

Prince Alfred College Chronicle

UBI NON EST SCIENTIA ANIMÆ NON EST BONUM.

VOL. VI.—No. 109.

ADELAIDE, MAY, 1914.

[PRICE SIXPENCE.]

Editorial.

For some years a change in the form of the "Chronicle" has been meditated. After long consideration—for sentiment still counts for much, even in this practical, matter-of-fact age—the "Chronicle" Committee, with the concurrence of the Head Master, has decided to make the change, probably at the end of the present year. Among the contemplated alterations are a narrower page consisting of a single column only, a more compact type, and a new cover. This will not only bring us into line with the great majority of school magazines, but we feel sure will make our school "Chronicle" more generally acceptable to its ever-widening circle of readers. Should any of these have any suggestion to make, we shall be glad to receive them and give them all the consideration they deserve. We should also like to have more material for our Old Boys' Column. Hitherto, most of our information has had to be culled from the daily papers—a process which requires not only a great deal of time and "research work," but an intimate knowledge of the past. We want espe-

cially to know more of the doings of our old boys in the country districts, and we would suggest that some energetic Old Red in each important centre should supply us periodically with local news of interest concerning his fellow-Reds. The "city" we have ever with us; the "country" we tend to belittle. So we would have some of your greatness thrust upon us. It is one of the things unseen by urban eyes, and therefore only dimly realised. Do not be content to remain for a time mere memories—ghosts of the past—and then to fade away into oblivion. Visualise yourselves, and let us chronicle your deeds, even though they savour of rusticity. We would do you justice, and not let you go down "unwept, unhonoured, and unsung." In other words, tell us about yourselves.

School Notes.

His Excellency Sir Day Hort Bosanquet, G.C.V.O., K.C.B., our constant friend while Governor of the State, has not forgotten us since vacating his high office. He has published two

volumes of the speeches which he delivered during his Administration, and has presented to our Head Master copies of each of them. The extracts include six addresses at "Prince Alfred College;" delivered either on a visit to our school, or to our Old Boys at their Annual Dinner, or to us at our Speech Day.

By this time all our readers know that our new Head Master is to be Mr. W. R. Bayly. We congratulate him sincerely on his appointment, and wish him many years of happiness in the high office he is coming to fill. He will not come amongst us as a stranger, but as an old boy, an old master, and an old friend. Thirty-four years ago he entered the College as an exhibitioner from the Port Mabel School, and a few years later passed on to the teaching staff. In '96 he took his B.A. degree in Classics (first class) and in Mathematics, and in '98 added the B.Sc. degree with Honours in Chemistry. During Mr. Chapple's absence in England in 1901 he was Acting Head Master, and for nearly five years he has been the Principal of Geelong College. We can congratulate ourselves on having secured such a worthy successor to our present head Master, who has so long and so ably directed our destinies.

Cecil P. Madigan, B.Sc., and Percy E. Correll, B.Sc., our two representa-

tives in the Mawson Antarctic Expedition, of whom we are justly proud, paid us a visit one morning soon after their return to their native State. They gave us a modest but withal thrilling account of the dangers to which they had been exposed, and from which their own foresight and courage, under the blessing of Providence, had saved them. They showed tents, sleeping bags, costumes.

They told of the life led in that dark desolate land, of how love of scientific investigation had inspired brave efforts, and secured valuable new knowledge, and they aroused the "Assembly" to admiration of their manliness and fortitude, and to resolve each one in his own path "to do and dare."

Madigan has since returned to Magdalen College, Oxford, there to complete his course as a Rhodes Scholar.

On Tuesday, May 5th, we had an interesting visit from the Rev. W. C. Poole, who is visiting Australia in the interests of the Panama Exposition to be held next year in San Francisco.

He delivered a very stirring address of copious eloquence on the mottos "I ought," "I must," "I will," "I have," and especially illustrated as the guiding thoughts of the Greatest Life ever lived on earth.

There were two great times of rejoicing when we met one another the last two Mondays of the term. First we

had won the "sports" by 61 points to 50, and the Challenge Cup was back in its case again. The excitement was all the greater because we had left school on Friday with grave misgivings, for Rayner who had scored five firsts from scratch at our own "sports" was "hors de combat" from an injured leg. But others came to the rescue, and especially did our Juniors eclipse themselves by scoring 14 points to 4.

On the following Monday two flags graced the Big Schoolroom; for our cadets, victorious in their own Battalion Competition a short time before, had, on Saturday, May 2nd, been placed first in the trials with the champion companies drawn from all the battalions in the state. Handsome flags they are, the King's colours, and the Lady Dudley banner. His Excellency the Governor (Sir Henry Galway, himself a great soldier) said kindly words of cheer in handing the trophies to Capt. Blacket. Lieut. Colonel Coghill wrote words of appreciation too, and the school knows how earnest and diligent in drill our fellows have been. So we still sing "There's something in Prince Alfreds after all."

Mr. C. H. Comley's design for the Certificate to be used at the All Australia Exhibition to be held in Adelaide next year by the Chambers of Manufactures has been awarded the prize.

Mr. Comley was successful also in the similar competitions for the exhibitions of 1905, and 1910.

Four exhibitions are now offered to all schools, tenable at approved Higher Schools or Colleges in South Australia. Three out of the four winners this year chose P.A.C. as their *Alma Mater*. We welcome Storer, Story, and Olsson and trust they may do as well as former generations.

H. W. Davies, and Murray Fowler have passed their tests for second lieutenancy, at the Infantry School held at Mount Barker in the last vacation.

The schoolboy's millenium must be drawing near. The schoolmaster will soon be as extinct as the dodo! For a machine has been invented, for which the inventor claims almost miraculous powers. It renders the pupil's co-operation absolutely superfluous, for he need not even listen to what he hears, but may do anything or nothing, while knowledge is worked into him. The industrious and the idle stand an equal chance. It sounds either too good, or too bad, to be true—according to the point of view. If true, will idleness still count as a vice, and will industry come to be deemed a superfluous luxury or a wanton waste of energy? One is tempted to wonder!

We have been asked to correct a statement, which appeared in an article contributed to our last issue, to the effect that exclusiveness prevailed at Renmark to such an extent that on certain nights the skating rink was reserved for the English section of the population only, and no Australian allowed admittance. As the proprietor of the rink denies the correctness of the statement, the writer of the article was evidently misinformed.

Like the rest of the community we mourn deeply the loss of Lady Way, the wife of Sir Samuel Way, both he and she staunch friends of the College. At our Athletic Sports held on our grounds on Saturday, April 4th, her ladyship was present and took manifest interest as ever in the proceedings, and distributed the prizes to the winners with a gracious kindness that will not be forgotten. This was the latest of a long line of services rendered to us of which the memories will ever remain fragrant. On Thursday, May 14th, an unexpected summons came, and "she was not, for God took her." We and all the wide circle that knew her are left the poorer. But we must be silent when thinking of one whose sense of loss must be infinitely greater.

Old Boys.

The Hon. F. W. Young, LL.B., has been appointed Agent-General in London for South Australia.

The Hon. the Premier, Mr. A. H. Peake in communicating the fact to the press said: "At the unanimous request of Ministers, the Hon. F. W. Young, Commissioner of Crown Lands and Immigration, has agreed to accept the position of Agent-General in London, subject to the condition that he will not be required to take up his new duties immediately. Ministers feel confident that the appointment will meet with the approval of Parliament, and will commend itself to the people throughout the country, for he will do credit to the State. He will not be the first native-born South Australian to hold the office, for that distinction belonged to the late Sir John Cox Bray. Mr. Young's professional training, his well-known business capacity, added to his wide knowledge of pastoral and agricultural interests, and his experience in the Crown Lands Office, should thoroughly equip him for his new and highly responsible duties. The close study he has made of immigration matters will also be of great service to him. It is generally admitted that few of the many able men who have administered the Crown Lands Department have ruled with greater knowledge, firmness, and success than he has done. 'Young's Act' of 1912,

under which such large areas of new mallee country have been settled and developed, has been called his Parliamentary monument. When the time comes for him to go, his colleagues will part from him with deep regret, for he has been very helpful and loyal to them."

It is a great honour to so young a school as Prince Alfred that two of its Old Boys should be the representatives of their native States at the centre of our mighty Empire. Sir Newton Moore, K.C.M.G., has been in London for many years managing important public business for Western Australia and now Fred. Young is to join him for South Australia.

Major W. L. Stuart has been appointed to the high and honourable office of Master of the Supreme Court of South Australia.

Arnold E. Davey has again been elected President of the Adelaide Chamber of Commerce. This is the third time Mr. Davey has held that important office. Mr. Davey has also been appointed to a seat on the Grand Council of the British Dominion Exhibition (with which is incorporated the Imperial Exhibition of 1915). This Exhibition, to be held in London in 1915, will show products and manufactures of the whole Empire.

E. A. Farquhar has been appointed by the S.A. Government to be one of the three forming the newly-constituted Harbour Board of S.A.

Robert T. Robinson, of the Western Australian Bar, has been raised to the dignity of a King's Counsel.

J. Raymond Wilton, M.A., once Fifth Wrangler in the Mathematical Tripos at Cambridge, has just won the distinguished degree of Doctor of Science of the Adelaide University. The Chancellor, in admitting him to the degree, said that "of him the examiners had recorded 'Mr. Wilton shows such fertility of ideas as promises original work of a very high order.'" His latest paper is one on "The highest wave in deep water," sent to the London Philosophical Magazine.

F. W. Wheatley, another of our Doctors of Science of the Adelaide University, has been appointed Head Master of the Royal Naval College in Victoria.

Herbert J. Priest, B.A., B.Sc., who was a few years ago, Acting Professor of Mathematics at the Adelaide University, has been appointed Lecturer in Mathematics at the University of Queensland.

A. E. Dawkins, B.Sc., who last

year took at our University first class honours in Chemistry, has been awarded a Victorian Government research scholarship, and will prosecute study under direction of Professor Masson, of Melbourne.

Oswald Rischbieth, B.A., now at Merton College, Oxford, has been made an honorary Post Master of that College. He has also been elected Secretary of the Jowett Society (a body of students of philosophy). On completion of his course at Oxford he intends to proceed to Germany, there further to study Philosophy, hoping to win the Doctorate in it.

Frank Ellis, at the Adelaide University last December, gained the Honours Degree of Master of Arts in Mathematics.

T. Hudson Beare, B.A., Regius Professor of Engineering at the University of Edinburgh, is amongst the distinguished scientific men who purpose visiting Australia next August in connection with the meetings of the British Association to be held in 1914. Doubtless old P.A.C.'s will give a hearty welcome to one who is in his own department our most eminent alumnus.

Dr. Kenneth Fry has returned to his native State. As Rhodes Scholar he spent three years at Oxford, taking the

B.Sc. degree for research work in anthropology. He then accepted a position under Government in the Northern Territory, hoping further to prosecute his research. But he found that conditions made this impossible, and so resigned. Dr. Fry was present at the annual meeting of our Old Collegians' Association, and was heartily welcomed back by the members. He has taken up practice in Norwood.

Norman H. Shierlaw, L.R.C.P. and S. (Edinburgh Univ.), and F.R.C.S. (Edin.) has returned to his home.

Dr. L. J. Pellew, after seven and a half years' residence at Balaklava, has gone to Port Augusta, and he and Mrs. Pellew were tendered a public farewell by the townfolk, the Model Parliament, and the Methodist Church. Presents were made by these bodies and by neighbouring townships. Dr. K. McEwin was at the same time welcomed as his successor.

At the March Examination of the Pharmacy Board, W. T. Magarey passed his "Final"; also, A. H. Virgint; passed in organic chemistry, and practical chemistry; and R. E. Jolly in inorganic chemistry at the "Intermediate."

In the examination of the Federal Institute of Accountants we note with

pleasure the names of K. L. Elphick and G. E. Sunter for all five of the "intermediate" subjects, and of R. F. Middleton for company, insolvency, and mercantile law.

Drs. W. J. W. Close, L. L. Davey, S. E. Holder, and J. S. Verco are resident House Surgeons at the Adelaide Hospital for the year 1914.

At the March supplementary examinations for M.B. and B.S. at the Adelaide University, N. B. Hall and H. W. Davies completed their First Year, and E. A. Guymer his Fourth Year. Keith Wade has passed the Matriculation Examination of the Sydney University, qualifying to enter the faculties of Arts and Economics.

Geoffery S. Reed, LL.B., has been admitted to the Bar of South Australia.

Dr. Harold Rischbieth has presented several valuable books to the University Library.

Dr. C. E. Dolling has entered into partnership with Dr. S. L. Dawkins at the township of Mt. Lofty.

At a special congregation of the University of Adelaide this May the following of our Old Boys were admitted to degrees, &c.:—Ralph Williams, B.Sc.; A. K. Wight, B.E.; A. C.

Brown, B.E.; J. S. West, B.E.; and A. C. Brown to the Diploma in Electrical Engineering.

The Rev. W. Alfred Langsford, who was a student at P.A.C. during our present Head Master's first year here, and who has since risen to many important spheres in the Wesleyan Church of S.A., including the highest of them all—that of President—is taking a rest this year. At his farewell from his last circuit many presents were given to Mr. and Mrs. Langsford and their daughters, and great thanks for their faithful service to the church and neighbourhood.

The Rev. E. M. Ingamells, B.A., and the Rev. W. R. Steadman have been doing great service in Fiji in the Mission to the Indians, thus helping to solve the great problem of recent years. Christianity has won great victories in Fiji, but the importation of Coolies from India threatens to undo the mighty work. Unfortunately, Ingamells has been obliged by his health to give up this loved work and return to his native land.

The Rev. Gordon Robertson, B.A. (Sydney and Oxford) has accepted a unanimous invitation to the pastorate of the Croydon Park Congregational Church, N.S.W.

The Rev. N. J. Cocks, M.A., of Pitt Street Congregational Church, Sydney, was offered the principalship of the Congregational College of Victoria, but after mature consideration, felt obliged to decline it.

The Rev. Ray Rooney has returned from the Solomon Islands, where he has spent over eleven years in earnest and successful missionary work. The health of himself and family bids him return to work in Australia.

T. Gordon Robertson, B.A., has returned to Australia from three years' study at Mansfield College, Oxford University. He there won an Entrance Scholarship of £60 per annum, and later a Nathan Whitby Scholarship for travelling in Egypt and Palestine. En route home he spent some time with his brother, Dr. Lionel Robertson of Western Australia.

Harold Parsons, Mus. Bac., who was granted a year's leave from the Elder Conservatorium, where he teaches the 'cello etc., has returned to his native State. He has been continuing his musical studies in London, but more especially at Berlin, at the Scharwenka Conservatorium under Professors Hugo Becker and Scharwenka. Altogether he has had a most valuable and inspiring time. One day he took a run to Oxford, and was delighted there to meet

and foregather with Arthur Howard, and Hermann Brose. At another time and place he found a congenial companion in Gordon Short.

Frederick W. Jacobs (of ours 1886-1888) but now of Durban, S. Africa, gave us a call lately, wishing to see the old place and show his two sons round it.

Amos A. L. Rowley has left for a holiday trip to Europe. The Adelaide Orpheus Society (of which he is Chairman) gave him a "farewell" and a present as a mark of appreciation of his valuable services. Albert E. Rowley is away on the same tour, and so are W. D. Taylor, and Owen Crompton (who is to report to the Government on the cultivation of the olive and manufacture of olive oil on the continent of Europe and in the United States).

H. C. Thomas has resigned his position in the Woods and Forest Department and taken up land in Queensland. Eulogies upon his work and character were passed by the Department.

Will Ashton has been elected a member of the Royal Institute of Oil Painters, a very high distinction indeed in the artistic world. We understand that he is the only Australian that has thus been honoured. He has returned to South Australia and has held in Mel-

bourne a very successful exhibition of the works wrought while he was in Europe.

R. Hayley Lever, R.B.A., is back again in England. He did well with his pictures while in America.

Frank White is studying painting under Mr. Noble Barlow in Surrey.

Gerald Seppelt, a pupil of Mr. Ashton's, and articled to Messrs. Davies and Claridge, architects, has left for Europe, to further study in his profession.

J. Arnold Newbould, long in the service of the E. S. & A. Bank, and stationed at Mt. Gambier, has now been transferred to Henley Beach. Splendid "good byes" were given to him by the bank officials, leading professional men and fellow citizens, members of the Mt. Gambier Club, Tennis Club, Golf Club, Prince Alfreds, &c.

A. E. Welbourn has been made Engineer in charge of the Midland portion of our S. A. railways.

Harold Rischbieth (Captain of Football in 1886 and 7), reading of our recent successes, forwarded a cheque for £5 to the Sports' Treasurer.

Old Reds proved very useful in the

Inter-State cricket matches this summer. In the first match against Victoria, Don Steele's 84 and Kirkwood's 58 were very useful, and so was the latter's bowling (6 for 76) in Victoria's first innings. In the second against Victoria, Hill scored 105 and 60, Willsmore 14 and 39 and took 4 for 65, while Middleton had 34 and 27. Against N.S.W., Steele made 42 and 39 n.o., and Kirkwood 36 n.o. and took 6 for 76 and 3 for 38. Against New Zealand, Hill scored 92, Steele 73, Willsmore 57; and in a New Zealand tour Dolling had 40, 81, and 61 to his name!

Rosanove wired us from Melbourne a word of hope for success at the Sports.

Best Brothers sent a telegram, from Kybunga, of congratulation at the victory.

George J. Kennedy (1882-4) has written a most interesting letter from Ballarat, headed "Meteorological Station." Though he left school 30 years ago, he has most vivid memories of the life there, and constant kindly thoughts about us and all that have formed it from his time to now.

He relates with a proper pride that last year, when South Australia's cricket team passed through Ballarat, he made top score, 58—no mean performance off the bowling of Whitty and Crawford. He tells of Danie

Walker teaching at the Ballarat School of Mines, and J. Martin teaching at a High School, and awakens pleasing memories to our older readers.

Reflections on School Life.

To one who has read of college days, who has thought of and wondered at, what seems to him, their glorious life, who has pictured the great Lord's match between Eton and Harrow, and who finally has himself entered college with highest anticipations and expectancy, a sense of disappointment often comes. He is left alone, and after his father has said "good-bye," he realises his own loneliness. He sees a group of last year's heroes discussing affairs amongst themselves; but his sense of hero-worship has been thrust into the background by the strangeness and the unfriendliness of the others, and his first thought is "I wish I were home." The schoolrooms are not what he pictured them to be, the carved and inky desks are only ordinary, the lessons are no different, just a little advanced, and he begins to doubt whether his ideal of college life was not a delusion after all.

He then surmises that the "great" days are for those at the top, the first eighteen men, or those in the cricket eleven; and he feels that they are heroes indeed. "If I could but play

on the Oval, then perhaps I might realise these ideals."

Time passes, and at the end of the year the school bids farewell to its leaders, and our hero finds on his return that his promotion to the second eleven is assured. Still, he goes through the year and something is missing. He certainly enjoys his school life, but he feels that the time he longs for has not yet come.

The next year finds him higher in the school, in the eleven, and, more than that, a prefect. He is one of that class by whom he, a few years ago, was so much influenced. He plays on the Oval, has obtained his blazer, possibly makes a name for himself by making 50 or performing the hat trick, but this "Oval" match does not seem like the previous one. "Surely our eleven cannot be as good as the previous teams, and this match does not seem to have the attractiveness of last year's!"

He comes back for his last year, and he is glad to see the old school, to be back among his old friends; but a few weeks pass, and then all dawns upon him. He had not the right spirit at all. He knows he had the outward college spirit, but inwardly he failed to realise that he himself was in the midst of the very place where the now leading men had sat, that he was one of their successors, and the dry lessons were the foundation of greater things. His friend was not to him one in whom

he really put his trust, and many despondent days might not have been his lot, if reticence had not prevented his having a complete understanding with his friend.

Now he knows that it is his duty to be "the best that he can be," and to show what men the college can bring forth; and with this comes the sense of the happiness of college days, the realisation of the dreams of "great days," and the knowledge that though only a few months remain to enjoy what he has gained, he may, with his new sense of school life, strive to do what he can for school and fellow, and so obey the Golden Rule.

Cricket.

FIRST TERM.

V. Glenelg B.—Won by P.A.C.

This was our first match after the holidays. Many of our last year's team had left, but some promising cricketers were found to fill their places. Laycock won the toss and decided to bat on a slow wicket. The first three wickets fell cheaply. Then the Parks brothers made a stand, and put a different outlook on the game. The tail did not last long, and the side were out for 158. Gray showed great promise with the ball, bowling 7 overs for 24 runs, and taking 4 wickets. Plush also did well with 3 for 53. Mander 2 for 23 was the

other successful bowler. Magarey and Haslam started well for us, and the score was 28 when Haslam was caught for 13. Mander failed to score, and Rayner was run out for a cipher. Fowler did not last long, and with 5 down for 62, things looked bad for us. Magarey was still in, scoring slowly, but surely. Hone 15 and Chinner 34 helped Magarey to carry the score to 150, when the latter was bowled by Gregory for 67. He had batted splendidly, although he showed some lack of confidence. When the score stood at 156, Chinner in attempting a six was caught. Gray and Davidson were the last in, and 3 runs were wanted to win. Davidson nicked one, and they ran a short one. The fieldsman attempted to throw the wicket down, and two overthrows resulted, thus giving us the match. The innings closed for 165.

In their second innings Glenelg reached 137, for which Gregory, Laycock, and Pontifex all batted well. In our second innings, with an hour to go, Hone and Fowler opened up. Fowler was out for 10, and Hone for 9. Rayner and Haslam became associated and hit out. Rayner was out just before time for 50, and Kappler bowled Haslam for 22 with the last ball of the day. The score was 4 for 100.

Scores—

GLENELG B.

First innings	158
Bowling—Mander,	2 for 23;	Rayner,		

o for 5; Plush, 3 for 53; Davidson, o for 10; Williamson, o for 15; Gray, 4 for 24; Chinner, o for 13.

Second innings 137

Bowling—Davidson, 2 for 11; Plush, 1 for 24; Mander, o for 3; Williamson, 3 for 14; Hone, 1 for 20; Chinner, 1 for 36; Gray, 1 for 2; Rayner, 1 for 6.

Haslam, b. Kappler	22
Gray, not out	0
Sundries	9
Total for 4 wickets	100

V. Linden Park.—Won by P.A.C.

Rayner won the toss from Ryan and

decided to bat on a good wicket. Haslam and Magarey opened well, the first wicket falling for 42, Magarey being out for 18. Mander again failed to score. Rayner and Haslam got together and the score mounted steadily till Rayner, when he was 36, hit his wicket in attempting to cut a ball. Mullner (16) and Dreyer (16) both batted in promising style. Haslam was caught when he had made 62 in splendid fashion. The last wicket provided some good cricket. With the score at 9 for 172, Plush and Davidson got together, and by sound strokes carried the score to 236 before Davidson was caught for a well-made 25. Plush carried his bat for 24. Linden Park started off badly, Herbert being out for o off Davidson's first over. Gibbons (12) and Ryan (20) both caused a little trouble. Middleton was in a long while for 10. Rayner soon disposed of the tail end, getting 3 wickets for 2 runs. Davidson 3 for 10, and Plush 2 for 5, also bowled well. The innings ended for 112. The second innings opened very badly, and 8 of the side were out for 69. Chinner, Plush, and Mander stopped the rot, and the innings closed for 124. Rayner not out 4. Requiring 249 to win, Linden Park began their second innings. Longmire batted well for 42 not out, twice lifting Plush for six. When time was called, they were 6 out for 135. Plush 3 for 35, and Mander 1 for 36 were the successful bowlers.

LINDEN PARK.

First Innings	112
---------------	--------	-----

Bowling—Davidson, 3 for 10; Plush, 2 for 5; Dreyer, 1 for 47; Gray, 0 for 9; Mander, 1 for 5; Rayner, 3 for 2.

Second Innings 6 for 135

Bowling—Mander, 1 for 36; Plush, 3 for 35; Williamson, 0 for 7; Chinner, 0 for 20; Mullner, 0 for 14; Dreyer, 0 for 16.

V. Adelaide B.—This match had to be forfeited owing to the inspection of Cadets by General Sir Ian Hamilton on March 21.

V. Sturt B.—This match had also to be forfeited, since our sports were to be held on the second Saturday. But a scratch match was played on the first Saturday, to provide practice for the Sturt team. P.A.C. batted first. After batting for two hours, Rayner declared with 7 down for 126. Mander batted in something like his old form for 52 not out. Haslam and Dreyer were the best of the others. Mullner carried his bat for 13. Sturt had a turn at the wickets for two hours. Everyone had a hit, which necessitated four retiring. Gould was top score with 35 retired. The innings closed for 185. Davidson with 3 for 26 was the most successful bowler. Bell and Mullner also secured wickets. Scores:

P.A.C.

S. H. Haslam, c. Gould, b. Parkes	20
L. E. Plush, c. Kennedy, b. Halifax	2
T. L. Chinner, b. Halifax...	8

G. R. Dreyer, b. Rowe	18
A. K. Mullner, not out	13
No Balls	2

7 wickets for 126
(Innings declared closed).

STURT B.

Total	185
--------------	-----

Bowling—Davidson, 3 for 26; Gray, 0 for 9; Plush, 0 for 21; Dreyer, 0 for 20; Rayner, 0 for 26; Mander, 0 for 12; Chinner, 0 for 8; Bell, 1 for 17; Fowler, 0 for 24; Mullner, 1 for 13.

V. Methodist Conference.

This match resulted as usual in an easy win for the College. The Rev. E. W. Caust was captain of the Conference team, who, batting first, were all at sea to our bowling, and only succeeded in making 37. Rev. E. W. Caust was top scorer with 9. Dreyer (3 for 9) and Gray (4 for 0) were our most successful bowlers. Willsmore also bowled well, getting 2 for 6.

The College started off disastrously, Mander and Mullner both going cheaply. Bell and Fowler made a slight stand, and took the score to 56, when Bell was bowled by Richmond for 22. Fowler was run out soon after for 28. All the rest went very cheaply till the score

stood at 9 for 62. Rayner and Haslam then made a great recovery for their side. Both hit out lustily, and all the Conference bowlers were tried in vain. At length, just on 6 o'clock, Clark was given a try with the ball, and he bowled Haslam when he had made 61. Rayner was not out with 97 to his credit. Stumps were then drawn and tea partaken of. Magarey played as substitute for the Conference. He carried his bat for 3, and got 0 for 16 with the ball. A feature of the game was the wicketkeeping of the Rev. J. C. Hughes. Out of a total of 225 he allowed only 6 byes, and stumped two batsmen. Scores:—

V. Roseworthy Agricultural College.

This match was played on the afternoon after the Conference match. Play commenced at 1.30 p.m. Rayner won the toss from Murray, the renowned captain of Roseworthy College. Magarey and Haslam opened up for P.A.C. against Murray and Symons. Chinner was the only batsman to offer any great resistance to the bowlers. He batted well for 57 not out. Magarey, Mander, and Rayner also did well. The innings closed for 126. Judging by the batting strength of Roseworthy, this was not considered a very good score and they expected an easy win. Sibley bowled exceedingly well, and did the hat trick against three of our tail-enders.

Sibley and Prevost opened for Roseworthy. Davidson, the Prince's fast bowler, found the spot immediately, and disposed of two of Roseworthy's batsmen in his first over. Jack Murray showed good form and some powerful driving in making 35, before he was caught and bowled by Mander. The finish was very exciting. Roseworthy only wanted some ten runs to win, and had two wickets to fall. Andrews made a few when he was bowled by Rayner with the score at 9 for 120. Taylor, the last man in, did not last long, and was soon out to Rayner. Princes thus won a very exciting match by 6 runs. Clark played a very safe innings for Roseworthy and helped his side out of a big hole.

The detailed scores of this match are unfortunately not available.

Fewer matches than usual were played during the first term of this year. Two B Grade matches were forfeited by the First Eleven. That against Adelaide on account of the inspection of cadets by General Sir Ian Hamilton, and that against Sturt because the school sports were held on the first day set down for that match. The other two B Grade matches played were both won. Glenelg were beaten by 7 runs, and Linden park by 124.

The other elevens have been very successful in the few matches played. There seemed to be a dearth of teams with whom matches could be arranged, and efforts should be made next season to give a greater number of matches to our junior elevens. The Second Eleven played five matches, winning three—against S.P.S.C. II., Adelaide High School, and Kyre College; and drawing the second match against S.P.S.C. II. and that against St. Peter's Juniors. Bell did very good work in the earlier matches, and earned promotion to the First Eleven, and most of the other members of the team did fairly well.

The Third, Fourth, and Fifth Elevens had only two matches each against corresponding elevens from S.P.S.C., and their records were:—Thirds, 1

won, 1 drawn; Fourths, 2 won; Fifths, 1 won, 1 lost.

In all, 13 Saturday matches were played, of which 9 were won, 3 drawn, and 1 lost. Details of these matches are as follows:—

SECOND ELEVEN MATCHES.

V. S.P.S.C. II.—Princes, 150; Saints, 55. Crosby 42, Dreyer 25 and 7 for 23, Bell 3 for 24.

V. Adelaide High School.—Princes, 153; A.H.S., 85. Mullner 65, Stremmel 6 for 40, Bell 4 for 25.

V. Kyre College.—Princes, 8 for 172; Kyre, 82. Bell 82* and 3 for 11, Chipper 42, Swann 3 for 9.

V. St. Peters Juniors.—Princes, 2 for 133; S.P.J., 141. Bell 73* and 3 for 26, Willsmore 40, White 5 for 15.

V. S.P.S.C. II.—Princes, 8 for 85; Saints, 150. Swann 20, Willsmore 19, Hoopmann 3 for 24, Stremmel 3 for 40.

THIRD ELEVEN MATCHES.

V. S.P.S.C. III.—Princes, 5 for 123; Saints, 106. Mullner 54, May 23, Richards 5 for 32.

V. S.P.S.C. III.—Princes, 8 for 55; Saints, 159. Hone 29, Robinson 18, Jones 4 for 37, Smith 4 for 41.

FOURTH ELEVEN MATCHES.

V. S.P.S.C. IV.—Princes, 148; Saints, 23. French 44, Claxton 28*. Smith 25 and 7 for 9, Clarkson 2 for 8.

V. S.P.S.C. IV.—Princes, 93; Saints, 48. Rix 26 and 6 for 9, Day 23.

FIFTH ELEVEN MATCHES.

V. S.P.S.C. V.—Princes, 3 for 157; Saints, 77. Davidson 66*, Piper 33 and 3 for 9.

V. S.P.S.C. V.—Princes, 81; Saints, 116. Kelly 24, Shepley 30, Wearne 5 for 30.

Football.

V. Kingswood.—Our first match of the season in connection with the Amateur League was won by our old opponents, Kingswood. On the day both teams were weak owing to the absence of some of their best players. Princes were without Bell, Mander, Warren, Dorsch, Gray, Howard, and Humphris, who were taking part in the Senior Cadet Competition. Rayner was also absent owing to a weak ankle. Dreyer, who was acting captain in the place of Rayner, won the toss and elected to kick with the wind. Kingswood commenced the scoring with a goal from Chapman. Middleton immediately got another. Princes then had a turn, but a couple of shots produced nothing. Dreyer then got possession and passed to Fowler, who made no mistake. Middleton then kicked Kingswood's third goal. A point to each side was all the further scoring done during this quarter. The bell rang, the scores being:—Kingswood 3 goals, 1 behind; P.A.C. 1 goal, 1 behind.

P.A.C. SPORTS OFFICIALS. 1914.

Princes did not score after this. Apart from their forwards they just about held their own. The Kingswood back men, foremost among whom was Fearn, continually shone out. Dreyer was playing a great game for his side, and Stempel at centre was ably seconding him. But Kingswood continued to score, and at half-time the scores were — Kingswood, 6 goals 8 behinds; P.A.C, 1 goal 1 behind.

After this Kingswood had matters pretty much their own way, and continued to score slowly. McGregor in the ruck was showing promising form for Princes, while others of the younger players to show up occasionally were Davidson and Robinson. Both teams slowed up towards the end, and when the bell rang the final scores were:—

Kingswood 10 goals, 14 behinds.

P.A.C. 1 goal, 1 behind.

Kingswood's goalkickers were:—Roy Middleton (5), Chapman (2), Riley, Gould, and Ardill (each 1). Fowler kicked our only goal. Dreyer played a splendid game as rover for Princes, and was easily the most consistent man on the ground. Others to play well were Stempel, White, Chipper, McGregor, Chinner, Fowler, Davidson, Robinson.

All things considered, the team did very creditably in keeping their opponents score down as low as they did, and the form shown augurs well

for better things in the future when a full team is at hand.

—
Any boys knowing of teams suitable for games with the College 3rd or 4th eighteens, will greatly oblige if they will ask the Secretaries of those clubs to communicate with H. L. Rayner, as the above teams have many dates open.

Athletic Sports.

The announcement that the committee had decided to hold this annual event on our own oval was received with satisfaction by the whole school, and all willingly aided in making the ground as suitable as possible for running. Though a little rough, it did not make the sprinting unpleasant, and as a good rain had fallen a few days before, the conditions were very favourable. Especially on the committee did the work of marking the courses, fixing the handicaps, and attending to the many details, fall; and we must mention that Messrs. Gray, Blacket, and Davies did all that was in their power to make a pleasant day for us, and their extra work was done for our benefit.

A beautiful day, a large number of spectators, and the presence of the old school, all combined to make the sports this year one of the most successful ever held. The spirit of the school seemed to be more evident, and we

were proud to be able to show the friends "our" school, to point out on the walls the names of some of the great men of the day, and to say "They were once here, and we are their successors."

The running was quite up to the usual standard, and this makes Rayner's achievement of winning the College Cup with a total of 31 points out of 35 all the more remarkable. The fact that we were the victors without Rayner's services against S.P.S.C. shows the standard of the others; and to be able to stand out above the others as Rayner did, shows the quality of his athletic capabilities. Davey, by consistent running and jumping, was the second Cup competitor, gaining 19 points.

Of the events held on the Thursday before, the mile created the most excitement. Two ministerial students—Andrew and Dixon—set a fast pace, and once at the front were not overtaken. Fowler won the steeplechase easily, and a few critics who prophesied that he would lower the intercollegiate record, were not disappointed.

Rayner won the 100 yards championship in fine style, winning with three or four yards to spare. McGregor and Hoare easily outran the other competitors in the under 16 and junior championships. Davies' win in the 440 yards was very popular, and he thoroughly deserved his first place, as

he had experienced a heavy fall in the 220 yards.

Chinner carried off the high jump, but his style did not seem quite to come up to that of last year.

After tea had been served in the dining-room, a photo of the officials was taken, and a very interesting group was obtained.

It was late in the day before the last event was finished, and the shadows were lengthening when Lady Way graciously presented the trophies and prizes. Cheers were then given for the King, Sir Samuel and Lady Way.

High Jump (Junior).—T. E. Cooper, J. C. T. Cowan. Height, 4 ft. 10 ins.

120 Yards Handicap (under 14).—1, Edwards; 2, Hobbs; 3, Cooper.

150 Yards Flat (under 16).—1, H. W. McGregor (scr.); 2, H. Wearne (4 yds.); 3, C. A. Barnard (7 yds.). Time 16½ secs.

100 Yards Senior Championship (Cup event).—1, H. L. Rayner; 2, G. C. Davies; 3, G. R. Dreyer. Time, 11 secs.

100 Yards Championship (under 16).—1, H. W. McGregor; 2, C. A. Barnard; 3, A. F. Hobbs. Time, 11½ secs.

100 Yards Flat (Senior Preparatory School).—1, F. Macrow; 2, Krantz; 3, Warren.

220 Yards Flat (Cup Event).—First Heat—1, H. L. Rayner (scr.); 2, R. A. Davey (scr.); 3, G. R. Dreyer (scr). Second Heat—1, H. Wearne (12 yds.); 2, A. H. White (10 yds.); 3, K.

Jauncey (12 yds.). Final—1, Wearne; 2, White. Time, 24 $\frac{2}{3}$ secs.

75 Yards Flat (Junior Preparatory School).—1, R. Krantz (scr.); 2, C. M. Adamson (5 yds.); 3, J. D. Iliffe (10 yds.).

100 Yards Flat (Junior Championship).—1, L. E. Hoare; 2, J. C. T. Cowan. Time, 12 secs.

120 Yards Hurdles, Senior (Cup Event).—First Heat—1, H. L. Rayner (5 yds. behind scr.); 2, D. E. Dixon (scr.); 3, C. A. Barnard (5 yds.). Second Heat—1, W. M. Fowler (5 yds. behind); 2, H. W. McGregor (1 yd. behind); 3, A. H. White (scr.). Final—1, Fowler; 2, McGregor.

High Jump, Senior (Cup Event).—1, T. L. Chinner; 2, W. M. Fowler. Height, 5 ft. 2 in.

120 Yards Hurdles (Junior).—1, Claxton; 2, Mellor. Time, 19 $\frac{2}{3}$ secs.

440 Yards Flat Handicap (Cup Event).—1, G. C. Davies (scr.); 2, C. A. Barnard (15 yds.) and H. L. Rayner (scr.) dead heat. Time, 56 $\frac{2}{3}$ secs.

Long Jump (Cup Event).—1, H. L. Rayner; 2, H. W. Stempel. 17 ft. 9 in. and 17 ft. 7 $\frac{1}{2}$ in. respectively.

100 Yards Flat (Old Scholars).—1, E. H. Chinner (9 yds.); 2, I. Pender; 3, G. P. Rayner.

120 Yards Hurdles (Old Scholars).—1, I. Pender; 2, R. Pender; 3, G. P. Rayner.

Obstacle Race (Junior).—1, Cooper; 2, Edwards; 3, Lucas; 4, Mellor.

Obstacle Race (Senior).—1, Gordon; 2, Gray; 3, James; 4, Rhymer.

Half Mile Flat (Cup Event).—1, L. W. Tratt; 2, K. R. Mitchell; 3, H. L. Rayner; 4, K. T. Flint. Time, 2 min. 16 sec.

100 Yards (under 12).—1, H. Hobbs; 2, F. Macrow; 3, M. McNiel.

Cup Points:—H. L. Rayner, 31; R. A. Davey, 19; G. R. Dreyer, 10; G. C. Davies, 8.

Intercollegiate Sports.

The seventeenth Intercollegiate Sports meeting was held at the Adelaide Oval on Saturday afternoon, April 25. The weather was ideal for athletics, and there was a large attendance. His Excellency the Governor (Sir Henry Galway) attended his first intercollegiate meeting, and he was given a right royal welcome. He was accompanied by Lady Galway and Miss d'Erlanger, with Miss Macauley, the Hon. J. Mulholland, and Captains Fletcher and Hopwood in attendance. At the conclusion of the programme Lady Galway handed the Challenge Cup to Captain G. C. Davies. It is nice to see the cup back in its old place. We do not like to part with these cups. We strive to keep them all together, and if possible altogether.

P.A.C. stocks were rather below par when we heard that our champion,

Rayner, owing to a severe strain, would not be able to run. When one considers that he was our first string in five events, and in particularly good form, it is easily seen that there was good cause for this depression. Strangely enough, not one of the papers saw fit to mention this fact, thus giving us credit for our glorious win under such adverse circumstances. On the contrary, one paper spread broadcast over the State the news that we were horribly beaten. Some days later these errors were copied by another paper, but "verily they have their reward."

Murray Fowler was our bright star. He has improved wonderfully as a hurdler. He started off by winning the 120 yards hurdles in record time—17 secs. In the high jump he surprised everyone, no one perhaps more than himself, by clearing 5 ft. 4 in., and defeating Chinner, last year's winner, by half an inch. In the 300 yards steeplechase he established a record that should stand for some years to come. He covered the distance in $41\frac{1}{5}$ secs. The previous record had stood for 12 years, for as far back as 1902 C. P. Murray (S.P.S.C.) won in $41\frac{3}{5}$ secs., but there were not so many flights of hurdles then as now.

Fowler followed up these successes by winning the open 120 yards hurdles at the School of Mines sports. Starting off 5 yards he won by 10 yards

from C. E. Pellew and L. H. Wallman in 16 secs.

Captain G. C. Davies scored 11 points by winning the 440 yards in good style and running second in the 100 yards and 220 yards. H. W. McGregor established a record in the 440 yards under 16. His time was $57\frac{2}{5}$ secs.

Other good performances were Trott's mile, Barnard's efforts in the hurdles and 440 yards under 16, Davey's high jump and 440 yards, and White's steeplechase and broad jump. It is interesting to note that in three events we occupied all three places, also that our juniors scored 14 points to our opponents' 4.

Our thanks are due to the following gentlemen who kindly acted as officials:—Messrs. R. O. Fox, L. H. Haslam, N. A. Webb, Dr. R. J. Verco, A. M. Ashwin, C. R. Cudmore, C. W. Hayward, H. Thompson, G. M. Evan, R. G. Nesbit, W. A. Magarey, H. P. Moore, and W. H. Stevenson.

The results were:—

SENIOR EVENTS.

120 Yards Hurdles—1 W. M. Fowler (P.A.C.), 2 L. R. Pellew (S.P.S.C.), 3 L. M. S. Hargrave (S.P.S.C.) Time, 17 secs. (equal to record). Fowler won comfortably.

100 Yards Flat—1 L. R. Pellew (S.P.S.C.), 2 K. R. Scarfe (S.P.S.C.), 3 G. C. Davies (P.A.C.) Time, $10\frac{1}{5}$ secs. Davies was just beaten for second place.

High Jump—1 W. M. Fowler (P.A.C.), 2 T. L. Chinner (P.A.C.), 3 R. A. Davey (P.A.C.). Height, 5 ft. 4 in. We secured 9 points; we needed them badly. All jumped splendidly. This event was the turning point.

220 Yards Flat—1 L. R. Pellew (S.P.S.C.), 2 G. C. Davies (P.A.C.), 3 G. R. Dreyer (P.A.C.) Davies and Dreyer ran well, but found Pellew too fast. Time, 24 $\frac{1}{5}$ secs.

300 Yards Steeplechase—1 W. M. Fowler (P.A.C.), 2 L. M. S. Hargrave (S.P.S.C.), 3 A. H. White (P.A.C.) Time, 41 $\frac{1}{5}$ secs. A walkover for Fowler. White kept going, and finished well.

440 Yards Flat—1 G. C. Davies (P.A.C.), 2 L. R. Pellew (S.P.S.C.), 3 R. A. Davey (P.A.C.) Time, 56 secs. This is Davies' pet race. He won easily. Davey came with a fine burst of speed, and scored a point.

Broad Jump—1 R. B. Coulter (S.P.S.C.), 2 L. M. S. Hargrave (S.P.S.C.), 3 A. H. White (P.A.C.) Distance, 20 ft. An easy win for S.P.S.C.

One Mile Flat—1 L. W. Trott (P.A.C.), 2 C. A. L. Greig (S.P.S.C.), 3 F. G. Price (S.P.S.C.) Time, 5 min. 9 $\frac{3}{4}$ secs. A fine race. Our opponents tried to bustle Trott, but he had the race well planned out. He was satisfied with a position at the rear. Greig was well out in front. Trott caught him, wore him down, and won comfortably.

EVENTS UNDER 16 YEARS.

100 Yards Flat—1 F. L. C. May (S.P.S.C.), 2 G. H. Howard (S.P.S.C.), 3 H. W. McGregor (P.A.C.) Time, 11 $\frac{3}{5}$ secs. Both May and Howard ran well. McGregor starting late found them too fast for him.

440 Yards Flat—1 H. W. McGregor (P.A.C.), 2 A. Wearne (P.A.C.), 3 C. A. Barnard (P.A.C.) Time, 57 $\frac{2}{5}$ secs. (record). McGregor had a good start, and kept the lead. Wearne ran into position at the turn, while Barnard defeated his brother in the last few yards.

120 Yards Hurdles—1 R. G. Matheson (S.P.S.C.), 2 C. A. Barnard (P.A.C.), 3 G. E. Jose (S.P.S.C.) Time, 18 secs. (record). A most disastrous race. Seven hurdles and three men were on the ground. McGregor, our record-breaker of last year, fell at the first hurdle. Had he got up and started off he would have even then been placed. Howard lost his stride and ran into a hurdle. However, he finished fourth. Barnard again beat his brother, who stumbled near the tape, by 3 inches.

JUNIOR EVENTS.

High Jump—1 G. B. Anderson (S.P.S.C.), 2 J. T. Cowan (P.A.C.), 3 T. E. Cooper (P.A.C.) Height, 4 ft. 9 $\frac{3}{4}$ in. Cooper failed to live up to his reputation, and Cowan secured second place.

100 Yards Flat—1 L. E. Hoare (P.A.C.), 2 T. W. Tassie (P.A.C.), 3

C. K. Trew (S.P.S.C.). Time, 11 $\frac{1}{2}$ secs. Hoare ran well and won by yards.

120 Yards Hurdles—1 G. H. Weylandt (P.A.C.), 2 J. T. Cowan (P.A.C.), 3 R. M. Fowler (P.A.C.) Time, 19 secs. We occupied all three places.

OLD SCHOLARS' EVENTS.

100 Yards Flat—1 M. Badger (S.P.S.C.), 2 C. E. Pellew (S.P.S.C.), 3 J. D. Yeatman (S.P.S.C.) Time, 10 $\frac{1}{2}$ secs.

440 Yards Flat—1 C. E. Pellew (S.P.S.C.), 2 J. C. Strachan (S.P.S.C.), 3 W. K. Collins (P.A.C.). Time, 53 $\frac{1}{2}$ secs.

120 Yards Hurdles—1 L. H. Wallman (S.P.S.C.), 2 C. E. Pellew (S.P.S.C.), 3 N. B. Stevens (S.P.S.C.) Time 15 $\frac{1}{2}$ secs.

District Sports.

Towards the end of last year a valuable shield was presented to the School by Mr. Jas. Ashton, R.D.S., and on behalf of the School we must here tender our sincere thanks to Mr. Ashton for his generous gift. It was decided to make the shield a perpetual trophy to be held each year by the winners in a series of district contests to be inaugurated in 1914. Early in the first term the Sports Committee met to draw up rules and conditions for the competition for the Ashton

Shield. At that meeting four districts were defined: (1) North of the River Torrens, (2) South of the River and East of Hackney Road, Dequetteville Terrace, and Greenhill Road, etc., (3) the rest of the City and Suburbs South of the River, (4) the Boarding School. These divisions will be known as North, East, South, and Boarders, respectively. It was decided that contests should be held in cricket, football, athletics, tennis, shooting, and, if decided on later, swimming. The points for the first three to be 6, 4, and 2, and for the others 3, 2, and 1.

In cricket, teams of eleven, and in football, of eighteen compete; in athletics, two representatives from each district compete in the events of the Intercollegiate Sports; in tennis, teams from each district play two singles and one doubles match in each contest. In cricket, football, and tennis each team plays each of the others once. Details of the swimming and shooting are to be arranged next term.

Some of the cricket matches were played last term, but as the time towards the end of the term had to be given up to sports, two matches had to be left until next season. At present, the Boarders and South have one win and one draw each; the North team has won one and lost one; and the East has lost two matches. The sports were well contested, and resulted in a win for the South district with 39 points,

with the Boarders next with 29½ points. The East and North scored 22 and 21½ points respectively.

Broad Jump.—1 Rayner (S), 2 Stempel (S), 3 Fowler (E).

First, South (39 points); second, Boarders (29½ points); third, East (22 points); fourth, North (21½ points).

Points for Shield—South, 6; Boarders, 4; East, 2.

The Annual Tennis Tournament.

Tennis is undoubtedly in these days one of the most popular games, for one cannot walk many hundreds of yards in any direction without seeing a "court" of some kind. This wide-spread popularity of the game is clearly shown by the large number of boys who enter for the College Tournament every year. This year there were 161 entries for the various events. This is not quite so many as last year; but last year's tournament was probably the biggest we have ever had.

The Committee had the difficult task of handicapping among others a number of new boys, of whose play they knew absolutely nothing. Still, not very many serious mistakes could have been made, for in the handicap events good level sets and close finishes were the rule. The Tournament is naturally always a lengthy business; but this year it has been more "long drawn out" than usual. There has been much time taken up during the term with practice for the Cadet Competitions, and training for our own and the Inter-collegiate Sports. The result of this was, that quite often only one or two afternoons in the week were available for the tennis matches.

There is no space here—and perhaps it would not be interesting, to give all the scores in detail. We can only mention a few of those who proved

themselves worthy foemen to those who received their prizes at the school assembly on the last day of the term.

In the Handicap Doubles, Rayner and Coombe had a fairly close game in the final match with Bell and McGregor. Rayner was still handicapped by the weak ankle which prevented his running in the Intercollegiate Sports, and so deserves hearty congratulations on his victory. Rowe and Warren also did very well. They had some fairly easy victories at first, but in the semi-final were only beaten by Rayner and Coombe by 11 games to 10. Similarly, Bell and McGregor only defeated Cleland and White in the semi-final game by 11 to 9.

Hoopmann again won the A Grade Handicap Singles. This year he had a handicap of 30, much heavier than last year, but still he managed to win fairly comfortably. In the semi-final he had his narrowest escape, for he only beat G. Hone (rec. $\frac{2}{3}$) by 9 to 8. Stempel (owe $\frac{1}{2}$), who came second, had three very close games. Mander (15 $\frac{2}{3}$), Rowe (15), Rayner (15 $\frac{2}{3}$) each scored 8 games to his 9.

In the B. Grade Singles, the final game was played between Chipper ($\frac{2}{3}$) and Swann (15), and was closely fought out to the finish, 9 games to 8.

Mullner, who won the Junior Championship, had no great difficulty in gaining first place. He played five matches, and in each of them won without his

opponents scoring a set against him. Howard, who came second, had not such an easy time in the earlier rounds, and in the final proved no match for Mullner, who beat him 6-0, 6-1. Johnston and McGregor also did well in reaching the semi-finals.

The Senior Championship was a more interesting contest. Hoopmann, who won in the end, had a series of two-set victories, until the final match against Rayner. Rayner had not such plain sailing. He defeated Mander rather easily, but against Rowe the score ran into three sets. In the final match for the College Championship, fortune seemed to waver. Hoopmann won the first set 6-1. In the second set he had almost defeated Rayner, for the score stood at 5-3, when Rayner suddenly rallied and gained the set 6-5. Rayner seemed as if he would win the third set, for he was leading for some time. Hoopmann's tossing was, however, too much for him, and the set went against him 6-3, thus giving Hoopmann the rubber—6-1, 5-6, 6-3.

Altogether, much good play has been shown in these contests, and many have made great strides in the game since last year. It is to be hoped that those who have any prospect of getting into the team against St. Peters, will make some serious effort to keep up regular practice through the second term. Without doubt, much of our ill

success in this match has been due to the attempt to crowd the practice into three or four weeks.

Cadet Notes.

At the commencement of the term the corps was weakened through many of its old members having left school and by the consequent introduction of new members. In spite of this initial handicap, it has every reason to be proud of its term's record. We can justly class its performance this year as amongst the most satisfactory since the commencement of the movement.

During the term both companies have worked at rifle exercises and section drill, with occasional company drills. Two whole-day drills also took place. On the first of these, with the remainder of the 78th Battalion and several other city battalions, we were inspected by General Sir Ian Hamilton. On this occasion our senior captain, J. W. Blacket, acted as battalion commander, and is to be congratulated on the creditable manner in which he performed his duties. Favourable comments were passed by the General on our smart appearance. The second whole-day drill was spent by the older cadets at the ranges, and by the younger ones drilling at school. The shooting on this occasion was rather spoiled by the rain.

But, in addition to this mere routine work, we have furnished guards of honor for General Sir Ian Hamilton and Sir Lionel Galway, and also a team which has beaten in open competition all other cadet teams in South Australia. The first-named guard was held at Government House on the day of the General's arrival from Fremantle, and he there had his first sight of South Australian cadets. After carefully inspecting the guard, the General complimented us on our smart appearance, and more especially on our steadiness, remarking that he had not seen a muzzle move—a fact which, said he, would do credit even to regular troops. All the more praise is due to us for this guards since it was held in the first week of the term, before we had commenced our regular drill. Therefore, in order to merit the eulogy of the General upon our efficiency, it was incumbent upon us to attend several extra practices. The second guard was held at the Adelaide Railway Station, on the arrival of Sir Lionel Galway in this State. In spite of the interference of the crowd, the members of the guard performed their duties creditably, and to the entire satisfaction of the new Governor. In this guard the use of kettle-drums was employed for the first time to keep the step while on the march.

Finally, the result of the recent competition is so fresh in our minds that there is little to say, except that we are

more proud of it than of anything else. Praise should be given to the members of the team for the regular way in which they turned out to practices, often under trying conditions. For this had no small share in the ultimate result. We congratulate the team on the way in which it upheld the honour of the school, and wish it the best success at Brisbane.

Boarders' Notes.

On our return we eagerly scanned the faces of those walking about the grounds, and sometimes the joyous expression, "Hello, Dutchy!" or "Here is Humph back again!" reached the ear, and a thrill of delight went through one as one saw the face of his special friend.

The beginning of the year invariably denotes the time when we group together and discuss our chances both in exams. and sports. "Who is back for the cricket and football?" "Are we going to win the sports?" These are the questions on nearly everybody's lips. So it was pleasing to know that, although some leading faces were absent, other boys would do their best to keep the boarding-house in its high place of honor. Chinner and Smyth were elected prefects, while Dreyer is vice-captain of the football. Although early in the year to say much, yet one

must mention that this has been one of the happiest terms in the house. Seldom has such harmony existed among all, and everyone is the friend of every other.

Our school work has been a marked success, and a number of the forms have been topped by our members. Outside of this, however, we have had much to give that variety that dispels the monotony which is liable to creep into life.

The first event of note was the annual boarders' cricket match against St. Peter's. For the first time since several years have elapsed we were triumphant. Saints, winning the toss, elected to bat, but made a bad stand against Dreyer, who finished up the day with the fine analysis of 6 wickets for 21 runs—at one period 6 for 2. Some of our new members showed good promise with the bat. Mullner drove splendidly for 27, and with Fowler hit off Saints' 41 without loss. Fowler (38) played nicely. Dreyer and Mander hit merrily for the last wicket, and added 73 in 30 minutes, Dreyer remaining not out 48. Our score amounted to 228, putting us about 180 in the lead. Saints did better in their second attempt, and were dismissed for 70, leaving us winners by an innings and 117 runs.

A notable fete in connection with the Methodist Children's Home was held at the College on the fourth Saturday.

Many bad debts were contracted, and the next morning revealed many weary-looking individuals, tired and in ill-humour.

Perhaps the most popular heroes are those three who, during the Easter vacation, went forth to war! Although paid for their services, they did not seem to recognise the great benefits of such encampments, and we are sorry to say their language was not complimentary. They returned home hungry, if not clean, and brought many funny stories of their camp experiences.

Perhaps this term has seen some of the most ardent and enthusiastic members of any previous sports team, and how eager they were for training the following tale will tell:—It happened on a dark and gloomy night. In the dormitory; not a sound (?) Two pairs of bare feet pitta-patted over the floor and down the stairs with amazingly little noise. The feet belonged to the noble "Dutch" and to our honourable descendant from the Norman "Monsieur De Bartlett." Our heroes' intention is to train—a very noble purpose indeed, but methinks a peculiar time. At last they begin their return journey, and all is well until half way up those awful stairs. They start. "What is that?" "I see a voice; I hear a face" (cf. Shakespeare). O horror! It is a master! Quick as thought scamper those dirty feet, out of the door and round the back of the College; but, ye gods, only to run right

into another master. After the surprise of both sides has somewhat died away, there is shaking, and quaking, and raking for an excuse. Happy thought, conceived in the giant brain of mighty "Vere de Vere": "May I get a towel, please, sir?" "And may I help him?" piped the second voice. "Why certainly, boys," replied the master, and the excuse was accepted—we don't think!

The two jingo cats are at it again. Their friendship is a peculiar one. They are ever calling each other loving names and hugging each other. One may see them in the morning each throwing stones and any other throwable matter at the handsome countenance of his friend.

Rag-time tunes and other weird noises emit from cubicle No. 20, and though school life is so happy, our W.A. friends will persist almost every night in wailing out, "I want to go home!"

One is pleased to note that since the departure of a well-known record-breaker from our dormitory, times are quieter, and rest and sleep are now possible before midnight. He was a very pleasant visitor, and the many happy recollections of the bathroom feasts will long be remembered.

The Editor now requests us to close this article, and though we would fain give you some more of our school-life incidents, we must say good-bye till our next opportunity comes.

Form Notes.

VI.U.

The greatest problem in life, and especially in the life of a schoolboy, according to the immortal Milton is this:

"Work, and how to get out of it!"

Up to this laudable and celebrated adage we have been acting to the best of our ability during the term which is just drawing to a close; and in most cases the success has been surprising. This was not the case with the crowd of uninteresting Lower Sixth boys who immigrated to our ranks, and invaded the long-established and now most hallowed precincts of the Upper Sixth; and it was with gloomy foreboding that we venerable survivors of that truly notorious form of 1913 beheld these budding young scholars. As their usual conversation hinged upon Biology and the intricacies of Physics, to say nothing of the pleasures of Maths., our first duty therefore, was to drill the fundamental rudiments of a civilized class into them. After fourteen weeks of arduous toil and magnanimous self-sacrifice, we have some little pleasure in announcing to the world at large that a change for the better has taken place, and that at the end of the year we hope to be renowned, not only for our scholastic abilities, but for the great interest taken in the world of sport and of humour. The humorons

side has received notable additions in the persons of Gumptious Gussy Reimann and that ever present humorist, Hetzel (cries of "I don't think!"); yet we feel that it is absolutely impossible again to witness the equals of Bollen and Willie Collins in humour.

Congratulations always occupy a prominent position in the report of the doings of our class. We all offer our hearty congratulations to Don Cooper on being Dux of the school. The frailty of human nature is only too well seen here, when one, to whom we could not hitherto have ascribed such a speech, remarks that to him the position of dux seems "enviable" only when he is the proud possessor of a large apple and proceeds to munch the same in view of the whole class! However irrelevant this may seem, yet we could not rest in peace until our true feelings were revealed in the matter. But to continue: Mander is to be congratulated on running such a close second to Cooper.

We were indeed proud and pleased to see eight of the ten school prefects, including H. L. Rayner the head prefect, drawn from our ranks. We all sympathize with Carl Dorsch in that his great dream was left unrealized, by, we are all sure, a mere oversight.

In our Annual Sports, the College Cup was won by Rayner, whilst others of our members who gained distinction, are too numerous to mention owing to

our allotted space being nearly filled. We were well represented in the Intercollegiate Sports by Davies, Stempel, White, Mander, Chinner, and Howard. We all congratulate Davies on leading his team to victory for the second time in succession. We all sympathize deeply with Rayner, who was unable to run owing to a sprained ankle, and feel confident that, had he run, many more records would have been broken.

In the Tennis Tournament, Hoopmann won the College Championship in great style from Rayner. Hoopmann, also won the Handicap Event, which was a great performance, as he was owing 30. Rayner and Coombe from VI.L., won the doubles, while Howard was runner-up in the Junior Championship.

On the Sports Committee we have five representatives in Rayner, Davies, Magarey, Mander, and Chinner. Such a quintet, we are confident, will ably uphold the honour of the class in the sporting world.

VI.L.

First and foremost we have to congratulate Tucker on gaining the top place of the form. This has been a very successful term for the Lower Sixth, as a number of our members represented the College in both sports and cricket teams. We especially wish to congratulate Fowler, McGregor, and Trott on their fine performances in the

Intercollegiate Sports. The whole class has also vigorously taken up the district sports, and has shown that the VI.L. is still the best class in the school.

Cuthbert has lately been making rapid progress in Geometry and Chemistry, and is an enthusiastic barracker for all the College teams, as shown by his keen attendance at all the meetings.

The "Fat Knight" is still as touchy as ever, and "Young 'Un" still continues to laugh with great gusto at anything that he thinks may disturb work.

The tennis tournaments are now over, and we congratulate McGregor and Coombe on their play, and on winning prizes, and hope that they will keep it up.

VI.c.

After a strenuous three months, we are looking forward to a fortnight's diversion. Smyth, although it is his first term in the Commercial Sixth, has upheld his reputation by heading the list again. We congratulate him too on his being the Commercial Prefect for the year. There are ten in the form, and four certificates have been gained, "Nuts" just missing his by a narrow margin.

"Tuggi" must be congratulated on winning the B Grade Singles Tennis and on having his hair cut.

We cannot really admit that the figures and models in the art room have

been in any way improved by Commercial talent.

Our perfect prefect "Bob" disdains to work with us, but amuses himself in the prefects' room by capturing mice and tying their tails together.

In the course of our study in Geology, we discovered in a specimen of coal a fossil shark's tooth, belonging to a "Rendallian" shark. Was this shark a boarder?

During the term a gold-mining company was formed by "Nuts" and "K.G.," but after a while it became a "bore."

Gray and Dreyer both ran and were placed in our Sports, and both secured their places in the Intercollegiate Sports team.

We have several footballers in the class this year, and have secured seven places in the First Eighteen, out of a class of ten. This gives us hope of wresting the shield from the V.U.

Three of our members are in the victorious Cadet team, which will shortly travel to Brisbane, and we hope they will bring back the Commonwealth colours.

A new subject has been added to our curriculum this year, namely Economics. None of us except "Tinker" find it interesting.

— — —
V.U.

We have again completed another term and nine certificates have been

secured. We all heartily congratulate mith on coming top of the form with 93% for examinations, which is a record; Piper follows, a good second.

The Cadet Competition Team also deserves our heartiest congratulations. We were represented by Hunter, Swann, and Newbold; and Robinson held the honoured position of emergency. We wish the team every success in Brisbane,

Tassie and Barrard did their best in upholding the honour of our form in the Intercollegiate Sports. Tassie ran well in the Junior Championship, and finished second, and the latter obtained second and third places in the Under 16 Hurdles and 440 yards respectively.

"Hector" our German "geni-ass" must have slipped back to childhood when he said "Ick wersickeray dick"; we have often wondered if he meant "Dickery dickery dock."

Hunter grows so very excited when he gets a sum correct that the boys round him have to look out for themselves. He has lately developed a taste for "butterfly" collars.

Barton caused us much merriment by calling a chemical compound "Iambic Tetroxide"; he had probably been stewing English the previous night.

"Angelina," our great gymnast(?) who migrated from the Commercial, has shown great aptitude for running, especially when he has been rather too

PREFECTS. 1914.

H. W. Stempel
G. C. Davies

W. M. Fowler
H. L. Rayner
(Head Prefect)

F. R. Hone

W. O. Menz
The Head Master

T. L. Chinner
L. A. Mander

R. C. Smyth
D. D. Magarey

familiar with some of the bigger boys.

"Joey" still continues to give his German translation in confidential whispers, and Barney often wanders into dreamland even in the most interesting part of the Latin period, but never fails to wake up when it is time to go home.

V.C.

"Attend all ye who list to hear our noble class's praise;

For dear old Sheard has slain a mouse within the last few days."

It happened thus; our noble Sheard saw the huge animal devouring someone's dinner. He at once attacked it with a shoe, and slew it. For this brave deed he was awarded the V.C.

The term was begun with 22 on the roll, but "Angelina" Gifford decided to leave us to learn Latin.

Out of the 21 left, seven have gained certificates.

We must congratulate Miell on coming top and gaining "Ding Dong's" shaky desk, and Engelbrecht on being first in Gymnasium, and also the five boys who represented this form in the Cadet Competition Team. "Sammy" is to be found at a "certain time" every morning chewing his "core" (apple). A little while ago he had the misfortune (?) to break his "headlights," and so missed a half-day's work.

"Spokes" was trying to raise "Capital" during the term to set up a "Cinematograph Palace"—instead of running

charabancs to the hills—by bringing to school "Movies" (films) of the "Melbourne Cup" which could be purchased for a penny a yard. He is still working hard to become "M. C. C." (Master of Comic Cuts), but his latest craze is to admire himself and other people in a mirror.

Two of our number, Bob Reed and Sheard are leaving us this term. We all hope that they may succeed in their future lives.

After the holidays we all hope to resume work with refreshed minds and bodies.

IV.U.

It is with the most exquisite pain and not a little fortitude, that we must think of leaving our fellow-students for a fortnight's well earned rest; and greater still is the sorrow of Jona and Tiny in leaving their beloved Latin lessons for such a long time.

By the way, have you heard of the great casualty which occurred in Pulteney Street a few weeks ago? Our friend Mum was propelling a bicycle down the said street when he collided with a green grocer's cart. Of course, it was Mr. Nobody's fault, as is always the case. Well, he had a marvellous escape. The front wheel passed over his body and he was laid up for a month. Our master says that that shows what hard cases we IV.U. lads are.

Piffle is now an accomplished mile

runner; he secured second place in our own Sports, and was emergency in the Intercollegiate; but poor Piffle, he is a martyr to the disease of (—), so he gets a low position in class owing to his being absent on Examination days.

Frank has been showing us how football is played in Sydney—a very remarkable game.

Mr. Morris Symons, our lower school organist, has gained a marvellous reputation for his ragtime, such as "Yankee Doodle," "Everybody's Doin' It," etc.

Great rivalry has been manifested between two of our fellows for dux of the form, but A. R. Shepley procured the much coveted position. Fluter (Piper) came a close second.

Of course, our form is the best in the college. We have gained nineteen certificates and are represented in the first eleven, and first eighteen. The Emu is to be congratulated on winning the Cadet Competition for the State, and coming head of the boarders in the class.

Katy (K. T. F.) has been studying diligently this term with the object of taking high honours at the Higher Public. Needless to say we are all 'very' proud of him.

We must now congratulate Weylandt for coming top in the Gymnasium as usual. David, our Hercules, is in the first eleven, and his average is about 10 wickets per run.

N. R. L. G. informs us that he will

be glad to get Mr. Euclid off his mind for a while, and Frank says he is going to try hard and come top of the Book Keeping next term. We all wish him luck.

IV.L.

We began this term with the small number of 23, as, strange to say, all the new boys were put in the Upper Fourth. However, we hear that the weakest of them are coming down to us next term. These will help to fill our forms. Freebairn and Johnson from the Lower Third have done well, while Cowell and Holland, after extended holidays, have settled down to work again.

Altogether the class work has progressed very satisfactorily. History is our most interesting lesson. English, the after-dinner torture, is already making most of us look years older. Symons has our heartiest congratulations on gaining top place. He is closely followed by Cowell. We must also congratulate the five certificate winners; also Morris, Ning, Lee, and Johnson, who have not been late this term nor missed a day. Ning is also top of the Gymnasium Class. Although we are always being told that we are not a brilliant Form, some of us showed brilliant form at the Sports.

Wearne was first in 120 yards, first in 220 yards, second in 150 yards, third in 440 yards, and second in Intercollegiate 440 yards under 16.

Hoare was Junior Champion, also Intercollegiate Junior Champion. By winning this race he escaped numerous punishments. No wonder he ran so well! One man said, "Look at the little man with the big stride and the big leg."

Mellor was second in the Junior Hurdles and fourth in the Obstacle, and Warren was second in the 120 yards.

During the term, Dimond's studies have been seriously interfered with owing to a very learned burglar breaking into his study and relieving him of his geometry book, much to his (Dimond's, of course) delight. Our "Scotchies," Archie and Mac, are getting very excited over Harry Lauder's visit. Scotch airs will be all the rage next term, and instead of talking to themselves, Dutchy, Fraser, and Willie Ng will be able to sing softly, "I love a lassie," as they work out their sums.

Lord R. was too busy with his ferrets to attend the Sports. If you want to know anything at all about ferrets, spiders, cows, or dinners, ask the boy who fell through the floor. Blee, our chief soloist, with his fine "part," is leaving us to specialize in commerce. We wish him every success.

III.v.

Last year's Lower Third, with eight new chums, constitute this year's Upper

Third, to which we have now arrived. Work has proceeded steadily, and by our hard work we have managed to secure 17 certificates. Halfway through the term we lost Taylor and Barlow, and while wishing them a good voyage to the old country, we cannot help feeling a little envious. We heartily congratulate Freebairn on being at the head of the form, a position we all tried to get, especially Jessie, who intends to do great things next term. Raddy is our orator, although his voice is hardly as melodious as Reed's, who obtained the highest gymnastic marks. At cricket we were successful against the Lower Thirds; but we hope to make a name for ourselves in the football matches next term.

III.L.

At the beginning of the year our Form was made up of boys from the Second, two new boys, two old boys, and a contingent of youthful scholars from the Preparatory School. The class soon settled down, and work went on smoothly. Our Form has been introduced to the mystery of fractions, which seem very puzzling to some. Owing to our efforts at Latin, we shall soon know all that Julius Cæsar did in his wars. English lesson is all right if the "minus one" can be dodged.

Our class was unsuccessful in a cricket match against the Preps., for

we were defeated by one run. However, it was not to be wondered at, seeing that we had a "bunny" bowling. Crompton, our best cricketer, made 34 runs. "Tuppy" Nesbit, our great pugilist, secured 18 runs. In the match against the Upper Third, we were beaten by an innings.

Our Athletic Sports were held on our own ground, and proved a great success. Although all our Form did their best in the obstacle and other races to amuse the large crowd, yet McNiel was the only lucky one to gain a prize. He came third in the 100 yards race for boys under twelve years.

We are very well-off in the matter of refreshments, for we have "Bunny," "Pickles," and "Kola" with us. Brice and Smith are our amateur comedians, who wile away many weary moments with their witty patter.

II.

Twice during the term a shadow was cast over our happiness, and in each case the loss of a father was the cause. That our deepest sympathy went out to Dunstan and Clark in their bereavement was shown by the looks of sadness that crept over everyone's face, when the news was learned. Both the deceased were Old Boys of this school.

The Athletic Sports were eagerly awaited, and all took an active part in them. Hobbs, who has a good stride, carried off the under 12, and was placed

second in the under 14. Clarke, Bennett, and Flint gained places in their heats, but were not speedy enough to be placed in the finals.

Flint often amuses us with his quaint answers. He once told us that the elbow is called the funny-bone "because it hurts so funny." When asked for a sentence containing the word "mow," his effort was—"That man has a long mow." Our geographical expert informed us the other day that "Mildura is an Eragtion Selltment on the Murray."

For a few days a boring plant was stationed near our classroom, and the sounds emitted by the engine were scarcely musical. It was found that one or two were writing in rather a mechanical way, regulating their strokes by the "gasps" of the exhaust pipe.

Top place in the form was obtained by Hobbs after a good tussle with Bennett. Certificates were won by these two, and also by Dunstan and Lamerton.

PREP. SCHOOL.

About a dozen of the Preps. had to say good-bye to us after the Christmas holidays, and go over to the Big School, but, as there were just as many new boys, our numbers are the same as they were last year.

On February 26th we played the Lower Thirds at cricket, and we thought we were in for a beating when they made 116 runs. However, our batsmen

proved equal to the task, and we topped their score with only six wickets down. Norman Walsh 22, Glover 22, and Strachan 34, were the principal scorers.

The most exciting event of the term for us was the match against St. Peter's Prep., which was played on their grounds on March 4 and 18. We went in first and made 70 runs: Frank Macrow being easily top scorer with 24. St. Peter's then went in and made 46, of which Cavenett made 18 by good cricket. In the second innings we made 68: Glover and Strachan being top-scorers this time with 15 and 16. The Saints made 40 in their second innings, thus leaving us winners by 52 runs. Strachan and Frank Macrow bowled unchanged throughout for us, and divided the wickets equally between them. We had a very enjoyable game, and we were sorry that, owing to the sports coming, there was not time for a return match.

We had a great time at the sports, which were held on the Big School grounds this year. It seemed much nicer to have them there than at the Oval. Krantz won the Junior Prep. race, Adamson came second, and Iliffe third. In the Senior Prep. race, Frank Macrow was first, Krantz came second, and Warren third. In the under 12 race, Frank Macrow upheld the honour of the Prep. by getting the second place.

We congratulate Ross Macrow on coming top of the Senior A's this term, and Warren on getting first place in the Senior B's; also Phil Clark on being best man in the Juniors.

GEO. C. DAVIES,
Hon. Manager.

Christian Union.

The bringing of Christianity and love of God's world into the life of the student, is the aim of the Student's Christian Union movement throughout the world. Through its great influence, even in China and India, the average student is taking the word "Christian"

as his surname, and the Student Christian stands as the symbol of virile manhood: cultivating the physical, mental, and spiritual powers. It was to the joy of one of the term's speakers that he noticed in the C.U.'s desks the captain that led the cricket eleven on the Oval last term.

The Christian Union has been recognised as incomplete without its Bible Study. Thanks to Mr. Ward we made up our minds to make a start at it with the beginning of the second term. A meeting was devoted to the matter, at which it was plainly laid before the boys, and the result was that forty gave up their names as probable members. The leaders consist of the eight committeemen of the Union, to whose benefit Mr. Haslam devotes an hour or two on Wednesday evenings as a preparation class.

Owing to the suggested date of the Church Parade for cadets clashing with an anniversary in Kent Town Church, it was decided to postpone it till the third term.

An appreciable reform was made when the Committee decided to abolish the rough manuscripts which weekly heralded a meeting. Now a neat printed card meets one's eyes on Friday mornings.

There were eight different speakers, including the Head Master twice. His latter address was very fine—on school

friendships and influences in relation to our after life. Dr. Hone's address was also about the good results of true friendship. Rev. Mr. Evan spoke of the respect one retains for his old school. Much greater was the respect if you had kept a standard of "Purity, Integrity, and Honour" during your sojourn there.

The attendances have been very gratifying, there being an average of thirty-six. Nevertheless, the Union wishes for an increase of 25% for the second term. We had a visit from the travelling secretary—Mr. Wisewold—during the term, and he was more than satisfied with what he saw.

Cadet Competitions.

At the commencement of the year, a meeting of the old members of "C" Company was held, and it was unanimously decided that a team should be entered to contest the Battalion Competitions. A start was made with work and the various members of the practice team turned out regularly for instruction. The Area Officer and Staff Sergeant Major were exceedingly good in giving us special attention.

The Battalion Competition was held

on March 28th, at Port Adelaide Ranges, there being only two teams—O.B.I. and the School. Captain Lorenzo and Lieutenant Woolley conducted the examination, which the School eventually won by 17 points. The shooting proved to be the team's strongest section, as out of 192 shots fired 177 struck the target. The turnout of the team left much to be desired, but still the faults at this stage proved to be of great value in preparing the team for the District Competition.

Battalion scores were as follows:—

Team.	Rifle Hits.	Shooting. Fire Control.	Shooting Total.	Inspection.	Physical Drill.	Section Drill.	Skirmishing.	March Past.	Total.	Order of Merit.
Maximum	192	50	242	100	150	200	250	50	992	
C Company (P.A.C.)	177	45	222	94	108	194	225	40	883	1
K Company (O.B.I.)	146	40	186	98	118	192	225	47	866	2

The District Competitions were held on May 2nd, in beautiful weather. Each battalion in the State was represented by a team and all paraded at the Port Adelaide ranges in the morning. The teams were very thoroughly inspected, points being given for appearance, steadiness, rifles, adjustment and cleanliness of uniforms. The School team had learnt its lesson in the Battalion Competition and the result was a smart turnout. In section drill, the 78th did their work better than any of the other teams, but lost points for not crossing a ditch correctly. The shooting test was the most difficult the team

has yet fired in. A head and shoulder target was used. Two shots had to be fired at 350 yards and two at 300, the target being exposed for 45 seconds at both ranges. At 200 yards the target appeared twice for ten seconds and at 100 yards two shots had to be fired as the figure was marched 25 yards. Owing to a mistake in reading instructions the team fired less shots than any other, therefore the position gained shows that their shooting was a very creditable performance. The scheme in skirmishing was new to the team; but the thanks of the team are due to the squad commanders, who kept their heads and led

their men well. The two remaining sections were carried out in the afternoon at the Jubilee Oval as an extra attraction for the Blind Fair. All the teams marched past His Excellency the Governor, but owing to a slight crowding in the ranks the School's team just failed to score the maximum. The physical training was a greatly improved section of the team's drill, and the time spent at this particular phase of the work enabled the 78th to give a good account of itself.

On the completion of the competitions, the teams were drawn up and addressed by His Excellency, who re-

marked that he had been much impressed by the standard of work he had witnessed. He urged the teams to take every opportunity of improving their shooting, and announced that Sir Edwin Smith intended presenting a medal for competition in shooting amongst senior cadets. After the address, the Governor presented the King's and Lady Dudley's Colours to the School company and congratulated the team on its success. The team then marched through the streets to the School with the Colours gaily flying.

The results were as follows:—

DISTRICT COMPETITIONS.

Battalion.	Rifle Shooting.		Shoot- ing Total.	Inspec- tion.	Physi- cal Drill.	Sec- tion Drill.	Skirm- ish- ing.	March Past.	Total.	Order of Merit.
	Hits.	Fire Control

82nd (Broken Hill) ...	24	20	44	92	98	150	185	43	612	9

The School team which is for this year the champion team of South Australia, has thus earned the right to represent the State in the Commonwealth Competitions at Brisbane. It is hoped they will bring honour to the State and credit to the School and 78th Battalion.

This account cannot be closed without a word of thanks to the Area Officer and his Sergeant Major, who have been unsparing in energy to prepare the team for these contests, and to whose work and enthusiasm the great achievement has been due.

Obituary.

James Taylor Mellor, LL.B., who departed this life on April 3rd, 1914, was a man widely known; as well versed in law and highly esteemed for his painstaking skill. He took a prominent part in public matters as Chairman of the Woodville Council for many years, and then of that of Walkerville; he was elected a member of the Municipal Tramways Trust, and Chairman of the Metropolitan County Board.

He rendered valuable service to the Baptist Church, was a represen-

tative for many years at the Baptist Union meetings, was Treasurer of the Union, Secretary of its building fund, and for one year President. He was also Treasurer of its Council of Foreign Missions. On the occasion of his funeral the large devout gathering of the present and past members of his Bible Class was an inspiration and a joy. He was a loyal old scholar of Prince Alfred College, sending his sons to it for nearly the whole of their education, and in many ways showing his attachment to it and readiness to forward its best interests. Of such a man the school is proud, and his loss it deeply laments.

William Alfred Lois Williams was born in 1887, became a member of the Church of Christ in 1900. He qualified for a chemist when 21, and two years later began business at Tumby Bay. When out boating with his wife and child and some friends, a sudden squall upset all into the water. Williams was a good swimmer, rescued his loved ones but sank himself. He was a leader in all movements of the town, Vice-President of its Literary Society and a lay preacher in the Church of Christ.

Whole-day Drill.

On a Wednesday during the term it was decided for our benefit to have a whole-day drill. Accordingly we arrived at the Adelaide Railway Station. We boarded a train and settled comfortably in our seats, the more fortunate ones securing window-seats. After dashing along for a few minutes, we caught sight of cascades of water, pouring in torrents over that triumph of engineering construction, the Torrens Weir.

The beautiful scenery by the wayside called forth exclamations of admiration and astonishment from several passengers; as a matter of fact, the touching incidents of home life depicted in the back-yards nearly brought tears to our eyes. More especially did we admire the display of garments on the line—the clothes line. The train we had caught turned out to be an express, so that we were not able to obtain such a good view of these historic localities as we might have desired. We were, however, fortunate enough to catch occasional glimpses of clay-pits and rows of bricks, the manufacture of which, we believe, constitutes the back-bone of the State.

Belching forth dense volumes of smoke, our giddy young spark of an engine dashed at enormous speed through station after station, sometimes attaining the enormous speed of eight miles

per hour. We beg to inform the public that we take no responsibility whatever for the above statement, as we only repeat what we heard.

After a period of a few minutes, or, rather hours, we suddenly dashed into a thick veil of gloom. Our first impressions were that the sun had suffered a partial eclipse, but on enquiry we learnt that we had only arrived in the Port Adelaide Railway Station. On emerging we gazed around, the first object to catch our eye being the tall mast of a ship, on which a giddy young fellow seemed to be endeavouring to dance the "Tango." He was, we presume, the master of the ship.

Forming some sort of squad, we moved towards the Ranges, the Competition Team following in our wake, and simply revelling in the mud, and occasionally catching the spray from our flying feet. As to the mud, there was too "mudch" of it. After marching a few minutes, we came across a mighty sheet of water. We simultaneously exclaimed "The Port River!" However, a callous youth of the neighbourhood informed us that it had been raining again. We waded through it without waiting, being nearly torn off our feet by the immense force of the current. In fact, some of us needed raisin' up out of the slush.

Somewhat refreshed, we proceeded onward, at length arriving at the shelter sheds on the Ranges. To our disgust,

we learnt that the cartridges were 'late excused.' In the meantime, we indulged in a little skirmishing. At last the cartridges arrived. Very reluctantly the boarders put their dinner in a safe place, and with the rest of us set out for the targets. Alas! hardly had we started firing when the rain started. As a result a great amount of "missing" took place, not only of the targets but also of our step on the glassy creepers which abounded in profusion. The boarders, also, we fear, missed their dinner.

We have now to report the heroic conduct under fire, a fire of rain-drops, of one of our number. We were making for the shelter of the butts, when a rather corpulent friend of ours, noticing the extremely dejected countenances about him, inwardly resolved to sacrifice himself and his trousers, by indulging in a species of roller-skating on the afore-mentioned smooth plants. We had all 'butt' reached the butts when our hero made this noble sacrifice, thus raising our downcast spirits. We heartily thank him for his heroic venture.

When the rain had ceased, we again started to shoot. We were allowed to proceed for a time without interruption, but Nature again reasserted herself. We therefore resolved not to put up with her caprices any longer, and so we set forth for the shelter-sheds and dinner. We all envied the Competition Team, as they were allowed to remain

in this charming winter garden the whole afternoon. The rest of us had reluctantly to return to town. As a result of this pleasant day, our Muse has been called forth with the following result:—

Oh! Port Adelaide Rifle Range,
It doth certainly seem strange

Your aspect gray.

Can't you make yourself look sweeter,
And destroy the dread mosquito?

Can't you get some stuff to beat 'er
Right away.

Get some good Insectibane;
It's far better than a cane,
And it surely will restrain

That insect's whims:

So that next time that I come,
They'll no longer sweetly hum,
And my smiles will be like some
Of Sunny Jim's.

Australasian Antarctic Expedition, 1911.

S. Y. "Aurora"

At Sea, 63° 28' S. Lat.,
90° 22' E. Long.

Friday, Feb. 6/14.

Dear Mr. Chapple,

I was extremely pleased to receive your kind note and that of the Prefects, and I am taking the opportunity of answering while we are still in Antarctic waters.

It is a time of general rejoicing on

board at present, as we are at last definitely rolling home. We have been sounding and trawling for the last seven weeks along the coast to the West of the Main Base, and when we tried to turn North we found ourselves confronted by solid pack ice. We steamed West for two days more, and there was just a little tension, as the "Gauss" was frozen in in that position; but after a night and a day banging through thick pack, we reached open sea at last late yesterday evening. At 6 a.m. to-day those of us who make ourselves useful as A.B.'s, were called to set the sails as the wind was fair, and now we are making for Home Sweet Home with all our steam and canvas, and it is impossible to describe how we long for it after 2 years and 3 months of exile.

It was very pleasant to know I was not forgotten at the old school, and I would like you to thank the Prefects heartily for me for their kind expressions which were greatly appreciated. No one who has not experienced it can realise how thankful one is for the merest word of remembrance from civilisation after a long absence on the weird and wonderful Frozen Continent, surely the most desolate region remaining on the earth.

As you know, Correll and I were companions on the long sledge journey, and often we spoke of the old school in the weary hours of lying in sleeping bags during a blizzard.

I was pleased to hear of the School's success at the sports and football in 1913, and hope that they played a good game in the cricket, win or lose. It has always been a matter of great regret with me that I did not take a more active part in sports during my school days.

Again thanking you and the Prefects for your kindly thoughtfulness.

I remain,

Yours sincerely,

CECIL T. MADIGAN.

Dandies Night.

Once again many "Old Boys" and friends spent a most enjoyable evening at the Exhibition Gardens, on Wednesday, 18th February last, when the Dandies Company provided a bright and interesting programme, which was especially arranged for the occasion, including the "Cadets' Marching Song," written by Mr. N. A. Webb.

Taking into consideration the counter

attraction, the attendance was better than in previous years,—showing that this entertainment is popular, and that the efforts of the Committee are appreciated.

Every item was well rendered, and during the evening each artist was presented with a memento of the occasion, by the Misses Taylor and Miller.

The stage was artistically decorated in red and white with the School Flag prominently arranged in the centre. This work was carried out by the Misses Catt and Sunter, and the Committee are indebted to them for their successful efforts.

The financial statement shows a net profit of £8 8s. 8d., as per Statement:—

Old Boys' Week.

On another page will be found the full programme in connection with the celebration of "Old Boys' Week." The Committee have again given considerable time to the arranging of this programme, and it is hoped that the members will ensure an enjoyable and successful reunion by their support and co-operation. Those desirous of partaking in the lacrosse and football matches are asked to forward their names to Messrs. L. B. Shuttleworth and H. W. A. Miller respectively, at least a fortnight before the dates fixed for the matches. The Annual Dinner has again been fixed for the Thursday prior to the College match, and will be held in the Adelaide Town Hall. This, however, was only made possible through the generosity of the directors of the Wondergraph Coy., who decided to allow the Association the Town Hall on the evening in question without any recompense whatever. It was felt, however, that the Association were under a big obligation to the Wondergraph Company, and the Secretary of Association therefore undertook to promote an "Old Boys' Night" for the "Butterflies" for Friday, July 17th. Many country old boys come to town for this week and desire to attend some amusement on the evenings that the Association is not holding meetings, and they are requested on this occasion to

bestow their patronage on the "Butterflies." Country members can have seats reserved for them by remitting 2s.

During the past few years the menu at the Annual Dinner has comprised hot soup and fish, followed by cold meats and poultry, but on this occasion it has been arranged that the menu shall comprise hot dishes throughout—a change which will no doubt be greatly appreciated. The tickets will be 5s. each, but this *will not cover* the cost of refreshments as in previous years. Messrs. Coward, of the Prince Alfred Hotel, have arranged to supply the refreshments for the evening, and the prices in all cases will be clearly shown on the wine list.

The Old Scholars' Service will again be held at the College on the Sunday morning, when Mr. Stan. Kelly, of Giles' Corner, will address those present.

A Trip to Borneo.

On the 26th February, Mr. Charles C. Deland gave a most interesting lecture, dealing with a trip to the Netherlands Indies, in the big school room at the College. The lecturer brought with him many samples of native handicrafts and a few weapons which he had collected, and explained that these were brought more as reminders of the various places he had

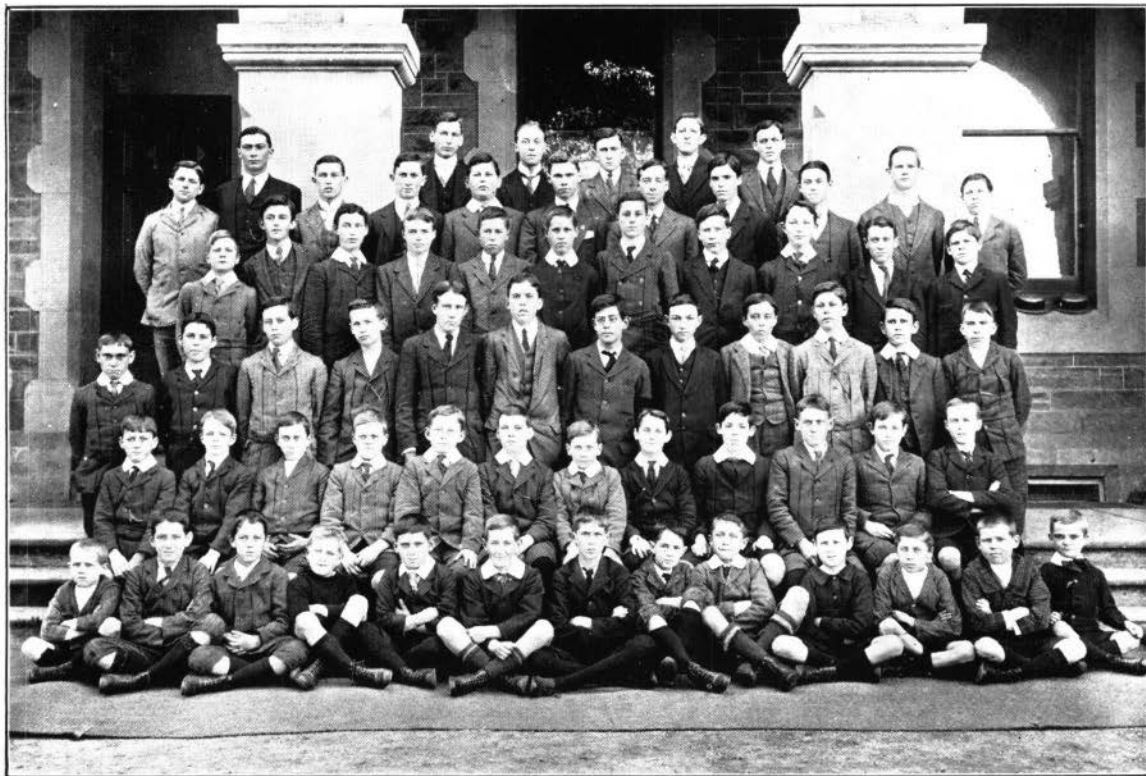

visited than because of their intrinsic value. Description was made of the coast scenery and towns around our Northern Coast, including Thursday Island, and Port Darwin. The islands lying between Java and Australia were described, and the volcanic chain which nearly connects with Australia proved of great interest to the boys and old scholars present. Life in Java and in the mountainous and volcanic districts was described, and evidently the lecturer lost no opportunity of gathering information during his trip. He was accompanied by his sister, and their visit included Singapore and Johore, and leaving the beaten track of tourists, they went up the rivers, and into the heart of the jungle in Borneo. Unfortunately, time was too short for the full description and experiences in this little known but huge Island. Right through, the interest of the hearers was maintained, and it has since been remarked that further lectures of a similar character would tend to bring the old scholars into closer touch with one another.

The President, Mr. N. A. Webb moved, and Mr. Tom Steele seconded, a hearty vote of thanks to Mr. Deland for his instructive lecture. The Committee desire to thank Mr. Deland and friends who kindly arranged for the exhibition of weapons, etc.; also Messrs. Elder, Smith, & Co. for loan of plan and hand books.

Presidents of the Association.

Referring to the list of Presidents published in the January edition of the "Chronicle," Mr. Chapple has kindly supplied the following:—

"Excerpt from *Methodist Journal* of December 22, 1876:—'Old Scholars' Scholarship (£9 9s.), E. Forster.' I recall distinctly that W. J. Millner was active in collecting that nine guineas (G. S. Cotton and E. B. Colton might tell more of this). I afterwards found that similar prizes had been presented to M. M. Maughan in 1873, W. P. A. Robin in 1874, and E. G. Shorney in 1875. Thereupon I suggested to Mr. Hartley forming an Old Scholars' Association, and putting the prize on a permanent footing. Mr. Hartley thought the time for it had not quite arrived. I secured his allegiance to the scheme, and that of certain leading old scholars (e.g., E. B. Colton), and worked for his election; and not once nor twice persuaded him to retain the office when he wished to resign it. On his lamented decease I was asked to succeed him, but declined, urging the old scholars to believe with me that they were quite strong enough, and in every way it was best for them to manage their own affairs. They accepted this view of the position, and at Arthur Piper's suggestion created a new office, that of Patron, for the Head Master."

PRESENT BOYS WHO ARE THE SONS OF "OLD REDS."

South Eastern Trip.

COMPLIMENTARY DINNER TO OUR HEAD MASTER.

On Friday evening January 2, at the Mt. Gambier Hotel there gathered a happy throng of "Old Reds" of Prince Alfred College to do honour to their esteemed headmaster (Mr. F. Chapple B.A. B.Sc. Lond.) on his first visit to Mt. Gambier. After apologies had been tendered for the unavoidable absence of some members, fifteen in number sat down to an inviting repast. Due honour having been paid to the delicacies offered, the toast list was begun by the chairman (Mr. P. Niquet), a scholar of 1870, submitting the "King," and the "Governor." The toast of "Our guest" was given by Mr. Niquet, who, in a pleasant speech, paid a high tribute to the sterling qualities of Mr. Chapple both as a man and an educationalist. Mr. J. E. Trevor supported, and others added their quota of respect to one who so richly deserves it, if the admiration of his "old boys" may be taken as a criterion of esteem. Mr. Chapple on rising to respond, was greeted with prolonged cheers before being allowed to speak. He said that was one of the proud moments of his life, for on that, his first visit to Mt. Gambier, he was being honoured by those whom it was his greatest delight to meet, the "old boys" who stood for all that was good in the traditions of their old school and the land they lived

in. In 38 years of service in the old school, always had he endeavoured to find suitable men amongst the old "Reds" to fill the positions on the staff. Now, on the eve of his retirement, he hoped the powers that be would give due consideration to an "old boy" in choosing his successor. Mr. Chapple finished a deep-feeling speech to his boys amidst prolonged applause, their only regret being that his speech had been so short, as they would have been content to listen longer to their esteemed "head." Next followed the toast of "The College" by Mr. H. Kessal, to which the Rev. W. A. Potts (a member of the college committee) replied in a witty manner. He knew that Mr. Chapple's place would be hard to fill, but come what may, the old school would surely prosper, for though he might be replaced (and much too early at that) the name of Chapple and its influence would long be connected with the college. "Our Splendid Rival" (St. Peter's College) was the next toast, submitted by Mr. E. J. Price, who spoke of the keen boyhood rivalry of the two schools which, under the broadening influence of time, ripened into some of the most binding friendships. Mr. C. N. MacKenzie responded, at the same time paying a tribute to the guest of the evening. Mr. Chapple then asked the company to pay tribute to the able manner in which Mr. Niquet had dis-

charged the duties of chairman, and to couple with his the name of Mr. R. N. Campbell, to whose untiring energy and love of his old school was due the success of their happy and enjoyable evening. Songs were contributed by Messrs. Price, Mackenzie and Campbell, and a recitation by Mr. H. Palamountain. Mr. H. G. Sandison acted as accompanist in a capable manner. "Auld lang syne" and "God save the King" ended what was a happy reunion for all, and a chance to meet the "head" once again.

Others present whose names do not appear above, were W. A. Paltridge, G. G. Watts, Frank R. Potts, A. L. Lord, Will. A. Palamountain, E. J. Price.

—Compiled from "South Eastern Star."

At Narracoorte endeavours were made to hold a similar gathering, but our Head Master's stay in that town was too short. He came principally to be present at the wedding of Gordon Davey to Miss Hilda DeGaris. But in the two days there, in addition to a brief visit to the Penders at Struan House, he was met by Oliver H. Rogers, the engineer in charge of the Government works, Dr. Ren. Burnard, Thomson, Blackwell, Trengove, H. Langsford, Percy Fisher, B. J. Magarey, Hunt, Kilsby, W. A. Clifford, S. Goddard, and others whose names won't come up at the moment, besides

many old boys from Adelaide enjoying a brief sojourn in the salubrious South. He also addressed the Sunday School, and the Young Men's Bible Class at which the Palamountains work, and had many a good outing, and good games of tennis with old friends.

Welcome to Madigan and Correll.

When the Mawson Expedition went away to the Antarctic, it had with it two old scholars of Prince Alfred College, Cecil Madigan and Percy Correll. Cecil Madigan had been selected as a South Australian Rhodes Scholar, and the story of the return of the Expedition to its winter quarters for the purpose of forming a rescue party for Dr. Mawson, who had returned from his long journey inland, of the miraculous escape of Dr. Mawson, and of the long and tedious imprisonment of the rescue party during the winter of 1913-1914, has now passed into the history of the race.

When the President of the Old Collegians' Association heard that the Expedition was landing in Port Adelaide, he decided to give the old reds a royal welcome home. He received magnificent assistance from his indefatigable secretaries, Messrs. Miller and Shuttleworth, and who organised one of the most successful and enthusiastic func-

tions ever held in connection with the P.A.O.C.A.

The welcome took the form of a luncheon, and is thus described by one of the daily papers:—

Old boys were young boys. A learned King's Council, several prominent barristers, and quite a number of the city's well-known business men stood up and cheered madly. They were old scholars of Prince Alfred College welcoming home Cecil Madigan and Percy Correll, the boys who carried the medal with the red cross right down over the edge of the southern ice line. The banquet room at Bricknell's Cafe was hardly big enough to hold the enthusiastic crowd which foregathered at the ceremony in the luncheon hour yesterday. What excitement was there. You could recognise the two young voyageurs because they were about the only ones who did not betray any emotions. Even Captain J. K. Davis, that Viking of the Antarctic, was smiling as though he also was an old P.A.C. boy. The Chairman (Mr. Noel Webb), who is President of the Old Boys' Association, was a physical verification of the college's antiquity. Mr. Webb, if one might judge from the manner in which his forehead has chased his hair back, could probably grandfather many of the present youngsters of the school. And sitting near Mr. Webb was Mr. Chapple, who so many years ago taught him

his multiplication tables, and doubtless whacked him soundly when he mixed up his Latin conjugation.

These two old boys, Madigan and Correll, must have been proud of that gathering. They were being entertained by men who were delighted to honour them. Antarctic exploration is in its infancy in Australia, therefore the occasion was unique. In years to come, when, perhaps, the whole of the great southern continent is revealed to us, and the geography books set forth its configuration for the benefit of the future schoolboys, there will be something for the pair to look back upon with pride. "We had hardly left our Alma Mater," they may say, "yet we were pioneers in the great work which is now complete. And in the welcome extended us as pioneers there was a warmer note of pride in what we as schoolboys had achieved."

Well, it was a merry company, anyhow. The chairman said that the speeches were not to exceed two minutes each. However, he allowed himself at least four. Half of that time was taken up in reading letters and telegrams of welcome, among the former being one from Dr. Mawson, who expressed regret at his inability to attend the luncheon. Then into the remaining two minutes the chairman crowded an amount of admirable sentiment. Rightly enough, he described the return of Dr. Mawson and his comrade as epoch-making.

And when he said that the hearts of all Prince Alfred boys must have swollen with pride when there became known the great part two old Reds had played in the expedition there was a sympathetic cheer. Correll had done splendid service, and had won the encomiums of his leader. Madigan had had greater opportunities, and had earned for himself the right to be classed as a leader of men. In electing, as he had done, to stay another year in the ice, he had laid his young life on the altar of self sacrifice. He had been willing to forego his Rhodes Scholarship out of devotion to his leader. "Our verdict," said Mr. Webb, "is this: It was cricket." (Cheers). And in conclusion he quoted these lines:—

"There's a grit that runs in Australian
blood
That will carry a man through fire and
flood."

Then as he called for cheers for the guests the whole company jumped to their feet and yelled like schoolboys at a football victory.

The venerable Head Master of Prince Alfred College (Mr. Chapple) was next to speak. He was obviously delighted with the work of his proteges. "Such schools as ours become great by their traditions," he declared, and added, "What better tradition could any school possess than that which the deeds of Correll and Madigan will hand down

to Prince Alfred's?" He also spoke of the value of school companionship, and laid stress on the fact that during their long sojourn in the Antarctic the two young fellows had been the closest companions, and had had many a long talk about their days at school.

The Mayor of Adelaide (Mr. A. A. Simpson), and Mr. A. W. Piper, K.C., who was chairman of the South Australian Branch of the Royal Geographical Society when the expedition departed for the South, warmly welcomed the young explorers. Mr. Piper said that the world would now realise that Australians were ready and able to go forth and do justice to themselves in the world's work.

Cecil Madigan's turn came to reply. He is not a platform man. If he ever was, the Antarctic has taught him the value of action rather than speech. The big, strong boy—it is only a couple of years since he stroked the 'Varsity eight which won the State Championship, then put his baggage on the Aurora the same day, and went south—looked the thanks he seemed hardly able to express. The gathering cheered him and cheered him again. Then, when the tumult and the shouting ceased, he began in halting sentences to modestly disclaim all the credit that had been heaped on him. He really thought a little too much had been said about himself. What he had done was not a

sacrifice after all. (A voice—Wish I had done as much!) Madigan smiled at the interjection. "You know," he continued, "it was really impossible for me to come back, so I don't deserve any credit for staying there, do I?" Surely, if the Rhodes Scholar that is to be had been sent down on earth in some other form than that of a man, it would have been a violet! He refused to speak of himself further. Percy Correll and Captain Davis occupied his attention. He wanted those present to know what a help those two had been to the expedition. Everybody looked on Captain Davis as a sort of guardian angel. It would have been a very trying time down there at Commonwealth Bay, had it not been for the hundred and one little things Captain Davis did to make the lot of those who remained behind as comfortable as ever it could be. As Madigan sat down, the cheers rang out again. He was only one year at Prince Alfred College. But one year or ten years it made no difference to the general desire to do him honour.

Americans would describe Percy Correll as "Some Cook." He told his friends yesterday that they all had to take their turn down south. Once he was told off at two hours' notice to cook a meal for eighteen men.

"My word, we faced death that time!" said Cecil Madigan, amid roars of laughter.

Penguin was not so bad, said "the baby of the party," but they drew the line at bread which was made without baking-powder, and roly-poly pudding out of which the suet had been left. On one occasion while digging a snow tunnel they came across what looked like a prehistoric mineral. On investigation it was found to be a loaf of "home made" bread which had become frozen. "We cut it up," said Correll, "and used it for making medals." (Laughter). For awhile the speaker seemed stuck for something to say. Then he glanced up. "My," he said, "it is good to be able to see a lot of nice clean faces again! You know, it gets awfully monotonous seeing the same dirty, 'grubby' persons every day while you are in the Antarctic. Some of us used to be able to get a wash once every six weeks—if we were lucky." (Renewed laughter).

Boy-like, Correll expatiated on the delight of visiting a fruit shop as soon as he reached civilisation. It seemed nice to be able to go in and choose something and just tender a coin of the realm in exchange.

Madigan chipped in with, "Yes, very nice while the coin lasts."

"One of the first things we did on returning to Adelaide," remarked Correll, "was to take Captain Davis up town and buy him some fruit."

"Didn't you buy him an icecream as

well?" cried someone. Correll's reply was lost in laughter. Before resuming his seat he expressed the opinion that such a welcome as had been given them was "jolly fine," and he reckoned Antarctic exploration would "keep a fellow fit for life." (Applause).

The gathering should have ended here, but instead there were insistent calls for a speech from Captain Davis. After some persuasion the captain rose, and he also struck a happy note. First of all he congratulated Prince Alfred College and Australia upon possessing two such fine young fellows as Messrs. Madigan and Correll. He then spoke of the landing of the western party, and also of that momentous occasion when he had to decide to sail away from Commonwealth Bay without Dr. Mawson and his comrades. It was then he did a lot of hard thinking; but it was a comfort to him to know that in Cecil Madigan--whom he had appointed as leader of the party that was to wait for Dr. Mawson, and if necessary search for him—he had a man who could be relied upon to do just what was right. (Cheers.) Percy Correll was a sticker. On board ship he was always dodging round doing some work or other. In fact, all the party were like that. On rough nights they would get out and haul at the braces and do work which they didn't know much about with the greatest goodwill. Above all, they had complete confidence in their leader, Dr.

Mawson, and therein to a very great extent lay the success of the expedition.

"I'm not much of a speaker," said Captain Davis, in conclusion. Really he had made a very excellent speech. "I knew," he continued, "that I'd have to make a speech some time or other when I came ashore. Therefore I wrote out what I thought to be a very good one. I meant to deliver it at the University welcome. Unfortunately I went off and left it in another coat pocket. Now, just think what that distinguished audience missed."

And with laughter at the captain's sally, and more cheers for the three voyageurs, the temporarily "young" old boys went their respective ways.

Births.

CAWTHORNE.—On the 25th December, at Gonyah, North Unley, the wife of Gus. Cawthorne, King's Park—a son.

WEST.—On the 12th January, at Devonia Private Hospital, the wife of Mr. R. A. West, of Kingswood, of a daughter (Esther Jean).

TAYLOR.—On the 17th January, at Duneira, Brougham Place, North Adelaide, the wife of A. L. Taylor—a daughter.

WILLSMORE (nee Annells).—On the 28th February, to Mr. and Mrs. F. A. Willsmore—a son (Frank Harrold).

BRUCE.—On the 22nd February, at Dutton Terrace, Medindie, the wife of Wallace Bruce—a son.

CLARK.—On the 23rd February, at St. Ives Private Hospital, Cootamundra, the wife of Archie S. Clark, of Bauloora Mines—a daughter.

MAGAREY.—On 21st February, at Woakwine, Alberton, to Dr. and Mrs. Rupert Magarey—a son.

CASELY.—On the 27th February, at Lynton, Payneham Road, Joslin, to Mr. and Mrs. E. S. Casely—a daughter.

DAVIDSON.—On the 4th March, at Miss Walsh's Private Hospital, Kensington Road, Rose Park, the wife of D. M. Davidson—a daughter.

COOPER.—On the 4th March, at Park Road, Kensington Park, to Mr. and Mrs. F. T. Cooper—a daughter (Audrey Blanche).

SUNTER.—On the 10th March, at Alexandra Avenue, Rose Park, the wife of Gordon E. Sunter—a daughter.

PADMAN.—On the 26th March, at First Avenue, St. Peters, the wife of W. S. Padman—a daughter.

POWELL.—On the 2nd of February, at Surrey Hills, Melbourne, the wife of Roydon Powell—a daughter (Katie Morrison).

CROMPTON.—On the 27th March, at Narma, South Terrace, the wife of Alfred Crompton, Charles Street, Norwood—a son.

KELLY.—On the 30th March, at Sister Langley's Hospital, Riverton, to Mr. and Mrs. J. Elliot Kelly, of Sulby—a daughter (Mary).

LANGLEY.—On the 28th March, at Sixth Avenue, St. Peters, to Mr. and Mrs. J. E. Langley—a daughter.

COWAN.—On the 10th of April, at Thurland, George Street, Unley Park, to Mr. and Mrs. W. J. Trafford Cowan, of Fernleigh, Lucindale—s son.

BIRKS.—On the 20th April, at 10, Jackson's Road, Fendalton, Christchurch, N.Z., to Mr. and Mrs. Lawrence Birks—a son (Charles Napier).

Marriages.

KIRKWOOD—KELLY.—On the 19th November, 1913, at the Cudlee Creek Methodist Church, by the Rev. W. A. Dunn, Harold Peter, youngest son of the late John Kirkwood, Orroroo, to Nessie, only daughter of Edward Kelly, Sully Glen, Cudlee Creek,

WADDY—LANE.—On the 22nd November, 1913, at the Methodist Church, Glenelg, by the Rev. S. Rossiter, Theodore M., youngest son of Mr. R. W. M. Waddy, to Clarice, only daughter of Mr. J. W. Lane, Glenelg.

COLLISON — BAYLY. — On the 29th November, at Port Elliot, by the Rev. J. Roberts, John Cleeve Collison, to Rosalie Clare Bayly, eldest daughter of Mr. E. M. Bayly, of Port Elliot.

DAVEY—DEGARIS.—On the 7th, January, at the Narracoorte Methodist Church, by the Rev. A. M. Trengove, Gordon E. M., only son of Tom H. Davey, Park Terrace, Parkside, to Hilda Mary, third daughter of Lucas DeGaris, Narracoorte.

RENK — MELVILLE.—On the 27th December, 1913, at St. Paul's Church, Adelaide, by the Rev. E. H. Bleby, Herman Renk, to Emily Melville, both of Petersburg.

HARDEY—PETERS.—On the 4th February, at Sandamere, Henley Beach, by the Rev. John Goodwin, Hubert Richard Lowe Hardey, of Strelley Station, W.A., eldest son of the late Richard Watson Harvey, of Peninsula, Perth, W.A., to Elsie May, youngest daughter of Mrs. and the late James Peters, of Sandamere, Henley Beach.

SEPPELT—ST. JOHN WOOD.—On the 9th February, at St Paul's Church of England, Maryborough, Queensland, by the Rev. Hamlyn Harris, Turso T., youngest son of B. Seppelt, Seppeltsfield, to Amy K. St. John, youngest daughter of Henry St. John Wood, Kilana, Maryborough.

TUMMEL—MCNAMARA.—On the 24th February, at St. Francis Xavier's Cathedral, Adelaide, by the Rev. Father Denny, Leslie Helmke, son of W. R. Tummel, Greenock, to Agnes May, daughter of the late John McNamara, Jamestown..

HOTHAM—SHANNON.—On the 5th March, in Manthorpe Memorial Church, Unley, by the Rev. John Chapman, Hedley Kenneth, only son of H. B. Hotham, Esq., Park Street, Unley, to Charlotte Adelaide, elder daughter of J. W. Shannon, Esq., Eton Street, Malvern.

LANGMAN—ROBERTS.—On the 22nd April, at the Methodist Church, Parkside, by the bride's father, assisted by the Rev. A. R. Edgerley, Hugh Keith, elder son of Alfred Langman, of Mills Terrace, North Adelaide, to Jean, youngest daughter of Rev. Vivian Roberts, Parkside.

NAIRN—HILL.—On the 17th Dec., at Inchiquin, by the Rev. T. V. Charlton, Alexander Livingston Nairne, B.A., of East Maitland, N.S.W., to Eva Beatrice, second daughter of James Hill, Inchiquin, Clare.

STUBBS—KING.—On the 17th Dec., in the Methodist Church, Maitland, by the Rev. Albert Stubbs, assisted by the Rev. Arnold A. Smith, Albert Ivan Stubbs, to Hilda Maud, youngest daughter of Mr. J. B. King.

Deaths.

COWELL.—On the 25th January, at Palm Street, Medindie, Roy Charles, third surviving son of Mrs. J. W. Cowell and the late James W. Cowell, of Medindie (of meningitis), aged 22 years.

DUNSTAN.—On the 2nd April, of typhoid fever, John, only son of Henry Dunstan, of Magill, aged 41 years.

MELLOR.—On the 13th April, at his residence, Lindley, Avenel Gardens, Medindie, James Taylor, dearly beloved husband of Emma Masterman Mellor, aged 48.

CLARKE.—On the 30th April, Thomas, the dearly loved husband of Elizabeth Lillian Clarke, of Clivedon, Osmond Terrace, Norwood, aged 56 years.

STOCK.—On August 3rd, 1913, suddenly at Victor Harbour, Alfred Douglas Stock, one of our old boys who went to the South African War.

STEPHENSON.—On the 11th January, at Hatch-End, England, William Henry, eldest son of E. M. Stephenson, Anstral Terrace, Malvern, and the late W. D. Stephenson, aged 63 years.

TURNER.—On April 30th, at Auburn, Victoria, J. C. Turner (Chief Horticultural Officer of the Victorian Agricultural Department), aged 47 years, leaving a widow and four children.

BROADBENT.—On the 22nd, at the Willows, Cherry Gardens, Rev. Arthur Stanley, the third son of A. Broadbent, aged 28 years. Rest after pain.

PRINCE ALFRED OLD COLLEGIANS' ASSOCIATION

.....
"OLD BOYS" WEEK.

The following Programme has been arranged by the
 Committee.—

- July 15 (Wednesday), at 3 p.m.—Football, at St. Peter's
 College: Old Reds v. Old Blues.
- July 16 (Thursday), at 3 p.m.—Lacrosse, at P.A. College:
 Old Red v. Old Blues.
- July 16 (**Thursday**), at 7.45 p.m.—**Annual Dinner, at
 Adelaide Town Hall.** Tickets 5s., obtainable
 from the Committee.
- July 17 (Friday)—Adelaide Town Hall, 8 p.m. "A night with
 The Butterflies."
- July 18 (Saturday), at 2.45 p.m.—**College Football, at the
 Adelaide Oval.**
- July 19 (Sunday), at 11 a.m.—Old Scholars' Service at the
 College. Mr. Stanley Kelly will give the Address.

H. W. A. MILLER, } JOINT
 L. B. SHUTTLEWORTH, } SECRETARIES.

Prince Alfred Old Collegians' Association

ESTABLISHED 1878.

OFFICERS, 1911-1912.

- Patron—The Head Master.
 President—Mr. J. R. Robertson.
 Vice-Presidents—Messrs. A. C. Catt,
 G. M. Evan, and W. Taylor.
 Hon. Treasurer—Mr. A. G. Collison.
 Representatives on College Committee
 —Messrs. F. Simpson, G. W.
 R. Lee, J. W. Grasby, W. Lath-
 lean, H. W. A. Miller, J. H. Bur-
 gess, and A. S. Lewis.
 Hon. Auditors—Messrs. R. G. Neill
 and C. Viner Smith.
 Committee—Messrs. H. V. Rounsevell,
 W. G. Rhodes, Tom Steele, A. A.
 L. Rowley, R. F. Middleton, H. B.
 Piper, and J. W. Blacket.
 Joint Secretaries—H. W. A. Miller,
 c/o A.M.P. Society; L. B. Shuttle-
 worth, c/o Shuttleworth & Letch-
 ford, King William Street.
 Melbourne Branch—C. A. E. Sullivan,
 Stock Exchange Club, Melbourne,
 Hon. Sec.
 Sydney Branch—Alfred G. Newman,
 Vickery's Chambers, Pitt Street,
 Sydney, Hon. Sec.
 Broken Hill Branch—E. M. Holder,
 Central Mine.

The objects of the Association are:—
 To keep Old Boys, wherever they may
 be, in touch with one another and with
 the boys at the school; also to foster

and maintain their interest in the
 School.

The P.A.C. Chronicle, of which a large
 part is devoted to matters of special
 interest to Old Boys, is forwarded to
 each member of the Association.

A dinner is held annually, at a time
 which is thought likely to give as many
 Old Boys as possible an opportunity of
 meeting one another; and social
 gatherings are held whenever any
 occasion arises that makes them de-
 sirable.

The Association gives annually to
 the School the Old Collegians' Scholar-
 ship, of the value of fifteen guineas, and
 donates five guineas per annum to the
 Sports' Fund. Two Scholarships
 tenable for two years are also awarded
 and are balloted for by the members.

The subscription is five shillings per
 annum. The simplest way is to
 send along a pound for four years, or
 to make a life payment of three
 guineas. Any Old Boy wishing to
 become a member can do so by for-
 warding his name and address to the
 Head Master, or to any member of the
 staff, or to one of the Secretaries.

H. W. A. MILLER,
 c/o A.M.P. Society.

L. B. SHUTTLEWORTH,
 c/o Shuttleworth & Letchford
 King William St.

Cadet Team Shooting Match.

The members of the competition team from "C" Company, who proved themselves the champion team of South Australia, visited Port Adelaide just before their departure for Brisbane, and fired in a shooting match for the A.N.A. Gold Medal. The shooting was carried out at two ranges—200 yards and 400 yards; at the 200 range at a second-class elementary bullseye, and at the 400 yards at a first-class figure target. The maximum mark was 80, 40 being scored at each range.

The day was not a very good one for shooting, and the boys were probably suffering from excitement about their departure later in the day. This probably was the cause of low scoring in many cases.

Cadet G. W. Williams was top of the list with 60 out of 80, while Cadet Eime and Corporal Smyth were equal for second with 59 out of 80. Williams thus secured the A.N.A. Gold Medal, Eime a trophy presented by Captain Blacket, and Smyth the team trophy.

Below is the full list of scores :—

	200 Yards	400 Yards	Total
Cadet G. W. Williams	35	25	60
" G. S. Eime ...	34	25	59
Cpl. R. C. M. Smyth...	37	22	59
" D. C. Cooper ...	30	24	54
Color-Sgt. W. O. Menz	25	28	53
Sgt. L. A. Mander ...	28	22	50
Cadet K. D. Bell ...	26	18	44
" F. Warren ...	31	11	42
Cpl. J. E. Porter ...	22	19	41
Cadet C. H. Humphries	19	21	41
" W. H. French...	34	6	40
" S. Howard ...	19	21	40
" M. Newbold ...	30	10	40
" W. A. Crosby ...	19	21	40
Cpl. R. A. Davey ...	24	14	38
Cadet M. G. Johnson...	24	14	38
" E. W. Davies...	26	12	38
" R. L. Reed ...	15	21	36
" W. E. Gray ...	31	3	34
