SCHOOL OFFICERS

Prefects:

F. C. Bennett (Captain of the School), J. Hodge, J. Tregoning, J. O. Cartledge, R. B. Craven, D. J. Davies, R. E. Gersch, D. G. Lloyd, J. H. Nicholls, W. S. Shephard, R. A. Wegener.

House Prefects:

J. H. Nicholls (Head), R. E. Gersch, K. H. Sampson, J. N. Bennett, T. P. Dearlove, K. I. Friebe, J. C. Norman, F. C. Sanders.

Games Committee:

The Headmaster (Chairman), Mr. S. Williams (Sportsmaster), Masters in charge of games, and F. C. Bennett, J. Tregoning, J. Hodge, A. E. Pearce, R. B. Craven, J. H. Nicholls, W. S. Shephard, M. Solomon, R. R. Williams.

Games Sub-Committees:

Cricket—Mr. C. R. Davies, J. Tregoning, F. C. Bennett.

Football—Mr. J. E. Smith, F. C. Bennett, J. Tregoning, J. H. Nicholls, J. Hodge.

Tennis—Mr. T. G. Luke, J. Tregoning, W. S. Shephard.

Athletics—Mr. J. S. Steele, Mr. A. E. J. Klose, J. Tregoning, R. B. Craven, J. Hodge, A. E. Pearce.

Rowing—Mr. A. E. McLean, M. Solomon, R. R. Williams.

School Magazine Committee:

Mr. W. L. Davies (Master in Charge), D. G. Lloyd (Editor), D. J. Davies, J. Hodge, R. A. Wegener, R. E. Gersch.

Library Committee:

D. J. Davies (Librarian), J. O. Cartledge, J. H. Nicholls, T. V. Holland, M. W. Stain.

Christian Union:

Mr. G. M. Potts (Master in Charge); President, D. G. Lloyd; Vice-Presidents, J. H. Stace and R. A. Wegener; Secretary, K. H. Sampson; Committee, J. C. Norman, R. G. Hughes and T. V. Holland (Minute Secretary).

Cadet Corps:

Lieut. W. L. Davies, M.C., Mr. T. G. Luke, Cadet-Lieut. J. O. Cartledge, Cadet-Lieut. D. J. Davies, Cpls. R. A. Wegener, T. B. Hamilton, D. T. Martin, R. H. Burden, J. L. Cleland, D. G. Wicks, J. K. Marshman, R. W. Oliver, R. R. Williams.

Scout Troop:

Scoutmaster, Mr. M. D. Close; Assist. Scoutmasters, Messrs. A. H. Dennis, R. S. Forsyth; Patrol Leaders, J. R. Ingamells, W. B. Spencer, D. L. Anderson, J. S. Smith, P. G. Sullivan.

Form Captains:

N.B.—The next issue of the Chronicle will be published in September. Articles and contributions received after August 28th will be held over till the next issue.

THE LATE MR. F. I. GREY, M.A., B.C.E.

The late Mr. F. I. Grey

On the 24th February this year there died at a private hospital in Melbourne, Mr. Frank Isaac Grey, M.A., B.C.E., of 34 Leura Grove, Hawthorn East, Victoria, son of the late Rev. G. and Mrs. Grey, beloved brother of Annie, Jessie (Mrs. Phelan) and Charles, deceased.

The late Mr. Grey was 66 years of age, and for the 28 years from 1902-1929 was the Mathematics Master at Prince Alfred College. He came to P.A.C. to succeed the late Mr. Sidney Vanes, and for many years devoted himself ungrudgingly to the service of the School. A man of wide reading and of great scholastic attainments, he made many a brilliant son of the School his life-long debtor for his guidance and instruction. He tried hard to belittle his own achievements and to hide them under a cloak of charming modesty and unobtrusiveness. His quiet, yet keen conversation and his generous, broad-minded appreciation of the opinions and viewpoints of other people won for him a high place in the estimation of those with whom he came in contact. He was sympathetic towards all who met misfortune, both in School and away from it. He saw mere book knowledge and school lessons in their true perspective, and gave practical recognition of the truth that life itself is the real book we must study.

As Sportsmaster for twenty-four years, Mr. Grey played an influential part in the lives of hundreds of boys who have sought pleasure and development in the School's games. No detail of arrange-

ment escaped him, and he became an acknowledged authority on general athletic matters. No amateur gardener ever watched his tender plants with greater solicitude than he watched the School playing grounds. Almost his last service to the School was the conversion of the back-grounds from an unlovely backyard into a useful and pleasing sward.

Yet even his ministrations in classroom and on the playing field were almost secondary to the sympathetic interest he took in the hopes and aspirations of the boys.

No teacher was ever more beloved of his colleagues. He was their companion on many a holiday trip, and to him it seemed right to appeal for advice and encouragement, and in his retirement he kept up a correspondence with the former companions of his toil.

In 1930 Mr. Grey enjoyed a well-deserved tour round the world. Just before leaving he was honoured by the Old Collegians' Association, and received handsome tokens at their hands. His memory is perpetuated in a scholarship bearing his name, and we understand that a movement is on foot to erect a memorial tablet in the newly remodelled Assembly Hall. But quite apart from these visible reminders of his services to the School, there will ever be those subtle influences reflected in many a kindly thought and deed on the part of those who were privileged to come within the ennobling circle of his personality.

Editorial

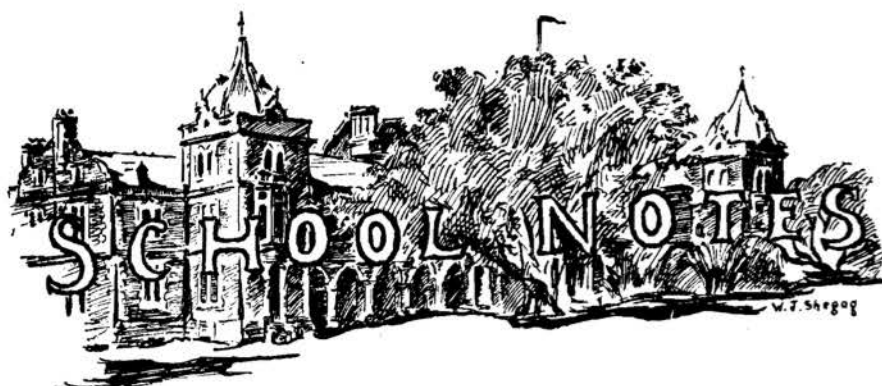

At one time in the history of the world the decision or judgment of a king was final, his was the last word in all affairs of state. Today, whether it is to be regretted or not, the power of the King, at any rate in the British Empire, is limited. Nevertheless, the high position which he holds offers to the King, if he be a man of strong personality and character, a very great opportunity to use his influence for the betterment of his people and the peace of the world; to set an example which may prove an inspiration even in the remote corners of his kingdom.

King George VI shows every promise, by his fine manly character and his earnest wish for the people's welfare, of enhancing the value of his exalted office. He has inherited in no small measure his father's love and interest in the people and their difficulties. This interest has been shown in several societies and institutions to help the less fortunate, which owe their existence to his efforts alone. In this respect he sets an example to and commands the respect of his subjects—his good intentions bind him to our hearts.

The King himself, however, is not alone responsible for the great part which he will play in the interests of his people.

In the unity and internal stability of the Empire, which he represents, lies the real strength of the present monarchical system. During the course of the last year the outlook of the British people and the strength of the Constitution have not changed. The abdication provoked very little civil dispute—after a week or two of unrest, London and the Empire soon settled down again to their customary stride. That great test has proved the soundness of the throne. Loyalty to a common leader will bind an army together, and it is the loyalty of the peoples of the British Empire to a common acknowledged head which is one of the main factors in our remarkable unity of opinion and lack of discontent. The intense national enthusiasm in England at the present time is undoubtedly due partly to the popularity of the King, but it may also be attributed to the people's appreciation of the existence and preservation of the British throne.

The interest and loyal enthusiasm of the people of the Empire in the coronation of King George VI are surely a good security for the future stability of the throne. We join with all the schools throughout the Empire in praying, "God Save the King." D. G. L.

The first term has come and gone. Always a busy term with many interruptions, this one has seemed busier still, as we have watched the various works of the Prep. nearing completion. The Prep. is now a building of which we are all very proud. Its bathrooms are the envy of all who have seen them.

The number of boarders has once again, after a lapse of some years, passed the hundred mark. The smaller boys are now quartered in the new dormitories at the Prep., and are very happy there.

The School this term welcomes three new masters. Mr. R. T. Smith, B.Sc., who has filled to some extent the gap left by our dear old friend Mr. Iliffe. Those who know Mr. Iliffe will realise that it is no belittling of Mr. Smith to say he fills the gap to some extent. Mr. Smith has begun his work most energetically, and we wish him all success and many years of happy service. Mr. Alex Yule, B.A., joined the staff of the Prep. at the beginning of the year. He has quickly made himself part of the School, and we wish him, too, also good luck in his new home. Dr. R. J. B. Mayne joined us in March, and has rapidly fitted into the life of the School. In many sides of school life Dr. Mayne has made his influence felt, and we extend to him the same warm welcome and good wishes.

This term is broken by three of our Intercollegiate contests. We have won them all. The tennis match was a close game, and some very good play was seen.

The Eight beat Saint Peters by three feet to win the Blackmore Shield, and won the Gosse Shield from Scotch in the final. In the athletics we owed most to Craven, whose five first places in five senior events is a record very hard to beat, and much also to Stain, with three firsts in under 16 events. We have not won all these three contests in the one year since 1933, and give hearty congratulations to the teams and the crew and their leaders: J. Tregoning, the captain of the tennis; R. R. Williams, the stroke of the crew; and J. Tregoning, the captain of the athletic team.

Among old boys who have visited the School during this term are Dr. Gurner, G. S. Berriman from Hobart, G. C. Jackson from West Australia, and Dr. F. J. Jude. Dr. Jude, who has been at Mildura for a long time, had not been to the School since he left in 1891. He spent a very happy hour in looking round at the "new School." Mr. W. E. Stokes, from Northampton, W.A., also called one day, and as usual left a donation for the library, a very welcome call, and a habit that we hope will prove infectious.

The Cadet Corps has become much smarter by the addition of the new jackets. We all felt proud of them when they marched so well on Anzac Day, and the inspection by Colonel Alderson and the Commandant, Brigadier A. M. Martyn, was a great success. Both officers complimented Lieut. W. L. Davies on the Corps, and the School on having so efficient an officer as Mr. Davies.

It is credibly reported that the boarders enjoyed their party on Saturday after the School sports.

The School's heartiest congratulations go to Mr. Will Ashton, an old scholar, on his appointment as Director and Secretary of the National Art Gallery, Sydney. Mr. Ashton has had a long experience as a highly successful painter of very much prized pictures, and this appointment will give him an opportunity to bring his great knowledge of painting and enthusiasm for art into touch with a great community. Mr. Ashton is the son of our beloved old friend the late Mr. James Ashton, for so many years Art Master at P.A.C.

Early in April we suffered a sad loss in the death of John Saint. Many still in the School remember Saint as a boy in the sixth form and a member of the football team. He has had a great deal of sickness since leaving School at the end of 1932. This he has borne with wonderful courage, and while we have great

sorrow for the untimely death of one so young we have pride in his courage and great admiration for the patience with which he endured. To his mother, Mrs. Finlayson, and all his family we again express our deep sympathy.

Reference to the death of our dear friend, Mr. F. I. Grey, appears elsewhere in this issue.

Scholarships Awarded

The following awards have been made since our last issue. As most of these depended on the results of the Public Examinations in December they could not be announced on Speech Night. We congratulate those who have gained successes.

Scholarship at St. Mark's:

A. G. Rowe.

Government Intermediate Exhibitions:

D. E. Hosking, J. M. Blight, V. L. Hawke, J. H. Furness.

School Awards:

John Dunn Scholarship—A. G. Rowe.
E. B. Colton Scholarship—G. R. Cowley.
Old Collegians' Scholarship—C. M. Gurner.
Longbottom Scholarship—K. M. Gibb.
Malpas Scholarship (Science)—J. O. Cartledge.
Colton Scholarship (Languages)—R. L. Cotton.

Robb Scholarship (VIa)—D. T. Martin.
S. Churchward Scholarship (VIa)—A. F. Gray.
J. Craven Scholarship (VIa)—F. C. Bennett.
Arnold Davey Scholarship (VIc)—R. E. Gersch.
Clarkson Scholarship (Va)—R. H. Turner.
Senior Elder Scholarship (Va)—A. R. Fisher.
George Wills Scholarship (Vc)—W. W. Cabot.

Prizes:

Cotton Medal (Chemistry)—A. G. Rowe.
Alfred Muecke—C. E. Southcott.
J. C. Sunter Memorial (Languages)—R. L. Cotton.
H. J. Priest (Mathematics)—A. G. Rowe.

Entrance Scholarships:

R. C. Walker (Elder), J. M. Cowley (Grasby), A. T. James (Fiddian).

Badger, L.
Williamson, H. A.
Brebner, C. R.

This year the competition for places in the Intercollegiate team was even keener than previously, the final selection being delayed until the Monday before the match.

During the term we played practice matches against the Methodist Conference, the Eastern Extension, and a team composed of some of the masters. In each of the three matches we were successful. We are grateful to each of the above teams for making these matches possible.

We would like to thank Mr. Don Turnbull, who on several occasions came out to school and passed on to us many useful hints. Once again we especially thank Mr. Luke for his untiring efforts in coaching us, much of his valuable time being sacrificed for the benefit of the team. Our thanks are also due to Mr. Dennis, who spent many afternoons in coaching some of the more promising juniors in the School.

Congratulations to W. A. Mates, who this year for the second time in succession, won the State Schoolboys' Singles Title. This event has been won for the last six years by a Prince Alfred boy.

J. T.

INTERCOLLEGIATE TENNIS, 1937

The result of the annual tennis match against St. Peter's, which was played on March 20 at the rear of the Adelaide Oval, was in doubt until the contest had been in progress for some time.

The weather was fine, and the three courts, while not extremely fast, were in their usual good condition.

Our team consisted of J. Tregoning (captain), W. A. Mates, R. T. Hand, W. S. Shephard, R. D. Pfeiffer and M. D. Boer. For St. Peter's, C. A. Mehaffey

was captain, the remaining players being W. A. N. Wells, M. D. Dawson, J. B. Bennett, P. S. Rudall and R. M. Rowan.

In the first round of doubles, our first pair, Mates and Tregoning, had little trouble in defeating Rowan and Rudall, 6-3, 6-2.

Hand and Shephard had an interesting match with Dawson and Wells. Our second pair won the first set, 6-5, and then followed game for game wins by each side until we managed to break through and take the rubber at 6-5.

As with our first pair, Mehaffey and Bennett, for Saints, had little difficulty in winning their first match. They defeated our third pair, Boer and Pfeiffer, 6-3, 6-1.

Shepherd seemed out of touch in the early stages of his single with Rudall, who won the first set comfortably. He regained his customary coolness later, however, and won the next two sets and the rubber, 3-6, 6-5, 6-4.

With brilliant forehand passing shots, Pfeiffer took the first set in his game with Dawson. Later, however, he dropped his length, and the Saint's man won the match, 4-6, 6-0, 6-3.

Boer played Rowan in the final rubber for the morning. Our man won the first set, 6-4, and then played excellently in the second to win his match, 6-4, 6-1, thereby giving us the handy lead of 4 rubbers to 2 on the morning's play.

After lunch even tennis was provided in the first doubles between Mates-Tregoning and Mehaffey-Bennett in the first set, which our pair took after 5-all had been reached. In the second set our pair combined well, and won fairly comfortably, 6-2.

Hand and Shephard won their first set, 6-2, against Rowan and Rudall. After

Saints had taken the second, 6—5, though, our pair rallied and took the third, allowing their opponents only two games. We had won our sixth rubber for the day.

Although winning the second set, 6—3, our third double, Boer and Pfeiffer, were not strong enough for Dawson and Wells, who won the rubber 6—2, 3—6, 6—1.

The match between the first players of each side is always popular. This year's was no exception. A large crowd watched Mehaffey defeat the State schoolboy champion in the first set. Mates's experience, however, served him well in the next two sets, which he won, 6—1, 6—4. We now led by 7 rubbers to 3.

In what was but a mediocre exhibition for two such players, Tregoning was beaten by Wells. Bursts of brilliance in this game were witnessed in Tregoning's overhead smashes. These he did not fail to place where he pleased, but Wells was the steadier of the two, and won the rubber, 6—5, 6—5.

After being down in both sets, Hand twice picked up remarkably, and with steady play defeated Bennett, 6—5, 6—5.

In their third victory, Mates and Tregoning defeated Dawson and Wells. The first set was even, being taken by the Reds at 6—5. We took the second at 6—1, however, Mates proving a deciding factor, and our captain backing him up well.

Taking the first set, 6—4, Hand and Shephard played well against Saint's first pair. Mehaffey and Bennett were more than a match for our men in the next two sets though, and won 4—6, 6—2, 6—1.

The last rubber of the day provided some very keen play. Boer and Pfeiffer lost the first set, 5—6, took the second to love, and then the third, after a close struggle, at 6—5. They thus won 5—6, 6—0, 6—5, and we had won our ninth successive tennis Intercollegiate by 10 rubbers to 5. No less than 13 sets reached the 5-all stage.

J. H.

SCORES

Singles

Mates defeated Mehaffey, 5—6, 6—1, 6—4.

Hand defeated Bennett, 6—5, 6—5.

Tregoning lost to Wells, 5—6, 5—6.

Shephard defeated Rudall, 3—6, 6—5, 6—4.

Pfeiffer lost to Dawson, 6—4, 0—6, 3—6.

Boer defeated Rowan, 6—4, 6—1.

Doubles

Mates-Tregoning defeated Mehaffey-Bennett, 6—5, 6—2.

Mates-Tregoning defeated Wells-Dawson, 6—5, 6—1.

Mates-Tregoning defeated Rudall-Rowan, 6—3, 6—2.

Hand-Shephard lost to Mehaffey-Bennett, 6—4, 2—6, 1—6.

Hand-Shephard defeated Wells-Dawson, 6—5, 6—5.

Hand-Shephard defeated Rudall-Rowan, 6—2, 5—6, 6—2.

Böer-Pfeiffer lost to Mehaffey-Bennett, 3—6, 1—6.

Böer-Pfeiffer lost to Dawson-Wells, 2—6, 6—3, 1—6.

Böer-Pfeiffer defeated Rudall-Rowan, 5—6, 6—0, 6—5.

Totals

P.A.C.—10 rubbers, 23 sets, 179 games.

S.P.S.C.—5 rubbers, 14 sets, 161 games.

CRITIQUE OF THE TEAM

(By Captain)

Boer, M. D.—Fully justified his inclusion in the team and is to be congratulated on his single in the Intercol. match. He has a severe service, but his ground shots are not all that could be desired.

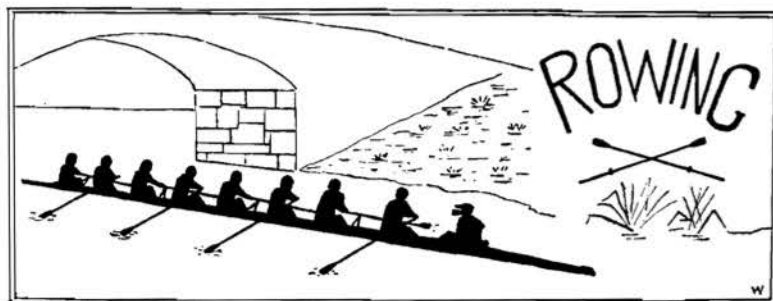

Hand, R. T.—Essentially a forceful player. Has a good style, both his backhand and forehand being sound and well produced. His service has exceptional pace and is well placed. His smashing, however, is at times erratic.

Mates, W. A.—Shows distinct promise and should go very far in the game. Forehand and backhand are consistent and accurate, while he at times makes uncanny placements. Would perhaps improve his game if he concentrated on a faster service.

Pfeiffer, R. D.—The youngest member in the side who, nevertheless, will benefit greatly by his experience. Has a strong cross-court forehand drive with which he hits some fine winners. There is room for improvement in his backhand, while the weakness in his smashing is probably due to his unorthodox service action.

Shephard, W. S.—Plays a steady medium-paced game, at times producing delightful winners. He would probably do better if he attacked his opponents' weaknesses more. His service and volleying could be hit with more precision.

Tregoning, J. (Captain, by R. T. H.)—Is to be congratulated on his captaincy. He plays a fine attacking game, using his height to great advantage in serve and smash. His ground shots are safe but at times his volleying lets him down.

We have had a most successful term's rowing. At our first meeting M. Solomon was elected captain, and R. R. Williams vice-captain, while J. M. Shannon and T. B. Hamilton were elected to the committee.

The term's practices began auspiciously. Of last year's Eight, Williams, Solomon, Shannon and Wicks returned; three of last year's Under 16 crew, and several others of more or less experience. A good number of new boys joined up, and we were able to put out more than the usual number of crews until sickness and mishap reduced our numbers considerably.

THE EIGHT

During the third term of last year our boys had excellent practice in competing for the J. C. Walter Trophy, which was generously donated by Mr. J. C. Walter, of Glenelg, one of our most enthusiastic Old Boy supporters. John Shannon won the trophy, but everyone benefited from the practice, and this term we had ten boys from whom to select the Eight.

We entered an Eight in the S.A. Rowing Association's Regatta at Port Adelaide on March 6. When the officials of the Association found that ours was the only entry for the Maiden Eights they very kindly arranged for a men's composite Eight to race against our boys. We greatly appreciated their generous help in this matter. The race over the mile was invaluable to our crew, which lost by only half a length after No. 4's seat had fallen to pieces in the boat.

After another fortnight the following selection was made: Oliver, R. W., (bow); Marshman, J. K. (2); Wicks,

D. G. (3); Hand, R. T. (4); Shannon, J. M. (5); Hamilton, T. B. (6); Solomon, M. (7); Williams, R. R. (stroke); Turner, R. H. (cox); Wegener, R. A. (emergency); Buttery, R. (emergency).

Misfortunes then came along. Hamilton and Wicks were each out of the boat for three weeks because of illness and accident, and Hand was not available till after the Intercollegiate tennis match, but the crew stuck loyally to its work and made very pleasing progress in spite of these setbacks. The emergencies and P. F. Edwards served us well during this broken period.

By the beginning of April the selected crew was together again, and training hard. To give them further experience we entered them in the Metropolitan Regatta on April 10, but before the day Marshman, unfortunately, became ill, and had to withdraw on the Thursday. Wegener was called on to fill the breach and the altered crew faced the starter. To our regret, Torrens, whom we were to meet in the first heat, withdrew, and then S.P.S.C., who had defeated Scotch, withdrew, so that we had two rows over. In the final we met the Adelaide Rowing Club Maiden Eight, which in a previous race had won the Junior Eights event. After a great race, in which we led them to Mercantile Shed, they went away inches at a stroke, to win by half a length in the fast time of 3 mins. 1½ secs. As our crew was not yet at its peak, and had had a change of men, we felt confident that it would do well a week later.

THE OTHER CREWS

At the beginning of the term we thought that we would be able to boat a crew in every event of the Public

School's Regatta, but illness and accidents so reduced our numbers that we had only one boy capable of rowing in a clinker, and that boat had to be dropped. Indeed, ten days before the Regatta we doubted whether we would have a Third Crew, but by radical alterations of seating, and a great effort by the boys concerned, we were able to find a crew. Their last week's training caused them almost as much discomfort as it caused their coaches anxiety, but they stuck to it, and as their stroke said, "The evening before the race we started to improve."

Shields was the only newcomer to the Under 16 Crew, which did good work right through and rowed well.

The Under 15 Crew was composed entirely of beginners, but by regular practice reached a fair standard.

THE PUBLIC SCHOOLS' REGATTA

The weather was ideal, and water conditions perfect. Our boys were well, and we looked forward to good racing.

The Under 15 Crew was as follows: Bow, Keller, R. D. (11.3); 2, Gryst, R. E. (10.2); 3, Haywood, C. C. G. (11.0); stroke, Close, J. N. (12.0); cox, Kirkman, D. N. (6.7).

This crew rowed well together when it opened our account by defeating Scotch in the first heat by $1\frac{1}{2}$ lengths. From a good start it went away to a slight lead, which it gradually increased to a length at Long's Point. There Close put up the rating, and so increased the margin to gain a good win.

In the final our boys met S.P.S.C., who had defeated A.H.S. in the second heat, and after another good race we won by three quarters of a length. The crew is to be congratulated.

The Under 16 Crew included: Bow, Shields, B. A. (9.5); 2, Kirkman, L. H. (10.7); 3, Keipert, P. H. (10.0); stroke, Edwards, P. F. (10.5); cox, Crompton, A. W. (7.5).

In the first heat they met S.P.S.C. Rowing well from an even start they quickly established a lead, and went on to win by three quarters of a length.

The final saw them matched against A.H.S., who had rowed a bye. Here they put up another fine performance, winning by five lengths in good time.

In the Third Crew event, previously called the Open Tubs, we were represented by: Bow, Black, G. B. (10.8); 2, Claridge, P. J. (10.9); 3, Tanner, J. S. (10.7); stroke, Buttery, R. H. (11.2); cox, Sullivan, P. G. (8.9).

Meeting Scotch in the first heat, they rowed with great determination to win by half a length. In this they did far better than in any practice row, and the School was proud of their effort, especially as they had been together for only a week.

In the second heat, A.H.S. defeated S.P.S.C., who protested. S.P.S.C. won the re-row, and in the final defeated our crew by half a length. Again our boys did well, but struck a bad patch near Long's Point, and did not recover till just too late.

THE EIGHTS

The open draw for the Eights Race has been remarkable; for in six years we have on five occasions drawn S.P.S.C. in a heat. The following boys constituted the crew which faced the starter in the first heat, rowing against S.P.S.C. for the Blackmore Shield and a place in the Head of the River final: Bow, Oliver, R. W. (9.10); 2, Wegener, R. A. (11.5); 3, Wicks, D. G. (11.4); 4, Hand, R. T. (11.8); 5, Shannon, J. M. (12.10); 6, Hamilton, T. B. (10.7); 7, Solomon, M. (10.12); stroke, Williams, R. R. (12.0); cox, Turner, R. H. (6.8).

At the start Saints went away to a canvas lead, which they maintained to Morphett Street, but Princes were rowing splendidly at 38, and Williams was stroking an excellent race. At Mercantile, Saints were still slightly ahead, both crews rowing magnificently. At Long's Point Williams called on the Crew, hit up the rating, and the crew responded instantly. In a wonderful finish they went away inches at a stroke, to win by three feet in the record time of 2 mins. 59 $\frac{2}{5}$ secs., which time compares very favourably with that of good men's Eights.

The 8,000 people on the bank found the race almost as exciting as we did.

The crew rowed straight back to the boat shed, and went out again an hour and a half later to meet Scotch, who had defeated A.H.S. by two lengths in the second heat.

After a good start Princes went away to a lead of a length, which they maintained to Morphett Street at a rating of 35. They then increased the lead to two lengths, holding it at 36, and so winning the Gosse Shield.

At the Rotunda, Mrs. J. H. Gosse presented the shields, the Gosse to Williams, and the Blackmore to Solomon. The new R. T. Wallmann trophy for the Junior premiership went to Saints, who scored 16 points to our 11.

There was great excitement at the boat shed afterwards, when numbers of Old Boys called in to congratulate the crews.

In the evening the fathers of the boys in the Eight entertained the Eight, Mr. J. W. Crompton, as representative of the Old Boys, and Mr. A. E. McLean, rowing master and coach, at dinner. It was a very happy function, followed by a visit to a picture theatre later in the evening.

Mr. G. W. Williams, the father of the stroke, generously promised a trophy to every boy in the Eight, and on the last day of the term the Headmaster presented inscribed cups to the members of the crew. We all greatly appreciate Mr. Williams' kindness.

There are several gentlemen to whom our hearty thanks are due. Firstly we must thank those who last year so liberally supported the move to provide the club with a practice Eight, without which this victory would have been impossible. Messrs. J. C. Williams, whom we were proud to see in the Interstate Eight, and J. C. Walter helped us immensely in many ways. Mr. H. W. A. Miller, to

whose enterprise we owe our boat shed and first fleet of boats, generously gave us an excellent stop-watch, which we greatly needed. Mr. B. K. Marshman, whose son John had unfortunately to withdraw from the Eight because of indisposition, helped us in many ways, and gave us a punching ball and platform, which we hope to see fitted soon. The Port Adelaide Rowing Club was most helpful in allowing us to use their Eights when practising at the Port; this we gratefully acknowledge. Lastly, our special thanks are due to Messrs. A. E. McLean, M. A. P. Mattingley, R. J. B. Mayne and L. Forrestal for their untiring efforts in coaching us during the term.

CRITIQUE OF THE EIGHT

Williams, R. R. (stroke).—A powerful oarsman of great courage and determination. As stroke he showed excellent judgment and was an inspiration to his crew.

Solomon, M. (captain).—A clean, powerful oarsman of great spirit. He backed up stroke splendidly. As No. 7 he did excellent work.

Hamilton, T. B. (6).—A polished oarsman whose skilful rowing more than made up for his lack of weight. A great battler in a tough race.

Shannon, J. M. (5).—The heaviest man in the crew, and very powerful. He always rows at his best in a hard-fought race.

Hand, R. T. (4).—A keen, powerful oarsman. He is to be congratulated on the improvement he made during his short period of training. Always there at the finish.

Wicks, D. G. (3).—A tall, powerful oar and a cheerful battler. He was handicapped in training, but rose splendidly to the demands of the Eights race.

Wegener, R. A. (2).—He deserves great praise for the splendid work he did when called on to take his seat in the Eight. He rowed with great determination, keeping a good length and driving powerfully.

Oliver, R. W. (bow).—A neat, clean bow oarsman. For his size and weight he did a surprising amount of work. He finishes every stroke firmly.

Turner, R. H. (cox).—A cool coxswain with good judgment; quite fearless in following the course he chooses.

Intercollegiate Athletics

The annual athletic sports meeting between Saints and Princes was held at the Oval on Friday, April 23.

We were favoured with ideal weather, and a large gathering of parents and friends, both old and young, watched the events. The meeting was honoured by the presence of His Excellency the Governor, Sir Winston Dugan, who was accompanied by his private secretary, Mr. Legh Winsler.

The first event was the 120 yards senior hurdle race, at 2.15 p.m. Tregoning ran well, but his chances of victory were diminished when he struck the last hurdle. The placings were the same as for last year, namely, Boucaut first, Tregoning second, and Steele third.

S.P.S.C., 6 points; P.A.C., 3 points.

In the 100 yards under 16 flat our boys established a lead in points which they steadily supplemented throughout the rest of the programme. Devonshire from Saints broke in the first attempted start, but at the gun-fire Stain took the lead, and held it to the finishing point. Park also started well, and ran second.

S.P.S.C., 7 points; P.A.C., 9 points.

The next race, 100 yards flat, provided the first of several exciting duels between Craven and Boucaut. Last year in this event these same two athletes tied for first position, and again this year, after lengthy discussion, the judges decided that the two had broken the tape together. Dawkins obtained third position for P.A.C.

S.P.S.C., 11 points; P.A.C., 14 points.

Bartholomaeus did not start well in the 100 yards junior flat event, but drew up to second position. Sargent ran well to win, and Martin, of St. Peter's College, was a close third.

S.P.S.C., 12 points; P.A.C., 20 points.

There was an interesting and exciting fight for first place in the senior high jump between Craven and McMichael. Craven dislodged the rod only once, viz., at the 5-ft. 5½-in. level. McMichael was defeated at 5 ft. 6½ in. Craven had other

events to follow, and so did not attempt to break the record of 5 ft. 7¼ in. established in 1933. Robinson from Saints jumped well to obtain third place.

S.P.S.C., 16 points; P.A.C., 25 points.

In the 100 yards Old Scholars' race, Magarey obtained an excellent start, but was overtaken by Campbell, McGowan and Edelman, the latter two being Old Reds. The time was 10½ secs.

The 220 yards flat race evoked keen interest, as it was another Boucaut-Craven duel. There was an exciting close finish between the pair, and amidst loud cheering Craven breasted the tape just ahead of his opponent. Robinson from Saints ran third. C. Bennett strained a stomach muscle in this race, but fortunately his injury was not serious.

An interesting incident occurred after this race, when Mr. G. C. Campbell congratulated Craven on his victory. Craven had broken the record of 23 secs. dead, established by Mr. Campbell in 1901, and equalled by R. Krantz in 1922, by covering the course in 22-9/10 secs.

S.P.S.C., 20 points; P.A.C., 30 points.

Saints are to be congratulated on their efforts in the junior high jump. They obtained first and second positions and tied for third position with Walker of P.A.C.

S.P.S.C., 26½ points; P.A.C., 30½ points.

This year a 12-lb. weight was used in preference to the 16-lb. used in previous years for putting the weight. Tregoning was again the outstanding performer with a putt of 44 ft. 5 in. Osman and Coleman, of Saints, obtained the other two positions.

S.P.S.C., 30½ points; P.A.C., 35½ points.

Frost beat last year's record in the 100 yards under 16 hurdle race. Unfortunately, Guppy missed the start of this race, but Knight ran well to obtain third place. This is only the second occasion on which this event has been run, the two times being 14½ and 14½ secs.

S.P.S.C., 32½ points; P.A.C., 40½ points.

Craven jumped 20 ft. 10 $\frac{1}{4}$ in. to defeat Boucaut in the senior broad jump. Tregoning gave P.A.C. third place.

S.P.S.C., 35 $\frac{1}{2}$ points; P.A.C., 46 $\frac{1}{2}$ points.

We also gained first place in the under 16 broad jump, when Stain cleared 19 ft. 1 in. Claring-Bould and Devonshire, of Saints, filled second and third positions. In an attempt on the record, Stain cleared 19 ft. 11 in., which is $\frac{1}{2}$ in. under the record.

S.P.S.C., 38 $\frac{1}{2}$ points; P.A.C., 50 $\frac{1}{2}$ points.

Boucaut and Craven again competed in the 440 yards flat race. Davies took the lead after a short time, but was overtaken before the sprint home. In a magnificent tussle, Craven and Boucaut strained every nerve in the final hundred yards up the straight, and Craven led by feet only at the tape. Robinson filled the next position. Craven created a new record for the event—52 $\frac{3}{4}$ secs.

S.P.S.C., 42 $\frac{1}{2}$ points; P.A.C., 55 $\frac{1}{2}$ points.

Dalwood and Jorgensen gained first and third positions in the 100 yards junior hurdles event. Dalwood covered the distance in 15 seconds.

S.P.S.C., 44 $\frac{1}{2}$ points; P.A.C., 60 $\frac{1}{2}$ points.

Lloyd had not been feeling fit before his running in the 440 yards hurdles, and this probably affected his performance. Steele and Monfries obtained first and second positions for Saints, and there was a close finish between Nicholls and Lloyd, both of Princes, for third place, the former gaining the honour.

S.P.S.C., 52 $\frac{1}{2}$ points; P.A.C., 61 $\frac{1}{2}$ points.

Stain ran a fast 440 flat in the under 16 section to reduce the record from 54 $\frac{2}{3}$ to 54 $\frac{2}{3}$ secs. Tucker from S.P.S.C. finished second, and Clarke gave P.A.C. the point for third place.

S.P.S.C., 54 $\frac{1}{2}$ points; P.A.C., 66 $\frac{1}{2}$ points.

Again the team-work of P.A.C. proved most effective in the running of the mile. Kelly made the pace for the first lap, and Wiltshire for the second. Then in the last lap Solomon went ahead and retained his lead to the finish. He won by feet from Warren, and Wiltshire, of P.A.C., ran excellently to obtain third place.

The final scores were: St. Peter's College, 57 $\frac{1}{2}$ points; Prince Alfred College, 72 $\frac{1}{2}$ points, representing a win of 15 points by our team.

His Excellency the Governor presented the Athletic Cup to Tregoning, our captain, who received it on behalf of his team. Medals were presented to the winners of each event.

In view of the excellent performances of Craven and Stain, who between them broke four records, the School had a most successful day. Craven had no mean opponent in Boucaut, and we feel proud that he emerged triumphant. Congratulations are due also to Solomon and Tregoning.

We all appreciate deeply the untiring efforts of Messrs. E. Wadham and J. S. Steele, whose assistance contributed in no small way to our success.

R. A. W.

N.B.—It is interesting to recall one or two outstanding performances of previous years. In 1918 R. M. Fowler took part in six events against St. Peter's and won the six. In 1922 R. Krantz won four of the five events in which he started and was placed second in the fifth. This year R. B. Craven started in five events, won four and dead-headed for first in the fifth.

FIRST XVIII FOOTBALL PROGRAMME

All games will be played at P.A.C. except where otherwise indicated.

- June 5—P.A.C. v. Muirden Old Scholars
 „ 12—P.A.C. v. C.B.C. Old Scholars
 „ 19—P.A.C. v. Concordia College

Annual School Sports

The Annual Athletic Sports were held on the front oval on the afternoon of Saturday, May 1. The weather, which had been unsettled during the week, was threatening, but only very light rain fell during the afternoon. We were all pleased to see the large crowd of parents and friends who attended the fixture.

A record number of entries (760) was received this year, and owing to this some of the heats and one or two finals were run off during the preceding days. Friends of the School and masters acted as judges and track stewards.

We are especially grateful to Mrs. H. Woodhouse Crompton, who, after being introduced by the Headmaster (Mr. J. F. Ward), presented the prizes. We also wish to thank all those who gave donations towards the prize fund, and those who officiated on the day of the sports.

There were four entrants for the School cup, which was won by Craven, who gained 28 points out of a possible 35. F. C. Bennett proved himself to be a good all-rounder, and was runner-up, gaining 17 points. Tregoning was third, gaining 13 points. He won the broad jump from Craven after a very good contest by half an inch.

Stain had a very successful afternoon, winning four events in fine style. Sargent once again proved himself the most successful sprinter in the junior division. J. N. Bennett won the 440 yards hurdles from Solomon with ease, and Kirkman won the mile for the second time in succession.

This year there were very few entrants in the Old Scholars' events. A. G. Rowe was successful in the 120 yards handicap, and R. J. McGowan in the 220 yards handicap.

J. H. N.

RESULTS

- 120 Yards Handicap (under 14)—
1, Harley; 2, Western; 3, Padman. Time, 14½ secs.
- 120 Yards Handicap (under 15)—
1, Sargent; 2, Bartholomaeus; 3, Pearson. Time, 13½ secs.

- 120 Yards Handicap (under 16)—
1, Stain; 2, Hoad; 3, Reed. Time, 13 secs.
- 120 Yards Handicap (open)—
1, Park; 2, Pfeiffer; 3, Scott. Time, 12½ secs.
- 220 Yards Handicap (open)—
1, Stain; 2, Linn; 3, Nicholls, W. R. Time, 24½ secs.
- 440 Yards Handicap (open)—
1, Hoad; 2, Nicholls, W. R.; 3, Clarke, B. G. Time, 55½ secs.
- Half-mile Handicap (open)—
1, Andrew, R. J.; 2, Kirkman, L. H.; 3, Cadd, H. B. H. Time, 2 mins. 8 secs.
- One Mile Handicap (open)—
1, Kirkman, L. H.; 2, Wiltshire; 3, Robinson. Time, 4 mins. 58 secs.
- 100 Yards Junior Hurdles—
1, Dalwood; 2, Jorgensen; 3, Johnston. Time, 16½ secs.
- 100 Yards Hurdles (under 16)—
1, Hamlyn; 2, Frost; 3, Guppy. Time, 15½ secs.
- 100 Yards Hurdles (under 14)—
1, Harley; 2, Dalwood; 3, Dunn. Time, 16 secs.
- 440 Yards Hurdles Handicap (open)—
1, Bennett, J. N.; 2, Solomon; 3, Nicholls, J. H. Time, 65½ secs.
- Obstacle Race—
1, Murdoch; 2, Dunn; 3, Chenoweth.
- Junior High Jump—
1, Walker; 2, Bond; 3, Jorgensen. Height, 4 ft. 9 in.
- Senior High Jump—
1, Craven; 2, Reddin; 3, Bennett, J. N. Height, 5 ft. 2 in.
- Junior Broad Jump—
1, Jorgensen; 2, Bartholomaeus; 3, Bond. Distance, 17 ft. 4½ in.
- Senior Broad Jump—
1, Tregoning; 2, Craven; 3, Bennett, F. C. Distance, 20 ft. 2 in.
- Broad Jump (under 16)—
1, Stain; 2, Hiatt; 3, Reed. Distance, 19 ft. 8½ in.
- Putting the Weight—
1, Tregoning; 2, Hodge; 3, White, L. M. Distance, 43 ft. 4 in.

CUP EVENTS

- 100 Yards Flat Race—
1, Craven; 2, Tregoning; 3, Bennett, F. C. Time, 10½ secs.
- 220 Yards Flat Race—
1, Craven; 2, Bennett, F. C.; 3, Solomon. Time, 23½ secs.

440 Yards Flat Race—

1, Craven; 2, Bennett, F. C.; 3, Solomon.
Time, 57 secs.

Half-mile Flat Race—

1, Craven; 2, Solomon; 3, Bennett. Time,
2½ mins.

120 Yards Hurdles—

1, Tregoning; 2, Bennett, F. C.; 3, Solomon.
Time, 19 secs.

High Jump—

1, Craven; 2, Solomon; 3, Bennett, F. C.
Height, 5 ft. 2 in.

Broad Jump—

1, Tregoning; 2, Craven; 3, Bennett, F. C.
Distance, 20 ft. 2 in.

POINTS FOR COLLEGE CUP

R. B. Craven	28
F. C. Bennett	17
J. Tregoning	13
M. Solomon	12

CHAMPIONSHIPS

100 Yards College Championship—

1, Craven; 2, Dawkins; 3, Tregoning. Time,
10½ secs.

100 Yards Flat (under 16)—

1, Stain; 2, Park; 3, Reed. Time, 11 secs.

100 Yards Championship (Junior)—

1, Sargent; 2, Bartholomaeus; 3, Jorgensen.
Time, 11½ secs.

--

OLD SCHOLARS' EVENTS

120 Yards Handicap—

1, Rowe, A. G.; 2, McGowan, R. J. Time,
13 secs.

220 Yards Handicap—

1, McGowan, R. J.; 2, Rowe, A. G.; 3, King, J.
Time, 24½ secs.

Cricket Notes

With five of last year's side available, and, in addition, the twelfth man, we have the nucleus of a good side. Spin bowlers are as plentiful as buds in spring-time, but the lack of an opening bowler caused a little reshuffling in the side. Agars was tried behind wickets, and F. C. Bennett entrusted with the opening attack. Our batting seems likely to be strong later in the year. Tregoning and Pearce are both fine batsmen, and of the newcomers, Gersch has already played two valuable knocks, while Friebe, Clarke and Frost showed promise. The last-named also bowled serviceably. Our fielding leaves room for improvement, and we hope the gingering-up of this phase will not be neglected in the third term.

Although the Second Eleven is the main recruiting ground for the Firsts, a boy's performances are keenly watched by the selectors in whatever grade he plays. We may cite Clarke as an example. This player has been promoted from the Under 14 side—a rather unusual promotion—and it will be interesting to see if the experiment succeeds. Of the three Association games played, we won one brilliantly, and lost the other two, thus finishing third on the Associa-

tion list. We congratulate the East Torrens side on winning the Pryor Shield.

The annual match against the Methodist Conference was played on the front oval, and, as usual, resulted in a win for the School side. However, the result was closer this year. P.A.C., 124 (Pearce, 40 retired; Bennett, 33 retired); Conference, 112 (Dixon, 37; Jarman, 30; Silwood, 20). Kitto, 6 wickets for 30.

F. C. B.

P.A.C. v. PAYNEHAM

(February 20 and 27)

The first match of the term was played against Payneham on their grounds. Losing the toss, we were sent in on a wicket that had scarcely been prepared at all. Tregoning, Reddin and Pearce were all out with the total at 20, but Agars, defending solidly while Bennett began to score more quickly, helped to raise the total to 70 before he was bowled for 15. Fisher, Hodge, Bartholomaeus and Friebe all stayed for a while without adding many runs, but all fell to foolish strokes, considering the state of the wicket. Kitto and Bennett put on 32 for the ninth wicket, of which Bennett, hitting hard, scored 28, but in trying to force the pace he was caught, after batting

solidly and crisply for 78, giving no chances. The end soon followed, and we were out for 146.

Tregoning bowled well on the following Saturday, finishing with the fine figures of 5 for 28 off 14 overs. Kitto also bowled well to take 4 for 37, but Bartholomaeus and Pearce were a little expensive. Payneham passed our total by 10. In our second innings Pearce (40 not out), Bennett (32) and Tregoning (29) scored well.

P.A.C. V. PROSPECT

- -

(March 6 and 13)

Prospect batted after winning the toss, and lost five wickets fairly cheaply, due to a fine opening burst by Frost, who swung the new ball very well, and accurate spin bowling by Kitto and Pearce. Then a fine fighting partnership by Rix and Farrelly put on over 150 before Bartlett dismissed Farrelly l.b.w. Missed chances cost us dearly, and Prospect amassed the fine total of 319, Rix remaining unconquered for 136. Pearce bowled exceptionally well, although he only took two wickets. Frost made a very successful debut, taking 2 for 51, and Bartlett bowled accurately, finishing with the best figures, 3 for 51.

Batting in the last 20 minutes, we lost 3 wickets for 1 run in the opening over, Holmesby taking the hat-trick, but Pearce and Tregoning played out time. Facing a huge total, these two batted magnificently on the next Saturday, punishing the Prospect medium-pacers, a fine six by Tregoning being a feature. Both reached the century in rapid time, and put on 221 runs before Pearce was dismissed, after batting brilliantly for about 150 minutes. His forcing shots were tremendously powerful, and his only chance was hit with tremendous power to square-leg late in his innings. Lloyd and Agars did not stay long, the latter being the victim of a foolish run out, but Gersch, who then partnered Tregoning, batted confidently in his first match, pulling convincingly. Finally Tregoning, after batting in chanceless style for nearly four hours, missed a hook shot and was bowled. He had never been troubled during his long stay at the wickets, pulling and driving powerfully at every opportunity. Both he and Pearce are to be congratulated on their brilliant fighting partnership. Prospect badly needed a slow bowler, and Gersch and Friebe, batting very well, took toll of the tired bowling and soon placed us in front, both remaining not out with scores of 29 and 26.

P.A.C. v. HAWTHORN

(March 20 and April 3)

Losing the toss for the third time in succession, we fielded, and after being on top early, wickets falling cheaply for a few overs, a fine partnership dashed our hopes of an easy win. Several difficult chances were dropped, and the wicket being unresponsive to any type of bowling, our attack was not dangerous after the first hour's play. Bartlett took a fine catch at third man, and a burst of good bowling by Kitto brought the innings to a close, with the total at 216. Kitto was the best of our attack, though Bennett, early, was dangerous. Frost swung the ball well, but absolutely lacked control.

Appeals against the light were frequent in Hawthorn's opening over, and after Friebe had been bowled play ceased. On the Saturday following the Easter break we collapsed badly, no doubt due as much to lack of practice as to the crumbling wicket. Bennett, Gersch, Clarke and Frost were the only ones to reach double figures. Clarke batted very well in his first match, and after he responds to coaching should make many runs. Gersch also batted well in his two innings with the Firsts, and when he learns to pick the loose ball he will be one of our outstanding batsmen.

Swimming Carnival

The swimming sports, which were inaugurated last year after a lapse of many years, were again successfully held on February 25 in the Unley Crystal Pool. They were viewed in perfect swimming weather by quite a large number of parents, who showed a decided interest in the proceedings in spite of the clammy heat of the galleries.

At a meeting held earlier in the term five boys, R. B. Craven, M. W. Stain, D. F. Provis, D. G. Wicks and J. C. Norman were elected to form the committee, but the success of the sports was due mainly to the efforts of Mr. Mattingley, who not only sacrificed a great deal of time in making all the necessary arrangements, but who was also the main factor in causing everything to run like clock-work on the day of the sports. We must mention also the support of the masters who willingly gave their services on the afternoon of the carnival, and helped to get the events over in the time allotted by the Pool officials.

This year eleven championships were contested, H. A. Barraclough winning the 220 yards open freestyle championship, M. W. Stain the 100 yards open freestyle championship, J. D. Clarke the dive championship, D. K. Barraclough the 66 yards freestyle championship, and C. L. Whitrow the 66 yards breast-stroke championship.

The event which proved most popular and most amusing was the pillow-fight on the greasy pole—three boarders versus three day-boys. However, after three stirring battles the boarders were just

"pipped on the pole" by their opponents, who secured two falls to one.

RESULTS

- 66 Yards Freestyle Championship (under 15)—D. R. Barraclough.
- 66 Yards Breaststroke Championship (open)—Whitrow, Clarke, Nicholson.
- 66 Yards Freestyle Championship (under 14)—Moore, Clarke, Gryst.
- Fancy Dive—Craven, Bennett, Morris.
- 100 Yards Freestyle Championship (open)—Stain, Kirkman.
- 33 Yards Freestyle Championship (under 13)—Morris, Griff.
- Dive Championship (open)—Clarke, Sutton, Whitehouse.
- Preparatory School Championship (33 Yards)—Dolling, Taplin, Jessup.
- 33 Yards Backstroke Championship (open)—Craven, Sanders.
- Dive Championship (under 15)—Clarke, Norman, Wibberley.
- 220 Yards Freestyle Championship (open)—Barraclough, Williams, Sanders.
- Under Water Swim—Smith, Clarke.
- 100 Yards Freestyle Championship (under 16)—Provis, Kirkman, Williams.
- 33 Yards Sprint (open)—Spencer, J. N. Bennett.
- 66 Yards Breaststroke Handicap (open)—Whitrow, Barraclough.
- 66 Yards Freestyle Handicap (under 15)—Newman, Clarke.
- 66 Yards Freestyle Handicap (open)—Spencer, Sutton.

Our thanks are due to the donors of the trophies and to the Headmaster, who gave the School a half holiday, and who kindly presented the prizes to the successful competitors.

These sports have been very successful, and it seems likely that the Swimming Carnival will once again become an annual event in the life of the School.

Christian Union

The C.U. committee is pleased to record that during this term a greater interest has been taken in this branch of the School's activities. Since it has been realized that the boys in the upper part of the School have so many other things to occupy their time, the meetings have been held once a fortnight this year instead of once every week, and we expect all the older boys to be present now that this change has been made.

The first meeting of the Christian Union was held on Wednesday, February 24, in the Assembly Hall. The Headmaster addressed this gathering, telling us of the origin and development of the Student Christian Movement. Then he related the story from Plato's "Republic" about the men in the cave, who could see only the shadows of the events happening outside the cave and not the events themselves; in the same way, Plato points out, many people do not see life in its reality, but only the shadow of life, as it were, cast upon a screen before their eyes. Mr. Ward urged us to take more interest in the religious side of our nature, for religion is worth while, if only we make it so, and it is religion that helps us to see the real things in life, not only their "shadows."

On March 10 Rev. Norman Lade, M.A., B.D., spoke to us about the "Limits of Loyalty." He took as his text St. Matthew xii, 48: "Who is my mother? and who are my brethren? Whosoever shall do the will of my Father which is in heaven, the same is my brother, and sister, and mother." In this incident our Lord seems to disregard family friendship and affection, but it is an example of the extended loyalty which He believed we should have regarding all men as our brothers, united under one Heavenly Father. This is the highest conception of loyalty which we can understand as we grow older. A small child thinks only of himself, but as he grows up he becomes loyal to the other members of the family as well. At school his loyalty is extended to his form, his house, his

masters, his school, and when he leaves school he is loyal to his community, his city, his State, the Commonwealth, and the British Empire. Life's progress is measured by the extent to which we enlarge our spheres of loyalty, beginning with the loyalty of a small child to himself and his family, and extending to the greatest loyalty of all—loyalty to the Kingdom of God.

Rev. J. H. Allen, B.Sc., an old friend of the School, addressed our meeting on March 24. He gave us an explanation of the real meaning of Easter. "To err is human," and sin has existed in the world from the earliest times. The conscience-stricken sinner feels that some sacrifice is necessary to show his contrition, and from this arose the custom of burnt offerings. According to the Bible, Cain and Abel were the first to use burnt offerings as a sign of sorrow for their sins, and since their time there were many other instances of this custom. The blood of human beings used to be sacrificed, and still is in some religions of the world, but this practice soon gave way to that of sacrificing the blood of animals for propitiation. But what is it best that we should do to show our contrition? It is not the sacrifice of the blood of animals that is necessary, but conversion to the will of Christ, "the Lamb of God that taketh away the sins of the world." As He willingly gave himself for us, so we must give ourselves to Him; as He saved us, so we must save others, for "faith without works is dead."

"If any man is in Christ he is a new creature" (2 Cor. v, 17) was the text of Rev. J. H. Crossley's address, given to us on April 7. He showed us that as a man who, after a long illness, goes for a drive in the hills thinks he is in a new world, while the world is only new to his way of looking at it, so we, if we are in Christ, have a new way of looking at things. We cannot change the world, but we can change our way of looking at it, and it was to give us this way of looking at it that Christ came into the world.

On April 14 Mr. J. S. Taylor addressed those present, telling us of the Toc H Movement and its work.

Rev. A. C. Newbury's address, given on April 28th, was on the subject of "Difficulties with the Bible." Many people regard the Bible as only for children because many of the incidents related in it seem to be fit only for the mind of a child, but this is mainly because of the phraseology of this Book. It is necessary

that we place ourselves back in Biblical times and obtain a background for the story before we can fully understand its meaning. In conclusion we wish to thank all those who have so generously given their time in helping us to realise the value of good Christian living, and in showing us how to attain this realisation. We appreciate very much what they have done for us.

T. V. H.

Prefects' Jottings

"We few, we happy few, we band of brothers."

The School prefects for 1937 were appointed early in the term. Chester Bennett was announced as Captain of the School, with J. H. Nicholls as the Head of the Boarding House. We congratulate them and wish them luck in their respective offices.

We are fortunate to be the very first to inhabit the Prefects' Room after its complete renovation during the Christmas vacation. For this we are indebted to the Headmaster, and desire to take this opportunity to thank him for his thoughtfulness.

Although two of our members are weight-putters, and the weights are in our charge, no one, we are pleased to say, has yet succeeded in breaking either the new light or the mirror. The shattering of the mirror would create something in the nature of a national crisis. How, for instance, could Bill play such brilliant golf, and cut such a stunning figure on the links, if he had not our mirror in front of which to practise both his swing and his grooming. (A fairly exact estimate of the contents of Bill's golf-bag is the following: three or four woods, two combs, nine or ten irons, a mirror, a dozen or so balls, one photograph, and another comb.)

"Trigger" and "Eddie," too, find the conveniences of our new room invaluable as two who are being photographed roughly at the rate of x times per day at the time of writing. It is probably only a matter of time and Robert Craven-tino (or something) will have ousted

Robert Taylor and Clark Gable from their exalted position at the head of the list of public heart-throbs. Something must come of all these photographs, even if he does play the saxophone.

Again the Prefects have been well represented in the sports of the term. Tregoning was elected captain of both the tennis and the athletics teams, while Craven's success in the latter was really meritorious. Bennett, Lloyd, Nicholls, Davies and Hodge found places in the athletics. Shephard played in the tennis, and Wegener helped to pull our record-breaking crew to victory in the Head of the River races.

It shall never be said, however, that the School Prefects did not concern themselves with anything but the lighter phases of scholastic life. Cartledge has helped to maintain our prestige in school work, and we congratulate him on being this term's Dux of the School. Cartledge and Davies, too, passed an examination for Cadet Lieutenants during the term, and now enjoy the honour of that rank.

It is really a great pity, and a lowering of our standing somewhat, that none of this year's Prefects are regular car-drivers. However, the consensus of opinion among the rabble is that it is just as well, and considering the manner in which some our members have been seen to drive on the infrequent occasions when they can persuade someone to lend them a car, the rabble is probably right (for once).
J. H.

Cadet Corps

Although many members of the corps left school at the end of 1936 we have obtained a fair number of recruits this term, and our present strength is 65. A school of our size should be able to muster a much stronger corps, and, indeed, in years gone by, it has done so.

Much time has been spent this term in fitting out recruits with rifles, belts, bayonets and uniforms. Nevertheless, instruction has gone on steadily, and we made a creditable showing in our new jackets on the Anzac Day parade.

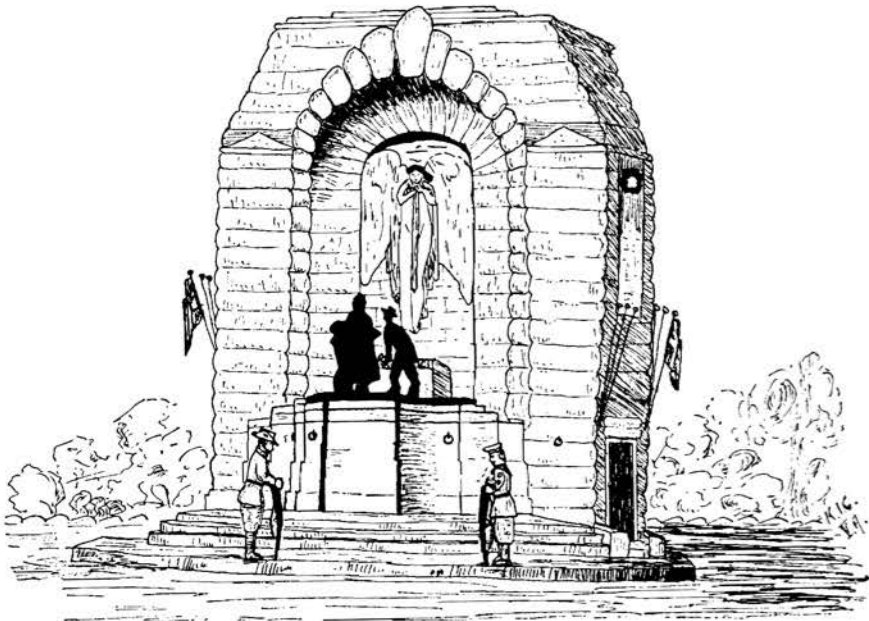

The highlight of this term's training was the inspection by the Base Commandant, Brigadier Martyn, and Colonel F. J. Alderson, Director of Cadet Services and Physical Training. Having inspected the guard, the visiting officers, accompanied by the Headmaster, watched platoons and sections at work on the back oval. Finally the corps was drawn up and addressed by the Commandant, and then by Colonel Alderson, who stressed the importance of School Cadet Corps as training grounds for future officers and non-coms of the militia. It was suggested that a hat badge, embodying the School

crest, would improve the appearance of the hat, and we appeal to any boy who can find at home the metal badge which, a few years ago, was worn by all P.A.C. boys on their hats, to forward the same to O.C. cadets or to one of the junior officers.

On the last day of term the Headmaster received a letter from Brigadier Martyn relating to his annual inspection, and we may be allowed to quote paragraph one therefrom: "The parade in general was excellent, and the guard showed that they could handle their arms very well indeed."

PROMOTIONS FOR THE TERM

The board of examining officers has recommended that Sgt. J. O. Cartledge and Cpl. D. J. Davies be promoted Cadet Lieutenants. The following, after examination, have been promoted Corporals: L.-Cpl. R. A. Wegener, L.-Cpl. R. R. Williams, L.-Cpl. R. H. Burden, L.-Cpl. D. T. Martin, Cadets T. B. Hamilton, J. L. Cleland, J. K. Marshman, R. W. Oliver and D. G. Wicks. Lance-Corporals: W. L. Cleland, R. H. Buttery, A. R. Weetman, H. A. Barraclough.

"LEST WE FORGET"

SCOUTS

At the end of last year the troop numbered about thirty. We began this term with the satisfactory total of forty. This is as large a number as we can cope with, and providing that everyone pulls his weight we should have a pleasant year in front of us.

The increased enrolment has necessitated the forming of a new patrol. J. R. Ingamells, W. B. Spencer, D. L. Anderson, J. S. Smith and P. G. Sullivan are the patrol leaders of the Kangaroo, Eagle, Owl, Magpie and Wood-pigeon patrols respectively. With such a willing band of leaders the work of the troop should move smoothly.

During the first term, with its breaks for Easter, for exams. and for public holidays, the work of the troop is naturally hindered, and it is rather difficult to sustain the interest of the boys. The long second term, with its lack of holidays, should, however, bring with it a continuity of interest and effort.

On April 10th a party of Scouts visited the shack at Mylor. The boys' energy was boundless, for after eating a large dinner they adjourned to the cleared hillside and built themselves brush and log fences to form a steeplechase course. On its completion the human horses, bearing imaginary colours and jockeys, scampered wildly over the jumps. Sneyd proved to be a "dark horse," for although he was carrying the top weight he defeated the favourite, Jennison, by a short head.

Twenty-three boys paraded on Anzac Day. This is the largest parade for some years, but it is not yet good enough. The march is not arduous, and every Scout should feel it is his duty to attend.

In the May holidays a camp is to be held at Mylor. We are rather disappointed that so few boys are attending.

Last May we had over twenty in camp, and it proved to be one of the most enjoyable held in the last few years despite the inclemency of the weather. Perhaps this year the weather will be kinder and the camp prove even more enjoyable.

The two Jamboree medals presented to the troop will be awarded this term to E. C. Forsyth and B. A. Shields, who have proved themselves to be the keenest Scouts in the troop.

DON QUIXOTE,
Knight of the Golden Plume, of the Saucepan
and the Copper Lid

J. M. B., V1a

Library Notes

Every year sees our popular Library growing steadily, and this term has proved no exception. Books dealing with various branches of knowledge have been added during the term, and it is noticeable how often these new books are borrowed for extensive reading by those who appreciate different and original views on various subjects.

A former school prefect and librarian, W. I. North, has kindly presented seven volumes of Shakespeare (Warwick Edition), which will be much appreciated by many of our readers, especially in view of the examination to be held later in the year for the Melrose Prize for Shakespeare.

Next term is the longest term of the school year, and also the wettest, and the committee would be pleased to see more boys making use of the Library for more extensive reading, especially during the luncheon hour.

We also wish to express our thanks to Mr. W. E. Stokes, of Western Australia, who presented a comprehensive text book of Chemistry, which will in particular be of great benefit to the Leaving Honours Chemistry form.

We have also to thank Dr. R. J. B. Mayne for presenting a volume on "The Australian Thrips," of which he is joint author.

A beautifully bound copy of "Austrian Chivalry," containing reproductions in colour and duo-tone of official War paintings, and dedicated to "The men and women who did not return," has been presented to the School by Dr. F. J. Chapple. We thank him heartily for his gift, which has fittingly been placed in the Hall of Remembrance.

We are also glad to place on our shelves "A Century of Commerce in South Australia, 1836-1936," which includes a brief history of the Adelaide Chamber of Commerce (compiled by Lieut.-Col. H. G. Viney)—presented by R. G. Neill, Esq.

In addition to the books mentioned above, the following have been added during the term:—

English Lit.

"Something About Words," by Ernest Weekley (presented by the School Prefects of 1936).

"The Oxford Book of Modern Verse," by W. B. Yeats.

"Tales from Shakespeare," by Lamb.

Physics.

"A Text Book of Physics," by W. Watson.

"A Text Book of Physics," in five volumes, by E. Grimsehl.

Chemistry.

"A Text Book of Theoretical and Inorganic Chemistry," by Philbrick and Holmyard.

"Inorganic and Theoretical Chemistry," by F. Sherwood Taylor (presented by W. E. Stokes, Esq.).

General.

A fourth volume of "University Manuals."

Magazines, etc.

"The Adelect," "The Christian Science Monitor," "The Times Literary Supplement," "The Australian Intercollegian," "Official Souvenir of the Coronation."

OUR CONTEMPORARIES

We acknowledge with thanks the receipt of the following exchanges, and apologize for any omissions:—

South Australia.—"St. Peter's College Magazine," "The Paringa Hall Collegian," "M.L.C. Annual," "C.B.C. Annual," "Adelaide Technical High School," "King's College Magazine," "Brown and Gold" (Concordia), "Scotch College Magazine," "Adelaide High School Magazine."

Victoria.—"The Pegasus" (Geelong College), "The Corian" (Geelong G.S.), "The Scotch Collegian," "The Mitre" (Trinity G.S.), "Wesley College Chronicle," "The Melburnian."

New South Wales.—"The Cranbrookian," "The Hawkesbury Agricultural College Journal," "The King's School Magazine," "The Newingtonian."

Queensland.—"Nudgee College Annual," "The Clansman."

Western Australia.—"The Swan," "The Western Wyvern" (Wesley College).

Tasmania.—"School Echoes" (Hobart).

New Zealand.—"The Waitakian," "The Nelsonian."

Canada.—"The College Times."

England.—"The Cliftonian" (Bristol), "The Limit" (Loughborough).

Boarders' Notes

With the commencement of school this term over one hundred boarders assembled. This is a marked increase from last year, and the old Prep. dormitory was used for accommodation. The Prep. boarders now sleep over in their new quarters in the Prep. building. A fair percentage of boarders were new boys, but they soon settled down to the routine life of the School.

This year we welcome two new resident masters, Dr. R. J. B. Mayne and Mr. A. Yule. We hope their stay with us will be a pleasant one. J. H. Nicholls was appointed head of the house for this year, with J. N. Bennett, T. P. Dearlove, K. I. Friebe, R. E. Gersch, J. C. Norman, K. H. Sampson and F. C. Sanders to support him. J. Andrew and L. White must be congratulated on their appointment as librarians.

The first sports fixture of the year was the Swimming Carnival, held at the Unley Crystal Pool. Several of our number were prominent among the prize-winners. During a heat-wave in February all the boarders were taken to spend the evening at West Beach. Everyone thoroughly enjoyed himself, and we must thank the Head for allowing us this outing. It was most welcome and refreshing.

We were unfortunate in having only one representative in the tennis team this year. However, Pfeiffer must be congratulated on his fine show at the Adelaide Oval.

Wicks and Shannon, our representatives in the Eight this year, must also be congratulated. We must not forget those who rowed in the junior crews in the Regatta. Almost ceaseless training was necessary for them for weeks before the Regatta, and their boot leather bill must have been high.

Our representatives in the athletics this year, Bartholomaeus, Bennett, Dawkins, Frost, Kelly, Knight, Nicholls, J. H., White and Wilson, are to be congratulated. These boys all did their part in helping us to win the contest this year. On the night of the athletics we were very grateful to the Head for allowing us to visit the "Rex."

The School sports, held on May 1, were as popular as usual, and many boarders were to be seen among the prize-winners. J. N. Bennett ran well to win the 440 Yards Hurdles, Frost was successful in the 120 Yards Hurdles (open), Hoad won the 440 Yards Flat, and R. Andrew the Half-Mile. We must congratulate A. G. Rowe, our former head of the house, who won the Old Scholars' 120 Yards event.

On the evening after the sports a party was held in the Assembly Room. Boarders were allowed the privilege of inviting their partners, and this happy thought delighted the Romeos of the boarding house. Judging by the red marks on some faces we can assert that most of them enjoyed themselves immensely. Our thanks must go to the Head, Mrs. Ward and Matron, who so kindly made the necessary arrangements.

This formed a fitting ending to a pleasant term, and now we can look forward to the holidays and another term of good work.

In conclusion we would be pleased if anyone could enlighten us on the following:—

For what reasons do magicians have midnight meetings?

Whose defence policy cost him sixpence?

Do handsomeness and cross-word puzzles go together?

What species is a Carpa finch?

Who is first string in the marbles intercol?

Who is our King Solomon?

B. N. C.

Letters from Overseas

We publish two interesting letters from beyond Australia which have just been received by members of the School. One from Colin Gilbert, who is training as an air-pilot with the Royal Air Force in England, and the second from a school-boy correspondent in Penang, Straits Settlements.

Royal Air Force,
Yorks,

Dear Mr. McLean, 23/3/37.

As you can see from the above I am away up in the frozen north among the smoke. This place is a sort of advanced training school for bomber pilots, and I shall be here for about three months. We had a wonderful trip over on the boat. It was an exceptional trip, no really hot weather, no extreme cold, and no storms, so we enjoyed it to the full.

We arrived in London on February 11, and I spent the first week touring in a car I hired for £5, and had a marvellous time. I spent the next fortnight at Uxbridge, and was in London almost every day. The next fortnight I was posted at Grantham, and did a little flying in a "Hawker Harts" and "Audax."

I came up here on Saturday (this is Tuesday). Thornaby is only a new station, so we are living in little wooden huts, and the hangars are of canvas. Add to this the muddy nature of the 'drome, and you have a perfect representation of a 'drome in Flanders in 1916. It is very cold here, and has snowed ever since I arrived. However, they say the adaptability of the human body is amazing, so I have become used to it.

The work here is very interesting. You see, the heavy bomber pilot has to have a first-class knowledge of the work of each of his crew, so that he can, if necessary, instruct them, or in action take any of their places if they are killed. Consequently, I spent most of today lying in the bottom of an "Audax" finding wind, speed, direction and dropping bombs. Tomorrow I have to freeze in the back cockpit navigating a plane above the clouds on a long cross-country flight; also I have to use a Lewis gun on a flag towed by another 'plane. It is all I can do to manoeuvre the gun against the slipstream, so I don't know how I am to hit the target. Still, it's a great life and I like it.

Well, I'm afraid I must close now if I am to catch the mail, so, until next time, "au revoir."

Yours sincerely,
Colin Gilbert.

No. 37 Krian Road,
Penang,

Dear Friend, 14/3/37.

Your letter of the 14th ultimo came to hand this morning, and very many thanks for the stamps and the pictures, thus giving me an idea of the colleges in your country.

I enclose some of the S.S. stamps and a copy

of my photograph, and also a picture of our school.

The games of our school are football, basketball, badminton and volley-ball, etc. Once a year the school holds its annual sports, and I took part in several events.

I shall be glad to learn from you as to the weather in your country. Will you be good enough as to give me a brief account of the climate?

Penang, or Prince of Wales Island, lies about two miles off the western coast of Malaya, and has an area of about 108 square miles. It is hilly in the centre, the highest point—Western Hill—having an altitude of 2,722 feet, with low ground around the shore.

The main town, officially George Town, but usually referred to as Penang, is at the north-east corner of the island. It has a population of 160,000. Penang was the first British settlement in Malaya, having been ceded to the East India Company by the Rajah of Kedah in 1786. In 1805 it was made a separate Presidency, of equal rank with Madras and Bombay. In 1826 Singapore and Malacca were incorporated with it under one Government, Penang still remaining the headquarters of the administration. In 1836 the seat of the Government was transferred to Singapore. In 1867 Singapore, Penang and Malacca were transferred from the control of the Indian Government to that of the Secretary of State for the Colonies, and were henceforth known as the Straits Settlements.

The visitor is struck by the beauty of Penang Island when it first shows up on the horizon; the entrance by either the north or the south channel to the wonderful natural harbour gives some idea of the magnificence of the scenery, and immediately on landing one is impressed by the avenues of shady trees in the streets outside the business area, and the colouring of the flowers in the gardens of the residences. The coastal views far surpass those of the Riviera, while the panoramic views from the hills and the jungle scenery of the hillsides are not to be found in any other part of Malaya.

Penang is not merely a beautiful island. The town is a commercial centre of northern Malaya, while the port, besides the transshipment trade, deals with the imports and exports for the very extensive tin, rubber and copra industries on the mainland.

George Town claims to be one of the healthiest and cleanest towns in the tropics. The water supply is renowned for its purity, and water may be taken straight from the tap without boiling or filtration. The temperature is moderate, 80 to 90 degrees in the daytime, and 70 to 80 degrees at night, while a temperature of some 10 degrees less is to be found on the hills. The average rainfall is 106.44 inches, spread fairly evenly throughout the year. There are no marked seasons either with regard to temperature or rainfall.

Hope you are O.K.

I remain,
Yours very cordially,
Lee Soo.

[At the last moment the Editor was deluged with contributions good, bad and indifferent. Some had to be rejected because, obviously, they were not original. Others were written in haste and so were found wanting, but generally the response was promising. More efforts at verse would be acceptable.]

DROUGHT

The glowing sun sinks low towards the hill;
His parting gleams still shake the burning air
And touch with fire the earth, before so fair
Until his savage glance all growth did kill.
Beside the woolshed rusts the useless drill,
The sliprail's down where droops the prickly
pear;
Stillness, heat, black ruin are reigning there—
No creature stirs, no fluting song-birds trill.

God of the glassy skies! While Earth below
Like one bereft of hope breathes on in pain,
Thou smitest herds of thousands at a blow—
Tho' man may raise his piteous eyes for rain,
Thou ever mockest him. The West's aglow
With all thy splendour. Slow the colours wane.
D. L. A. (VIb).

THE CROWNING

Observe these thronging crowds,
These flag-decked streets,
This eager, restless air of expectation.
Why throbs the age-worn city's heart
With quickened beats?

These multitudes in motion,
These sounds which make the echoes ring,
The gay and festive decorations,
Denote that by this crowded way
Will pass a king.

Today he goes with splendid pageantry
To swear devotion to his people's rights,
And folk from many a land and nation
Wait eagerly to see the bright procession
Of Peers and Knights.

Thus they pass with vivid trappings,
And silver trumpets fill the air with sound,
And loudly swell the cries of admiration
As pass the handsome steeds and carriages
ornate
For Abbey bound.

What thinks this honoured king
To whom these many people tribute pay?
What feels he as he goes to coronation,
Midst plaudits of the restless multitude,
In proud array?

He surely feels some sense of awe,
And wonders what the coming years will
bring;
Mingled, perhaps, are fear and exaltation—
On him are stayed the nation's hopes; for him
they cry
God save the King!

B. G. C. (VIb).

THE SCHOOLBOY MARVEL

He decided to be a footballer,
But because of his hairy legs
They thought they'd make him a rower,
And his muscles developed like eggs.

But when he was thus made a rower,
Because of his glorious voice,
They thought they'd make him a crooner,
That all in the school might rejoice.

But again, by the Beard of the Prophet,
Because of his longing for sport,
They thought they'd try him at cricket,
But it didn't improve his report.

A. R. W. (VIa).

"BOLERO"

To the dull monotonous rhythm of the tom-
toms of Death
Sways the grinning imp, waiting for the souls
of men,
Writhing slowly like a cobra to the right and
to the left,
Laughing evilly all the while in his burning
den.

He hears the ghastly screaming of a tortured
soul
That intensifies the rhythm of his devil's
dance;
He gives the bells of destiny another ghastly
toll,
And he twirls in his mirth his fiery lance.

He's a cruel, malevolent Nero,
This devil dancing his Bolero.

"Varx," IVb.

THE PERTH-ADELAIDE AIR SERVICE

The first regular passenger flight from Adelaide to Perth was made in 1929. The aeroplane was a De Havilland Hercules, and the pilots were N. Bready and E. H. Chater. These old biplanes, flying at a speed of ninety-five miles per hour, used to carry fourteen passengers each, and were soon replaced by two Vickers' Viastra monoplanes, which were probably the first twin-engined British machines of all-metal construction. Five years later a De Havilland Dragon was imported, having a slightly higher speed but carrying less passengers. Soon after a De Havilland Rapide, which boasted a cruising speed of one hundred and thirty-five miles an hour, was acquired. In most of these planes the crew consisted of only one man, the pilot, and he, fully occupied with the actual flying, could give no thought to the comfort of his passengers.

The Douglas DC-2 airliner was then introduced by Australian National Airways, and

ground, and therefore passengers occupy their time in various ways. They can read, sleep, play cards, smoke or talk, and the obliging hostess supplies magazines, cigarettes, refreshments and answers questions. No annoyance is caused by engines, either by noise, vibration, or fumes. The cabin is sound-proof and supplied with air, which is kept at a suitable temperature; in fact, the whole machine is an example of the latest methods of aeroplane construction.

This plane has revolutionised all previous ideas of modern air travel, and the Company has been gratified in noting large increases in the number of passengers and in the amount of freight carried.

A. R. F. (Vic).

A HOLIDAY IN JAVA

When I left Adelaide for Batavia, the commercial capital of Java, I imagined to find a blazing tropical sun and typical tropical weather.

AUSTRALIAN NATIONAL AIRWAYS DOUGLAS AIR-LINER "BUNGANA"

almost immediately the popularity of this route was restored. The planes formerly used cannot compare with this modern luxury-plane. The Bungana, an American plane, is of all-metal construction with twin engines, giving a top speed of over two hundred miles per hour and a cruising speed in the region of one hundred and eighty-five miles per hour. Accommodation is supplied for fourteen passengers, two pilots, wireless operator, air hostess, and in addition there is ample space for mail and luggage.

The Bungana now leaves Adelaide on Sundays at half-past one, and arrives in Perth at eleven fifteen on Monday, after remaining at Forrest over Sunday night. It also leaves Adelaide at eight on Wednesday mornings, and after stopping at Forrest arrives at Perth at half-past five. The distance is one thousand four hundred and fifty-three miles, and actual flying time is just under eight hours.

As the usual flying altitude is about twelve thousand feet, clouds obscure the view of the

ground, and therefore passengers occupy their time in various ways. They can read, sleep, play cards, smoke or talk, and the obliging hostess supplies magazines, cigarettes, refreshments and answers questions. No annoyance is caused by engines, either by noise, vibration, or fumes. The cabin is sound-proof and supplied with air, which is kept at a suitable temperature; in fact, the whole machine is an example of the latest methods of aeroplane construction.

The population of Java is roughly forty millions, and of this the natives form a very large percentage. The Dutch have the biggest European population, with the Germans next, and then the British. There are also large numbers of Eurasians, but they call themselves Dutch. The Europeans' houses are very open, with wide verandahs and big gardens.

As in most tropical countries there are the clubs. In Batavia there are Dutch, German, British and French clubs. The British has the largest grounds, most of which are taken up by sports grounds. There are also two golf clubs, to which anyone may belong.

In the dry season it is extremely hot, and many Europeans go up to the hill stations, which are really towns full of hotels and "hotel

pensions" or boarding houses. The height above sea-level of most of these towns is about 4,000 feet. In Java nearly all the white people have large numbers of servants. We had seven, and needed them all.

The Dutch are a very loyal race, and when in early January their Crown Princess Juliana married Prince Bernard of Orange there were celebrations for three days. All the big stores were festooned with electric lights, while nearly every Dutchman's house was decorated. Everyone was expected to put a flag on his car. The Dutch are also very rigorous in their laws. No foreign person is allowed to come into the country to work unless he can prove that his job cannot be done by a Dutchman. If any foreigner wants to fly his country's flag he has to fly a Dutch one too. When, at the British club, we want to sing the National Anthem, we have to sing the Dutch National Anthem first. They are also an air-minded people, maintaining a very efficient service with Douglasses and Fokkers between the main cities.

Instead of the rickshaws there is a vehicle pulled by a horse and called a *sadeo*. The horses that pull these are very inferior animals, and are only as high as Shetland ponies. As a contrast, the horses the military use are good Australian horses, and seem to thrive in that climate.

The canals for which Holland is famed have their counterpart in the canals of Java, but there is a great difference, the Javanese canals being dirty and muddy and slimy.

Java may be summed up in a few words, "A pleasant place for a three months' holiday."

G. D. M. (IVa).

LOCHIEL

One of the first questions I was asked when I entered the boarding-house at P.A.C. was, "Where do you live?" The same question has been asked again and again during this term, and my reply has always been, "At Lochiel." Not one boy, however, has ever known where Lochiel is situated, and so I usually explain that it is near Snowtown, which perhaps satisfies the enquirer.

The township of Lochiel is right at the foot of the Hummocks Range, and faces the salt lake, Lake Bumbunga; it consists of about sixteen houses, one school, one church, one hall, one hotel, one general store, one gaol, one blacksmith's, one railway platform and, lastly, one big salt refinery.

The rainfall average is 17 inches per annum, and the farmers around the township usually keep big flocks of sheep besides growing wheat and other grain. Salt is the main reason for Lochiel being "on the map," for the salt scraping and refining industry employs most of the people living in the town. In winter the 10 square miles of lake is covered to a depth of about three feet with water, and when this evaporates it leaves a thick layer of fresh, clean salt over the whole surface. Working day and night, without ceasing, men scrape the lake

with a special machine, which automatically feeds salt in ton loads on to the carriers of lorries. The lorries take the salt over the hard and perfectly smooth lake to the shore, where it is piled in huge heaps by an elevator. From these heaps men feed the salt into the hopper of another elevator which tips the salt into a huge funnel-shaped bin. The bin feeds salt into rotary washing drums which cleans dirt and impurities from the salt, and then the partly dried salt passes through graders and crushers till it reaches a centrifugal dryer, where it is finally dried, re-crushed and packed in sacks ready to be taken away by the train. The only real reason for having a train is the salt factory, and a branch line was built for that purpose, so that only goods trains visit Lochiel. Unlike some unfortunate country towns Lochiel receives the mail and newspapers daily, except, of course, on Sundays.

Perhaps the mention of a gaol at Lochiel surprises you, but the gaol is only a little white-washed room exactly nine feet square. Nowadays it is never used, but in the days when Grandpa was a boy the men who had had "just one or more glasses too many" were put in the "cooler" for the night, so I have been told.

Half-a-mile from the town is the recreation ground, where there are four good hard courts, one cricket pitch, and a fenced football oval. The tennis players of Lochiel are many, and they manage to win their share of matches against the neighbouring towns, but the cricket and football teams are not so successful and are usually beaten by their opponents.

The best time of the year to see Lochiel is on a winter morning at sunrise. No one can deny the beauty of the scene, as the reflections of the trees and houses shimmer on the shallow lake and the mists begin to recede up the hill-sides, leaving behind a patchwork of green and yellow made by the varieties of growing wheat. But why not come up and see it all some time?

W. J. N.

FATHER'S ABILITY (AND MINE)

My homework is an awful drag:
From seven o'clock till nine
I learn of Cæsar (drat the stuff),
Worse still, of cos and sine.

Of many other things I read,
But not to learn, I fear;
For if I did, the things I'd know
Would endless be—or near!

But now the term is ending,
And masters casual get:
"Full homework, or contribution
For the Chronicle," is set.

But boys cannot do either,
Their papas just the same;
So now, dear mamas, understand
Why Tommy gets the cane.

D. M. M., Vb.

THE BLUE GUM FAMILY OF AUSTRALIA

Less than two centuries ago, in the thickly-timbered hills surrounding the new metropolis of Sydney, a quaint creature called the Koala found its habitat. Gradually these areas became populated, and there began an invasion of men with guns who shot these beautiful animals for the paltry sixpence their furs returned.

In these same hills near Sydney is situated Koala Park, in which reside 50 healthy Koala bears of all ages and sizes. There are only two species of Koala bears: the silver-grey bear from higher Queensland and the larger and less handsome brown bear from New South Wales and Southern Queensland. This natural sanctuary in West Pennant Hills consists of 50 acres in all and was established by Mr. Noel Burnet, whose ambition it was to keep these poor creatures from extinction.

First, the bears' habits and diseases had to be studied carefully, and now Mr. Burnet is fully informed of all their habits, after many arduous years of research, and he is also capable of checking most of their diseases.

This colony near Sydney was selected as an ideal place for a Bear Colony, and, so far, only five bears have died and 23 have been successfully reared.

The park has already been planted with 4,000 eucalyptus trees of a certain species on which the Koalas thrive best, and another 20,000 trees are being reared in a nursery, ready to be planted out. The object is to re-afforest the areas with a maximum number of food trees instead of relying upon ordinary forest conditions, which might provide even less than one food tree per acre.

Generally, the Koala is a non-drinking marsupial, because the eucalyptus leaves contain considerable moisture. He is so unfamiliar with the nature of water that when it is put into his mouth he insists upon chewing it up and, in this

process, it falls out. Difficulty is experienced in inducing sick bears to take liquid medicines.

The future of the remnant of the Koalas is not very hopeful. Distressing it is to realize that never again will the Koalas adorn the bush-land of Eastern Australia.

D. G., Vlb.

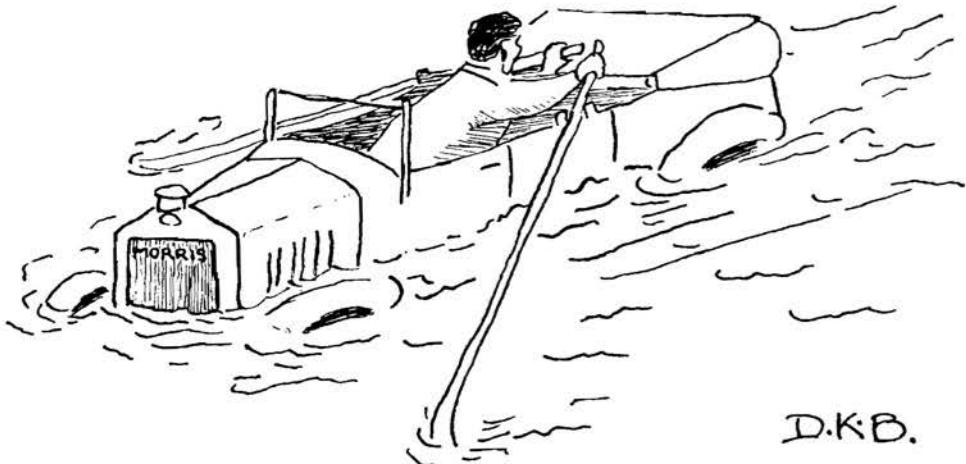

WOODSIDE

Woodside is a small town situated in the Mount Lofty Ranges about 25 miles from Adelaide. The town is in what is called the Onkaparinga Valley. This river, although not very large at this stage of its course, runs through the town.

The Scotch were among the first to settle in this district, and they settled in a valley about two miles from where Woodside stands today. They called their settlement Inverbrackie. The old church, which is now in ruins and covered with ivy, can still be seen here. Since then, however, settlers have moved closer to the River Onkaparinga, probably because water was more plentiful.

Perhaps the most notable industry of this district is dairying, for most of the farmers keep cows. Many show champions have been reared in this district. To cope with the farmer's milk and cream two factories have been built, one by the Farmers' Union and the other by Amscol. It is to these that the farmer takes his milk, which is then turned into cheese. Potato-growing is also carried out by a number of farmers here.

Last year a good deal of interest was aroused at Woodside as the Bird-in-Hand Gold Mine, which is near the town, was re-opened. About 50 years ago it was a thriving mine, but the inflow of water prevented its working. After £50,000 was spent on it last year, it was decided to close it again. The water which was pumped out of

"HEAD OF THE RIVER"

the mine was used by the military camps, which are frequently held at Woodside.

Woodside boasts its own power-house, which not only supplies this town but the surrounding towns also.

R. D. P., Vlb.

THE LIFE-SAVER

His sun-tanned body, lean and strong,
Ploughs through the foaming seas;
While on the shore an anxious throng
Stands gazing, ill at ease;
At length, nigh spent, with toil and stress,
He clasps the sinking child,
Makes fast the line, asks God to bless,
Swims back, 'midst plaudits wild.

W. D. G., Vd.

THE PRINTING OF A NEWSPAPER

During last year I was fortunate enough to visit the "Advertiser" office when one of the papers was being printed on the new machine. The cylindrical rollers containing the type were clamped to the machine. The paper was threaded through the machine and, to avoid the risk of tearing the paper, the machine took about half-an-hour to reach full speed. The machine was in two sections, and each section was driven by a 250 h.p. motor.

It was impossible to follow the course of the paper right through the machine, but the printed papers were seen leaving the machine at the rate of several hundred a minute.

Next we went to the bottom of the machine and saw the huge reels of paper passing into the machine.

The rolls of paper were automatically joined together as each reel came to an end.

D. E. H., VIa.

A SIXTH-FORMER'S NIGHTMARE

I went with a couple of MATES to hunt WHITE SWANNS in HOLLAND. The heat was like a FURNESS, and soon we were all REDDIN the face. We went inland and came to a village of BATTYE natives in a PARK. The chief was CRAVEN for a smoke, so I gave him some tobacco. Laden with a heavy BURDEN we set out to hunt BOERS. The natives in the forest were DOWNING trees because of the BLIGHT on them. One tree fell in our path and I exclaimed, "There's a TREGONIN' our path!"

We met a band of natives who attacked us. Each bore a REED in his left HAND, and thus they strove to PEARCE our IDE. It was a KLOSE shave.

On our return the chief's wife ANDERSON gave us a dinner of juicy MUTTON chops and BARTLETT pears. We ate them with STEELE forks. Then we went to see some

STAINED GRAY PQTTS which had been captured in the WAUGH. I got so dirty that I had to wash in some LUKE-warm water to make McLEAN. The chief's dog licked us after that, so the chief said, "TURNER up and HOLDER while I TANNER hide." She let out a HOWLAND a yelp and fled.

The chief asked us to STACEome more. We protested ANDREW the line at sleeping in their BARNS, so we left. We made friends with the dog, and we left it WEGENER tail to say good-bye.

D. C. R., Vlb.

A WRECK AT SEA

The good ship "Wendy-Loo" was bowling along at a good twelve knots, cutting her way through the calm, blue waters of the Pacific like a dolphin in hot pursuit of a shoal of baby eels.

The "Wendy-Loo" was an oil-tanker which plied between America and Australia, and at the time when we were introduced to her she was about two-thirds of the way to Australia, well laden with crude-oil. As a rule she did not carry passengers, but as it was in the school holidays, Dick Travers, the captain's son, and his friend, Jim Dix, were going home from the American school where they were being educated. They were thoroughly enjoying the trip, and so far the weather had been perfect. "But," Dick remarked, "it would be too good to be true if we reached Adelaide without hitting some sort of storm." Unfortunately, he did not know how near he was to the truth, nor how near the truth was to him!

That night Dick noticed a worried frown on his father's face, and there was a strained note in his laughter. He mentioned it to Jim while they were going to bed, but Jim, always an optimist, poch-pooed the idea that there was anything wrong, saying, "Good heavens, man! We're not babies! Your father would have told us hours ago if we were likely to be in any danger!"

But Dick found the idea that something WAS wrong growing in his mind and refusing to be dislodged, until at last he gave it up and dropped into a troubled sleep.

Some time later—it seemed years—he subconsciously realised that something was hammering at his brain, and he awoke with a start, to find himself midway between the bunk and the floor, which was rolling from side to side, and as he hit it with a hearty bump he realized that the hammering was not at his brain but at the door, and, now fully awake, he rose painfully and opened it, to admit a sailor, wet and bedraggled, who told him that a terrific storm was raging and the ship was likely to founder at any minute! By this time Jim was awake also, and both boys hurriedly donned oilskins and rushed on deck, Jim hugging a curious wooden box. As they sprang up the companion-way there was a frightful tearing sound from the bows, accompanied by the screams of

frightened men. The boys were flung from the steps as the ship stopped with a frightful jar, and then slowly, steadily began to sink. The captain, realising that nothing could save the ship, gave orders that the boats be lowered, but was amazed and stricken when it was found that most of them had been dashed to pieces on the side of the ship. Suddenly, Dick had an idea. Calling to Jim, he ran to the great hose, by which the oil-tanks were emptied and filled. They lifted it from its hook, and while Jim turned the stopcocks, Dick sprayed the water for yards round with a thick stream of oil, accompanied by a cheer from the men, as they realised what was being done. The captain hurriedly lowered the remaining broken boats on the now smooth sea. "Where's Sparks?" he yelled, as he counted the men. "Dead, Sir," came the reply. "He bashed hisself on the side of the wireless room." The captain made a gesture of hopelessness, and then ushered them all to the boats, and gave a dry laugh as he saw Jim's box. When they were all clear of the ship the captain spoke in a quiet voice, "Well, men," he said, "I hope you realise the position; here we are, in the middle of the ocean, without any means of getting any——"

"You're wrong, Sir!" shouted Jim, and uncovered his box, showing a wireless set!

"If you hadn't been so keen on wireless," said Dick, as they stood on the deck of the Sydney-bound ship, "we might be at the bottom of the sea."

B. T., IVa.

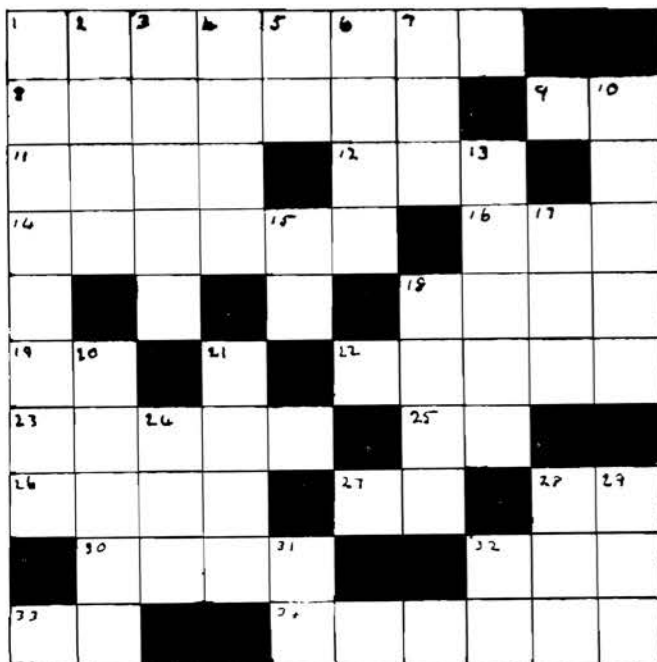

A wireless expert from Bristol
In error swallowed a crystal;
This caused oscillation,
So, in desperation,
He "earthed" himself with a pistol.
"Anon," VIa.

A lad by the name of Tregon,
At putting the shot is a don,
When he pulls at the "Trigger,"
The shot seems no bigger
Than a pill to the chaps who look on.
R. B., VIa.

G. M. M. (Va).

The Preparatory School Section

FIRST TERM, 1937

We have had an eventful term, and now everyone is feeling quite at home in the new building. Work has progressed steadily despite the building operations. Next term we hope to see our grounds looking attractive again.

Soon after school commenced we said good-bye to Miss Birt, who left us to be married. Our best wishes went with her for her future happiness. We welcome to the staff Mr. M. D. Close, who is well known in the big School, and is now taking charge of Form IIIa; Mr. A. Yule, who comes to us from Ormond College, Melbourne; Miss L. Dunn, who has taken Miss Birt's place; and Miss Ryland, who helps to look after the boarders. We hope that they will be happy with us.

We congratulate J. P. Keeves on his appointment as captain of the Preparatory School, and P. G. B. Claridge, G. W. Hassell and D. G. Meller as leaders.

Midway through the term, through the generosity of Mrs. R. McEwin, the boys had an eventful day, when they did their best to conquer fifty water-melons. The water-melons won by three.

We wish to thank Mr. W. K. Dimond for the fine picture which is now hanging in the boarders' common room.

HOUSE NOTES

This year we have re-organised our House system. We have retained Robertson and Chapple Houses, but have carried the competition into the form rooms, where each form is now divided into the houses. Each day points are given for the routine work, and points given for work balance those given for games. We are greatly indebted to Dr. A. W. Welch for his kindness in donating a very beautiful cup, which has greatly stimulated the boys' interest in the competition. It will be a great honour each year to have the name of the successful House inscribed on the cup. We offer our very sincere thanks to Dr. Welch for his generous gift.

THE NEW PREPARATORY SCHOOL

The new Preparatory School has now been finished, except for the wall and some minor details, and all have settled down to a year's good work. The school consists of seven classrooms—the third form of the big School having been added to the Prep. classes. Two of these rooms are divided by a folding wooden partition.

The building is finished off with a pleasing off-white plaster and designed in the Southern Italian style. The roof is of red tiles, and the smaller windows are covered by beautiful iron grills.

The classrooms are equipped with electric light and lockers, and two battens run around the walls for the purpose of exhibiting pictures and the best work done by the boys. The walls are also adorned with posters and maps, thus making the rooms very pleasant.

The dressing-room is very fine indeed. There are showers and a wash-basin with hot and cold water. This room is also equipped with lockers.

The boarders' quarters are very comfortable. Dormitories are upstairs, and there is a lovely bathroom finished in white tiles, with a narrow band of red running around the walls. The boarders' common-room has a table and chairs, forms around the side of the walls, and book-shelves. The boarders have added to their comfort by putting several small wireless sets in their room.

The masters have their own separate bedrooms, and a bathroom finished similarly to that of the boarders'. Their common-room, too, is very nicely furnished. The matron has her bedroom, kitchenette and sewing-room, in which are the boarders' lockers. There is a sick-room and a bathroom. All of these rooms are upstairs. The headmaster has his own private quarters downstairs, together with his office and book-room.

Brush fences and a bicycle shed have been erected at the back of the building. Soon the grounds will be covered with

grass. Lately a new boundary wall to Pirie Street has been the centre of attraction, for men have been working on it right up to the time of writing. It is 2 ft. 6 in. high, and is going to be finished off similarly to the main building. A tiled path has been laid from the entrance to the classrooms, and the flagpole has been erected in the centre of the quadrangle.

Next term we hope to be called to school by our new ship's bell, so kindly presented to the School by Mrs. K. Fitzgerald Moore.

B. C. (Prep.)

OUR MUSIC LESSONS

Music in the Preparatory School has made good progress. As in other schools, singing should be the basis of all musical training, and all boys should be expected to learn to sing at sight. There have been two singing lessons per week, at which the boys are being taught how to use the voice confidently and properly. Folk songs, sea shanties and hymns have been studied, and the rudiments of music explained.

The full appreciation and enjoyment of the best music involves concentrated attention on the part of the listener. It is, therefore, important that the art of intelligent listening should be cultivated at an early age so that it may become natural and habitual. With this view in mind we have arranged one period per week with the object of listening to a selected programme of good music played on the gramophone.

A new departure from the ordinary routine, and one which has proved very popular, was the visit by two professional soloists, Mr. Clarence Black (piano) and Mr. Clifford Lathlean (baritone). Each artist gave explanations of the works presented. Such recitals should be of great value to the boys' musical education. Each term similar recitals will be given.

THE PREP. LIBRARY

The lending library has been completely reclassified and recatalogued this year. Our thanks are due to those who took part in this great work, and especially to Keeves and Potts, who have with great efficiency acted as librarians.

The library has been freely patronised by almost everyone in the School. The heartfelt thanks of the School are, therefore, due to Mr. Max Brinsley, who generously presented a number of volumes, and to C. Cooper, J. Keeves, Mann, Jessup, Ward and C. Welch, who also made a number of very welcome additions to the shelves.

It is hoped to start early next term a reference library. The only thing at all likely to stop us is our lack of books. Accordingly, we issue an appeal to all friends of the School who appreciate the need for such a library in a modern school, and who are able to present suitable tomes, be they weighty or light, to do so, and do so now. "Bis dat qui cito dat." Our need is great.

PREPARATORY SCHOOL CRICKET

This year, as quite a large number of the boys under thirteen remained in the Preparatory School, it was decided to restrict the membership of the Under 13 "B" to them. The team contained boys whose ages ranged from nine to twelve years, and although it was successful in winning only one of its three matches, it showed such enthusiasm that it should do well in the third term.

In the first match against Adelaide High School, on the South Park Lands, all of our team seemed uncertain on the matting wicket, and were dismissed for 49. Adelaide High replied with 98. Ferguson was the outstanding bowler, taking five wickets.

The second match against Unley High School on the back oval proved disastrous for us. Against the excellent bowling of Cawdle, 3 for 15, and Bruhn, 6 for 8, the whole side was ignominiously bundled out for 24. Unley High batted soundly, losing 7 wickets for 110.

We were drawn to play C.B.C., Rostrevor, on March 13, but the match was cancelled, as on that Saturday St. Patrick's Day was celebrated.

On the last Saturday before Easter we defeated Queen's College, 108 to 36. Our batsmen were in form, and Gray, 28 retired, Davies, 17, and Gurner, 17, deserve special mention. Ferguson, 4 wickets,

Gurner, 3, and Jessup, 2, were responsible for Queen's collapse.

The Under 12 Team proved more successful than the senior team. It played three matches and won two. In its first match it defeated King's College, 113 for 5 wickets, to 110 for 9. Davies, 46 retired, Dolling, 16, and Dunn, 15 not out, were, in the main, responsible for our total.

In the return match, played at King's College, Davies, with 6 wickets for 5 runs, was largely instrumental in dismissing King's for 34 runs. Our team replied with 52 for 6 wickets, of which Barraclough collected 19.

Against Queen's College our batsmen were too unenterprising. Despite the fact that each side had only an hour in which to bat, our batsmen squandered opportunities and finished with 53 for 6 wickets. Queen's scored 62 for the loss of 9 wickets.

We have to thank Mrs. Barraclough and Mr. Cooper for the interest they have shown in the Under 12 matches, and the readiness with which they have placed their cars at our disposal for transporting players.

Three House matches have been played this term. In the first encounter, Robertson defeated Chapple with the loss of only one wicket. Gray, 45, and Barraclough, 20, both not out, added over 60 of the 72 runs. Chapple lost 8 wickets for 68, Davies, 38, and Dunn, 16 not out, being the best batsmen.

In the second match Chapple turned the tables, and with three wickets down passed Robertson's total of 53 for 8 wickets. Barraclough, Meller and Cooper were impressive.

The second elevens met late in the season, when Robertson, 50 for 8 wickets, narrowly defeated Chapple, 49. Manuel, 18, and Mann, 14 retired, were the best batsmen, while Johns and Thomas, five wickets each, were the best bowlers.

The pleasing feature of our cricket is the enthusiasm shown by all players. Practices have been well attended, and boys not included have been clamouring for further practices. In the third term, with extra practice wickets, we hope to accommodate all boys who wish to play.

PARENTS' MATCH

For the week preceding the Parents' Match excitement ran high. Machiavelian plots were hatched in dark corners, and new and unplayable breaks were demonstrated in secret to those favoured few who were to play for the Prep.

The afternoon of April 24 was beautifully fine, and by two o'clock most of the parents and boys were having their preliminary practice. The boys batted first, and despite early disasters amassed the useful total of 116. Reid was the most prominent batsman, whose score of 23 was compiled in splendid style. Dolling, the imperturbable, offered a bold front and a straight bat to all bowlers until he mishit the only bowl from Dr. Welch he could reach. Howard Welch wagged the tail of the Prep. team so well that when the last wicket fell his score stood at 10 not out.

The Parents started badly, but after the dismissal of Dr. Welch and Mr. Barraclough they settled down to sparkling cricket. Mr. Jones smote with vigour, and after a short stay at the wicket retired with a score of 37. Mr. Cooper and Mr. Gray carried the score to 115, when the latter gave way to the last man, Dr. Gurner. The boys fielded excellently, till at last Dr. Gurner, despairing of finding an opening in the solid wall of fifteen fielders, lifted three successive balls from Davies over the leg boundary.

Our thanks are due to the Headmaster and Matron for making it possible to hold this delightful fixture.

ORIGINAL CONTRIBUTIONS SCENES

[With apologies to Furnley Maurice.]

I have seen the roadway,
The white, dusty roadway,
Leading from the city where the tall spires
stand,
Leading to the country
And on again forever
Until it melts away in the desert's sand.
G. H.

I have seen the sun-rays
Creeping through the tree-tops,
Bright, golden sunrays, with gladness in their
path;
Seen the leaves on bright days
Quiver in the breezes,
And the pansy faces as they seem to laugh.
S. D.

I have seen the sunlight
 Sinking o'er the wheatfields,
 Wide, golden wheatfields where the little winds
 blow;
 Seen the silver birches,
 In the shaded valleys,
 Glist'ning on the banks where the little creeks
 flow.

R. W. P.

I have seen the harbour
 When the storm-clouds gather,
 When the crested waves crash loud upon the
 rocks;
 Seen so many vessels
 Come limping into rest,
 To be patched by shipwrights as they lie in
 the docks.

I have seen the liners
 Tossing on the ocean,
 Big, black liners with their funnels black and
 red;
 Seen the tiny harbours
 Where the vessels anchor
 Right within the harbour just below the head.

P. M.

I have seen the river
 Rippling in the breezes,
 Reflecting the golden light of the bright sun;
 I have heard a bird's call
 Clearly through the branches,
 "Awake, the sun is up and the day has come!"

K. B.

THE WHEATFIELDS

I have seen the wheatfields
 Swaying in the breezes,
 Large, swaying wheatfields where little field-
 mice play;
 Seen the furry rabbits
 Scamp'ring round the stubble
 By the long wire fences that skirt the winding
 way.

R. R. M.

The river winds across the plain,
 The day is nearly done;
 The meadows freshened by the rain
 Shine in the westering sun.
 The little birds sink to their nest,
 The shadows fall—and earth's at rest.

W. D.

I have seen the butterflies
 Gliding in the breeze,
 Flitting by the golden shafts,
 Floating through the trees.

I have seen the scented flowers
 Nodding in the breeze,
 With pollen for the butterflies
 And honey for the bees.

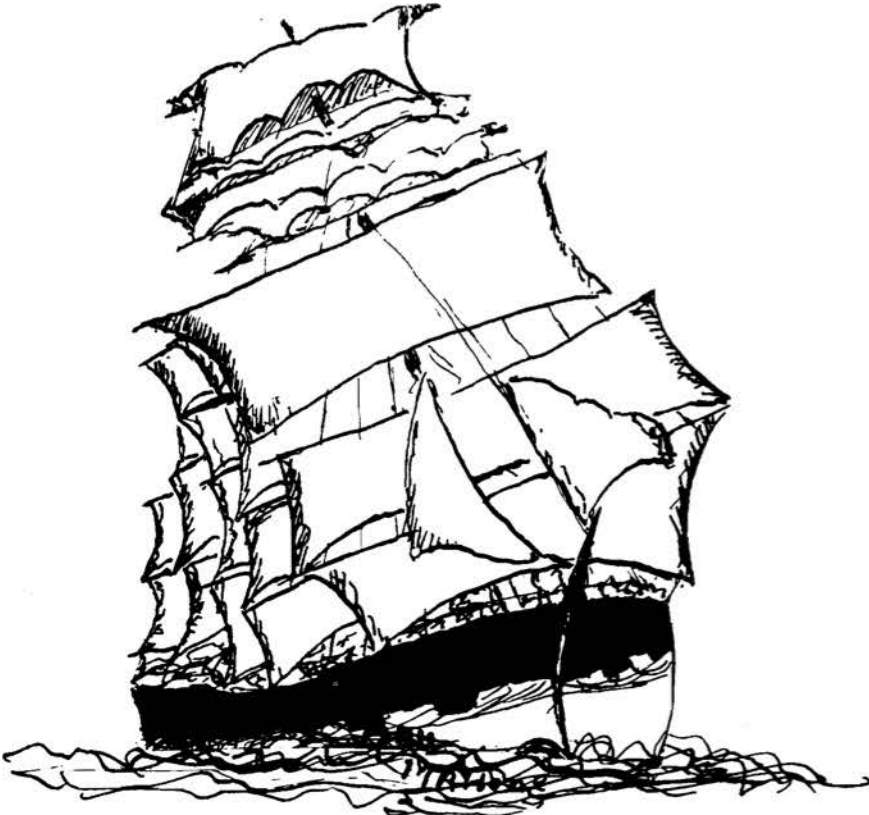

T. O.

THE NEW SCHOOL

I saw it in the morning,
 So high above my head,
 Like some imperial palace
 All gleaming white and red.

It rose above the tree-tops,
 Beneath the rising sun—
 A symbol of our School's fame,
 Which welds us all in one.

J. B., B. M., and F. Z.

OLD BOYS'

SECTION

Edited and controlled by the Committee of Prince Alfred Old Collegians' Association, Incorp.

The co-operation of Old Boys is earnestly invited to make this part of the Magazine of real interest to all P.A. Collegians. Letters, reminiscences, or paragraphs containing news of interest about Old Boys, their whereabouts, and their doings, will be welcomed. All communications should be addressed to the Secretary.

From down the far years comes the clarion call:
"Your school and my school, the Best School of All."

Prince Alfred Old Collegians' Association, Incorporated

Founded 1878.

Patron—The Head Master.

President—Mr. F. L. Collison.

Vice-Presidents—Dr. A. G. Trott; Messrs J. Crompton and L. S. Clarkson.

Hon. Treasurer—Mr. A. G. Collison.

Hon. Auditors—Messrs. J. H. Burgess and C. W. L. Muecke.

Honorary Secretaries—Messrs. L. B. Shuttleworth and L. P. A. Lawrence.

Committee—Messrs. G. T. Clarke, P. R. Claridge, H. N. Shepley, F. T. Cooper, H. H. Cowell, R. P. Goode, T. C. Craven, M. W. Evans, C. J. Glover, W. J. Hiatt, M. S. Joyner, S. G. Lawrence, F. E. Piper, L. S. Walsh.

Messrs. Craven, Clarkson, Claridge, F. L. Collison, Cowell, Crompton and Piper are also Members of the School Council.

PAST PRESIDENTS—

Year.	President	Year.	President	Year.	President
1878-1891	J. A. Hartley	1904	P. E. Johnstone	1924	M. Erichsen
1892-3	E. B. Colton	1905-09	W. R. Bayly	1925	L. D. Waterhouse
1894	G. M. Evan	1910-11	A. C. Catt	1926	T. C. Craven
1895	G. S. Cotton	1912	J. R. Robertson	1927	H. B. Piper
1896	A. W. Piper	1913-14	N. A. Webb	1928	J. M. Bath

1903	G. W. R. Lee			1935	L. S. Clarkson

The Objects of the Association are: To keep Old Boys, wherever they may be, in touch with one another and with the boys at the School; also to foster and maintain their interest in the School.

"Old Boys' Week" is observed annually towards the end of July, during which a dinner and other social functions as well as sports contests are held. Also social gatherings are held whenever any occasion arises that makes them desirable.

The Association has donated the following Scholarships to the School:

- Old Collegians' Scholarship.
- J. A. Hartley Scholarship.
- Fredk. Chapple Scholarship.
- W. R. Bayly Scholarship.
- A. G. Collison Scholarship.

"The P.A.C. Chronicle," of which a large part is devoted to matters of special interest to Old Boys, is forwarded to each member of the Association.

The subscription is six shillings per annum. It is suggested that Country Members should remit sufficient to cover four years' subscription or become Life Members by payment of £5 5s. Any Old Boy wishing to become a member can do so by forwarding his name and address to the Head Master, or to any member of the Staff, or to one of the Secretaries.

Editorial

Beware of the man who asks you whether something or other is waning—unless, of course, he is asking about the moon, which is commendably regular in its habits. But he seldom is asking about the moon. It is usually religion, or morality, or literature, or art, or patriotism that he is worried about. Whatever it is, flee from him because he is either dishonest or muddle-headed.

If he is dishonest, he has asked his question in the hope of catching you off guard so that you will answer "No!" loudly and emphatically without having given the matter due thought.

If he is muddle-headed, he has asked the question because he believes that ten or twenty or fifty years ago there was a magnificent and wholly admirable outburst, now waning to our great loss, of his pet preoccupation. If he has asked you to weep for the passing of the stage coach, you would have thought him mad. Think no better of him if he asks you to weep for the spirit of other years.

If, therefore, an old Collegian asks you whether you think the School spirit is waning, the best thing to say is "spinach," which, if given the right intonation, has a mystic power of quelling further discussion.

* * *

The only question worth asking in this connection is: "What sort of men is the School turning out?"—and that without any comparisons with the "giants of the past." Is the School turning out men who can lead, men who, because they were at School, can make a distinctive contribution to the life of the community? Only by answering this question can we catch any glimpse of that mysterious abstraction, "the School spirit."

But in this survey we must be careful not to include the dead and the half-dead who still walk the pavements and occupy prominent positions in society, nor must we draw false estimates from athletic successes. The fact that A is head of a huge business, and that his son has won an Intercollegiate event tells us just nothing about the School spirit, either in the father's time or the boy's.

After all, it does not require a College education to make a successful business man or a successful athlete. Presumably the State Schools can produce both. The college, with its privileged position, must do something more to justify itself. Otherwise why should it not be absorbed in some general scheme of education?

One expects the college man to be well-mannered, self-controlled, familiar with the complexities of our cultural and political inheritance, equipped to understand his own times, in which he is to play a leading part, and capable of reading, writing and speaking the English language. That is the type of man the School would be producing if the School spirit were at its best.

But the School, which cannot claim all the credit for its successes, must not be asked to bear all the blame for its failures. Behind the boy is his home, and parents who may or may not value that finer flower of education which the college can produce. If they do not, the college is limited in its scope, forced to devote its energies to purely vocational training, and the crush for examination successes goes on, pressing out everything that might be distinctive in the boy's education.

Against such a home influence, the School is almost helpless, being forced to perpetuate the educational pattern on which the parents were shaped. Thus parents themselves must be largely responsible for any shortcomings in the men by whom we judge the quality of the mystic "School spirit."

School and parents co-operating harmoniously on agreed principles of what education should develop in their sons! A good many headmasters have sighed for that before today, but it probably represents the unattainable ideal. Meanwhile the School goes on, and the quality of her products varies from year to year with the quality of the material entrusted to her and the care and enlightenment of her own stewardship. Like freedom, the School spirit exists at the cost of eternal vigilance.

Successes of Old Boys

R. C. Yates last year completed a very successful B.E. course at the Adelaide University.

Hayley Lever, who has lived in America for many years, has gained another success—the Edwin Palmer Memorial Prize, an important American art award.

Mr. Lever, whose painting, "Nantucket," a colourful study of a New England sea coast town, was judged the best marine subject submitted for the 111th annual exhibition of the National Academy in New York, makes the painting of boats, still life, and old churches his specialty. Recently he has been finding them in Newark, New Jersey.

For his "Nantucket" he spent several months on Rhode Island making preliminary drawings and sketches.

It will be remembered that several months ago prominence was given to a valuable painting of Hayley Lever that had lain neglected and practically forgotten in a little used North Terrace basement for 20 years.

The painting was exhibited at the Royal Academy, London, in 1914, by Mr. Lever, who afterwards sent it to Adelaide for inclusion in an exhibition. But it arrived too late, and was left unopened in the basement of the Society of Arts Gallery, North Terrace.

Representation on School Council

At a meeting of the General Committee of the School held last March the following members of the Association Committee were elected to the School Council: Messrs. P. R. Claridge, L. S. Clarkson, F. L. Collison, H. H. Cowell, T. C.

Craven, Joseph Crompton and F. E. Piper.

This is the largest representation the Association has ever had on the School Council, and we feel sure that the School will benefit.

College Endowment Fund

Contributions to this Fund are coming in steadily. The committee would remind members that its intention is to preserve the capital of this Fund so that it will be a permanent Endowment Fund.

Amount previously acknowledged	£2,283	7	8
McGregor, J. W.	-	20	0 0
Jeffries, Hon. S. W.	-	10	10 0
Gurner, Dr. Colin	-	5	5 0
Fisher, C. H.	-	5	0 0
Cowan, G. D. (4th instalment)	-	1	0 0
	£2,325	2	8
Less adjusted amount, duplications		6	0 8
Total to date	£2,319	2	0

While the committee is anxious to build the fund up as quickly as possible, it would welcome payments of even small instalments from those who are unable to make a payment of a large amount.

We take this opportunity of expressing our appreciation to Messrs. F. M. Buring and H. Chapman for their valuable donation of two cast grilles for the new Preparatory School, and although the monetary value is not included in the above subscription list, the gift is, nevertheless, greatly appreciated.

Purely Personal

It is pleasing to see the name of Lionel Logue, M.V.O., in the list of British Honours, and to note that he and his wife were occupants of the Royal box on Coronation Day. We are proud of the fact that Mr. Logue has the honour of being the King's voice specialist, and his old School fellows will join in wishing him heartfelt congratulations. Lionel Logue attended School 1889 to 1896 (School Reg. No. 2,035).

E. Bendall will seek election as Lord Mayor of Adelaide at the forthcoming elections.

John Howard Burgess, F.C.A. (Aust.) has been appointed a member of the Forestry Board.

Dr. Carl E. Dorsch, of Berri, has been appointed Hon. Medical Officer at the Barmera Hospital.

David Waterhouse (School treasurer) has been ill in hospital, but we are pleased to learn of his recovery.

Cyril Thomas Piper, M.B., B.S., M.R.C.P., has been appointed Medical Officer at the Port Lincoln Hospital.

More than 40 Old Reds were recipients of the Coronation Medal, and we offer them all our heartiest congratulations.

Donald A. J. Hunwick, M.R.C.S., L.R.C.P., has been appointed Hon. Medical Officer at the Port Lincoln Hospital.

Messrs. H. H. Cowell and Ron Chapman won first and second prizes for designs of homes offered by the Housing Trust.

Darcy R. W. Cowan, M.B., B.S., has been appointed an Hon. Physician at the Morris Hospital and Bedford Park Sanatorium.

Harold Richard Hugh Noel Oaten, M.B., B.S., of Penola, has been appointed Honorary Anæsthetist to the Mount Gambier Hospital.

Albert Edwin Hamilton and the Honourable Hermann Homburg, M.L.C., have been re-appointed to be members of the Board of Governors of the Botanic Garden.

A social evening, arranged by the Prospect school committee, was held at the school to bid farewell to the headmaster, Mr. A. P. C. Hart, who has been transferred to Port Pirie.

A. E. Hunter, who has been in Hobart, Tasmania, for many years, was made a Member of the British Empire, M.B.E., at the last distribution of Honours. We offer him our congratulations.

Charles T. Craven, who has been absent from the Association Committee meetings for some considerable time, has now, we are pleased to report, been able to again attend the meetings. We trust his health will continue to improve.

Noel F. Goss has been appointed tutor and organiser for the country and suburban classes of the Workers' Educational Association. Mr. Goss gained his B.A. degree at the University of Adelaide in 1934. During 1933 he won the League of Nations Prize, and in the following year the Tinline Scholarship for history.

Intimation has been received from the Grand Priory in the British Realm of the Venerable Order of the Hospital of St. John of Jerusalem that the following have been promoted in or admitted to the Venerable Order of the Hospital of St. John of Jerusalem:—

Knight of Grace—Dr. S. L. Dawkins.
Officer—Dr. H. H. E. Russell, Sir Angas Parsons.

Serving Brother—Dr. E. A. H. Russell.

Allan Leslie Humphries, of Western Australia, has been appointed farm superintendent at Roseworthy College. He was educated at Prince Alfred College and Roseworthy, and after leaving Rose-

worthy, spent two years farming in this State. He then went to Western Australia, where he farmed at Kulin until 1936, when he joined the Western Australian Department of Agriculture as an orchard inspector.

Sir Herbert Gepp left Richmond in an Air Force plane to fly 11,000 miles on a "survey of surveys" trip that will take six weeks. He will fly right round Australia.

Sir Herbert is director of the North Australian Aerial, Geological, and Geophysical Survey.

The idea is to pick out areas from the air, photograph them, and send in land geological parties to examine them. The material collected is then published for guidance of mining and other enterprises.

At the Annual Communication of the S.A. Grand Lodge of Freemasons the Deputy Grand Master (Mr. W. R. Bayly) was in the chair. Mr. Bayly announced

that Mr. R. Owen Fox had been appointed grand secretary in succession to Mr. C. R. J. Glover, who died six months ago. The rank of past grand warden was also conferred on Mr. Fox, who has had a long and successful career in the various degrees of Freemasonry. For many years he was the assistant grand secretary.

Russell B. Ward has joined the teaching staff of the Geelong Grammar School. Mr. Ward, who entered the University of Adelaide in 1933, completed his final year in arts last year. During his four years at the University he was prominent in debating, and he represented Adelaide in the inter-Varsity debates in Sydney last year. He was secretary of the Adelaide University Men's Union, and secretary of the Adelaide University Arts Association. He was outstanding as an oarsman, and represented this University in inter-Varsity boat races. He played rugby for the University "A" team.

Monthly Luncheons

Monthly luncheons are now held regularly on the last Thursday in each month at the Piccadilly Restaurant, Rundle St., at one o'clock, and the address is finished by 1.50 p.m., so as to allow members to punctually resume their duties. The attendances still continue to be satisfactory.

At the January luncheon Mr. Clem Hill gave a very interesting address on "Cricket Reminiscences" to a very good attendance. On this occasion we had the pleasure of the presence of Mr. W. M. Woodfull, the well-known former Test cricketer.

At the following meeting Mr. H. H. Cowell displayed the plans of the new

Preparatory building, and explained to those present the many interesting features in regard to the new building.

The Rev. J. H. Allen addressed members at the March luncheon on "The New Indian Constitution," which would come into force on the 1st April; and at the April luncheon Mr. S. Gilbert Lawrence told us all about his trip to Colombo and the "Ruined Cities of Ceylon."

Although the time allowed to the speakers is under half an hour, yet a great deal of interesting information is given and pleasure derived from these luncheon talks.

The next luncheon will be held on Thursday, May 27th.

At Home and Abroad

Hayley Lever, the famous artist, has been living in New York for many years, and in a recent letter to relatives he writes:—

"The 'dope' about the Centenary has started me with ones I really love to go back to—at Seppeltfield with the Seppelts. What a fine family! I could do with a case of their wines right here. Then there is friend Buring.

"I look at the photos, and my mind travels down to the Lake; 'on the hill,'

HAYLEY LEVER

to Sammy Way's place. I think of the Wood family—George and Billy; Doug. Taylor, Billy Waite, Boucauts, Homburgs, Frank Magarey, Premier Tom Price, who bought an oil of mine; of my old spot at Findon and my friends there; my grandfather's factory at Bowden, the sailing ships at Port Adelaide, the old gang of the Easel Club, my playing cricket and football for P.A.C. on the oval.

"I remember I kicked four out of six goals for P.A.C. against S.P.S.C., and at the finish was carried shoulder high off the field. I carried on cricket in England, played for Billy Quaife's XI at Newquay, Devonshire, and scored 32 run out. Quaife complimented me on my batting, and said, 'You must be an Australian.' I was captain of St. Ives (Cornwall) cricket team, and won the bat two or three times for the highest average. Good luck to P.A.C., and best wishes to my schoolmates and friends.

"In U.S.A. I often feel much of a muchness with Australia. I sincerely hope the arts (painting and sculpture), music and literature are spreading over Australia. It is very important for the country and its people."

T. A. Laurence, Rupanyup, Victoria, writes:—

"I was exceedingly sorry to read of the passing of Sir Newton James Moore, K.C.M.G., as he and I left Fremantle together on the 22nd of December to go to P.A.C. together. He was then twelve years of age, and I was fourteen; that was in 1882. After being at the College for two years together we went home at Christmas, 1884, Moore to Bunbury, and myself to Albany. I lost sight of him then until I returned from Tasmania to Western Australia in 1905, when to my surprise I found he was Minister for Lands in the West Australian Government. He shortly afterwards became Premier, and during that period I was elevated to a Commission of the Peace by him for the York Magisterial District."

Allan Lyon writes from 350 George Street, Sydney, N.S.W.

"I have been most impressed with the academic successes of both the present boys and the Old Scholars recorded in the 'Chronicle,' and I have been further seized with the capacity of the present

boys, who contribute to the 'Chronicle' the wide range of literary items. The 'Chronicle' as it is published today is something more than important to the School. It is a record of what is in the minds of the lads, and their expression of such thoughts and ambitions. There is a remarkable sense of humour as well, and much of the matter published, being the original contribution of the boys, has great literary merit.

"You know, sometimes an Old Scholar is remembered very readily for his cricket score, or the number of goals he kicks in an important match, but it is very seldom

the scholastic achievements are so easily brought to mind, yet a fine physique should be a great asset if there is mental equipment as well."

OLD COLLEGIANS' TOUR TO MOUNT BUFFALO

The second annual tour to Mt. Buffalo for Old Collegians will leave Adelaide by the "Overland" on Thursday, July 22nd. This tour is being organised by the Victorian Government Tourist Bureau, 131 King William Street, Adelaide.

Fifty Years Ago

Mr. Sydney Ernest Holder was lost at sea when the steamer "Priam" was wrecked at Cape Finisterre (about 1888). An extract from the "Medical News" states:—

Mr. Holder was the son of the late Mr. J. M. Holder, of College Town, and was born in Adelaide, being at that time of his death about 24 years of age. He studied at Prince Alfred College, and while there won two or three minor scholarships. Thence he went to the University, and while there gained a scholarship of £50 a year, tenable for three years. At the close of that term he carried off the South Australian Scholarship, which was worth £200 a year. This, of course, necessitated his departure for England. While at the Adelaide University he graduated as B.A. On reaching the Old Country, where he arrived in 1881, Mr. Holder entered the London University College Hospital, but owing to the conservatism of that institution he had again to matriculate, notwithstanding that he had taken his B.A. degree in Adelaide. This threw him back in point of time with his medical studies. There, however, he soon distinguished himself by gaining one or two medical scholarships, as well as several gold and silver medals in various branches of his intended profession. Altogether he won upwards of £1,000 in

scholarships. His particular forte appears to have been surgery, though he also made a special study of lunacy. He secured the B.S. degree, and among other diplomas and certificates the M.R.C.S. and F.R.C.P. In 1886 he took his M.B. degree, and was to have completed his M.D. examination in May or June. A few months ago he met with an accident, upon which followed blood poisoning, and he had only recently come through a critical illness. Dr. Holder's abilities were not limited to medicine; he possessed remarkable musical talent.

Forty Years Ago

An interesting menu card has been received of a "Welcome Dinner to Dear Old Prince Alfred College Boys, by their Schoolmates in Dustopolis, April 28, 1897. Wallace Brownlow, Exchange Hotel. ('Kalgoorlie Miner' Print.)" The following list of signatures of those present is very interesting to cricketers, as it includes both Clem Hill and Joseph Darling:—

A. E. Stephens	Roland J. Hill
H. P. Brown	Bruce J. Henderson
John W. Turnbull	Joseph Darling
A. E. Sharland	D. T. Edmunds
Clem Hill	G. U. Clarke
Spencer Kelly	L. W. Grayson
G. M. Evan	E. W. Ferguson
Arthur Rowe	

Old Boys About Town

No. 27

REV. N. CLARIDGE GOSS, CROYDON, N.S.W.

Broad-minded and tolerant, he commands respect. Likeable and companionable, possessing a wit and humour which is inimitable. His versatility makes him popular in any company. From his pen a mystery play, "The Storm," was recently presented and proved a triumph in

histrionic ability. Cleverly effective was his characterisation in the principal role. A fine contribution to the list of plays written by Australians, and he is writing another play for production at an early date.

Obituary

CHAFFEY—On 3rd March, 1937, at Melbourne, Victoria, Ben Chaffey, of Moorara Station, via Pooncarie, River Murray, aged 61 years. He was one of the most widely known personalities on the Australian turf and one of its most capable administrators, and was chairman of the Victoria Amateur Turf Club. Mr. Chaffey had been in ill-health for some time. A son of the late Mr. George Chaffey, he was born at Kingston, Canada, in 1876. He was brought to Australia in 1886 by his parents and his uncle, Mr. W. B. Chaffey. He attended School 1888-1889 (School Reg. No. 1,923). The family settled in Mildura. Mr. G. Chaffey and Mr. W. B. Chaffey were the pioneers of irrigation in Victoria. Mr. B. Chaffey soon became interested in sheep, and it was not long before he acquired property. The first station he bought was Murrara, but he purchased many others in later years. Mr. Chaffey was married to Miss Cowra Crozier. In the years of the war, invaluable patriotic work was done by Mr. and Mrs. Chaffey. Mr. Chaffey was Chairman of Directors of United Distillers Pty., Ltd., a Director of Goldsbrough, Mort & Co. Ltd., and Managing Director of the Manfred Pastoral Co. He owned horses from 1890 onwards, but probably the first important race which he won was the Adelaide Grand National Hurdle with Stagefright in 1920. Whittier, owned by Mr. Chaffey, won the Caulfield Cup twice, and Manfred was successful in 1926. Whittier and Manfred were Victoria Derby winners in 1922 and 1925 respectively. The V.R.C. St. Leger was won by Mr. Chaffey with Caserta in 1923, and Accarak won the Australian Cup in 1924; Nibel won the V.R.C. Oakes Stakes in 1927, and a year later Burnaby won the Adelaide St. Leger. On the retirement of Mr. James Grice in 1930, Mr. Chaffey was elected chairman of the Victoria Amateur Turf Club. Mr. Chaffey has left a widow and a married daughter, Mrs. Albert Campbell. He was a Life Member (No. 63) of this Association.

FIELD—On 21st December, 1936, at a private hospital, Walter H. P. (Harold), loved husband of Hilda May Field and loving father of Max, of 13 Grand View Grove, Toorak Gardens. He attended School in 1891 (School Reg. No. 2,378) and was a member of this Association.

GREY—On 24th February, 1937, at a private hospital, Frank Isaac Grey, of 34 Leura Grove, Hawthorn, Victoria, aged 66 years.

He was the younger son of the Rev. George Grey, and was born at Geelong on November 27th, 1870. He was educated at the Carlton Grammar School, Talbot State School, and the old Model School, Melbourne, where he won a Government Scholarship; from there he went to the Scotch College. In 1885 he was placed first in Mathematics and English, and in the following year became dux of the College. At the University he took the Arts Course, gain-

ing first place in the Honours list for first year students, and in his second year the Professor Wilson Prize for first in the first and second years combined. Having completed the Arts course he took the Engineering, receiving his M.A. in 1892, and his B.C.E. in 1893. For a short time he taught at the Brighton Grammar School, and later joined the staff of the Scotch College, where he remained until his appointment as Mathematical Master at Prince Alfred College, Adelaide, in 1901. This appointment lasted till 1929, when he retired. In February of 1930 he left Australia for an extended tour of Europe and America, and on his return settled in Hawthorn. About the beginning of 1936 his health began to fail, and in May of that year he had a serious illness from which he never fully recovered, being more or less an invalid until his death on February 23, 1937. [A further tribute appears in the School section of this "Chronicle."—Ed.]

HACK—On the 6th February, 1937, at Lane Cove, Sydney, Harold Ansell Hack, son of the late Theodore Hack, aged 68 years. He attended School 1880 to 1886 (School Reg. No. 813), and was a member of this Association. Harold (Harry) Ansell Hack, of 19 Alpha St., Lane Cove, N.S.W., passed away on Sunday, 6th February, 1937. He is survived by his widow, Mrs. Maud Hack, a daughter, Mrs. J. V. Matthews, and two sons, Harold C. Hack, of Wollongong, N.S.W., and R. B. Hack, of York, West Australia. After service at St. Andrew's Church of England, Lane Cove, conducted by Rev. P. R. Westley, the body was cremated at the Crematorium, Northern Suburbs Cemetery. As a tribute of respect the Old Scholars in New South Wales placed a floral wreath, containing beautiful flowers conspicuous with red and white and ribbons of the College, on his coffin. Mr. Hack was born at Prospect, South Australia, and belonged to one of the Pioneer families. His grandfather arrived in South Australia in 1837. For some time Harry lived in West Australia, and was active in public affairs. He was Worshipful Master of Lodge Kalgurli. Recently he held office in Masonic Lodge, Lane Cove, No. 338, U.G.L., of New South Wales. For 26 years he was Secretary and Controller of Standard Telephones and Cables of Australia, and retired two years ago. Harry Hack will be remembered as a loyal supporter of every activity of his Alma Mater. He had abounding energy, and once having made up his mind determinedly went for his goal. A likeable, cheerful, companionable soul, unassuming and loyal. A man to know, a man to esteem, a man to remember.

MARTIN—On 30th March, 1936, at Hampton (Victoria), John C. Martin, dearly beloved husband of L. Martin, aged 75 years. Mr. Martin was a Master at the School from 1881 to 1888. He has resided in Victoria for many years, and

for some years was Principal of the Creswick Grammar School, also Senior Master of the Church of England Grammar School, Ballarat, and Caulfield Grammar School, Melbourne.

POOL—On 26th April, 1937, Robert James Pool, of Chain of Ponds, aged 63 years. The recent death of Mr. Robert J. Pool at the Gumeracha Soldiers' Memorial Hospital, has removed a well-known identity of the district. Born at Cudlee Creek, he was the eldest son of Mr. and Mrs. Robert Pool, of that township, where they engaged in farming pursuits. He was educated at the Millbrook public school under Mr. J. H. Riseby. The present Director of Education (Mr. Adey) was in the same class at the school. Later Mr. Pool attended Prince Alfred College, 1888 to 1889 (School Reg. No. 1,967). Returning to Cudlee Creek, he assisted his father before going to The Pinery at Milang with his brother Allen. When his brother married, he returned to Cudlee Creek and later lived at Rose Park. He married Miss Maude Young, daughter of Mr. and Mrs. John Young, of Paradise. About 15 years ago he purchased the Chain of Ponds store, and had carried on the business until his death. Connected with it was the post and telephone office, as well as a branch of the Commonwealth Bank. For several years Mr. Pool was clerk and overseer of the Para Wirra District Council. He was treasurer of the Memorial Recreation Ground, and on the committee of the local hall. In sport he followed chiefly rifle shooting and cricket. He was one of the foundation members of the old Millbrook Rifle Defence Club, and a keen shot. Until recently he was an active player of the Chain of Ponds Cricket Club, and when younger played for the Cudlee Creek team. He was a member of the A.N.A. Lodge. A widow and one daughter, Miss Valda Pool, survive, also two sisters, Mrs. E. H. Hannaford, of College Park, and Miss A. Pool, of Chain of Ponds, and two brothers, Allen, of Adelaide, and Edward, of Birdwood.

SAINT — On 7th April, at St. George's (Adelaide), John Foreman Saint, dearly beloved son of Mrs. R. J. Finlayson, aged 22 years. He attended School 1929 to 1933 (School Reg. No. 6,704), and was a Life Member, No. 912, of this Association.

TREVORROW—On the 17th February, at Mt. Gambier, John Edgar, the dearly beloved husband of Hilda Trevorrow, and son of the late Rev. J. H. Trevorrow, aged 59 years. He was a well known Mount Gambier accountant and commission agent, and one of the town's best-known residents. A son of the late Rev. J. H. Trevorrow, he was born at Pt. Lincoln. J. H. Trevorrow, he was born at Port Lincoln. He attended School 1888-1892 (School Reg. No. 1878). As a young man he went to Mount Gambier to enter the employ of Messrs. Fidler and Webb, and he was accountant for that firm until about 15 years ago, when he purchased the business of the late Mr. G. A. Shepherdson. He

was clerk of the Mount Gambier West District Council for about 13 years, until the amalgamation of the Councils, and was also secretary of the Mocrak Dairy and Produce Company, secretary of the Mount Gambier Institute and the Rechabite Lodge. Mr. Trevorrow was also a justice of the peace and a member of the bowling club. In his younger days he was a keen tennis player. Mr. Trevorrow was a member of the Methodist Church, in which he held practically all offices at various times. He was also a member of the choir and superintendent of the Rosaville Sunday School for many years. He was married at Mount Gambier to Miss Hilda Newman, who survives, and there are two sons, Messrs. H. J. Trevorrow, of Mount Gambier, and Victor Trevorrow, of Perth (W.A.).

WILSON—On the 15th March, 1937, at a private hospital, Alexander Wilson, of 106 Sydenham Road, Norwood, aged 75 years. He attended School 1876 to 1877 (School Reg. No. 456), and was a member of this Association.

WILSON—On 1st April, at a private hospital, Ernest E. Wilson, of King William Road, Hyde Park, beloved brother of the late William J. M. Wilson, and Mrs. E. H. Bakewell, aged 66 years. He attended School 1883 to 1885 (School Reg. No. 1,266), and was a Life Member, No. 920, of this Association.

Life Members' Certificates

Life Members who have not yet received their membership certificates are requested to communicate with the Secretaries.

The newly-designed Life Membership Certificates are now available. These will be issued under the seal of the Association, and are obtainable by all Life Members upon payment of 2/6 to cover necessary costs of printing.

Life Members who have been already issued with old style Certificates are eligible to obtain a new Certificate if they so desire.

:: :: ::

ASSOCIATION BLAZERS

The Association Blazer is finding favour amongst members. Orders entitling members to secure a blazer are obtainable from the Secretary of the Association.

Old Boys' Tennis

The annual tennis match against St. Peter's Old Collegians was played at St. Peter's College on Thursday, 25th February, 1937. Both teams included many well-known players in the tennis world, and as was to be expected, some excellent tennis was witnessed, most of the matches being strenuously contested. Eventually Princes won by 6 rubbers to 2, but the contest was far closer than the scores indicated. The surprise of the afternoon was the defeat of D. P. and G. A. Turnbull (Saints) by G. M. Hone and Max Newcombe (Princes). The Turnbull brothers did not combine as well as usual. Afternoon tea was provided in the School's new dining hall.

SCORES

- R. K. Thomas-P. Davis (St. Peter's) lost to R. Lock-A. Edwards, 8-10, 3-6.
- L. C. Bridgland-P. LeMessurier lost to K. Berriman-A. J. Wight, 3-6, 1-6.
- J. R. S. Evans-C. T. Moodie lost to C. Fleming-S. J. Torr, 4-6, 4-6.
- D. P. Turnbull-G. A. Turnbull lost to G. M. Hone-M. Newcombe, 3-6, 4-6.
- J. R. S. Evans-C. T. Moodie lost to K. Berriman-A. J. Wight, 5-7, 0-6.
- L. C. Bridgland-P. LeMessurier d. C. Fleming-S. J. Torr, 2-6, 6-4, 7-5.
- R. K. Thomas-P. Davis lost to G. M. Hone-M. Newcombe, 3-6, 2-6.
- D. P. Turnbull-G. A. Turnbull d. R. Lock-A. Edwards, 7-5, 6-1.

Old Boys' Bowls

The annual bowls match against St. Peter's Old Collegians was played at South Park on Wednesday, 24th February, and we are indebted to the South Park Bowling Club for again making their rinks available for this contest. The St. Peter's Association was unable to muster the eighth rink, and so a friendly match for our No. 8 rink was arranged against South Park four. In addition, rinks representing the Association Executive and St. Mark's College also tried their skill with more or less success. Some very close contests took place, but generally the Princes rinks were too strong, and won by 185 points to 106.

Prince Alfred—185

- J. H. Cowling, E. Bendall, E. R. C. Brown, E. F. Playford 28
- J. McColl, Dr. Chapple, J. E. Langley, H. E. Mutton 27

OLD BOYS' WEEK

JULY 19th : JULY 25th

The following Programme has been arranged:

MONDAY, JULY 19th—

Bridge Match. Old Blues v. Old Reds, at Arcadia.

TUESDAY, JULY 20th—

Hockey and Lacrosse at St. Peter's College. Old Blues v. Old Reds.

WEDNESDAY, JULY 21st—

Baseball and Football at Prince Alfred College. Old Blues v. Old Reds.

THURSDAY, JULY 22nd—Old Boys' Day at the College.

8.50 a.m.—Morning Assembly.

Football—Town v. Country.

The new Preparatory School buildings will be open for inspection during the afternoon.

At 7.30 p.m.—Annual Dinner at the South Australian Hotel.

FRIDAY, JULY 23rd—Annual Dance at Palais Royal, North Terrace, 8 p.m. to 1 a.m.

SATURDAY, JULY 24th—Intercollegiate Football.

At 7.30 p.m.—Masonic Temple—Old Collegians' Lodge meets.

SUNDAY, JULY 25th—11 a.m., Old Scholars' Service

THURSDAY, JULY 8th—Golf. Old Blues v. Old Reds, at Kooyonga. To be followed by a combined "Golf Dinner," which will be held in the Clubhouse.

Old Boys' Week

This year no alterations have been made in the programme for "Old Boys' Week." Members are requested to assist the various sub-committees by promptly advising in which contests they wish to participate.

Golf Match.—To suit the convenience of players this match has been arranged for Thursday, 8th July, at Kooyonga. It is preferable that you arrange to pair with your opponent.

After the match it is proposed to hold the usual "golf dinner," when the Rymill Cup will be handed to the captain of the winning side.

Bridge Evening.—Either Auction or Contract Bridge may be played, as arranged with your opponents. This match will be played on Monday evening, 19th July, at Arcadia Cafe. You will greatly facilitate arrangements if you will kindly arrange for your own partner, find two opponents, and send in the four names early to the Secretaries.

Football Matches.—Members are requested to forward their names early for these matches. As at least 36 players will be required, country members are specially requested to give their support.

Morning Assembly.—In response to the expressed wish of one of our "older" "old boys," Mr. J. F. Ward (Headmaster) has invited to the Morning Assembly on Old Boys' Day, Thursday 22nd July, at 8.50 a.m., all Old Reds who attended College 60 years or more ago. Last year's attendance warrants a continuation of this function.

Old Boys' Day.—A record attendance of "old boys" is expected on this occasion, and a larger proportion of country "boys" is anticipated.

During the interval of the Town v. Country matches, the new Preparatory

School building will be open for inspection. All "old boys" and friends are cordially invited to inspect these modern schoolrooms and equipment.

Annual Dinner.—Your committee have arranged for the Annual Dinner to be held at the South Australian Hotel, North Terrace, and look forward to a very successful function. The price of the tickets will not include refreshments, for which each member will pay according to his requirements. This will be a more equitable arrangement, and the Association will be relieved of a substantial loss which has had to be met on previous occasion.

His Honor Mr. Justice Cleland will propose the toast of "The School." (Mr. Cleland's grandson, representing the third generation, is now in attendance at the School.)

Annual Dance.—An active sub-committee is attending to the arrangement. Dancing will be from 8 till 1 a.m. Guests will be received on arrival by the President (Mr. F. L. Collison), Mrs. Collison, and Mr. and Mrs. J. F. Ward. As usual, an excellent programme of dances and music is being arranged.

Old Scholars' Service.—Dr. F. S. Hone will deliver the address; being an Old Red, a record attendance is hoped for. The proceedings will be broadcast for the benefit of country and Interstate "old boys" through the courtesy of 5CL Station (or possibly 5CK Station).

OLD SCHOLARS' RIFLE MATCH

Up to the time of going to Press nothing definite has yet been arranged. Very little response has so far been received from our members. Will any "old boys" interested please communicate at once with the secretaries of this Association.

Old Boys' Rowing

The contest between crews representing Old Collegians of St. Peters, Scotch, Princes and Adelaide High School was rowed on the Torrens on Saturday, 17 April. The following represented this Association: J. C. Walter, D. C. Philips, B. C. Martin, C. Runge, F. A. Dibden,

F. Nicholls, R. K. Dunn, A. H. King, and H. E. Freiburg (cox).

After putting in some good practice, our representatives felt confident of giving a good account of themselves, but, after a very good race, were eventually beaten in the final by St. Peter's Old Collegians by half a length.

Branch Reunions

HOBART

We appreciate the following report received from Mr. Gordon T. Colebatch, Hobart, and express appreciation for his work in arranging the function. We hope that there will be a larger representation of Old Reds at the next reunion:—

"Many thanks for your telegram and good wishes. The dinner was held on the 16th January, but unfortunately no P.A.C. Old Scholars were able to be present, quite a number being away on holidays. Nevertheless, the toast to 'Saints and Princes' was drunk with enthusiasm and enjoyment.

"You will doubtless be interested to know that I got in touch with the following P.A.C. Old Collegians: C. Annells, R. H. Berriman, Joe Darling, Tom Gepp, H. P. Tuck, S. Pontifex, A. N. Wilson, C. W. Greayer, Dr. D. A. J. Hunwick. We hope to hold a similar function later in the year."

PORT LINCOLN DINNER

On the 16th February a very successful combined Old Scholars' dinner was held at Port Lincoln. Thirty Princes and 24 Saints were present.

The toast of "The Schools" was proposed by Mr. J. Jay (Saints), and supported by Dr. C. T. Piper (Princes). Mr. W. L. Davies and Rev. G. Pentreath responded. The toast of "The Associations" was entrusted to Mr. L. E. Clarkson (Princes) and Mr. Richardson (Saints), and was responded to by Mr. F. L. Collison on behalf of both Associations.

Thanks are due to Mr. K. E. Jacobs, of Port Lincoln, for the excellent arrangements made by him.

Old Reds present were:—

Collison, F. L.	Trestrail, A. C.
Davies, W. L.	McFarlane, K. S.
Steele, D. M.	Matheson, K.
Piper, C. T.	Hull, R. E.
Mellor, A. J.	Yeomans, R. L.
Clarkson, L. E.	Mullner, A. K.
Dunstan, R. H.	Mullner, D. I.
Pearson, R.	Lathlean, J. B.
Pearson, G.	Masters, M. M.
Doudy, C. R.	Gordon, R. H.
Peake, W. S.	Brice, H. C.
Bowering, M.	Jacobs, K. E.
Barns, L. M.	Clarkson, D. F.
McDonald, D. K.	Jenkins
Cooper, A. A.	Kerr, C.

CRYSTAL BROOK

Members of the Mid-Northern Old Collegians' Associations of S.P.S.C. and P.A.C. held a combined dinner at the Institute, Crystal Brook, on Saturday, May 1st. Seventy-six members were present, and a very cheery evening was spent. Mr. D. Yates (S.P.S.C.) occupied the chair.

Mr. W. L. Davies represented Prince Alfred College, and Dr. A. G. Trott the P.A.C. Old Collegians' Association.

The toast of "The College" was proposed by Mr. Ide, and responded to by Mr. Davies. The toast of "The Old Collegians' Association" was proposed by Dr. Kendrew, and responded to by Dr. Trott.

The chairman proposed that the next Mid-Northern Association dinner be held at Clare next year. This was carried by a large majority.

The new Association tie was exhibited to members, and created great interest.

Mr. M. D. Weston (joint secretary) and the committee are to be congratulated upon the great success of the function.

Old Boys in Sport

Since the last issue of the "Chronicle" "old boys" have been prominent in many branches of sport, but of all the major successes during the term, our representation in the successful South Australian King's Cup crew is the most pleasing. Jack Williams, rowing No. 3, and Max Richardson, No. 6, each pulling their weights, helped the State crew to win the coveted trophy for the first time for many years. Jack stroked the College Eight whilst still at school, but Max left before rowing had again taken its place among the Intercollegiate contests.

At Easter, when tennis tournaments were held in many important centres throughout the State, our successes—especially in championship events—were remarkably frequent; the crop of young players, who have helped Princes to win the Intercol. year after year, on leaving, have gone from success to success. The South Australian ranking list has recently been published, and we are pleased to see that Max Newcombe—only a year or two out of school—is ranked No. 4, and another of the younger brigade, Ross Lock, No. 12. Also in the lists we find the evergreen Gar Hone eighth in the singles and No. 4 in the doubles.

To further substantiate the claim of our Easter performances a few of the outstanding are tabulated below:—

At Naracoorte—South-Eastern Championships: Singles and doubles won by E. P. Copping, of Lucindale.

At Kadina—Championships: Singles, doubles and mixed doubles won by R. Trengove, of Bute. In the doubles Allen Edwards, another Old Red, was his partner.

At Murray Bridge—Championships: Singles and doubles won by Max Newcombe. Also runner-up in mixed doubles.

At Clare—Single Championship won by Ross Lock.

At Port Pirie—Championship doubles and runner-up in mixed doubles won by Ron Hone.

At Port Lincoln—State Hardcourt Championship doubles runner-up, F. E. Piper.

Beside these victories, the importance of which speaks for itself, we are pleased to see that W. Mates, although still at the College, won the singles and double championships at Jamestown. The news of such State-wide success comes pleasantly to the ears of all "old boys."

For the first time the Talbot Smith Fielding Prize, given for competition among South Australian district cricketers, has been won by an "Old Red," Ross Stanford; he won the trophy by an appreciable margin, and to him we extend congratulations. A few years back he gave cricket lovers something to remember when he just missed his century in an excellent hard hitting innings in the Intercollegiate match. Ross was also a member of the West Torrens team that won the "A" Grade premiership for the season 1936-37. Incidentally, this team was captained by another Old Red, Angus Woolcock.

A. G. Holman is another who has just completed a very satisfactory season with Ports, a team still captained by Gordon Harris. Holman's batting average, although aided by several "not outs," nevertheless, did him great credit, and it was largely due to his consistency that Ports were eventually able to reach the final four.

At cricket, Fred Catt could not seem to get going, but perhaps his luck has now changed, as we notice that he commenced the baseball season in fine style with four "safeties." Whilst still at College Fred was initiated in to the ball game by his enthusiastic father, Charlie, and at the moment it looks as if Interstate honours are not very far away.

Graham Williams has been a very consistent member of the East Torrens and State sides—for the latter his 18 wickets at an average of 19.7 records an excellent performance. A district team mate of his—the left-handed Gibson—at times has

come to the fore in success with bat or ball.

At the time of going to press the winter sports have just commenced. It looks as if Bernie Mattiske has recovered from the injury that he received last season, as already he has played at least one outstanding game for Wests.

John Stephens was our sole representative for the combined Amateur League team that played against the Association on Anzac Day. He played a great game too! His showing in this and the Carnival matches of last August stamp him as one of the best amateurs of the day.

It is pleasing to see both Shaughnessy and Gurner going direct from school to Amateur football, the former playing in his first match against Saint's Old Scholars stood out as University's best for the day. Beside these two, "Slim"

Playford and Don Dawkins are training with 'Varsity.

Although many Old Reds take an active interest in bowls it is very seldom that items of interest are made available to the Editor for publication, but recently his notice was drawn to the fact that Arthur King had not only won his Club Championship, but had got into the final four of the "Champion of Champions"—an excellent performance.

In the Interstate match against Victoria in Melbourne during the Easter vacation, both A. V. King and W. H. McFarlane were representatives of the South Australian side.

R. McGowan won the 100 yards State Championship at the last meeting of the South Australian Amateur Athletic Association. He has been knocking at the door for some time, and his victory is the reward of sustained efforts.

NEW MEMBERS

We are pleased to again report a satisfactory increase in membership. We sincerely hope that all members will do their utmost to obtain further increase in membership.

WESLEY COLLEGE

During a recent holiday in Melbourne the President, Mr. F. L. Collison, was invited to attend a monthly luncheon held by Old Boys of Wesley College, and at the invitation of the chairman spoke to the Old Boys about the activities of our Association.

After the luncheon he visited the College, and through the courtesy of the Headmaster was shown over the buildings and grounds. He was very much impressed with the many modern buildings and equipment.

ANNUAL SUBSCRIPTION

Ordinary Members are reminded that the subscription for the current year, viz., 6/-, is now due. The Committee will be pleased if members will kindly remit their subscriptions to the Secretaries as early as possible. The financial year ends on the 30th September. Cheques and Money Orders should be made payable to "Prince Alfred Old Collegians' Association."

Old Collegians' Cricket Club

Since the last "Chronicle" went to print we have played four matches, winning and drawing one, and losing two. The season just completed has not been very successful for us, but although we have had a small percentage of wins, we have enjoyed the season, and have had some interesting matches. A brief description of the four matches may be of interest.

Against Hawthorn we made 182 in reply to their 287. The chief scorers for us were Evans, 26, E. Male, 26, and Shepley, 24, while the bowling honours went to H. Kirkwood, 3 for 72, and Shepley, 2 for 41.

We met S.P.S.O.C. determined to make amends for our first encounter. In this we were successful, as we made 179 to their 163. L. S. Clarkson top scored with 61 not out, followed by H. Kirkwood, 24, and Evans, 20. The wickets were well distributed, Catt, Shepley and L. Clarkson securing two each. We entertained our old rivals during this match in the School dining hall.

Against Payneham we received a rude shock. We made 264, thanks to fine batting by Evans, 102, L. Clarkson, 45, and L. Walsh, 43 not out. After having two wickets down for one, Payneham went on to make 330, and thus won the match. D. Clarkson, 2, and Evans, 3 wickets, were the chief bowlers. Evans bowled particularly well, much to the surprise of his team mates.

The final match against Prospect was a one-day match, and the honours finished even. P.A.O.C. scored 8 for 142. D. Clarkson, 35, Evans, 31, and Waldeck, 24, were the chief scorers; while Kirkwood, Angel and Clarkson secured most of the wickets in Prospect's 9 for 150.

Evans has been most successful in his batting and fielding, as also has Len Clarkson, who, unfortunately, was only able to play in a few matches. The ever-green Harry Kirkwood again bowled well, as also did Shepley, Angel and D. Clarkson.

The following are the season's averages:—

	Batting				
	Inn.	N.O.	H.S.	R.	Av.
M. W. Evans ..	16	2	102	511	42.58
C. Gurner	5	—	74	166	41.5
L. S. Clarkson ..	7	1	61	226	37.6
L. S. Walsh	10	2	58	181	22.4
A. Waldeck	11	1	26	167	16.7
D. A. Clarkson ..	7	—	35	96	13.8
P. Kirkwood	12	1	22	151	13.7
G. Male	15	1	23	178	12.7
C. Catt	10	1	32	114	12.6
E. Male	11	—	37	116	10.5
H. N. Shepley ..	10	2	24	64	8

Also batted: H. Kirkwood, Angel, R. Johnston and Chapman.

	Bowling				
	O.	M.	R.	W.	Av.
H. N. Shepley ..	88	12	222	18	12.3
N. Angel	38	—	161	10	16.1
C. Catt	31	3	115	7	16.4
D. Clarkson	106	16	317	19	16.6
M. Evans	12	—	68	4	17
H. Kirkwood ..	83	3	413	21	19.6

OLD COLLEGIANS' TIES

Supplies of the newly-designed Old Collegians' Ties are now available, and only members of the Association are entitled to obtain these. Upon application to the joint secretaries of the Association a certificate of membership will be supplied.

The ties are made of heavy silk, navy, with the badge in miniature in red and gold, and they are being very favourably received by members of the Association.

:: :: ::

ASSOCIATION TOKENS

Association Tokens will be issued to members upon payment of 20/-. These remain the property of the Association, and are returnable if the holder ceases to be a member. To the end of April last, 1,351 token have been issued.

Old Collegians' Football Club

The Old Boys' Association has had installed, with the consent of the School Council, a gas hot water service to provide three hot showers in the dressing room under the pavilion for the use of the Old Collegian's Football Team, and this installation is greatly appreciated by the players.

Though last season was not a brilliant success, we maintained our position in Grade "A1," and at the present time head the Amateur League list. The club is very grateful for the excellent support it has received from the young players this season, and although our captain and vice-captain have been absent for our first two matches, the team has played excellently and won comfortably on both occasions.

E. C. Stephens was again re-elected captain at the annual meeting, with N. H. Anderson as vice and treasurer. Ralph Vardon, Esq., was re-elected President, and we are indebted to him for the great interest and enthusiasm he extends to the club. It is most pleasing to report that Alf. Waldeck, who appears likely to go on for ever, is still playing excellent football, and in the absence of the captain and vice has led the team in the first two matches.

A practice match was played against Saints' Old Scholars on April 24th. The club had a very good attendance of players, and after a most exciting match Old Reds ran out winners by a few points.

The first Association match against Kenilworth at South Park was a great tussle for three quarters, but showing great stamina and determination our team finished six goals in front. One of the most pleasing aspects of the match was the splendid form shown by several members of last year's College team, notably Ward and Bennett, together with Mills, recruited from the "B" team. Dawkins showed splendid form in front of goals, whilst Allen, opposed to Owens, kept the ex-Glenelg goalkicker down to one goal.

Our next game was played at the College Oval against Rechabites. The first

half was keenly fought, but thereafter Old Reds were always well in front, and finished up winning by eight goals. Weatherly was quite the outstanding player on the ground, marking and kicking brilliantly throughout. Standford was solid in ruck and kicked five goals. Carmichael, who comes to us with a great reputation from the College team, played quite well in the second half, and should develop into one of our most valuable members. Waldeck and Newbery played very solidly in the back lines, and Broadbent kicked off in fine style.

This season we have been particularly fortunate in securing the services of Mr. Alex Lill, ex-Norwood champion, as coach of the club. He is proving himself a most popular and successful official, and we hope members will give him every support throughout the season.

The "B" team is playing in the Students' Association again this season, and the committee is anxious to build up a good representative side. Good grounds are available for matches, and any new member will be most welcome.

Our third match, on Coronation Day, was to prove the most exciting to date. With both sides playing excellent football, the scores were only a point in our favour at half-time. However, in the last quarter Old Reds again showed great stamina and ran out winners by 4 goals 5 behinds, the scores being 19—3 to 12—16. A feature of the match was the remarkable straight kicking of our forwards, and this department Dawkins and Parham shared the honours with five goals each. Bennet was outstanding in the final term, and his three goals were a brilliant effort. Weatherly again was the outstanding ruckman, and Parham and Carmichael both roved well. In the back lines Waldeck and Anderson were most prominent, though all played well. Umpire S. H. Oehme, the leading Amateur League Umpire, stated after the match that it was the best game he had ever officiated at in the Amateur League.

The secretary is Ross C. Johnston, 284 Rundle Street, East (C. 4343).

Interstate Branches

BROKEN HILL

The Branch Secretary is Mr. R. P. Wheaton, c/o E. S. & A. Bank, Broken Hill.

NEW SOUTH WALES

The Branch Secretary is Mr. E. A. Kesting, Newington College, Stanmore, N.S.W.

Mr. Ernest A. Kesting has been appointed Secretary of the New South Wales Branch. He is Secretary of Newington College, Stanmore, N.S.W., and his Telephone No. is LM 5355. Mr. Allan Lyon will continue as President, and may be found at 350 George St., Sydney. Any Old Scholars visiting Sydney are invited to communicate.

South Australians recently taken up residence in New South Wales are:—

Norman A. Harris, Commonwealth Bank of Australia, Kogarah, who is a playing member of the St. George Cricket Club.

C. W. Wright has joined the Royal Australian Engineers, 2nd Fortress Co., Chowder Bay, Georges Heights, Mosman.

J. H. Gray (Jim) now manager of Motor Radiators, Alexandria.

R. W. Blundell, our caricaturist, has an important position on the Advertising Staff of Farmer and Company Limited, Sydney, where his skill in draughtsmanship will be a considerable item of his equipment.

In New South Wales steady efforts to augment the Endowment and Building Fund continue. The object aimed is to secure the first year's quota by the time our Annual Dinner may be held on 22nd July next. Last year N. Claridge Goss intimated there would be two performances during the autumn season this year of a mystery drama, "The Storm," of which he is author and producer. In proportion to the support accorded by Old Prince Alfred Scholars in New South Wales, a percentage of the net profits from one performance would be contributed to the Endowment and Building Fund. The play was staged on Tuesday, 20th April, at the Savoy Theatre, Sydney. It was accorded high praise from dramatic critics, and the Press were unanimous in comment of the continuous incident, dramatic fancy, splendid construction, and interest in an absorbing story. The mechanical effects and stage craft all contributed to the success of the presentation, and the author must have been gratified with the attendance, and the applause so well merited from the audience. Mr. Goss has achieved a triumph in histrionic ability, and portrayed the character of the Indian author, Ram Singh, with skill. His characterisation and portrayal was so cleverly effective as to have the audience completely in doubt until the curtain fell. It is a fine contribution to the list of plays written by Australian authors.

VICTORIA

Mr. Paull Fiddian is the Branch Secretary. His address is, Perpetual Trustees Buildings, No. 100 Queen Street, Melbourne.

QUEENSLAND

The Branch Secretary is Mr. Len. King, Secretary's Office, Royal Queensland Golf Club, Eagle Farm, Brisbane, Queensland.

WESTERN AUSTRALIA

The Branch Secretary is Mr. E. Witherage Cotton, No. 5 Melrose Crescent, North Perth, who will be pleased to hear from all Old Reds in W.A.

A. A. Strickland has been appointed manager of the Bank of N.S.W., Kalgoorlie.

A. L. Humphries has left for Adelaide, having been appointed Farm Manager at Roseworthy College.

Mr. J. Marychurch Jenkins has been seriously ill, but we are pleased to learn that he is now better.

OLD PRINCES v. OLD SAINTS CRICKET MATCH

The annual cricket match, Old P.A.C.'s v. Old S.P.S.C.'s, took place at Wesley College Grounds, South Perth, on 20th February last. The weather was delightful after all the heat that had been experienced throughout the summer, and the grounds showed an improvement upon previous years, time having played its part in the growth of grass, with the aid of attention with water and the machine. The College, however, did not look as ship shape as usual, for the authorities were spreading around thousands of pounds in new buildings, which were in course of erection. However, Dr. Rossiter, the Head, was as kindly as ever, greeting all as old friends, whether Saints or sinners. The marquee was up, down in the corner again, and a nice luncheon was offered by the caterers, with afternoon tea to follow.

Geoff. Burgoyne, who has captained Princes so often, failed to smile along—he had arranged a motoring tour for his leave. "Bully" Strickland had been ordered to manage his Bank at Kalgoorlie, whither Stan Wreford had also some reason to go. Rev. A. S. J. Fry, though in the city and looking his best for some time, was not wielding the umpire's bat. Rev. H. H. Fennell was too busy with Conference work—he has had a shift to Leederville from Victoria Park. Geoff. Playford and Billy Stokes were conspicuous by their absence. Eric Armstrong, late Sports secretary, has opened a business in Sydney. They and others were all missed, still Old P.A. Collegians were well represented by the other usual, and many new, faces, both in

players and in lookers-on. The Eatons, G. still on the farm and R. settled in the city, made good scores, with W. E. Southwood being the only ones to reach double figures for P.A.C.'s.

The Saints captain, D. Lance Hayward, won the toss from Fred. Waldeck, our captain, and elected to bat.

At lunch each captain proposed the health of the opposing one, and his team in the way they have of doing such things. Both thanked Dr. Rossiter for his hospitality in placing the grounds at our disposal for the day, and at the behest of the Saints a collection was made, which resulted in £2 being presented to the Wesley College Sports Club.

Appended are the scores:—

COMBINED PRINCES AND SAINTS

v.

VICTORIAN COLLEGES CRICKET

The day after Old Saints beat Old Princes at Wesley Grounds in cricket the two combined to meet a team of Old Collegians from Victorian Colleges at the Perth University Oval, nicely situated amongst palms near the river, Crawley way. Again the weather was glorious and appointments all that could be desired. The ex S.A. Collegians each forgot their quondam (the word is not swearing; I learnt it at P.A.C. and from Joe Bags) feelings and made a most friendly union.

The game was most exciting, for the Victorians had compiled the handsome score of 207, which looked formidable to the S.A.'s, especially when G. Eaton was caught for 3 and Bagot for 7 early in their innings; but Rymill's fine stand for 54, and other Saints 26-29, with S. Haslam's 32 and R. Eaton's 20 for Princes, not to mention Chapman's recovery from the previous day (0), when as a tail-ender he scored 16, three of which were fours, caused us to breathe freely again to 228, a win by 21 runs.

McKellar Hall, captain of S.A.'s, lost the toss to B. Wood of the Victorians, who decided to bat.

This was the first meet for such a match, and the day closed with the mutual feeling that nothing must prevent a contest at the same time next year.

Mr. Angus Maitland organised for Saints, as their new secretary, and Mr. Fred Waldeck acted in a similar capacity for Princes, whilst Mr. Lance Barrett was looked to by the Victorians.

It must be recorded that Claud Cockram was not in good form, for in missing a catch when fielding the ball dropped on his right foot pretty severely, result (0)—with which Freddy Waldeck had to coincide, both first ball, middle stump. Yes, they must meet again!
