## Editorial.

When any great event in the life of the school is approaching, the school is always adjured to "sit together and make a show." This is the key-note of success, that the boys sit together and pull together in all their deeds. If the school is to develop a proper spirit at all, it must pull together for the right and crush everything wrong in it. Moreover, the boys must always stick together with the heads of the school, and support and abide by their decisions. If it should get out among the public that the leaders of a certain school have not the confidence of the school as a whole, then that school will fall. It is just as it is in the outer world. If the heads of a government, or the heads of a business concern, disagree among themselves, then that government or concern will go out of existence. If the members of a cabinet disagree, then that cabinet goes out of office. They are all jointly responsible for the deeds of that cabinet and whatever their private views may be, they must put them aside and throw in their lot with the rest of the body, or get out. So, if a boy does not agree with some of the principles of the school, he must put his own views in his pocket, or clear out. There are no two ways about it, it is one of the unwritten laws of the school. It is one way or the other, and the best course for him to follow is the latter. He will certainly do no good in the school, and he may do a deal of harm. For it is not only what a man says that makes his opinions known to those around him, but also his general bearing towards that which goes on around him. If a boy is in whole-hearted agreement with the policy of his leaders, he will show it unconsciously. He will be enthusiastic in his approbation of their works, and his enthusiasm will spread among his fellows. But if he is not in harmony with his leaders, he cannot even appear to be so. His enthusiasm will either be conspicuous by its absence, or it will be of the forced kind, which does more harm than good. He unconsciously sows the seeds of discontent in the minds of his school-mates, and a discontented school cannot succeed. Outside people, too, will notice his lack of enthusiasm, and will talk among themselves; evil rumours will get about, and do serious harm to the school's reputation.

A school is a big boat, in which all must pull together, and pull their hardest. But a boat will never get anywhere if there is not a steady hand to guide it. The crew must always listen to the cox—obey first, and question later. But that is not the great point. First and foremost, they must pull together; if they do, they need not worry much about listening to the cox, and the cox need not worry about them. It always encourages those who are working for the school in field or exam. room, to know that the rest of the school is pulling with them, and not leaving them all the work.

A school is a body. United it stands, but divided it falls; and if boys do not hang together in a body for the protection of their school's good name, then the school will lose its good name, and find a bad one instead. It is far easier to break a bundle of sticks one by one than as a whole, and if the boys themselves all cling together to resist any force which would break a school's "bundle of life," then will their resistance be successful; but, if they do not, then resistance will fail. P.A.C. now has a good name; and we must all hang together for its protection, if we want to sing with our accustomed confidence, "Reds can't be beat!"

---

## School Notes.

---

The following awards were made after the results of the public examinations were published:—John Dunn Scholarship, A. J. Chandler; Old Collegians' Scholarship, C. W. Crompton; Colton Scholarship, R. H. Dodd; Longbottom Scholarship, W. G. Taylor; Robb Scholarship, A. L. Dawkins; Malpas Scholarship, S. Krantz; Arnold Davey Scholarship, R. S. Pontifex; Senior Elder Scholarship, H. M. Wilson; Wills Scholarship, R. W. Hounslow; Cotton Medal, H. P. Matthews; Alfred Muecke Prize, W. A. W. Evans; Smith History Prize (Senior), S. Williams; Smith History Prize (Junior), S. H. Hocking.

The following received awards from institutions outside the school:—C. T. Symons and R. H. Dodd were awarded senior exhibitions, and D. D. Harris and W. C. Alexander junior exhibitions by the Education Department; R. S. Rhodes was awarded a Creswell Scholarship; A. L. Humphries was awarded an entrance scholarship to Roseworthy College.

As C. W. Crompton had decided to enter commercial life, he was unable to accept a government bursary. He will, however, take up a course of university work bearing upon his future career.

The names of D. R. W. Flavel and J. H. Delaine were unfortunately omitted in the list of successful juniors published in our last issue. Flavel passed in English, Latin, Arithmetic, and Mathematics; Delaine in English, Latin, Arithmetic, Mathematics, and Chemistry, with credits in Latin and Arithmetic.

---

The following gifts to the library are acknowledged with thanks. Four volumes of adventure, a parting gift from P. T. Stratmann, whom we were sorry to lose on the departure of his family for South America. From H. E. Williamson a copy of "Sir Gibbie." From Mr. K. W. Smith a copy of "The Indiscretions of Archie." From Mr. W. L. Davies a copy of "The Blue and Brown Diamond," the history of the 27th Battalion on active service. This should prove of unusual interest to us, because Captain Blacket and Lance-Cpl. G. C. Davies, the two members of the staff killed in the war, served in the 27th.

---

The school shared in the grief felt by the whole community at the death of Sir Ross Smith. D. G. McKay, on behalf of the school, wrote to his parents, expressing our pride in the achievements of their son, and conveying our sympathy in their sorrow. His letter was much appreciated by them.

---

Mr. Wisewoulds's address in the last term of last year brought home to us all the awful conditions of life in Central Europe, and it was decided that, before closing the year, the school should express its gratitude for our different circumstances by contributing to the fund opened to relieve the distress. £7 was collected towards the fund. It was felt that this amount by no means did justice to the spirit of the school, but the matter was left till the very end of the term, after the cricket match had started, and school life was so much disorganised that any organised effort was difficult.

---

Hearty thanks are expressed to Mr. J. D. McTaggart, who so kindly presented a picture to the school. It is a view of Pisa, the city of Italy in which stands the famous leaning tower. May we suggest to others this method of helping the school? Such gifts not only adorn the buildings; they are full of instruction, and bring before the boys some idea of famous places it is only possible for a fortunate few to visit. There are many much appreciated gifts of this kind on our walls, but there is room for ever so many more.

---

On April 24, Mr. W. S. Kelly attended assembly as the representative of the Returned Sailors' and Soldiers' Association, to address the school on the significance of Anzac Day. In simple,

earnest language he told us his estimate of the Anzacs from personal contact with them at the front, and of the appreciation of their work expressed by men in England. His words seemed to bring us into living touch with what he described, and made us feel that the school should not forget, but that, individually and corporately, we should cherish the memory of the day and of those who so gloriously made it worthy of remembrance.

---

Rev. J. H. Allen visited the school during the term, and spoke very earnestly at assembly on phases of life in India which prevent her sons from rising to high ideals of manhood. Mr. Allen is to give the address at the Old Collegians' Annual Service on July 30.

---

As a school we shared in the regret so generally felt at the departure of Sir Archibald Weigall. No Governor has entered more fully or heartily into our school life than he, nor has any associated with the school in such a companionable manner. On behalf of all, the Captain of the School wrote to Sir Archibald expressing appreciation of all he had done for us. He received the following reply on the eve of the Governor's departure :—

My dear McKay,

Thank you very much indeed for your kind note, and tell the school how much I enjoyed all my associations with them, and that I will ever remember all the kindness extended to me.

Wish them all happiness, and say: "Good luck and God bless you!"

Yours sincerely,

ARCHIBALD WEIGALL.

---

A hearty welcome is extended to Messrs. C. V. Taylor, J. S. Steele, S. Williams, S. Joyner, and L. A. Allen, who joined the teaching staff at the beginning of the year.

---

We miss the ministerial students from our ranks. For many years past the "parsons" have formed a special feature of the school life. We congratulate them most heartily upon having entered a home of their own, and Rev. Frank Lade, M.A., upon his appointment as Principal of Brighton College. We wish for the College a long and prosperous life.

---

## Old Boys.

---

At the March examination, L. J. Nesbit passed in Law of property, Part I.; C. W. Reeves in Law of Wrongs and Constitutional Law.

---

Dr. R. W. Cilento has taken the diploma in tropical medicine

in London, with the gold medal for the year as top of his year. In 1921, after spending a year in the service of the Government of the Federated Malay States, he went to England to continue his studies in tropical medicine preparatory to taking up an important appointment in the laboratory section of the Commonwealth Department of Health.

---

Rev. J. H. Allen is visiting Australia on an extended furlough from India. He will travel through the Commonwealth somewhat extensively in the interests of the Foreign Missionary enterprises of the Methodist Church.

---

Alan Treloar won the Junior Championship at the recent tennis tournament.

---

A. R. Taylor, E. T. Rowe, C. Gurner, G. M. and F. R. Hone, R. W. Cowan, A. M. Dawkins, and R. C. Thomson represented the Reds in an Old Collegians' match against St. Peter's Old Collegians recently. After a spirited contest our representatives were defeated.

---

Dr. J. L. Glasson, M.A., after two years' research work at Cambridge, has accepted an appointment as Lecturer in Natural Philosophy at the University of Melbourne.

---

---

## In Memoriam.

---

James Melrose died at Glenelg on April 16, 1922. He entered the School in 1872, and was one of the best athletes of his time, and winner of the College cup.

---

Fred. Coombs died on April 15, 1922. He entered the school at its opening in January, 1869. He was the thirteenth boy enrolled.

---

Morgan Meyrick died on January 26, 1922. He entered the school in 1875. He had a brilliant career at school, which closed with his taking a high position on the matriculation list of 1882. He devoted himself to journalism, for which he was eminently adapted, but failing health greatly hampered him in later years.

---

Charles H. Nitschke died on March 16, 1922. He entered

school in 1879. He represented the school in both cricket and football.

F. R. Zietz died on April 10th, 1922. He entered the school in 1890. His life was given up to the study of ornithology, of which he was one of the foremost exponents in the Commonwealth.

G. R. Woolcock died on March 16, 1922. He was at the school during 1917-18-19. He had been on a holiday trip to Renmark, and on the return trip, while the steamer was loading, he was swimming round the boat, when suddenly he gave a cry of distress, and disappeared immediately.

---

## Boarders' Notes.

As seems to be the order of recent years, we began this year with a full house, being strengthened by the inclusion of a goodly company of new boys. On the other hand, our ranks have been considerably enfeebled by the passing out of most of the former heads, some, we are sorry to state, having degenerated into day boys. However, with so much new blood available, a fine spirit should be developed during the year.

We are glad to see Mr. Williams back among us as a member of the staff, and to him and his colleagues, Messrs. Joyner and Allen, we extend a hearty welcome.

Neptune seems to miss his old surroundings a great deal, and is frequently to be seen making a dash for his natural fluid. However, we are glad to say that he is rapidly making himself at home under his new conditions, as the appearance of the tablecloth and his neighbour's plate generally shows.

We extend our heartiest congratulations to Bartholomaeus, Bell, Taylor, and Chandler on being appointed Prefects, and to Hodby and Dawkins on their appointment as House Prefects.

The Senior Dorm. received a rude shock one fine Wednesday night in March. It appears that these privileged members of the boarding house were unable to control their jubilant spirits, even after "lights out," and things looked pretty black when, after a few minutes of riotous behaviour, they found themselves fully (?) dressed and lined up in the schoolroom. It might reasonably be thought that the majority of their number, who always jump into their clothes in a minute or so every morning, could have dressed

in five minutes even though in the dark. However, the manner in which some of the company were attired on this occasion seems to contradict this idea. For the whole dorm. to be up till 10.30 one night, and holding night school till 10 p.m. the next night, is an event, we believe, unprecedented in the annals of the boarding house, and those fortunate fellows who participated in this unique happening can look back upon it with justifiable pride.

We now have installed in the boarding house a fine "x-ray" apparatus, so that any boy who wishes can obtain an "x-ray" card on Saturday. Needless to say, this has attracted a great deal of attention—and also detention.

We played our annual cricket matches against Saints' boarders during the term. The firsts played on our ground, and Saints, on winning the toss, went in to bat, and compiled the respectable total of 256. Mainly owing to the splendid innings of Chapman and Bell, we made 170. Most of the other batsmen failed to reach double figures, so we finished 80 runs in arrears. The seconds won easily, mainly owing to the brilliant innings of 63 not out by Taylor.

---

#### CRITIQUE OF BOARDERS' FIRST ELEVEN.

(By Fine Leg).

Bell, D.—A very fine wicket-keeper. Can generally be relied upon to take the sting off the balls for slips. Good bat, often making a few runs.

Bayly, G. L.—A breezy bat, often getting the "wind up"; when in the field, thinks it a great joke to let balls go for 4.

Chapman, H. T.—Fair bat and a tripey bowler, but has been known to lob one on the pitch. Can always field well off his own bowling.

Chandler, A. J.—Fine worker. Pulls like mad; only off stroke is a mis-hit off back of his bat. Bowls slow deceptive swerves (generally away from the wicket).

Greenslade, H. J.—Puts "breeze" up batsmen by pretending to bowl fast. Swerves three ways at once. Suspected of being a good bat, but never makes any runs.

Hall, H. F.—An (H)allright left-hander. Excellent field, catching anything from a ball to a cold.

Hodby, L. D.—A very "fine" bat. Excellent field, catching out many batsmen, as they generally mistake him for a tree.

Hurn, W. M.—Would (H)earn his place in any team. Always bowls half-pitchers, and never gets out when batting. Can't field for nuts.

Paterson, E. R.—Good reputation as a bat—he once made 20. Swerves when bowling against the tide on a wet wicket. Is a “bute” field.

Pearce, H. J.—Good bat, backing up well with his pads and whiskers. When bowling he “appears” to go mad, and does his best to kill the batsmen.

Tiddy, M. P.—A good “all-rounder.” When he is batting the balls always seem to miss his bat. Good field, no balls being able to get past him.

---

We are pleased to see Trestrail back again after his prolonged illness, and will be glad to welcome him back to the boarding house next term.

Not being content with cricket, certain lively members have been trying to introduce horse-racing into the peaceful life of the boarding house. On certain summer evenings they turned their attention to a harmless old cow, and some promising jockeys were discovered. Charley showed great talent, and should develop into quite a good “cow-boy” later on. This versatile youth has also shown great lasting powers, especially when he annexed the soup-championship from “Gilbey,” the latter being unable to retain his title, and incidentally his soup.

We regret to state that happy Saturday evenings spent in the dining-room are becoming a thing of the past. It is rumoured that the front fence possesses considerable magnetic qualities, and, judging by the attractive force which it exerts on Saturday nights, this seems to be so. However, we are all eagerly looking forward to the boarders' evening to be held next term, when these magnetic youths won't be able to “growl” about having to leave the fence.

We would be glad of enlightenment on the following:—

Where do the boarders drop all their bricks?

Who sewed up those pyjamas?

What are locks and keys for?

Why does the boarders' soup slide down so easily?

Why did woof woof?

In conclusion, we wish our worthy friend Johnny, who is leaving this term, every success; and to those returning, we express the hope that they will spend another happy period of life in the boarding house.

---

## Tennis Notes.

---

Owing to the fact that the annual tournament was becoming larger every year, and consequently increasingly difficult to manage, it was decided not to hold it this year. Two practice teams were

selected, and practice took place on Monday afternoons, and some promising material was unearthed. It is hoped in this way to make tennis play a larger part in the athletic life of the school.

House Matches were commenced, and one round in both grades was completed. Interesting contests ensued in both singles and doubles. Colton have so far been the most successful, though several of the houses will undoubtedly run them very close before the end. It was found impossible to hold more than one round, on account of the proximity of the house and intercollegiate sports. There was some discussion at first concerning the most suitable number for a team, but two was at length decided on.

Appended are the results of house matches:—

#### A GRADE.

Colton v. Waterhouse.—Smith lost to Warnecke, 2-6; Chapman beat Chandler, 6-3; Smith and Chapman beat Warnecke and Chandler, 6-4. Total, Colton 2 sets, Waterhouse 1 set.

Spicer v. Cotton.—Krantz beat Piper, 6-2; Berriman lost to Leader, 6-8; Krantz and Berriman beat Piper and Leader, 6-4. Total, Spicer 2 sets, Cotton 1 set.

Malpas v. Robb.—Hone beat McKay, 6-4; Eaton lost to Woolcock, 3-6; Hone and Eaton beat McKay and Woolcock, 6-2. Total, Malpas 2 sets, Robb 1 set.

#### B GRADE.

Colton beat Waterhouse, 3 sets to 0.

Cotton beat Spicer, 2 sets to 1.

Malpas beat Robb, 3 sets to 0.

## Cricket.

#### FIRST ELEVEN MATCHES.

[Played 5, Won 1, Lost 3, Drawn 1]

v. Adelaide B.—P.A.C., 95 and 80. Adelaide B., 196; McKay 3 for 26, Dodd, 3 for 32.

v. Methodist Conference.—P.A.C., 8 for 142; Krantz 34, Chandler 32\*. Conference, 7 for 131; McKay 2 for 19, Hodby 2 for 15.

v. Sturt B.—P.A.C., 163 and 6 for 141; Berriman 38, Hone 35, Krantz 25 and 59\*. Sturt B., 2 for 284.

v. Port Adelaide B.—P.A.C., 170 and 4 for 90; Krantz 86\*, M. Evans 45, Berriman 28. Port Adelaide, 261; Dodd 7 for 66.

v. Kybunga.—P.A.C., 7 for 173; Krantz 52\*, McKay 37, Eaton 25. Kybunga, 151; McKay 3 for 15.

#### SECOND ELEVEN MATCHES.

[Played 4, Won 2, Lost 2]

v. S.P.S.C. II.—P.A.C., 102; M. Evans 25, W. Evans, 17. Saints, 189 and 68; Hodby 3 for 10, W. Evans 3 for 31.

v. Concordia.—P.A.C., 99 and 9 for 148; Hodby 52, Balfour 51, Greenslade 28, Preston 18. Concordia, 112 and 109; Storer 5 for 46 and 6 for 46, Pearce, 4 for 50.

v. A.H.S.—P.A.C., 93 and 6 for 80; Stephens 23, Bayly 19, Paterson 19. A.H.S., 108 and 85; Pearce 5 for 43 and 2 for 24, Paterson 4 for 21 and 4 for 19, Chapman 3 for 14.

v. Scotch.—P.A.C., 91 and 7 for 54; Bell 28, Chapman 21. Scotch, 99 and 30; Pearce 3 for 18 and 6 for 10; Hurn 3 for 29 and 2 for 9.

#### THIRD ELEVEN MATCHES.

[Played 7, Won 6, Lost 1]

v. S.P.S.C. III.—P.A.C., 8 for 148; Cole 38. Saints 90; Iliffe 3 Wkts., Lewis 2 wkts., Chapman 2 wkts.

v. C.B.C. II.—P.A.C., 6 for 176; Chapman 54\*, Cole 35, Woolcock 26\*. C.B.C., 27 and 3 for 18; Storer 5 for 12, Iliffe 3 for 14; Lewis 3 for 10.

v. A.H.S. II.—P.A.C., 174; Woolcock 27, Lewis 27, Hurn 24, Wundke 23, Cole 24\*, Hall 23. A.H.S. 32 and 6 for 51; Tiddy 5 for 14, Woolcock 3 for 9.

v. Concordia II.—P.A.C. 176; Chapman 61, Woolcock 29, Wundke 22. Concordia, 53; Lewis 6 for 9, Piper 2 for 5.

v. A.H.S. II.—P.A.C., 73; Hurn 19. A.H.S., 56; Hurn 3 for 4, Iliffe 2 for 5.

v. C.B.C. I.—P.A.C., 98; Clarkson 32, Iliffe 17, Sutton 16. C.B.C., 138; Clarkson 3 for 31, Hurn 2 for 11.

v. Scotch II.—P.A.C., 6 for 225; Preston 80, Greenslade 51\*, Sutton 46, Chapman 29. Scotch, 60; Iliffe 3 for 12, Waterford 5 for 17.

#### FOURTHS.

v. S.P.S.C. IV.—P.A.C., 9 for 124; Tiddy 25\*. Saints, 122; Taylor 3 wkts., Stevens 3 wkts.

v. C.B.C. III.—P.A.C., 127; Tiddy 44, Burns 28. C.B.C., 145.

v. C.B.C. II.—P.A.C., 92; Waterford 22, Woods 18. C.B.C., 9 for 105; Waterford 5 for 22, Taylor 2 for 10.

FIFTHS.

v. Saints V.—P.A.C., 98; Croser 29. Saints, 96; Richards 7 wks.

v. Sacred Heart III.—P.A.C., 34. S.H., 133; Torr 2 for 14, Copping 2 for 12.

UNDER 13.

v. Scotch College.—P.A.C., 124; Reynolds 29, Willsmore 27. Scotch, 121.

v. Sacred Heart.—P.A.C., 142; Holmes 39\*, D. Richards 39\*. Sacred Heart, 24; Alexander 4 for 5.

FIRST ELEVEN AVERAGES

(First Term, 1922).

COMBINED COLLEGES V. THE GOVERNOR'S TEAM.

Played on the Adelaide Oval, March 28th.

His Excellency's association with the School, though brief,

was a very happy one, and his enthusiasm for cricket endeared him to all of us. This match was in the nature of a farewell to the three colleges at whose Speech Days His Excellency had presided. Fortunately the weather was ideal, and a half holiday having been granted in honour of the occasion, the schools mustered in force. Our representatives in the combined side were McKay, Krantz, Hone, and Dodd.

The colleges had first use of the wicket, but the first few balls revealed a soft patch at the northern end. Several deliveries bumped, and the opening batsmen adopted cautious tactics. Krantz, batting soundly, remained unconquered at 28, and then made way for the next batsman. Hayward and Wainwright (Saints), and Loutit (Scotch), also did well with the bat, and at 4.15, as time was getting rather short, the innings closed. Pridmore, with his slows, had again proved a conundrum to our fellows.

Our opponents opened more briskly, and several sixers quickly carried their total forward. Dodd chased a difficult chance in the outfield, and held it, Clem Hill being the victim. Dodd further distinguished himself by dropping His Excellency off his own bowling. A simple chance, but even simplicity has its subtleties. However, the same bowler had his revenge a few moments later. The Walsh brothers gave an excellent display of batting for their side, each remaining not out. The Government House innings closed for 177. Details as follows:—

COMBINED COLLEGES,	
Wainwright, c. Winser b. Thiele	21
Krantz, retired ... ..	28
Moorhouse, c. and b. Thiele ...	0
McKay, b. Pridmore ... ..	11
Lee, c. Walsh, b. Pridmore ...	0
Hone, c. Walsh, b. Thiele ...	4
Johnston, st. Winser b. Pridmore	15
Hayward, st. Winser b. Pridmore	28
Loutit, not out ... ..	22
Dodd, b. Pridmore ... ..	4
Bagshaw, not out ... ..	5
Sundries ... ..	13

Total for 9 wckts. (declared) 151

Bowling.—Thiele 3 for 58, Turner 0 for 12, Pridmore 5 for 68.

GOVERNMENT HOUSE.	
N. A. Walsh, retired ... ..	52
Pridmore. c. Moorhouse, b. Wainwright... ..	17
Winser, run out ... ..	6
Hill, c. Dodd, b. McKay ...	10
Duncan, run out... ..	19
L. Walsh, not out ... ..	20
His Excellency, c. Loutit, b. Dodd... ..	5
Turner, retired ... ..	39
Lewis, c. Wainwright, b. Dodd	1
Houston-Boswall, run out ...	0
Thiele, b. Bagshaw ... ..	2
Sundries ... ..	6

Total... .. 177

Bowling.—Lee 0 for 20, Loutit 0 for 20, McKay 1 for 29, Wainwright 1 for 33, Bagshaw 1 for 20, Dodd 2 for 43.

#### SENIOR HOUSE CRICKET.

Colton v. Waterhouse.—It was rather unfortunate that the two boarding houses should have to play off before they had properly

settled down, but on the other hand it was fitting that these two old rivals should set the ball rolling for the 1922 season. It was a wintry day when the match was begun, with an awkward cross wind blowing, which gave the bowlers some assistance. Waterhouse won the toss, and sent Colton, who were without Pearce, in to bat. The wickets fell quickly, Bayly being the only one to offer any resistance, until Tiddy and Burns came in and helped him to stem the attack. With these three out, however, the wickets again fell rapidly, and the whole side was out for 80, of which Bayly made 21, Burns 25, and Tiddy 17. Waterhouse went in and lost 2 for 16 overnight. The third wicket fell early on the second day, and then Bell and Chandler became associated, and gradually pulled the game out of the fire. Between them they collared the bowling, and by the time Chandler had been bowled by Hodby for 27, the match had been won. The final score was 5 for 107, Bell remaining unconquered with 36 to his credit. Chapman got 4 for 27, and Hodby 2 for 26.

Robb v. Malpas (or "The tale of the batting collapse.")—Robb batted first, and made a bad opening, Dodd getting 3 wickets with his first three balls. None offered any resistance except Woolcock, who made 12, and the whole side was out for 25. Dodd got 5 for 13, and W. Evans 3 for 10. Malpas opened disastrously, and at the drawing of stumps had 4 down for 18. They continued next day, and soon were all out for 39, thus losing all hope of gaining a four-pointer. Baseby made 12. McKay bowled well, securing 5 for 17. Robb had a second innings, and proved their real worth, making 54 without loss. Woolcock made 27 not out and Wundke 25 not out.

Malpas v. Colton.—Colton, who now had Pearce to help them, felt more confident. Malpas won the toss, and sent Hone and W. Evans in to open. Evans soon departed for 1, and his brother helped Hone to carry the total to 25, when he too departed for a similar total. Soon after Hone was clean bowled by Tiddy, who was bowling well and making the ball kick merrily. The next two batsmen, Dodd and Giffen defied the bowling for nearly an hour, and by solid cricket were responsible for a 50 partnership. Hodby, who was keeping a good length, finally broke through Dodd's defence. With Dodd (31) and Giffen (20) out, the remainder of the team vied with one another as to who could get out the quickest, and the last wicket fell with the score at 79. Malpas was evidently under the impression that it had the game safe, as it had in the previous week dismissed Robb for the meagre total of 25. Pearce 6 for 22 and Hodby 2 for 5, shared the bowling honours. Colton started poorly also, the first four wickets falling for 30, Bayly being the only one to make a stand. When Bayly retired with 23 against his name things were not looking too rosy. However, Hurn and

Preston came to the rescue, and while Hurn was chiefly on the defensive, Preston batted vigorously, and clipped seven fours in a very short time, giving quite the brightest exhibition in the match. The game was now won, and the batsmen took more risks. Preston was stumped for 38, and was carried off the field. The innings closed for 110. Dodd, in sacrificing his slow leg-breaks for the fast stuff, was not as effective as usual. He finished with 4 for 31, and was supported by W. Evans (3 for 31).

Cotton v. Spicer.—Cotton batted stubbornly against the bowling of Spicer, and managed to compile 71. Krantz was bowling too short, and Berriman (4 for 36) who was bowling splendidly at the start, was bowled long after he had lost his sting. Wickes with his enticing slows was the most successful bowler, and obtained 4 for 8. Piper made 19, and Stevens batted over an hour for 7 runs. Spicer did not seem to have a very difficult task in front of them, but they had to reckon with Storer, a left-arm bowler. He varied his pace well, and went right through the opposing batsmen, capturing 8 wickets for 14 runs. Krantz 22, and Hounslow 19, were the only batsmen who made any show against the attack. Storer was supported by Piper, 2 for 13.

Cotton v. Waterhouse.—Chandler and Bell, the heroes of the Colton Match, again did yeoman service, Chandler helping himself to 60, and Bell playing nicely for 31. Piper, 3 for 45, and Stevens, 4 for 18, were the bowlers with the best figures. With 138 on the board, Waterhouse were confident of victory, but they were hardly prepared for Cotton's response of 145 for 8 wickets. Cotton's success was largely due to Piper's score of 50, and their opponents' fielding, Waterhouse trying hard to let every ball go to the boundary. Stevens also batted solidly for 36, and was the chief instrument in Cotton's winning the match. A close finish was witnessed, Cotton just scraping home by two wickets. Bell obtained 3 for 7 when the tail came in, Chandler 3 for 37, and Hall 2 for 16.

Robb v. Waterhouse.—Robb won the toss, and sent Woolcock and Wundke in to face the bowling of Chandler and Hall. Robb batted steadily, and made 121. McKay batted well for 45. Iliffe 18 and Lewis 16 also helped to augment the score. On the following day Waterhouse decided to give Robb every chance to win, and so sent the tail-end in first. Six down for 10 was not a promising start, particularly as Paterson had made 5 of these. Paterson continued to keep his end up, but Bell, the next batsman, soon went, being bowled by Lewis in attempting to hook a short ball. Chandler was in next, and saved the team from disgrace by making 31 not out. There was now no one to stop in with him, and the innings closed for 70, thus giving Robb their first victory. Woolcock 4 for 11, Lewis 3 for 17, and McKay 3 for 12, all bowled well.

Spicer v. Malpas.—Spicer took first knock, and could only manage 40. The bowling was fairly accurate, and the batsmen took no chances, being over cautious if anything. Krantz 15 and Allen 12, were the only double figure scorers. Malpas on the following day passed the score with 9 wickets in hand. Hone, 32, and G. Eaton, 30, were the chief scorers. The final score was 9 for 118. Waterford obtained 5 for 21, and Krantz 2 for 27.

Robb v. Spicer.—Krantz and Hounslow opened for Spicer, and the first wicket fell at 40. Krantz batted well for 40, but except for Sutton, 15, and Alexander, 18, received little support. The last wicket fell at 118. The chief trundlers for Robb were McKay 3 for 32, Lewis 3 for 31, Clarkson 4 for 16, and Iliffe 1 for 5. Robb started disastrously, Woolcock going almost immediately for 0, as the result of a splendid catch behind. However, the next partnership resulted in 98 runs, and practically won the match. The two batsmen were McKay, 59, and Wundke, 43. With these two gone, the wickets began to fall, and the final score was 7 for 133. Spicer's fielding was good, some very difficult chances being accepted. The bowling analysis showed: Sutton 3 for 21, Waterford 2 for 38, and Krantz 2 for 42.

Colton v. Cotton.—Cotton won the toss, and sent Colton in to bat. The wicket was fast and true, but runs came slowly. The opening batsmen, Cole and Stevens, were quite content with keeping their wickets up. Cole was eventually caught at square leg off Hodby for 19—1 for 24. Piper joined Stevens, but the rate of scoring still remained very slow. Piper was extremely lucky, and several lives were given him, but Stevens never looked like getting out. The bowling was good, but the batsmen could not be separated. The scoring book showed 1 for 74 at close of first day. On the following day the bowling was distinctly poorer, much loose stuff being sent up, which was severely dealt with. Piper was soon bowled by Pearce, and retired with 30 against his name. Fisher took advantage of the weak bowling, and banged four after four. He was finally dismissed for 46, Bayly bowling him with a good length ball. Cotton were now in a good position, and, in spite of Colton's efforts, remained in charge of the wickets at the end of the second day, with the score at 8 for 188. Cotton then declared, and sent Colton in to bat. Bayly and Pearce opened, but Bayly was immediately caught and bowled by Storer. Tiddy, the next man, was yorked by Piper for 0, so Chapman came in to stop the rot. He saw Pearce mishit a full toss and retire. Preston filled the breach, and for half an hour the bowling was defied, though the scoring was slow. Preston played a very useful innings, and just when he looked like stopping there all day, got caught behind off Stevens. Chapman had made 23 by good cricket, when he was bowled by Storer with a "clinker." Storer immediately got another

into Burns, but Hurn and Hobby put on a few together, Hurn batting very patiently for 35. In spite of the tail wagging, Colton only amassed 102, thus giving Cotton a substantial win. The deciding factors in the game were the innings of Stevens, and the fine bowling of Storer, 7 for 30.

#### JUNIOR HOUSE CRICKET.

Colton v. Waterhouse.—Colton had first use of the wicket, but could only manage 51, of which J. O. Tiddy made 17 and Brown 13. Ellis Martin obtained 7 for 21, and did most of the damage. The opening batsmen for Waterhouse were Cheffirs and Copping, who made a useful first-wicket stand. Martin and Cane were quickly dismissed, but Drew and Franks refused to be dislodged. The bell went with the score at 4 for 56. Drew remained 19 not out, made by good cricket. Great was the rejoicing among the Waterhouse Juniors that night over their six-wicket victory. For once they had defeated their formidable rivals.

Colton v. Malpas.—Malpas, going in first, batted all the first afternoon for the moderate score of 5 for 50, but on the following day Jarrett, a left-arm bowler, got on the spot, and Malpas were all out for 78. Eaton played well for his 30, and at times his stonewalling tactics reduced Capt. Tiddy to the verge of desperation. Jarrett finished with the good figures of 7 for 15. Colton passed their opponents' score with 3 wickets in hand. The only ones to reach double figures were—Tiddy 32, Brown 11, and Crossing 12 (including a beautiful sixer). Drew, with 5 wickets was the most successful bowler.

Robb v. Malpas.—Malpas started and compiled 87 runs. L. Drew (20) and R. Eaton (22) shaped well, and the latter was unfortunate in being run out. The wickets were shared by Kayser, 2; Dixon, 3; McKay, 2; and Clarkson, 1. Robb, after a poor start, looked like winning at one stage, but finally collapsed with the score at 49. Eaton bowled very well for the first few overs, and clean bowled the first three men; after that his length went to pieces, and Bayly and Johns did the damage.

Waterhouse v. Cotton.—Cotton started very well, and rattled Waterhouse by making 132 runs. Woolcock, 45, and Webb, 20, both batted well. The Cottonites followed this up by dismissing their rivals for 18 runs, of which half were due a generous wicket-keeper. The batsmen could do nothing against the bowling of Fisher and Webb; Fisher, with his long run thoroughly frightened them and bowled really well.

Waterhouse v. Robb.—Waterhouse, after a poor start, managed to make 59. S. March made 21 not out in good style, and Copping obtained 12. Kayser obtained 6 wickets, and Badcock 4.

Badcock would have done much better if he had only bowled over the wicket, and bowled less on the leg. Robb seemed to have a good chance of obtaining a victory, but they collapsed altogether, and gathered only 21 runs. No one reached double figures. The batsmen went down like nine-pins before the bowling of Martin (6 wickets) and Copping (3 wickets).

Malpas v. Spicer.—Spicer went in, and Pittman, the first man, gave them a good start with 20, but Chapple (11) and Alexander (15) were the only ones to support him, so the total was only 81. Edwards, Johns, and Drew shared the wickets between them. Malpas just failed to reach Spicer's score, and lost by 4 runs. Drew 14, Jenkins 17, Chapman 13, ran into double figures, while Holmes and Richards were the most successful bowlers.

Spicer v. Cotton.—Cotton made a very poor showing, and were all out for 39. The top scorer was Mr. Sundries (6). Holmes 3 for 1, Pittman 3 for 12, Richards 2 for 9, and Wight 2 for 6, kept the runs down. Spicer only just squeaked home with the score of 46, Webb and Fisher bowling with good results.

Spicer v. Robb.—Spicer batted first, and compiled 108. The chief scorers were D. Richards 22, Alexander 23, and H. Richards 26. Kayser obtained 7 wickets, and McKay, Dixon, and Badcock 1 each. Robb were dismissed for 58. Hoath 11, Lawton 13, and Collins 11 made most of the runs. H. and D. Richards, with 4 wickets each, did most of the bowling.

Colton v. Cotton.—Cotton batted first, and had high hopes of a big score, but they could only manage 40, Jarrett 7 for 18, and Tiddy 3 for 9 being right on the spot. Not one Cotton Junior obtained double figures. Colton, in response, made 84 (Brown 15, Tiddy 18, Adams 11, Jarrett 10). Bowling for Cotton—Torr 4 wickets, Woolcock 3, Webb 2, Fisher 1.

---

## Cadet Notes.

---

We returned from our holidays full of spirit, and the first day did not seem at all like a school day, but on the second the fact that we were at school was brought home to us forcibly, for at the close of the day there was a cadet parade. The boys were mustered in the assembly hall, and the enrolment of new boys was the only business of the day. There was not as big a batch as usual to be drafted into the Senior Cadets, and as the school is stronger numerically this year than last it may appear inconsistent.

The explanation is that the average age of the boys admitted this year is considerably below that of previous years.

At the beginning of the year we were faced with a shortage of N.C.O.'s, and therefore a number of Cadets received rapid promotion. Although the majority of them have had no previous experience, they are proving themselves equal to the task, and are now almost as proficient as their predecessors. We have also been deprived of three of our officers, Second Lieutenants Luke, Cooper, and Humphries, and these places have been filled with new men. The best tribute that can be paid to these new commanders is that the company has settled down to solid work, and is making steady progress.

Guard!! 'Shun!!! Again this term we clicked our heels at this command. Our company was paid the honour of being asked to provide about sixteen Cadets for the Guard of Honour to be present at the Governor's farewell levee. At the close of the proceedings the Governor addressed the guard, and complimented us on our showing, after which he gave us his farewell message of inspiration and encouragement.

We beg to acknowledge receipt of the following, and will be glad to receive notification of any omissions either to acknowledge receipt or to forward our own magazine:—St. Peter's School Magazine, Adelaide High School Magazine, Wesley College Chronicle, The Scotch Collegian, King's School Magazine, The Pegasus, The Sydneian, Wattle Blossom, Cranbrook School Magazine, Walford House Magazine, Yoothamurra School Magazine, The Launcestonian, Queensland University Magazine, The Southportonian, Girton House Magazine, The Student, The All Saints' Grammarian, The Swan.

## Intercollegiate Sports.

On Friday, April 28, the Adelaide Oval was again the scene of a hard-fought contest, when the twenty-fifth Intercollegiate Sports Meeting was held. Although the sports were held on a Friday, there was a large attendance, and the spectators were treated to an exceptionally fine display, a high standard of sport being maintained throughout the whole of the afternoon. We wish here to express our gratitude to Miss Murray, who graciously consented to present the cup to the winning team, and to distribute the medals to the winners of the events.

Although the weather was threatening, only one light shower of rain fell during the afternoon, but a light north-easterly wind, while helping the finishes of the long-distance races, proved a hindrance in the others. Hence, while the former were run in almost record time, the latter, with the exception of the under 16 hurdles, were rather slow.

Krantz captained the team for Princes, and it was largely due to his splendid performance that we eventually emerged the victors by  $64\frac{1}{2}$  points to  $55\frac{1}{2}$ . Besides equalling the record for the 220 yards (one that has stood for 20 years), he gained 23 points out of a possible 25, and during the whole of the afternoon he allowed no St. Peter's competitor to finish in front of him.

Another feature of the afternoon was the performance of our under 16 representatives, who created a record by gaining 19 points to St. Peter's 2. Each of those sterling performers, Waddy and Axford, gained 8 points, and both were unfortunate in missing records by  $\frac{1}{5}$  sec., Waddy in the 440 yards, and Axford in the hurdles.

Taken on the whole, our men gave a splendid display, and thoroughly deserved their victory.

120 Yards Senior Hurdles.—R. Krantz (Princes), P. K. Lee (Saints), D. G. McKay (Princes). Time, 17 secs. Krantz obtained a splendid start, and reached the tape a few inches ahead of Lee, with McKay a close third.

100 Yards Flat (under 16).—L. E. Waddy (Princes), D. T. Axford (Princes), F. W. Mitchell (Saints). Time  $11\frac{3}{4}$  secs. This race speedily resolved itself into a duel between Axford and Waddy, and the latter just gained the decision.

100 yards Flat (Seniors).—R. Krantz (Princes), P. K. Lee (Saints), T. K. Moorhouse (Saints). Time, 11 secs. Krantz again got away with a splendid start, and kept his lead to the end, winning fairly comfortably.

100 Yards Flat (Juniors).—A. H. Young (Saints), C. B. Sangster (Saints), H. L. Flint (Princes). Time, 11 $\frac{1}{2}$  secs. Young ran a splendid race, and won easily, while Sangster just beat Flint for second place.

High Jump (Senior).—T. K. Lee (Saints), Taylor (Princes) and Shannon (Saints) tie for second. Height, 5 ft. 2 in. Lee jumped well, and was never pressed.

100 Yards Flat (Old Scholars).—L. V. Pellew (Saints), L. H. Hoare (Princes), G. H. Howard (Saints). Time, 11 secs. Hoare ran well, but was gradually overtaken by Pellew, who ran magnificently.

220 Yards Flat.—R. Krantz (Princes), P. K. Lee (Saints), T. K. Moorhouse (Saints). Time, 23 secs. Krantz ran magnificently, equalling the record made by Campbell in 1901, and had no difficulty in defeating Lee and Moorhouse.

High Jump (Juniors).—B. G. Maegraith (Saints), A. W. Cameron (Saints), W. C. Alexander (Princes) and R. F. Kemp (Princes) tied for second. Height, 4 ft. 10 $\frac{3}{4}$  ins. A good exhibition of fine, clean jumping, and Maegraith just gained the decision over the other three.

Putting the Weight.—E. A. Ross (Saints), P. K. Lee (Saints), D. Bell (Princes). Distance, 29 ft. 7 $\frac{1}{2}$  in. Princes sorely missed the services of Pearce, and were outclassed.

120 Yards Hurdles (Under 16).—D. T. Axford (Princes), C. G. Fisher (Princes), R. Trescowthick (Princes). Time, 18 secs. This was Princes' race, their representatives gaining all three places. Axford was never pressed, and was unfortunate in missing the record by  $\frac{1}{5}$  sec.

Broad Jump.—D. G. McKay (Princes), R. Krantz (Princes), P. K. Lee (Saints). Distance, 19 ft. 8 $\frac{3}{4}$  in. This was a fine exhibition of jumping, four competitors clearing 19 ft. McKay beat Krantz by a fraction of an inch, but the latter was unfortunate in taking off from behind the board.

120 Yards Hurdles (Old Scholars).—L. V. Pellew (Saints), R. M. Fowler (Princes), A. C. Wigan (Saints). Time, 16 $\frac{1}{2}$  secs. Pellew jumped magnificently, and gained the decision, Fowler being a good second.

440 Yards Flat (Seniors)—R. Krantz (Princes), C. Boucaut (Saints), R. E. Mattison (Princes). Time 55 secs. Mattison made the pace over the last half, but Krantz finishing strongly, won comfortably, while Boucaut just beat Mattison for second place.

120 Yards Hurdles (Junior).—A. G. Waldeck (Princes), H. H. Winnall (Saints), H. H. Young (Saints), B. W. Hone (Princes).

Time, 20 secs. Waldeck ran a splendid race, winning by inches, while Young and Hone were close thirds.

300 Yards Steeplechase.—D. G. McKay (Princes), P. K. Lee (Saints), G. M. Balfour (Princes). Time, 42½ secs. McKay ran a great race, and finished well ahead of Lee, who just defeated Balfour for second place.

440 Yards Flat (under 16).—L. E. Waddy (Princes), D. T. Axford (Princes), R. L. Montgomery (Saints). Time, 57½ secs. Waddy ran a magnificent race, and was unfortunate in not touching the record. Axford beat Montgomery on the tape for second place.

440 Yards Flat (Old Scholars).—R. Fotheringham (Saints) and R. M. Fowler (Princes) tie for first, H. M. Rees (Princes). Time, 55 secs. Fotheringham made the pace rather hot, but Fowler, finishing strongly, just caught him on the tape.

One Mile Flat.—J. R. Ingleby (Saints), C. G. Sangster (Saints), L. J. R. Underdown (Saints).—Time, 5 min. 1½ secs. Ingleby ran magnificently, and was unlucky in failing to reach the record by only 1½ secs. Here again we were handicapped by the absence of Pearce.

---

## House Notes.

---

### COTTON HOUSE.

At the last House meeting for 1921, congratulations were extended to those members of the House who had represented the School in sports contests, and to those who had won prizes and scholarships. Good wishes were expressed to those who were leaving school, and those who were returning promised to keep the orange colour flying. Special reference was made to the good work of the House Prefects, Laurie Walsh and Malcolm Joyner. At the conclusion of the meeting, Joyner, on behalf of the House, presented gold House badges to the House Master, Mr. Haslam, and the Assistant House Master, Mr. Woolhouse.

First of all we should like to welcome all boys new to the House of the orange colour, and to extend a particularly hearty greeting to those who came to us from Longbottom House. We trust that they and the new fellows will be quite at home with us, and that 1922 may be a happy year for all. The names of the new "Cottonites" are, C. Evans, C. G. Fisher, A. A. Ellis, F. J. Hallett, G. Hallett, C. Hallett, L. E. Rowe, R. H. James, R. J. Ridings, W. B. Dorsch, T. S. Dorsch, R. V. McMichael, B. A.

Fisher, L. P. Harry, L. H. Jory, H. Hele, B. H. Slatter, R. H. Toms, A. Michaelides, R. Goodwin, G. Roos, R. S. Abotomey, K. Yates, H. H. Tanner, D. A. Hunwick, W. M. Trengove, H. Gilding, S. J. Torr, D. H. Smith, R. G. Coulthard, R. J. Ellis, G. V. Storer, H. McIntosh, L. W. Leak, T. G. Storer, J. E. Myers, E. C. Both, H. Leader, L. D. Miell, F. H. Jackett.

Our House Prefects for the year are J. C. Piper and H. Leader. We congratulate them on their appointments. Both Piper and Leader have worked their way through the School, and have proved themselves to be good students and keen students and the House congratulates itself on having such worthy fellows at the head.

Cricket was the first thing to occupy our attention, and here we were wonderfully victorious. At one of our House meetings our House Master declared that we had no bright stars, but eleven triers. However, some of the triers became stars, and the whole team did so well that we won all three matches played. Piper captained the team admirably, and made a good score against Waterhouse when it was badly needed. D. Stephens was a tower of strength in the batting (68 n.o. and 36) and useful in the bowling. Storer was our star bowler (8 for 15, 7 for 33), and Fisher played a fine innings for 46 against Colton. As to the remarks about our stone-walling, we would like to mention that our rate of run-getting compared very favourably with that of teams whose members complained most. Our B team, captained by H. T. Webb, won one match and lost two.

Then came the House Sports, but we did not do as well as we wished, coming fourth. M. F. Perrott, our crack hurdler, was overtrained, but ran with his accustomed pluck. The others who represented the House were A. G. Waldeck, C. G. and B. A. Fisher, C. H. Day, H. Leader, and J. E. Myers. The first six were chosen for the Intercollegiate Sports against Saints, and Waldeck won the Junior Hurdles in brilliant style.

In House Tennis, we only played one match, and were defeated by Spicer House, two sets to one. Our Juniors were successful in their tennis.

---

#### COLTON HOUSE.

We began this year with our ranks considerably weakened by the departure of last year's leaders, one of them, viz. Williams, having accepted the responsibilities of a master, and we therefore offer a hearty welcome to the new boys who have joined our house, and especially those who have shown good promise in the field. We are grateful for the assistance of our house-masters, Messrs.

Comley and Smith, in organising the house, and the measure of success which we have gained is chiefly due to their energies.

Although we did not come up to expectations in the cricket and the sports, we do not begrudge our rivals the victories they have gained over us, Waterhouse again defeating us by a narrow margin in the Sports, but this year for second place. We congratulate Jacobs, Taylor, Trescowthick, and Pearce, on their inclusion in the Intercollegiate team, and also upon their performances upon the oval—except the last-named, who was unfortunate in being unable to take part. In tennis we have only had one match, in which we defeated our boarding-house rival, Waterhouse. Looking forward to next term, and football, all we say is that we anticipate a recurrence of the success gained in the two previous years, and have no doubt that Colton will again head the list for the winter pastime.

To Moody, who is leaving school this term to take up responsibilities in the outer world, we wish all good luck and happiness in his future career, and trust that, wherever he goes, he will uphold the noble traditions of Colton House.

The following joined Colton at the beginning of the year:—R. R. Crossing, L. B. Cooper, L. Moseley, E. Lord, H. A. Smith, K. R. Agars, W. J. Maddocks, E. V. Wilsdon, H. K. Escott, K. W. Grant, K. B. Jarrett, R. Trescowthick, A. W. Wade, J. V. Adams, H. S. Maddocks, L. L. Matters, C. L. Wade, and R. H. L. Ellis. The three first-named came to us from other houses, and Agars left school at the middle of the term, after only a brief stay.

#### MALPAS HOUSE.

We have come back this year without our two ablest members of last year, Crompton and McGregor, whose loss we have felt keenly both in sports and in leadership. Although we have lost a number of our last year's fellows, we welcome into our House several new boys and a few from Longbottom House, which has been dissolved, and we trust that it will not take them long to discover that ours is the best House in the school. Amongst the newcomers there are a few of promising talent, and we hope they will prove themselves worthy of our expectations.

In cricket, Hone captained our team, which was successful in winning two out of the three matches which it played, beating Robb and Spicer. However, we succumbed to Colton, who were extremely lucky in beating us after a rather prolonged match. We hope to continue our success in cricket in the last term of the year, when the cock-house will be decided.

In tennis, we played our first match against Robb, whom we

succeeded in beating by two sets to one. Tennis has also to be continued next term, and we hope to come very near cock-house.

At our victory in the Intercollegiate Sports, we were represented by Balfour, Caust, Jeanes, and Hone. These secured several points for our glorious school.

Those fresh to our house are:—J. M. Waterhouse, G. M. Barton, L. J. Kesting, G. A. Cowling, R. H. Dodd, G. R. Trudgen, D. W. Gilmour, R. H. Dunstan, R. P. Baseby, G. R. Giften, L. F. Harris, D. L. McEwin, C. V. Drew, H. H. Norman, J. W. Prider, R. Coombs, D. L. Prider, D. K. Peek, F. K. Chapman, W. P. Chapman, L. V. Drew, C. G. Felstead, L. D. Wallace, L. W. Pierson, N. Chinner, L. R. West, J. R. Marshall, K. W. Hunter, W. V. Smith, M. J. Hunn, C. H. Vandeeper, M. E. Richards. We look for their full support and interest in all forms of House competitions.

---

#### ROBB HOUSE.

Robb House began this year with a roll of 71. Many left at the end of last year, but new boys have filled the vacancies. Congratulations are due to McKay on being appointed Captain of the School, and Head of our House. McKay, Woolcock, and Mattison were elected as our committee men. We extend a hearty welcome to Mr. Iliffe and Mr. Taylor, who have joined us this year as House Masters.

Our cricket team met Malpas in its first match, and was defeated, but this did not damp our ardour, as we defeated Spicer and Waterhouse in successive encounters. We are now second on the list. The House Sports were a brilliant success for us, thanks mainly to Mattison and McKay, but we extend our sympathy to Spicer, who were without the services of Krantz. Robb played one tennis match against Malpas, but was defeated by two sets to one, Woolcock winning his single. McKay, Mattison, Wilson, Chapman, and Flint, were included in the Intercollegiate Sports. We congratulate them all. McKay won the steeplechase and the long jump. In the School Sports McKay did very well, being only one point behind Krantz for the cup. Mattison also did well, winning fifteen points.

Our House is stronger this year than it has been since the inception of the House system. Every member is asked to do his utmost for it. We appeal especially to the junior members; for we look to them to maintain the high standard set by our seniors, when their places have to be filled.

New Members:—

C. T. Symons, R. W. L. Hoepner, D. A. Clarkson, H. McCormac, H. R. Oaten, E. G. Dingle, L. T. McKay, R. G.

Annells, D. C. Coombe, E. V. Lawton, D. C. McCormac, R. T. Phelps, D. R. Bollen, M. Hall, N. T. Todd, R. C. Fleming, H. J. Day, A. J. Clarkson, J. C. Reynolds, R. L. Whitham, M. W. McKay, S. J. Cockington, F. D. Hay, A. K. Johnston, E. S. Rice-man, S. J. Golding, N. L. Arnold, R. D. Langsford, K. G. Best, H. N. Wallace, M. S. Padman.

#### SPICER HOUSE.

At the close of the year we lost from our number, Mr. Lade, and our two prefects, Tiddy and Humphries. Several seniors, Magarey, Michell, George, all of long standing in the school, also left us for spheres of greater activity.

At the beginning of this term, Mr. L. N. Allen was appointed a junior House master, and R. Krantz came to us as prefect for the year. Early in the term, a house meeting was called, when we took the opportunity of welcoming a number of new boys. A committee consisting of the House Masters, Krantz, Berriman, Waddy, and Michell, was also elected.

In the senior House contests this term, misfortune has dogged our steps, and the results are by no means a true reflex of our worth. In the House Sports, Krantz was unable to strip for us, as he had strained a muscle. However, we must heartily congratulate Waddy, who had to bear the brunt of the work, for his fine performances on that occasion. At a moment's notice he stripped and competed successfully in several senior events. Hosken also ran well for us in the junior events, winning the 100 under 14, while Alexander scored in the high jump. Krantz showed his real form at the Intercollegiate Sports, winning the 100, 220, 440, and the hurdles, and we feel confident that with his aid, we should have made a close run for first place in the House Sports.

Our juniors battled hard in the House Cricket, and at present the laurels rest with them, as they have an unbeaten record. Our senior team, though not yet victorious, has improved considerably, and will prove more formidable in the third term. Little tennis has been played so far, but with strong seniors and promising juniors, our prospects there are bright.

We take this opportunity of congratulating D. D. Harris, W. C. Alexander, and H. P. C. Gallus on their excellent record of credits in the last Junior Public Exam.

The following boys have joined the House this term, and we look to them for their assistance in our efforts to place Spicer on top:—From Longbottom House—J. G. McKinna, M. C. Reid, R. J. Allen, P. E. Pengilly, H. W. Richards, H. P. C. Gallus, K. F. Cooper, Johnston, D. L. Richards, M. E. Richards,

M. M. Sutton, N. E. Knabe, N. S. Angel, R. G. Jenkin. New boys—A. H. Bennett, S. W. Pitcher, H. G. Dolling, R. W. Goldsack, F. D. Platten, L. S. Bagshaw, H. H. Bennett, R. F. Pullin, P. W. Pittman, C. R. Round, E. P. Tidemann, R. H. Helpman, A. B. Ridings, G. A. Tidemann, A. H. Alexander, R. P. Wellcoat, J. W. Willsmore, H. R. Adamson, R. G. Hale, R. J. Harvey, S. D. Lade, N. K. Todd, L. N. Schlank, J. W. Richardson, N. H. Sutton, E. B. Mills, E. W. Hosken.

#### WATERHOUSE HOUSE.

We commenced the year with about 30 of last year's members, and the inclusion of a score of new boys made our company about 50 strong. We take this opportunity of welcoming the latter to our ranks, and trust that they will have a happy time during their stay with us.

The sports committee was chosen at the beginning of the term, and Bell, Bartholomaeus, Napper, and Chandler were elected.

In the House contests we are not quite as high up as we should like to be, but we still have a good chance of retrieving our past failures, and the wearers of the chocolate will be a factor to be reckoned with in the football.

In the cricket, mainly owing to bad fielding, we won only one match, but we hope to remedy this defect in the third term, and put up good fights in the remaining two matches.

Up to date, only one tennis match has been played—against our old rivals, Colton, who defeated us by 2 rubbers to 1 in the senior and 3 rubbers to 0 in the junior event. However, with more practice, we hope to do better next term.

In the House Sports, mainly owing to the splendid performances of Axford and Greenslade, we came second, being "Robbed" of victory by  $9\frac{1}{2}$  points, while we defeated our old rivals by  $1\frac{2}{3}$  points. We here take the opportunity of congratulating our five members who gained a place in the Intercollegiate Sports.

With football looming ahead, we are already looking out for "finds" among the new boys, and several promising players have been discovered. Although our team will be weaker than last year's, we hope to give a good account of ourselves next term.

Our thanks are due to Mr. Grey for the large amount of interest and the untiring energy he has displayed in our welfare, and we hope next term to justify his work by placing the chocolate colours where they were last year.

We must here take the opportunity of saying good-bye to Johnny. During his connection with the House, he has shown

untiring energy in its cause, both on and off the field, and we hope that he will ever retain happy memories of the times he has spent among us, and always have a kind thought for old Waterhouse. To "Jumbo" Lloyd, who is also departing from our midst, we express the desire that he will gain every success in after life, and always have fond memories of the best House of all.

The following joined the House at the beginning of the year:—  
L. C. Dawkins, R. Warren, H. F. Hall, G. H. Blake, D. C. Hague, M. E. Owen, J. B. Wright, J. T. Drew, D. C. Grey, S. G. Nappér, K. D. Crossman, P. N. Franks, C. C. March, S. H. March, B. H. Mattiske.

---

#### Longbottom House.

Longbottom House is no more. To make it possible for the various House competitions to be carried out satisfactorily, it has been necessary to reduce the number of Houses, and the sacrificial lot has fallen on Longbottom. Needless to say, the members of that House keenly felt their extinction as a body; but they have loyally bowed to the decision, and are rendering whole-hearted services to the new Houses into which they have been drafted. At their farewell meeting at the end of last year, fitting funeral orations were delivered by the House Masters and the House Captain, who expressed good wishes for the future welfare of its members, and the hope that their leavening influence would make itself felt in the new spheres allotted to them.

---

## School Sports.

Fate seemed to be working against us on the afternoon of May 6, when the School Sports were held in wet, chilly weather. As was to be expected, the attendance was rather small; firstly, because of the weather, and secondly, owing to the fact that a Prep. Sports Day is to be held in the spring. However, those who did brave the elements were well rewarded by a splendid afternoon's sport.

As usual, a number of heats were run off during the week, and here again the rain interfered, but in the end everything was run off satisfactorily.

The competition for the cup was exceptionally keen, Krantz and McKay being 20 points each before the half-mile, the last cup event. However, Krantz finished a few yards ahead of McKay in this event, and so won the cup by 23 points, being followed by

McKay (22), Mattison (15), Perrott (5), Taylor and Jacobs (each 2½), The first two both gave splendid exhibitions, and are to be congratulated on their fine efforts. We here take the opportunity of expressing our gratitude to Mrs. Piper, who kindly consented to distribute the prizes; also to Mr. Wesley Lathlean for his generous gift of a cup to the winner of the 100 yards championship.

#### CUP EVENTS.

100 Yards Flat.—R. Krantz, R. E. Mattison, D. G. McKay. Time, 10½ secs. Krantz ran splendidly, and won easily, while Mattison just defeated McKay for second place.

220 Yards Flat.—R. Krantz, D. G. McKay, R. E. Mattison. Time, 24 secs. Krantz drew away from the start, and won comfortably, while McKay defeated Mattison by a couple of yards.

Senior High Jump.—D. G. McKay, W. G. Taylor and K. E. Jacobs tie for second. Height, 5 ft. 2 in. Taylor and Jacobs both failed at 5 ft. 2 in., leaving McKay the winner. Krantz was unfortunate in this event, losing his step every time he jumped.

120 Yards Hurdles.—R. Krantz, M. F. Perrot, D. G. McKay. Time, 18½ secs. Perrot showed that he had almost regained his true form, and pressed Krantz very strongly, but the latter just gained the decision.

440 Yards Flat.—R. Krantz, D. G. McKay, R. E. Mattison. Time, 56½ secs. Coming round the home turn Krantz shot ahead of the rest, and won easily, with McKay an easy second.

Broad Jump.—D. G. McKay, R. E. Mattison, M. F. Perrot. Distance, 19 ft. 6 in. A couple of inches separated the first three, who jumped splendidly. Here again Krantz took off from 3 ft. behind the board, and so narrowly missed a place.

Half Mile.—R. E. Mattison, R. Krantz, D. G. McKay. This was the deciding event. Mattison was easily the first of the Cup competitors, and Krantz, by a strong finish, just beat McKay.

#### OTHER EVENTS.

120 Yards Flat (Under 14).—E. W. Hosken, K. B. Elliot, H. Goldsack. Time, 15½ secs.

120 Yards Flat (under 16).—D. T. Axford, A. R. Chapman, R. D. Glyde.

120 Yards Flat (Open).—H. M. Wilson, K. B. Jarrett, H. F. Sudholtz. Time, 13½ secs.

100 Yards Flat (Junior Championship).—H. L. Flint, H. J. Greenslade, K. B. Jarrett. Time 12½ secs.

100<sup>n</sup> Yards Flat Championship under 16).—L. E. Waddy, D. T. Axford, A. R. Chapman, Time 11½ secs.

220 Yards Flat (Handicap).—H. M. Wilson, L. E. Waddy, K. A. Muirden. Time, 25½ secs.

120 Yards Hurdles (Junior).—A. G. Waldeck, B. W. Hone, W. G. Pierson.

120 Yards Hurdles (Under 16).—D. T. Axford, C. G. Fisher, W. E. Michell.

120 Yards Hurdles (Open).—G. M. Balfour, M. F. Perrott, L. W. Croser.

440 Yards Flat (Handicap).—G. M. Barton, O. D. Moody, F. K. Salter.

Junior High Jump.—W. C. Alexander, R. F. Kemp, A. B. Fisher.

Obstacle Race.—A. S. Maddocks, L. W. Croser, Beecher Webb.

Half Mile.—R. W. Hoepner, K. F. Chapple, G. G. Pearson.

300 Yards Steeplechase.—M. F. Perrot, K. E. S. Jacobs, D. G. McKay.

Putting the Weight.—D. Bell, W. G. Taylor and A. J. Chandler tie for second. Distance, 26 ft. 9 in.

One Mile Flat.—A. G. Waldeck, V. C. Hanlaford, C. H. Day. Time, 5 min. 10 secs.

We publish below lists of the winners of the College Cup and the 100 Yards since 1884. These are compiled from printed records. If any of our readers can supply us with any authentic records prior to 1884, we shall be glad to hear from them.

## Original Contributions.

### THE ASCENT.

The little party of porters toiled on, urged by their head man. They increased their pace for some time, but soon dropped back to their original gait. Professor Brownly was at the head of the party. He was an explorer who was making an attempt to scale and explore Kirichozi, the mystery mountain of the Andes. As soon as the party reached a point where the peak could be seen, they stopped in astonishment. There was an excellent reason too, for in reality Kirichozi was a double mountain. One part of it was an active volcano, the other a majestic peak, rearing its snow-crowned head into the clouds. On arriving at the foot of the mountain the white men of the party began the ascent. The porters would not continue the journey, being overawed by the presence of the Fire God, as they called the volcano. Climbing, at first, was easy. Gradually the ground became rougher. Following a dry watercourse, the party saved themselves from climbing over the treacherous lava rocks. This lava, sharp and jagged, would cut the hands, and was dangerous to slip upon.

At last the party reach the crater. Below a molten lake hissed, bubbled, and screamed like a thousand shrieking demons. It rose and fell with regular motion, and at intervals a great cloud of steam and sulphurous fumes roared from a crevice far below. The explorers passed on, leaving the furies of the crater to themselves. They descended a shallow valley, and commenced the ascent of the second peak. A guide went first, who, having found a safe path, was followed by the others. Night came silently and quickly. Camped on the mountain-side, the hardy men spent the night. The coming of dawn revealed a wonderful spectacle. A faint glow, heralding the approach of the rising sun, silhouetted several dark peaks. The first rays, striking the snowy summits of distant mountains, created a scene of dazzling splendour. Beautiful colours, all radiating from one centre, made a strong contrast to several pure white fields of glistening snow. Refreshed by the sight, the travellers climbed on.

The party are roped together for safety now. Precarious footholds, sliding shale, and dislodged boulders add to the dangers of the climbers. Scantier grow the wiry shrubs as the explorers near the snow line. Soft snow makes the progress more difficult, and slippery ice more dangerous. Slowly but surely they are approaching the wind-swept head of the mountain king. Breathing is hindered by the rarity of the atmosphere. Helped by their alpenstocks, they struggle on. A cry is heard. Instinctively each man drives his useful alpenstock into the snow. The strain on the taut rope ceases; the climber has regained his footing. Each man grows weaker as he approaches the destination. Hurrah! at last the summit has been reached by the exhausted explorers. A flag is planted, which flutters valiantly in the breeze. It is the Union Jack. Once more nature has been conquered by man.

J. K. M.

### "LOOK NOW UPON THIS PICTURE, NOW ON THAT."

Huge black thunder-clouds gather quickly in the western sky. They grow in bulk and roll darkly on towards the east. The darkness thickens, and the scent of rain freshens the dusty air. Now the fierce winds tear their whining way through the creaking trees. The distant rumbling of the thunder deadens on the ear, and the lightning dazzles the eyes. The tornado in its greatest fury bearing those dark, formidable clouds, rushes down upon the Valley of Peace.

Roaring winds shriek through the valley out on to the open plain. Thunder rumbles in the gloomy arches of the sky. Lightning flashes among the shaking trees, lighting the scene with a weird and ghastly glow. The vibrating crash of stricken trees splits the air. Sparks splutter fitfully, but the belching torrent dashes them out. Everywhere confusion reigns. Hail whistles down and fiercely lashes the moaning trees. Wild waters rattle over their stony bed. All the elements are at war, and mingled in the din come the yelps of terror-stricken dingoes. Affrighted night-birds' shrill cries and the magpies' startled calls echo amidst the racket.

Now all is calm. The peeping sun glimmers on the horizon, bathing the rain-refreshed fields with a pale glow. A gentle breeze ruffles the leaves of the tall pine trees, coloured unnaturally by the rising sun. Between the trees, great and small, trickles a murmuring stream. Over its low banks the weeping willows hang their heads. Undulating carpets of soft green grass slope towards the banks. The damp, mossy lawns sparkle in the patchy light. Amongst the trees twitter tom-tits, and the wild canaries welcome the dawn with their melody. The crows' harsh "Caw! Caw!" echoes through the insect-humming wood, and mingles with the melancholy call of the magpie. The rabbits play about their warrens, and everywhere refreshed nature wears her sweetest smile.

#### GHOSTS!

It was the sort of night when those mysterious murders, for which no author can be found, are done, and the time and place were well suited for one. Far up in the heavens shone the cold, silver moon, shedding her chill brilliance upon the world. The time was well after midnight and a deathlike silence pervaded all space; the place was a dark and gloomy avenue of tall elms in the lonely park. 'Twas very cold.

I was wending my way home from a birthday party at the time, and during the evening ghosts had been the chief topic of conversation. Wrapped up warm in my thick overcoat, I turned into this avenue, thinking of some of the cheerful yarns I had heard about these inhabitants of the grave. I had progressed about a hundred yards into this dark and gloomy archway of trees, when from somewhere up above came a hollow, sepulchral laugh. My blood tingled icily in my veins, but I hurried on. Suddenly something white flashed across my path, and rose noiselessly into the highest branches of a tall elm, whence came that unearthly laugh. I froze in my tracks, stricken with terror, gazing horror-struck up at the sky, while pins and needles chased icicles up and down my spine. For several moments I stood there, trembling, wondering fearfully what it could be. Then again, from high up in the heavens, came that weird, chuckling laugh. In an instant I was galvanized into action, and down the path I went like greased lightning, chased by an electric shock, the beads of sweat rolling off my manly brow. About fifty yards I ran, and then paused for breath, and took of my coat to cool. I was trembling like a leaf. I shuddered with cold as a chill breeze stirred the leaves, and suddenly, far above, sounded that haunting, pursuing laugh, a demoniacal cackle like the devil at his feasting. My coat slipped unheeded to the ground, and I stood, trembling and shivering with fear. The sweat upon my brow was now cold like ice-water, my hair was standing up like pins in a pin-cushion, while my teeth chattered with a noise like falling ninepins. My heart was doing a good ninety as I gazed fearfully about, and suddenly I jumped out of my wits as the dread Thing flew by my head once more. I wanted to shout aloud, but could not; my breath came and went in gasps, so hard was my heart beating

in my mouth, and my knees were shaking so vigorously I almost fell. My limbs were paralysed, and my feet felt like lead, and there I was, shivering in terror of my life, when I heard again that fiendish laugh. That woke me up, and down the path I sprinted, while behind me came the awful Thing, shrieking and screaming like a lost soul. Once it flew just past my ear, and gave me such a fright as to send me headlong, while yet again I heard the laugh. That was enough for me; up I jumped, and off again with the dread Thing pursuing me. As I ran, my voice returned, and I went shrieking onward, sending scream upon scream into the echoes of the night. Suddenly my knees gave way under me, and I crashed heavily to the ground, and knew no more. As I fell, I heard, loud and distinct, that mocking devil's laugh. He had won!

In the quiet hospital I soon recovered my customary health, and one day as I passed that avenue, I saw, sitting on the fence, a sage old cocky. Realisation flashed upon me! Here was my ghost, and I laughed aloud. Then I remembered. What was his laugh? I wonder if it was possums.

## House Sports.

---

The House Sports were held on April 10th and 11th, and it was gratifying to note the amount of friendly rivalry and interest which they created. Now that the house system is in full swing, it is to be hoped that more and more enthusiasm will be shown in these contests.

Spicer House, who had gained our last year's champion, Krantz, from Colton House, appeared to have an easy win before them, but when it was announced that their mainstay was unable to strip, they seemed to be out of the running, and so it proved. Robb house, mainly owing to the performance of Mattison, who gained 37 points, and McKay, came out victors. Waterhouse owes its good position, and Spicer its comparatively good showing, to the efforts of our brilliant under 16 stars, Axford (W) and Waddy (S), who performed remarkably well, gaining 25 and 22 points respectively, each running in several senior events, owing to the weakness of their houses in that direction.

At the end of the first day the points were:—Waterhouse 35, Robb 33, Colton 31, Spicer 28, Cotton 23, and Malpas 21; the final points being:—Robb 68, Waterhouse 58½, Colton 56½, Cotton 43½, Spicer 42½, and Malpas 35. The points are 8, 5, 3, 2, 1, thus encouraging everyone to finish.

100 Yards Flat (Under 14).—Hosken (S), Elliot (M), Goldsack (W), Matters (Cl), Flint (R). Time, 12 secs.

100 Yards Flat (Junior).—Greenslade (W), Flint (R), Waldeck (Ct), Jarrett (Cl), Hosken (S). Time, 11½ secs.

120 Yards Hurdles (Junior).—Greenslade (W), Waldeck (Ct), Hone (M), Pearson (R), Cooper (S).

High Jump (Junior).—Bayly (Cl), Fisher (Ct), and Alexander (S), tie for first, Hone (M) fourth, Flint (R) and Goldsack (W) tie for fifth. Height, 4 ft. 7½ in.

100 Yards Flat (Under 16).—Axford (W), Waddy (S), Chapman (R), Fisher (Ct), Burns (Cl). Time 11½ secs.

440 Yards Flat (Under 16).—Waddy (S), Jeanes (M), Chapman (R), Tiddy (Cl), Waldeck (Ct). Time, 59 secs.

120 Yards Hurdles (Under 16).—Axford (W), Trescowthick (Cl), Jeanes (M), Salter (R), Waddy (S). Time, 17½ secs.

100 Yards Flat (Senior).—Mattison (R), Axford (W), Waddy (S), Jacobs (Cl), Leader (Ct). Time, 11 secs.

220 Yards Flat.—Mattison (R), Waddy (S), Jacobs (Cl) Bartholomaeus (W), Balfour (M).

440 Yards Flat (Seniors).—Mattison (R), Day (Ct), Humphris (Cl), Michell (S), Napper (W). Time, 59 secs.

Mile.—Mattison (R), Pearce (Cl), Leader (Ct), Berriman (S), Cheffirs (W). Time, 5 min. 16 secs.

120 Yards Hurdles (Senior).—McKay (R), Perrot (Ct), Axford (W), Balfour (M), Taylor (Cl). Time, 17 secs.

300 Yards Steeplechase.—Balfour (M), Perrot (Ct), Jacobs (Cl), Croser (W), Webb (S). Time, 46 secs.

High Jump (Senior).—McKay (R) and Taylor (Cl) tie for first, Caust (M), Fisher (Ct) Croser (W). Height, 5 ft. 1½ in.

Broad Jump.—Taylor (Cl), Perrot (Ct), Bell (W), Mattison (R), Balfour (M). Distance, 18 ft. 8 in.

Putting the Weight.—Pearce (Cl), Bell (W), Mattison (R), Muirden (M), Myers (Ct). Distance, 27 ft. 11½ in.

## Christian Union Notes.

---

The Christian Union has had a successful term, and the average attendance at the Friday meetings has been good. We are very grateful to the men who have given the "talks" week by week. The effort has cost them time and trouble, and sometimes inconvenience, but we can assure them of our unqualified appreciation.

The subjects of the addresses have of course varied considerably and yet underlying each speaker's thoughts there has been the idea that we must be ready and must be qualified to take responsibility. These are preparation days to fit us for the service of God, School, and Country.

Perhaps the most interesting personality was that of the Rev. J. H. (Jack) Allen, B.Sc., now Principal of Wesley High School, Azamgarh, India, but formerly a scholar and member of the staff at P.A.C. Each time Mr. Allen is on furlough, he finds time to speak at the C.U., to which he himself belonged at the beginning of things, when the Union met in the present Biology room.

Two other old scholars came to us, Rev. J. Lloyd Haslam, of Victoria, and Rev. R. E. Stanley, who has recently been given charge of the Sunday school department of the Methodist Church in this State. Mr. Stanley has been of great help to us for many years, and we wish him success in his new sphere of work.

Three of our visitors, Revs. J. G. Jenkin, G. E. Hale, and Mr. A. E. Clarkson, were welcomed not only for themselves, but also for the sake of their sons who are at P.A.C. Rev. G. H. Wright is an old friend who has often been to speak to us, and whom we always appreciate. Rev. G. H. Pemberton paid us his first visit, and we shall look forward to the second. And last, but not least, is our old camp friend, Rev. Norman Smith, M.A. The fine work he has done for student movement work in Australia, and particularly in Adelaide, lives on, and we were very glad to see him once again at the School where he has made many true friends.

It is proposed to begin the 1922 Bible Circles next term.

## Form Notes.

### VI.A.

Form notes ahoy once more—the merry harbinger of term's end, though this term has been fairly plentifully bespattered with holidays, those delightful little breaks in the week which throw everything out of gear. For a fortnight we need not bother about the fact that h=ut, or about subjunctives and similar worries.

We have benefited by the influx from the lower forms of several geniuses, who have made themselves prominent in examinations or in other ways. Harris has held top place from the start, Glyde running a good second. In the Sports team we were well represented by Krantz, Jacobs, Hone, Caust, Wilson, and Alexander, and we wish to congratulate them, especially Krantz, our Form Captain, on his brilliant performance. "Gym." too has

Form Notes

its stars. Norsworthy and Caust were running very close until the latter had the misfortune to be absent on several gym. days, thus leaving his rival well ahead in marks.

Although Virgil bears an honoured name, and is respected far and wide, and is even loved by some poor misguided mortals, we wish he would not endanger his reputation by attempting to joke. Many of us resent the suggestion that Sergestus' aquatic performance had its humorous side—even though the Trojans roared with laughter at the sight. Such levity not only mars the solemn grandeur of Virgil's writings, but also conflicts with our pet theory that all Latin, even to its humour, is dry.

"Infans" still persists in talking at all times of the day, and cannot be made to realise the value of one minute's silence. He will, no doubt, some day blossom forth into a local preacher and an advocate of prohibition, or of anything but free speech.

Much might be said on the subject of boys' nicknames. "In our Commonwealth we would execute all things by contraries"; so one of our number, who is close on six feet, and is as slow as a Chinese hearse, is known as Celerrimus or Minimus. Another is similarly dubbed Magnus, and yet another is dignified by the name of Nip. Another type of nickname is based on surnames or initials; so we have Jack Hobbs, Woodrow, and Doody. *Nec plura.*

We wish all a good holiday and a good second term.

#### VI.B.

The one and only form is VI.B. Our reputation as students is not only well established, but we are well noted for our extreme quietness and tidiness—being in the near vicinity of the Head's study. Our motto, "Work, for the night is coming," is always ringing in our ears, and by the time we go to the 'Varsity, we hope we shall have adapted ourselves to it.

Our budding Spivakovsky is rather amusing, and our corpulent all-round man usually manages to invoke the wrath of the master who presides over the destinies of mechanics.

King Hannibal, our Carthaginian conqueror, still reigns peacefully, with one of his biggest friends always backing him up, or getting his back up. Law and order is kept by our honourable form-captain, Berriman, who was elected by a great majority. It is he who appoints "the roll-book hero," and, strange to say, he himself has been found wanting in that important capacity.

Our advanced scholar, who tangles up the masters with his questions and his pronunciation, informs us that:—

The pluckiest fellow in all of VI.B.

Is a dashing young man and a rare prodigee:

He's a very great chemist, and no one can doubt

That perpetual motion he soon will find out.

## VI.c.

We have commenced the year with nine of last year's V.c., all industrious students, and all keen to maintain the reputation which VI.c. has always held. "Singe" (otherwise "Mark") Weston was elected Form Captain, and rules with a rod of iron. "Mr. J. W. Greig," accompanied by Ken, Ophir, and Orland, went fishing in the Torrens, and landed a "dead man." While two of them assisted the water police, the other minded the tuck shop, and charged such prices for biscuits as entitled them to be regarded as true Commercial. We were all eager to become acquainted with the "lab.," where the geology lessons have proved both interesting and amusing, though it took us some time to get used to the jaw-breakers, and less time to make the acquaintance of the "ebonite rod." We enjoyed a very instructive evening at a lecture on Artesian Basins, and incidentally learnt that fish will eat mosquitoes. (This is a fact, if they are served with parsley sauce).

Our piano-thumpers formed the first attempt to establish a jazz band in the College, but their efforts were not appreciated.

The Governor, although unaware of it, was honoured by having in his guard of honour at the levee two stalward VI.c's.—Arnold and Hounslow.

Our congratulations to Frank P. Jones on coming dux of the form, with Maurice Lodge a very close second. The work has been strenuous, but the fact that we have won five certificates means that we have grafted some.

We are anticipating our geology excursion to the Unknown with great pleasure.

It was a sunny afternoon,  
Our Orland's work was done,  
And he, by the pavilion door,  
Was sporting in the sun.

The weight, it was full sixteen pound—  
As Orland to his sorrow found—  
Lobbed on his finger with a thud,  
And made the blood to run like mud.

## V.A.

Here we are again, racking our brains for form notes that must on no account be too personal, and yet must not be dull and uninteresting. If only we were allowed to say just what we pleased about homework, detention, geometry, Latin, and other evils, we should have no difficulty in making a success of these notes. As it is, we have to conceal our real feelings, and pretend that we enjoy everything which our masters consider to be a necessary part of our training.

Most of us came from U. IV.A. at the beginning of the term. This promotion from junior to senior school naturally made us pleased with ourselves, but in a very short time all conceit was knocked out of us, especially when we were told that we were above the average in one respect only, namely ignorance.

Habich is head of the form this term; a splendid finish put him in front of the pacemakers at the last minute.

In the Intercollegiate Sports we had several representatives: Axford, Perrott, Chapman and Jeanes. All four are to be congratulated, especially Axford, who obtained a first and two seconds in the under sixteen events.

One of the most notable figures in our form is "Rastus," a name which he prefers to the one on his birth certificate. No one can account for this preference, unless it is that "Rastus" is the name of some ancient and aristocratic family. He has several rivals, "Dorks," "Keith," and "Jinny," all of whom are often out of work because there isn't enough to go all round.

A number of us intend to create a great impression while members of V.A. We sit nearest the northern wall, and already we have made our mark; for a huge grease spot may be seen where it shouldn't be. We really tried hard to keep away from the wall, but some irresistible force attracts us to it.

Now we must stop, for like Wordsworth, we love nature, and are longing to throw aside our pens and papers in order that we may get into the country and have a rattling good holiday.

---

#### V.B.

At the beginning of the year some of us were rather surprised at finding ourselves so high up in the school. However, we didn't object, and now we actually like the work, or "pretend" to.

Southwood and Mills have had a good fight for top place this term. They both took the last hurdle together, and then Mills flung himself on the tape and won by a narrow margin.

White, unfortunately, has not been with us for the greater part of the term, but we are glad to know that he will probably rejoin us next term.

The weeks seem to have passed quickly, and this we modestly claim is due entirely to the fact that we have been spending our time profitably.

We tender our congratulations to—

Hoepner—who won the half-mile.

"Bones"—who broke the neatness record.

Mills—on gaining first place for the term.

White—on being elected Form Captain.

Ourselves—for establishing a V.B. record for certificates.

The following is an extract from an exam. paper compiled by ourselves about ourselves:—

Question 5 (b)—Write notes on the following, giving illustrations where necessary :

- (1) The insect that clings to the wall.
- (2) A great mathematician.
- (3) The force of gravity. Illustrate from the gymnastic lesson. Prove that gravity is directly proportional to diameter of girth.
- (4) "Black" Thursday.
- (5) "Style" marks.

Note.—To receive any marks at all, answers must show originality. Paltry details like spelling and punctuation are quite unimportant.

---

V.c.

Once again we are set the task of writing the dreaded "Form Notes," but it is useless to complain; they must be done. First of all we wish to congratulate M. P. Tiddy on being elected Form Captain, a position he has worthily filled, and K. A. Muirden on being elected to the sports committee of the School. We were all proud of our "intercol." sports representatives—R. G. Mattison, A. G. Waldeck, L. E. Waddy, C. H. Day. "Rusty" was a great trier right through. Waldeck put up a first in Junior Hurdles, and Waddy gave a brilliant performance, with two firsts, under 16 100 and 440. We are sorry he is leaving, as he is a good student as well as a good sport. Good luck to Waddy!

E. H. Williams, also known as "Ziff," is dux of the form, after a fairly close competition: we congratulate him and also the other eight who won certificates.

On our class-room wall has been hung a splendid likeness of the late Lieut. Keith Swann, M.C., who was once a member of V.c., and who fell in the Great War; we are proud to have it alongside the pictures of two other heroes, Bruce Godfrey and Clare Hodge. Then late in the term, the Head handed over to us a fine engraving of the "Leaning Tower of Pisa," presented by Mr. McTaggart. The famous "Don Mc" belonged to V.c. in 1921, and it was thought fitting that our room should have the honour of looking after the gift of his father.

During the last week, Captain Maddocks, of the Malay States, gave the Commerciala a splendid talk on his part of the world, and at its conclusion, gave us the chance to ask questions—a chance we took most eagerly. The time was well spent, and Captain Maddocks may rest assured that he has given us fine help in our geography course.

And now we separate after a happy term together; 17 remain in V.C., and 14 must make way for the V.D. fellows who have won the right to come up. To all we tender best wishes, and to the new-comers from V.D. a hearty welcome to the workers' paradise!

---

V.D.

We opened the first term of 1922, under the guidance of Mr. Mutton, with a roll of twenty-eight boys. For those among us who were in the lower school last year, it opens up a new sphere of work, and so far everything has progressed favourably.

Lisle Adams is to be complimented on his election as Form Captain, and we extend our heartiest congratulations to Pearce and Greenslade on their inclusion in the Sports team.

Some of the new boys have proved their worth in the classroom, but their efforts were futile in trying to dislodge Elliott from his present good position. We are competing this term against our rivals the V.C.-ites, and we hope to be included in the lucky twenty odd boys to take our Commercial.

"Sour-beer" and "Weeds" are not allowed to taint our tender hearts, while our modern Paderewski with his fiddle drives old Pat into fits.

This is the form of which the poet hath said :

Glad hearts! without reproach or blot;  
Who do no work and know it not.

The four best boys sit near the balcony door, and wage perpetual war. Here also labours the famous "Tom," who preferred putting eleven stone some twenty feet, with the assistance of gravitation, to putting the lesser weight next day. This is the room where we ascertain the real facts of history. King Ethelready, we now know, bribed the Danes. Julius Cæsar came to "Briton" in 55 B.C., again in 54 B.C., once more in 43 A.D., and finally left in 410 A.D.—a glowing youth of some 465 summers! Mount Gambier, we find, is extremely ubiquitous, being sometimes near Port Lincoln, later just north of Port Augusta, finally settling down somewhere between Broken Hill and White Cliffs.

Two or three fellows have taken a fancy to the master's autograph, and are bent on securing a few copies in their report books.

One of our members succeeded in "condensing" a paragraph of 75 words into a neat little précis of 85.

Very few of us succeeded in reaching the coveted certificate standard, but we live in hope.

Some wit has discovered the answer to "Why did Bruce Wright?"—Because John Drew.

Probably the youth who signs his business letters "Yours affectionately" is keenly alive to the necessity of tactfully enlisting the sympathies of the office staff.

We are all eagerly awaiting the holidays, and what to some of us will be our return home after our first long absence.

---

#### IV.U.

We started off at the beginning of the year under the supervision of Mr. Woolhouse, the members of the form comprising some of last year's boys from L. IV.A. and IV.B., and one new boy. Consequently we were all able to commence on an equal footing.

Badcock was elected to the position of Form Captain, and Bayly as cricket captain. Unfortunately we had no opportunity of proving the worth or otherwise of our team during the term, owing to the fact that all spare time has been occupied in playing house matches or in getting fit for the College Sports.

We have to congratulate Kemp on being selected to represent the School in the junior high jump at the Inter-collegiate Sports, in which he scored another point towards our victory.

Our best wishes are tendered to Moody, who is leaving us at the end of this term, and we trust that his efforts in raising crops will be as successful as those he made in the exams.

Stamp collecting has been much in evidence among a few enthusiasts who are building up really good collections. It is a pity that some of those who are not interested in the above have not yet learned to leave other people's hobbies alone. Retribution may speedily follow.

We were glad to welcome Trestrail back again after his serious illness; sicknesses and accidents have happily been very few this term, although unkind comments were passed on the accident of one member, which prevented him from taking part in certain examinations.

The answers to some questions in class have brought to light knowledge that has hitherto remained unknown. We herewith tender a few for the benefit of those in ignorance:—

1. Murray cod are to be found in the River Thames.
2. In large European institutions bread is bought by the yard.
3. In a certain opera, a song took six hours to be sung.
4. Henry III. was crowned with his mother's braces.
5. When the Black Death ravaged England, Richard II. went to Rome on a Donkey.

6. The climate of Devonshire is made up of copper and tin.
7. Horatius kept the bridge of Stirling against the English invaders.

---

#### IV.A.

As this is our first term at P.A.C., and as the form consists of all new boys, we have found everything strange—even writing class notes. Nevertheless, it has been a very interesting term, and we have made quite a number of friends among the old boys. Many of the class subjects are quite new to us, and some find them rather difficult, so not many certificates have been gained this term, but we heartily congratulate the three boys who have obtained the coveted honour. We take credit since two of our number were able to represent the College at the Intercollegiate Sports. "Chook" Fisher, although he did not obtain a place, jumped very well, despite the fact that he was the smallest competitor. "Tressy," who ran in the 120 Yards Hurdles, under 16, seemed to fly over the hurdles, but as he had two excellent partners he gained the worthy position of third, and generously left Saints the remaining places.

Chapman, our budding orator, has found a way to set the pace in exams., while Napper finds French lessons quite too easy. We also wonder why our same linguist has to put "horses" for x, and "cows" for y.

Two of our number, W.M. and L.J., are very anxious to know a good recipe for getting good examination results. Also we wish to know if benzine is good for a "pushback."

The most important thing we have learnt is that Geneva is a famous town on the shores of Switzerland, and that its chief exports are stud-watches and Geneva sheep.

We conclude by asking our rivals above to move their feet about a little more quietly, as it disturbs the even tenor of our way.

---

#### IV.B.

Once more the laborious task is set the IV.B. of preparing our Form Notes, and with ill-concealed grace we prepare to commence operations. Although not generally known, circumstantial evidence has leaked out that our Barney Burnard plasters his well-groomed hair three times a day with unflinching regularity, and one bright Saturday afternoon it was reported to the detective bureau that this lad had met a young lady—a cousin, of course.

Everyone knows that John—the John, you know—has a Rolls-Royce body and a Ford brain.

We shall not run short of fire supplies, as Cane and Wood are greatly in evidence.

We have had plenty of work to do, but have also had some rare rare fun. Although we have a Cane in the form, we have never felt it. Copping and Coe are wholesale and retail dealers. Codd, although a rare fish, is becoming very popular. We think we have made good progress this term, as our new Form Master allows no slacking. Our form may be divided into three divisions—the athletic, the studious, and the don't-care divisions.

We wish to convey our congratulations to C. G. Fisher, H. L. Flint, J. E. Cheffirs, and M. E. Owen for representing us in the Intercollegiate Sports. This term, sports have mostly occupied our minds, and a keen friendly rivalry has been shown in all of the events.

Boys Wanted—to “stew” up Geometry; must know that a square is a five-sided triangle. Apply IV.B.

Boys wanted to write lines for J. C. Apply this office.

Wanted.—Position as Gardener. Apply W. G. P.

Pen, able to write lines without smudging. Apply J. E. C.

To sell.—Foreign plants (herring's roe included). Lines, 2/6 per hundred. Books, large assortment (French, Geom., etc.) Owner leaving State.—Locker 23.

Learned professors inform us that:—The Trans-Siberian railway runs across Australia; that Nicola is now in our midst; that the row heard the other day, which everyone thought was the “Hymn of Hate,” was “Barney” playing one of his celebrated pieces, to wit, “Peggy O'Neil”; that nothing matters to Matters. During the morning period Johnnie tried to exhibit his strength in the form-room, but on receiving a rather stinging rebuff, wisely desisted.

---

#### IV.c.

Once again we joyfully dip our pens and begin the history of our form for the term.

We congratulate Fleming on being elected Form Captain. Richter, who had a very trying time during the holidays, we welcome back; and extend the hand of comradeship to Dorsch, our only new boy. We sympathise with Todd, who broke an arm; with Taylor, who broke his leg; and with Badcock, who, through illness, has been unable to be with us for very long this term.

Being now in a higher form, our childishness ought to have vanished, but, alas, for some of us the days of toys are not yet over. Examinations have been found to be tests on what we don't know, but, in spite of this, the studious are doing well, and all are

making brave tries, with varying success. Just lately several of our members have become Senior Cadets, much to their disgust. In our room we have a "Dawe" and a "Hall" who are very friendly, because, I suppose, many things pass from one to the other.

We have no sporting results to record, as House matches have been in full force, and now we are completing our training for the sports, and hope to be able to give a good account of ourselves.

Although not supplying any competitors for the Intercollegiate Sports, we turned out in full force, and congratulate Krantz, McKay, Axford, and Waddy on their fine performances.

There was once a young hurdler named Todd,  
Who fell at full length on the sod;  
He broke his left arm,  
Did his elbow some harm,  
And on his poor face nearly trod.

Can anyone answer the following?—

What is the derivation of "cow"?

If one is born in Italy, is one French?

Why is IV.c. like a zoo?

Is it a fact that some of Euclid's books were destroyed by fire at Alexandria?

---

### III.U.

What, Form Notes again? Well it's work, but it means the end of the term's coming near, so here goes for a bit of work that for once is not drudgery.

Intellectual ability in our little crowd is in the sole possession of a few stewpots, who generally manage to get about full marks for exams, whilst we as a majority have shown ourselves pretty strong in the sporting line by easily defeating III.L. in cricket. Our prospects for football are equally promising, as we have some good all round men, notably Willmore and Toms.

If it is a fact that empty vessels make the most row, then the mentality of III.U. is extremely low, nor would anyone be inclined to think differently when told by one member that William I. introduced the "Fuel System," by another that it was the "Fuglal System," by another that the crusades were men hired by Ethelred to slaughter all Danes in England, and by still another that <sup>10</sup> is another way of expressing <sup>10</sup>.

In fact we just don't care much about stewing all the time; we're satisfied, we're never hungry, there's always someone "eatin" among us, and on the whole we have a pretty exciting time, as there is "warrin" in our ranks all the time.

## III.L.

"Form Notes! What are those?" ask the new boys. We old boys wisely shake our heads and in sorrowful tones enlighten them.

"You are to remember all the funny incidents of the term," says our master. Of course Todd and his blue tigers in the Adelaide hills constitute two such incidents. Again, the pickled onions in Johnny's lunch were the cause of the wanderings of a little mouse, which Moseley has tried in vain to catch and tame.

Another day several boys rose from their seats as if a bee had suddenly exhibited its lifting power. On enquiry, a grasshopper was discovered feeding (?) on Clarke's green penhandle. This proved that Best evidently had a hole in his trousers pocket.

We have two extremes in scientists, for according to Norm., a train takes two days to get from Tailem to Murray Bridge, while "Pug" assures us that submarines can easily attain a speed of four hundred miles per hour.

We would advance the suggestion that the blackboard be placed at the rear of the room, for it is far easier to turn round than to look straight to the front, and we should also be able to have the back row boys setting us an example of how to work.

However, we have done a good term's work, and are all sorry that the holidays have to come and interrupt us. (? ?)

---

## Mr. E. H. Bakewell.

---

A large public school naturally watches with interest the after career of any of the boys who have passed through its halls from time to time, and are ever ready to shower congratulations on those meeting with success. Since our last issue, Mr. E. H. Bakewell, who was No. 31 on the College roll, has received the appointment of chairman of the Municipal Tramways Trust, and although no doubt he has received congratulations from many sources, there is no body of men who received news of the appointment with greater pleasure than the members of this Association. Mr. Bakewell has worked his way to his present prominent position in the city of Adelaide by hard work and marked ability, and we feel that the Trust will not lose anything by having him at the head of its deliberations. Mr. Bakewell has been a life member of the Association for many years, being the 129th life member of the Association. We wish him a long and successful career in his new position.

## Prep. Notes.

---

The Preparatory School has undergone many changes this term. No less than 41 boys, together with Mr. Mutton, moved over to the big school. Mr. Gilbert took charge, Mr. Joyner came on the staff, and 31 new boys entered to fill the ranks. A cow, a dog, and a cat attached themselves to the school for a time, but were soon expelled.

During the Christmas vacation a fine new classroom was added to our buildings. This has served as an assembly room, the Prep. now holding a morning assembly of its own. Under the same roof is a handsome staff room and a cloakroom.

Fox was elected Senior Form Captain, and Hugh Fiddian librarian.

Gerrard was captain of cricket, and twice led his side to victory against Pulteney Grammar. Chapple and Williams were most useful with the bat, the former hitting up 55 in the first innings against Pulteney. Chapman and Gerrard excelled in bowling. The same side triumphed over a III.L. eleven. In the House match, Chapple House, captained by Pitt, lowered the colours of Robertson House.

In the geography lesson, one humorist explained that America was the country where they killed people by elocution. Another in an essay gave a vivid description of pirates swarming up the side of a vessel with cutlets between their teeth.

Jolly is to be congratulated on winning top place in Senior A, and thus being head of the Prep.

---

## Old Red Freemasons.

---

Enquiries have been received from country members as to whether the Lodge would be meeting during Old Red week, to give them an opportunity at least once a year of attending the Lodge.

The W.M. (Bro. A. D. Sutherland) has decided therefore to hold a meeting on Saturday, July 29, in Flinders St. Hall, at 7.30. It is hoped this opportunity will be availed of by brethren visiting the city at that time.

The United Collegians' Royal Arch Chapter will also meet at the same place on Wednesday, July 26, and all companions who can attend will receive a hearty welcome.

## P.A. Old Collegians' Association.

---

---

### Collegians' Club.

---

For many years past it has been suggested that a Club be formed in connection with the Association, but it has always been thought that the Association was not sufficiently strong to allow of such an institution being run on a scale large enough to merit support. A suggestion has now been made to the Association Committee for the formation of an Old Collegians' Club, open to Old Boys of St. Peters, Prince Alfred, and Scotch Colleges, and is thought by the Committee to be one worthy of further consideration. At the last meeting it was therefore decided to invite St. Peters and Scotch Old Collegians' Associations to appoint representatives to discuss the matter with representatives of our Association. When one remembers that about 16,000 boys have been through the three schools, and that this number is largely increased each year, surely we have sufficient material for the formation of a tip-top club. Such an institution would, we hope, be for all time, and should same come to pass, would no doubt be still more appreciated by the next generation than by those likely to be the initial members. Many of the largest businesses in Adelaide have started in a small way, and we venture to say that when our Commercial Travellers' Club, which is now so highly appreciated, started, it had neither the ground to work upon, nor prospects equal to those now open to the proposed club.

---

### Notes.

---

#### MUSICAL EVENING.

The Musical Evening, which was described on the circulars posted to every member of the Association as the means of spanning the bridge between the Annual Meeting in November and the Annual Dinner in July, was held on the roof garden of the Grand Central Hotel, on March 8, 1922. If it were the intention of the fates to be kind to us in this new departure, there must have been some misunderstanding regarding the date, as the evening fixed by us was the only cold night shuffled in amongst quite a lot of warm

and sultry evenings. However, although it militated against complete comfort and the pleasurable pastime of treating one's friends to refreshment under happy conditions, it in no wise interfered with the success of the function, and we shall have some more. The programme was a contribution of efforts, appreciated and applauded, by Old Collegians, and the daughter of an Old Collegian, with the exception of some of the members of the orchestra. Mr. Eric Puddy established himself as the king-pin of the situation in arranging orchestral music by a splendid combination of about twelve instrumentalists, amongst whom were Messrs. Ralph Vardon, Ern. Smith, Kirk Reeves, and Eric Gibbs, supplemented by friends of Mr. Puddy. Songs were contributed by Miss Beryl Counter, who was vociferously encored, and Mr. Gilbert. The comic element was left to Jack Glover and Frank Collison in their rendering of humorous songs. We made a discovery in Mr. Ted Chennell; the performance of his item simply taxed the chairs to their utmost strength in withstanding the rocking consequent on the hilarity caused by his ventriloquial turn. Mr. Geo. Goldsmith recited one of the selectious from "Doreen." Community singing gave everybody a chance of taking part under the direction of Mr. J. A. Haslam. The outcome of the whole entertainment resulted in handing to the Jubilee Fund an amount of £15.

#### INTERCOLLEGIATE SPORTS.

We must congratulate the boys on their splendid win at the Sports, and hope that it indicates the swing of the pendulum our way for a little while at least.

---

## Association's Tokens.

---

It was in 1906 that the Committee of the Association considered it necessary to introduce a distinctive badge to denote membership of the Association. This badge took the form of a gold medallion to be worn on the watch chain or other conspicuous place, and a very large number have been sold. It is regretted that in a few instances the use of this token has been abused by Old Boys who have joined the Association, but have ceased membership through non-payment of their subscription after a short period, and still continue to wear the distinguishing badge of membership. At the last Committee meeting the matter was brought up for consideration, but was deferred for further discussion. It is thought that the Association will adopt a scheme similar to that of the Commercial Travellers' Association, under which the badge remains

the property of the Association, and must be produced on demand. If this is decided upon, ordinary members of the Association will only be issued a token upon signing an undertaking to return same on ceasing to be members of the Association.

---

## Red Week.

---

Our forbears punctuated the passage of time in beautiful kalendars of illuminated manuscript, and took delight in picking out the great days of the year in letters "vermeil dyed." Red was the colour of emphasis, the badge of distinction, and the spur of memory. The Red Letter days were those which must never be forgotten as the year passed on from the tender green of spring-time to the grey gloaming of winter, and they were marked in the almanac accordingly. Whatever else might be lost sight of, they would stand out pre-eminent and distinct—glowing points of illumination upon the pages of time.

To all Old Collegians this inspiring record should be a stimulating incentive to set apart one week of the year at least to allow their thoughts and activities to turn schoolwards. Profitably requited will be he who rouses himself from his lethargic apathy and mingles again amongst old schoolfellows and associations. The period of "Red Week" extends this year from July 25th to 30th, and is set apart as the time of reunion, when members are asked—more than that, urged—to assist in making this round of functions the greatest success in the history of the Association. To those—and we have heard it whispered that such do exist—who entertain some magnified fancied grievance against either the Association, the College, the religious body with which the College is connected, or maybe some conjured-up bogey which is unnameable, it is expected that for that one week anyhow the spade of reconciliation be procured to bury that supposed grievance. Surely no one thinks he is getting too old to join in the week's festivities. The exuding radiance of the younger generations will rejuvenate them, and besides they are quite essential to make the gatherings representative of all periods of school life. The country members will require that interval of relaxation after seeding, which will serve as a tonic to their jaded nerves, and "buck them up" for the operations of the coming harvest. Synchronise the time of the annual holiday with "Red Week." A dance is arranged to give the opportunity to lady friends to participate. The Committee are confidently anticipating a success, but rely on the personal

effort of individual members. Sub Committees are appointed as follows :—

1. Dance Committee.—Messrs. S. G. Lawrence, T. C. Craven, H. B. Piper, E. H. Rhodes, and Dr. M. Erichsen.
2. Decoration Committee.—Messrs. H. Cowell, C. R. Dimond, G. S. Reed, A. W. G. Pitt, and H. Fleming.
2. Musical Programme.—Messrs. R. O. Fox, R. Vardon, A. S. Lewis, and A. G. Collison.
4. Football.—Country Teams—Messrs. W. L. Davies and H. W. A. Miller. City Team—Mr. H. G. Prest and Rev. C. J. Perry.
5. Lacrosse.—Mr. L. B. Shuttleworth.

On another page we give the full programme for the Old Boys' Reunion Week. Unfortunately, on account of the College match being fixed for the end of July instead of the middle as heretofore, it will be impossible to include in the programme the football match with St. Peter's Old Boys. This match will be played on St. Peter's College Grounds on Friday, July 14. All those desirous of taking part should send their names at once to either of the secretaries of the Association.

Messrs. Davies and Miller have undertaken to select a country team that will defeat the best city team that Mr. Prest and Rev. C. J. Perry can put in the field. Country members won last year, and they hope to add another scalp to their belts on this occasion. Send your names along.

#### OLD SCHOLARS' SERVICE.

In accordance with our usual custom, the Service will be held at the College on the day following the College football match. The Rev. J. H. Allen, B.Sc., once a master at the College, who is on furlough from his work in India, will deliver the address.

#### THE ANNUAL DINNER.

This has been fixed for Thursday, July 27, and will be held at the "Grosvenor." Tickets will again be 7/6. This price, which covers all refreshments, has been made as low as possible, although it does not cover the actual cost. Last year the various Old Boys' functions cost the Association £30 out of pocket, but it is thought that to increase the price of the dinner ticket would make it prohibitive to many of our younger members, who have recently left College. The committee have decided to invite His Honour Mr. Justice Murray, Lieutenant Governor, to be present, and we trust that he will honour us with his presence. As is well known, His Honour is an Old Blue, and, we believe, President of

St. Peter's Association, and these facts will assure for him a warm welcome from all Old Reds.

#### RED AND WHITE DANCE.

The second Red and White Dance will be held on Friday, July 28th, at the Palais Royal. As it was only possible to definitely arrange this function whilst the "Chronicle" was in the printers' hands, full details are not available. The sub-committee in charge of arrangements (Messrs. S. G. Lawrence, H. B. Piper, T. C. Craven, E. H. Rhodes, and Dr. M. Erichsen) will call in the assistance of a ladies' committee, and in this respect are hopeful of securing the assistance of the ladies who carried the function through so successfully last year. The price of tickets has been fixed at 4/1, which covers dance tickets and amusement tax.

---

## New Members.

---

It is with very great pleasure that we announce the following additions to the Association's roll. Many of the names in this list are those of boys who have recently left school, and their linking up with the Association is a clear proof that whilst at the College they appreciated the interest taken in the College by the Association, and that they are prepared to join in the good work for the benefit of those who have taken their places at the Old School.

#### LIFE MEMBERS.

493	C. H. Stange	499	L. E. Greenslade
494	Dr. E. B. Thomas	500	A. D. Wilkinson
495	V. Bateman	501	W. K. Dimond
496	H. J. Kemp	502	T. C. Craven
497	E. H. Davies	503	Ronald J. Michell
498	S. Krantz		

#### ORDINARY MEMBERS.

T. Best	C. J. Glover
H. Cashman	L. E. Goldsmith
W. J. H. Chapman	K. E. Goodale
P. E. Clark	G. J. Graves
N. H. Coltman	F. Greenslade
H. S. Elford	E. J. Hamp
F. R. Ferguson	A. L. Humphries
R. C. Giffen	W. R. James

M. S. Joyner  
 Thos. Kelly  
 G. Lamphie  
 M. S. Lee  
 J. W. Monfries  
 R. G. Nosworthy

R. A. Ridings  
 R. A. Symons  
 C. G. White  
 E. D. Whittam  
 H. J. Wilson  
 C. H. T. Wilkins

# OLD BOYS' WEEK.

## PROGRAMME.

TUESDAY, JULY 25.—Adelaide Oval—Football, Association v. College.

WEDNESDAY, JULY 26.—At the College—Old Scholars' Lacrosse, Princes v. Saints.

THURSDAY, JULY 27.—At the College—Football, Country Members v. Town Members.

THURSDAY, JULY 27.—At the Grosvenor—Annual Dinner. Tickets (including refreshments), 7s. 6d.

FRIDAY, JULY 28.—At the Palais Royal—Red-and-White Dance. Tickets (including tax) 4/1.

SATURDAY, JULY 29.—Adelaide Oval—College Football. The Association has refrained from arranging any function for this night, as the College Masonic Lodge is holding a meeting to give country Old Reds an opportunity of attending same.

SUNDAY, JULY 30.—Old Scholars' Service.

---

N.B.—The Football Match with St. Peter's Old Boys will this year be played on July 14, at St. Peter's College.

## Prince Alfred Old Collegians' Asscn.

---

Patron—The Head Master.

President—Mr. R. Owen Fox.

Vice-Presidents—Messrs. S. Gilbert Lawrence, H. H. Cowell, W. Stan. Kelly.

Hon. Treasurer—Mr. A. G. Collison.

Representatives on College Committee—Messrs. A. S. Lewis, E. H. Rhodes, T. C. Craven, A. W. G. Pitt, Rev. C. J. Perry, Hugh Fleming, H. B. Piper.

Hon. Auditors—Messrs. N. V. Mengersen and C. W. L. Muecke.

Committee—Messrs. C. R. Dimond, Dr. Erichsen, H. G. Prest, W. L. Davies, L. D. Waterhouse, G. S. Reed, Ralph Vardon.

Joint Secretaries—L. B. Shuttleworth and H. W. A. Miller.

---

The objects of the Association are:—To keep Old Boys, wherever they may be, in touch with one another and with the boys at the school; also to foster and maintain their interest in the school.

*The P.A.C. Chronicle*, of which a large part is devoted to matters of special interest to Old Boys, is forwarded to each member of the Association.

A dinner is held annually, at a time which is thought likely to give as many Old Boys as possible an opportunity of meeting one another; and social gatherings are held whenever any occasion arises that makes them desirable.

The Association gives annually to the school the Old Collegians' Scholarship, of the value of fifteen guineas, and donates five guineas per annum to the Sports Fund. Two Scholarships tenable for two years are also awarded and are balloted for by the members.

The subscription is six shillings per annum. It is suggested that Country Members should remit sufficient to cover four years' subscriptions or become Life Members by payment of £5 5s. Any Old Boy wishing to become a member can do so by forwarding his name and address to the Head Master, or to any member of the staff or to one of the Secretaries.

H. W. A. MILLER,

L. B. SHUTTLEWORTH.
