges of the State. He had recognised the two sides to education—that in relation to intellectual advancement and that in relation to physical development. His Excellency's work must do good to the State, and tighten the ties of loyalty between Australia and the home-land.

His Excellency then distributed the prizes, adding a kindly word of encouragement to each recipient presented to him.

Then with the National Anthem once more, and with cheers for King, Governor, and Head Master ended one of the best of the Speech Days and of the years in our history.

## SPECIAL PRIZES AND SCHOLARSHIPS

The Sir Thomas Elder Scholarship, £150 (founded by the late Sir Thomas Elder, K.C.M.G.)—W. K. Collins.

Old Collegians' Scholarship, £15 15s. (presented by the Prince Alfred Old Collegians' Association)—D. C. Cooper.

Colton Scholarship (founded by the late Hon. Sir John Colton, K.C.M.G.)—W. O. Menz.

Longbottom Scholarship (founded by Mr. W. Longbottom)—L. A. Mander.

Robb Scholarship (founded by the late Mr. John Robb)—E. W. Harris.

Malpas Scholarship (founded by the late Mr. H. Malpas)—K. W. Bollen.

Gething Scholarship (founded in memory of the late Dr. Gething)—K. Jauncey.

Elder Foundation Scholars—Under 15 years of age—K. W. Smith.

Elder Entrance Scholarships—Senior, K. S. Hetzel; junior, H. J. Mortimer.

Old Collegians' Entrance Scholarships.—K. A. Johnson, H. E. B. Best.

Prince Alfred Old Collegians' Lodge Scholarships (for entrance to Preparatory School)—D. Chapple, H. Leader.

Scholarships in the gift of the S.A. Methodist Conference.—George Crooks Shierlaw—C. L. Sanders; John Williams—F. G. Rogers.

Cotton Medal for Agricultural Chemistry (founded by the late Hon. G. W. Cotton)—G. C. E. Dorsch.

Head of the Junior School (gold

medal, presented by Mr. Victor Cohen)—H. G. Miell.

Smith Prizes for History (founded by the Hon. Sir E. T. Smith, K.C.M.G.)—Senior, L. M. Humphrey; junior—R. C. Smyth.

Arithmetic Prize (presented by S.A. Cricketing Association)—R. H. Pflaum.

Neatness Prizes.—Senior (presented by Messrs. E. S. Wigg & Son)—E. Rosanove; junior—A. R. Langrehr.

Recitation Prize (presented by Messrs. Rigby, Limited)—G. C. Davies; (presented by Mr. E. Reeves)—J. H. Edwards.

Music.—Piano (presented by Mr. E. E. Mitchell)—B. E. Collins, A. S. Chipper; (presented by Miss Colwell)—F. Bartlett Day, M. Kimber, K. R. Cane.

Singing.—Senior—T. A. Dancker; junior—K. F. Richardson.

Painting (presented by Mr. James Ashton)—G. C. Davies, L. S. Plush.

Painting—H. T. J. Edwards.

Garlick Prize (for architectural drawing)—B. E. Collins.

Garlick Prize (for mapping)—H. L. Rayner.

Mapping (presented by Mr. James Ashton)—T. L. Chinner.

Drawing (presented by Mr. James Ashton, for passing R.D.S. examination in honours)—L. S. Plush.

Boarders' Scripture Knowledge (presented by the Methodist Book Depot)—N. V. Mengersen.

Head Boarder's Prize—W. K. Collins.

Librarian and Curator's Prize—P. S. Hossfeld.

Gymnastics. — Form Medals — VI., W. O. Menz; V., H. W. McGregor; Vc., G. R. Dreyer; IVu., K. Engelbrecht; IVL., G. H. Weylandt; IIIu., L. Hoare; IIIl., W. P. Reed; II. and Prep., L. S. Walsh; general proficiency, H. G. Gleeson.

Gold Medal (presented by Mr. Hugo Leschen)—G. C. Davies.

Intercollegiate Champion (gold medal, presented by Messrs. Schlank & Co.)—J. C. Roach.

Intercollegiate Sports Medals — S. Howard, I. G. Thompson (3), T. L. Chinner, G. C. Davies, H. W. McGregor, H. L. Rayner.

Cricket Prizes.—First Eleven—Batting, B. E. Collins; bowling, L. A. Mander. Medals (presented by the Head Master)—Gold medals, C. Gurner, B. E. Collins, H. L. Rayner; silver medals, L. A. Mander (2), H. T. J. Edwards, T. L. Chinner, R. H. Pflaum. Second Eleven—Batting, A. L. Collins; bowling, F. L. Williamson. Third Eleven—Batting, G. M. Hone; bowling, L. B. Willsmore. Prep. School Cricket (bat, presented by Mr. J. R. Robertson)—A. J. Strachan.

Football Prizes.—Gold medal (presented by Dr. E. J. Counter)—G. R. Dreyer. Footballs (presented by the

Sports Club)—N. V. Mengersen, E. M. Trott.

Tennis Champion—C. Gurner.

Athletic Sports.—College Championship—H. L. Rayner.

For the present boys the only lists of the public examinations yet out are the Primary, the Higher Public, and the Senior Commercial. Our class working for the "Higher" had 13 members, and of them 12 had their names in the pass list for one or more subjects. Hossfeld is our top boy, and in the lists of those qualified for Government bursaries tenable at the Adelaide University is his name, and so are the names of Collins, Mander, Gurner, Dorsch, and Rayner. (Applause.) The best results were in chemistry, where 13 sat and 10 passed, two with credit (Cooper 3rd and Collins 5th); in physics, where 13 sat and 11 passed; in German, where seven sat and six passed (with Hossfeld in the top credit place, and he had the second place in the biology credit list); in algebra and trigonometry, three took and all passed. In the Primary the results were satisfactory; 185 papers were written and 160 of them accepted. (Applause.) The "Senior Commercial" was issued on Speech Day morning, and once again a Prince Alfred boy (this time Mengersen) has won the scholarship, as has been the case every year but one since the scholarship was established. Mengersen has the top place in the credit

lists for commercial arithmetic, and for bookkeeping. French has also a credit in the latter subject; indeed, all of ours passed in bookkeeping. The "Senior" and "Junior" Public Examinations are still secrets of the future. They used to be out in time for the speech days last century, but never yet in this. (Laughter.) In last year's Junior Menz was marked (1), having passed in eight subjects, with credits in seven of them—(applause)—and Strempel passed in seven, with credit in five. (Applause). The general honours list contained 10 of our names. It would have greatly enhanced the pleasure of these successes to have had them read out before the school and its friends at the annual gathering, and to have received the prizes for them from the hands of His Excellency. (Applause.) Mr. Ashton's work in our drawing classes has again received the approval of the Royal Drawing Society. His pupils on the examination day worked 235 papers; 88 of these received the honour mark and 111 the pass.

## HIGHER PUBLIC EXAMINATION.

## General Honour List.

P. S. Hossfeld (20).

## Special Honour Lists.

German—P. S. Hossfeld (1).

Chemistry—D. C. Cooper (3), W. K. Collins (5).

Biology—P. S. Hossfeld (2).

## Pass List.

Modern History (Mh.), German (Gn.), Algebra and Trigonometry (AT.), Geometry and Trigonometry (GT.), Physics (Pc.), Inorganic Chemistry (C.), Biology (Bl.)

K. W. Bollen—Pc., C., Pl.

W. K. Collins—Gn., Pc., C.\*, Bl.

D. C. Cooper—Gn., Pc., C.\*

C. E. Dorsch—Mh., Gn., Pc., C.

H. T. J. Edwards—Pc.

G. S. M. Fowler—Pc.

C. Gurner—GT., Pc., C., Bl.

F. R. Hone—AT., Pc., C.

P. S. Hossfeld—Gn.\*, Pc., C., Bl.\*

R. E. Jolly—Gn., AT., C.

L. A. Mander—AT., GT., Pc., C.

H. L. Rayner—Gn., Pc., C. Bl.

## SENIOR COMMERCIAL.

N. V., Mengersen has a John Creswell Scholarship.

## Special Honour Lists.

Commercial Arithmetic—N. V. Mengersen (bracketed first).

Book-keeping -- N. V. Mengersen (1st), W. H. French (4th).

## Pass List.

Norman Victor Mengersen—Ar.\*, Bk.\*, Gg., H., Eg., Tg., Pg.

Harry Temby—Ar., Bk., Gg., H., Eg., Pg.

Claude E. Cockram—Bk.

W. H. French—Ar., Bk.\*, Eg.

H. W. Humphries—Bk.

## JUNIOR COMMERCIAL.

## General Honours.

R. C. M. Smyth (5).

## Special Honours.

Commercial Arithmetic—F. R. Wicks (6).

Commercial Geography—R. C. M. Smyth (2), A. G. Chinner (3), K. H. Taylor (7).

Book-keeping—K. H. Taylor (7).

History—R. C. Smyth (3).

## Pass List.

K. Berriman—Eg., Ar., Gg., Bk., H., Al., Gt.

J. Brammer—Eg., Ar., Gg., Bk., H.

W. E. Gray—Eg., Ar., Gg., Bk., H., Al.

R. C. M. Smyth—Eg., Ar., Gg.\*, Bk.\*, H.\*, Al.

K. H. Taylor—Eg., Ar., Gg.\*, Bk.\*, H., Al.

Passed in less than the five compulsory subjects.

A. G. Chinner—Eg., Gg.\*, Bk., H., Al.

A. S. Chipper—Eg., Ar., Bk., H., Al.

F. Bartlett Day—Eg., Ar., Bk., H.

G. R. Dreyer—Bk., H.

G. W. Harris—Ar., Bk.

C. E. A. Rendell—Eg., Bk., H.

H. T. Slatter—Ar., Gg., Bk., H., Al.

K. C. Treloar—Eg., Gg., H.

F. R. Wicks—Eg., Ar.\*, Gg.

## PRIMARY PUBLIC EXAMINATION.

1, English; 2, Arithmetic; 4, History; 6, Latin; 7, French; 8, German; 9, Algebra; 10, Geometry.

T. P. Allen, 1,2,4,9,10.

J. C. Barton, 1,2,4,6,8,9,10.

D. A. Burnard, 1,2,4,6,9,10.

W. A. Holden, 1,2,6,8,9,10.

M. G. Johnston, 1,2,6,10.

M. K. May, 1,2,4,9,10.

H. G. Miell, 1,2,4,9,10.

R. Muir, 1,2,4,6,9,10.

F. E. Piper, 1,2,4,6,8,9,10.

F. D. Jackman, 1,2,4,6,9,10.

L. C. Jauncey, 1,2,4,9,10.

N. E. Lade, 1,2,4,6,9,10.

D. H. Preston, 1,2,9,10.

G. C. Richards, 1,2,4,6,9,10.

G. V. Sheard, 1,2,4,9,10.

W. A. Shepley, 1,2,4,6,8,9,10.

K. W. A. Smith, 1,2,4,6,8,9,10.

H. N. Shepley, 1,2,4,6,9,10.

E. B. Stacy, 1,2,4,6,9,10.

R. K. Stockbridge, 1,2,4,6.

E. J. Swann, 1,2,4,9,10.

W. N. E. Taplin, 1,2,4,6,8,9,10.

J. A. Thurston, 1,2,4,9,10.

Mr. W. D. Taylor, a staunch friend to the school, the father of three sons, William, Leslie, and Roy, widely known and highly respected, passed away early this term. He was a member of our governing body, and aided quietly and unosten-

tatiously in much of our work and many of our enterprises. We shall miss him much.

The Hon. J. H. Vaughan, LL.B., M.L.C., has been elected President of the United Labor Party. His brother, Mr. Crawford Vaughan, is Leader of the Opposition in the Legislative Assembly.

The cricket match again showed how united we are. Not only did those at present here join in drags and flags and unflagging interest and cheers, but old boys from far sent wires and letters—Spinkston from Queensland, Max Rigby from near Fowler's Bay, Palamoutain brothers from Mount Gambier, Narracoorte Reds, Dr. Dolling from Minlaton. We wish there had been better news to reach them in response. But the fates were against us from the first. Well, it is all in the game—the "glorious uncertainty."

### Old Boys

Our old scholars who are prosecuting further study at the Adelaide University and elsewhere continue to do well. In science, F. W. Wheatley's winning the doctorate is a fine achievement, and so are A. E. Dawkins's first-class honours in chemistry at the B.Sc. degree; G. S. Reed's LL.B.; and H. Bay Piper's

winning a Stow Prize for law. (Applause.) Of the medical results the most brilliant are that Joseph Stanley Verco is at the head of the list for the final M.B., D.S., and wins the Everard Scholarship; and that Reginald A. Haste is bracketed first for the Dr. Davies Thomas Scholarship in the fourth year. (Applause.) Old Prince Alfred medical men rejoiced at a great success in their profession won in the old land, when one of their number, still young, was appointed obstetric and gynaecological surgeon at the famous Guy's Hospital, London. Other striking events in old boys' careers that we rejoiced over as the year has gone by have been that Mr. M. M. Maughan, B.A., has been appointed Director of Education for South Australia; that Dr. Glasson has been appointed lecturer on physics at the University of Tasmania; Mr. H. J. Priest, lecturer on mathematics in Perth; Mr. E. E. Cleland, LL.B., K.C., has been chosen to represent South Australia in an important suit before the Privy Council; Mr. A. A. Simpson was elected Mayor of our capital city unopposed. Another old boy is Chairman of the Chamber of Commerce. (Applause.) And another Chairman of the Chamber of Manufactures. These are salient facts in our national life and history during the current year, and so can be recorded. But even greater gratitude and pleasure arise from knowing that of the 4,500 who have become

members of our school and passed on to wider spheres, so many are counting for something on the right side in the world, and "serving their generation according to the will of God."

—  
OXFORD UNIVERSITY.

B.Sc., Diploma in Public Health, Diploma in Anthropology—H. Kenneth Fry.

B.A., Nathan Whitley Travelling Scholarship—Y. G. Robertson.

ADELAIDE UNIVERSITY.

Rhodes Scholarship—H. L. Brose, B.A., B.Sc.

D.Sc.—F. W. Wheatley.

 A. Allan Simpson has been elected Mayor of Adelaide without opposition.

—  
 Dr. J. L. Jona has returned to his home in Victoria. He has paid visits to Bulgaria, Vienna, Constantinople, London, Dublin, and Berlin.

—  
 C. N. Baeyertz has been chosen for the third year as adjudicator of elocution at the now famous South Street

competitions. The "Bailarat Courier" of October 9 contained a portrait and an appreciative reference to the value of his services as a judge and the fearlessness of the criticisms on elocutionary and musical performances found each month in "The Triad," of which Mr. Baeyertz is the editor.

Major Hugo Leschen adjudicated in the physical section (gymnastics, &c.) for the tenth time. No evidence of the Committee's entire satisfaction more conclusive than this could be given.

Dr. Herbert Basedow has published through the Royal Anthropological Society of Great Britain and Ireland, some valuable "Notes on the Natives of Bathurst Island, North Australia." As Chief Medical Inspector and Chief Protector of Aborigines in the Northern Territory, he had occasion to visit Bathurst Island in 1911 and report on the natives on behalf of the Commonwealth Government, and the present notes are the result. The natives number about 500. They are cannibalistic and treacherous, and are therefore left severely alone. Their corroborees, pastimes, and methods of interment are described at great length, and the work is embellished with interesting photographs and sketches made by the author.

W. W. Cooper, who is with the Westinghouse Company in England,

and W. A. Potts, have received their fellowship diplomas from the School of Mines.

Eric Goddard is marked again as the best for the year of the architectural students of the School of Mines, and again received the prize given by the Institute of Architects.

Alan Strawbridge, who went to England last year, is now in Julien's Art School in Paris.

The Rev. Eric Ingamells, B.A., is compelled through failure in health to leave his important work among the "Indians" in the Fiji group. He will return to his native State early in January.

The Rev. S. Ray Rooney is at home on furlough, invalided from his valued work in Samoa.

The Rev. J. H. Allen writes happily and hopefully of his work in India.

C. F. Hummel writes hopefully of his work in the heart of dark Africa. His present address is Paiko, via Minna, N. Nigeria. There is a pathetic note in his last letter as to the smallness of his mail.

The Old Scotch Collegians (Melbourne) are planning to build an As-

sembly Hall at the College to cost £4,000.

The Leys School (Wesleyan), Cambridge, England, needs enlargement, and amongst the promises already received towards the cost are six separate donations of £1,000 each from governors and Old Leysians.

### Intercollegiate Cricket.

The 37th Annual Cricket Match against our rivals, St. Peter's, was begun at the Adelaide Oval, on Saturday December 13th, in the presence of his Excellency the Governor, Admiral Sir Day Hort Bosanquet, K.C.B., G.C.V.O., and Miss Bosanquet, besides a large gathering of friends, supporters and Old Scholars of both colleges. Our boys rolled up in three drags ever ready to spur on the efforts of their chosen champions.

Rayner won the toss from Jose and decided to have first use of an excellent wicket, prepared by C. Checkett. The rate of rungetting was quiet except during the innings of B. E. Collins, who hit up 76 brilliantly at the rate of a run per minute. His score included 13 fours and a six.

#### THE PLAY.

On the stroke of 12, the umpires (Messrs. T. J. Ward and J. S. Richardson) appeared, followed by the St. Peter's

eleven. Haslam and Edwards opened for P.A.C. to the bowling of Riley and Jose. Disaster set in early as in Riley's first over Haslam poked a ball up at leg, and Horwood running some distance, took the catch.

1-0-3

Gurner went in next and after scoring a single was beaten by Riley with a leg break.

2-1-10

Mander followed, and opened his account by square-cutting Riley briskly to the boundary. In the meantime, Edwards, who had been batting steadily, opened out too soon, and was caught by Colley at mid-on off Jose.

3-9-14

Rayner had a brief stay and only succeeded in getting two boundaries before he was caught smartly at point by Riley off Jose.

4-8-31

In Jose's same over Riley missed a hard low catch from Mander. At this stage Hopkins relieved Jose (2 for 11.) Mander received Hopkins by glancing him for four, and in trying to repeat the dose sent the ball into the safe hands of Pellew.

5-17-37

Mengersen filled the vacancy, but Hopkins lowered his wicket with the following ball.

6-0-37

Magarey followed and prevented Hopkins from pulling off the "hat-trick,"

but when he faced Riley he failed to stay.

7-0-42

Chinner joined Collins, who had been batting well, but misjudging one of Hopkin's deliveries had to retire.

8-1-55

Collins and Pflaum then became associated and carried the total from 55 to 126. At luncheon adjournment Collins had knocked up 50 in three quarters of an hour, and the total stood at 91 for 8 wickets. On resuming Collins and Pflaum faced Jose and Riley, but runs came apace especially from Collins, who raised a cheer by lifting Riley over the fence for six. Pflaum was content to keep his wicket while his partner made the runs. With the total at 122 Hopkins relieved Jose. Pflaum had reached 13 by patient play when he was caught in slips by Middleton off Riley. His steady play was of great service to his side at such a crisis.

9-13-126

Cockram was the last man and opened confidently with a couple off Riley. He batted gamely and reached 5 before Collins made a faulty stroke and Lowe took the catch. St. Peter's fielding was keen and smart, and Bennett kept wickets splendidly. Our innings thus closed for 131.

At 3 p.m. St. Peter's opened their innings with Bennett and Colley who faced the bowling of Gurner and Cockram. In the second over Colley in at-

tempting to drive Cockram skied in slips and our "big man" after a prodigious effort managed to hold it just before it reached the ground.

1-1-3

His place was taken by Hopkins. With the score at 16, as the result of half an hour's batting, Mander relieved Gurner, but the rate of scoring remained very quiet. Pflaum also changed with Cockram and succeeded in getting Hopkins caught at mid-on by Edwards for 26.

2-26-53

Jose followed and after hitting up 17 in as many minutes, made a weak stroke at a ball from Cockram and sent it to Edwards at mid-on.

3-17-79

In the meantime Bennett did not improve his slow scoring, for he had only made 33 in 105 minutes batting. He was joined by Riley, who was easily caught by Pflaum off Cockram, after making 8.

4-8-88

Middleton followed and became associated with Bennett and together they brought the total past ours.

Bennett commenced the credit balance by square-cutting Mander for a couple. Rayner now took a hand with the ball and in his first over secured Middleton's wicket with the aid of a catch in slips by Gurner. He and Bennett had added 55 for the fifth wicket.

5-30-143

Pellew partnered Bennett and at 6 o'clock the score stood at 152 for 5 wickets. Bennett being not out with 56 and Pellew 4.

SECOND DAY.

Gurner and Cockram opened the bowling on Monday but runs came steadily, until Pellew was caught at third man by Mander off Cockram, who now had an average of four for 38.

6-21-180

Bennett was 63 when Horwood joined him. Pflaum relieved Cockram and it was evident that Horwood did not appreciate the change. However he snicked a single and then faced Mander, who took Gurner's place, for a maiden. Bennett brought up the second century, which had occupied 210 minutes, Bennett having been in the full time for 67. Edwards bowled in place of Mander and soon afterwards Horwood was bowled by Pflaum.

7-24-210

Colman followed and was very unhappy while Pflaum was bowling and was missed behind the wicket before he had scored. At luncheon the board showed 245 for 7 wickets.

In the second over after luncheon Colman was missed at cover-point by Cockram off Rayner. It took Bennett 20 minutes to make the necessary nine runs to bring up his century. At 113 he poked a ball high up in slips off Chinner and a fine catch was taken by

Edwards at third man. Bennett had played a patient and steady innings and he deserved the applause he received on returning to the pavilion. His score included 8 fours and he occupied the crease for  $4\frac{3}{4}$  hours.

8-113-284

Linden joined Colman only to see him stumped as the ball rebounded from the wicket keeper's pads. He had been in for over an hour for 28 (3 fours.)

9-28-284

Lowe was the last man in and they gave the bowlers further trouble and they ran the total off the 300 mark and it was not until the total had reached 328 that Lowe was bowled by Rayner for 21. Linden remained not out with 19 to his credit.

Cockram was the best of the bowlers, obtaining four wickets for 68, he bowled well all through the match and his average was at one time 4 for 38. The other wickets were divided among Rayner, Pflaum, Chinner and Edwards.

Haslam and Edwards opened our second innings. They started off very quietly and the first six overs only yielded four runs, all from Haslam who was easily caught at point by Riley off Jose.

1-4-4

Gurner followed and opened by straight-driving Riley for four, but he didn't last much longer as he was caught in slips by Hopkins off Jose.

2-4-12

Mander was next and with Edwards carried the score to 51. When Edwards was 8 he hit a ball from Jose to Horwood at square-leg, but was missed. Mander ran into double figures with a crisp square-cut to the pickets. Hopkins replaced Riley. With 51 on the board Edwards was caught in the deep field by Middleton off Jose. Mander was 21.

3—20—51

Rayner partnered him and associated they played out time, Mander being 48 not out and Rayner 31. When he was 24 he gave Jose a chance off his own bowling but it was declined.

#### THIRD DAY.

On resuming play on Tuesday, Mander and Rayner kept the field alert by smart running between the wickets. Hopkins relieved Riley, and the change proved effective. He captured Mander's wicket with his second ball. Mander had been in 70 minutes for 63. His was a very creditable performance, and his play was far more attractive than Bennett's. 4—63—145. Collins joined Rayner, and opened by pulling the first ball to the fence. He then faced Jose, and hit him to fine leg for 4, and to the boundary for a like number. Rayner brought his half-century up in 75 minutes, when he was beaten by Hopkins. 5—52—162. Chinner became associated with Collins, and Jose was replaced by Linden. Chinner narrowly escaped being run out when he was 5. Soon afterwards Bennett

missed a chance of stumping him off Hopkins. On reaching 14 Chinner was bowled by Hopkins, who secured the third wicket at the cost of 50 runs. 6—14—196. Mengersen joined Collins, and made the single necessary to save the innings defeat. The 200 appeared in three hours, when Collins lifted a ball from Linden to Jose at mid-off, and had to retire with 40 to his credit, which he had made in as many minutes by attractive batting. 7—40—206. Mengersen knocked up a dozen carefully before he was bowled by Riley—his first wicket. 8—12—220. Magarey and Pflaum added 4 before Magarey chopped a ball to Coleman at cover, and was out for 8. 9—8—224. Cockram was the last man in, and had only made one when he was bowled by Riley. Pflaum remained 4 not out, and the innings thus closed for 227.

With only 31 to win, Bennett and Colley opened to Gurner and Cockram, and with Gurner's fourth ball Colley was caught by Haslam. 1—0—0. Hopkins filled the vacancy, and after a few overs Pflaum replaced Cockram, and Mander went on in place of Gurner. Hopkins seemed to appreciate the change, and was soon in the twenties. Edwards replaced Pflaum, and Rayner continued to change the bowling, Edwards being the fifth tried. Rayner himself had the last over. When he took the ball two runs were required to win, and Bennett, getting him to

square-leg for 4, placed victory with St. Peter's with 9 wickets still in hand.

### Cricket, 1913.

V. ADELAIDE B.—October 4 and 11.

This was our first match, and owing to lack of practice the scoring on both sides was poor. Seven of last year's oval team were back, but Magarey was on the sick list and so unable to play. Gurner, Mander, Chinner, and Pflaum showed the best form, but all the others failed to get double figures. The scoring was very slow and we were all dismissed for 99. Adelaide started off well and at the call of time had 66 up for two wickets. The next Saturday's play proved very exciting. Pflaum and Gurner bowled well, but the fielding was a little slack. Haslam showed good form behind the wickets. When Adelaide's last man came in they wanted two to get to win. The batsman hit an easy one, but through over-excitement tried for two, and from a smart return was run out, leaving the game a tie. P.A.C. started their second innings and at the call of time had made 126. Gurner played carefully for a well-made 36 not out. Scores—

—  
V. STURT B.--October 18 and 25.

The team had shown great improvement since the last match. Rayner won the toss and decided to bat. Edwards batted nicely for 43 before

being run out, and Mengersen showed some hitting powers in making 31. Pflaum played prettily for 14. A moderate score of 154 was all we could manage. Our bowling was a great surprise to Sturt. Mander proved very dangerous and Pflaum bowled well, getting four for 19 and three for 19 respectively. Sturt score amounted to 88. P.A.C. followed on again and just succeeded in topping their first innings' score by two. Gurner played very well for 50, placing his strokes well. Rayner 22 and Haslam 17 were the best of the others. Our fellows showed bad judgment between wickets, no less than four being run out. Sturt in their second innings did better, getting 107 for six wickets. The fielding was excellent, each man backing up well every time. Scores—

Bowling—Gurner, one for 15; Cockram, one for 22; Mander, one for 6; Rayner, two for 15; Edwards, one for 17.

V. LINDEN PARK.—November, 1 and 8.

This our third match was played in excellent weather. Rayner won the toss and decided to bat on a perfect wicket. The display of batting was poor, and most of the wickets were given away by lack of confidence. Rayner, Mander and Edwards were the only batsmen to make anything like a stand and the innings closed for 100.

We yet had hopes of a win; but we had not reckoned with Ryan, the veteran captain of Linden Park. He knocked up 62 in splendid style and helped his team to put together 201. Gurner was the most successful bowler getting 3 for 24. In our second innings we did much better and soon overhauled our opponents' score. Rayner declared in the hopes of a win with 8 wickets down for 207. Collins showed splendid form for his 60 and hit hard all the time. Gurner, Mander and Haslam also batted well. Linden Park again did well in their second innings getting 127 runs for 4 wickets and thus winning by 6 wickets. This match had been rather disappointing for us; but yet it was good to see one or two strike form. Scores—

Bowling — Pflaum, one for 29; Edwards, two for 10.

V. GLENELG.—November 15 and 22.

Glenelg won the toss and batted first on a good wicket; but they could do nothing against Mander who was in deadly form. Mander claimed six wickets and finished up with the remarkable analysis of 6 overs, 5 maidens, 2 runs and 6 wickets. Glenelg's total was 72. This we soon overhauled and established a good lead before the day was out. Edwards batted well for 72 and Chinner showed some good strokes in getting 48 not out. The second day's wicket was wet, but Chinner managed to carry his score to 62 still not out. Pflaum got 34 in good style.

Glenelg did still worse on the wet wicket, and were completely baffled by Pflaum who got 6 for 6 including the hat trick. They only succeeded in getting 53 and thus we won by an innings and 140 runs. Scores:—

Bowling—Gurner, 2 for 30; Cockram, 1 for 12; Mander, 6 for 2; Pflaum 1 for 19.

Second innings ... .. 53

Bowling—Cockram, 1 for 21; Mander, 2 for 9; Pflaum, 6 for 6.

V. ADELAIDE.—November 29 and December 6.

This was our return match with Adelaide, with whom we had tied earlier in the season. Adelaide batted first and

occupied the creases nearly all the afternoon for 211. Pflaum bowled 19 overs and finished up with the splendid record of seven for 63. On the first day we had two for 56. The next day's play proved very exciting. Mander batted nicely for 50, and Collins hit hard for 43 before he was run out. We wanted 36 to get and had three wickets to fall. Mander was caught in the slips and Pflaum was brilliantly caught by Dawkins at short leg. Mengersen, the last man, hit out and got five before Bartlett bowled him. Adelaide thus won by 30 runs. Adelaide went in again and by quiet cricket scored 156 for six wickets. Scores—

 Bowling—Gurner, two for 42;  
 Edwards, one for 19; Cockram, two  
 for 24; Rayner, one for 15.

## V. OLD SCHOLARS.—December 9.

This match usually provides good practice for the intercollegiate match, and this year was no exception to the rule. As is usual, the Present Boys batted first, and took from 11.30 a.m. till 3.45 p.m. in making 282. Edwards and Haslam opened up slowly, and the first wicket fell for 39. Haslam went soon after, with the score at 56. Gurner and Mengersen played out time to dinner. After dinner the cricket was more forceful. Mengersen hit well for 35. Magarey and A. L. Collins both failed, and Chinner made a moderate 8. Rayner and Gurner then became associated, and the score mounted quickly. Gurner soon reached his half-century, and then hit out. He hit a 6 and a couple of fours, and was then out to Willsmore after that bowler had missed a difficult catch off his own bowling. Gurner had played very well for his 68, and was accorded an ovation on his return to pavilion. Collins joined Rayner, and hard hitting was seen, Collins starting off with two fine sixes. Pflaum was soon out for 4, and Cockram remained not out 1, Rayner being caught on the boundary for 77. Howard and Willsmore took the wickets for the Old

Boys, the former getting 7 for 82, the latter 4 for 41. The Old Boys had 283 runs to get and 2½ hours in which to get them. They started brilliantly, and when stumps were drawn were all out for 308. Don Steele, our last year's captain, contributed a well-made 109 retired. His splendid effort was marred by two chances when he was in the eighties, but this was mainly due to the hard hitting tactics he adopted. H. B. Willsmore (57), C. R. Davies (36), and W. O. Haslam (37) were the best of the others. H. W. A. Miller, the energetic secretary of the P.A.O.C.A., was run out, as usual, after making 4. The wickets were well divided up, Gurner (2 for 33) being the most successful. Altogether we had a splendid day, and we heartily congratulate the Old Boys on their victory. Scores :—

Bowling — Gurner, two for 33; Edwards, none for 59; Cockram, two for 34; A. L. Collins, one for 48; Rayner, none for 41; Mander, one for 18; Pflaum, one for 42; Chinner, one for 10.

Critique of Team.

Chinner, T. L.—Good bat, with a good drive and cover drive. Rather inclined to sit back on his bat. Good

field at mid-off. Fair bowler, medium pace.

Cockram, C. E.—Left arm bowler, apt to get down-hearted when wickets are scarce. Good field at cover. Poor bat, who can stay in if wanted to. He was off form at the beginning of the season, but struck form later.

Collins, B. E.—A hard-hitting batsman with a splendid drive. Apt to step away from a ball on the leg stump. Fair change bowler, medium pace. Sleepy fielder.

Edwards, H. T. J.—A very pretty batsman, with strokes all round the wickets. Too inclined to have a "go" at anything pitched up to him. Good medium pace change bowler. Sure field at third man.

Gurner, C.—The most consistent bat of the season. Has a good drive and leg stroke. Has improved wonderfully, though still somewhat stiff in style. Good medium-fast bowler. Splendid field in any position.

Haslam, S. H.—Has done very creditably as wicket-keeper, sure stumper, but lets a few fast balls past him. Very solid bat, with good cover drive and glance. Improved wonderfully during the season.

Magarey, D. D.—A good batsman at practice, but has failed in matches owing to lack of confidence. Powerful drive with plenty of force behind it. With confidence should do well. Good ground fielder, but only a fair catch.

Mander, L. A. (Vice-Capt.)—Good batsman with a variety of strokes. Hits hard when fairly going. Good fast bowler with a dangerous spin off the wicket; apt to be a trifle erratic. Splendid out-fielder.

Mengersen, N. V.—A hard hitting unorthodox type of batsman with little defence. Hits hard at everything, placing his strokes well. Good fielder in any position.

Pflaum, R. H.—A slow bowler with a good off break. Keeps a splendid length and is very accurate. Has taken a lot of wickets. Good left-hand bat with a variety of strokes; especially strong on the leg. Good field.

Rayner, H. L. (Captain)—As captain, has been very popular, and managed a difficult team with success. A fine bat, possessing strokes all round the wicket, with a particularly fine cover drive; rather inclined to hit. Splendid field at point. Bowls leg breaks with some success.

Fowler, W. M. (Emergency)—A good batsman with but little enterprise. Has been off form the whole season. Fair fielder, ground work weak.

---

### Cricket.

---

During the last term of 1913 great interest has been taken in School Cricket. The First Eleven completed the first half of the season's programme

in B Grade cricket; the Second and Third Elevens played on most of the Saturdays in October and November; and several matches were also arranged for Fourth and Fifth teams.

The First Eleven played six B Grade matches (including the match against S.P.S.C.) winning two and losing three, the first match, that against Adelaide B, ending in a tie. A match against the Old Scholars was also played, in which our eleven put up the creditable score of 281—Rayner 77, Gurner 68, and Mengersen 35 being our chief run getters; the old boys thanks to 109 retired by Don Steele and 57 by Willsmore, made 308. The scoring of the team in B grade matches has only been moderate, only 7 scores over 50 were made in the six matches. Our bowling generally was good; against Gleneig B, Mander got six wickets for two runs in the first innings, Pflaum six for six in the second. Edwards, Mander and Collins were our best batsmen, Collins especially scoring well towards the end of the year. Pflaum and Mander bowled well and obtained most of the wickets. Rayner's batting was disappointing, but as Captain of the team he did good work.

The Second Eleven did fairly well, winning three and losing one of the six matches played; the drawn games were against S.P.S.C. II.: in both of which the advantage at the call of time was with the blues. The batting of the

team was only medium, A. L. Collins and F. Hone being the most consistent scorers. Williamson's bowling was very good, and was mainly responsible for the lowness of the scores against the team.

Our third eleven was the most successful team; of 7 matches played six were won and the other drawn, much in our favour. The scoring generally in these matches was low, but Humphries, Crosby, Davidson and Hone all made runs. In bowling the team was strong, Willsmore, Davidson and Humphries getting 40 wickets between them, at an average of less than five runs per wicket. The Fourth Eleven played four matches, winning one and losing two. The Fifth played two matches only against S.P.S.C. V., winning both of them.

In all, school teams played 26 matches, of which 14 were won, 6 lost and 6 drawn. This is a very satisfactory record, and a good deal of credit is due to Messrs. Blacket and Davies, for the interest they have taken in the practice; the thanks of the junior players being especially due to Mr. Davies for his coaching and his instruction. We must also thank Mr. K. Quist for his coaching of the First Eleven. We had also visits from three old boys, Messrs. Kirkwood, K. N. Steele and Howard; the boys appreciate the interest shown in them by old boys, and we give an invitation to old

boys generally to come during the coming year at any time for a practice at the nets, or a run during the football season.

Details of matches played :—

SECOND ELEVEN.

v. Alberton.—P.A.C., 5 for 130; Alberton, 40. Harris 43, Hone 28, Harris 4 for 9, Hoopmann 2 for 1.

v. Adelaide High School.—P.A.C., 85; A.H.S., 88. A. L. Collins 29, Williamson 5 for 9.

v. S. Peter's II.—P.A.C., 119; St. Peter's, 54 and 4 for 46. Davidson 35; Williamson, 6 for 14.

v. S.P.S.C. II.—P.A.C., 8 for 87; S.P.S.C., 9 for 214. Hone 31, Collins 21. Swann 5 for 31.

v. Concordia College.—P.A.C., 8 for 168; C.C., 89. Collins 67 not out, Williamson 26, Williamson 7 for 32.

v. S.P.S.C. II.—P.A.C., 6 for 107; S.P.S.C., 172. Chipper 36 not out, Chinner 28, Strempel 3 for 11, Gray 3 for 15.

THIRD ELEVEN.

v. Gawler Team.—P.A.C., 4 for 115; Gawler 8 for 80. Collins 49 not out, Humphries 24 not out. Williamson 4 for 16.

v. Concordia II.—P.A.C., 7 for 160; C.C., 94. Williamson 43 not out, Davidson 36, Humphries, 4 for 10, Williamson 4 for 37.

v. Adelaide High School II.—P.A.C., 5 for 149; A.H.S., 33. G. Hone 44 not

out, Davidson 44, Davidson 5 for 15, Willsmore 4 for 15.

v. S.P.S.C. III.—P.A.C., 82; S.P.S.C., 46. Crosby 23, Plush 3 for 17, Willsmore 3 for 18.

v. Glenelg Juniors.—P.A.C., 8 for 106; Glenelg, 43. Crosby 31, Humphries 36, Humphries 3 for 6, Willsmore 4 for 16.

v. Unley High School.—P.A.C., 48 and 9 for 69; U.H.S., 24. Stephens 19 not out, Crosby 15, Willsmore 6 for 8, Davidson 3 for 10.

v. S.P.S.C. III.—P.A.C., 165; S.P.S.C., 54. Bell 47, Hoopmann 33 not out, Hoopmann 6 for 24, Humphries 3 for 15.

FOURTH ELEVEN.

v. Queen's School.—P.A.C., 48; Q.S., 114. Bell 10 and 5 for 50, Jones 9 and 3 for 31.

v. S.P.C.S. IV.—P.A.C., 20 and 89; S.P.S.C., 49. Leaver 33, Jarrett 23, Warren 4 for 13, Cornish 3 for 14.

v. Queen's School.—P.A.C., 146; Q.S., 7 for 109. Wearne 43, Fowler 26, Warren 3 for 10, Wearne 3 for 12.

v. S.P.S.C. IV.—P.A.C., 117; S.P.S.C., 98. Warren 33, Piper 16 not out, Cornish 4 for 29.

FIFTH ELEVEN.

v. S.P.S.C. V.—P.A.C., 86 and 7 for 78; S.P.S.C., 69. Richards, 41 and 8 for 28.

v. S.P.S.C. V.—P.A.C., 155; S.P.S.C., 62. May 55, Shepley 15, Richards 3 for 8.

Intercollegiate Tennis, 1913.

This year, owing to the S.A. Football League having completed their programme of matches, we were able to finish our annual contest with St. Peter's in one day (Saturday, Sept. 27th.)

We had every confidence in Gurner and his team, but as events showed St.

Peter's were undoubtedly the better team, and we all join in offering them our heartiest congratulations on their splendid victory.

There was a keen struggle for the last place in our team, and Hoopmann certainly justified his inclusion.

The teams:—

S.P.S.C.	P.A.C.
Hopkins (Capt.)	Gurner (Capt.)
Jose	Trott, E. M. (Vice-Capt.)
Middleton	Haslam
Cox	Hoopmann
Lowe	Rayner
Hall	Trott, L. W.
Hayward (Emerg.)	Hone and Mander (Emergs.)

The play opened at 10 a.m. with the fourth, fifth, and sixth singles.

Cox and Hoopmann opened tamely, play being rather slow; Hoopmann's tossing and placing was too great a problem for Cox, and won him the first set, 6—3. Although Hoopmann started the second set well with 2—0 to his credit, Cox eventually ran out winner, 6—4.

The last set was in both senses a battle of giants. The issue of the set was in doubt right up to the last stroke. Hoopmann raised our hopes by winning the first two games, but his opponent won five games to our man's one, making the score 5—3 in St. Peter's favour. The next two games fell to us somewhat easily, and the excitement

was intense as Hoopmann served the opening ball of the last game. The Fates were against us, however, and although Hoopmann made some wonderful recoveries, Cox won the set and with it the rubber.

Rayner's set with Lowe was disappointing for us, as our representative was below form. Particularly was this noticeable in his serving and volleying. Lowe obtained the first two games, but lost the next four. After this he seemed to find Rayner's weak point and began tossing, with the result that he won the next four games, and so the set, 6-4. Play then became somewhat dull and Lowe won the rubber 6-4, 6-3.

Hall and Trott had a great battle for the honours of the sixth single. The board showed Trott 5-2, but Hall, after a plucky fight won the set 6-5. Trott played better in the next set and won without much difficulty, 6-3. After this our man did not do so well and the rubber went to Hall. The second round consisted of three doubles. Gurner and Eric Trott had no difficulty in defeating their third double. Gurner's service at times was unplayable, and the pair played well together. L. Trott and Haslam looked like winning the first set against Middleton and Lowe with 5-4 in their favour; however, another 5 all, deuce game went against us and another rubber went to Saints' ever-increasing tally, for they won the next set 6-3.

Rayner and Hoopmann gained much well-deserved applause by the splendid fight they put up against St. Peter's first double. They reached 5 all in the first set, but when St. Peter's won (6-5) with a deuce game, we began to think that 5-5 games were an ill-omen for P.A.C. The second set resulted in a splendid victory for us, the scores being 6-0. Our men completely demoralized their opponents by their brilliant driving, accurate placing, and resourceful tactics. Only in two games did St. Peter's reach deuce. However, they were unable to maintain their splendid effort, and Hopkins and Jose secured the victory.

This pair started off well against our second double, winning the first 6-1. The second set was more evenly contested and our pair won 6-3. One game in particular was very exciting, no fewer than 16 deuces being called. In the deciding set even our most optimistic supporters felt nervous when 5-5 was called, while many a pessimist said, "I told you so!" when Saints secured the rubber.

It was a surprise when Gurner and E. Trott were beaten by our opponents' second double in the first set 4-6. They rallied, won the next set 6-2, and were regarded as certain victors when the score stood at 5-1 in their favour in the deciding contest. The Saints must indeed be congratulated on their brilliant uphill fight, turning what

seemed certain defeat into a glorious victory.

Rayner and Hoopmann won decisively against Cox and Hall 6-2, 6-4, only three games being played in which deuce was called. This was our second and last rubber of the match.

A large crowd congregated to witness the Championship Singles, Gurner v. Hopkins, as a keen struggle was anticipated. In the first set Gurner completely outclassed his opponent, and the quality of Gurner's service was shown by the fact that Hopkins did not win a single stroke whilst receiving. Gurner started off with 3-0 to his credit in the second, but Hopkins made a splendid rally and in the next four games Gurner only won four strokes. The last two games were more evenly contested, deuce being called three times in each. The last set was in doubt right to the finish, first one leading then the other. Gurner's smashing and placing were not nearly so sure as in the first set, and although he lead 5-4, Hopkins gamely stuck to him and eventually won the last two games and the championship. Hopkins must indeed be congratulated on his fine uphill fight.

Jose and Trott fought the Second Single, which resulted in a victory for the former 6-3, 6-3.

Jose's play was very sure and steady. Trott, although not playing in his best form, was at times very good.

Middleton proved too good for Has-

lam; his play on the whole was much better, and he had far more experience of the game than Haslam. In the second set, however, our man played much better, and although the scores were the same the play was much more even.

Hoopmann and Rayner opened 2—0 against Middleton and Lowe, but the next six games all went to the other side. Our players did not succeed in getting more than two games in the second set either.

Haslam and Trott opened well with 3—1 in their favour against Cox and Hall, but in the next five games only secured four strokes. The second set fell to Saints 6—3.

It was unfortunate that the Championship Doubles should be the last set of the afternoon, as many people went before it started, because St. Peter's had already obtained the Shield. However, after an exciting and close game the rubber resulted in a win for St. Peter's 6—5, 6—4.

Scores:—

#### Singles.

Gurner lost to Hopkins 6-1, 3-6, 5-6.

Trott lost to Jose 3-6, 3-6.

Haslam lost to Middleton 2-6, 2-6.

Hoopmann lost to Cox 6-3, 4-6, 5-6.

Rayner lost to Lowe 4-6, 3-6.

#### Doubles.

Gurner and Trott lost to Hopkins and Jose, 5-6, 4-6.; lost to Middleton and

Lowe, 4-7, 6-2, 5-6; beat Cox and Hall, 6-3, 6-2.

Haslam and L. Trott lost to Jose and Hopkins, 1-6, 6-3, 5-6; lost to Middleton and Lowe, 5-6, 3-6; lost to Cox and Hall, 3-6, 3-6.

Rayner and Hoopmann lost to Jose and Hopkins, 4-6, 6-0, 1-6; lost to Middleton and Lowe, 2-6, 2-6; beat Cox and Hall, 6-3, 6-4.

S.P.S.C.—13 rubbers, 26 sets, 180 games.

P.A.C.—2 rubbers, 10 sets, 149 games.

---

### On the Murray.

(By K. L. ELPHICK).

Having obtained a brief respite from my daily labours, I decided to undertake a trip on the Murray to Renmark. So one Wednesday early in September found me up at the unwonted hour of 5.15 a.m., and at 6.45, when all respectable people are asleep, the train was bearing me to Murray Bridge. At Mount Lofty a glimpse was caught of the genial countenance of G. F. Cleland, jun. The Bridge was reached at 10 o'clock, and after a stroll round the progressive town a course was laid to the wharf, where the s.s. "Ruby" lay waiting. Those who are only acquainted with the luxurious accommodation of the present day ocean-going steamers will notice a strong contrast when travelling per river steamer. The

only point of resemblance is that of the fares charged, but even they are heavier by river than by sea.

We left Murray Bridge at 11 a.m., being preceded by the s.s. "Murrundie," upon which vessel was observed the stalwart figure of W. H. M. Randell. The river is at its best around Murray Bridge, wide and straight, enough to bring joy to any oarsman's heart, and perhaps a shade of envy if he is confined to the Torrens Lake for his own exercise. On one side of the river are the cliffs, on the other the swamps, which are mostly reclaimed in this district and carry some fine stock. After passing the Irrigation Department's works at Myponga and the township of Caloote, Mannum is reached early in the afternoon. This is a pretty and prosperous town, which clings to the side of the cliff in a series of terraces which add considerably to the appearance of the town. There is another splendid stretch of river here, and, for many miles from Murray Bridge on, the appearance of the stream is enhanced by the willow trees which have been planted on either bank. There is a fine lagoon about ten miles above Mannum which is very enticing to any sportsman. Duck, swan, pelicans, cranes, and many other birds may be found hereabouts. Further on there are cockatoos, parrots, and many smaller birds, to say nothing of crows, magpies, kookaburras, hawks, &c.

At Bowhill we disembarked a party of surveyors, together with equipment for a six months' stay in the scrub surveying the route for the Waikerie railway. As it was dark, cold, and wet, and there was apparently no shelter, one did not particularly envy those surveyors. The town of Bowhill consists of one house, which is the store, bank, post office, and several other things combined, but as there were at least six persons on the wharf, one concluded that the population of several neighbouring towns must have been there on a visit. In past days at P.A.C. we were taught that "a point is that which has position but no magnitude," and this is well illustrated by many of the river towns which have their names in large type on every map, but the unaided eye is unable to distinguish the town from the surrounding scrub. For example, we would approach the captain and say, "When do we reach So-and-so, Skipper?" "Oh, we passed that half an hour ago," he replies. "Didn't notice any town," we say. "No," says the skipper, "but didn't you see those two beer barrels on the bank? — that's So-and-so."

On Thursday morning we arrive at Morgan wharf. The engineer who prepared the plans for this wharf had an eye on the future, the day when the Murray is navigable by 10,000-ton steamers, and he designed the wharf

accordingly. At present the steamers tie up at the bottom of the piles and passengers make their way to the upper world by means of a series of planks and stairways.

Owing to the kindness of a fellow passenger I was spared the necessity of spending the day walking the streets of Morgan, but had an enjoyable and interesting day examining an adjacent station and irrigation works.

We left Morgan at 7 p.m. on Thursday and arrived at Waikerie at daylight on Friday, but let Dr. Stoddart continue his slumber undisturbed. After leaving Waikerie we spent most of the day in dodging sparks from the funnel as the steamer headed this way or that, following the windings of the stream. The evening was spent in listening to the sweet (?) strains of an accordion and indulging in an improptu dance on deck. During the day many townships were passed, including Moorak, Cobdogla, Kingston-on-Murray and Loxton; there was also a naval engagement with a rival steamer, the ammunition being potatoes. Both crews entered into the battle with zest but the casualties were few, as the boat soon drew out of range.

Every few hours the order was given for all hands to take in wood and soon six or eight tons would be passed from hand to hand up the gang-plank and stacked on board. Everyone takes a hand—skipper, purser and any passen-

gers who have a superabundance of energy.

On Saturday morning we stop at Lyrup, Calperum and Paringa, where the finishing touches were being put to the railway. Renmark is sighted before noon and we are at the terminal point of our journey upstream.

Renmark is rather disappointing as a town, it is straggling, unkept and consists mainly of galvanised iron structures. The population is divided into many factions. The "out back" people who reside in the fruit growing area look with scorn upon the townspeople, and "immigrants" look scornfully upon all and sundry, particularly Australians, who are of course not slow to return the compliment. At the skating rink there are special "English Nights," no Australians allowed, and altogether the exhibition of petty spite and ill feeling is absurd.

Although only in Renmark for a few hours, I met three Old Reds, Messrs. R. S. Evans, D. Kidd, and Rev. H. H. Fennell.

After spending three hours shivering on the river-bank awaiting the steamer's arrival, we start on the return journey at 1 a.m. on Sunday, with a wool cargo for company. A good deal of wool comes down at this time of the year, and at Overland Corner we took the "Decoy" and two barges. The "Decoy" is a deep-sea vessel and at one time was trading to

West Australian ports; but we offer up prayers of thankfulness that we were never called upon to make the trip in such a tiny boat.

Morgan is reached in the early hours of Monday morning, and a start is made for the city at 8 o'clock. At Kapunda, E. R. James is in evidence, and one is once more reminded of the Old School.

The city is reached by noon after five all too short days of pleasant travel.

Any one requiring a few days outing is recommended to try the River trip, which embraces all the advantages of a sea voyage without its drawbacks: such as monotony and, what is more important to indifferent sailors, risks of sea sickness.

 The September Camp.
 

---

During the September vacation 28 College lads, mostly seniors, joined in a camp at Port Noarlunga, under the title of "The Innocents Abroad." This camp movement was organised in 1910, and has continued every September since, each camp proving a greater success than the previous one.

Port Noarlunga is *the* ideal spot for exhausted students, and is in itself an attractive holiday resort, its most conspicuous points being—Quietness (!), a wide sandy beach, a jetty, rocks and high cliffs, the Onkaparinga and mouth, a bridge over the river covering thirty feet of water, hills close to hand, deserted ochre-pits, and a maze of sand-hills containing many precipitous slopes for jumping and sliding. Other camping conveniences at Port Noarlunga are—The store, containing everything from raspberry balm to axe handles; the attendance of both butcher and baker; milk at the absurd price of six-pence per bucket; and, most important of all, a good, well-protected camping site.

Our accommodation this year consisted of eight tents and a large stone barn of some twenty-five feet by forty. The barn contained all the cooking utensils, tables, forms, phonograph, magic lantern, eatables, &c. One table was set apart for the convenience of the cooks; the other three were arranged in a large T, and were covered with pink oilcloth. We sat round these for meals, and in the evening for games. At the rear of the barn was a delightful couch-grass plot on which the tents were pitched in two rows, with the doors facing a common alley. The space down the middle was called "the street." The names of the tents in order were—"T<sup>3-1</sup>," "The Morgue,"

"Canberra," "Hades," "The Abattoirs," "Glen Doon," "The Pav," and "The Nursery." Each tent had its "boss," who was responsible for the general condition of his tent and the care of ropes, &c., during showers in the night. The camp *rule* was "BE CONSIDERATE."

The work was fairly divided, and our patent system again proved its worth by the absence of complaining and the bustle with which the "jobs" proceeded. In brief this was the system:—The twenty-eight members were divided into three "cooking groups" and five "washing groups." A cooking group contained one cook and three cook's mates; thus twelve were assigned to the duties of the fire, the remaining sixteen being divided into five washing groups, and had to deal with the water. Each cooking group took a day in turn and each washing group a meal in turn. The duties of a cook were to cook and bear the criticism; those of his mates to supply water and fuel, sweep out the barn, set and wait at the table, and wash cooking utensils. All other things were washed by the group of "washers" whose turn it was.

The normal routine of the day was as follows:—

6 a.m.—Cook arises.

6.30—Cook's mates arise.

7—Turn out (by the c's.m's.)

7.15—Bathe in the river or sea (weather deciding).

8—Breakfast.

8.40—Prayers.

9—Tents inspected.

9 to 12.30—Free.

12.30 p.m.—Lunch.

1 to 6—Free.

6—Dinner.

7 to 9—Games, songs, phonograph, cards, &c.

9.15—Supper.

9.30 to 10.30—*Going* to bed.

Of course this routine varied according to the arrangements for the day. Whole-day outings were indulged in, and one day was given to the Wondergraph Moving Picture Company.

Perhaps the most enjoyable excursion was that of the trip up the gorge of the Onkaparinga River. A party led by a gallant oarsman (who was subsequently dethroned for his tyrannical humor) rowed up the river to Noarlunga, some six miles (by the river) from the Port, and bore with them the lunch of the entire camp. The remainder made their way by means of bicycles. Having left the boat and bicycles in security we started off up the gorge, following along the bank of the river. Those familiar with this gully can support our opinion that the scenery of this vicinity is about the most beautiful in South Australia. The day passed quickly, and the following phrases call happy memories to those who went:—Rolling stones and barrels, chasing wild horses, fighting fat, excess

of tinned fish, skipping stones, &c. Those on the bikes pitied the boating crew when we started back to camp, nevertheless the sailors under the guidance of a new skipper (who likewise was "overthrown") declared they enjoyed it more than anything.

Another whole day was spent at the ochre pits, which necessitated a ten-mile walk—five each way—but thanks to marching and whistling this passed only too quickly, and thus turned the repulsive outing into the most attractive one. The pits contain ochre of every hue shading from colour to colour in most exquisite tints, and the material is soft like cheese, so is easily shaped, and upon exposure to the sun becomes hard and set. Perhaps these phrases recall all-but-gone thoughts of joy:—Cold roast fowl and pickles, cream, oranges, bush-biscuits and flowing jam, Donald's alpine climbing—and result, bush fires and mushrooms, and best of all—the discovery of a walking-stick.

Several particularly enjoyable evenings were spent, the best of these being the evening at Miss Newland's and the supper thereat. The Camp Concert comprised a collection of highly interesting songs and conjuring, not to mention the play composed by H. W. S. in the nick of time and entitled the same; the supper following this evening was most enjoyable, thanks to the thought and generosity of two of our parents known as the Camp Mothers, who stayed at

the boarding house some way off and frequently advised and helped us in domestic troubles. The best evening of all was the Camp Feast. This commenced at 8 o'clock and was brought to a close at 1 o'clock. The menu was of incalculable length, containing many hot as well as cold items, and perhaps accounted for the lack of appetite at breakfast of the following day. Toasts, speeches, songs, recitations, and violin solos were indulged in, and the feast was pronounced a success, even by that severe critic and boundless tester, D. D. M.

The general health of the campers was splendid, although the first week brought severe colds; but, thanks to good preventatives well administered, these had all vanished by the second week. One badly cut foot, another deep wound in a hand, and in another person a raw elbow, were successfully treated by one of the camp "first aid" members. Perhaps the most effective way of proving the good health of the lads is to quote a few of the actual items from some of the bills:—148 loaves of bread, 76½ lbs. mutton, 35 lbs. sausages, 21 lbs. butter, 30 gallons of milk, 178 eggs, 79 lbs. biscuits, 35 lbs. porridge, 43 lbs. sugar, 7 lbs. cocoa, 30 lbs. honey, 4 cases oranges, 1 case apples, and 28 lbs. boiled sweets.

If everything were told that was of interest during the fourteen days, this would indeed be a long report; so, to

shorten matters without omission, here follows a list of the enjoyable indulgences, for which the imagination of the reader can easily supply the details:—Boating on the river, shooting the rocks at the mouth, surf effects, boating in mid-ocean (meeting and salute of H.M.S. "Karratta"), swimming, sport in sandhills, jumping in bathing togs down steep inclines, meals, cards, horizontal bar, letter-writing (?), evening sing-songs, phonograph records such as "We close at two on Thursdays" or "Boys and girls come out to play," not forgetting the verse ending "with his father;" comic performances of G. R. D. and R. A. D., &c., &c.

The camp cost was 25s. per head for two weeks and 17s. 6d. for one week. The balance showed £5 8s. 5d. to the good after all accounts were paid, and £2 of this was spent in inviting the staff and their friends to come to the camp moving-pictures with us. The remaining £3 8s. 5d. was returned in respective shares, thus making the whole expense for the fortnight's holiday 22s., and as £8 went in carriage down, it can be realised how economically the camp was run, and yet the complaint after each meal was "Blight it, wish I hadn't eaten so much!"

The return to Adelaide was various. Four walked, nine rode on the motor lorry, six motored, and the balance rode bikes. A fine collection of sun-browned college boys we were, too,

all with our brains recuperated and our vitality revived, fit for the arduous responsibility of the *third* term of the year.

Look out for next September!

---

### Boarders' Notes.

---

After spending a happy holiday, the boarders reassembled with every intention of doing a hard term's work, and most of the seniors at any rate succeeded in getting out at 5 and 5.30 a.m., Sundays excluded.

The boys of the boarding house were scared by the rumour of the occurrence of a smallpox case in a boarding house opposite the College gates, and the "carts" suffered in consequence, especially at recess times. We all kept unusually close together for a week or two to protect ourselves from the invasion of this dreaded disease, and rumour began to be spread to the effect that we were to be quarantined, but happily, like all of our other "small-pox" cases, it ended in chicken pox.

Then to the amusement (?) of the boys, two whole-day drills were set down, and for the latter most of the boys went down to the Port shooting, the boarders leaving here at about 8.30 a.m., and the last of them scrambling back at about 8.30 p.m. When they came back, one of the boarders—who does not enter into the spirit of military

training, owing to being *physically* unfit—remarked that they were extremely lucky being drilled on their feet, for that day he had been to the dentist, who had been drilling his teeth!

Owing to high prices given by the science master for frogs, one of our number created considerable amusement and aggravation by the masterful way in which he set about the capture of a certain frog which could be heard croaking down the bathroom pipe at regular intervals, commencing at 10.30 and generally finishing at 4.30. The ever-vigilant "Hossy" was ready to show his surgical capabilities by pouring down a bottle of chloroform, which silenced the frog for ever and ever.

Numerous fetes and fairs have been lately held in the near vicinity, and they have been well patronised by our boarders. On one occasion they came home late but jubilant, as they had won a large cake.

One of the Sundays of this term was perhaps the "driest" we have experienced for many a year, and consequently there was no marching home slowly in crocodile fashion, and our world-renowned 440 yards runner broke—his hat. Through peals of hail, flashes of thunder, and crashes of lightning the boarders dashed home, for the most part doing the powerful "breast-stroke" or "crawl" in the muddy waters.

Towards the close of the term—the exams being over—our Librarian was

kept very busy, and showed so much annoyance that many of the more timid ones ceased troubling him. Hence resulted the reading of the more classical literature, which we believe was bought very cheap.

Having given you a faint idea of our unhappy life, we will now give a *correct* critique (there is an "incorrect" one in another part of the "Chronicle") of our noble band included in the cricket eleven:—

1. Chinner, T. L.—Bowler of highest type, action somewhat like a steam roller, while in the field his antics resemble those of Morgan in his high-kicking; has made 62 not out in his long career.

2. Cockram, Edmund.—A second Whitty—very bad second; gets wickets when inclined, but these inclinations few and far between; solid bat, never gets out.

3. Collins, B. E.—Our midget batsman; on account of very short reach is great back player, style resembling J. W. H. T. D. Holds afternoon tea meetings in slips.

4. Mander, A. L. (Vice-Captain).—*Generally* bowls with intention of hitting wicket or breaking bats, but being cross-eyed is dangerous to *batsmen*. Favourite stroke—pull a ball into slips; fielding—absolutely rotten.

5. Mengersen, N. V.—Graceful bat personified; accustomed to hit sixes, number of which this season has not

been kept. Slow leg-break bowler, peculiar action, but never bowls. Fields anywhere—but in the right place.

6. Pftaum, R.—The recognised fast bowler; needs two longstops; has sent three batsmen to the hospital. Very free style of batting; ought to play more left hand.

7. Emergency—A. L. Collins—our deaf mute.

By carefully studying the above critique of the boarders, we feel certain that you will all agree with us in stating that our chances for the future are "Rosy."

On the eve of the last Tuesday of the term we all enjoyed an evening at the Dandies. It was originally a boarders' affair, but this year we decided to let the day boys share the pleasure also, and our thanks are due to Mr. Haslam for the arranging of the evening.

#### SENIOR BANQUET.

How impossible to describe this gorgeous affair in words—when it was only held last night, and this morning there was heard from more than one senior, "I'm not going in to break."

The table was most lavishly decorated, although most failed to notice this, all eyes being on the food and drink. W. K. Collins occupied the chair, whilst on either side of him sat the other house prefects, Mander and Mengersen. At the beginning, yelling and talking was engaged in, but

gradually, as the dainties—*i.e.*, fruit salads, trifles, preserves, jellies, fruit, sweets, almonds, raisins, &c.—were diminished, being washed down by iced drinks galore, the uproar considerably decreased. First on the programme was of course the toast “The King.” Then came the overture and a song by W. K. Collins, everybody to join in the chorus, but all kept mum with the exception of “Shirty”—much to the amusement of the onlookers. The next item was the toast “Boys coming back,” proposed by J. Roach, who, by-the-way was given a hearty cheer for his splendid achievement of a few weeks ago, when he won the Intercollegiate Gymnastic Medal, getting 102 marks out of 105. The responder to this toast was A. S. Chipper, but, like Roach, little was heard of him on account of the cheering, eating, &c. The next was a recitation by S. Howard. No one knew what it was about, but for him, as for every one of the others, all yelled “For he’s a jolly good fellow.” Then followed songs by the “Gentlemen,” as they styled themselves—and they *were* songs. The next ought to have been a flute solo, but the performer was unable to produce the sufficient wind needed for the instrument. Then came the toast “Boys leaving.” Mander tried to do justice to this band of noble heroes, but was drowned by the applause—being no swimmer. Hossfelt responded in an efficient manner. The

President’s speech was short and to the point, and he received a great ovation. Mr. Ward now made his appearance, and was given a very hearty reception. “The Staff” was honoured by a speech from Day, and Mr. Ward suitably responded. M. Newbold now recited “The Mouse and the Cat”—which one it was nobody knew. “The Teams” were now proposed by Rosanov in a masterly manner, and the toast was responded to by N. V. Mengersen.

A very enjoyable evening ended by the singing of “Auld Lang Syne,” and some of the boys joined hands for the last time in the big dining-room.

We are very grateful to the Matron and those who helped in the arrangements, and our thanks are also due to Mr. Grasby for kindly supplying the preserves for the celebration.

[It was painfully evident that the “Boarders’ Notes” were written too soon after the “Big Feed.” The writer, no doubt in the throes of acute indigestion, did not draw from the “well of English undefiled,” and the notes, as published, are the result of laborious rescue-work. We have no desire to wade into such a literary quagmire again in search of submerged “copy.”]

---

### Christian Union.

The attendance of the Union usually suffers during the third term, owing both to the public and the school

examinations. This year however, the average attendance during the third term was 35, the same as last term. These figures speak volumes for the interest taken in the work of the Union.

Mr. Chapple addressed the first meeting of the term on the subject of private prayer. Prayer is a habit which must be cultivated. The best time for prayer is early in the morning. It must on no account be hurried: "Wait on the Lord." It must be reverent, thoughtful, and holy. Follow it up with something practical.

Mr. Arthur Langsford spoke on personal work. The most effective work is done by two or three men praying definitely for a certain man, and praying further that the opportunity of helping that man might be given to one of them. They did not choose who was to speak to him, nor did they make the opportunity. Both were provided as the result of their prayers.

The Rev. W. A. Dunn said that it was in a man's nature to seek for power. True power is obtained by communion with God. Mr. Dunn mentioned Napoleon, and said that he was not a great man, because, although he had power, he had not love.

Mr. J. A. Haslam told us the history of several favourite hymns. One particularly interesting one was "Rock of Ages." It was originally written as a fighting hymn against the Wesleyans' belief in Sanctification, but they ac-

cepted it and published it in their own hymn-book. Now it is translated, and is the most popular hymn in the world.

The Rev. H. G. Nelson spoke on idealism. He said there was latent idealism in everybody, and pointed to Jesus Christ as the truest ideal for a boy to follow. Just as the sun lights up the beauty already in the mountains, so Jesus Christ brings the latent virtues in man.

Mr. J. G. Jeffreys came out to us on behalf of the University Camp Movement. He explained the main objects of the camp, and told us that he was looking to us to help them as we had last year.

The Rev. Lionel Fletcher took his text from Eccles. 10, 8: "Whoso breaketh through an hedge, a serpent shall bite him." He told us that God had put hedges around us to protect us from the evil one. He mentioned *inter alia* the "hedges" of home-training and conscience, and pointed out the dire results of breaking through these "hedges."

Mr. W. H. P. McKenzie spoke of the Student Movement in other lands. He spoke mostly of the work of Dr. John R. Mott in India and China.

Mr. Chapple addressed the last meeting of the year on the value and influence of friendship. He advised us not to forget the friends we had made at school; their influence would always be with us. We must trust them, and

they, if they have any honour, will prove trustworthy.

#### C.U. TREASURER'S REPORT.

Financially the Union is in a good position. We finished the year with a considerable credit balance, which would have been greater had all the members paid the subscriptions.

Funds are not so greatly needed now, as we have done away with the printed programmes. The fact that we have reduced our expenses is, however, no excuse for a member's not paying his subscription.

Our annual subscription to the general funds of the A.S.C.M. was duly forwarded and acknowledged. The Norwood Salvation Army also were grateful for our donation towards their funds. This latter was voted by the executive in recognition of their services at the Church Parade.

---

#### Cadet Notes.

---

This term has been a very satisfactory one in the Cadet Corps—one characterised by solid work and much improvement. The greater number of parades have been spent in section drill and musketry instruction. The time spent in musketry has certainly not been wasted, as only one cadet failed to group at classfiring.

On the first Saturday of the term a

squad of twenty under Lieut. Gilbert competed in a battle-firing contest for the Tennyson trophy under the auspices of the S.A. National Rifle Association. The conditions were to advance from 900 yards in extended order, halting ten times to fire a shot. Points were awarded for each hit, and 30 points were allotted for drill, skirmishing, and fire discipline. Our team obtained the fourth prize. They secured the highest place in drill, but dropped points in shooting, as they had never used the rifles before. This was a most satisfactory result, as all the other teams were drawn from the Citizen Forces.

Two whole-day parades have been held this term. The first was spent in squad drill and rifle exercises on the Parade Ground, and afterwards in skirmishing home through Botanic Park. At the second parade the younger boys drilled at school, while the older ones went to the ranges for musketry. Several secured maximum points for the grouping test and only one failed to qualify, but the application test at 200 yards might have been better. However, we were fortunate in having a cool day, and the instruction imparted by the staff sergeant-majors was most beneficial. The boys who belong to the Citizen Forces carried out their classfiring at the same time, and although it proved a very long day, it was much preferable to

spending Saturday afternoon on the range.

On November 26th practically every member of our detachment turned out to pay the last respectful tribute to the memory of our late Commandant. We joined our brigade and the rest of the militia on Montefiore Park, and then the brigade moved off and lined King William Road. As the cortege passed through the ranks each unit fell in behind. At the conclusion of the impressive ceremony the parade was marched to Victoria Square and there dismissed.

---

### Junior Feast.

---

The Subs. and Juniors held their annual Banquet on Friday, December 12th. It was opened by the toast of "The King," proposed by the Chairman, R. C. Reed. After this toast, nothing but a clatter of knives and forks and a continual hubbub of chattering could be heard. Items of various kinds were rendered by the members when they found time to stop eating. After each item there arose a mighty uproar, in the midst of which could be faintly distinguished the well-known song, "For he's a jolly good fellow." Jukes rose to the occasion and composed a "Menu of the Senior Feast," which he kindly favoured us with. The most appetising course was "mosquito shin-bone soup with carrots." We

have to thank Mr. Haslam for playing the piano, while we sang most heartily. Also we have to thank him for the toast which he proposed and drank by himself, saying that the representatives of the two best dormitories were present, to which we all agreed. Everything, except the ensuing night, passed off pleasantly. The committee consisted of R. L. Reed (chairman), M. Kimber (treas. and sec.), G. C. Richards, J. Grundy, T. Cowan.

**Form Notes.**

VI.U.

It is with light hearts that we pen these few lines, since holidays are fast approaching. Yet a cloud looms dark

o'er the horizon: the results of the Higher Public Examinations are not yet published. There is, however, consolation in the thought that success is often demoralizing.

The even tenor of this term's work has not been interrupted by any misplaced humour, for jokers and disturbers of the peace have been severely "turned down." Led by our masters, we have "stepped in where angels fear to tread." We have successfully waded through the mystery of the Binomial; rejoiced over an intricate network of nerves and blood-vessels; evolved many beautiful results in chemical analysis that would pale the cheeks of Crookes or Ramsay; corrected the painstaking labours of Laplace, Newton, and Dr. Joule of Manchester. Even the work of the Hon. Robert Boyle has been severely criticised.

Our education is by no means one-sided, for we have representatives in every branch of sport. In tennis there is Captain Gurner and Rayner; in cricket, Captain Rayner, Vice-Captain Mander, Gurner, and Edwards; while in gymnasium we have George Davies. We have a budding Spofforth in Mander; in Rayner we have a young giant emulating Jack Lyons; Gurner is following safely in the footsteps of George Giffen; while in Edwards we have a sterling all-round cricketer.

## VI.L.

We have had a good term's work, and hope that we have all passed the dreaded Senior. We heartily congratulate Menz on coming top of the form. We also extend our congratulations to Roach on winning the Intercollegiate Gymnasium Medal, and to Haslam, Chinner, Pflaum, and Magarey, on obtaining a place in the intercollegiate cricket team, also to W. M. Fowler on obtaining the coveted and honoured position of first emergency.

Several members of our form have been observed in most dramatic attitudes exclaiming, "O ye gods! ye gods! must I endure all this?" and later, referring to their hearts, "If that thou beest a Roman, take it forth." We feel as the 'Varsity student in the farce must have felt when he said, "I'd rather have a hard-boiled egg."

We regret that no time could be found after the exams. for the Senior Picnic, or even for the vocal competitions, in which that noted "barrow-tone," "Herr" Knowles, would be allowed to enter—free of charge—on the next stage of his musical career. In these competitions the committee generously provide a copious supply of grease paint (Nugget brand) to counteract the effects of the footlights.

English literature has been much studied lately. We hope we have benefited by it.

We wish everyone a Merry Christ-

mas and a Happy New Year, and hope that those returning will return with a greater knowledge than ever, while to those leaving we wish the utmost success in their future careers.

## UNIVERSITY V.

We have all—or nearly all—worked strenuously this term, and after a hard tussle between James, Hobbs, and Piper, the first-named succeeded in gaining top place.

We congratulate McGregor on coming top of the gymnastic class.

We are eagerly awaiting the results of the Junior, for which we have, in our humble opinion, been working exceptionally hard during the past year.

During the heat wave we were all puzzled to know why Fonty had been looking so downcast. We found out at last that he was praying for rain for the "Onion and Rhubarb Farm."

After the Junior was over we were granted special permission to have a picnic.

We arrived at National Park about 11 o'clock, and settled down to a quiet game of cricket, in which our cricket expert, William Alan Crosby, made 101 retired. On the way home, our melodious voices could be heard for many a mile.

Some of our musical friends formed the VU. Choral Society under the capable leadership of E. Vivian Roberts and the conductorship of the famous

E. Walford Davies. These youths still continue to give selections at dinner time, and cause grave disquiet among the cricketers.

---

Vic.

We congratulate Mengersen on again obtaining top place of the form, and also on capturing the coveted Scripture prize. Temby gained three certificates for the year, and so won a general proficiency prize. Two of our number are members of the first eleven—Mengersen and Cockram—and we are confident they will uphold the honor of their worthy form and of their school. As usual, we have had spirited contests twice a week with the famous "parsons" of the Geology Form. "Ginger" provoked much mirth one day on being asked the colour of a geological specimen when he replied, "As green as that tie you are wearing!" Whose tie? Although all of our members are leaving this term, there are many to step into their places, and we are certain that the ever-enlarging Commercial Classes will have a big say in the welfare of the school next year. Wishing our form master and the rest of the staff a prosperous new year, we say, "Adieu, old school, adieu!"

---

Vc.

A number of our form are leaving this term, and to them we extend our heartiest good wishes for success in

their future life. This term has passed quickly owing to our incessant studies. As usual, we have had a little bit of hilarity, without which work would be likened unto a centipede with corns.

Seven certificates have been gained, and we again congratulate Smyth on retaining top place. Towards the end of the term the Junior Commercial examination took place.

Our only representative in the inter-collegiate cricket is Bertie Collins, who upheld his reputation. We are sorry that Eric Gifford was not put in the first eleven.

A couple of interesting hours were spent in the laboratory with Mr. Iliffe, who greatly improved our knowledge of electricity.

"Bunsen" is an accomplished aquarian. When "Nuts" tried to catch him at the O.B.I. baths, he dived into the water, but was seized with cramp, and gallantly rescued by "Bobbie."

Four Commercials who were feeling very washed out after the exams. went for a long drive in a motor. They were very unfortunate in having two blow-outs. It is understood that after each mishap they counted ten and then sang "Count your many blessings." Strawberry gardens being near at the time, and two of the tourists feeling tired, the work of repairing was left to two hot, dusty, and angry would-be pleasure seekers.

Our form feels greatly indebted to its

teaching staff, and we desire to sincerely thank them for their patience and interest. We wish them and all our comrades a prosperous new year.

---

#### IVu.

Once more we have reached the much-looked-for end of the year, and after a term of strenuous work (?) we are looking forward to the holidays. Our class did very well in the Primary, 17 having passed. We also gained 11 certificates. We must congratulate Engelbrecht on his splendid performance in coming top of the Upper and Lower Fourth gym. classes and winning the medal.

There are some vague rumours that "Baby Banana" has given up his musical studies in order to "stew" for the finals. Nevertheless there are still good reasons why he should never do Latin homework.

Smith, our dux, has a unique record. He has won first place in every class subject and in weekly and final examinations for the whole year, and IVu. fellows are sure that all the forms will join in their congratulations to him.

Davidson has skipped our form team well, and Bob Reed has led the school Fifth Eleven.

---

#### IV.L.

We are all glad that this term is over at last, and that there is six weeks' holiday before us. We all think

we deserve holidays. If you seek the reason why we have worked so hard you will find it in the cupboard!

The Primary results came out this term, and we were so glad to see that 40 out of 45 of our papers had gained a pass. The successful ones were Jackman, Lade, Jauncey, Preston, Stockbridge, and Shepley. We must also congratulate Weylandt on getting the gymnastic medal for the year. The finals are now over, and the first seven are rewarded with prizes. These are Lade, Piper, Jackman, Shepley, Deland, Robinson, and Jauncey; also Williams for obtaining three certificates. We gained twelve certificates this term.

We have been very successful in cricket, as we have won nearly all our matches owing to Jones' deliveries and Rix and Robinson's batting.

Geometry seems to be very dull; so some people try to brighten it up by inventing new axioms, which are called "Robinson's self-evident proof Axioms;" but to the horror of the author the scheme turned out a failure.

We must congratulate "Iberian" Piper on leading the way in the Finals, but he found Lade too "powerful" for him in class.

We have three very energetic humorists sitting together, namely "Skeet," "Ducker," and "Bones." Also our trio: Cowan, Michell, and Walter (the three top boys at the bot-

tom) cause a great deal of laughter with their funny sayings in English lessons. "Girly" has taken up the game of cricket with such enthusiasm that he is becoming quite a brilliant bowler. He bowled Freddie Leaver (a colt) with a fine leg-break that dazzled the eyes of the fieldsmen. To the boys who are leaving this term, we wish the greatest success in their future.

### III.L.

When the third term commenced most of felt ready for work, but as soon as English Grammar and Latin lessons came round we wanted another holiday.

Our sporting record this year has been a very poor one. During the winter we found our opponents too big for us at football, and now that summer is here again we find that we have made little headway at cricket. Cornish is our captain and Gleeson our vice-captain, but in spite of their prowess we have not won a match.

Our pugilistic friends, Annie Laurie and Girlie Dancker, are always trying to disfigure one another's faces, and Tuppy Nesbit has learnt some new tricks from the students' procession.

Robertson's spelling exams are as a rule very easily marked.

We are all looking forward to the Christmas vacation, and will be sorry to lose Redwing Giles and Fry.

Our congratulations are due to John

son on coming top of the form and Reed on winning the medal for gymnastics.

### II.

Now that our three months' hard labor is duly completed, we can cheerfully review the events of the past weeks.

During the year we have been taking note of many developments, chief among which has been the progress made by Chennell's voice in the process of "cracking."

In the middle of the term several boys were absent on account of sickness. On returning they were responsible for much amusement. Kreuzler re-appeared with a face like a turkey-cock's comb. Fletcher startled us with the following statement: "An interjection is used for throwing words into sentences." The same worthy wanted to know if bullocks were made of bovril.

Our Form achieved creditable results in the Drawing Examinations. In the Preparatory Division, McNeil and Fletcher passed with honours, whilst Krantz, Chennell, Good, and Kreuzler secured passes. In Division I. Kreuzler and Chennell satisfied the examiners.

In the weekly examinations every boy gained a certificate. Krantz proved his supremacy in the finals and obtained first prize. Kreuzler carried off the second prize. Kreuzler and McNeil, who each secured three certificates, were also prize-winners.

When the hot weather came suddenly upon us, and the boarders were disporting themselves in the bathrooms above us, there was found to be a leak in the ceiling of our room. However, far from flooding us out, the welcome drops served only to cool the fevered brows of our hot-headed members.

Towards the end of the term there was "something doing." Six of us were caught playing in the pavilion; and our punishment consisted in making two rapid journeys round the College grounds. Doubtless this would be good sport in winter, but never again shall we be found playing in that pavilion on a *hot* day.

---

### Prep. Notes.

---

Hurrah! The holidays will soon be here, and we shall not have to "toil on" as Sir so often tells us to. We have been working pretty hard lately and deserve a good holiday now. We asked Sir if he didn't think we had been very industrious, and he said we might have been worse. In the Senior A's Crompton came top in the finals and got first prize; Cooper came second, Lawrance third. Richardson fourth, and McGregor fifth. In the Senior B's Krantz came first and Piper second; and in the Juniors Leader came top, Iliffe got the prize for general improvement. Richardson also got a prize for

singing, and Laurie Walsh got the gymnastic prize.

We are very glad to see that the "old" Prep. boys have done so well at the Big School. Jackman and Lade passed the Primary Examination; Lade, Piper, and Jackman got the first three prizes in the Lower Fourth, and Deland took the fifth. Cooper in the Upper Third; Lewis, Lucas, and Dancker in the Lower Third; Krantz, Chennell, and McNeil in the Second, all took prizes, and Dancker got the Senior singing prize as well. We hope we shall all do as well when we go up to the Big School.

Mr. Ashton said we did very well in the Drawing Examinations. Glover, Cooper, Frank Macrow, and Ross Macrow got Honours; and Lamerton, Smith, Richardson, Flint, and Rooney passed in the Preparatory Division. McGregor, the Prep. artist, passed in Divisions I. and II., with Honours in both.

In cricket we have played scratch matches nearly every afternoon, and we played a team from the Lower Third and Second three times, and beat them each time. Strachan got the bat for best all-round play.

There are eighteen of us in the Senior A Division, and Sir says he expects all the A's will go up to the Big School next year. Although we are glad that we are getting on with

our studies we shall be very sorry to leave the old Prep., where we have had such a good time.

---

### Duces.

VI.U.—W. K. COLLINS.

VI.L.—W. O. Menz.

VI.C.—N. V. Mengersen.

V.U.—W. H. James.

... Prince Alfred ...  
 Old Collegians' Association.

Prince Alfred Old Collegians'  
 Lodge.

The annual Installation of the Worshipful Master and the Investiture of the Officers for the ensuing year took place at the Freemasons' Hall on Friday, October 3rd. There was a very large attendance of visitors, including Grand Lodge officers and the Masters of most of the city and suburban Lodges. The Master-Elect, Bro. Wesley Lathlean, was installed in the chair of the Lodge by the outgoing Master, Bro. E. H. Rhodes, and Bro. Amos Rowley acted as Director of Ceremonies. The Worshipful Masters of the Lodge of Harmony and the St. Peter's Collegiate Lodge, as well as several Past Masters, took part in the ceremony, which was most impressively carried out. Bro. Wesley Lathlean then invested the following brethren as officers for the ensuing year:—

S.W.—H. H. Cowell.  
 J.W.—A. W. G. Pitt.  
 Treasurer—F. Lathlean.  
 Secretary—R. G. Neill.  
 S.D.—A. H. Goode.  
 J.D.—R. O. Fox.  
 D.C.—E. Bendall.  
 Organist—J. A. Haslam.  
 I.G.—F. I. Grey.

Stewards—P. E. Johnstone, C. P.  
 Forwood, A. D. Sutherland, A. H.  
 Dobbie, A. C. Edwards, C. W. L.  
 Muecke, J. F. Ward, H. Thomas.  
 Tyler—E. J. N. Fisher.

In the banqueting room, which was beautifully decorated with the school colours, the health of the Worshipful Master was proposed by Bro. J. R. Robertson, and Bro. Wesley Lathlean in responding spoke of the splendid work that had been done by the outgoing Master, Bro. E. H. Rhodes, during the time he had served the Lodge in the various offices; and on behalf of the members presented him with a handsome clock as a token of their goodwill and gratitude. In thanking the brethren for their kindness, Bro. Rhodes expressed the hope that he would be able to serve the Lodge for many years to come.

United Collegians' Royal Arch  
 Chapter.

Ex Æmulis Comites.

The Installation Meeting of the United Collegians' Chapter (which is composed of Old Scholars of St. Peter's and Prince Alfred Colleges) was held on Wednesday, November 26th, at the Freemasons' Hall. There was a large gathering of Companions, including the Principals of the City and Suburban Chapters. Companions W. H. Selway,

F. Lathlean, and Dr. Benson were installed as Principals for the coming year by the Grand Chapter officers, and on the conclusion of that ceremony Companion Selway, the First Principal, invested the following officers:—

Scribe E.—R. G. Neill.

Scribe N.—A. L. White.

Treasurer—J. R. Robertson.

Dir. of Ceremonies—G. G. Martin.

Principal Sojourner—J. W. Packard.

First Assistant Sojourner—A. A. L. Rowley.

Second Assistant Sojourner—A. J. E. Archer.

Janitor—G. T. Powell.

Stewards—A. E. Evans, E. Bendall.

The supper tables were beautifully decorated with the colours of the two Schools, and the utmost cordiality prevailed. Many of the speakers referred in appreciative terms to the happy idea which had resulted in the formation of this Chapter, wherein Old Scholars of the two great public Schools of the State could work together side by side for the good of the Craft.

Twenty members have been admitted during the year, and everything points to a successful career for the young Chapter.

Old Scholars who may desire to join the Old Collegians' Lodge or Chapter can get the necessary information from Mr. R. G. Neill, 20, National Mutual Buildings, King William Street.

### Gumeracha Branch Dinner.

In response to the kind invitation of the Old Boys at Gumeracha and surrounding districts, the President (Mr. Noel A. Webb), Messrs. J. R. Robertson (vice-president), F. N. Simpson (committee), H. W. A. Miller, and L. B. Shuttleworth journeyed to the District Hotel, where the Second Annual Dinner was held on Saturday evening, 15th November.

During the afternoon the visitors availed themselves of the opportunity to view the splendid oak trees at Kenton Park, the residence of Mr. J. B. Randell.

Old Reds gathered from Tungkillo, Mt. Torrens, Cudlee Creek, Chain of Ponds, and Houghton; and Mr. Marinus Maughan presided over a fair attendance.

Mr. A. Moore in proposing the toast of "Prince Alfred College and Masters" recalled many happy recollections of his earlier days. Mr. Robertson responded. "Prince Alfred Old Collegians' Association" was ably submitted by Mr. E. Hannaford, to which Mr. Webb suitably replied. Mr. Simpson gave "Kindred Associations" and the Rev. M. Talbot responded. Mr. Maughan proposed "The Secretaries, P.A.O.C.A." He exhorted all Old Boys to be loyal and support the Association, and mentioned that the prime movers for the proposed railway and other improvements in the district

were all Old Reds. Messrs. Miller and Shuttleworth replied.

During the evening Mr. Robertson contributed musical items, including "The Leaving Song"; whilst the proceedings closed with "Auld Lang Syne."

Those gentlemen who undertook the work are to be congratulated upon the arrangement, for everyone spent a most enjoyable evening, and as one remarked, his regret was that it only came once a year.

Hyam L. Lipman has commenced practising his profession as a dentist in Currie Street. He has been a member of the Association for the last seven years, and we wish him every success.

### Back Numbers of "Chronicles."

A limited supply of back numbers can be obtained from the Secretaries of the Association.

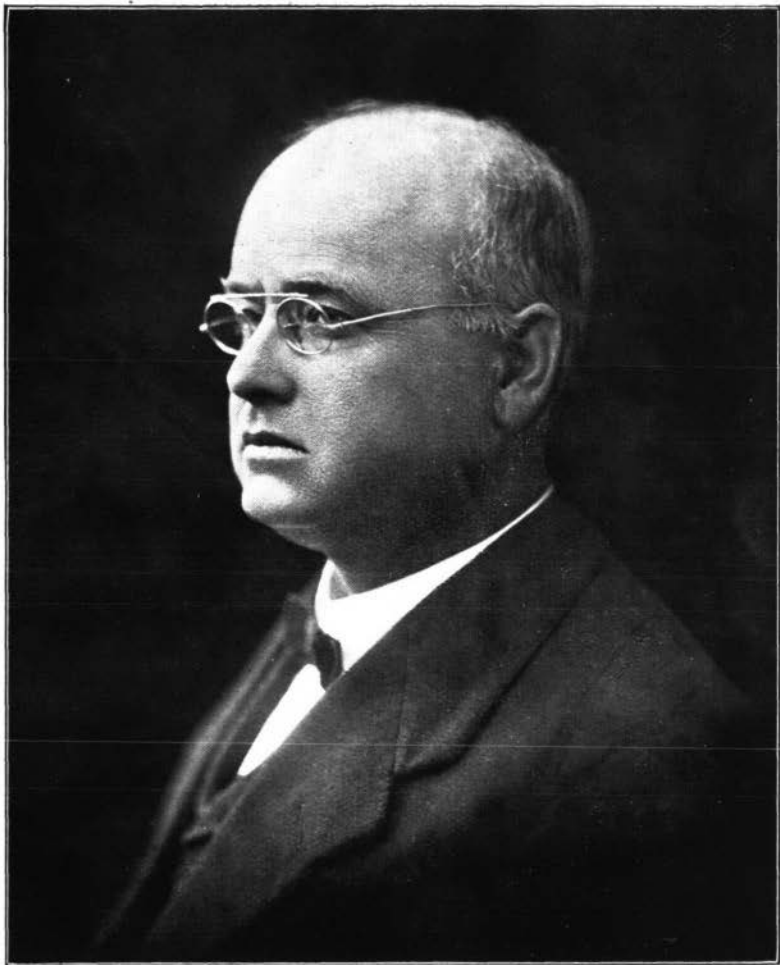

### Presidents of the Association.

On several occasions of late controversy has taken place at Committee meetings as to whether certain prominent gentlemen have ever presided over the doings of the Association, and the following list will no doubt therefore be of interest to many. The Association was formed on the 26th September, 1878, and Mr. J. A. Hartley presided

over the first meeting, and was there elected President for the year, whilst Mr. E. B. Colton was elected Hon. Secretary. The positions in question have since been held by the following :

Year ending Sept.	PRESIDENT.	SECRETARY.
1879	J. A. Hartley	E. B. Colton
1880	Do.	Do.
1881	Do.	Do.
1882	Do.	Do.
1883	Do.	Do.
1884	Do.	Do.
1885	Do.	Do.
1886	Do.	Do.
1887	Do.	Do.
1888	Do.	Do.
1889	Do.	D. G. Evan
1890	Do.	Do.
1891	Do.	F. J. Chapple
1892	Do.	Do.
1893	E. B. Colton	Do.
1894	Do.	Do.
1895	G. M. Evan	Do.
1896	G. S. Cotton	T. M. Burgess
1897	A. W. Piper	Do.
1898	F. A. Chapman	Do.
1899	A. H. Hill	H. E. Fuller
1900	J. H. Chinner	Do.
1901	G. W. Cooper	Eustace Dunn
1902	J. W. Grasby	H. E. Fuller
1903	A. E. Davey	Do.
1904	G. W. R. Lee	Do.
1905	P. E. Johnstone	E. J. W. Ashton
1906	W. R. Bayly	H. W. A. Miller
1907	Do.	Do.
1908	Do.	Do.
1909	Do.	Do.
1910	Do.	Do.
1911	A. C. Catt	Do.
1912	Do.	(H. W. A. Miller (L. B. Shuttleworth
1913	J. R. Robertson	Do.
1914	N. A. Webb	Do.

It will thus be seen that to Messrs. Hartley and Colton belongs the honour of having held office for the longest period.

**MR. NOEL A. WEBB, LL.B.**

President Prince Alfred Old Collegians' Association.

### Obituary.

Robert Watson Laughton came to our School in January, 1883, and rapidly rose to high rank in it. In December, 1885, he was one of a brilliant set of our boys who took the first eleven places at the Matriculation Examination. On leaving, he joined his father in business, and on his father's decease, rose to be the head of that extensive concern entitled George Laughton & Co., and was widely known and universally esteemed for ability and probity and courtesy. But he found energy too for helping his fellows. He was the foremost of a band of "P.A.C. Old Scholars" who rallied round our Head Master when he became the first President of Our Boys' Institute, and the value of the work he threw into that excellent institution for over twenty years it is impossible to estimate. The boys' work at the Y.M.C.A., the Boys' Brigade, and the City Mission Sunday School also found scope for his Christian efforts and philanthropy. And when on September 26th his body was laid to rest in the North Road Cemetery, hundreds of young men felt that they had lost a great, good, and true friend.

### New Officers of the Association.

Each year sees a few fresh faces on the Committee of the Association, and on this occasion it is our duty to introduce to our readers Messrs Webb, Menz, Forwood, Fox, and Pender, all of whom, we feel sure, will make enthusiastic efforts to further the interests of the Association.

#### THE NEW PRESIDENT.

Mr. Noel A. Webb, LL.B., the new President of the Old Scholars' Association, like so many successful lawyers, is a son of the manse. The late Rev. Allan Walter Webb came from Auckland in 1881 to take charge of the North Adelaide Baptist Church. His son Noel had up to that time been attending the Auckland College and Grammar School, and on coming to South Australia he became a scholar at Prince Alfred College, where he stayed till he entered the University. Mr. Webb took his LL.B. degree in 1886, and in the following year was admitted to the South Australian Bar. He shortly afterwards went to Port Augusta, of which town he was elected Mayor in 1896, a position which he occupied until he came to Adelaide in 1898, since which date he has been practising his profession in the city. Mr. Webb has always taken a deep interest in manly sports. When at the University he was a member of the University Rowing Club, and competed in many

races on the Torrens. For some years he was captain of the Port Augusta Football Club. He is an enthusiastic rifle shot, and is President of the Affiliated Rifle Clubs Association, and a member of the council of the S.A. National Rifle Association. In 1912 he won the champion medal given by the Old Scholars' Association. Mr. Webb takes a deep interest in all matters which concern the public welfare, and in 1911 he was selected by the Liberal Union as one of its candidates to contest the District of Torrens for the State Parliament. He has recently been appointed a member of State Children's Council.

#### NEW COMMITTEEMEN.

Mr. Charles P. Forwood left College in 1889, and was then apprenticed to engineering. After passing through the various departments he became works manager for Forwood, Down, & Co., Ltd., and has been a director of that company for the last 18 years. He is also a representative of the iron trade employers on three wages boards, besides which he has acted as a member of the Court of Industrial Appeals for some of the iron trade cases. For several years he has been a member of this Association, also of the Old Collegians' Lodge and United Collegians' Royal Arch Chapter.

Mr. Robert Owen Fox is another old boy who will soon prove his worth on the Committee. He entered the school

in 1888, and left in 1892. As an ordinary member he joined the Association many years ago, but last year his name was added to the list of life members. His interest in sports is clearly shown as President of the Kingswood Football Club, committeeman of the Sturt Cricket Club, and as an enthusiastic member of the Sturt Bowling Club. He is also President of the Pharmaceutical Society, and is on the Committee of the Pharmacy Board of S.A. The Old Collegians' Lodge and the United Collegians' Royal Arch Chapter can both claim him as an energetic member.

Mr. Hermann Victor Menz was born at Adelaide in 1890, and at the age of 12 he entered the College, remaining in attendance for five years. On leaving he secured a position in the office of Messrs. Hy. Berry & Co., but relinquished same to accept an engagement with Messrs. W. Menz & Co. In order that he might fit himself for this later appointment he proceeded to England and the Continent, where he spent two and a half years with leading manufacturers, gaining valuable technical experience. His influence in commercial circles should be of great value to the Association.

Ian B. Pender represents the University on the Association Committee. Born at Narracoorte in 1890, he entered the College in 1906, at the age of 15, where, in addition to doing good work from an educational point of view, he

greatly distinguished himself as an athlete. At present he has the honour of being the "champion" of the Adelaide University, and at their last sports he scored as follows:—1st, 120 yards hurdles (5 yards behind scratch); 1st 120 yards hurdles, open; 1st, broad jump (20 ft. 5½ in.); 1st, 440 yards flat; 2nd, 100 yards championship. He has been selected to represent South Australia in the Australasian Athletic Championship meeting to be held shortly, and Old Boys will join with us in wishing him success.

---

### New Members.

---

The following new members have enrolled since last issue:—

#### LIFE MEMBERS.

Joe Crompton, Gawler Place, Adelaide.  
 A. S. Gedge, c/o Hy. Wills & Co., Fremantle.

### "The Dandies."

---

For some weeks past Old Boys have been anxiously enquiring for the date of the Association's "Dandies Night," and we therefore have pleasure in announcing that Wednesday, February 18, has been selected by the Committee. This will be the fourth of such evenings, and on each occasion the booking has shown an increase on the previous year. We want to keep up this successful run, and members are therefore appealed to for their support, and requested to book their seats early. This year the box plan will be opened on February 4, and the Association will have the sole right of reserving seats up to Saturday, 14th February. Although the Association does not promote this evening with the object of making money, still it is not desired that we shall be out of pocket over it, and members are therefore asked to secure their tickets from the Committee. The price of admission will be as usual, and a special programme will be submitted.

### Thirty-Fifth Annual Meeting.

The Thirty-Fifth Annual Meeting was held in the Reception Room of the South Australian Hotel on Thursday, October 30th. The President (Mr. J. R. Robertson) occupied the chair, and the room was comfortably filled.

On this occasion the agenda paper was cut down as much as possible, as it is the aim of the Committee to make this gathering take the form of a smoke social more than a business meeting. The balance-sheet and annual report (copy of which had been sent to each member) was formally passed and adopted, and the election of officers for the ensuing year was then proceeded with. Mr. Robertson did splendid work whilst presiding over the Association's meetings, but although requested on all sides to again accept the position he was unable to do so. A worthy successor was, however, found in Mr. Noel A. Webb, and the Association under his direction should again have a very successful year. The following gentlemen were elected to hold office for the ensuing year:—

Vice-Presidents—Messrs. J. R. Robertson, H. V. Rounsevell, and W. D. Taylor.

Treasurer—Mr. A. G. Collison.

Committee—Messrs. J. W. Blacket, C. P. Forwood, R. O. Fox, H. V. Menz, R. F. Middleton, I. B. Pender, and A. A. L. Rowley.

Representatives on College Committee—Messrs. J. H. Burgess, W. Lathlean, A. S. Lewis, W. G. Rhodes, H. W. A. Miller, and Tom Steele.

Auditors—Messrs. R. G. Neill and C. Viner Smith.

Joint Secretaries—Messrs. H. W. A. Miller and L. B. Shuttleworth.

The meeting then took the form of a smoke social, and the thanks of the Committee are due to Messrs. Bath, Puddy, Gilbert, Fox, Rowley, Lathlean, Haslam, and Webb for the excellent musical programme supplied.

### Births.

ASHTON.—On the 13th September, at Hampton Street, Goodwood West, the wife of E. J. W. Ashton—a son (Alec James).

SUTHERLAND. On the 16th September, at Glengarrif Hospital, Dequetteville Terrace, Kent Town, the wife of A. D. Sutherland, Hyde Park—a daughter.

Christian Church, by the Rev. Wilfred Harris, M.A., Ernest Montgomerie, eldest son of H. M. Martin, of Ilfracombe, Burnside, to Lorna Gledstones, eldest daughter of Henry and Florence Jacob, Somerton, Glenelg.

NEWMAN—MURPHY.—Nov. 26, 1913, at the Methodist Church, Strathfield, Sydney, N.S.W., Alfred Gambier Newman, to Elsie N. Murphy, also of Strathfield.

---

### Death.

LAUGHTON.—On the 25th September, at his residence, Eirene, Walkerville Terrace, Gilberton, Robert Watson, the beloved husband of Sarah Laughton, in his 45th year. So dearly loved, so sadly missed.

---

Dr. N. C. Shierlaw, who recently returned from England, has begun practice on North Terrace as a specialist in diseases of the eye, ear, nose, and throat. Dr. Shierlaw went to England in 1909. For six months he was house surgeon to the Sick Children's Hospital, Bristol. Later he was house surgeon at the Kent County Hospital for Diseases of the Eye, Ear, Nose, and Throat. Subsequent to this Dr. Shierlaw continued his studies in Edinburgh and Glasgow, taking the degree of F.R.C.P. at Edinburgh. We wish him every success.

Hon. Sec.

Sydney Branch—Alfred G. Newman,  
Vickery's Chambers, Pitt Street,  
Sydney, Hon. Sec.

Broken Hill Branch—E. M. Holder,  
Central Mine.

The objects of the Association are:—  
To keep Old Boys, wherever they may  
be, in touch with one another and with  
the boys at the school; also to foster

and maintain their interest in the  
School.

*The P.A.C. Chronicle*, of which a large  
part is devoted to matters of special  
interest to Old Boys, is forwarded to  
each member of the Association.

A dinner is held annually, at a time  
which is thought likely to give as many  
Old Boys as possible an opportunity of  
meeting one another; and social  
gatherings are held whenever any  
occasion arises that makes them de-  
sirable.

The Association gives annually to  
the School the Old Collegians' Scholar-  
ship, of the value of fifteen guineas, and  
donates five guineas per annum to the  
Sports' Fund. Two Scholarships  
tenable for two years are also awarded  
and are balloted for by the members.

The subscription is five shillings per  
annum. The simplest way is to  
send along a pound for four years, or  
to make a life payment of three  
guineas. Any Old Boy wishing to  
become a member can do so by for-  
warding his name and address to the  
Head Master, or to any member of the  
staff, or to one of the Secretaries.

H. W. A. MILLER,  
c/o A.M.P. Society.
