

Prince Alfred College Chronicle

UBI NON EST SCIENTIA ANIMÆ NON EST BONUM.

VOL. VI.—No. 111.

ADELAIDE, JANUARY, 1915.

[PRICE NINEPENCE.]

Speech Day.

The Speech Day celebrations of 1914 will long be remembered. The gladness natural to the occasion was more than tinged with sadness; for we could not forget that it was Mr. Chapple's last appearance as our Head Master. A well-filled Town Hall, a cool afternoon, a patriotic glow, two good choruses, and an excellent recitation, gave zest to the proceedings.

For the first time, His Excellency the Governor, Sir Henry Lionel Galway, K.C.M.G., presided. His manly straightout talk to the boys was much appreciated, and we felt that in our Governor we had found another good friend.

H. L. Rayner (Captain of the Eleven) read his report on the year's sports:—

The report for this year is the most encouraging we have had for some time. Right from the beginning of the first term, every boy determined that he would spare no effort to make this, our Head Master's last year, a renowned success in all respects; and from the

sport side, this success has certainly been gained, since we have won five out of five intercollegiate contests, besides which, our cadet team achieved the honour of being champions of South Australia.

The first intercollegiate contest to occupy our thoughts was the Athletic Sports. Our own sports were held for the first times for many years on our own oval, and the innovation proved a tremendous success. All the events were very keenly contested, especially the junior races. Rayner carried off the College Cup, and many promising runners showed off their abilities. The late Lady Way performed the last of her many acts of kindnesses to the College by presenting the prizes. She had long been a staunch supporter of the College, and we feel that in her we have lost a true friend. The Intercollegiate Sports gave us our first win for the year by 62 points to 49, under distinctly adverse circumstances. George Davies was re-elected captain for the second time, and again carried off the 440 yards. Murray Fowler was our tallest scorer, and by winning the 300

yards steeplechase in 41½ secs., and the 120 yards hurdles in 17 secs., put up two records. He was awarded a merit badge for his performances in these sports. Also H. W. McGregor lowered the under 16 440 yards, by doing the distance in 57½ secs. One satisfactory point was the success of the juniors, who succeeded in winning two out of three events, and gaining for us 14 points out of 18.

The football season opened under rather inauspicious circumstances, as eight of our First Eighteen were away in Brisbane with the Cadet team. This certainly gave our juniors a chance to distinguish themselves, but it meant that the team did not get together till about four weeks before the Oval match. Ill-luck continued to dog our steps, as an epidemic of measles broke out in the school; and also, owing to the hard nature of the ground, there were three or four cases of sprained ankles. However, in the able hands of Mr. Blacket the team at last pulled together better, and prospects began to brighten up considerably. Our match with St. Peters, according to outside reports, will ever prove memorable as one of the cleanest, best, and most exciting exhibitions of football ever witnessed in intercollegiate games. It was probably our superior training which enabled us to make a final dash just before time, and the winning goal was scored, leaving us victors by 10 goals

9 behinds to 9 goals 10 behinds. White was our best man for the match, but all the team played excellently in the second half. This was our second year in the Amateur League, and by finishing up sixth on the premiership list we did very well, many of the games being lost by a very small margin. Merit badges were awarded to White and Chipper for football. The second, third, fourth, and fifth eighteens enjoyed successful seasons, and many promising young players were discovered. Our thanks are due to Mr. Blacket for his efforts in coaching the team. As usual he worked zealously for his old school. All our best wishes go with him in his new sphere of work, and we feel sure that if the "old country" has men like him to come out, England, like Princes, "can't be beat."

It was now that the influence of the war began to be felt, and interest in sports began to flag, only to be renewed later on. Tennis next occupied our attention. Earlier in the year the College tournaments had been held, and were a great success. Hoopmann carried off the College Championship after one or two spirited contests, while Mullner had an easy time in winning the Junior Championship. Practice for the intercollegiate match suffered to a large extent owing to the dryness of the season and our inability to obtain turf courts. Our many friends, however, again came to our assistance, and we

had many good games on the courts of Dr. Hone, Mr. Trott, Mr. Fowler, and Mr. Menz. Owing to the Adelaide Oval being unable to obtain water, no courts were obtainable there, and so St. Peter's generously offered their own courts for the intercollegiate games. It says much for the strength of our team that we should be able to beat them on their own courts by 12 rubbers, 26 sets, 197 games to 3 rubbers, 10 sets, 137 games. Hoopmann won back the championship honours from St. Peters by defeating Hall in straight sets. It is not very often, unfortunately, that we have won the tennis, but after defeating St. Peters so decidedly as this, our hopes for the future are very bright. Mr. Ward was again untiring in his efforts to help the team on, but he says he felt amply rewarded after our brilli- victory.

With approaching summer our attention was turned to cricket, and our successes proved a fine finish to a brilliant year. Owing to lack of water we were rather dubious about the wickets, but after a bore had been sunk we were very fortunate in striking a good supply of water at a comparatively shallow level. The ground at present is in a very satisfactory condition, all things considered. Out of eight B Grade matches played during the year we have won eight, and at present occupy a position at the head of the premiership list. Our last win against

St. Peters by six wickets is too fresh in our memories to call for much further comment. However, we were very disappointed at having to play under such unfavourable climatic conditions, as, given a good wicket all through, we were confident of putting up some good performances. One cause for gratification was the improvement in the fielding. During the last five years, on three occasions the result of the Oval match would have probably read differently had our fielding been better. The fielding this year was good throughout—not a chance being missed in the first innings. The throwing-in to the wicket was particularly clean. One hears much of trophies being given for batting and bowling, but, after all, fielding is equally important, and more should be done to encourage this department of the game. Surely the man who can save runs is as important as the man who can make them! Magarey holds the top batting average during the season, while Mander and Gray head the bowling. The second, third, and fourth elevens have been playing regularly, while a fifth eleven has played an occasional game. All our teams have generally more than held their own against the St. Peter's teams, and some splendid individual performances have been put up. Merit badges were awarded for cricket to Magarey, Mander, and Rayner. Mr. Davies again coached the first eleven,

and took great interest in the Juniors, and our thanks are due to him for his efforts.

By winning the Gymnasium medal, a record was established, whereby we hold every intercollegiate trophy contested for in one year. The gymnasium contest was very close indeed, but four marks separating the seven competitors. Hoare was top with $99\frac{3}{4}$ marks, out of 105. He thoroughly deserved his success, and is to be congratulated. Davies was a close second, and our competitors, Weylandt and Menz, were fourth and seventh respectively.

At the end of last year, our drawing master, Mr. Ashton, who has long been a great friend of the school, presented us with a large handsome shield for competition in the School in some form of sport. The Sports Committee decided on a form of district sports, whereby the school is divided up into four districts, viz:—Boarders, and those boys living North, South, East of the School. It was decided that contests should be held in cricket, football, running, tennis, and shooting, points being awarded for each. After some very close contests, the Shield was won for the first time by the Souths, who gained first place in cricket, running, and tennis, and second place in football. Boarders were a very close second, and Easts and Norths were equal for third. These district competitions will do much to help on sport in the School, and will form

openings for the younger boys to show what they can do.

In conclusion, on behalf of the boys, I should like to express to Mr. Grey, our sports Master, our deep appreciation of the work he has done during the year. His is work done behind the scenes, and as such never receives the appreciation it deserves. When Mr. Grey first came into office some ten years ago, we had a rather bad year, losing four out of five intercollegiate contests. But now he has reached the top rung of success, for we hold every trophy. It is to be hoped that Mr. Grey will long continue to hold the position of Sports Master, for if he does, we who are leaving need have no fears for the future.

The Head Master, before presenting his report, referred to the highly valued favour extended to him and the School by His Excellency the Governor, to the loyal support of committee, parents, staff, old boys, and present scholars, especially the prefects and the seniors, he thanked Canon Girdlestone, the Head Master of St. Peters, for his generous and kindly utterance at the St. Peter's speech day, and the kindness which led him to be present on this occasion.

“The average attendance for the year has been, in spite of war and drought, only four less than that of last year—three in boarders and one in day

boys. This speaks volumes of the resolve of parents not to let temporary difficulties interfere with their sons' education. Great events of the year have been the visits of Madigan and Correll on their return from Antarctica, and of Professor Beare, Regius Professor of Engineering at the University of Edinburgh. They were heartily welcomed, and received from the past and present scholars much deserved hero worship. But even these incidents have been dwarfed by the outbreak of the vast European war, and the consequent call the British Empire had made upon her sons. Our old boys rallied to the flag, the school was stirred to its depths. We are thrillingly proud of our soldiers, and unspeakably grateful to them. The combined "send off" of St. Peter's boys and ours, held in the Town Hall, on Sept. 10, at which were spoken forth some of the thoughts and hopes of the hour, will be remembered to many generations. In our sphere it was not only "history making," but "nation making." It is difficult to gather together all our names; so far I have secured 85, but that is only approximate, for they are enlisting in many distant places as well as here. May I single out a few prominent ones, such as that of Lieut.-Col. F. M. Rowell, who has gone in charge of the S.A. Light Horse, and Major Cook, of the 9th Light Horse, now at Broadmeadows. Of captains, there are Old-

ham, Wait, and Ross Robinson; of doctors, Majors Grey and Zwar, and Captains Kenneth Fry, Lewis Jeffries, J. Stanley Verco, Hugo Flecker, D'Arcy Cowan, and Tom Fleming; of lieutenants, Madigan, Kayser, Langsford; chaplains, Gordon Robertson and Y.M.C.A. Secretary, G. W. Shapley. It is with some pride at this day that we recall that by the year 1900 these two schools had well-established cadet corps—long before Parliament had decreed universal training. Much of the credit of that movement was due to Major Leschen, the physical instructor at both schools. The present boys have helped the cause in many useful ways, and many of them wished they could be called upon for more. Especially are the cadets, under Capts. Brackett, Ward, and Gilbert, to be congratulated on their year's work. The winning of the flags as the best company in the State, was followed by a trip to Brisbane, there to compete with the companies from the other States. They brought back with them pleasant recollections of kindnesses shown by Newington College and old boys, some praise, and a few measles. Turning to matters of annual recurrence, we note that the "old boys" at the universities continue to do well.

As to present boys: in the Higher Public examination, Donald C. Cooper has won the first place on the list for us, and Dorsch the second place. Also

Rayner, Mander, and Hone have places on the general honours list. In the special honours list, Cooper is top of the physics and of the chemistry, Rayner is first in the applied mathematics, Dorsch first in modern history and second in biology), Mander and Stempel are third in geometry and trigonometry, Hoopmann third in German, and Hone fifth in chemistry. In the Senior Public examinations we have six places in the general honour list, with 13 credits in the special honour list. Perhaps the best of these are Hobbs first in Latin, Williamson second in physics and third in chemistry, and James third in geometry. The best averages are in English, in which 26 papers were taken, winning 25 passes with 2 credits; German, 16 papers, 13 passes, with one credit; French, 7 papers, 5 passes; Trigonometry, 5 papers, 4 passes. In the Senior Commercial examination we find four names. W. H. French is the only boy who secures a complete pass on the list, though Smyth (with credit in commercial geography) and Taylor have passed in five subjects each.

The primary now has passed away, and few will wish for its resurrection. Mr. Ashton's drawing lessons have been given only to the junior part of the school; but he sent home to the Royal British Drawing Society 219 papers worked on the examination days here, and 174 were marked pass, including

59 with honours. Very sincerely and heartily in the name of the school I thank the senior boys for the work they have done. There was never a year in the history of the College when we had a finer set of fellows near the top of the school. I thank the masters for the way in which they have worked this year. It is impossible to say too much of the value of their work. Mr. J. A. Haslam, B.Sc., who has been house master for us for more than nine years, and whose services have been of great benefit to the school, will cease to act in that capacity under the change of head master.

In giving up the reins of this school there is nothing more pleasing to me than that they should be handed to one who was a boy and a master in the school, who has since been master of a great school in Victoria for five years, and has widened his knowledge of schoolwork and education generally in a tour throughout Europe, England, and America. I am sure we can expect Mr. W. R. Bayly, B.A. B.Sc., to keep up the traditions of the school and make such alterations in the administration as he deems advisable.

—
Before distributing the prizes, His Excellency the Governor addressed the School. He said—In the first place I thank your Head Master for his kindly reference to the interest I take in the college. I take a tremendous interest,

but that will not prevent me from occasionally saying what I think. (Cheers and laughter.) Speech day this year will be well remembered for two reasons. First, though not chief, because it is the first year—if one could only with confidence say “the year” it would be happier—of the greatest war the world has seen. Secondly, because it is the last function at which your Head Master, Mr. Chapple, will preside. In this hall about three months ago we assembled to bid good-speed to the Prince Alfred and St. Peter's old boys who belong to the 1st Contingent of the Australian Expeditionary Force. This contingent is now encamped on the plains of Egypt, under the shadow of the Pyramids, and may any day stand in battle array against the Turkish hosts. When they do, we know they will do well, and the old boys will be a credit to their schools. I was much impressed on that occasion by the confident, intelligent enthusiasm, and fine bearing of the boys of the two old schools. It augured well, I thought, for England, and badly for her enemies. (Cheers.) May the God of battles protect them and carry them to victory. (Cheers.) There is no finer driving power in the hour of danger than the public school tradition. The British public schoolboy, if he is worthy of the name, is invariably a good fighting man. (Cheers.) At school he has ingrained into him those qualities which make for

manliness, and which in a hundred and one ways form the fuel that speeds him on straight for the goal. The Briton's love for his country and his belief in his country's cause is especially conspicuous in a public school man, thanks to the methods and the lines at school in training them to be citizens of that great Empire—a Power, as a great American puts it, which has dotted over the surface of the whole globe her possessions and military posts, and whose morning drum-beat, following the sun and keeping company with the hours, circles the earth with one continuous and unbroken strain of the martial airs of England. (Cheers.) That great Empire is to-day fighting in the cause of justice, liberty, right, and freedom, and the schoolboys of the Empire are doing their full share in the stupendous task of crushing the Teuton power. (Cheers.)

To you, boys, I would say—Go straight, be true to yourselves, hold on jealously to the school traditions, and carry them with you in the battle of life which is ahead of you. You want them especially in the hours of danger and stress. I speak with a little experience which has shown me those traditions will be valuable jewels to the boys camped on the plains in Egypt. (Cheers.) School traditions are wonderful lubricants to the machinery that carries us through life. I do not think the boys appreciate all their masters do

for them. The appreciation comes later on in life, and increases as years pass, and then one looks back and thinks how one lost opportunities. Be loyal to your masters, jealously guard the good name of the school, and be disciplined. Without discipline any congregation, whether it be an army or a school, becomes a rabble. Discipline is one of the corner stones of national success. In the battle of life, whether it be as a soldier or any other profession, the undisciplined man goes to the wall in the long run. (Cheers.)

Now, boys, I am going to talk to you as I did yesterday at St. Peters College.

Mr. Chapple referred to the matter, and you took it in the right spirit. You took it in the way I gave it. (Cheers.) I refer, as you know, to your inter-collegiate contests. I strongly deprecate any aggressive action on such occasion on the part of onlooking boys. (Cheers.) It never happens in the teams; they are the best of friends, and it is right that all men engaged on the field should be friends. You should admire your enemy—I do not mean the Germans. (Laughter.) I mean you should always be gentlemanly in the contests with friends. (Cheers.) The style of barracking to which I refer is viewed with great displeasure by all the men whose opinion is most worth having. No doubt such occurrences are brought about by boys who do not know what discipline is. If that is so, the elder

boys should assist the masters in every way to put it down. Win like gentlemen and lose like gentlemen, and you will retain the esteem of friends and supporters, instead of running the risk of being severely criticised. Have your school cries and songs, by all means—the more the better; but that is not “barrack.” Be sportsmen in the true sense of that term, and don’t allow a few unwise partisans to act in a manner that spoils victory and adds disgrace to defeat. I add my hearty congratulations to the school upon its splendid record for the year in inter-collegiate matches. It is a record the boys may well be proud of, and it is especially pleasing that it has taken place in this, Mr. Chapple’s last year. (Cheers.) It is a present from the sportsmen to their retiring Head Master. (Cheers.) I congratulate the prize-winners, and hope those who have not succeeded will make up for it next time. I hope to be spared to distribute the prizes again next year, and I trust it may then be the close of a year of peace. (Cheers.)

The farewell to Mr. Chapple followed. A report of this will be found on a later page.

The Rev. G. Hall, President of the College, closed the proceedings with a few well chosen words of thanks to His Excellency for presiding. Of the

heartiness of their endorsement there was no shadow of doubt and the seal of approbation was set by ringing cheers. Then away for the holidays.

Special Prizes and Scholarships.

Government Bursaries—D. C. Cooper, H. L. Rayner.
 Edward Spicer—
 Old Collegians'—
 Colton—S. Howard.
 Longbottom—
 Robb—W. H. James.
 Malpas—
 Wills—W. A. Shepley.
 Grasby Commercial—H. G. Miell.
 Elder Foundation—Senior, K. Smith
 Elder Foundation—Junior, C. T. Piper.
 Elder Entrance—Senior, L. S. Clarkson.
 Elder Entrance—Junior, L. D. Cowling.
 Old Collegians' Entrance—K. A. Johnson, H. E. B. Best.
 P.A. Collegians' Lodge (for Preparatory)—R. Krantz, W. D. Glyde.
 Shierlaw—C. R. Dadds.
 John Williams—W. J. Bailey.
 Cotton Medal—D. C. Cooper.
 Gold Medal (Head of Junior School)
 A. R. Shepley.
 Smith History Prize—Senior, A. R. Donaldson; Junior, J. A. Rhymer.
 Alfred Muecke Prize—R. Storer.

Arithmetic Prize (presented by S.A. Cricketing Association)—A. W. Pearson.

Neatness Prize (presented by Messrs. E. S. Wigg & Son)—Senior, T. L. Chinner; Junior, L. C. Freebairn.

Recitation Prize (presented by Messrs. Rigby, Ltd.)—W. M. Fowler.

Music (Piano)—Presented by E. E. Mitchell, Esq., and Misses Colwell and Wilson—A. K. Mullner, H. E. Best, K. G. Symons.

Singing—K. F. Richardson, L. H. Warren.

Painting (presented by J. Ashton, Esq.)—G. C. Davies, H. W. McGregor, I. O. Claxton, L. S. Plush.

Garlick Prizes—(a) Architectural Drawing, A. R. Robertson; (b) Mapping, W. M. Fowler.

Boarders' Scripture (presented by Methodist Book Depot)—L. A. Mander.

Head Boarder's Prize—L. A. Mander.

Librarian and Curator's Prize—H. E. Tucker.

Gymnastics Medals—G. C. Davies, C. A. Barnard, K. Engelbrecht, G. H. Weylandt, R. T. Mellor, F. R. Wilson, C. T. Waddy, H. F. Hobbs, A. M. Hunter.

Intercollegiate Champion Gymnast (Gold Medal presented by Messrs. Schlank & Co.)—W. L. Hoare.

Intercollegiate Sports Medals—W. M. Fowler (3), G. C. Davies, L. W.

Trott, H. W. McGregor, W. L. Hoare, G. H. Weylandt.

Cricket Prizes.—First Eleven Batting, D. D. Magarey; First Eleven Bowling, W. E. Gray; Oval Match Batting (presented by K. Quist, Esq.), W. M. Fowler; Oval Match Bowling (presented by Old Scholars), L. A. Mander; Medals (presented by the Head Master), D. D. Magarey (Gold Medal), H. L. Rayner, W. M. Fowler, S. H. Haslam, L. A. Mander, T. L. Chinner; Second Eleven Batting, E. J. Swann; Second Eleven Bowling, L. S. Plush.

Football Prizes—Gold Medal (presented by Dr. Counter), H. L. Rayner; Oval Match, A. H. White.

Tennis Champion—F. W. Hoopmann.

Athletic Sports (College Championship)—H. L. Rayner.

Successes Gained by Old Boys at Public Examinations, 1914.

(An asterisk denotes First Class.)

AT LONDON UNIVERSITY.

B.D., A. H. Bell, B.A.

AT EDINBURGH UNIVERSITY.

M.B., F.R.C.P.—N. S. Shierlaw.

AT ADELAIDE UNIVERSITY.

Degrees.

D.Sc.—F. W. Wheatley, B.Sc.

D.Sc.—J. R. Wilton, B.A., B.Sc.

M.A. (Honours in Mathematics)—F. Ellis, B.A., B.Sc.

B.E.—A. K. Wight, W. R. Snow.

LL.B.—H. B. Piper, L. D. Waterhouse.

M.B., B.S.—E. A. Guymer, R.A. Haste, B.Sc., K. N. Steele, F. L. Wall, B. W. Wibberley, B.Sc.

B.A.—W. L. Davies.

Diploma in Applied Science—W. R. Snow.

Diploma in Electrical Engineering—A. C. Brown.

B.Sc.—R. Williams.

David Murray Scholarship in Chemistry—E. G. Stephens.

INTERMEDIATE EXAMINATIONS.

M.B., B.S.—Fourth Year: D. L. Barlow*, J. A. Love, A. H. Guymer, I. E. Ashby. Third Year: C. B. Burden, A. K. Gault, A. R. Southwood* (equal, Dr. Davies Thomas Scholarship). Second Year: G. H. Kendrew, H. W. Davies, N. B. Hall. First Year: R. W. Cilento*, J. McNeil*, C. Gurner*, W. K. Collins, K. W. Bollen, L. W. Linn.

LL.B.—A. S. H. Gifford, Law of Property I., English Language, and Literature; L. E. Clarke, Law of Property I., Law of Wrongs; R. S. Davey, Constitutional Law, Private International Law, Psychology; L. D. Waterhouse, Law of Property II., Evidence and Procedure, Private International Law; S. R. Delbridge, Law of Property II., Law of Wrongs, Pri-

vate International Law; H. B. Piper, Law of Property II., Evidence and Procedure, Private International Law; E. W. G. Bogner, Law of Contracts, German (second year); K. H. Kirkman, Law of Wrongs, Private International Law; T. E. Cleland, Law of Wrongs; T. R. Mellor, Evidence and Procedure, Private International Law, Logic; E. W. J. Millhouse, Evidence and Procedure, English Language and Literature.

B.A., B.Sc.—K. D. Roach, Greek (first year), Latin (first year); G. P. Rayner, Greek (first year), Latin (first year); W. S. S. Gilbert, Latin (first year); N. C. Goss, English Language and Literature, History of United Kingdom, Logic; J. N. Davies, English Language and Literature; J. K. Nicholls, History of United Kingdom, Logic; H. T. J. Edwards, Chemistry I.; D. M. Steele, Organic Chemistry*, Physical Chemistry, Physics I.; T. D. Campbell, Organic Chemistry; C. R. Cole, Physical Chemistry, Forest Geology, Elementary Botany, Forest Botany, Forestry; J. C. Roach, Physics I.; F. R. Potts, Physics II., Physiography; H. P. Tuck, Physics III., Third Year Mathematics, Physiography, Elementary Botany; R. J. Dumas, Physiography; R. H. Berriman, Hydraulics, Electrical Engineering.

DIPLOMA IN COMMERCE.

Banking and Exchange—H. D. Ang-

win*, G. G. Watts, F. Gill, N. V. Mengersen.

Commercial Geography—N. V. Mengersen*, R. Battye, E. S. Williams.

SCHOOL OF MINES.

J. C. Roach, First Year Day Studentship; Robert Harold Berriman, Applied Mechanics II. (second class), Assaying (third class), Electrical Engineering I. (Fellowship) (first class), Hydraulics (second class), Mechanical Engineering III, (first class), Machine Design (second class); Geoffrey Dequetteville Robin, Applied Mechanics II. (third class), Surveying (third class); John Marston Norton, Architectural History I. (second class), Building Drawing II. (first class), Mathematics I. (Associate) (third class); John C. Roach, Chemistry I. (Associate) (first class), Mathematics I. (Associate) (first class), Physics I. (second class), Woodwork (first class); Vivian Gilbert Sheard, Electrical Machinery (third class), Fitting and Turning I. (second class); Harry Playford Tuck, Physiography (first class); C. R. Cole, Surveying (second class).

Examination Results, 1914.

HIGHER PUBLIC EXAMINATION.

1. General Honour List.

1 D. C. Cooper, 2 C. E. Dorsch, 14 H. L. Rayner, 15 L. A. Mander, 19 F. R. Hone.

2. Special Honour List.

- Modern History—1 C. E. Dorsch.
 German—3 F. W. Hoopmann.
 Geometry and Trigonometry—3 L. A. Mander.
 Applied Mathematics—1 H. L. Rayner.
 Physics—1 D. C. Cooper.
 Chemistry—1 D. C. Cooper, 4 F. R. Hone.
 Biology—2 C. E. Dorsch.

3. Pass List.

PRIMARY EXAMINATION.

[1, English; 2, Arithmetic; 4, History; 6, Latin; 7, French; 8, German; 9, Algebra; 10, Geometry.]

W. F. Cooper, 1, 2, 4, 6, 10; C. M. Deland, 1, 2, 4, 6, 8, 9, 10; J. H. Edwards, 1, 2, 4, 6, 9, 10; A. R. Gardner, 1, 2, 4, 6, 10; A. E. Jarrett, 1, 2, 9, 10; R. N. Jones, 1, 2, 4, 9, 10; J. A. Ohlmeyer, 1, 2, 4, 8, 9; C. T. Piper, 1, 2, 4, 6, 8, 9, 10; A. R. Shepley, 1, 2, 4, 6, 9, 10; E. L. Stockbridge, 1, 2, 4, 6, 9, 10; J. H. Torr, 1, 2, 9, 10; R. Treloar, 1, 2, 4, 9, 10.

ROYAL DRAWING SOCIETY EXAMINATION.

Honour List.

The pass list is of such portentous length that we can find space for the names of the Honours candidates only. The School, and Mr. Ashton in particular, are to be congratulated on the production of such a noble army of young artists.

Preparatory Division.

(Every candidate obtained Honours).

L. T. Bennett, H. F. Hobbs, H. R. Dunstan, J. S. Magarey, N. A. Walsh, Y. C. Köhler, J. B. Lathlean, S. Flint, H. H. Lamerton, K. A. Parsons, L. Newman, C. M. Adamson, C. W. Crompton.

Division I.

W. N. Ning, G. R. Cowell, R. Wait, C. E. Walter, W. H. Hoare, H. R.

Kernick, F. Warren, G. H. Weylandt, F. L. Collison, T. A. Dancker, P. Weidenbach, R. Macrow, G. K. Davidson, J. H. Edwards, J. A. George, B. L. Godfree, A. L. Langrehr, A. R. Shepley, R. Treloar, K. M. Yelland, L. T. Bennett, H. E. Williamson, E. W. Ohlmeyer, C. J. Glover.

Division II.

E. L. Stockbridge, K. M. Yelland, S. Krantz, G. K. Cowell, J. K. Mitton, R. Wait, T. O. Claxton, G. K. Davidson, L. M. Kreusler, C. E. Lucas, W. N. Ning, K. E. Symons, W. L. Hoare, H. R. Kernick, K. R. Mitchell, J. H. Edwards, L. G. Robinson.

Division III.

K. M. Yelland, F. Warren, G. R. Cowell.

Division V.

K. M. Yelland.

School Notes.

There was little manifestation of excitement about the cricket match, not even a procession of drags through the city on the first day; that was left entirely to the "Blues," but the still waters ran strong beneath. Then the pitch was tricky, and when we were batting on Saturday afternoon the weather was uncertain; at times there was a haze, and at other times a dust-storm.

At a later period of the event, the

rain had made the soil hopelessly sticky for Saints, and when we went in for the 4th innings, the ground had dried a bit and the pitch looked as if cows had been tramping about, and the hillock tops of hoof marks had flattened a bit. There still is vigorous discussion as to which side had the worst of the wicket, and there is room for the debate unlimitedly. However, the numbers were on our side, and that is all that will matter to most in coming years..

Old boys as usual showed their thought of us and interest in the proceedings. Max Rigby wired twice from Fowier's Bay, Dr. Chapple rang up as often from Clarendon. Messages by phone or telegram came from Robertson at Terowie, Wilfrid Graves at Border Town, McEwin and Harold Snow from Clare, Frank Humphries from Jamestown, Lieutenant Eric Chinner from Fort Largs, the Rev. H. H. Fennell from Moonta, and from the Broadmeadow's Camp came a wire:—"Accept best wishes for success from "Old Reds" of the Ninth Light Horse:—Major Cook, Corporals Hancock, Aldersey, Rose, Arthur, Cooper, Driscoll, Kelly, Kelly, Lawrence, Macrow, Nield, Robin.

Finis coronat opus. By winning the cricket match we put the crown on the fixed purpose that the prefect's room inspired in the school to endeavour to

give Mr. Chapple a good send off "by carrying of every athletic trophy in this, his last year of office as our Head Master.

To G. W. Williams, of our C. Company, has been presented by the Adelaide Branch of the A.N.A., a beautiful gold medal, suitably inscribed, for having scored highest at the champion shooting contest for cadets in South Australia.

Mr. Dan. Crawford, F.R.G.S., the Missionary who has spent 23 years in the heart of Africa, amongst other things, following up the work of the great Dr. Livingstone, and in some respects doing even more wonderful work than did that devoted man of God, visited our school on December 8th at the invitation of our head master, and gave us a very stirring address.

He was evidently a man who had done things; and some of his statements as to the civilizing reforming influences he had brought to bear upon the dark people in that previously unvisited land were very inspiring indeed. He told how amongst these men he found a fixed belief in certain great fundamental truths, in God as the creator, in our dependence in Him, in immortality, etc.

After the address, as a reward for good hearing, he told a vivid story of a fight between crocodiles and elephants he had witnessed.

Mr. Crawford was accompanied by his old schoolfellow and our constant friend, the Rev. Peter Fleming.

The "Chronicle" in saying farewell to Mr. Chapple, who has always taken a keen and active interest in its welfare, wishes him many happy years in the fullest enjoyment of the more leisurely pursuits of later life. We offer him our heartiest congratulations on the great honour bestowed on him on his retirement by the King. The valuable services he has rendered education in the State thoroughly deserves this high recognition, and the New Year's Gift of a Companionship of the Order of St. Michael and St. George comes as a crowning distinction. We share the pride which he must naturally feel. We welcome his successor, Mr. Bayly, and wish him many years of happiness and success as Head Master of his old school. He does not come among us as a stranger, and we feel confident that the destinies of P.A.C. are safe in his hands.

Next May the "Chronicle" will appear in its new dress, which we hope will meet with the approval of its most fastidious and critical admirers.

Mr. Comley, we are sorry to say, is leaving us after nearly ten years of faithful service to the school. In many directions his presence amongst us will

be missed. We wish him God speed and a continued career of usefulness in the new sphere he contemplates entering.

Mr. Blacket, too, will not be with us when we return. He has responded to the call of his country, and ere long we hope to hear that his marked soldierly qualities have procured him a commission in the forces, which from time to time, are leaving our shores. We know that he will acquit himself well, and we shall all be glad to see him back again after the Empire's work is done.

Geelong Grammar School is in for £90,000 for its splendid new premises. About £60,000 in sight, including £11,000 for sale of old school.

"If my friend has one eye I look at him in profile."

We were very sorry that the names of the winners of the scholarships could not be announced on Speech Day; especially were the candidates for them disappointed. But the School rule is not to give two valuable scholarships to one boy. So that we have to wait till the University Bursaries are decided before we can award our own prizes. Now, the decision of the Bursaries involves determination of many points, for instance, the candidate is allowed his own choice if he has qualified for two. To learn this means time and probably correspondence.

Old Boys.

William E. Dempster and G. Lionel Throssell, of W.A., were of the six Liberal candidates for the Commonwealth Senate in their native State. Labour gained all the seats as usual, but our two friends came second and third on the Liberal ticket.

A. H. Bell, B.A., Adelaide, has obtained the degree of Bachelor of Divinity at the London University. We heartily congratulate him.

The Rev. R. Harkness, B.A., has returned from his trip to England and America, and has accepted an invitation to become the minister of the North Adelaide Church of Christ.

The Rev. W. Hawke, pastor in charge of the Medindie Congregational Church, has been elected President of the Congregational Union of South Australia for 1915-16.

Dr. Alfred W. Hill has been appointed Acting Chairman of the Central Board of Health during the absence on leave of Dr. W. Ramsay Smith in Europe with the First Australian Stationary Hospital.

J. B. Robertson, who in London has been so staunch a friend of his old school, and has amongst other things

been the indefatigable secretary of all the dinners of Old Reds held in the metropolis of the Empire, has just paid a flying visit to his native land. He was only in Adelaide four days. He wrote expressing his disappointment and regret that he was not able to call at the College, and especially that he could not get to the "send off" in September. He hopes that old P.A.C.s visiting London will look him up at 71, Queen Street, London, assuring them of a welcome always.

Jack Forest Reading, who has gone with the First Expeditionary Force, has written hearty letters to us, and promised us more. The rigid censoring could not conceal the vividness of the narrative nor the hearty loyalty to school as to King and country. The *Chronicle* heartily welcomes his offer to send us notes from time to time when he may. Reading sends kind messages from Old Reds on his ship—Claridge, Rhodes, Hoggarth, MacLennan, Barnett, Roach, and self.

C. A. E. Sullivan, Secretary of the Victorian Branch of the P.A.O.C.A., has received a letter from Lieut. H. C. Cate, of the First Australian Expeditionary Force, conveying kind remembrances to his old Head Master and schoolmates. In these Sullivan also joined,

The Eastern Districts (Western Australia) branch of the P.A. Old Collegians' Association gave a farewell dinner to Eric and Hugo Throssell, of the Australian Light Horse. The function was held at Northam, the Throssells' native place, and E. W. Cotton, the President of the branch, presided. R. T. Robinson, K.C., M.L.A., the Rev. Gilbert Maclaren, R. Inkpen, T. Hubert Leake (names well known at P.A.C.) sent congratulations and good wishes to the honoured guests. The President gave a most stirring and enthusiastic speech. As the son of the late Hon. G. W. Cotton, the first Hon. Secretary of the school, to whom the College owes its inception perhaps more than to any other one man, and as a boy here for ten years, we do not wonder at the heartiness and excellence of Ted Cotton's speech. R. H. Duence responded well to the toast of "Our Alma Mater," and Sergeant Hugo Throssell told of the promotion of other old schoolfellows in Lance-Corporal Field, Dick McCorry, Forward, and Bill Atkinson. The President mentioned that there were 20 old P.A.C.s in the district.

In the examination lists published by the Pharmacy Board of South Australia we note with pleasure that Rupert Eric Jolly has passed in Organic Chemistry and Practical Chemistry,

and that Raymond Mitchell Young passed in Inorganic Chemistry.

To W. A. Potts has been awarded, by the Council of the University of Adelaide, the Angas Engineering Scholarship. He intends to pursue his studies at one of the great American University Schools of Engineering.

Lewis Stein, F.R.I.B.A., now a successful architect, gave us a look in when returning from Sydney to Perth, early in October.

Isaac and Harold Boas gave us a call in December. Both are well established in Perth, the former as a teacher of mathematics and physics at the Perth Technical College, and the latter as an architect and city councillor in the same capital.

Farewell to Mr. Chapple.

Part of the proceedings on Speech Day consisted of farewells to Mr. Chapple. First of all H. L. Rayner (Senior Prefect) handed to him a handsome bound volume of photographs of the school and its surroundings, of the boys, prefects, and others. In making the presentation, Rayner read an illuminated address inscribed on the front page and signed by the prefects. The handing over of the gift was the signal for a

perfect storm of cheering, followed by three cheers for the Head Master and three for Mrs Chapple.

Mr. Chapple, who could scarcely speak because of his emotion, said there was only one poet who could help him to express what he felt. They would remember that Bassanio said to Portia, "Madame, you have bereft me of all my words. Only my blood speaks to you in my veins." He would not try to thank the boys. They might have a notion how stern a master was, but he thought they knew he had a heart somewhere in him. He could not very well speak just then. "You boys know," he added brokenly, "how I shall keep and treasure this as long as I live."

Then followed the Governor's appreciation. His Excellency, in his address, said:—I have already, on the occasion of my visit to the College last August, paid my tribute of praise and congratulation to Mr. Chapple for his fine record of close on forty years' headmaster-ship. During that long period of stewardship, Mr. Chapple has striven hard and successfully to inculcate into his pupils those sentiments of truth and honour and right dealing which are marked traits in the character of those boys from all public schools, who go out into the world and succeed in life, no matter what line they may take up. And how many such boys has your Head Master equipped to take their place confidently in the ranks of the world's workers?

Success is judged by results, and in handing over his staff of office to another, he can do so with the comforting feeling that he has performed a difficult and long-drawn-out task with conspicuous success, and that success is a fitting reward for the work of a lifetime.

The Secretary of the College (Mr. J. H. Chinner) then read the following resolution of the Committee:—"While granting the request of Mr. Chapple to retire from the headmastership of Prince Alfred College at the end of 1914, this committee place on record their devout gratitude to Almighty God for the blessings which have accompanied his labours. They desire to testify to their admiration of the noble work which the Head Master has accomplished during the tenure of his high office for the past thirty-nine years. The College buildings, which during those years have tripled in size, at a cost of between £35,000 and £40,000—towards which gifts and endowments amounting to £20,000 have been received—are Mr. Chapple's visible material monument. A more precious memorial is to be found in the training—physical, mental, moral, and religious—received by the 4,700 boys who have come under his care—a training which has uplifted and influenced for good the life of this State. More than 250 of these scholars have graduated at the University, many with distinction and

carrying off its highest rewards. While preserving the distinctive character of a Methodist college, the Head Master's leadership has always been on broad and catholic lines, and consequently the institution has commanded the confidence and support of members of all other denominations. We are proud to record that Mr. Chapple's qualities as an educationalist have been recognized in his election for many years past as a member of the Council of the University and in his being chosen ever since 1883 as a warden of the University.

"The Committee further desires to recognize the faithful work of Mrs. Chapple, whose hearty co-operation with the Head Master in all pertaining to the school's welfare has in no small degree contributed to the success of the College. The committee trusts that Mr. and Mrs. Chapple may long enjoy their well-earned retirement, and that they may have the happiness of witnessing the continuing and expanding usefulness of the College, to which they have ungrudgingly devoted the best years of their lives, and the welfare of which is so near to their hearts."

In supporting this, the Chief Justice (Sir Samuel Way, Bart.) said there were some advantages in being a little elderly. He was an old friend and admirer of Prince Alfred College, and had seen the foundation-stone laid by His Royal Highness the Duke of Edinburgh. He wished to accentuate that

lesson of tolerance. It had been, he believed, the first foundation-stone of a nonconformist institution laid by a member of the Royal Family in the history of England, and the College owed that great prominence to one of the Governor's honoured predecessors, Sir Dominick Daly, who was a broad-minded Roman Catholic layman. He wished to be permitted to be reminiscent as to two instances. His political career had been very short, and it was not very often that he had an opportunity of referring to his services in that direction. He had been Attorney-General in a Ministry in 1875, and the Government was then preparing a new education scheme. It had been passed through Parliament. The Act was drawn up by his honoured chief, Sir James Penn Boucaut, whose name would never be forgotten by Prince Alfred boys, and he had had the privilege of settling the measure. Previously he had had the opportunity of sitting on the Education Board with a man whose name would be mentioned with reverence when the names of himself and his hearers were lost in oblivion—the late John Anderson Hartley. He had recognised that Mr. Hartley was the man to be permanent head of the Education Department, and he had had no difficulty in persuading his colleagues to take a similar view. Mr. Hartley, after being released from the command at Prince Alfred College, had

accepted the position. Sir John Colton had demurred at letting him depart from the College until an equally good man was promised from England. The successor was Mr. Chapple. He was rather proud of his achievement, which had given the public the benefit of the services of Mr. Hartley and introduced to Prince Alfred College a distinguished and great master. If he had done no other service in South Australia, he confessed he thought he thoroughly deserved the hearty applause which had just been accorded him. The first time he had seen Mr. Chapple he (Sir Samuel) had presided at a breakfast in aid of the finances of Prince Alfred College, thirty-eight years ago. He was then administering the Government. The audience would note he did not fail to bring up the facts in his favour on every possible occasion. At the breakfast an effort had been made on behalf of the Waterhouse Wing of Prince Alfred College, which had not then been erected, and before the gathering rose from the table there was a subscription list totalling £1,500.

Dealing with the progress of the College, Sir Samuel Way said when Mr. Chapple succeeded Mr. Hartley in 1876 the school had a muster roll of 470 boys. Since that time 4,681 boys had enrolled. There had been spent £33,000 during Mr. Chapple's term in building additions, and nearly the whole of the £2,286 spent in the erection of the

handsome fence around the College had been obtained by bazaars, *fetes*, and so on, with Mrs. Chapple at the head of other friends of the institution. The academic successes of Prince Alfred boys were many, for 298 had graduated, 116 during about thirty years of the last century, and 182 during fourteen years of this century. This was an indication of the increased value that parents now placed upon higher education. Most of those boys had graduated at the University of Adelaide, but eighty-six had taken their degrees elsewhere, including eleven at Cambridge, five at Oxford, and five at the London University. That showed that the training was not merely preparatory for the Universities of Australia, but for the most venerable and strictest academic institutions of the mother country.

Outside of the school Mr. Chapple had been a useful citizen in many respects. He was a member of the University Council, and had been a Warden for 31 years. He had been at the head of almost every good institution in South Australia for the benefit of young men and boys. Speaking of the religious system in Prince Alfred College, he said he admired the State school system in South Australia, but he thought if he had sons to send to school they should go to Prince Alfred College, or some school that made religious teaching the basis of the work of the boys. Mr. Chapple had identified

himself with every institution for the promotion of Bible reading in State schools. He hoped Mr. and Mrs. Chapple would enjoy long life and prosperity, and rejoice in witnessing the continued success and advancement of Prince Alfred College.

Finally, the President of Prince Alfred Old Collegians' Association (Mr. Noel A. Webb, LL.B.) said he had been asked by the Association to explain that the old scholars were not allowing the occasion of Mr. Chapple's retirement to pass without proper recognition, but the plans of the Association had been interfered with by the troubles of the past few months. The Association had intended to give a big public dinner in Mr. Chapple's honour, but when he had spoken to Mr. Chapple about it, their loved Head Master had asked that no such function should be held while men, women, and children were starving in Belgium. There was another part of the Old Boys' programme which was well in hand, but which could not yet be completed. The Old Boys intended to do something which would remind the boys of future generations of the great work which Mr. Chapple had accomplished, and of the high regard in which he was held. Their scheme might not be completed for some time, as it depended on Mr. Chapple's movements, and these, too, were uncertain on account of the great war. He would like also to say that

whatever the Old Boys did, or whatever they left undone, could not add to or detract from the great memorial which Mr. Chapple had raised to his own work. Mr. Chapple had built with living stones, and had raised a great monument to his achievement out of the lives and the characters of the boys whom he had taught. The best way that they could adorn that monument was for each man to take the character on which Mr. Chapple had so faithfully wrought, and to rededicate to those eternal truths which they had received at his hands. Mr. Chapple's work was not for to-day or for to-morrow, but when the nation which was being built up in South Australia became the great nation it was destined to be, then men would realize the worth of the man who had laboured so faithfully amongst the foundations, the man who had taught her school masters, who had inspired her missionaries and her preachers, and who had done so much to ennoble the character of her statesmen and public men.

He had a Viceregal precedent to quote the school "Leaving Song" on an occasion such as this, for it was in the words of that song that Sir Day Bosanquet bade them good-bye last year. If he might be allowed to paraphrase it he would say—

Adieu, adieu, our well-loved head,
adieu!

'Tis hard indeed to say farewell to you!
But though we near the parting of the
way,
We'll keep you in our hearts for aye,
for aye.

We honour all the great achievements
won,
The forty years of faithful duty done;
Your work is written in the nation's
heart,
And now the time has come to part, to
part.

Our high regard for you will never
cease.
May your declining years be years of
peace.
Honour and blessing on your path at-
tend,
Our guide, philosopher, and friend, and
friend.

On the following morning the teaching staff met in the Study to say farewell and make a presentation to their "chief."

Mr. Langley, in his introductory remarks, said that Mr. Chapple had arrived at that period of life when regrets and anticipations struggle for the supremacy—regrets that his life's main work was past, and anticipations of rest or at least of "gentler activities." It was natural that Mr. Chapple should feel the wrench keenly, for roots go

deep in 40 years; but his regrets would be tempered by the knowledge that he was leaving behind him a monument of enduring fame, not only in their great school, but in the esteem and affection of thousands who had had the privilege of learning and of working under and with him. Mr. Langley then called on Mr. Robertson, as the one who had known Mr. Chapple longest, to speak and make the formal presentation on behalf of the staff.

Mr. Robertson, after a few words in a reminiscent vein, referred in particular to the harmony and unanimity which had always characterised the relations between the various members of the staff of P.A.C. This, he said, was to some extent due, first to the feelings of security against fear or favor in their dealings with their chief, secondly to the fact that Mr. Chapple had taught his staff the doctrine of work more by example than by precept, and lastly to his practice of trusting his staff and not unduly interfering with their methods of work. In presenting Mr. Chapple with the masters' parting gift—an alluring armchair, upholstered in leather—he expressed the hope that their retiring chief would long be spared to enjoy its comfort in the evening of life.

After Mr. Iliffe had added a few choice expressions of kindly feeling, Messrs. Mitchell and Leschen said a few appreciative words on behalf of the visiting masters. Mr. Ashton's

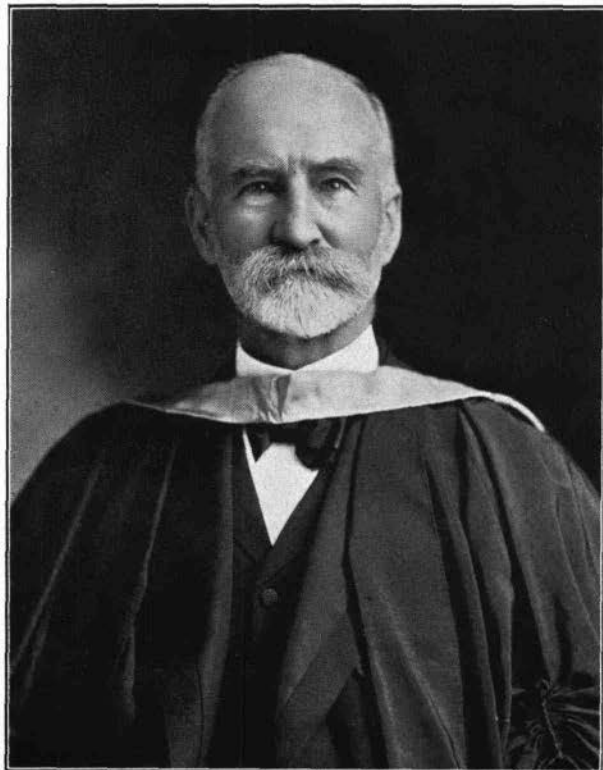

work unfortunately prevented his being present, but to partly atone for the disappointment, he sent along one of his most characteristic works of art to accompany the armchair to Mr. Chapple's new home on the Parade.

Mr. Chapple, in acknowledging the gifts, said that if time permitted he could a tale unfold about some of the masters of early days, but he contented himself with very kindly and appreciative references to the present staff. Although he liked to be known and spoken of as the "chief," he looked upon his masters as his colleagues. With smiling apologies to Mr. Langley and Mr. Grey, he said he believed that his success was largely due to his policy of selecting old boys for the work of teaching, and also to his practice of leaving as much as possible to the initiative of the individual master, thus affording him the chance of developing his powers. In conclusion, he expressed the hope that his departure would not mean the termination of relationships, but that the masters of P.A.C. would always look upon him as their friend.

A memorable gathering was brought to a close by vigorous cheers, which counted the sanctity of the "study" as nought; and for the last time the "chief" went the round of his staff, greeting each with a hearty hand-shake and a cheery smile.

1876.

1914.

MR. FREDERIC CHAPPLE, C.M.G.

Intercollegiate Cricket.

The 38th annual cricket match against St. Peter's was begun on the Adelaide Oval on Saturday, December 12th, in the presence of a fair gathering of spectators. Colman won the toss, and decided to have first use of the very fast wicket. It had been expected that big scoring would be the order of the day, as both sides were supposed to be strong in batting but weak in bowling.

The Play.

At 12 o'clock, Horwood and Colley opened for S.P.S.C. to the bowling of Davidson and Chinner. Both batsmen hit freely, especially at Chinner, but they could not score fast off Davidson. Horwood had the good luck to hit Davidson just over Gray's head. Clarkson relieved Davidson, and Mander Chinner. Things were looking pretty blue for us, Horwood being 31 and Colley 13, when Horwood skied one from Clarkson, and Gray took the catch. 1—31—47. Pellew went in next, but before long Colley was clean bowled by Mander. 2—13—48. Pellew was joined by Colman, who arrived just in time to see his partner clean bowled by Mander with a ball that shot in from the off. Pellew had not scored. 3—0—48. Coulter filled the vacancy, but Colman was clean bowled by Mander. 4—4—53. Jose followed. Coulter, after a little free hitting, fell

victim to one of Mander's deadly balls. His place was filled by Leaver. 5—7—61. Jose and Leaver tried to steal a short run, but Gray, returning smartly, hit the wicket, and Jose was run out. 6—9—68. Goodman joined Leaver, and batted freely. Both batsmen were making runs, when Mander got to work again, and bowled Leaver. Leaver had batted steadily, but had at times hit out. 7—21—91. Greig then became associated with Goodman. Grieg stonewalled, while Goodman made the runs. Goodman hit out, and Davidson, running in, took the best catch of the day. 8—19—120. Hall joined Greig, who batted patiently, being in 40 minutes before he scored. Gray had now gone on, and Grieg at last hit one up, which was accepted by Clarkson. 9—10—129. Moyle arrived at the crease, but, after scoring one, put his leg in front of one of Gray's, and was out. 10—1—135. Hall had acquired 9, and the sundries totalled 11.

Our fielding and throwing-in were excellent, and Haslam kept wickets splendidly. Mander was in tip-top bowling form, securing 5 wickets for 21, while Gray took 2 for 7.

Magarey and Haslam opened our innings, Horwood and Grieg bowling. Disaster soon overtook us, for after scoring 11 Magarey lifted one of Grieg's to leg, and was caught by Moyle. 1—11—19. Mander joined Haslam, who soon skied one off Horwood,

and was out. 2-8-27. Mander batted attractively, but hit out a little too soon, and was caught behind by Pellew off Horwood's bowling. 3-7-27. Rayner, who had joined Mander, hit Horwood fast and low to Coulter at point, who brought off an excellent catch. 4-1-31. Clarkson and Chinner became associated, but Clarkson had the bad luck to be run out. He had played two overs splendidly, but had not scored. 5-0-34. Chinner batted splendidly, and was not afraid to get right out to Greig. Colman relieved Horwood, and had the satisfaction of getting Chinner caught by Pellew. Chinner deserves credit for stopping the rot, and making 32, which beat Horwood's score by one. 6-32-91. Gray batted well, but succumbed to Colman, clean bowled. 7-9-103. Fowler was the next to get out. He partnered Chinner, and helped him to save the side. He started off with a run of luck, but soon settled down, and by attractive batting combined 39. He had the misfortune to be run out. 8-39-132. Mullner and Bell joined forces, and carried the score to 149 before stumps were drawn.

Second Day.

Rain had fallen during the night and most of the morning, and the wicket was only fit for play at 3.15 p.m. Bell carried his score of 10 to 11, when he was caught by Colman off his own bowling. 9-11-150. Mullner and

Davidson started to settle down, but, Mullner, after making 2 more, hit one of Colman's bumpy ones to Coulter, and was out. 10-25-155.

Mullner had given a fine display of batting, and had bad luck in continuing his innings on a wet wicket. Davidson remained 3 not out, while the sundries amounted to 9.

Saint's fielding and throwing-in showed a marked falling off from that of last year, the fielding being marred by much fumbling. Had their throwing in been better, several more of our team would probably have been run out. The catching, however, was good.

Greig and Horwood started off against the bowling of Mander and Gray. Mander was bumping all over the wicket, and Greig eventually hit one up close to the wicket in trying a leg-hit. Haslam easily took the catch. 1-0-1. Horwood had been shaping well, but was cleaned bowled by Gray. 2-1-1. Colman was next, but was bowled by Mander for 5. He was dropped by Fowler before he scored. 3-5-9. Colley also made 5, tapping one of Mander's into the safe hands of Chinner. 4-5-24. Pellew had come in and had been making runs, although he was having a rather lucky innings. Chinner took up the bowling, and succeeded in getting Jose caught by Gray. 5-0-25. Leaver joined Pellew, but only made 2, being caught by Davidson off Chinner. 6-2-35. Bell went on

bowling, and soon disposed of Coulter, who hit up one to Rayner. 7—0—35. Pellew had been scoring freely, but had some very narrow escapes. Fowler missed a hot left hand catch off him at first man. He was also missed by Davidson, and was nearly run out. When he was 31, he lifted one of Gray's out deep to Bell, who took a wonderful catch. 8—31—56. Pellew had saved his side from going down too cheaply, since none of the other batsmen reached double figures. In spite of the chances given, it was a wonderful innings considering the state of the wicket. After making 6, Goodman was smartly stumped by Haslam off Gray's bowling. 9—6—58. Hall had only made 4 when he was caught by Clarkson off Gray. Moyle had made 2 by pretty play, and the sundries amounted to 7. The innings thus closed for 63, leaving us 44 to win.

Haslam and Magarey opened for us again, but Haslam was soon caught off Horwood's bowling. 1—0—3. Magarey, who had been batting well, was joined by Clarkson, and the score had been carried to 11 without mishap when stumps were drawn. Magarey remained 7 not out, and Clarkson 2 not out.

Third Day.

Magarey and Clarkson faced Horwood and Greig on a very bumpy wicket. Clarkson hit the fourth ball off Horwood's first over to Colman at

mid-off and was out. 2—2—11. Rayner was the next man. Both he and Magarey played with confidence and vigour. With the score at 32—12 to win—Rayner, who had put together 10 in attractive style, sent Greig to long-off, and Jose took a neat catch 3—10—32. Magarey, who was now 18, was joined by Bell. The latter was unable to keep them down, and was out in exactly the same way as Clarkson. 4—0—32. Fowler was nearly out off the next ball, for he skied it high into the air at short leg, but Hall allowed it to roll out of his hands. The game was now practically finished, and off the fourth ball of Horwood's next over Magarey got 4 with a splended leg hit, and we were victors by 2 runs with 6 wickets to spare. Magarey batted splendidly, and remained 26 not out. A feature of the game was Mander's splendid bowling. He obtained 8 wickets at a cost of 33 runs. Six of these were cleaned bowled.

Form Notes.

VI.U.

The old classroom and the cricket oval, are, for the most of us, now a thing of the past. There is but the memory of them that remains, and how we cherish those remembrances! If it were possible, we would keep our band and badge on our hat, and rejoice in the name of a P.A.C. boy, but now "the time has come for us to part," and like those who have gone before us, we must go, and soon be forgotten. It is hard to part from the old school, but we are proud that it has been our privilege to have been able to spend some of our happiest hours under its old walls, and we are indeed grateful to "the best school of all."

The Oval matches and the Higher excepted, nothing extraordinary has occurred. Any of the usual functions were, on account of the war, put aside. There was the work for the Higher, and then the Higher itself. The nerve-racking trial of waiting the results was the next ordeal, and what a shout

went up when it was telephoned that Cooper had headed the list, and that Dorsch had come second! We are proud that it has been our boys that have regained the top place, which had not been held since 1908.

The Speech Day has passed, and the good-byes have been said: we have parted, never all to meet again, it may be; but of all of us it can be said, that of the old school our thoughts will be,

Although the time has come for us to part,
You've still your corner in my heart.

 VI.L.

Once again the term is ended, and it is with great sadness that we say good-bye to exams and work. The results of the Senior are still being awaited with anxious face and knocking knees. We have great pleasure in congratulating James on coming top, although Hobbs ran a close second. Our congratulations are also due to Fowler and Clarkson as members as the Intercollegiate Cricket Team. Cuthbert has cultivated a strong liking for high class English literature, e.g.—"How Flyspeck Billy killed Red Eagle, the one-eyed Indian Villain." Our form master often reminds us that the chesty individuals, who are the chief originators of class disturbances, are sometimes wondrous mute in prayers. Scholz has this term shown his patriotism by getting German measles. Burnard unfortunately had a nervous break-down

early this quarter, through over study : and these two, in addition to Hand, who has had rheumatics, were prevented from sitting for the Senior exam. Lately Mr. Iliffe has been imposing a severe test on our manhood in the shape of hydrostatics ; but it was not long before he found the solution would be in the negative. We all heartily thank Mr. Langley for the extra work he has put in with us this year, and hope our results will prove worthy of his teaching.

—
VI.c.

Work, for the Senior's coming! has been our motto this term. Five of our number felt "fit," but the remnant indulged in little light work (and yet we dare not say they worked heavily, for Truth's sake). The Senior, however, turned out to be unsupported by heavy artillery, and, having been led by our Gen. F., we hope for a great victory.

The top seat has changed its tenant, and we congratulate K. H. Taylor on his well deserved success.

Immediately after the resumption of activities this term, we had cause to remember (through a manuscript which read thus:—"In dearest memory of A.S.C., who was suddenly called home, Sept. 1914.") that our popular classmate, "Tuggy," had been taken back to his native State to "do a bit." We, as a class, have missed him very much,

as much, in fact, as the proverbial dog missed his tail.

Geology has always been a popular pastime. Rid stews it strenuously and is really "slick" at the subject. He tells us that in the near future the Kaiser will be drawn into the limelight of Geology, for the war is costing him so much, that he will soon be "stone-y."

It is said that all men are born to a calling. In F.B.D.'s case it seems to be politics, but, as his speeches are only fair to miserable, we can only refer him to Waymouth St. political centre.

After much coying and inducing by Frank, Vic. No. 3 was persuaded to bring to school a bottle of something home made, in order to quench the persuasive one's thirst. The beverage arrived, labelled "Ginger Beer," but the donor's character was much reflected on as the word "ginger" seemed to be superfluous. The cork was drawn and there was instantly a foaming, spluttering, deluge of frothy liquid. A job of floor-scrubbing awaited the thirsty soul. We wish one another good luck, and to outsiders—"A merry Christmas and a bright and prosperous 1915."

—
V.u.

We are nearing the time "when all the days are holidays," and on account of our recent strenuous efforts we are looking forward longingly to it.

We congratulate Smith, who still holds the coveted position of Dux of the

"form," and Piper who came close second.

During the term most of us had the pleasure of sitting for the Junior Examination and we are eagerly awaiting the results.

We must congratulate Barnard on waking up and coming out top in gym., and also Hunter for gaining the medal for general proficiency. Hector has been receiving "barbarous" treatment from Robinson, the hero with the cushion; but like his name-sake of historic fame, has held his own. We were terribly alarmed on hearing that we had to undergo the painful operation of having our photograph taken; but the proof shows us that our fears were needless. We wish every success to our members who are leaving and sincerely hope they will never forget the happy days they have spent together here.

V.C.

Now that this year's work is over, we are anxiously awaiting the results of the Junior Commercial Examination.

We congratulate T. P. Allen on retaining his position at the top of the form, and K. Engelbrecht on winning the Gym. medal. We wish our representatives in the First Eleven, K. D. Bell and A. K. Mullner, every success in the Oval match.

Our sympathies are with T. P. Allen and W. N. E. Taplin on being

unable through illness to complete the Junior Commercial Examination. If they had been able to do so, we feel sure their names would have been in honour list.

We cannot close without tendering our thanks to our form master for his valuable services. We bid good-bye to those who are leaving us, and wish them every success in their future life.

IV.U.

Another term of good, solid work has been accomplished, and we are at the close of a most eventful year. Our congratulations are due to A. R. Shepley, who still holds the much-coveted position of dux; also to Piper, who finished a close second, winning the Junior Foundation Scholarship.

At the close of the second term, the Primary Public Examination was held, and twelve of our number passed: W. F. Cooper, C. M. Deland, J. H. Edwards, A. R. Gardner, A. E. Jarrett, R. M. Jones, J. A. Ohlmeyer, C. T. Piper, E. L. Stockbridge, A. R. Shepley, R. Treloar, and J. H. Torr. Mr. Dan Crawford, the great missionary from Central Africa, visited us a few days ago, and gave us one of his "long grass" chats chiefly about "crops," which he likened to the green neckties very much in vogue at P.A.C. Archbishop Rix was very attentive on that occasion. "Girlie" has become a very ingenious child, and she will be all right

when she grows up if the boys will but leave 'r alone. At mid-term "Fireman Bill" left us, and, needless to say, he and his axioms are very much missed. The Upper Fourth is the only class which can produce a bowler worthy of the name; and it is hoped that Davidson will uphold the honour of our Form in the forthcoming match.

In the Intercollegiate Gym. our Form was represented by Weylandt, who tied with Coulter (S.P.S.C.) for third place.

One of our number—Piper by name—was crossing the Park Lands a few weeks ago, when some villians from Flinders Street tried to bag him. Happily they were unsuccessful. Hence the name, "Bagpiper."

It is unnecessary to say we are sorry to lose the Head Master, and it is hoped that he and Mrs. Chapple will be very happy in their new sphere of life.

IV.L.

"Christmas is coming on, the goose is getting fat," and we are now thinking of all the good things we will enjoy, and the good times we will have. We have earned it all, and we do not want to hear anything more about English or Geometry until next year.

One day, early in the term, we were surprised to see Price putting his books in the bottom desk of the form; but now he has gained twelfth place. Be-

sides being a good scholar he has more names than any other boy in the form.

Symons has worked hard and gained top place, while 'Spider' and 'Willie' are close at hand. We were all very pleased that our crack gymnast, Hoare, came top in the Intercollegiate gymnasium contest, gaining $99\frac{3}{4}$ points out of a possible 105, thus winning the gold medal. Hoare was also top in gymnastics in our form, while Mellor won the silver medal for second place.

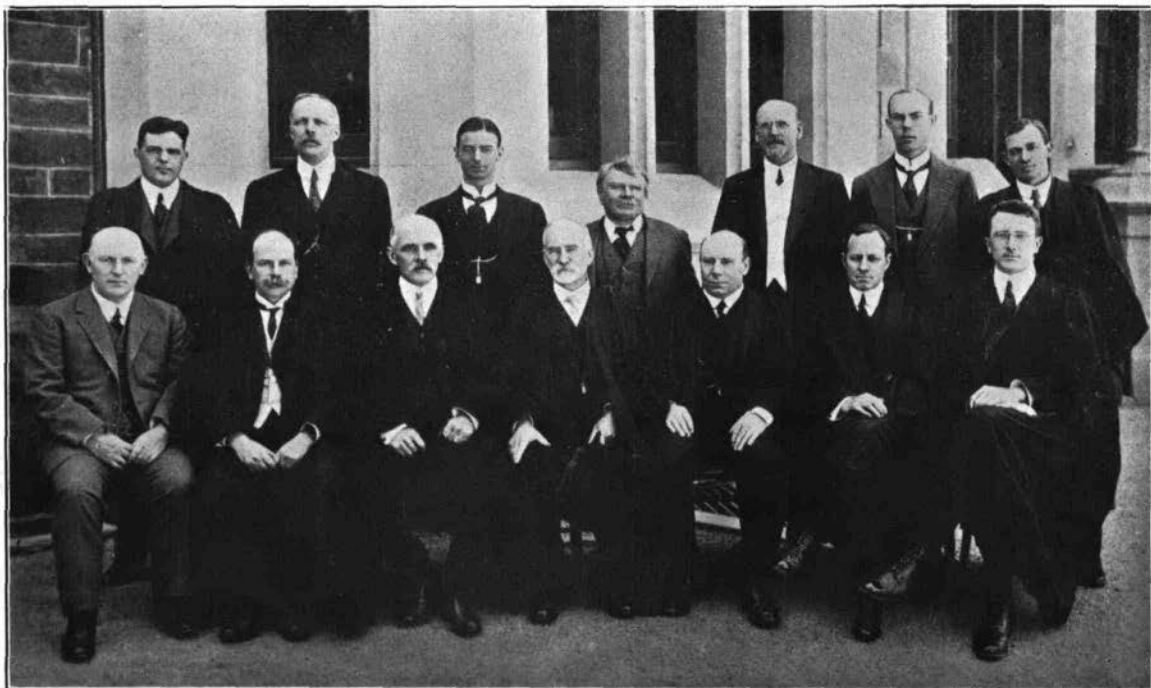

We were all sorry to lose Freddy during the term, but hope to see him again.

Lord R. calls in to see us occasionally, and we are always pleased to see him. He happened to be here when the photo was taken, but as he had left his hair oil at home, Burford's No. 1 did the trick. He had a most successful dry shampoo, and made a pretty picture.

"Dutchy," in addition to his many accomplishments, has added tumbling to his store. He finds asphalt very deceptive. Still he smiles. We hear "Dutchy" has a rival in the field. In future he will have to get his one o'clock edition out smartly.

III.U.

Once more we have come to the end of our laborious term. Only three certificates were obtained; these were by Freebairn, Symons, and Williams. Our first duty is to congratulate Freebairn on coming top of the pole, and

P.A.C. STAFF, 1914.

Symons running a close second in the final exams. "Jessie," the old warrior, tried hard to come bottom, but was beaten on the post by "Roby."

We also feel proud of ourselves on doing so well in cricket against the Lower Fourth, under the guidance of our noble captain "Otto." Wilson, our great gymnast, managed to win the silver medal for the year.

Half-way through the term, we got our old sport Barlow back again from over the seas, and he has many a tale to tell. But we lost our great cricketer, Steer, who has to go home and pitch a few sheaves of hay.

We also feel sorry that our Form Master, Mr. Comley, is leaving the old school this year, and we hope to give him a send-off before the end of next week. We wish him luck in his future career.

III.L.

The first thing we have to do, is to congratulate Kohler on coming top of the class once more.

We started this term with two more new boys, Mitchell and Harvey.

The beginning of the term passed away very quickly, as we had two half-holidays to see the soldiers march through the streets. We were successful in our cricket match against the Preps., but were beaten by the Upper Thirds.

We are kept in good spirits by a joke

from Bunny now and then, but it doesn't seem to make any difference to him. One day, during a history lesson, Brice caused a roar of laughter, by writing the Battle of Slugs, instead of the Battle of Sluys. Our form was very sorry to hear one morning that Mr. Blacket, our Form Master, was leaving us to go into camp, as a candidate for a Commission in the Third Contingent. We believe he is certain to be chosen to go to the front. We all wish him the best of luck, and look forward with pleasure and interest to seeing him again on his return.

II.

The last three months have been full of hard work and exciting events. All of us toiled hard for the finals. Bennett came top and carried off first prize. Hobbs and Dunstan won the other class prizes.

One of the chief events of the term was a little picnic held at Glenelg. Mr. Gilbert wanted every boy to be able to swim. The weather was very hot, so we took the precaution of anointing our bodies with oil. Presently we dashed into the waves looking as shiny as "bobs" and as slippery as eels. But alas! Old Sol was not to be tricked by the cocoanut juice: our noses and backs bore ample testimony to the fact next day. To cut a long story short, we had a most enjoyable outing,

and we wish to thank our Form Master for it.

When the results of the drawing examination were published, we found that Form II had gained 7 honours and 2 passes, Bennett in particular doing well.

Though Dunstan refuses to sing, he sometimes amuses us in class. Lamer-ton had to chuckle, while Flint rolled in his seat when we were informed that "Victoria is situated to the west of Tasmania." Another genius thought Melbourne had been transferred to the Paramatta.

Some short time ago when all was talk of war, Hobbs was the victim of a bomb-throwing outrage, or of a thunderbolt. He lost a tuft of his thatch and a small quantity of blood. Later on we learnt that our Form Master wanted to go to the war. We thought Clarke might get a post as drummer.

During the past three weeks we have had our lessons with the I.I.L. in their room. Parsons chose a place near the rifles. Those who are to be promoted will now have a little knowledge of their future surroundings.

PREP. NOTES.

The Christmas holidays are here at last; we thought they would never come.

Most of our measles patients were back again when we started this term;

some of them have done very well in the matter of holidays this year. There was not anything very exciting this term except that some of us had to work a bit harder than usual to make up for lost time. We are glad to know that Frank Macrow is quite well again and will be back after Christmas.

The drawing results came out about the middle of the term; Magarey, N. Walsh, Newman, and Adamson got honours in the Preparatory Division, and R. Macrow and Glover also got honours in Division I. There were no passes.

In ordinary School work prizes have been won by Joyner (who is dux of the Prep.), N. Walsh, and Krantz in Senior A; Piper and Newman in Senior B; Colin Wood and Phil Clark in Senior C; and by Bobbie Glyde and Cowling in the Juniors; we congratulate them all on their success.

The old Prep. boys have again done very well in the Big School. Dunstan took a prize in the Second Form, Brice and Crompton took prizes in the Lower Third, and Danker and S. Krantz in the Upper Third. Cowell got second place in the Lower Fourth, Piper and Deland second and third places in the Upper Fourth, and Jackman and Lade have done well in the University Fifth. We hope we shall do as well when we go up to the Big School.

Church Parade.

The Second Annual Church Parade of the College cadets was held this term instead of in the first term, owing to the cadet team being in Brisbane. Nevertheless, it was a marked success.

The proceedings began punctually at 3 p.m., by the parading of the cadets, headed by the Norwood Mission band. The cadets, under Lieut. Gilbert, looked particularly smart, and the marching up behind the glittering brassware was very impressive.

After the arrival of Colonel Kendrew had been duly acknowledged, the colour party marched on under Lieut. Davies, while the band played the National Anthem and officers saluted. The first hymn was "Fight the good fight, etc."—one which is very popular at the college. This was followed by a Lesson and Prayer, rendered by the Head Master. "Onward Christian Soldiers" was then sung with great enthusiasm, and an offering was taken up in aid of the Patriotic Fund, £3 3s. being forwarded.

The Rev. Colonel G. W. Kendrew delivered a fine and thrilling address, the points of which will long be remembered to advantage by all that were present. He was the more interesting in that he had just preached for the last time in Adelaide to the boys of the First Expeditionary Force, who took their departure on the following Tues-

day. We should like to take this opportunity of again thanking Colonel Kendrew for his fine address.

The service was closed with the hymn "Nearer my God to Thee," after which the colour party off, and the remainder were dismissed.

There was a moderate attendance of parents and friends, and a few officers of other detachments, but we hope that the next parade will attract the notice of more of our scholars.

Cricket.

Cricket is in a healthy state at present. It is a long time since we were successful in the oval match, and let us hope that we have at last "turned the corner."

The competition for places in the First Eleven was very keen, which argues well for the future. The second eleven was strong, while the thirds, fourths, and fifths have some promising players.

It is consoling to those who are keen on cricket to know that any boy who practices intelligently and tries to remedy his weaknesses cannot fail to improve rapidly, and although he may not become a champion, yet he may become a very good cricketer. Champions are few and far between.

The Friday night's practice for the "colts" has been the means of laying a foundation and of creating a reserve

from which players can be drawn when vacancies occur. Of this year's oval team six represented us last year, while the other five and the emergency were drawn from the Friday night's team. At the end of the year when many of the first eleven leave it is absolutely necessary to have players ready who can confidently step into their places, and for this reason too much importance cannot be placed on this practice. Each boy should endeavour to make himself proficient, and so to be ready if required. You cannot become a successful cricketer in twelve months—keenness and practice are necessary.

The district matches have been contested, and have done much towards raising the standard generally. These matches, besides giving the younger players opportunities, give boys who perhaps have been overlooked a chance to show what they can do under real match conditions. The committee have been continually on the look out for promising cricketers, and some very good finds have resulted.

The bowling of the first eleven this year was strong, while our ground fielding against St. Peters was the best we have seen in any intercollegiate match. The catching at one exciting period was faulty, but apart from that our fielding was splendid. Many old cricketers were most enthusiastic in their praise of the way our fellows

picked up and returned. The throwing-in was remarkable.

In batting, there is a general tendency right through the School to be flash. The first thing to do is to learn how to keep your end up. Play straight, and don't hurry. All other strokes will follow on when this foundation is acquired. Defence is essential. In a recent match Bardsley made one in half-an-hour; Park, who had made 130 not out one day, made one in half-an-hour on the next day, and four in forty-five minutes; so you see it's no reflection on you as a batsman if you play carefully. A hitter is not necessarily a cricketer. Solid batting is indispensable. When practising on the back pitch play correctly, and practise your strokes there. It is bad cricket to hit every ball into the creek: this habit grows on you. Wait for the ball that you are sure you can hit, then hit it hard by all means, but keep it along the ground.

CRITIQUE OF THE CRICKET TEAM.

(By the Captain.)

Bell, K. D.—A medium paced bowler, breaks both ways, splendid field anywhere. Fair bat, hits hard, and has plenty of confidence. With a little more enthusiasm would make a fine cricketer.

Chinner, T. L.—A good batsman, and medium paced bowler with curious delivery. Bowls a good length, and has plenty of stamina. Would do better as a batsman were he to hit harder; good in-field, ground work in out-field good, catching—not so bad.

Clarkson, L. S.—A slow leg-break bowler, who gets a lot of work on to the

ball. Inclined to be slightly erratic; should make a fine bowler when he has grown more. As a bat, has played some good innings. Should learn to judge a run better. Fair field, stops and catches well, though slow on his feet.

Davidson, G. K.—The "fast" bowler of the team. Bowls a medium-fast ball, with a good length. Inclined to be slightly erratic. Splendid field, fine catch. Poor batsman, but should improve with practice. Should use his feet more when batting.

Fowler, W. M.—A much improved batsman, with strokes all round the wicket. Has a fine, square cut and cover drive. Can play a defensive innings if needed. Fair field, tries hard. Bowls a good ball when needed. Can bowl the "Bosy" ball. With practice should make a good bowler.

Gray, W. E.—A good all-round man. Bowls a good medium-paced ball with a good length. Splendid field, very accurate in throwing to wicket. Good defensive batsman, with strokes in front of the wicket.

Haslam, S. H.—An improved and reliable wicket-keeper. Takes balls well on both sides. Fair stumper; good at times. Good batsman, with strokes in front of wicket. Invariably gets out off leg ball. Good field anywhere if necessary.

Magarey, D. D.—The best and most improved batsman in the team. Has

improved much through acquiring confidence. Drives and cover-drives powerfully. Usually scores in front of the wicket. Good field, reliable catch.

Mander, L. A. (Vice-Captain)—The best all-round man in the team. Good bat, with strokes all round the wicket. Bowls a fair medium-paced to fast ball, which swings well and makes pace off the wicket. Splendid field in any position, though throwing in to wicket is inclined to be erratic.

Mullner, A. K.—A batsman with a very unorthodox style, playing with a cross bat. Cuts and leg-drives well. Should develop into a useful run-getter. Fields well at point, and can bowl a fair ball if required.

Plush, L. S. (Emergency)—A good batsman who can generally be relied on. Drives well, and has a good defence. Bowls a good slow ball, with only a fair length. Poor field. With improvement in this department of the game would be a welcome addition to any team.

(By C.R.D.)

Rayner, H. L.—A fine bat when going. Too anxious to score quickly. Often fails to get right across the off ball. Splendid field, and useful change bowler. Excellent and popular captain. Has worked his men, especially the bowlers, most effectively, and has had the full confidence of the whole team.

Duces.

Intercollegiate Tennis.

Saturday, October 3rd, opened fine and warm, but in the afternoon the sun was uncomfortably hot. As the result of the shortage of water no courts were available at the Adelaide Oval, and so the match was played at St. Peters. We were fairly confident of victory, and were not disappointed. The teams were:

S.P.S.C.—P. F. Bowen, W. R. G. Colman, R. B. Hall (Captain), G. E. Jose, R. Hylton, V. R. Woods, A. C. Lucas (emergency.)

P.A.C.—S. H. Haslam, F. R. Hone, F.W. Hoopmann, L. A. Mander, H. L. Rayner (Captain), E. F. Rowe, L. W.

Trott and A. K. Mullner (emergencies.)

The play opened at 10 a.m., our third double, Hone and Rowe, meeting Saints' first, Hall and Bowen; while our first double, Hoopmann and Haslam, started off against Saints' third, Hylton and Woods.

Hall and Bowen started off by winning the first game at love. Our pair then won the next two. Hall then won four games in succession. Hone and Rowe followed suit by winning three games, which made the score five all. "Deuce" was called five times in the last game, but Saints pulled it off, thus winning the first set of the match 6-5. Our representatives then settled down, and, after fairly close play, won the next two sets 6-4, 6-5. This victory came as rather a surprise to us, and sent our barrackers wild with delight.

Hoopmann and Haslam won their rubber rather easily, 6-1, 6-2. The play was all one-sided, and rather uninteresting.

Rayner and Mander, by dint of good solid play and smartness in coming to the net, soon disposed of Colman and Jose, 6-5, 6-3.

Rowe, playing excellent tennis, and keeping a perfect length, ran out winner against Hylton, 6-1, 5-6, 6-1.

Mander started off well against Bowen, winning the first set, 6-5. Bowen then turned the tables, winning the second set, 6-5. Mander seemed beaten in the next set, but made a

wonderful recovery, and carried the score to five all. After a close game, Bowen carried off the set, 6-5, and with it the rubber. This was the closest and most exciting match of the day. It was interesting from start to finish. Both men played excellent tennis, and well deserve praise for the splendid exhibition they gave.

Jose and Colman won the first set against Hoopmann and Haslam, 6-3. Our pair then woke up, and, carrying all before them, won the next set, 6-0. Their triumph, however, was short-lived, for Saints won the concluding set, 6-3. This rubber was very disappointing for us.

A large crowd assembled to witness the Championship Doubles, Hoopmann and Haslam v. Hall and Bowen. Saints won both sets, 6-5, 6-4. The first set was intensely exciting. The score stood at five all and deuce, Haslam having the serving. He always succeeded in serving a hot one to Bowen, but repeatedly failed to get his first serve in to Hall. Hall beat Haslam time after time with a perfect drive, thus giving Saints the advantage. Our men would then gain the next stroke, making it deuce again. This went on until deuce had been called eight times, when Saints gained two strokes in succession, and thus won the set. Hall's excellent driving right through the match undoubtedly gained Saints the rubber.

Hone and Rowe lost their first set to Colman and Jose, 6-2. In the next two sets, however, they struck form, and won two closely contested sets, 6-5, 6-5.

Haslam and Colman then indulged in an exhibition of placing and lobbing, which, to say, the least of it was very "pussy." Both men seemed afraid to come to the net, and the game resolved itself into a patient struggle for position. Finally Haslam won the rubber, 6-5, 6-1. The placing of both men was excellent, but the absence of volleying tendered to make the game slow and uninteresting.

Rayner and Mander beat Hylton and Woods, 6-4, 6-1. Our men played with greater confidence than their opponents, and their celerity in getting off the mark again stood them in good stead.

The Championship Singles, Hoopmann v. Hall, opened rather tamely, our man winning the first set, 6-0. Hall rallied in the next set, but Hoopmann eventually won, 6-5. He played better tennis than his opponent in every respect, his volleying being far superior.

Jose put up a feeble game against Rayner, and seemed quite content to allow his more experienced opponent to win the rubber, 6-1, 6-3.

Rayner and Mander beat Hall and Bowen. 6-5, 6-2. The play had

practically lost interest, as we had already won the Shield a few rubbers before.

Hone and Rowe succeeded in beating Woods and Hilton, 6-2, 6-5.

Hone won his first set against Woods, 6-3. He seemed likely to win the next set, but Woods won, 6-5. It was already fairly dark, but it was decided to finish the rubber, and Hone emerged the victor by winning the set, 6-0.

Most of the team played excellently, but our first double were quite evidently not up to form. Rayner and Mander won their three doubles without losing a set. Hone and Rowe also won their three doubles, which last is a very praiseworthy performance for a third double. Mander had very hard luck in losing his single. Hone served brilliantly, excepting for a few unnecessary doubles. Rowe brought off some fine backhand strokes across the court, and Mander and Rayner were very fast in getting to the net. Hoopmann was also good at the net, while Haslam's serving and placing were at times brilliant, but his net work was not as good as usual. The school has to thank Messrs. Trott, Menz, Fowler, and Dr. Hone for providing turf courts for the team to practise on, which practice contributed largely to their success.

Scores:—

SINGLES.

Hoopmann beat Hall, 6-0, 6-5.
 Rayner beat Jose, 6-1, 6-3.
 Mander lost to Bowen, 6-5, 5-6, 5-6.
 Rowe beat Hylton, 6-1, 5-6, 6-1.
 Haslam beat Colman, 6-5, 6-1.
 Hone beat Woods, 6-3, 5-6, 6-1.

DOUBLES.

Hoopman and Haslam lost to Hall and Bowen, 5-6 4-6; lost to Jose and Colman, 3-6, 6-0, 3-6; beat Hylton and Woods, 6-1, 6-2.

Rayner and Mander beat Hall and Bowen, 6-5, 6-2; beat Jose and Colman, 6-5, 6-3; beat Hylton and Woods, 6-4, 6-1.

Hone and Rowe beat Hall and Bowen, 5-6, 6-4, 6-5; beat Colman and Jose, 2-6, 6-5, 6-5; beat Hylton and Woods, 6-2, 6-5.

There were many exciting sets, 15 of them running into 5 games all.

P.A.C.—12 rubbers, 26 sets, 198 games.

S.P.S.C.—3 rubbers, 10 sets, 135 games.

The scores last year were:—

S.P.S.C.—13 rubbers, 26 sets, 180 games.

P.A.C.—2 rubbers, 10 sets, 149 games.

Balance Sheet and Report.

It is with regret that we tender this balance-sheet. We at the College have done almost all that is in our power to meet the debt. The raising of the price of the "Chronicle" to 9d. made an increase in school sales of 50 per cent., *i.e.*, from £5 7s. 6d. to £7 12s. 9d., but this was more than absorbed by the increased expenses owing to the large amount of Old Scholars' copy. Old Scholars perhaps do not know that we lost 1d. on every "Chronicle" they took. They paid per copy 1d. less than it cost to print, while we paid 125 per cent more than it cost to print. We sincerely hope they will consider the matter.

GEO. C. DAVIES,
 Hon. Manager.

Lecture on New Hebrides.

On Friday evening, October 2, we were treated to an illustrated lantern lecture by Mr. Leschen, who has lately returned from a health trip to the New Hebrides.

There were in attendance about 120 boys, who made a thoroughly appreciative audience. A small voluntary charge was made to cover the cost of the expense of the lantern.

The lecture proved to be highly instructive, and we are sure that the Third Form, who were told especially to pay attention, as well as we older boys, gained much useful information.

It proved not only instructive, but also amusing. We all felt that the destruction of the "lager" by our British sailors was a sinful waste, especially as the weather has been so hot and water so scarce.

Rather amusing too were examples of the native language. The "tinopener blongum door" and "calico blongum nose" require less thinking out than as many Latin phrases.

The slides, which depicted scenes of native life and scenery, were very much appreciated. The foliage of the trees and the dense plantations of cocoanuts were very beautiful. The pictures of the volcanic region, showing steaming craters and dense smoke, created much interest. Preceding the instructional pictures were shown patriotic slides.

Pictures of the King, Earl Kitchener, and a few leading statesmen brought forth cheers and applause and inspired patriotic songs. On the whole, a most enjoyable evening was spent, and our thanks are due to Mr. Leschen for his kindness and for enlightening us concerning a practically unknown region of the earth.

Prince Alfred Old Collegians' Lodge.

The seventh anniversary of the Consecration of the Lodge was held in the Flinders Street Hall on Friday, October 2nd, when the Master-elect (Bro. H. H. Cowell) and his officers were installed in their respective stations for the ensuing year. There was as usual a big gathering of the brethren present, including most of the Masters of the city and suburban Lodges. The Masters of the Lodge of Harmony (the sponsor of the P.A.C. Lodge) and of the St. Peter's Collegiate Lodge took an active part in the ceremony by filling the Wardens' chairs.

The out-going Master, Bro. Wesley Lathlean, installed his successor in an able and dignified manner, and Bro. E. Bendall, as Director of Ceremonies, assisted materially to make the impressive ceremony a success.

At the supper table, after the usual loyal toasts had been honoured, Bro.

J. R. Robertson proposed the health of the newly-installed Master in highly appreciative terms. In doing so, he spoke of the many excellent qualities possessed by Bro. Cowell when a boy at school, and said that the promise of the schoolboy had been amply fulfilled in the man. The characteristics which had made Bro. Cowell loved and respected by his schoolfellows had made themselves felt in the Lodge, and they had no doubt but that the Worshipful Master's year of office would be not only pleasant to himself, but of marked usefulness to his brethren.

Bro. Cowell in a thoughtful and modest speech thanked the brethren for the many evidences of goodwill they had shown towards him, and promised to carry out his duties to the best of his skill and ability.

The Worshipful Master, on behalf of the members of the Lodge, then presented to the Immediate Past Master, Bro. Wesley Lathlean, a writing table, and in doing so referred in appreciative terms to the services the out-going Master had rendered to the Lodge ever since his initiation.

Bro. Lathlean thanked the brethren for their evidence of goodwill, and said that his services would always be at the disposal of the Lodge.

The following brethren were invested as officers for the ensuing year:—Senior Warden, A. W. G. Pitt; Junior War-

den, R. O. Fox; Treasurer, F. Lathlean; Secretary, R. G. Neill; Senior Deacon, F. I. Grey; Junior Deacon, E. J. N. Fisher; Director of Ceremonies, E. H. Rhodes; Organist, J. A. Haslam; Inner Guard, P. E. Johnstone; Stewards, A. D. Sutherland, A. H. Dobbie, A. C. Edwards, C. W. L. Muecke, J. F. Ward, H. Thomas, F. Smith, J. H. Chinner; Tyler, C. P. Forward.

United Collegians' Chapter.

Ex aemulis comites.

The annual installation of Principals and investiture of officers was held at the Freemasons' Hall on Wednesday, November 25, and attracted one of the largest attendances ever seen at a Royal Arch meeting in the State.

The ceremony of the installation of the three Principals-elect, Companions F. Lathlean, G. G. Martin, and A. L. White, was carried out by the officers of the Grand Chapter. A most enthusiastic gathering in the room below followed the ceremony, and altogether the meeting was one of the most enjoyable Masonic functions of the year. The following companions were invested with the insignia of their respective offices:—R. G. Neill, J. W. Packard, J. R. Robertson, W. H. Selway, A. L. Rowley, A. J. Archer, E. Bendall, A. E. H. Evans, and W. Lathlean.

Farewell Letter from Mr. Chapple.

Victor Harbour,
December 31, 1914,

My dear Boys,

The Editor and the Manager of your school paper have asked me to write to you a farewell letter. I have hesitated for several reasons, some of which you can guess.

But other considerations are stronger, so I will try to obey the "powers that be," as I have long since learnt to. One great thing that urges me is that I owe you so much and want to say so. I could not on Speech Day, nor in assemblies just before it. The school has been so good to me always, and especially so in my last year. The classes have seemed to feel all the year through that they would not do a thing to grieve me—would do their very best to give me a "good finish."

For example, to no one of the Sixth English that I taught myself have I ever had to utter a word of blame. All I set them—and there was hard work before us—they did their best at. The Lower Sixth showed as one result of this spirit that when 26 took the Senior paper, 25 passed in it.

Then, in the intercollegiate contests, I knew all the year that you were trying your hardest to win everything, mainly to give me pleasure, and you succeeded. St. Peter's were very good

about it: Head Master, staff, and boys congratulated us most generously. A man must have no heart at all not to feel the worth of this steadfast kindness.

A third cause for thanks to you was that handsome splendid album you gave me. I could not speak my thanks on Speech Day. Perhaps could have done for the book alone, but the address, so full of your kind thoughts about me, and so tenderly expressed, "bereft me of all words."

And now for the "farewell words." Be loyal to your school. Make it "the best school of all." The leaves drop off the trees, but the tree grows on, strong, lasting, ever flourishing and beneficent, and each crop of leaves has helped to make it. Then, when you are men in larger life, let it strengthen your will in times of trial to think "How can I do anything mean, dishonourable, or disgraceful?—Prince Alfreds never do." Make friends of all other Prince Alfreds, and by Divine help live worthy of the body you became one of when you were enrolled in the school. That you may do this, and be a credit to the name you bear, to the school you are part of, to the glorious Empire in whose land you were born, and to the good and gracious King that reigns over it, is the heartfelt wish of

Your affectionate Head Master,

FREDERIC CHAPPLE.

... Prince Alfred ... Old Collegians' Association

Prince Alfred Old Collegians' Association.

THIRTY-SIXTH ANNUAL MEETING.

The Thirty-Sixth Annual Meeting was held at the South Australian Hotel on 29th October last. The President (Mr. N. A. Webb) occupied the chair. There was a fair attendance of members. The report and balance-sheet, printed copies of which have already been forwarded to members, were adopted. The election of officers for the ensuing year was then proceeded with, and resulted as follows:—

Patron—The Head Master.

President—Mr. N. A. Webb.

Vice-Presidents—Messrs. J. R. Robertson, W. D. Taylor, and A. A. L. Rowley.

Hon. Treasurer—Mr. A. G. Collison.

Representatives on College Committee—Messrs. J. H. Burgess, W. Lathlean, A. S. Lewis, W. G. Rhodes, F. N. Simpson, Tom Steele, and H. W. A. Miller.

General Committee—Messrs. J. W. Blacket, C. P. Forwood, R. O. Fox, G. Fowler, H. L. Bowen, L. A. Whittington, and W. S. S. Gilbert.

Hon Auditors—Messrs. R. G. Neill and C. Viner Smith.

Joint Secretaries—Messrs H. W. A. Miller and L. B. Shuttleworth.

The ballot for the right to nominate two boys for the Old Collegians' Scholarships favoured Messrs. R. G. Carter and Collins. (All paid-up members participate in this ballot).

During the evening musical items were contributed by Messrs. W. S. S. Gilbert, R. O. Fox, J. R. Robertson, A. L. Bertram, and A. A. L. Rowley.

Farewell to Old Reds of the Second Expeditionary Force.

An opportunity was taken on Saturday night by the Prince Alfred Old Collegians' Association to entertain those of their members who are leaving with the Second Expeditionary Force at a smoke social at Jackman's rooms, King William Street. The "Old Reds" who have enlisted are—Major Cook, Captain (Dr.) L. W. Jeffries, Captain (Dr.) J. S. Verco (stationary hospital), Lieutenant J. H. Langsford, Corporals A. H. Aldersey, A. V. Hancock, T. A. Shepley, and Privates R. K. Laurence P. B. Bray, A. A. Cooper, K. Macrow, L. S. Driscoll, H. C. Kelly, J. G. Kelly, A. G. Arthur, R. L. Bills, G. G. Masson, G. W. Kennedy, and A. R. Nield.

The President (Mr. N. A. Webb) said he rejoiced to see that so many "Old Reds" had enlisted to fight for the Empire in a war for which there had never been juster cause. Many of the phases of the war had yet to be written, but it was certain that the German invasion of Belgium and the unprincipled warfare waged there would be recorded as the blackest crime in the pages of history. There was no doubt that the heart of every Englishman was with the English Government, and that every Britisher had resolved to stand by the weak unoffending nations, and to defend them with the life-blood of

the Empire. (Cheers.) The sympathy of the world had been aroused by the terrible sufferings of the heroic little Belgian nation, and Germany as a consequence had lost more than she was able to realise. Honourable Englishmen had said that the war would never cease until the Belgian wrongs had been righted. Their hearts warmed to the boys of the old schools who were going to participate. They appreciated their determination to fight for the Empire, and would follow their progress with earnest prayers for their success and for their safe return. (Cheers.) He proposed the health of the Old Collegians who were going to the war.

The Head Master of Prince Alfred College (Mr. F. Chapple) proudly recalled the deeds of the Old Collegians in the South African War. He was impressed with the solemnity of the task that confronted their guests, for it was no picnic that loomed ahead of them. Some of the pick of their citizens were going to the war from Australia, just the same as some of the best sons of England were going from Great Britain. His son Alfred, now in England, had told him that many of the volunteers were the best men England had, and that of one class of 40 of his students nine out of ten had joined Kitchener's recruits. A lady friend had stated that the women were saying that soon there would not be left behind a man worth marrying. He was proud of being British. The reason why their army was doing so well against superior numbers was that the men were volunteers who were fighting for "England, home, and beauty." Their College had a right to consider

itself as a great school, for in the Boer War they had a roll of honour of 64 names. The same spirit that animated those fighters for the Empire was found among the Old Collegians who had enlisted in the present forces, and he was confident that they would maintain the traditions of the school and worthily uphold the reputation of South Australia. (Cheers.)

Lieutenant Langsford and Corporal Aldersey responded.

A letter was received from Mr. T. Ainslie Caterer on behalf of St. Peter's College, wishing good luck to the "Old Reds."

Mr. Chapple mentioned that both St. Peter's and Prince Alfred College had led the way in defence, as they had established cadet teams long before the Commonwealth Government had inaugurated the cadet system. (Cheers.)

The P.A.C. Cadets' Marching Song, written by Mr. N.A. Webb, was sung by Mr. J. R. Robertson, and there was a spirited response to the chorus.

Patriotic songs were also rendered by Messrs. P. E. Johnstone, A. A. L. Rowley, J. R. Robertson, a duet by Messrs. Robertson and Rowley, and recitations by Mr. G. Gordon Swann. Mr. J. A. Haslam was the accompanist.

Old Boys' Reunions.

BRISBANE.

A hurriedly-arranged dinner of "Old Reds" in Brisbane was held at the Cafe Majestic on Friday, July 17. There were present—Messrs. A. F. Cox (left

1883), R. F. Parker (1883), E. H. Wilson (1886), P. G. Taylor (1897), G. Berry (1893), X. A. Seppelt (1898), H. J. Priest (1899), S. B. Robertson (1901), S. D. Schild (1902), A. T. Jeffris (1903), W. W. E. Gray (1903), T. T. Seppelt (1906).

Mr. Aldersey Cox, who presided, had unfortunately to leave us early in the evening, his chair being taken by Mr. Xavier Seppelt.

During the evening several toasts were proposed and responded to in humorous reminiscent speeches. Turso Seppelt excelled himself in a very humorous recitation, and all present joined heartily in the College choruses. Mr. Priest acted as accompanist.

A Committee consisting of Messrs. Cox, X. A. Seppelt, and Schild (Hon. Sec.) was appointed to arrange for future dinners, Dandies evenings, &c.

It is hoped that all "Old Reds" in Queensland may be induced to join the Old Boys' Association and wear the pendant.

GUMERACHA BRANCH.

The third Annual Dinner of the Gumeracha Branch of the Prince Alfred Old Collegians' Association was held at the District Hotel, Gumeracha, on Saturday evening. The dinner was the most successful yet held. The President of the Gumeracha Branch (Mr. Marinus Maughan) presided. There were "Old Reds" present from Blumberg, Tunkillo, Kersbrook, Cudlee

Creek, Chain of Ponds, and Houghton, also visitors from Adelaide, including Mr. F. Chapple, B.A., B.Sc., Head Master of Prince Alfred College, and Messrs. H. W. A. Miller and L. B. Shuttleworth, the Secretaries of the Old Scholars' Association. Mr. Maughan proposed the loyal toast. Mr. Elliot Hannaford, of Cudlee Creek, proposed "Prince Alfred College and its Masters." Mr. Hannaford was among the first scholars at Prince Alfred. Mr. Maughan, on behalf of the masters, responded. In proposing the health of Head Master (Mr. Chapple), Mr. Maughan said that that would be the last time they would entertain him in his official capacity as Head Master of Prince Alfred College. No Head Master had done finer service for the school. The toast was supported by Messrs. H. E. Hoad, G. Naismith, T. Pflaum, J. G. Symons, A. E. Rhodes, J. Pflaum, F. S. Jeffrey, Mervin Maughan, A. Roberts, J. G. C. Symonds, and K. J. McEwin. Mr. Chapple feelingly responded. The "Army and Navy" was given by Mr. K. J. McEwin; "The Prince Alfred Collegians' Association" by Mr. F. S. Jeffrey, and responded to by Messrs. H. W. A. Miller and L. B. Shuttleworth; "Kindred Associations" was proposed by Mr. A. Moore and responded to by Mr. Randall, of Whinham College, and the Rev. J. Talbot, of Harley College, London. Mr. Owen Fox recited. The arrangements were in the hands of the Secretary of the branch (Mr. K. J. McEwin). At the conclusion of the dinner, Mr. Marinus Maughan was re-elected President for the ensuing year, whilst Mr. K. J. McEwin was re-elected as Secretary.

Prince Alfred Old Collegians' Association

ESTABLISHED 1878.

OFFICERS, 1914-1915.

Patron—The Head Master.

President—Mr. Noel A. Webb.

Vice-Presidents—Messrs. J. R. Robertson, W. D. Taylor, and A. A. L. Rowley.

Hon. Treasurer—Mr. A. G. Collison.

Representatives on College Committee—Messrs. J. H. Burgess, W. Lathlean, A. S. Lewis, W. G. Rhodes, F. Simpson, T. Steele, and H. W. A. Miller.

Hon. Auditors—Messrs. R. G. Neill and C. Viner Smith.

Committee—Messrs. J. W. Blacket, R. O. Fox, C. P. Forwood, G. Fowler, H. L. Bowen, L. A. Whittington, and W. S. S. Gilbert.

Joint Secretaries—H. W. A. Miller, c/o A.M.P. Society; L. B. Shuttleworth, c/o Shuttleworth & Letchford, King William Street.

Melbourne Branch—C. A. E. Sullivan, Stock Exchange Club, Melbourne, Hon. Sec.

Sydney Branch—Alfred G. Newman, Vickery's Chambers, Pitt Street, Sydney, Hon. Sec.

Broken Hill Branch—E. M. Holder, Central Mine.

The objects of the Association are:—
To keep Old Boys, wherever they may be, in touch with one another and with the boys at the school; also to foster

and maintain their interest in the School.

The P.A.C. Chronicle, of which a large part is devoted to matters of special interest to Old Boys, is forwarded to each member of the Association.

A dinner is held annually, at a time which is thought likely to give as many Old Boys as possible an opportunity of meeting one another; and social gatherings are held whenever any occasion arises that makes them desirable.

The Association gives annually to the School the Old Collegians' Scholarship, of the value of fifteen guineas, and donates five guineas per annum to the Sports' Fund. Two Scholarships tenable for two years are also awarded and are balloted for by the members.

The subscription is five shillings per annum. The simplest way is to send along a pound for four years, or to make a life payment of three guineas. Any Old Boy wishing to become a member can do so by forwarding his name and address to the Head Master, or to any member of the staff, or to one of the Secretaries.

H. W. A. MILLER,
