SCHOOL OFFICERS

Prefects:

F. C. Bennett (Captain of the School), J. Hodge, J. Tregoning, J. O. Cartledge, R. B. Craven, D. J. Davies, R. E. Gersch, D. G. Lloyd, J. H. Nicholls, W. S. Shephard, R. A. Wegener.

House Prefects:

J. H. Nicholls (Head), R. E. Gersch, K. H. Sampson, J. N. Bennett, T. P. Dearlove, K. I. Friebe, J. C. Norman, D. G. Wicks.

Games Committee:

The Headmaster (Chairman), Mr. S. Williams (Sportsmaster), Masters in charge of games, and F. C. Bennett, J. Tregoning, J. Hodge, A. E. Pearce, R. B. Craven, J. H. Nicholls, W. S. Shephard, M. Solomon, R. R. Williams.

Games Sub-Committees:

Cricket—Mr. C. R. Davies, J. Tregoning, F. C. Bennett.

Football—Mr. J. E. Smith, F. C. Bennett, J. Tregoning, J. H. Nicholls, J. Hodge.

Tennis—Mr. T. G. Luke, J. Tregoning, W. S. Shephard.

Athletics—Mr. J. S. Steele, Mr. A. E. J. Klose, J. Tregoning, R. B. Craven, J. Hodge, A. E. Pearce.

Rowing—Mr. A. E. McLean, M. Solomon, R. R. Williams.

School Magazine Committee:

Mr. W. L. Davies (Master in Charge), D. G. Lloyd (Editor), D. J. Davies, J. Hodge, R. A. Wegener, R. E. Gersch.

Debating Society Committee:

Mr. A. E. J. Klose (Master in Charge), J. Hodge, R. B. Craven, J. H. Nicholls, R. E. Gersch, J. C. Norman.

Library Committee:

D. J. Davies (Librarian), J. O. Cartledge, J. H. Nicholls, T. V. Holland, M. W. Stain.

Concert Committee:

The Headmaster, Mr. A. E. Dennis (Secretary), T. V. Holland, T. P. Dearlove, J. C. Norman, R. H. Turner.

Historical Society:

Mr. M. A. P. Mattingley (in charge), J. N. Bennett (Secretary), F. C. Bennett, R. E. Gersch, K. H. Sampson.

Christian Union:

Mr. G. M. Potts (Master in Charge); President, D. G. Lloyd; Vice-Presidents, J. H. Stace and R. A. Wegener; Secretary, K. H. Sampson; Committee, J. C. Norman, R. G. Hughes and T. V. Holland (Minute Secretary).

Cadet Corps:

Capt. W. L. Davies, M.C., Mr. T. G. Luke, Cadet-Lieut. J. O. Cartledge, Cadet-Lieut. D. J. Davies, Cpls. R. A. Wegener, T. B. Hamilton, D. T. Martin, R. H. Burden, J. L. Cleland, D. G. Wicks, J. K. Marshman, R. W. Oliver, R. R. Williams.

Scout Troop:

Scoutmaster, Mr. M. D. Close; Assist. Scoutmasters, Messrs. A. H. Dennis, R. S. Forsyth; Patrol Leaders, J. R. Ingamells, W. B. Spencer, D. L. Anderson, J. S. Smith, P. G. Sullivan.

Form Captains:

N.B.—The next issue of the Chronicle will be published in May. Articles and contributions received after May 7th will be held over till the next issue.

THE LATE W. R. BAYLY, B.A., B.Sc.

The late Mr. W. R. Bayly

The death of Mr. W. R. Bayly, B.A., B.Sc., on Tuesday, November 9th, has removed from our midst one who had a very long and honourable association with Prince Alfred College. We had almost come to regard him as being permanently among us, for though he had been living in retirement for eight years he appeared to be as vigorous as ever. He has passed on, and we who remain will best show our high regard for him by striving to uphold the fine traditions of our School, which he did so much to establish.

Mr. Bayly was born in 1867, the year in which Prince Alfred laid the foundation stone of the College. At the age of twelve he won a scholarship entitling him to three years' education at this School; and after matriculating in 1882 he became a junior master on the staff. Many years later, at a welcome given to Mr. Bayly on his appointment as Headmaster, he related how he was led to become a teacher. When he was leaving school in 1882, Mr. Chapple, then Headmaster, suggested to Mr. Bayly's mother that her son should join the teaching staff. Mr. Bayly at first did not know what was going on behind the scenes, but the suggestion bore fruit, for in 1883 he began the first of a long succession of years as a school master, all but five of which he spent at Prince Alfred College. Mr. Chapple rendered the School a great service as its principal for nearly forty years, and one of the finest things he did was to start the fifteen-year-old schoolboy on his career as a school master.

During the period 1883-1909 Mr. Bayly not only rose to become second master, but also prosecuted his studies to such good purpose that in 1896 he graduated in Arts, and two years later in Science.

In 1910 Mr. Bayly was appointed Headmaster of Geelong College, but returned in 1915 to succeed Mr. Chapple. The Old Collegians' Association gave him a very fine welcome, especially as he had been their President from 1905 to 1909. At this welcome Mr. Bayly declared that he would never have accepted the position of Headmaster of his old School if he had not been confident that the Old Boys would rally round him. Time has shown that this confidence was not misplaced, for the Old Collegians' Association has done, and is doing, a great work for the School.

For fifteen years Mr. Bayly governed the School wisely and well. He put his whole heart and soul into his work, and had the great joy of seeing the College prosper under his rule.

The Memorial Building, of which we are all so proud, was erected during his term of office, and has been a great boon to the School.

Although Mr. Bayly devoted so much of his time and energy to the College itself, he took a keen interest in public affairs; but it was not until his retirement in 1929 that he was able to take as active a part in them as he desired. From 1915 to the time of his death he was a member of the Council of the Adelaide University; he also became President of the South Australian Branch of the Royal Society of St. George, and President of the Adelaide Glee Club. The Methodist Church had in Mr. Bayly a loyal supporter, for in his early days he was superintendent of the Archer Street Sunday School, and later a trustee and circuit steward in the Kent Town Church. On many occasions, too, he took pulpit appointments, where his exceptional gifts as a speaker were highly appreciated.

Among the many services that Mr. Bayly has rendered to the community is his work in Freemasonry. He rose steadily in the Craft until he was honoured with the rank of Deputy Grand Master, a position which he occupied with conspicuous ability.

Many an Old Boy will recall Mr. Bayly's enthusiasm for rowing. In his student days he became an expert oarsman, and stroked the University Eight; subsequently he was in charge of rowing at the College. No one was more delighted than he when this sport again became a school activity some years ago.

We have traced all too briefly and inadequately Mr. Bayly's career. Much could be said of his almost sacrificial devotion to his duty, of his abounding energy and unquenchable enthusiasm, and of his brilliant gifts as a speaker. Our present Headmaster, in paying a tribute to the work done by Mr. Bayly for Prince Alfred College, spoke very truly when he told the assembled School that, if only a few of the boys before him proved to be as devoted to their old School as Mr. Bayly had been, there was no need to fear for its future. Mr. Bayly has set a splendid example, which we should be proud to emulate. It is a great thing to have been a man of noble principles and lofty ideals; it is a far greater thing to have lived as closely to those principles and ideals as is humanly possible. All know how truly this applies to Mr. Bayly. We mourn his loss, but rejoice in the knowledge that Prince Alfred College has been served so long and so faithfully by one of her most illustrious sons.

No. 180

Editorial

Professor Wood Jones has aroused interest in Australia by means of his recent eloquent and inspiring addresses, delivered before leaving this Continent. In them he urges us to cultivate the adventurous spirit in all educational affairs: for there are unexplored opportunities of which we are not availing ourselves, and which we may only discover through the apparent temerity of the adventurous.

We are apt to take it for granted that Australia is advancing and will continue to do so, but unless we loose the chains and cast off the iron shackles which are holding us back today we will not advance, but be led into a state of stagnation and deadly apathy. If the spirit of these addresses is not to be wasted, and the fruits of the Educational Conference not to be neglected, we must adventurously apply new methods. We say, "Advance, Australia!" but if we are to fulfil this intention we require larger opportunities in which to express the progressive spirit that is in us.

There is a natural conservatism that tends to bind us to what we already have, but this can scarcely promote progressive ideas. On the other hand, advancement is the surest way to security.

The modern thirst for knowledge, for the acquisition of mere facts, has led many to regard education as only a means to such an end. The right attitude is that education has not only to do with the acquiring of facts, but also with the training of the mind as an instrument to deal with any class of facts.

What we need is adventure for mind, adventure in education and in teaching which will encourage, by new problems faced, a questioning curiosity, leading inevitably to a real interest.

Matthew Arnold urges "the harmonious expansion of all the powers which make the beauty and worth of human nature." The question arises, How many of these powers does education help to expand? Surely relatively few, and these few at the expense of all the rest.

Modern education has become too utilitarian: it is regarded by most as a means to earn a living, whereas it should be thought of as a training for life. Therefore we note with pleasure the developments soon to take place in many schools.

D. G. L.

The third term is over again, and all that we meant to do in 1937 is either done or must wait, as so much always has to wait till next year.

Mr. McCubbin paid us two more visits this term to complete his course of Art lectures. We hope to have more next year, and are very grateful for Mr. McCubbin's work.

Congratulations to the masters who passed degree exams! They have all done very well. Mr. Mattingley had top place in Economics and History III. Mr. Dennis was third in Educational Psychology. Dr. Mayne had a credit in Economics and a pass in Statistics. Mr. Forsyth passed two subjects, thus completing his B.A. degree. While Mr. M. Close also passed in two subjects, and needs only one more subject to secure his degree.

The School was very pleased to learn that at its meeting on December 8 the Senate had elected the Headmaster a member of the Council of the University.

Among interesting addresses this term were those of Mr. Wale, of the United Sudan Mission, and Dr. E. Gault, who was on his way to do Medical Mission work in India. Professor Barker, from a Shanghai University, gave a very interesting address on the present position in China, and Rev. Watson, the new Toc H padre, spoke convincingly about Toc H work.

Great interest is being shown in the new building for woodwork at the back of the Gym. We hope this will be a very busy place next year.

The Prep. sports on November 6 were a great success. Congratulations to the winners!

The Bridge Party on October 23 was a fine effort. Over £45 went a long way towards paying for the new epidiascope. Many thanks to all the leaders who helped so splendidly.

Dr. Mayne, Mr. J. Smith, and Mr. Forsyth are leaving us this term. We wish them all that is good for their future, and shall miss them very much. To Mr. Luke, who is to be married in January, the whole School wishes all happiness for the years that lie ahead.

Rev. N. E. Lade, the new Chairman of the League of Nations' Union, gave a very good address on Armistice Day. We wish him all success with this important work.

Mr. R. R. P. Barbour, Student Adviser at the University, spoke very well to boys who may be going up to the University next year. He laid sound emphasis on the difficulties of adjusting oneself to new conditions and of choosing a course that will be useful later on in life.

A very interesting ceremony was held on Friday, November 5, the seventieth anniversary of the laying of the foundation stone of the School. The Chaplain, Rev. A. B. Lloyd, gave a very eloquent address, and the President, Rev. E. M. Ingamells, conducted the service with dignity. There was a very good attendance of Old Boys' Committee, School Council, and early old scholars. Some found it hard to leave the afternoon tea tables when once they had begun talking of old days.

We have received two interesting presents. Mr. F. Johnson, of Charters Towers, North Queensland, sent back a prize which he had won. It was presented at the end of the first term of the School's existence in June, 1869. It is now in the Memorial Library. Mr. Joseph Marychurch Jenkins, who was a master 1881-1886, has lately carved the School badge in jarrah. He is nearly 80 years old, and lives in West Australia. The carving has been made the back panel in a new reading desk in the Assembly Hall. We are grateful for these gifts, and deeply appreciate the feelings that prompt the giving.

On the last Tuesday a good number of the Old Scholars' Committee attended assembly. Dr. Trott, the new President, put the claims of the Association very clearly before the School. We hope that every boy who leaves will join the Association, and so remain part of the School.

Mr. W. R. Bayly, B.A., B.Sc., late Headmaster of Prince Alfred College, passed away on November 9. Every Prince Alfred Boy, whether old or very young, has lost a real friend. Many will remember him as a great Headmaster, and all can think of him as one who loved this School and served it with the full power of his vigorous body, mind and soul.

J. O. CARTLEDGE

Winner of Government Bursary and Dux of the School

Speech Night

As the Adelaide Town Hall was not available this year we held speech night at the Norwood Town Hall. The hall and galleries were filled with an enthusiastic body of parents, friends and supporters of the School. Owing to fears of an epidemic of infantile paralysis, the carols prepared by the School and songs from the Prep. boys were omitted from the programme. The Prep. elocution class, however, under the direction of Mr. J. Anderson, were heard in several pieces, and gave a good account of themselves.

The President of the Methodist Conference, Rev. E. M. Ingamells, B.A., presided, and extended a cordial welcome to His Excellency the Lieutenant Governor, Sir George Murray, who had kindly consented to distribute the prizes. His Excellency, in congratulating the School on the completion of another successful year, recalled that he had known all the Prince Alfred Headmasters from Mr. Hartley onwards. He had watched with interest the growth of the School, and had some knowledge of the kind of young man it was turning out. At the conclusion of His Excellency's remarks the School rose and cheered him; and then Dr. A. G. Trott, president of the Old Collegians' Association moved a vote of thanks, which was carried with acclamation. As Chancellor of the University, Sir George had already had a busy afternoon at the Commemoration ceremony, and the School felt honoured that this distinguished son of our rival school should be willing and able to attend our closing function for 1937.

THE HEAD'S REPORT

Your Excellency, Mr. President, Members of the Council and Committee, Ladies and Gentlemen, I have the pleasure and the honour of presenting to you the report on the working of the School for the year 1937. May I say that this Speech Day is unique, as it is the first time for many years that it has taken place away from the Adelaide Town Hall.

The year that closes today has been one of sound work and progress. In

numbers we have had the biggest school since 1929, and the boarding school has been the biggest since 1927. These are very satisfactory figures, and we are hoping that with the good seasons we shall share in the general prosperity in the coming years.

There are several matters of which I shall have to speak tonight that are not usually in my report, and as I do not want it to be unnecessarily long, I shall, with your permission, say less than usual about some matters. In the Public Examinations of 1936 we did well. In the Leaving Honours, out of an unusually small number of candidates we had four certificates; in the Leaving we had 21 certificates—a very good result with some excellent places; and in the Intermediate we had 51 certificates with a great many very good places, and four out of the 16 Intermediate exhibitions given.

May I again urge all parents to regard steady work done in school as the best part of their boys' education, and not to lay all the stress on success in the outside exams.? Judged in this way the School has done well. In very few cases can we feel that boys are not making the best of their abilities and opportunities.

VISIT OF HIS EXCELLENCY

On June 29th we had the honour of a visit from His Excellency Sir Winston Dugan. His Excellency saw the School at work, and was very interested in all he saw. Before leaving he addressed the assembled School and gave us all some very sound advice. It was a great inspiration to have His Excellency among us and to feel that he was so interested in all that we are doing.

Among the things that pleased His Excellency most was the new Prep. building. This was completed, or nearly so, in time for the beginning of school, and has been the outstanding feature of the year, for it is the biggest addition to the College property since the opening of the Memorial Block in 1924. It would be difficult to exaggerate the gratitude which we all feel to the Council for the fine equipment they have given us, and

to the architects, Messrs. Claridge and Cowell, for the delightful manner in which they have carried out the intention of the Council.

THE PREPARATORY SCHOOL

The new Prep. has not only added to the architectural beauties of our buildings, but has made it possible to do much more satisfactory work. Here I would like to pay a tribute to the fine work being done by Mr. N. H. Mitchell, the master in charge of the Prep. Mr. Mitchell has brought to his work a great love of small boys, a sound understanding of their outlook, expert knowledge of his craft as a teacher, and, best of all, ideas about modern education. The new buildings are giving him the opportunity to carry out some of his ideas much more completely than he could before. Art work has begun, and is to be carried much further next year; and project work in History and Geography will make these subjects much more alive. Under Mr. Norman Chinner very good work has been done in musical appreciation, and the lessons given by Mr. and Mrs. James Anderson on the art of speech are doing much to improve the standard of speaking. A very successful effort, in which many of you took part, raised funds to buy a new epidiascope. This has enabled us to have one at the Prep. as well as at the big School, and this instrument will be very valuable in the Prep. School work.

Another development of our Prep. School work is the provision of a Reference Library for that part of the School. In this we have been greatly helped by Mrs. P. T. Martin, of the Semaphore, and her committee of ladies, who, beginning as one of the stall committees for the Old Boys' Centenary Fete, have continued to work enthusiastically for the Prep., and have raised the money to furnish this library. We are very grateful to these ladies for their help, but now we want the books, good books of reference, to fill the shelves. We have many friends and helpers. The Prince Alfred Collegians' Masonic Lodge has just donated £20 to help supply these books, and Mr. and Mrs. Freak have most generously given to the Library all the books of their late son Eric. This is a real gift of love, for

which it is hard adequately to express our thanks. I shall be very grateful if some of you feel moved to help in this way.

Among the new things at the Prep. is the Colas tennis court for the use of the boys. This has been in use almost continuously since it was completed, and will be one of increasing benefit to the School. Dr. A. W. Welch has helped us by presenting a very fine cup for the inter-House competition. Points are counted for school work, games, and every side of school life. The rivalry has been very keen, and the cup will be presented for the first time tonight. Dr. Welch has always been a good friend to the Prep., and we are very grateful for this further proof of his interest.

The most remarkable event of the educational life of our State this year was the big conference held here in September by the New Education Fellowship. The theme of the Conference was "Education for Life," and the insistence of the speakers that life includes all our activities and not merely the intellectual is a very healthy sign. The whole community was stirred as seldom before, and our new interests in the Prep. have had their inspiration in the same educational ideals that moved the Conference speakers.

INTRODUCTION OF WOODWORK

Next year we are widening the range of our work both in Prep. and Big School by teaching manual work. For the present that will include woodwork only, but we hope later to embrace metal work and other crafts as well. The aim of this instruction is not merely the really practical one of teaching boys to make things and use tools, but is a definite part of our desire to make our school activities cover all sides of a boy's life and interests. It is no secret that we have boys who do not find easy many of the things we try to teach them. In some cases such boys become despondent and feel that they are failures in life because of this inability to learn. I am sure that many of these boys can do good work with their hands, and the creative power so evoked will give them a feeling of success, and so perhaps send them back with a renewed or re-created interest to some of their more intellectual studies. I hope that many of you will allow your boys to take up this

work either as part of their school course or as a hobby or recreation. I want to see Prince Alfred before long equipped for several kinds of craft work, and for the teaching of the appreciation and practice of Art. This all means expense, and we want your help. May I here say how deep is our gratitude to Mr. A. A. L. Rowley. The fine stone room in which we are to do woodwork next year is being built at Mr. Rowley's expense. This is a very practical and delightful way in which Mr. Rowley is showing the interest and affection he has for his old School, and we are very grateful. But perhaps the best use of a good deed is that it provokes emulation. I hope some more of our old boys and friends will feel moved to rival Mr. Rowley and help us to equip ourselves for the teaching of a wide range of this work, which I am sure is to play so large a part in education in years to come. One very practical use we hope to make of this equipment is to enable the boys to make for themselves some of the apparatus used in science lessons.

During the middle term Mr. Louis McCubbin, Director of the State Art Gallery, gave to the VI Forms a series of lectures on Art and its history and development. I am sure the boys learned much that will help them to have an increased understanding and appreciation of pictures. I know Mr. McCubbin has enjoyed his visits to us, and I want him to know how very sincerely grateful we are to him for this help and all the work preparing these lectures must have entailed.

GIFTS TO THE SCHOOL

In addition to Mr. Rowley's fine gift we have had several others this year. Mr. A. E. Hamilton, an old boy of the 'eighties, has made available the money which has enabled the Council to give another entrance scholarship called the A. E. Hamilton. This is a very fine way indeed in which to help the School, and at the same time help some boy to get an advantage in education that circumstances might otherwise make impossible. We are very grateful to Mr. Hamilton for this gift, and the help it gives to the School. Mr. H. E. Hoad has presented an Honour Board for the College Dining Hall, on which is to be recorded each

year the name of the head of the boarding school. The recording of these names in this way was Mr. Hoad's own idea. We are very grateful for the gift, and for constant thoughtfulness for the School which his suggestion showed. Tonight a trophy is being given by Mr. B. K. Marshman for success in rowing among the junior crews, and Mr. J. C. Williams is giving a silver oar for the seniors. To both of these gentlemen we are deeply grateful, and I am sure these gifts will stimulate the interest in the rowing. Mr. A. E. J. Klose, of our own staff, has made it a rule to give a cup when one of our boys wins top place in the State in a Chemistry exam. This was achieved last year in the Intermediate by D. L. Anderson, and the cup will be given tonight. The School is very grateful to Mr. Klose for his help in the work in which he is so interested.

You have heard the Captain of the School's report on the games, and can realise that that side of our life is in a good condition. I would like to emphasise the good work being done by our boys in rowing. Under Mr. McLean they have, during the last few years, advanced from strength to strength, and have achieved some notable successes against senior men's crews. This is very satisfactory when we remember that ten years ago we had no rowing in the School at all. There are many activities in the School, all giving to some boys a chance of developing powers that might be untouched by the work of the classroom. Thanks to Mr. Mattingley, the Historical Society has been resurrected, and has had a very useful year; the Debating Society has worked well; the Hobbies Club has had a satisfactory session; and the Scouts have had a good year under Mr. Maynard Close. Mr. A. E. J. Klose has done excellent work among the films. We have our own movie camera and projector, and take our own films of school functions and show a great many valuable educational films. A good deal of this work is done by boys, who, under Mr. Klose's direction, acquire a considerable degree of skill as operators. The Cadet Corps, under Captain W. L. Davies, has had a very good year. The uniform of the Cadets will be further smartened next year by the addition of a hat badge em-

bodying the School crest. I am still hoping that more of you will encourage your boys to join the Corps and so help our Government in its attempt to strengthen its forces for defence and peace.

PROJECTED CHANGES FOR 1938

Another projected change for 1938 is that boys in the big School are to wear uniform clothing. For many years we have had the Prep. boys all dressed alike, but boys in the big School have worn what their spirits moved them to wear, and truly Solomon in all his glory was as nothing compared with some of these. You have all had information about the uniform, and I do hope that parents will support us in this change, which will, I am sure, greatly improve the appearance of the School as a whole.

There are some changes to be made in the staff for 1938. Dr. R. J. B. Mayne, who joined us in March, is not continuing as our development of manual work has necessitated a change. This work is to be done by Mr. G. W. Mansfield, who has been doing this work in the Education Department, and comes to us with the highest recommendations. Mr. J. Smith has been appointed Senior Science Master at Scotch College, and satisfactory arrangements are being made to find his successor. In the Prep. we are losing Mr. R. S. Forsyth, who is to take a position on the staff of Brisbane Boys' College at Toowong. His successor will be Mr. L. A. Hickman, B.A., from Tasmania. We regret very much the removal of these three gentlemen. They have given unsparingly of their best, and we wish them all God speed and all success in the years ahead, and hope that they will look back on their days among us with pleasure, as we do with gratitude.

The health of the boarding school has been remarkably good; we have seldom had a year in which the sickroom has been so little used. We owe much of this to Dr. Davey, the School medical officer, and to the Matron. Their skilful and assiduous care of the small ailments is, I am sure, a big factor in avoiding greater troubles.

The religious life of the School owes much to the work of the Chaplain, Rev. A. B. Lloyd. For five years now Mr. Lloyd has served us faithfully in this

capacity, and has shown a devotion to his duties quite in keeping with his love and loyalty to his old School. We are soon to lose him, for not only is he to move to some other Church, but this time he will, in all probability, go to Perth, there to take charge of the big Central Church. We rejoice at the high compliment that this appointment pays to Mr. Lloyd's work and attainments, but with many more in South Australia we are sorry that we are to lose a friend, and that the State, at least for some years, is to lose the services of so fine a man and so able a preacher.

DEATH OF MR. W. R. BAYLY

From time to time in these annual reports I have had to speak of losses the School has suffered by the passing away of one or another of its stalwart friends. Seldom has Prince Alfred College suffered a greater loss than that incurred last month by the death of Mr. W. R. Bayly, B.A., B.Sc., the late Headmaster of this School. To say that we have lost a great friend and a fine man is something wholly inadequate. William Reynolds Bayly is one of those men of whom Prince Alfred has been fortunate enough to have had a good number—men who in a very real sense have given their lives to the service of the School. He began as a boy in the College in 1880, and after matriculating began his life's work as a junior master under the late Frederic Chapple in 1883. He did excellent work at the University, gaining a degree in Arts and one in Science. In the world of sport he was famous as an oarsman and stroke of the University crew. In 1900 he became second master of Prince Alfred, still under Mr. Chapple. In 1910 he was appointed Headmaster of Geelong College, and served there for five years, returning to Prince Alfred as Headmaster in 1915. From then till his recent death he remained in the service of the School that he loved so well. It is true he retired full of honours in 1929, but no one knows better than I, his successor, that no call the old School has made on his time and energy was ever disregarded, and that he remained its faithful friend and devoted servant to the very end of his days. This is not the place to enlarge on Mr. Bayly's character and attainments, but it would

be unfitting that we, who as a school and as individuals, owe so much to him, should fail to acknowledge that debt. He guided the School through some very difficult days in the war years; he developed its grounds and added to its buildings in very material ways; he was a wise administrator, a born organiser, a masterly teacher, an orator of no mean standing and he gladly gave this great gift to the service of his School; a man whose unbending uprightness of character has had an inspiring effect upon many generations of boys; a man whose life was clear of all that was small and mean; a great Christian whose single-minded devotion to his religion has undoubtedly drawn many boys and men towards the same faith; he will live in the memories of thousands of old boys and others as a great Headmaster. There is something fine about the school which can produce such a son as our late Headmaster, and Prince Alfred College has no need to fear the future if, as the years go by, it can produce men who have even half of his fineness of character and determination to do the right and who have the same devoted loyalty to the School as he displayed so often and so long. He passed away in the midst of life and action. The last word I had from him was a letter written on a few days before his death, in which he was planning to help me in some little service for the School. I am sure he went as he would have wished to go. It was a great life greatly lived, and lived in pursuit of a great ideal.

May I close this report with a word of sincere thanks to the many people who have helped to make this year a happy and successful one for our School. To the Council, and especially its officers, I have a deep debt of gratitude for friendly advice and ready help on all occasions. To the Old Boys, both as an Association and as individuals, I would give my sincerest thanks for their continued support to the School in so many ways. To the masters, one and all, for ungrudging service and ready loyalty in all that is for the good of the School. The prefects, both in the School and in the House, have given the help that only they can give. To the Matron and her staff; to many others; and finally to you, ladies and gentlemen, the parents and friends of the

School, who have done so much to help and encourage us, I feel I must express my thanks and gratitude for the success of the year's work.

GAMES REPORT, 1937

This year has been one of our least successful years in the realm of sport for some time, for though we won the Tennis, The Head of the River Races, and the Athletics, we lost the Football for the first time since 1932, and the Cricket for the first time since 1929.

The first of the Intercollegiate contests, the Tennis, was won by the comfortable margin of 10 rubbers to 5, although the play was more even than the score indicates. This was the ninth successive win against Saints, sufficient tribute in itself to the excellence of Mr. Luke's coaching. Mr. Dennis also must be thanked for his efforts in coaching Intercollegiate players of the future. W. A. Mates, for the second year in succession, won the State School-boys' Championship, making the sixth successive win for a Princes boy in this event.

While the tennis was in progress, the Eight was unable to settle down to regular training, but despite this and the extra handicap imposed by sickness, Mr. McLean was able to turn out a crew capable of winning both the Blackmore and Gosse Shields, and of creating a new record for the event of 2 minutes 59½ seconds. The crew are to be congratulated on this effort, and on subsequent appearances this year, in which they have won several events against men's crews. Of the other crews, the Under 15 and Under 16 won the finals of their events, and the Third Crew also did well. Besides Mr. McLean, Messrs. Mattingley and Forrestal, and Dr. Mayne must be thanked for the high standard to which they have brought our rowing. During the last term a successful Forms Regatta was held.

The Athletics contest resulted in a win for Princes by 15 points. Twelve of the sixteen events were won by Princes boys, and Craven especially must be congratulated on his magnificent effort in breaking two records in winning four events and dead-heating in his fifth. Frost, Stain and Tregoning also set up new records. Mr. Steele earned the boys' heartfelt thanks for the interest he took in the Athletics.

At the School Sports a very successful programme was carried out, Craven winning the School Cup easily. The prizes were presented by Mrs. Woodhouse Crompton, whom we thank heartily.

Yet another event in the first term was the swimming, which, thanks to Mr. Mattingley's excellent organisation, was a distinct success.

During the middle term football occupied our attention. Injuries handicapped the team throughout the season, yet we won nine of our

twelve matches, but amongst our losses was the Intercollegiate match against St. Peters. Messrs. Ackland and J. E. Smith did much good work with a team that did not perform as well as some of our recent teams. Trophies were awarded to F. C. Bennett and K. I. Friebe. The intended visit of a Wesley College eighteen had to be abandoned because of the epidemic of infantile paralysis in Victoria, much to the disappointment of the boys.

The junior teams were very successful this season, and thanks are due to Messrs. C. R. Davies, R. T. Smith, M. D. Close, G. M. Potts and R. S. Forsyth for their efforts.

Once again the Under 14 side was undefeated, as was the Under 15.

The cricket team, after performing very well throughout the season, failed badly against Saints to lose by eight wickets. Only five batsmen were able to reach double figures in our two innings, and the twelve wickets that Saints lost were taken by three bowlers.

Saint Peters must be congratulated on the way they turned the tables.

Despite the defeat by Saints our side still remains at the top of the Adelaide Turf Association, and this is a fitting tribute to the skill of the coach, Mr. C. R. Davies, who gives endless time to coaching promising players. The junior teams were on the whole successful, and should provide good material for future first elevens.

A successful boxing tournament was held on Tuesday last, Black winning the School championship.

A large number of entrants in the gymnastic contest showed the improving standard of gymnastics, Stain winning rather easily. The standard reflects great credit on Mr. C. E. Bennett, the instructor. Merit badges were awarded to Hand, Reddin, Hodge and Solomon, making a total of six held at present in the School.

The thanks of the School are due to the masters, who give up their time to manage the various games, and also to the Old Scholars, who so wholeheartedly support the School.

AWARDS AND PRIZES

PREPARATORY SCHOOL

Form I C—Dux, R. C. Brebner.

Form I B—Dux, G. M. Kneebone; 2, J. D. Haigh.

Form I A—Dux, D. L. Steele; 2, J. L. Cleland; 3, M. S. Cooper.

Form II B—Dux, D. M. Brebner; 2, J. B. West; 3, B. W. Manuel.

Form II A—Dux (presented by Messrs. Gillingham & Co. Ltd.), D. E. Dunn; 2, J. B. Ward; 3, D. A. Williamson; 4, R. W. Crompton.

Form III B—Dux ("Jack Glover" Prize), N. G. Peters; 2, S. D. Thomas; 3, B. B. Martin; 4, D. R. Johns; 5, F. R. Zeppel; 6, C. A. Welch.

Form III A—Dux (George C. Davies Memorial Prize), R. B. Potts; 2, J. P. Keeves; 3, K. V. Buick; 4, R. T. W. Reid; 5, G. W. Hassell; 6, J. W. L. Gurner; 7, B. M. Cheek; 8, P. McBride.

UPPER SCHOOL

Fourth Form (C)—Dux, R. J. Andrew; 2, J. R. Nicholls; 3, B. J. Kohler; 4, P. D. Penna; 5, G. S. Copping; 6, P. A. Dalwood.

Fourth Form (B)—Dux (John W. Blacket Memorial Prize)—R. W. Peters; 2, G. F. Chapman, 3, R. R. Barlow; 4, E. Chenoweth; 5, J. V. H. Padman; 6, D. L. Waxman. General Proficiency: J. G. Waterson, P. A. Drew.

Fourth Form (A)—Dux (F. B. Holland Memorial Prize), J. E. Dunn; 2, D. R. Anderson; 3, L. H. May; 4, D. B. Carter; 5, A. T. James; 6, I. H. Hobbs; 7, J. W. Crompton; 8, A. B. Cox. General Proficiency: E. C. Forsyth, D. N. Kirkman, B. E. Thompson, J. E. Wiltshire.

Fifth Form (D)—Dux, V. D. Scott; 2, M. R. Nicholls; 3, R. D. Pearson; 4, D. V. Sandow; 5, L. M. Jarvis; 6, P. M. Cotton; 7, K. E. Barton; 8, R. G. Downing; 9, D. H. Finch.

Fifth Form (C)—Dux (Keith Swann Memorial Prize), G. C. Luxton; 2, R. C. Kidman; 3, H. Frost; 4, J. M. Hancock; 5, P. R. Kitto; 6, J. L. Ball; 7, G. B. Black; 8, W. R. Matthews; 9, R. H. Baker. General Proficiency: C. J. Jacka.

Fifth Form (B)—Dux (presented by Messrs. Gillingham & Co. Ltd.), D. S. Plush; 2, R. S. Beckwith; 3, F. O. Hill; 4, G. D. Stokes; 5, E. J. Symons; 6, K. W. Flint; 7, D. M. Martin; 8, R. S. Fricker; 9, P. A. Dalwood.

Fifth Form (A)—Dux (Alan Johnson Memorial Prize), T. H. Allen; 2, H. G. Holland; 3, J. G. Bunday; 4, S. B. Martin; 5, G. H. Jones; 6, R. C. Walker; 7, M. Hughes; 8, B. Wibberley. General Proficiency: N. F. Denton.

Sixth Form (C)—Dux, W. R. Nicholls; 2, J. S. Tanner; 3, D. R. Downing; 4, W. W. Cabot; 5, G. C. Martin; 6, L. M. White.

Sixth Form (B)—Dux (presented by P. E. Johnstone, Esq.), A. E. Norman; 2, D. C. Reddin; 3, J. K. Marshman; 4, D. L. Anderson; 5, W. M. Potts; 6, D. F. Provis.

Sixth Form (A)—Dux (Jas. and Geoff. Robin Memorial Prize), B. A. Riggs; 2, V. L. Hawke; 3, J. A. Nelson; 4, J. M. Blight; 5, J. M. Cowley; 6, C. E. Southcott; 7, R. H. Turner. General Proficiency: J. H. Furness.

Upper Sixth Form—Dux of College (Holder Memorial Prize), J. O. Cartledge; 2, R. G. Hughes; 3, D. J. Davies; 4, T. V. Holland; 5, D. G. Lloyd; 6, J. H. Nicholls. General Proficiency: R. E. Gersch, K. H. Sampson.

SPECIAL PRIZES AND SCHOLARSHIPS

PREPARATORY SCHOOL

- Games Prize—D. L. Davies.
 Gymnastics—Forms IIB and IIA, D. E. Dunn; Form IIIB, W. R. Ferguson; Form IIIA, D. L. Davies.
 Musical Appreciation (presented by Norman Chinner, Esq.), N. G. Peters.
 Scripture—Form IIB, D. M. Brebner; Form IIA, D. E. Dunn; Form IIIB, C. A. Welch; Form IIIA, J. P. Keeves.
 Elocution (presented by Mrs. Jas Anderson)—J. P. Keeves.
 "Mrs. J. R. Robertson" Prizes—Form IIIB, N. G. Peters; Form IIIA, J. P. Keeves.
 The Norman Chinner Piano Scholarship—B. B. Martin.
 The G. S. Cotton Scholarship—N. G. Peters.
 The James Ashton Scholarship—J. P. Keeves.
 The J. R. Robertson Scholarship—R. B. Potts.
 House Competition for Work and Games—The A. W. Welch Cup: Won by Robertson House.

UPPER SCHOOL

- Athletics—Merit Badges: R. T. Hand, M. Solomon, J. Hodge, D. C. Reddin. Intercollegiate Sports Medals: R. B. Craven (5), H. Frost, M. W. Stain (3); J. Tregoning, P. A. Dalwood, K. T. Sargent, M. Solomon. College Championship: R. B. Craven.
 Football Prizes—Best Player for Season (presented by Old Collegians' Association), F. C. Bennett. Best Player for P.A.C. in Intercollegiate Match (presented by M. S. Joyner, Esq.), F. C. Bennett. For consistently good play at forward for the season (presented by W. G. Taylor, Esq.), K. I. Friebe.
 Cricket Prizes—First Eleven Batting, J. Tregoning. First Eleven Bowling, F. C. Bennett. Highest Score in Intercollegiate Match (presented by C. R. Davies, Esq.), J. Tregoning. Bowling in Intercollegiate Match (presented by Old Collegians' Association), F. C. Bennett. Fielding in Intercollegiate Match (presented by Old Collegians' Association), R. E. Gersch.
 Rowing—Junior Trophy (presented by B. K. Marshman, Esq.), R. E. Gryst. Senior Trophy (presented by J. C. Williams, Esq.), R. A. Wegener.
 Gymnastics — Form Medals: IVC, R. J. Andrew; IVB, M. L. Ramsey; IVA, J. E. Dunn; VD, S. G. Hiatt; VC, G. B. Black; VB, C. L. Whitrow; VA, M. C. Bartholomaeus; VIC, T. F. Gibson; VIB, B. G. Clarke; VIA, J. S. Tanner; VIU, D. G. Lloyd. Champion Gymnast of the School: Cup (presented by C. E. Bennett, Esq.), M. W. Stain.
 Boxing—Division IV (Cup, presented by M. Schlank, Esq.), F. B. Furniss. Division III, (Cup, presented by P. A. McBride, Esq., M.H.R.), W. G. Dawkins. Division II (Cup, presented by Dr. M. Erichsen), I. F. Comley. Division I (Cup, presented by the Headmaster), G. B. Black.
 Best Contributions to the "Chronicle"—Presented by the Headmaster, J. M. Blight. Presented by W. L. Davies, Esq., K. I. Cole.
 Debating Society Prizes (presented by W. D. Taylor, Esq.)—Best Speaker, R. A. Wegener. Most Improved Speaker, J. C. Norman.
 Scripture—Form Prizes: IVC, R. J. Andrew; IVB, J. V. H. Padman; IVA, J. W. Crompton; VD, S. G. Hiatt; VC, R. K. Richardson; VB, M. B. Brown; VA, H. W. Linn; VIC, C. L. Wilson; VIB, J. K. Marshman; VIA, L. G. Rowe; VIU, M. W. Stain.
 Recitation Prize (presented by Rigby Ltd.)—K. I. Cole.
 Neatness Prizes—Junior, L. H. May; Senior, W. H. Cadd.
 Arithmetic Prizes—Fourth Forms, L. H. May; Fifth Forms, P. G. Martin; Sixth Forms (presented by S.A. Cricketing Association), D. R. Downing.
 Chemistry Prize (presented by A. E. J. Klose, Esq.)—D. L. Anderson.
 H. J. Priest Memorial Prize for Mathematics—J. O. Cartledge.
 James Clarkson Sunter Memorial Prize for Languages—T. V. Holland.
 Alfred Muecke Prize for Good Work in Intermediate Forms—
 Harold Fisher Prize for English Literature—J. O. Cartledge.
 George Thorburn Melrose Prize for Shakespeare—D. G. Lloyd.
 Smith Prizes for History—Junior, R. K. Richardson; Senior, D. R. Downing.
 Cotton Medal for Applied Chemistry—J. O. Cartledge.
 Wesley Lathlean Memorial Prize—J. E. Dunn.
 Frank L. Hunter Memorial Prize—J. H. Nicholls.
 William ("Bill") Jeffries Memorial Prize—J. Hodge.
 Keith Swann Memorial Medal—F. C. Bennett.
 Head of Boarding School—J. H. Nicholls.
 Captain of the School—F. C. Bennett.

SCHOLARSHIPS

- Fourth Form—(a) Grey, J. E. Dunn; (b) Elder Foundation (under 15), I. H. Hobbs.
- Fifth Commercial Form—(a) George Wills, R. C. Kidman.
- Fifth University Form—(a) Clarkson, ———; (b) Elder Foundation (under 16), ———.
- Sixth Commercial Form—(a) Arnold Davey, D. R. Downing.
- Sixth University Form—(a) Churchward, B. A. Riggs; (b) Craven, J. A. Nelson; (c) Robb, A. E. Norman; (d) Gething, A. R. Weetman.
- Upper Sixth Form—(a) Malpas, J. H. Nicholls; (b) Longbottom, R. G. Hughes; (c) Colton, T. V. Holland; (d) Old Collegians', D. G. Lloyd; (e) E. B. Colton, D. J. Davies; (f) Sir Thomas Elder, R. A. Wegener.

SCHOLARSHIPS

(won and held during 1937):

- Entrance Scholarships—(a) Elder, R. C. Walker; (b) Grasby, J. M. Cowley; (c) Fiddian, A. T. James.
- Epworth Board Scholarships—(a) Chinner, N. Close; (b) Ingamells, R. A. Giddings; (c) Waterhouse, J. C. Jennison.
- Fifth Commercial Form—(a) George Wills, W. W. Cabot.
- Fifth University Form—(a) Clarkson, R. H. Turner; (b) Elder Foundation (under 16), A. R. Fisher.
- Sixth Commercial Form—(a) Arnold Davey, R. E. Gersch.
- Sixth University Form—(a) Churchward, A. F. Gray; (b) Craven, F. C. Fawcett; (c) Robb, D. T. Martin.
- Upper Sixth Form—(a) Malpas, J. O. Cartledge; (b) Longbottom, K. M. Gibb; (c) Colton, R. L. Cotton; (d) Old Collegians', C. M. Gurner; (e) E. B. Colton, G. R. Cowley; (f) John Dunn, A. G. Rowe.
- Alfred Muecke Prize for Good Work in Intermediate Forms—C. E. Southcott.

MARKET DAY IN ROME

Valete

J. O. Cartledge (1933-1937)

School Prefect, 1937; Library Committee, 1937; Robb Scholarship, 1935; Malpas Scholarship, 1936; H. J. Priest Prize for Mathematics, 1937; Cotton Medal, 1937; Intermediate, 1934; Leaving, 1935; Leaving Honours, 1936-37; Government Bursary, 1937; Dux of School, 1937; Intercollegiate Football, 1937; Cadet Corps, 1934-37; Cadet Lieutenant, 1937; Earl Roberts Rifle Team, 1936-37.

D. G. Lloyd (1928-1937)

School Prefect, 1937; Christian Union Committee, 1936-37 (President, 1937); Magazine Committee, 1937 (Editor, 1937); Intermediate, 1934; Government Exhibition, 1934; Leaving, 1935; Melrose Prize for Shakespeare, 1937; Intercollegiate Athletics, 1937; Intercollegiate Football, 1937.

R. A. Wegener (1934-1937)

House Prefect, 1936; School Prefect, 1937; Christian Union Committee, 1936-37; Vice-President Christian Union, 1937; Magazine Committee, 1937; Entrance Scholarship, 1934; Intermediate, 1934; Government Exhibition, 1934; Leaving, 1935; Leaving Honours, 1937; Intercollegiate Rowing, 1937; Cadet Corps, 1934-37; Corporal, 1937.

D. J. Davies (1932-1937)

School Prefect, 1937; Library Committee, 1936-37; Head Librarian, 1937; Magazine Committee, 1937; Intermediate, 1933-34; Government Exhibition, 1934; Leaving, 1935; Leaving Honours, 1937; Intercollegiate Athletics, 1937; Cadet Corps, 1935-37; Cadet Lieutenant, 1937; Earl Roberts Trophy Rifle Team, 1936-37.

R. B. Craven (1927-1937)

School Prefect, 1937; Debating Society Committee, 1936-37; Sports Committee, 1937; Intercollegiate Football, 1936-37; Intercollegiate Athletics, 1933-37 (Vice-Captain, 1936-37); Cadets, 1934-37; Intermediate, 1935; Leaving, 1936; College Cup, 1936-37.

J. Tregoning (1931-1937)

School Prefect, 1936-37; Intermediate, 1934; Leaving, 1937; Games Committee, 1935-36-37; Intercollegiate Cricket, 1934-35-36-37 (Captain, 1937); Intercollegiate Football, 1934-35-36-37 (Vice-Captain, 1937); Athletics, 1934-35-36-37 (Captain, 1937); Tennis, 1935-36-37 (Captain, 1937); "Bill" Jeffries Memorial Prize, 1936.

F. C. Bennett (1933-1937)

School Prefect, 1936-37; School Captain, 1937; Intermediate, 1934; Leaving, 1936; Craven Scholarship, 1936; Games Committee, 1936-37; Intercollegiate Cricket, 1934-35-36-37 (Captain, 1936); Intercollegiate Football, 1934-35-36-37 (Captain, 1937); Athletics, 1937.

J. Hodge (1932-1937)

School Prefect, 1936-37; Intermediate, 1934; Magazine Committee, 1937; Games Committee, 1937; Debating Society Committee, 1936-37; Intercollegiate Football, 1935-36-37; Athletics, 1936-37; Intercollegiate Cricket, 1937; "Bill" Jeffries Memorial Prize, 1937.

R. E. Gersch (1934-1937)

School Prefect, 1937; House Prefect, 1937; "Chronicle" Committee, 1937; Debating Society Committee, 1937; Historical Society Committee, 1937; Arnold Davey Scholarship, 1936; Intermediate, 1935; Leaving, 1936; Intercollegiate Cricket, 1937.

J. H. Nicholls (1936-1937)

School Prefect, 1937; House Prefect, 1937; Head of House, 1937; Sports Committee, 1937; Library Committee, 1937; Debating Society Committee, 1937; Leaving, 1936; Leaving Honours, 1937; Frank Hunter Memorial Prize, 1937; Intercollegiate Athletics, 1936-37; Intercollegiate Football, 1936-37.

J. C. Norman (1934-37)

House Prefect, 1937; Concert Committee, 1937; Swimming Committee, 1937; Debating Society Committee, 1937; Christian Union Committee, 1937; Intermediate, 1935; Leaving, 1936; Intercollegiate Football, 1937.

D. C. Reddin (1934-37)

Epworth Scholarship, 1934; Intermediate, 1935; Leaving, 1937; Intercollegiate Cricket, 1936-37; Athletics, 1935-36-37; Intercollegiate Football, 1937.

A. E. Pearce (1934-1937)

Sports Committee, 1937; Intermediate, 1935; Leaving, 1936; Clarkson Scholarship, 1935; Intercollegiate Cricket, 1935-36-37; Intercollegiate Football, 1937.

T. P. Dearlove (1934-1937)

House Prefect, 1937; Intermediate, 1935; Leaving, 1936.

J. N. Bennett (1934-1937)

House Prefect, 1937; Historical Society (Secretary), 1937; Swimming Sports Committee, 1936; Intercollegiate Athletics, 1937; Intercollegiate Football, 1937; Intermediate, 1935; Leaving, 1937.

R. T. Hand (1931-1932 and 1935-1937)

Intermediate, 1934; Intercollegiate Tennis, 1935-37; Intercollegiate Football, 1937; Intercollegiate Rowing, 1937.

W. S. Shephard (1935-1937)

School Prefect, 1937; Games Committee, 1937; Intercollegiate Tennis, 1937; Leaving, 1937.

D. T. Martin (1935-1937)

Leaving, 1936; Robb Scholarship, 1936; Cadet Corps, 1935-37; Corporal, 1937.

Public Examinations, 1937

Cricket Notes

INTERCOLLEGIATE CRICKET

FIRST DAY—FRIDAY, DEC. 10

It was raining steadily at noon when the captains tossed. Dawson won the toss, and decided to give P.A.C. first use of the wicket, which was near the western side of the turf. At approximately 2.15 p.m. a further inspection of the wicket, which had no covering, was made, and it was immediately announced that play for the day was out of the question.

SECOND DAY—SATURDAY, DEC. 11

During the morning light rain fell, and conditions generally were unsuitable for cricket, the outfield being heavy and the pitch soft and sticky. An inspection of the pitch was made at 11.55 a.m., and play commenced at 12.25 p.m. in the presence of a small crowd.

Tregoning and Bennett opened for Princes to the bowling of Boucaut and Dale, both of whom seemed to find some difficulty in keeping their feet on the slippery turf. Tregoning took a single from Boucaut's second ball for a shot to third man, while Bennett scored from the last ball of the fast man's first over. Dale's second ball was on the leg side, and Tregoning snicked it. Chenoweth anticipated well and moved across quickly, but luckily for Princes failed to hold the catch. Boucaut's pace had now increased, and he was bowling at top speed. The first four of the match came when Tregoning lofted Dale to leg.

After each had bowled three overs, the opening bowlers were relieved by Brooks and Dunstan. The batsman were batting confidently and running well between the wickets, with the runs coming steadily. White replaced Dunstan, and his first over to Tregoning was a maiden. A few minutes before lunch Bennett brought up 50 in 55 minutes with a boundary from a square cut off White's bowling. At lunch the board read: Tregoning, 25; Bennett, 26; no wickets for 51.

After lunch the attendance increased considerably, and after a few minutes' play the first sundry, a leg bye, was posted. Soon after, Tregoning scored an

effortless six when he pulled a short-pitched ball from Brooks into the members' enclosure. Successive fours off Sawers, a slow left-hand spinner, brought up the Prince Alfred captain's half century in the good time of 90 minutes. Dawson brought Giles, a slow right-hander, into the attack at the other end, making him the seventh bowler to be used. Tregoning scored a boundary from Giles, and brought up the century in even time.

With the score at 108, Bennett was out to a nicely judged catch by White at square-leg, midway between the wicket and the boundary, from the bowling of Giles. Bennett had batted safely and attractively for his 45 runs, and with Tregoning had given the side an excellent start.

After Bennett's dismissal the rest of the side collapsed badly, and the last nine wickets fell to the bowling of Giles and Sawers for only thirty-three runs. Agars replaced Bennett and, after giving Cox an easy chance at short mid-on, which the fieldsman failed to accept, was smartly stumped by Chenoweth off Giles, 2—125—(5).

Pearce came in, and was dropped by Dunstan at cover off the second ball he received. The fieldsman threw himself full length but just failed to hold the chance. Tregoning's fine innings came to an end next ball. He got under one from Giles, and Dawson took the catch at mid-off. Tregoning had batted splendidly, and his 72 runs made in 125 minutes included six boundary shots and a six. At this stage Giles had taken 3 wickets for 18: 3—125—(72).

In his next over Sawers dismissed Pearce leg-before under the new rule: 4—125—(1). With Tregoning and Bennett gone, the scoring rate slackened appreciably, and Reddin and Gersch were content to play safely, but even so did not last long, Reddin falling to a catch by Giles from the bowling of Sawers. Hodge, who joined Gersch, was out almost immediately. He jumped out to Sawers, and was bowled. White threw himself full length in slips and took a

catch to dismiss Gersch from the bowling of Giles: 7—138—(3).

With successive balls, Sawers took the wickets of Friebe and Kitto in his next over: 9—138—0. After tea the last wicket fell when Giles caught Smith well low down off his own bowling, and the innings closed with the score at 142.

Sawers and Giles took the bowling honours, with 5 for 38 and 5 for 26, respectively, while Chenoweth's 'keeping was smart and impressive.

The Saint Peter's opening pair, White and Kidman, opened fairly quietly, with Bennett bowling a maiden to White, Smith being the other bowler. Kidman opened his account with a single to fine leg off Smith. In Bennett's third over, Kidman drove a ball hard and Bennett snapped up the catch: 1—11—(7). Tregoning replaced Smith at the southern end, and the first four of the innings came when Dawson, who took Kidman's place, mishit Bennett to leg.

Both batsmen were playing attractive, forceful cricket, with pretty shots all round the wicket, but especially to fine leg. Pearce and Kitto were brought on, and Dawson brought up 50 in 50 minutes. Shortly afterwards Agars missed stumping Dawson off Kitto. With Bartlett at the bowling crease, Dawson had another lucky escape, this time from being run out.

Bennett was again tried from the northern end, and was immediately successful, having White, who batted extremely well for his 38 runs, caught by Pearce. Two balls later the bowler skittled the off stump of Cox, the newcomer: 3—96—(0). At this stage Bennett had 3 for 14.

Dale and Dawson played out time, a shot by Dawson behind the wicket bringing up the century in ninety minutes. A few balls later the same player reached his half-century.

The day's play was full of incident, with the batsmen going for the runs under difficult conditions. One fault was that too many glaring mistakes were made in the fielding on both sides.

THIRD DAY—MONDAY, DEC. 13

Pearce opened the bowling from the river end to Dawson in perfect cricket weather, Bennett being the other bowler.

The wicket had rolled out well and was in good order. After off-driving Pearce to the fence, Dale survived a confident appeal for a run-out. A smart return from Tregoning broke the wicket, but the batsman just scrambled back in time. With the score at 125, Dawson was out to a magnificent left-hand catch by Smith off Bennett's bowling. The batsman off-drove the ball in the direction of cover, and Smith leaped high in the air to take the best catch of the match to date.

In his next over, Bennett dismissed Dunstan leg-before: 5—134—(6). At 139 Bennett, so far the only successful bowler, secured his sixth wicket at a cost of only 26 runs. Dale nicked an out-swinger, and Hodge snapped up the catch at second slip. Kitto replaced Bennett at the creases, and the batsmen continued to play bright cricket. It was noticeable that our fielding was infinitely better than on Saturday, lapses in the field being few.

Smith and Tregoning bowled unsuccessfully, and then Bartlett, bowling from the river end, obtained Giles' wicket when the batsman played a ball on: 7—191—(20). A boundary by Chenoweth off Tregoning brought up 200 in 170 minutes. A few minutes later the same batsman was dropped in slips off Pearce, who took his first wicket at a cost of 52 runs when Agars stumped Brooks. With the score at 210, Chenoweth failed to pick Pearce's wrong-'un, and was bowled for 9. Lunch was taken with the score at 212 for 9. In the second over after lunch, smart work in the field by Gersch saw Sawers run out at the bowler's end, and the innings closed at 223.

Our second innings began with the batsmen watching every ball closely. Dale, concentrating on the leg stump, kept an impeccable length, his first two overs being maidens. Boucaut was more erratic, 11 runs coming from his bowling while one was taken from Dale's. Play was interrupted for several minutes when a rising ball from Boucaut struck Tregoning in the body. Tregoning was bowled in Dale's next over, the bowler at this stage having 1 for 1 off four overs. White replaced Boucaut, and his second ball bowled Bennett: 2—17—(9). A few balls later Agars, attempting to hook White, played over the ball and was bowled.

In the first hour's play only 17 runs were added. Pearce and Reddin were obtaining runs steadily, when, off the last ball before tea, Pearce swung at a ball from Brooks and was bowled: 4—37—(17).

Soon after tea, Boucaut took his first wicket for the match, when Reddin went l.b.w. A rot threatened to develop, but a splendid fighting partnership by Gersch and Hodge added 60 before Brooks caught and bowled Gersch: 6—99—(39). The partnership would have been worth more but for poor running between the wickets by Hodge.

In the next over Hodge was bowled in attempting to force a shot off Dale. The century came up with a leg-bye. A few minutes before six o'clock, Friebe was caught behind off Boucaut, leaving Kitto and Bartlett to play out time.

With two wickets in hand we were only 29 runs ahead of Saints' first innings total—a forlorn prospect.

FOURTH DAY—TUESDAY, DEC. 14

Play was resumed in sunshine, although clouds were threatening. Dale and Boucaut opened the attack to Bartlett and Kitto, who were batting like veterans, with almost every stroke being applauded by P.A.C. supporters. A misunderstanding between the batsmen resulted in Bartlett being run out. Bartlett was often applauded for neat leg glances, and he batted very well, better, in fact, than his tally indicates.

Smith joined Kitto, and off-drove Boucaut to the fence, but was bowled next ball, leaving St. Peters 45 runs to get. The P.A.C. tail had at least wagged and, apart from the partnership by Gersch and Hodge, provided the most entertaining display of our second innings.

White and Kidman opened for Saints, and 8 runs came from Bennett's first over, Smith, the other bowler, being treated with much more respect. With the score at 10, a loud appeal by Bennett against Kidman, who stopped a straight one with his pads, was allowed. Norman came under notice at this stage for brilliant work in the field, he having taken the place of Friebe, who was suffering from an ankle injury.

Pearce replaced Bennett, and Dawson swung his first ball for four, but was

bowled next ball: 2—36—(19). Cox joined White, and it was now only a matter of waiting for the end. White drove Tregoning for a single to score the winning run, and Saints had won for the first time in eight years by a margin of eight wickets.

CRITIQUE

Agars, B. M.—Bats freely and attractively, on occasions hitting the ball very powerfully. Must not flick at balls outside his off stump. Has kept wickets fairly well.

Bennett, F. C.—Possesses many fine shots, and except for a tendency to flick at rising balls outside his off stump is a sound opening bat. As a bowler has improved beyond recognition, swinging the ball both ways, and occasionally turning one back sharply from the off.

Bartlett, D.—A fair all-rounder. His batting is solid, while his leg-spinners often cause opposing batsmen anxious moments.

Friebe, K. I.—Left-hander, capable of severely punishing anything loose, his favourite shot being the hook. Must improve his throwing-in when fielding.

Gersch, R. E.—A solid but rather slow bat, though on occasions he hits powerfully. A good field and reliable catch.

Hodge, J.—Bats well, hitting the ball hard. Must avoid making rash shots early in his innings. A very fine slip field.

Kitto, P. R.—When he finds his length is a match-winning leg-break bowler. Must avoid tossing his slower ball too high in the air. His batting is improving with practice.

Reddin, D. C.—A left-hander who is always looking for runs. Possesses a good hook shot and drive. Good outfield.

Pearce, A. E.—A good all-rounder. Has a fine repertoire of shots, with a penchant for the square cut. Rather too fond of going for runs before properly set. His bowling improved greatly towards the end of the season, when he struck a more consistent length. A fair field with a brilliant return to the wicket.

Smith, E. H.—A medium pace bowler, who bowls a consistent length, but lacks devil. Rather lax in the field.

Tregoning, J. (captain).—Strong, powerful batsman, who should develop into a good cricketer. On-side play sound and effective, anything loose being severely punished. Active in the field, setting a good example to his side.

THE SCHOOL v. PROSPECT

(Association Match)

October 2 and 9

Prospect, winning the toss, batted first on a slow wicket, and were able to put together 156 runs before their innings ended.

The bowling honours for the School were distributed between Bennett, Tregoning and Pearce.

The following Saturday afternoon brought forth, if not good, exciting cricket. With six down for 82 our hopes of victory were not bright, but a seventh

wicket partnership of 43 improved our position considerably. We finally were able to win by the narrow margin of seven runs.

Chief scores for the School were made by Friebe (46), Pearce (39), and Agars (31). It was very pleasing that two newcomers in Friebe and Gersch were able to make scores when the side was up against it.

THE SCHOOL v. PAYNEHAM

(Association Match)

October 16 and 23

This match was certainly a triumph for the School. Heavy rain during the week made play on Saturday afternoon doubtful, and it was no surprise when Payneham, on winning the toss, sent us in to bat.

A fine opening partnership by Tregoning and Bennett realized 176 runs, which was all the more praiseworthy considering the bad state of the wicket. Bennett, who batted forcibly, was unfortunate in missing his century by four runs. Bennett had scored much faster than his partner, Tregoning, who was later trapped l.b.w. for 105. Pearce, who followed Bennett, also batted attractively for 68 not out. With our score at 3 for 298 our innings was declared closed.

The next afternoon our bowlers excelled themselves, taking between them 20 wickets for 195 runs. Our outstanding bowler was Kitto, who for the match captured 7 wickets for 44 runs off 11 overs. This match was also exciting, for it was with the second to last ball of the day that Kitto dismissed Payneham's last batsman, thus giving us the full eight points.

SCHOOL v. EAST TORRENS COLTS

(Association Match)

October 30 and November 6

Batting first on a good wicket the School scored 9 for 266 at the end of the first day's play, when under the new rule we were forced to declare.

Tregoning again opened soundly, scoring his second century in succession. Pearce, when batting very well, was unfortunate in being run out for 42—this was the result of a brilliant piece of fielding. Of the other batsmen, Gersch (41), Hodge (25) and Friebe (21) also showed form.

East Torrens in their first innings were dismissed for the small total of 101. We were now in an excellent position for forcing home our second eight-pointer for the season, but bad fielding, which would

have disgraced an under age team, robbed us of any chance of this. Bennett, for his first few overs, was unplayable, finishing with the fine figures of 4 wickets for 18 runs off 11 overs.

THE SCHOOL v. WOODVILLE

November 13 and 20

The School batted first, and apart from Tregoning (49), Bennett (40) and Reddin (37), the batsmen failed to reveal anything like true form. The School's total reached only 156.

In the fielding there was a complete reversal of form, whereas on the previous Saturday seven catches were missed, in this match, to hit a ball in the air meant disaster for our opponents. In this respect, Hodge stood out, with three brilliant catches in the slips. Of our bowlers, Smith, a medium pace bowler and a newcomer to the team, was most successful, taking 4 for 24 off 8 overs. Pearce also showed pleasing return to form with his leg-spinners, taking 3 for 21 off 7 overs.

In our second innings we looked as if we would do much better, being 1 for 90: Tregoning being 53 n.o. and Agars 31 n.o. at stumps.

THE SCHOOL v. OLD SCHOLARS
Annual Match, December 6

As usual, the School were given first use of the wicket, and managed to put together 168 runs. The length of the grass on the Oval for this match definitely made things much harder for the batsmen to force boundary shots.

The opening pair, Tregoning and Bennett, were soon separated with the score at 11, when Bennett went l.b.w. to Williams, the State fast bowler. Of our batsmen, Tregoning, 55 (retired); Pearce, 21; Gersch, 22 (retired); and Hodge, 17 (retired), were the chief scorers.

Bennett, with 4 for 50 was our best bowler, while Pearce captured 2 for 31. Our fielding in this match was not up to standard.

Thanks to Harry Bennett, 32; Meyer, 53 (retired); and Graham Williams, 71 (retired), our total was soon passed. R. G. Williams again treated us to some hard hitting, which was delightful to watch.

Christian Union

The first meeting of the Christian Union this term was addressed by Rev. T. P. Willason, who took as his theme St. Paul's words: "Finally, my brethren, be strong in the Lord, and in the power of His might. . . . Take unto you the whole armour of God, that ye may be able to withstand in the evil day" (Eph. vi, 10). Temptations attack us at all periods of our life, and only if we have overcome them by the grace of God shall we be able to look back across our life and say—

"I have climb'd to the snows of Age, and I gaze
 at a field in the past,
 Where I sank with the body at times in the
 sloughs of a low desire;
 But I hear no yelp of the beast, and the Man
 is quiet at last
 As he stands on the heights of his life with
 a glimpse of a height that is higher."

Mr. J. T. Massey, of the Y.M.C.A., who had recently returned from a trip to Japan, addressed our second meeting. He reminded us that we were members of

the World Christian Federation, and that we ought to take an interest in other peoples who belong to this organisation. Then he told us something of the Japanese, their industries, their excellent railways, their schools, and the many other ways in which they have succeeded in imitating western civilization. Japan, he said, realizes the value of religion in the life of a nation, and all over the country can be seen the shrines in which their religious duties are carried out.

Rev. J. H. Nield spoke on the importance of Christ to us as individuals. It is useless to have an impersonal religion; we must be loyal to a Person, our Lord Jesus Christ, and acknowledge Him to be our personal Redeemer and Master.

To all who have helped us, not only this term, but throughout the year, we extend our sincerest thanks. Those of us who gave up part of our dinner hour from time to time to attend the meetings have been amply repaid by the very fine addresses that we have heard.

Annual School Service

This service was held on the last Sunday evening of the School year in the School Assembly Hall. The Headmaster conducted the service, while Mr. Potts officiated at the piano. This year a greater proportion of parents attended, parents, masters and boys all joining with united voice in the common act of worship. One, perhaps, may be allowed to comment favourably on the singing of the hymns. Hearty, tuneful singing by any gathering not only stimulates it but helps the assembly to realize its oneness, and when, as in this case, are added reverence and realization of the peculiar significance of the occasion, the whole service is enriched. All seemed conscious that they were taking a real part in the service, and this was also helped by the united recitation of prayers, as set out in the printed order of service.

The Headmaster based his address on a verse in Nehemiah, chapter iv: "So built we the wall." May his earnest words be long remembered by those whose schooldays are closing.

"Nehemiah is a book that I suppose few of you have read, but in it is a great story. Jerusalem had been destroyed, and the Jews taken to Babylon as captives, and there they and their descendants had remained for 70 years. Then Cyrus, King of Persia, captured Babylon, and, much to the amazement of all and to the dismay of many, the Jews were allowed to go back and rebuild their city and temple. At first few went, and they needed much urging to face the desert journey and the task of building up what had been laid waste. It is reasonable that few would go, for many of the exiles had grown rich and comfortable, and it was hard to sacrifice all this world's goods for the call of a land they had never seen, and which was to most of them only the birthplace of their grandfathers. They accomplished very little. Jerusalem had no wall, and in those days to have no wall was to be no city at all. The temple was not fit to be compared with the great building that Solomon had founded. Jerusalem was merely a settlement of makeshifts and shelters.

"About 450 B.C. news of this sad state of things reached a young Jew, Nehemiah, who was butler to the Persian King in his palace at Susa. He was profoundly stirred and felt compelled to do something. With the support of the king he gained help from the wealthy and influential, and led back to Judah a force of Jews. He was shocked to see how bad things really were, but in spite of it all he set to work, and his men helped him. He had all sorts of hindrances to meet. The Samaritans, under Sanballat, tried to stop him. They made fun of the work and its futility. They reported it to the King as a danger to the safety of the Empire; they tried to delay the work by mere talking; and finally came against them with arms. This increased Nehemiah's difficulties, but it did not stop their efforts. Some mounted guard while others worked; and there were times when the men who were doing the work had a sword in one hand and a trowel in the other. 'So built we the wall,' is Nehemiah's calm way of putting it. The wall rose till it gave safety to the Jews, and the temple was built again in a manner more worthy of the people's worship of God. Then Nehemiah turned to the other side of his task and reformed the people's ways of life that the nation might be worthy of the city he had built.

"It was a great work, and a great man who did it. It had meant everything to Nehemiah, and for it he had given up all—ease, comfort, security, pleasure—all that Babylon and the king's favour could mean. The work was a success; but don't lose sight of its difficulty because of its success.

"I have read and told you this story because in some ways life is like this. Some of you at this service are on the point of leaving school, and tonight I am apt to think mainly of you: but what I say is true for all, whether your life is to be in business, in the University, or at school. We are all like Nehemiah's men with our own little piece of wall to build in life, and as a people we have that great task of building the wall that will make life great and noble.

"Again, like Nehemiah's men, armed with sword and trowel, we have each two things to do in this world—we have to make a living, and we have to make a life. The first will be comparatively easy for most of you—so much work at some task that will worthily occupy at least some of the powers God gave you. But the second is the real task of life. You may reach old age and not have completed that work. There is a story told of two masons who were cutting stone for a big building. Someone asked them why they were doing it. One replied, 'I am earning eight shillings a day.' The other said, 'I am helping to build a great cathedral.' Both were right, but what a difference! So make sure you are working at the right wall, and doing the things that really matter. It would have been useless for Nehemiah's men to build the wall anywhere else except round the city. And each of you in your own life, get the right aim—don't confuse pleasure with real happiness; don't make money or power the great end of your life. You can get these things quite easily and achieve a certain success; but the finest things in life are not those you can be sure of getting, but those you spend your years in reaching after, and perhaps never quite attain. Don't forget in planning your life that you have a mind or soul as well as a body, and that you will not make yours the life you want without satisfying them. Your mind and soul cannot be satisfied without seeking God.

"So each one of us has this little part of his own to do, without which the great wall cannot be complete. And what is this wall we are to build? Well, look at the world around us! Cannot you see some of the many things that are obviously wrong? That some people are so needlessly rich while others are so desperately poor; that the world is producing so plentifully, and yet so many for all their hard work cannot enjoy that abundance; that men should live in fear of war and its destructions, hating their neighbours just across the frontier; that so many lives are being ruined by our so-called social evils; that so many have

their living stunted and spoiled by fear—fear of poverty, fear of unemployment, fear of sickness. Here are problems enough, God knows! Don't mistake me! I am not drawing a gloomy picture of a world growing worse and worse. We are getting better, just because these facts are problems to us. There have been times when people quite complacently faced these facts, and were not disturbed at all. Our conscience is more alive, and it will not easily be lulled to sleep again. Something will have to be done about these wrongs. Then there is that greatest institution of civilization. I mean the Church. Your fathers and grandfathers served it with zeal and joy, made it a power in the land, and it gave lustre to their lives. We all believe the Church is worth while, but are you going to fill their places in this way? I hope so, for it is only as you get into your lives what the Church has to give, and what Jesus brought into the world that you will achieve any success in your task as builders of the wall.

"Yes, we all agree that the world is full of problems, and we are ready to say that something must be done. Who is to do it? Oh—the nation, the Church, the people! All fine abstractions! Come down to hard facts, and what is the nation, or the Church, or the people? Just a lot of ordinary folks like you and me. Get it firmly in your mind, boys, that a great nation means a lot of ordinary men and women who are great—that no body or institution can be better or finer than the units of which it consists. If by the year 2,000 A.D. some at least of these great problems are to be solved, then you must do your small part towards it. It will be hard; you will have all Nehemiah's hindrances—ridicule, delay and opposition—but it is the thing supremely worth doing: to use the powers God has given you, and ask His aid to find the right course, and then with His help so guide your life that however small it may be, you will still be doing your part in building that great wall, the wall of God that will make this world the safe and happy place God means it to be.

Boxing Competitions

The boxing competitions were conducted in the gym. on Tuesday, December 15. There were four divisions, and good boxing was witnessed. We were fortunate in having nice cool weather for the contests.

Dawkins and Sutton, of the third division, were the first boys to appear. They both gave a good and even exhibition; but Dawkins, the Gawler "bunyip," was the aggressor, and the points he scored for attacking gained him the verdict.

Wilson and Cleland, of the second division, were the next pair. Wilson made the first move, and had Cleland on the defensive. Cleland vainly tried to keep Wilson at bay, but Wilson was too clever, and was declared the winner.

Cleland the second and Chinner, of the third division, then came along. Chinner decided to go after Cleland, but Cleland was equal to the occasion, and dodging skilfully had Chinner missing his mark. Cleland then attacked, scored, and skipped away again. Both boys tried to hit both the head and the body, and showed good footwork in avoiding trouble. Cleland was the winner, but owing to competing in tennis competitions had to forfeit his right to fight again.

Furniss and Morris, of the fourth division, then entered the ring. Both boys knew what they were there for, and did not waste any time in skipping around. They both stood up to it, boxed well, and were skilful enough to avoid any damage. A good contest resulted in favour of Furniss.

Morris and Thurston, of the third division were the next pair of gladiators, and they were true to name. Morris, a well-known character, was determined to uphold the honour of South Australia against Western Australia, and Thurston was out to do his best for the "sand-groppers." This was a real wild and woolly contest. Both boys went for their lives, and at times Morris cast caution to the winds and sailed in furiously. Thurs-

ton, not to be outdone, retaliated, and showed how Western Australians deal with tornadoes. It was a stirring spectacle. The two boys are to be congratulated on their splendid exhibition, after which neither showed a mark. Morris was the winner, only because he was the more vigorous in attack.

Comley and Edwards, of the second division, were the next pair. Comley was the better boxer, as he used both hands well. Edwards, who possesses a winning smile, wore it all through the contest. He had the longer reach, but did not make enough use of it. Comley was the winner.

Norman and Copping, of the fourth division, then came along. These boys provided a real good go, and Copping did very well for his first year at school. Norman, who is a bit of a veteran, knew just a little too much, and was declared the winner.

Walkom and Barraclough then entered the ring, and this was an amusing competition. Barraclough, at the beginning of each round, came up full of beans, and made a lightning whirlwind attack for about ten seconds, then skipped for cover, and Walkom was at his wits' end to catch him. The spectators thoroughly enjoyed this bout. Walkom was the winner.

Claridge and Edwards then fought a bye, so Matron wisely decided to have a cup of tea in preference to watching this tame display.

Dawkins and Morris then decided the semi-final of the third division. Morris evidently liked Dawkins better than Thurston, or he had more respect for him, because he did not reproduce his former cave-man tactics. Dawkins, after a time, decided that he must not let Gawler down, and he was too vigorous and too skilful for Morris.

Downing and Claridge, of the second division, then fought a semi-final. Claridge stuck his left out, and expected

Downing to respect it, but Downing got under it, and sent Claridge back. It was rather a gentle contest, with Downing the winner.

Comley and Wilson next fought another round of the second division, and this was a splendid contest. Comley tried to force the pace, but Wilson brooked no nonsense, and stood his ground. It was a very even go, but again the attacker, Comley, was given the verdict.

Hender and Bartholomaeus of the third division were the next pair. This was another vigorous contest, as both boys attacked in turn. Hender's attacks seemed a little more productive than Bart's. The judges had some difficulty in making a decision, so asked for another round of a minute. Hender attacked immediately, and was declared the winner.

Comley and Downing then decided the semi-final of the second division. Downing attacked, but did not put any sting in his blows, and Comley took no notice of them. Comley then took a hand, and Downing didn't like his ways a bit. Downing tried hard again in the second round, but Comley was too good.

Black and Wicks were the only contestants in the first division, and the spectators hoped for some thrills, but were doomed to disappointment. Black got straight to work, and tapped Wicks in the solar plexus, then he got in a right cross that made Wicks think. Wicks made a fatal error: he fought on for a while, and then decided he would have a rest. This is against the rules of boxing, and the referee could do nothing else but declare Black the winner. It was most unfortunate for Wicks, but had he sat down and taken a rest when hit he could have gone on, but no boxer is allowed to go on for some time after being hit and then decide to have a rest. Wicks is a good sport, and it was bad luck for him; but we hope he will see from the above explanation that he was at fault. The explanation is given also for the spectators, who did not understand the referee's decision.

Furniss and Norman then met to decide the final of the fourth division. This was a good go, but it looked as if Norman was a little more skilful; but Fur-

niss, either by accident or design, got a nice left into Norman's solar plexus, and Norman was winded.

Dawkins and Hender then decided the third division final. Hender attacked, but Dawkins steadied him with his left. Hender attacked again, but Dawkins avoided him, and from then on did the attacking, though Hender at times put in some good work. Dawkins was the winner.

Comley and Walkom were the final pair, and they settled the second division. They both gave a really good exhibition. Comley, although getting tired, kept making the pace, boxed well, and thoroughly deserved his victory.

There was only one disappointing thing about the competitions, and that was the non-appearance of Dearlove and Sneyd, two famous heavyweights of the fourth division. The contest between these two would have been worth going a long way to see, but we were doomed to disappointment, and it cast quite a gloom over the proceedings.

We were very fortunate in having with us again as judges and referee our old scholars Jack Williams, Joe Roberts and Frank Nicholls. These three old scholars have excelled themselves at boxing, and probably Joe Roberts, while at school, took part in more competitions and won more cups than any other boy. In spite of it all he still retains his schoolboy complexion. We were sorry Mr. Mutton was unable to judge, but his place was ably taken by Mr. Archie Price, an experienced old scholar boxer of Queen's College. We are much indebted to these gentlemen for their assistance.

We are also very grateful to the Headmaster, Dr. Erichsen, Messrs. P. A. McBride and M. Schlank for providing cups for the winners. The Headmaster receives also extra thanks for allowing us all time off to see the competitions. It is pleasing to note that the boxing class this year has been the largest for many years, and we hope it will be equally large, or larger, in 1938. The good boxing shown by the boys reflects great credit on Mr. Bennett's boxing instructor, Mr. Price.

Gymnasium Competitions

The competition to decide the championship of the College was conducted in the Gym. on Wednesday, December 8. There were thirteen contestants, an ideal number according to superstitious folk, but notwithstanding this the competition was a good one, and there were no accidents.

Stain was the winner, and he deserved his success, as he was unable to attend the Gym. for some time on account of his having been separated from his appendix. His work was very good, and he showed great neatness and control of himself while doing the exercises.

Tanner, the runner-up, is a very promising gymnast, and during the year has made rapid improvement, and next year, if he retains his interest, should be very hard to beat.

Bartholomaeus was third, and his work was a credit to him. He is a much improved performer, and next year, with more practice, will develop into a neat and competent gymnast.

Lloyd was the next best, and he did very good work. He would probably do better if he had a little more confidence in himself. If he returns next year he should improve considerably.

Whitrow, a new boy, shows much promise. He is very strong in the arms, but other parts of him are not so strong in comparison, and he must concentrate on exercises to build up these deficiencies. He must be neater, and have a better position at the finish of an exercise.

Norman was next, and he was a little unfortunate in not being higher on the list, as either through ill luck, or over anxiety, he missed several exercises which he usually accomplishes with ease. He was the emergency man for the cricket, and that may have had some effect on him.

Martin, the wild man from the seaside, was next, and he did quite well. He has only recently discovered his hidden talent as a gymnast, and under the cir-

cumstances his performance was meritorious.

Clarke, on account of his modesty, did not intend to compete, but his form mates pushed him in. He did quite well, and if back next year should be a danger to the best.

Dearlove was next in order, and he excelled himself. His long-arm swing up, in which he landed on the bar as lightly as an elephant, was a surprise to everybody, and himself most of all.

White and Davies tied for next place. They are both heavyweight gymnasts, and considering their handicap did very well.

Craven, the next in order, did some exercises very well, but others he could not manage, so I suppose we must put it down to the strain of exams.

Weetman, who entered really as a competitor for his form medal, did his best, but many of the exercises he could not master.

It was most encouraging to have so many boys competing, and as some of them showed such promising form, and will be returning next year, we can look forward in 1938 to one of the best competitions held for many years. We hope more boys will have their ambitions stirred, so that the number of competitors may even exceed those of this year. Any boy who shows any promise, and desires to improve himself, may arrange to have extra practice in the gym. There is one thing boys who go to the gym. for extra practice must remember, and that is that only legitimate work must be undertaken. Circus tricks and stunts must be eliminated, as the exercise derived from them is not worth the risk incurred, and an accident caused by doing silly things may result in the privilege of extra practice, so willingly granted by the Headmaster, being cancelled. We are greatly indebted to the Headmaster for this privilege, and also for allowing the whole School time off to see the competition.

We would like here to tell a joke about our instructor, Mr. Bennett, which we feel all old scholars will appreciate. Before retailing the joke, it is necessary to refer to Mr. Bennett's voice. It is one of those which, when used to call us to attention, makes the horse faint, the trapezes swing, the rings wobble, and even the sturdy parallels tremble. It will be remembered that at the opening of the Fete we gave a demonstration, and as it was necessary to make the boys work smartly, Mr. Bennett had to use his voice to some effect, and speak

smartly. The result was that some of the ladies got quite scared, and one was heard to remark, "Oh listen to that crabby man growling at those poor boys!" and after an interval of a few moments, "Listen to him; there he is again. Oh, those poor boys!" We boys consider this a great joke, and we wanted to tell the old scholars. We feel sure Mr. Bennett won't mind, and if he does he can't catch us now with his flagellator, or refrigerator, as some of the boys call it.

Cadet Corps

This term a new training syllabus was issued which incorporated Lewis Gun instruction and bayonet fighting. This interesting and vigorous section of our training has been enjoyed by all concerned, and satisfactory progress has been made.

An N.C.O. class was held regularly every Saturday morning under the instruction of W.O. Madigan. This class has greatly increased the efficiency, keenness and confidence of the N.C.O.'s, and it is hoped that similar classes will be held next year. Although it was found impossible to hold an examination for promotion this term, a date has been fixed at the end of February next year, when such an examination will be held.

Early this term, on September 29, we visited the Port Adelaide Rifle Range to fire our musketry course. Unfortunately, heavy rain fell in the afternoon, and the shoot was interrupted. On Wednesday, December 8, we again visited the Range to complete our shoot. On this occasion the conditions were ideal, and several cadets put up good scores.

The N.C.O.'s fired with a Lewis gun, which they appeared to handle with confidence.

A hat badge has been approved by the Military authorities. It embodies the School badge and motto. A specimen has arrived, and it is highly probable that

these badges will be issued early next year.

As a number of cadets will be leaving School this term it is to be hoped that the School will provide sufficient recruits to more than fill the vacancies.

J. O. C.

The 1937 "Rouge"

This year's "Rouge" was held in "Arcadia" on Tuesday, December 14, at 8 p.m., and was a highly successful fixture. Popular features were supper and balloon and streamer dances, the latter being a new innovation. As for last year, music was provided by Miss McGregor and her band. Apart from the fact that few couples could successfully negotiate intricate steps like swing and the Canadian barn dance, all enjoyed the evening, and thanks are due to our energetic (?) committee for the splendid evening's entertainment they organised.

A good many unusual and captivating costumes were worn, draught-board motifs, pot-house effects, and halters being common, and one wonders just what types of dresses one would really see if the "Rouge" were a fancy-dress ball.

In conclusion, our thanks are due to Mesdames Ward and Mitchell for chaperoning the fixture.

The Library

BOOK REVIEWS

"The Restless Universe," by Max Born.
 "Everyday Science," by A. W. Haslett.
 "New Elementary Physics," by Millikan, Gale and Coyle.

Probably no period in the history of science has been more productive of exciting and epoch-making discoveries than the present. With the aid of apparatus of ever-increasing efficiency the scientist is probing more and more deeply into the secrets of the universe.

As is only to be expected in such a period, numerous books have been written with the object of giving the ordinary man with little or no scientific training some insight into the more important and interesting theories and discoveries occupying the attention of men of science at the present time. "The Restless Universe," by Max Born, is one of the best of these books that I have read. Rather advanced topics such as the "Wave Mechanics" and "Nuclear Physics" are presented in a manner that most Leaving and Leaving Honours students can understand and find interesting. The sections on the "Kinetic Theory," "Electrons and Ions," "Relativity," "Spectra," the "Quantum Theory" and "Radioactivity" are so well done that all students of Leaving Honours, Physics and Chemistry are recommended to read them.

The illustrations are a feature of the book. These include, in addition to a number of photographs and drawings, seven series of flicker pictures, or moving pictures. By flicking over the pages quickly one can get an excellent idea of the movement of gas molecules in a cylinder containing a piston, the production of Hertzian waves, the motion of the electron in the hydrogen atom, etc. Altogether this is a most fascinating and instructive book, and one which is sure to be well read.

"Everyday Science," by A. W. Haslett, is quite a different type of book. Unlike "The Restless Universe," it is not concerned with more or less abstract theories in connection with the structure and behaviour of matter. It deals rather

with the impact of science on everyday life, and gives a very interesting and stimulating account of the application of modern scientific discoveries to the advancement of man's comfort and material well-being. Some of the more interesting topics dealt with include refrigeration, air-conditioning, coal, building materials, science and crime, foodstuffs, the problem of waste, etc.

This again is a book which should make very popular reading.

"New Elementary Physics," by Millikan, Gale and Coyle, is a remarkably fine text book of physics, which should be of great interest and assistance to students of Leaving and Leaving Honours Physics. The book covers all of the Leaving Physics course, as well as a portion of the Honours course. It should therefore prove an excellent reference book, particularly as it gives more attention to the practical applications of physics than do most text books. The sections on "Electronics" and "Invisible Radiations" in particular are very well written, and can confidently be recommended. As with a great number of American scientific books, the illustrations are both numerous and instructive. They are so good, in fact, that a great deal of very useful information can be acquired merely by a perusal of the pictures and their titles.

These three books undoubtedly should prove very welcome additions to the Library, and are sure to be read by all those interested in modern developments in science.

LIBRARY NOTES

This term twenty-five new books have been added to the Library, making the total number added for the year fifty-eight. We wish to thank again those who have so kindly donated books.

This term we are especially indebted to Mrs. Freak, who sent us the following books: "Britain Beautiful" in four volumes, "How to Play Tennis," "The Tennis Handbook," and "The Lawn Tennis Library."

A few weeks before his fatal illness, the late Mr. W. R. Bayly presented "The History of Don Quixote" in two beautifully bound volumes. This gift will help to remind us that the Memorial Library and its beautiful appointments are due almost solely to the energy of Mr. Bayly, and will always remain a monument to his administrative foresight.

On the last day of the school year, ex-librarian K. M. Gibb very kindly donated two guineas for the purchase of new books. We appreciate his thoughtfulness very much.

BOOKS ACQUIRED DURING THE TERM

Presented by Mrs. Freak—

- "Britain Beautiful" in four volumes.
- "How to Play Tennis."
- "The Tennis Handbook."
- "The Lawn Tennis Library."

Mathematics—

1. "Mathematics for the Million" (Hogben).
2. "Analytical Geometry" (Tuckey and Naylor).
3. "Analytical Conics" (Davison).
4. "Elementary Analysis" (Jessop).
5. "Elementary Co-ordinate Geom." (Ramsey).
6. "Advanced Trigonometry" (Durell and Robson).

Physics—

1. "The Restless Universe" (Max Born).
2. "Everyday Science" (Haslett).
3. "Science—A New Outline" (J. W. N. Sullivan).
4. "The World of Science" (Sherwood-Taylor).
5. "New Elementary Physics" (Millikan and Gale).

Chemistry—

1. "Theoretical Chemistry" (W. Nernst).
2. "Practical Chemistry" (W. J. Valentin).
3. "Outline of General Chemistry" (W. Ostwald).
4. "Elementary Physical Chemistry" (Taylor).
5. "Inorganic Chemistry" (by Neils Bjerrum). (Presented by the 1937 prefects).

Literature—

"The History of Don Quixote" (in two vols.).

Economics—

"Principles of Economic Geography" (R. Brown).

General—

1. "The Story of the Coronation, 1937" (Sir John Hammerton).
2. "Paints and Varnishes" (by Jennings).
3. "Lead" (by Smythe).
4. "Copper" (by Picard). D. J. D.

ALGAE

(As supplied from Hope Valley Reservoir.)
 Algae was a sailor, and as all good sailors crave,
 He begged his friends to bury him in a sailor's
 wat'ry grave.
 They did their very best for him, but as the
 sea was far
 They took his bier at dead of night to a local
 reservoir.
 They dropped him in. No monument now
 points out where he lies;
 The only dust his people threw was in th' offici-
 als' eyes:
 They turned away and homeward crept, and no
 one could but doubt
 That very soon from every tap their secret
 would leak out.
 With anxious hearts they turned on taps, they
 tasted and they smelt,
 But Algae seemed determined to make his pres-
 ence felt.
 He soon was all about them, running over gar-
 den paths;
 They shaved with him, and washed with him,
 and placed him in their baths.
 The chemists tested samples, and they put the
 blame on frogs;
 They swore they found bacteria and vitamins
 and wogs.
 But Algae sank still deeper, and he burrowed
 in the mire,
 While his influence grew still further and his
 reputation higher.
 They say that deep sea sailors have a wife in
 every port;
 This wasn't true with Algae, but he had a
 "whiff" it's thought.
 As oak trees grow from acorn buds, so Algae's
 influence grew,
 Till the folk who hadn't heard of him unluckily
 were few.
 His friends who followed his commands were
 slow to realize
 That man must have a tombstone, as a cover,
 when he dies.
 To appease the ghost of Algae, and to bring it
 sweet content,
 They cast in bags of bluestone for a lasting
 monument.

M. D. C.

Boarders' Notes

This term we have been able to separate the hard workers from those willing to let them work. Everybody in the Boarding House has been studiously engaged in preparation for examinations. We are pleased to be able to congratulate Riggs, A. E. Norman, W. R. Nicholls, Plush, Scott and R. J. Andrew as duces of their forms.

Cricket has been to the fore among the games this term, and as usual the stalwarts of the team come from our numbers. Congratulations to Gersch, Friebe, Smith and Agars, and we offer J. C. Norman our sympathies for being chosen twelfth man. In the lower and under age teams boarders have also played a prominent part. The new boys have been enthusiastic rollers, though they did more moaning than rolling.

We have had many gifts of fruit this term. Mr. Plush very generously supplied us with oranges, and we offer him our sincerest thanks. We are also deeply

grateful to Mr. Mutton for a case of loquats. During the first and second terms this year we had parties, but, unfortunately, owing to a clash of engagements we were unable to have one this term.

During the term it was our good fortune to be entertained with a talking picture show given by the Vacuum Oil Co. We were also allowed to attend shows once or twice during the term. This term there has been great enthusiasm in the dormitory competition, and after a keen tussle "C" have been top twice and "A" once. Picture or week-end leave was granted on these occasions.

We should like to be enlightened on the following—

1. Who has ever tasted "arrant tripe"?
2. What happened to the milk babies?
3. Who are our three weak bicyclists?
4. What is s s s s s.....?
5. Who is the Wing organ grinder?

W. T. P.
IVC.

During the second term many of the senior boys had football practices on Tuesday, and we found it almost impossible to get our whole troop into uniform, but this term, with the change back to Monday, parades have been much more successful. In the interval between resumption of school and the public exams. most of the boys worked enthusiastically and progressed with their tests for first and second class badges. Mr. Dennis conducted ambulance classes, and most of the boys working for second class badges availed themselves of the opportunity of passing their First Aid. With the coming of Public and School exams. all effective work finished.

In the competition for the Abotomey Cup the Magpie Patrol, which was led during the first two terms by John Smith, was successful with 247 marks. This is a very creditable result, as nearly all the boys in the patrol are under fourteen. The positions and marks are as follows: Magpies, 247; Woodpigeons, 211; Kangaroos, 196; Owls, 176; and Eagles, 155. The Woodpigeon patrol, despite losses in its rank, put up a good fight, and Shields, second in command, is to be congratulated for his untiring efforts.

On November 29 the Annual Meeting of the Scouts' Parents' Association was held in the Memorial Library. Mr. J. Crompton was elected president, and a sub-committee was nominated to go ahead with the lining of the shack. The next meeting of the Parents' Association is on February 22, 1938, to which all parents and friends are cordially invited.

The Annual Cricket Match between the Scouts and Parents was played on the Back Oval on December 4. The Parents batted first, and by hard hitting produced 167 runs for the loss of 5 wickets in the short time of 75 minutes. After afternoon tea, which was provided by the ladies, the Scouts went to the creases and batted dourly till stumps were drawn.

We offer our thanks to the Headmaster and Matron, who made the match possible.

We say good-bye with reluctance to Mr. R. S. Forsyth, who has been Assistant Scoutmaster for four years. We wish him every success in his new position in Brisbane.

As numbers for the Christmas camp at Mylor were very small, it has been decided to conduct a two-day hike instead. The party will detrain at Mount Lofty Station and make a round trip through Lockwood and Mylor back to the station, camping one night at the shack en route. This will give boys who wish to make their first-class journey an excellent opportunity to do the test.

PRINCE ALFRED COLLEGE CHRONICLE

THE UNDER 13 "B" CRICKET TEAM, 1937

THE UNDER 13 FOOTBALL TEAM, 1937

We have completed the best year's work since rowing was re-established in the School, and this term we have had successes that clearly show that the standard of our rowing is higher than ever before.

When the term opened we practised strenuously for the Forms Regatta, which was held on October 16. It was a successful event, and enabled us to find some promising material.

Throughout the term we have rowed Eights as much as possible, so that by the middle of the term we had twenty-four boys who had rowed in the practice boat, and twenty who had been in the racing boat. The chief difficulty we have always faced is that of getting experience in racing, so this term we determined to enter crews in several regattas held by the Rowing Association.

On November 6 two Eights competed in the Maiden Eights event in the Regatta held on the Torrens. The First Eight met Mercantile in the first heat. From a perfect start our crew took the lead, and quickly left Mercantile a length behind. Rowing splendidly they increased the margin to one and a half lengths near Morphett Street Bridge, and without quickening won by three-quarters of a length. As the Second Crew had rowed a bye the final was entirely a Princes' event. Although the Firsts won by two and a half lengths, the Seconds, well stroked by Wicks, rowed a good race and showed that we have plenty of reserves for the first boat. This was the first occasion since 1921 on which a crew entered by one of the schools had won a Maiden Eights event. The personnel of the crews was as follows:—

Bow	-	Oliver, R. W.	Sullivan, P. G.
2	-	Claridge, P. J.	Guppy, D. J.
3	-	Marshman, J. K.	Kirkman, L. H.
4	-	Hand, R. T.	Harper, S. J.
5	-	Buttery, R. H.	Black, G. B.
6	-	Shannon, J. M.	Edwards, P. F.
7	-	Solomon, M.	Wegener, R. A.
Stroke	-	Williams, R. R.	Wicks, D. G.
Cox	-	Turner, R. H.	Kirkman, D. N.

Three weeks later we took part in the Regatta at Port Adelaide, when the following crew rowed in the Tub Slides event over a mile course:—

Bow	-	-	Wicks, D. G.
2	-	-	Shannon, J. M.
3	-	-	Solomon, M.
Stroke	-	-	Williams, R. R.
Cox	-	-	Turner, R. H.

The competition was keen, seven men's crews having entered from various parts of the State. Again our crew led straight out at the gun, and after twenty strokes was a clear length in the lead. Rowing splendidly, they gradually increased that to four lengths by the time they reached the wharves, and rowing easily at 32 went on to win by eight lengths. It was an excellent piece of work, which won the highest praise from rowers who saw the race.

As soon as examinations were over we trained for the Regatta at Port Adelaide on December 11. Once again we entered two Eights:—

Bow	-	Oliver, R. W.	Shields, B.
2	-	Claridge, P. J.	Sullivan, P. G.
3	-	Marshman, J. K.	Keipert, P. H.
4	-	Hand, R. T.	Harper, S. J.
5	-	Buttery, R. H.	Kirkman, L. H.
6	-	Shannon, J. M.	Edwards, P. F.
7	-	Solomon, M.	Wegener, R. A.
Stroke	-	Williams, R. R.	Wicks, D. G.
Cox	-	Turner, R. H.	Mr. Forrestal

The men's crews came from the following clubs: Adelaide, Torrens, Mer-

cantile and Port Pirie. At the gun-shot our First Eight went straight out to a canvas lead, which it increased to a length by the time 300 yards had been covered. The Second Eight was rowing well together, Wicks stroking it with good judgment. After leaving the wharves the First Eight went out another quarter of a length, and rowing splendidly at 32 was able to maintain a margin of at least a length despite determined challenges from Mercantile and Port Pirie. In the rougher water near the end of the race the crew still rowed powerfully and well, winning from Port Pirie by a length and a quarter in 5 min. 27 secs. The Second Eight was in the bunch of crews right till the end, when the stronger men's crews drew away, but still it rowed into fifth place. Both crews deserved the highest praise. In winning the event we established a record: it had never been done before by any crews of schoolboys.

Later in the day Williams, Solomon, Shannon and Wicks, coxed by Turner, again went out to compete in the Tub Slides event. Once again they went out to lead from the gun, but after a quarter of a mile Mercantile drew up and took the lead by a quarter of a length, increasing this to half a length at the half-mile. Rowing steadily and powerfully at 32 our crew did not quicken until 200 yards from the finish, where Williams raised the rating to 35, and the boys went past Mercantile to a three-lengths lead, which they maintained to the end of the mile. It was a great win, the time being 6 min. 14 secs.

These victories have been most encouraging and gratifying, and we are proud of what the crews have done. A special word of praise is due to Williams, Solomon and Shannon, who filled the stern seats in every winning crew. They rowed splendidly. Williams' work as stroke has been remarkable. Not only has he rowed powerfully and well, but he has inspired his crews with confidence and has shown faultless judgment in every race. We owe a great deal to him.

During the term Messrs. B. K. Marshman and J. C. Williams, who are keen supporters of our club, generously presented two trophies for competition. The races to decide the winner of the junior trophy, presented by Mr. Marshman, were well contested under the supervision of Mr. M. A. P. Mattingley, whom we sincerely thank for his work among the junior members. After several keen races, Gryst won the trophy. We congratulate him.

The senior trophy was won by R. A. Wegener after a strenuous series of races. Sixteen of the senior boys took part in the competition, and the issue was in doubt until the last race.

To Messrs. Marshman and Williams, the donors of the trophies, who have helped us in many ways, we extend our hearty thanks.

Mr. T. K. Qurban, who coached the King's Cup crew, showed us his rowing films one evening, and gave us some helpful information. Mr. Qurban has always been interested in our work and ready to help us in any possible way. We wish to thank him, too, for his kindness in lending us his speed boat when we rowed at the Port.

There are many to whom our thanks are due. Our success this term could not have been achieved without the constant coaching of Mr. A. E. McLean and Mr. L. Forrestal, whom we thank most heartily. The officials of the Rowing Association have been most helpful, too, and kindly arranged for the trophies to be ready for presentation at the final assembly. Members of Mercantile and Port Adelaide Clubs have not spared themselves in helping us in transporting our boats, while Port Adelaide Club very kindly lent us "The Wallace" for the Second Crew on December 11. Many parents and friends lent their cars while we trained at the Port, and we thank them.

To all the friends of the Boat Club we offer the Season's Greetings.

Prefects' Jottings

During the latter part of this year the prefects were again well represented in all activities of the School. Bennett captained the football team, in which Tregoning (vice-captain), Hodge, Nicholls, Cartledge, Craven and Lloyd also played.

In the cricket team, Tregoning was captain, and Bennett, Hodge and Gersch were our other representatives.

As a result of his inclusion in the athletics, football and cricket teams, Hodge was awarded his merit badge, this being the third held among the prefects. Tregoning and Bennett have held theirs since 1934.

We offer our hearty congratulation to Cartledge, who has been dux of the School throughout the year. He wins a

Government bursary and the Mathematics and Chemistry prizes for the Upper Sixth.

In the Cadet Corps, all three platoon commanders, Cartledge, Davies and Wegener, are prefects, and were all in the rifle team.

In the Debating Society meetings, Wegener was elected as best speaker for the year.

Nicholls, the head of the House, won the Hunter Memorial Prize for being the boy with the best influence on the rest of the School.

The prefects are very pleased with the improvements to the prefects' room, and have spent much of their spare time there.

D. J. D.

OUR CONTEMPORARIES

We acknowledge with thanks the receipt of the following exchanges and apologise for any omissions:—

South Australia—"Adelaide High School Magazine," "St. Peter's College Magazine," "Scotch College Magazine," "King's College Magazine," "M.L.C. Annual," "The Wilderness Magazine," "Brown and Gold" (Concordia College), "Adelaide Technical High School Magazine," "C.B.C. Annual," "Walford House Magazine," "Adelaide University Magazine," "Queen's College Magazine."

Victoria—"The Scotch Collegian," "The Wesley College Chronicle," "The Melbourne," "The Pegasus" (Geelong College), "The Corian" (Geelong G.S.), "The Mitre."

New South Wales—"The King's School Magazine," "The Newingtonian," "The Cranbrookian."

Queensland—"The Clansman."

Tasmania—"School Echoes," "The Launcestonian."

Western Australia—"The Western Wyvern," "The Swan" (Guildford G.S.).

Canada—"The College Times."

England—"The Cliftonian" (Bristol).

POUR ALLER FAIRE THE ORAL FRENCH

My thirst I quench, my teeth I clench;
 Pour entrer dans the oral French.
 Dictation past,
 We come at last
 To have our conversation.
 My partner, she is just like me,
 With fainting heart and trembling knee,
 While madame waits
 To seal our fate
 And hear our intonation.

My number heard, I now begin
 To listen to an awful din:
 Phoebus Apollo!
 I could not swallow,
 Nor had I time to hear it!
 "Vous voulez savoir—qu'est-ceque c'est?
 Oh oui! I get you. Can I play
 Du piano?
 Just half a mo—
 Oh oui, un peu (that's near it)."

My partner now informs us how
 Far she can swim, although I trow
 That, should she live
 To ninety-five
 She wouldn't half complete it.
 But here's the snag: she then asks me
 How good a swimmer I may be.
 "Je fais la brasse
 Pour que je fasse—"
 "You're failed," she said, "so beat it!"
 J. M. B. (VI a).

THE PLEDGE

Do you remember our pledge, my love,
 When the scented Andalusian breeze murmured
 In monotonous?
 Do you remember, my love,
 In the cafe garden
 A dancing girl was clicking a castanet as we sat
 Together
 By fountain clear?
 Do you remember that night, my dear?
 Soon
 The yellow moon
 With benediction bland and mellow
 Set his golden seal upon our compact as
 We kissed.
 Old, now, grey-haired, with faces lined with
 years,
 We still may recapture our early rapture
 If you will remember, my love,
 Our pledge.

J. M. W. (VI c).

THE "BLOWHOLES" OF THE NULLARBOR PLAIN

There have recently been discovered on the Nullarbor Plains huge subterranean caverns, many of them containing plentiful supplies of fresh water.

A few years ago, while making an overland trip to Perth, I saw on our itinerary reference to a "blowhole" on the side of the road. The plain at this point consisted of barren limestone country, abounding in old shells and sea fossils. We looked for the blowhole, and noticed on our right an old stick, with a rusty, battered kerosene tin on it, stuck in the ground. This was the "notice" to remind people of the presence of the blowhole.

The blowhole was similar to a mine shaft, excepting that its sides were uneven. The day was hot, but despite this a strong, refreshing draught of cold air came up from the cavern. Our itinerary said that this draught is always there, even on the hottest of days, and suggested that the blowholes were connected with the sea by subterranean passages.

The discovery now of the underground caves lends even more interest to the unusual geological conditions prevailing on this barren limestone plateau.

R. A. W. (VI u).

MODEL AEROPLANES

Last year I caught the model aeroplane craze and went into Rigby's to buy a magazine on models. The book contained instructions for building several models. I thought I would begin at the beginning and build every model in the book. But after I had built several simple "stick" models I decided to build a much more difficult and bigger "fuselage" model.

At first I was mystified by the long words used, but after I had drawn the plan I found that as long as I followed carefully all went well. I was interested to find that certain parts that still had to be assembled and seemed very difficult became quite easy when they were attempted. For instance, the tail-plane in this model is made of very thin strips of bamboo, stuck to a small tail-base of balsa wood. This appeared to be very hard, but by pinning the parts into position, and then putting a drop of aero cement at the right place, all went well.

After the framework was finished the tissue paper had to be gummed on. This was easier than I thought, but care had to be taken once the paper had touched the gum, for it then

became wet and fell apart at the slightest touch. When the gum had dried I had to dope the paper to make it shrink. Unluckily, I put too much dope on the tail, so that when the dope dried the paper shrank and buckled the tail surfaces. In the end I had to cut away the fabric and repair them.

I was surprised and delighted to find that my first fuselage model would fly. Since then I have built several models, and have been interested to find that larger models, although their speed is not so great, have a much better flying stability than small ones. The small ones fly well when the propeller is revolving, but as soon as it stops they glide very steeply to the earth. The gliding angle of larger models is often surprisingly small.

There are many different kinds of models. The hardest to build are flying scale models, for one has not only to build the 'plane to fly, but also to bring in enough details in its fuselage and other parts to make it a scale model.

THE WAITE AGRICULTURAL RESEARCH INSTITUTE

The Waite Agricultural Research Institute was established as a result of the late Mr. Peter Waite's gift to the University for the purpose of furthering the cause of education and research in agriculture and allied subjects. The endowment consists of 299 acres of agricultural and grazing land situated at Glen Osmond. The active work of the Institute began in March, 1925.

In the first year a meteorological station and a system garden, containing upwards of 200 species of indigenous and exotic fodder plants, were established. Almost the entire farming plant required for the initial development of the field investigations came as gifts from agricultural implement makers. Through the generosity of Sir John Melrose, £10,000 was given to the University for the building of a laboratory. In 1929 Mr. Harold Darling gave £10,000 to the University for the building of a soil research laboratory, and in 1936 the family of the late Frederick Ransom Mortlock offered the Council of the University the sum of £25,000 for research work in connection with soil erosion and regeneration of pastures or pastoral lands. In 1936 the Council for Scientific and Industrial Research provided the Institute with a Ford V8 Utility Truck to enable survey tours to be conducted in connection with the investigation on the plague grasshopper problem.

The Institute provides an advisory service to the Department of Agriculture in plant pathology and entomology. The University of Adelaide maintains a school of agricultural science and courses of instruction for the degrees of B.Ag.Sc. and M.Ag.Sc. Specialized courses of instruction in agriculture, agricultural chemistry, plant pathology and entomology for these degree courses are provided at the Waite Research Institute. Though exten-

sion work in agriculture is not a function of the Institute, a considerable amount of educational work in agriculture is effected through visits of Agricultural Bureaux, parties of farmers, and other visitors, to the experimental fields and laboratories.

The work of the Institute includes agriculture and plant problems. The most fundamental part of agriculture is the production of crops and pastures, and the researches are directed mainly to the investigation of the principles underlying the practice of farming in a winter rainfall climate, including the tillage of the soil, the manuring of crops and grassland, the rotation of crops, the establishment of pastures and their utilization by the grazing animal, and the production of improved varieties and strains of farm crops and pasture plants.

The most important agricultural problem is the development of a system of cereal culture and grassland management which will make the utmost use of the seasonal rainfall, and which will be adapted to the exigencies of a semi-arid climate. Recent developments in the wheat industry indicate that growers are emerging from one of the most difficult periods in the history of the industry. A period of unprofitably low prices has emphasised the fact that increased returns to the grower at no additional cost are available by growing varieties of improved yielding ability, of desirable agronomic characters and adapted to the climate and soil type of a district.

The main work of the Department of Entomology has been centred on certain major insect problems. These problems, which are being investigated, such as the lucerne flea, the black-tipped locust, and plague grasshoppers, are also important in other States. A detailed study is being made of the relationship between meteorological records and fluctuations in the number and distribution of economic species. The basal information which has been established by these investigations has a wide application to the ecology of animals and plants.

Under the deed of gift of the late Mr. Peter Waite it was provided that 67 acres should be held on perpetuity as a park. The Council of the University set aside a portion for the purposes of a sports ground for graduates and undergraduated students of the University. The Council also decided to establish an arboretum, in which trees and shrubs could be grown as specimen trees to demonstrate their value for shelter and ornamental purposes.

Since the inception of the work of the Institute, daily records of rainfall, barometric pressure, maximum and minimum air temperature, atmospheric humidity, the number of hours of bright sunshine, evaporation from a free water surface, and maximum and minimum soil temperatures at various depths have been recorded. All this data has been published in the report of the Waite Agricultural Research Institute, which is available to all agriculturalists at either the Waite Institute or the University of Adelaide.

E. H. S. (VI c).

A VISIT TO THE WAITE INSTITUTE

On Wednesday, October 14, a special bus conveyed about twenty-two boys to the Waite Institute for an annual inspection. After having an interesting introductory talk by Mr. Trumble we were taken to a plot in which were growing numerous grasses and which contained the meteorological instruments. We were first shown the winter grasses. Of these we learnt that the most important were the various rye grasses, different species of phalaris, and of clover. We were then taken over to the plot in which were growing various summer grasses. The most important among these were the Sudan grass, maize, sorghum, kikuya grass, and last but not least the famous lucerne. This grass was familiar to all of us, and we were told of the great depth to which its roots often penetrate.

Our attention was then directed to the meteorological instruments. The first which we saw was the common rain gauge. Other instruments that we saw and whose processes were explained to us were the evaporimeter, solar thermometer, sunshine recorder, and an instrument which continuously records the direction and intensity of the wind. After these we were shown a box in which was kept an instrument that was capable of recording the soil temperatures at various depths. On the first graph the soil temperatures at depths of 1 in. and 6 in. were shown, and on the other one the soil temperatures at depths of 12 in. and 24 in. It was pointed out to us that there were wide variations on the first graph, but not on the other one. We then passed on to another box which contained important recording instruments. First there was the hygrometer, which showed the percentage of humidity, and the others were the wet and dry bulb thermometers, the maximum and minimum thermometers, and lastly, the barograph.

We then left this portion of the Institute and walked over to inspect the glass-houses. In the middle one we saw numerous boxes of sandy soil in which various grasses from the North of Australia, around Alice Springs, had been planted. Unfortunately, these boxes had been disturbed, and quite a number of the seeds had not germinated. We then left this house and went to the next one. The most interesting study here was a box of grasshoppers. These were kept so that the experts might examine their life-cycle and discover when it was best to attack them. They were also trying to discover which were the plague type and which the non-plague type. We then inspected the third one. Upon entering we were shown different types of salt-bush and blue-bush. Our attention was then directed to the Mediterranean grass, which has been arousing quite a lot of interest in this State. We were then shown boxes containing soil from Kangaroo Island and from Robe. These soils were being experimented with for the purpose of finding their deficiencies.

Our guide then showed us a plot in which seeded pastures were growing. These pastures were much healthier than the natural ones. Opposite this plot a crop of lucerne was growing, and our guide told us of the lucerne flea and its bad effect on the crop.

We then left this portion and went to a large field in which we saw crops growing in rotation. There were many plots, and most of the crops looked quite well. Our guide told us of how important it was that they should find the best rotation for our climatic and soil conditions.

This was the last thing we saw, and all of us left the Institute with a much greater knowledge of its activities and interests.

R. J. W. (V c).

The Preparatory School Section

PREPARATORY SCHOOL NOTES

Once again the holidays are here, and after a year's good work we are all looking forward to our days in the open air.

We congratulate our dux, R. B. Potts; our School captain, J. P. Keeves; and N. G. Peters, who have been awarded the J. R. Robertson, the James Ashton, and the G. S. Cotton Scholarship, respectively.

Our good wishes for future success are extended to all III A boys who leave us this year to start their work in the big School next term.

We say good-bye to Mr. Forsyth. As a boy he attended the School for five years, and later returned as a member of the Prep. School staff. He leaves us to take up his duties at the Brisbane Boys' College, Queensland. For four years he has done excellent work in the form rooms, the boarding house, and on the playing fields. We shall miss such a firm friend, but our loss will be their gain. He takes with him our very best wishes for a happy and successful career. We also congratulate him on the completion of his degree.

This year we have re-organised the House system in the School. Boys in the upper forms are divided into the two Houses, Robertson and Chapple, and throughout the year the competition has been very keen. The coveted honour of having the first name on the "A. W. Welch Cup" has been won by Robertson House boys. We congratulate them on their victory. In this competition points

are given for all branches of form room work, for examination results, and for inter-House games.

The details of the points scored are as follows:—

	Chapple	Robertson
Cricket	6	9
Football	3	12
Athletics	—	9
Gymnastics	15	—
School Work	12	15
Examinations	9	18
Total	45 pts.	63 pts.

PREPARATORY SCHOOL ATHLETIC SPORTS

On Saturday, October 6, the Preparatory School sports were held on the Back Oval, and a large gathering of parents and friends were present.

This year several championship events were added to the programme, and points were given for the House competition as well as for the individual championships.

Favoured by a perfect day, everything went off very happily. Robertson easily defeated Chapple in the House competition, scoring 53 points to 9.

L. C. Jessup, who came first in the high jump and the 150 yds., won the open championship; W. D. Gray the under thirteen; and R. J. Hill distinguished himself by winning the under twelve and under eleven championships.

At the close of the meeting, Mrs. F. R. Hone kindly presented the cups and prizes to the successful competitors.

PREPARATORY SCHOOL, 1937

The grateful thanks of the boys are tendered to the following donors for their generous contributions towards the prize fund: Mrs. K. D. Maddern, Mrs. K. Fitzgerald Moore, Dr. F. R. Hone, Dr. H. G. Prest, Dr. L. W. Linn, Capt. T. R. Owen, Messrs. J. F. Ward, N. I. Gryst, P. R. Claridge, C. C. Brebner, R. A. Cheek, A. W. Perry, W. J. White, S. Harvey, A. W. Fricker, T. G. Jones, F. T. Cooper, J. S. Pearce, C. R. Sutton, F. W. Hassell, L. Crompton, J. T. Reid, E. W. Reeves, J. R. Johns, R. H. Cheek, G. I. Meller, J. F. W. Dunn, R. McEwin, J. A. Williamson, G. A. Jessup.

We take this opportunity of thanking all those friends who so kindly sent flowers for the decorations.

PREP. SCHOOL CRICKET

UNDER 13 "B" CRICKET

Of the eight matches played this term we have been successful in four, those against Pulteney Grammar, Queen's College, Adelaide High School "C", and one of the two played against St. Peter's College "B". We lost twice to A.H.S. "B", to our "A" team, and to St. Peter's College "B".

As is usual with boys under thirteen, batting aggregates were low, Davies being the most successful batsman with 96 runs for seven completed innings. Bowling figures were much better. Gray gained the best average with 7 wickets for 33, while Davies, with 24 wickets, led the aggregate. Ferguson, with 16, and Jessup, with 12 wickets, also bowled well.

As ten of the fifteen boys who were chosen to play are under twelve, the experience they have gained should make them valuable players next year. We feel that under age teams in the big School will benefit by their inclusion.

UNDER 12 CRICKET

The under 12 team played two matches and won both. As many of the boys eligible to play in this team played regularly in the under 13 team, preference was given to boys who had not had their experience. Despite this weakening of the side, it easily defeated King's College and Queen's College.

Results

P.A.C., 93, defeated K.C., 33.
Cooper, 21 retired; Davies, 20 retired; White, 3 for 9; Ferguson, 3 for 3; Davies, 4 for 15.
P.A.C., 54 for 6 wickets, defeated Q.C., 24.
Davies, 23 retired; Babidge, 13; Cooper, 5 for 7; Ferguson, 2 for 2; White, 2 for 7.

HOUSE CRICKET

During this term two matches have been played between the first House teams, and one between the second teams. Robertson and Chapple each won one of the first teams' matches, and Robertson defeated Chapple in the second teams' match.

Results—Firsts

Robertson, 129, defeated Chapple, 95.
Jessup, 48; Keeves, 18; Gurner, 2 for 27; Cleland, 2 for 6.
Puckridge, 16 not out; Gurner, 13; Jessup, 2 for 11; Ferguson, 2 for 15; Barraclough, 2 for 11.
Chapple, 8 wickets for 57, defeated Robertson, 7 wickets for 55.
Puckridge, 14; Babidge, 13 not out; Davies, 12; Jessup, 3 for 20; Makin, 2 for 12.
Keeves, 13; Davies, 4 for 15; Jew, 2 for 7.

A VISIT TO THE SHELL COMPANY'S INSTALLATION AT BIRKENHEAD

A party of boys from the Prep. and the big School met on Wednesday, December 1, at Shell House. Here a tourist bus, supplied by the Shell Company, met us, and took us to their installation at Birkenhead. We had all come prepared to write numerous notes for a scholarship essay that was to be written on the following day.

On arrival a master had his matches taken away. These, of course, he claimed on leaving. Then we were shown into a room, where we were told that petroleum is formed by the decomposition of plant, animal and vegetable matter. This is helped by the intense heat of the earth's interior, and the pressure of the earth on the decaying matter. The crude oil is pumped through pipes to a refinery, where it is distilled and refined. We were next told the countries where petroleum is found, and that Australia imports her petroleum from Sarawak in British North Borneo. The Australian plants are worth £4,000,000, and wages totalling £1,000,000 are paid to 3,000 men annually, and £1,000,000 is spent on the maintenance of Shell petrol pumps and advertising.

The South Australian installation covers an area of nine acres, and has 150 employees. The Birkenhead plant does not refine, but mainly blends to form products. The advantages and uses of Shell products were then told to us.

After this we saw the repair shop, where all necessary repairs are carried out. Then the tin

PREPARATORY SCHOOL CRICKET TEAM

PREPARATORY SCHOOL FOOTBALL TEAM

factory was seen, where tins can be produced at the rate of 5,000 a day. Next seen was the box factory, where cases are made, and then the wharf, where tankers unload their cargo. We saw where tins and drums are filled, and where blending machines do their work.

Next we saw the Northern Compound, where are situated most of the large tanks. Tanks 10 and 11 have floating roofs, which check evaporation to a certain extent, this is the Company's latest improvement. Altogether 16,000,000 gallons of oil can be stored in eleven large tanks and twenty smaller ones.

Next seen was the Laboratory, where all products are tested to ensure correct standard. Then we saw where delivery wagons and trains leave to transport petrol to country centres and suburbs.

Throughout the plant all possible precautions are taken by the Company for the prevention of fire.

J. K. (Prep.)

EARLY MORNING

The sun rises
Over the hills;
A blackbird sings
With happy trills.

The butterflies
Flit here and there,
And often rest
On flowers fair.

R. R.

THE STORMY NIGHT

The whistling wind
And slashing rain
Are beating on
My window pane;
The lightning streaks
Across the sky,
And tossing trees
They seem to sigh;
The road is dark
And cold and bleak—
It winds around
The mountain peak.

R. R.

A TRIP TO LOBETHAL

One day we set out in a big tourist car for Lobethal. On the way up we passed many small towns until we finally reached the Woolen Mills. We were sent out in little groups, and each group was warned to keep away from the machinery. As we walked up a path our guide pointed out a large tank, which he said was to soften the water for scouring. We asked if they got the water for scouring from the river Onkaparinga, but he said that they had three or four different wells which supplied them for such purposes. We then entered a part of the factory and saw several long troughs with fairly long iron spikes protruding into the water. Some of the machines were working, and we saw the wool having the grease washed out of it. After that process the wool had the briars taken out of it. Then it was put into a hot room, where it was dried. Then we went into a passage and we saw the engine that drove part of the works. It was made in Lincoln in

England. Unfortunately, we could only see this engine through a window. Out of this room we emerged into a room where the wool was dyed. It was shovelled into a large box, where it was dyed. After this the wool is combed into slivers about half an inch wide. This done, the wool is ready for spinning, and it goes to the spinning machine, where it is spun on little pegs or spools. These spools are then put on a large framework, shaped in the formation of a bicycle wheel, where the wool is run into a suitable pattern for a rug, perhaps, or even a blanket. Next we went into a very noisy room. This is the weaving room, where the smack, smack, smack of the shuttle, as it is hit from side to side, made it necessary for the guide to shout for us to hear him. We saw rugs of all patterns under construction. Then being mighty glad to get out of that room, we passed the big furnace of the engine that drives the other half of the factory.

THOUGHTS

I am not much use as a poet,
As these few lines will show;
My thoughts are often chaotic,
And my pencil unusually slow.

I would rather be out playing cricket,
A game that appeals to us all;
There is skill in the keeping of wicket,
And in wielding the bat or the ball.

R. D. H.

LIMERICK

A fellow whose name was Maloney
Once tried to ride a bush pony;
When it started to buck,
He had the bad luck
To land on a part that was bony.

M. P.

THE TOAD

Across the fields,
Across the roads,
There hopped and jumped
The racing toads.
One hopped and jumped,
And well he could,
Until he came
Into the wood.
He won the race,
An easy first;
He swelled with pride,
And then he burst.

R. B. McL.

HOLIDAYS

When I at home my homework do,
Arithmetic, grammar, and compo. too,
I long for the days at the end of the year,
When holidays start, and classrooms clear;
Of trips to the country and seaside, I dream,
Of swims in the ocean, and cold ice cream.

R. W. P.

HENRY VIII

King Henry VIII was a flighty lad,
A way with the ladies he certainly had;
H'd court them, and woo them, and ask them
to wed,
Then calmly but quickly he'd cut off their head.

T. O.

PREP. LIBRARY NOTES

Largely owing to the efforts of Mrs. P. T. Martin, of Semaphore, and her committee of ladies, we are able to report the inauguration of a Reference Library. Beginning as one of the stall committees for the Centenary Fete, these ladies have enthusiastically continued to show a practical interest in the Prep. School, and the tastefully furnished room, which houses the new library, reminds us, and will remind us of our debt of gratitude to them.

The Prince Alfred Collegians' Masonic Lodge has donated £20 towards furnishing the shelves. We also wish to thank Mr. and Mrs. Freak very warmly for their gift of the books that belonged to their late son, Eric. Those who realise

the absolute necessity of a good library in a modern school will know that our thanks is not merely formal.

The thanks of the School are also due to B. M. Cheek for a generous gift to library funds, and to Ferguson, J. Keeves, P. Martin, Puckridge, Reid, D. Thomas and Thurston, who have acted as librarians. Keeves, in particular, is to be commended and thanked for his very efficient handling of the onerous job of chief librarian.

At present we have only about 160 books on the shelves. The scope of reference is, therefore, strictly limited. Than the remedying of this deficiency, there could be few more important gifts to the School.

OLD BOYS'

SECTION

Edited and controlled by the Committee of Prince Alfred Old Collegians' Association, Incorp.

The co-operation of Old Boys is earnestly invited to make this part of the Magazine of real interest to all P.A. Collegians. Letters, reminiscences, or paragraphs containing news of interest about Old Boys, their whereabouts, and their doings, will be welcomed. All communications should be addressed to the Secretary.

From down the far years comes the clarion call:
"Your school and my school, the Best School of All."

Prince Alfred Old Collegians' Association, Incorporated

Founded 1878.

Patron—The Head Master.

President—Dr. A. G. Trott.

Vice-Presidents—Messrs. J. Crompton, W. J. Hiatt and F. L. Collison.

Hon. Treasurer—Mr. A. G. Collison.

Hon. Auditors—Messrs. J. H. Burgess and C. W. L. Muecke.

Honorary Secretaries—Messrs. L. B. Shuttleworth and L. P. A. Lawrence.

Committee—Messrs. G. T. Clarke, P. R. Claridge, H. N. Shepley, F. T. Cooper, H. H. Cowell, R. P. Goode, T. C. Craven, M. W. Evans, C. J. Glover, M. S. Joyner, S. G. Lawrence, F. E. Piper, L. S. Walsh and L. S. Clarkson.

Messrs. Craven, Clarkson, Claridge, F. L. Collison and Cowell are also Members of the School Council.

PAST PRESIDENTS—

Year.	President	Year.	President	Year.	President
1878-1891	J. A. Hartley	1904	P. E. Johnstone	1925	L. D. Waterhouse
1892-3	E. B. Colton	1905-09	W. R. Bayly	1926	T. C. Craven

1903	G. W. R. Lee	1924	M. Erichsen	1936	F. L. Collison

The Objects of the Association are: To keep Old Boys, wherever they may be, in touch with one another and with the boys at the School; also to foster and maintain their interest in the School.

"Old Boys' Week" is observed annually towards the end of July, during which a dinner and other social functions as well as sports contests are held. Also social gatherings are held whenever any occasion arises that makes them desirable.

The Association has donated the following Scholarships to the School:

H. W. A. Miller (Old Collegians') Scholarship.

J. A. Hartley Scholarship.

Fredk. Chapple Scholarship.

W. R. Bayly Scholarship.

A. G. Collison Scholarship.

"The P.A.C. Chronicle," of which a large part is devoted to matters of special interest to Old Boys, is forwarded to each member of the Association.

The subscription is six shillings per annum. It is suggested that Country Members should remit sufficient to cover four years' subscription or become Life Members by payment of £5 5s. Any Old Boy wishing to become a member can do so by forwarding his name and address to the Head Master, or to any member of the Staff, or to one of the Secretaries.

Editorial

As the social and economic structure of our Australian democracy changes, so must our education adapt itself to new conditions. The business of the educator, says one authority, like that of the statesman or the medical man, is to promote the welfare of those under his care. This worthy aim was reiterated in the last annual report of the Headmaster, who said it was a definite part of our desire to make our School activities cover all sides of a boy's life and interests.

Not only heads, but hands, need training, and the introduction this year of manual work into the School curriculum is keeping abreast of the times. It was once thought that "Jack of all trades was master of none," and had no niche in the economy, but today it is the "all rounder" who finds a place in a cricket team as well as in large scale commerce and industry.

For too long have the merits of an all-round education, combining a measure classical, as well as modern and "useful" subjects, been overlooked by educationalists. Admittedly it is the day of specialists in many respects, but all cannot specialize; all cannot reach the top, so an all-round education best fits the average boy.

The main purpose of craft training about to be introduced at the School is

to develop skill and competence. It will also promote a general expansion of the faculties.

The premature addition to the curriculum of manual work designed only for specific occupational value was not justifiable, but experience at home and abroad has now shown the need for a wider outlook in our secondary education.

The cinema and wireless are little less important in education than books, and manual training is as important as any of them. Some boys, says the Headmaster, feel that they are failures because of their inability to learn. Craft work will give them opportunities to express their creative faculties and at the same time give them renewed interest in academic studies.

Professor Portus, speaking at a Conference in Canberra in 1936 on educating a democracy, said, "The specialist, of course, will argue, 'Let the cobbler stick to his last; we do not want an all-rounder. We do not want a man who knows a little about a lot of things, because he knows little about anything at all.' I think," says Professor Portus, "on the contrary, there is a very definite place for all-round men."

May the new venture prove more conclusively than ever that "Reds can't be beat."

Our President

Dr. Arthur G. Trott, our newly-elected President, attended the College from 1899 to 1904 (School Reg. No. 3918). In 1905 he proceeded to London and commenced the study of Dentistry at the Royal Dental Hospital, Leicester Square, London, where he obtained his L.D.S.

and was captain of the 1903 team. He also represented the College in Intercollegiate sports in 1903 and 1904, and in 1903 established the long-jump record for the Intercollegiate sports. He has been a member of this Association for a great number of years, and for several

DR. ARTHUR G. TROTT

Diploma of the Royal College of Surgeons, England, in 1909.

He then proceeded to the United States of America, and continued his studies at the University of Pennsylvania, Philadelphia, obtaining his D.D.S. degree in 1910.

Upon his return to South Australia he commenced practice in association with the late Dr. G. W. Trott.

He represented the College in Intercollegiate gymnastics in 1901 and 1904,

years served on the Committee before being elected Vice-President in 1936.

His present recreations are tennis and golf. We all wish him a very happy and successful term of office.

Dr. Trott is particularly desirous of maintaining the interest of country members in the Association, and hopes to attend many country reunions during the coming year.

Life Members' Certificates

Life Members who have not yet received their membership certificates are requested to communicate with the Secretaries.

The newly-designed Life Membership Certificates are now available. These will be issued under the seal of the Association, and are obtainable by all Life Members upon payment of 2/6 to cover necessary costs of printing.

Life Members who have been already issued with old style Certificates are eligible to obtain a new Certificate if they so desire.

Old Collegians' Scholarships

It is pleasing to learn that the holders of the Old Collegians' Scholarships are still making very satisfactory progress.

The Scholarships are awarded on the Rhodes Scholar lines, and the Association Committee devotes much care and attention for the selection of applicants. One Scholarship became available at the end of last term, and this has been awarded to Charles R. Carter, son of Mr. Howard O. Carter, of Medindie.

In the recent examination held at the School, Master Carter obtained top position out of over 50 candidates (including entrants for the College Scholarships).

Mr. Howard O. Carter is a member of the Association, and entered the College in 1904.

The following are extracts from the third term reports of the scholars:—

No.	No. in Form	Position	Remarks
A	33	2	Excellent progress. He has improved all the time and should go far.
B	33	3	He has completed an excellent year's work.
C	33	5	He has worked earnestly, and the results have won for him a very creditable position in the form.
D	33	22	He has worked conscientiously and well. He has just completed a satisfactory year's work.

College Endowment Fund

In connection with the Centenary Fete held last year many will remember the Art Union arranged for two paintings by the Late James Ashton and an etching of the School. At the Annual Meeting Messrs. P. R. Claridge and A. G. Collison were appointed as scrutineers, and the draw resulted in the following:—

First prize: Mr. J. F. Ward.

Second prize: Mr. L. S. Walsh.

Third prize: Mrs. C. H. Shuttleworth.

Several additional contributions have been received, and the fund is still growing.

While the Committee is anxious to build the fund up as quickly as possible it would welcome payments of even small

instalments from those who are unable to make payment of a large amount.

Previously acknowledged	£2,433	4	0
Dr. S. L. Corry (2nd instal.)	6	2	7
Proceeds Art Union	3	16	0
Tideman, E. P.	1	1	0
Tideman, G. A.	1	1	0
Annells, C.	1	0	0
Total	£2,446	4	7

ASSOCIATION TOKENS

Association Tokens will be issued to members upon payment of 20/-. These remain the property of the Association, and are returnable if the holder ceases to be a member. To the end of December last, 1,405 tokens have been issued.

Mr. H. B. Piper

Mr. H. B. Piper was the second of the six sons of the late Mr. Justice Piper to attend the College. He was born on the 26th April, 1894.

He entered the College in 1902, and left in 1910, going straight on to the University, where he studied Law, serving his articles with his father's firm.

While at College he passed the Higher Public Exam. in 1910, and regularly played football and cricket for the Col-

Piper), Solicitors, and practised his profession as a member of that firm until his appointment to the Arbitration Court Bench.

At the time of his appointment he was Vice-President of the Law Society of South Australia, and a Vice-President of the Liberal & Country League, and was also a lecturer in legal subjects at the University of Adelaide. He was President of the Old Collegians Association in

MR. H. B. PIPER

lege second teams, although he did not succeed in attaining a place in the Inter-collegiate matches.

He obtained his LL.B. degree at the University in 1914 at the age of 20, and was admitted to the Bar in April, 1915. At the time of his admission he was a member of the A.I.F., and served in Egypt and France until his discharge in 1919.

Upon his return from the Front he became a member of the firm of Bakewell, Stow & Piper (now Piper, Bakewell &

1927, and a member of the Committee from 1920 to 1929. For a period he was a member of the House Committee of the College.

In 1936 he was Chairman of the South Australian Lotteries Commission, and last year he was appointed Chairman of the South Australian Government's Commission to enquire into betting matters.

We offer him our heartiest congratulations upon this important appointment, and wish him every success for the future.

Purely Personal

Dr. B. M. Jolly has been appointed a Resident Medical Officer at the Adelaide Hospital.

Mr. F. T. Perry, M.P., a vice-president of the S.A. Chamber of Manufacturers, has been on a visit to Ceylon.

Mr. Emil. Buring has recently returned from a long holiday abroad, and during his trip he visited many parts of Europe.

Mr. James F. Jenkins has been re-appointed a member of the Board of Management of the Port Pirie Hospital.

Mr. C. Viner Smith, Vice-President of the Stock Exchange of Adelaide, has been seriously ill, but we are pleased to learn that he has now recovered.

Messrs. C. A. E. Sullivan, F.C.A. (Australia), and H. E. Fuller, F.R.A.I.A., have been appointed to the Council of the Institutes Association of South Australia.

Messrs. Alexander Melrose, LL.B., and Henry E. Fuller, F.R.A.I.A., have been appointed to the Board of Governors of the Public Library, Museum and Art Gallery of South Australia.

Dr. Alec Dawkins, of Adelaide, has passed the final examination in the orthopaedic course leading to the degree of Master in Surgery (M.Ch.) at the Liverpool University, according to a cable message received in Adelaide.

Mr. G. S. Reed, K.C., formerly Acting Judge of the Supreme Court, has been appointed by the Executive Council as a member of the Statutory Committee of the Law Society in place of Mr. H. B. Piper, who has been appointed a judge of the Federal Arbitration Court.

Mr. O. A. Witt, former headmaster of the Port Adelaide Central School, with his wife and daughter, returned to Adelaide by the "Strathaird." They have been touring the Continent and England, and returned by way of Panama, spending some time in New Zealand and Sydney.

Mr. A. E. Paton, assistant manager of the South Kalgoorlie Mine, Western Australia, arrived on the East-West express, and left later by the Melbourne express on his way to Fiji. He will inspect and later report on the Loloma and Emperor Mines for their directors. Mr. Paton is formerly of Adelaide, where he graduated.

Dr. Hugo Flecker, formerly of South Australia, has been visiting friends in this State for a few days, accompanied by his wife and daughter. Dr. Flecker has specialized in radium treatment, and after some years' practice in Melbourne went to Cairns (Queensland), where he is now living. The Sydney University recently granted him a diploma in radiology.

Mr. A. M. Bills, who gained his B.A. degree at the University of Adelaide in 1931, has returned to Adelaide after an absence of several years abroad. He was accompanied by his wife. After having graduated here Mr. Bills went to England, where he studied at Oxford University. There he read for the degree of philosophy, and later took up journalism. Mr. and Mrs. Bills joined the "Viminale" at Florence for Australia.

At a meeting of the Adelaide University Senate, Mr. J. F. Ward was elected a member of the University Council to fill the vacancy caused by the death of Mr. W. R. Bayly. There were 354 members present, and it was probably the keenest triangular contest for any University Council election. This Association congratulates Mr. Ward upon his election, and members can claim to have given him valuable support.

At a meeting of the Board of Trustees of the Savings Bank of South Australia recently, Mr. J. C. A. Rundle was re-elected chairman of trustees. Mr. Rundle, who was appointed a trustee of the bank on December 21, 1905, has served in that capacity continuously for 32 years—a period exceeded only by Sir Henry Ayers (39 years), Sir E. T. Smith

(46 years), and Sir Herbert Phillipps (35 years). Mr. Rundle has been chairman since the death of Sir Herbert Phillipps early in 1935.

K. W. Vernon Smith, who obtained his B.E. Degree last year, accepted the position as an engineer on the s.s. "Cape Wrath," and sailed for England in May last. After visiting Liverpool, London, Cardiff and Barrow-in-Furness, he settled down with a position as "test engineer" with Willans Branch of The English Electric Company at Rugby. There they have 1,100 men occupied in the manufacture of turbines and Diesel engines, and some very big jobs are put out from these works.

Mr. John Reynolds Cock, of Esplanade, Grange, left in the "Cathay" recently for a course of aviation training at the Royal Air Force College, Uxbridge, England.

Mr. Cock is the only South Australian in a group of seven from Australia. He will receive his training under a new scheme by which young Australian men are nominated direct to the Royal Air Force instead of having to serve a two-year training course in Victoria before being transferred.

On arrival in England he will serve for three months in a civil flying school before beginning training at Uxbridge. He will remain at the college until he gains his pilot officer's commission.

Mr. Clem Hill has been appointed handicapper to the Victoria Amateur Turf Club. Mr. Hill will begin his duties early in the New Year.

Since 1928 Mr. Hill has been handicapper to the South Australian Jockey Club and the Adelaide Racing Club. Before adjusting the weights for these clubs Mr. Hill was a stipendiary steward, being one of the first to be appointed in 1913, when the governing racing body first adopted the system of paid stewards.

Mr. Hill was regarded as the greatest left-hand batsman the world had seen. In first-class cricket he scored 44 centuries. He led Australia in Test matches against England and South Africa. In his matches for this State he aggregated 8,027 runs.

The following have been appointed Honorary Clinical Assistants at the Adelaide Hospital, viz.—

Medical Section—

Raymond Thomas Binns, M.B., B.S.
Ivan Sandilands Magarey, M.B., B.S.
Robert Frank West, M.B., B.S.,
M.R.C.P.

Surgical Section—

Garton Maxwell Hone, M.B., B.S.
Sydney Krantz, M.B., B.S., F.R.C.S.
Douglas Gordon McKay, M.B., B.S.,
F.R.C.S.

Dermatological Section—

Leslie Wadmore Linn, M.B., B.S.

The big prize of the anniversary celebrations Art competition will go to an Adelaide painter, and other prizes to Sydney artists.

It is understood that the Art advisory Committee will make the following recommendations to the Minister in charge (Mr. Dunningham):—

"Prize of 250 guineas, given by the Commonwealth Government for an oil painting illustrative of Australian development, goes to Ivor Hele, of Adelaide."

The picture, measuring about 5 ft. by 4ft., shows two explorers, one on horseback, studying a prospect in the new land.

The competition was open to all Australian artists.

We offer him our heartiest congratulations upon his success.

The artistic work of Mr. Ivor Hele received further appreciation when he was recently commissioned to paint a portrait of Sir Robert Chapman of the Adelaide University.

ANNUAL SUBSCRIPTION

Ordinary Members are reminded that the subscription for the current year, viz., 6/-, is now due. The Committee will be pleased if members will kindly remit their subscriptions to the Secretaries as early as possible. The financial year ends on the 30th September. Cheques and Money Orders should be made payable to "Prince Alfred Old Collegians' Association."

At Home and Abroad

Mr. W. J. Purvis, of 8 Pickering Street, Brompton Park, who entered the School in 1871, writes:—

"I was very pleased to accept the School Council's invitation to the gathering at the College in November last to commemorate the 70th anniversary of the founding of the College. I knew very few of those present. This gathering appealed to me, because in 1869 I was in attendance at the inaugural breakfast of the opening of the School. The photographs of this function, held in a huge marquee, were copied by the late Mr. Justice Piper from an original photo still in my possession. The tickets were £1/1/-, blue printed on gold. I had mine for many years, but do not know what became of it. My Dad and my old dominic, John Millard, decided to attend, and the dominic suggested that I be taken. I was a lad of ten years of age. It would be interesting to know of any others still above the daisies who were present on that occasion."

We are pleased to hear from Mr. Thomas A. Edmeades, who is now residing at No. 15 Pollards Hill South, Norbury, London, S.W.16, as follows:—

"Your letter of 20th ultimo arrived here last evening informing me that at a Committee Meeting held on 19th August last I had been elected an Honorary Member of your Association for life.

"I appreciate very highly the honour conferred on me, which I note is a mark of esteem and regard for me as one of the foundation scholars of Prince Alfred College, and I beg to tender my sincere thanks to your Committee.

"I believe my name is No. 22 on the list of 28 boys enrolled at Prince Alfred College when the School first opened in the Pirie Street Lecture Hall on the 18th January, 1869, and that only five of the foundation scholars are now alive.

"When living in Australia I watched with pleasure and pride the progress made by my old School, but for over fifteen years past I have been touring about the world, mostly on this side of the hemisphere, and have not been in touch with the doings of P.A.C., so I shall be very interested to receive regularly the College Chronicle, together with other Association papers.

"My postal address is: "C/o The National Bank of Australasia Ltd., 7 Lothbury, London E.C.2, England."

Monthly Luncheons

The usual monthly luncheons will be held during this year, and as previously will be held on the last Thursday in the month at the Piccadilly Restaurant, Rundle Street, at 1 o'clock, and the address will be finished by 1.50 p.m., so as to allow those who attend to punctually resume their duties.

At the September meeting, which was held during Show Week, Mr. R. W. R. Hunt, M.P., of Bordertown, gave an interesting address on "Decentralization," and we were pleased to see several country members present.

Mr. J. H. O. Eaton, who was formerly Engineer-in-Chief in the Water and Sewer Department, at the October luncheon gave some very interesting facts about the Boulder Dam, U.S.A., and at the November luncheon Mr. E. P. Buring, who recently returned from abroad, told those present "how an Australian is received abroad."

You are requested to note the following dates, and endeavour to be present: Thursday, February 24, March 31 and April 28.

Old Boys About Town

No. 27

MR. ERNEST A. KESTING

Mr. Ernest A. Kesting is New South Wales Branch Secretary. Born at Norwood, South Australia, he has resided in Sydney for five years. He holds the degree of Dip.Com. (Adelaide), and in 1936 won third place for Australasia in securing the degree A.I.I.S.

He is bursar of Newington College, Stanmore, N.S.W. His sense of humour

and appreciation of responsibility makes him efficient for a very active life and understanding of men. He has charge of organisation for the December Fete which Newington College plan for the purpose of raising a quota towards the money required to build a new Preparatory School, and already success is in sight.

Obituary

BAYLY—On the 9th November, at his residence, Wootona Terrace, Glen Osmond, William Reynolds, husband of Elizabeth Bayly, aged 71 years. He attended College 1880-1882 (School Reg. No. 795), and was a Life Member, No. 25, of this Association. A tribute to our late Headmaster is included in another part of this Chronicle. Members will appreciate the address given by the Rev. Brian Wibberley at the funeral service:—

"It is fitting that a devout thanksgiving should here be offered, and I am desired to speak a word—necessarily brief and lamentably inadequate—a word of simple and sincere appreciation of our late beloved friend, and to lay upon his dust this token, however imperfect, as friendship's memorial of a 40 year's happy fellowship.

"Today, thousands will mourn with us the loss of his massive personality, his wise understanding, his charming courtly courtesies. Those who were privileged to know him in the privacies and intimacies of life will ever remember with what exquisite grace he moved among us.

"His versatility provided many and varied interests, in all of which he was ever the soul of honour, a wise counsellor, a loyal friend, and Christian gentleman. 'He nothing common did, or mean.' Of course, his pre-eminent pursuit in life was, next to religion, education. He was a great master of a great School. He was more: he was a master of life, a maker of men, a moulder of character.

"But he would have graced any learned profession he might have chosen—Law, Science, or Letters—where convincing eloquence would have won him high place. He toiled terribly and paid full price for all he won. His calm, keen insight penetrated deeply the realities of time and eternity. Ever obedient to the heavenly vision and that 'stern law-giver,' Duty, to him

'Life is not as idle ore,
But iron dug from central gloom,
And heated hot with burning fears,
And dipt in baths of hissing tears,
And batter'd with shocks of doom
To shape and use.'

"'Know ye not that a great man and a prince has fallen?'

"That friend of ours now lives in God, and for him, at least, there is nothing here for tears; the hunter is home from the hill; his quest accomplished; life's ultimate secret learned.

'For Death is but a narrow way
Which opens into light,
Wherein no blinded child can stray
Beyond the Father's sight.'

"Our thoughts go out in tender sympathy to your darkened home, where, amid the shadows of inexpressible grief and irreparable loss, those

who loved him best sorrow most, and for whom we can but pray—

'May all love,
His love, unseen but felt, o'ershadow them,
Till God's love set them at his side again.'

BENDALL—On 13th December (suddenly), Bert, beloved husband of Violet Bendall, aged 63 years. In June he resigned his position as alderman in the Adelaide City Council to contest the election for the Lord Mayoralty. He had served in the council for four and a half years. Mr. Bendall was a member of the Unley City Council for 11 years, being mayor for two years. He was born at Prospect and educated at Prince Alfred College, 1882 to 1884 (School Reg. No. 1101). He was a chartered accountant. Mr. Bendall was associated with many sporting bodies, and was prominent in Masonic circles. He played cricket, lacrosse and football in his younger days, and tennis and bowls in more recent years.

BERRY—On 17th October, at Largs Bay, Joseph Gordon, dearly beloved husband of Gladys E. M. Berry, aged 46 years. He attended College 1899 to 1904 (School Reg. No. 3250). At the time of his death he was employed as stock auctioneer for Goldsbrough, Mort & Co. He was a loyal servant to his Company, and inherited the placid temperament of his father (the Rev. Joseph Berry). He served overseas in the A.I.F., and was invalided home in 1917. His genial disposition created many friendships, and he will now be sadly missed by many Old Boys.

DOWIE—On 17th November, at Rose Park, C. Stuart Dowie, aged 63 years. He attended College 1882-1890 (School Reg. No. 1163).

GEORGE—On 23rd September, Maxwell Lloyd, only beloved son of D. S. and L. M. George, of Wilmington, aged 25 years. He attended College 1926-1929 (School Reg. No. 6309), and was a Life Member of this Association, No. 870.

GOODE—On 23rd November, at Cottesloe, Western Australia, Edward Francis, second son of the late Matthew Goode, of Adelaide, aged 73 years. He attended College 1872 to 1877 (School Reg. No. 212).

GURNER—On 2nd November, Walter, dearly loved father of Colin Gurner, aged 68 years. He attended College 1884 to 1885 (School Reg. No. 1445). Mr. Gurner was a true and loyal supporter of the School and Association, and was always ready to assist in a practical manner any worthy School project. He was a keen bowls enthusiast, and took part regularly in the Old Scholars' bowls matches.

HARRISON—On 2nd October (result of accident), Kenneth James, dearly beloved son of Mr. and Mrs. Samuel Harrison, of Kanowna Road, Largs Bay, aged 20 years. He attended College 1932 to 1934 (School Reg. No. 6898).

HOWELL—On 19th November, at Norwood, Charles Edwin Howell, aged 65 years. He was born at Kent Town and educated at the Norwood School, and later at Prince Alfred College, 1886-1887 (School Reg. No. 1,720). At the age of 16 he was appointed to the Customs Department at Port Adelaide, and was later transferred to the excise branch of the department as an inspector of excise. Mr. Howell remained in the excise branch until his retirement from the Commonwealth service 12 months ago. He was well known in the viticultural districts of the State. He took a keen interest in sports of all kinds, having taken an active part in amateur cycling, running, swimming and football during his younger days. He had for many years been a member of the Norwood Bowling Club.

PINCH—On 17th September, at Wakefield St. Private Hospital, Alan L. Pinch, aged 48 years. He attended College 1903-1906 (School Reg. No. 3,622). He was awarded the Colton Scholarship in 1905, and passed the Higher Public Exam. in 1906, gaining 14th position on the list. He then attended the Adelaide University, and was admitted to the Bar in 1913. For many years he practised his profession in partnership with Mr. L. A. Whittington. While at the University he was a keen lacrosse player, and represented Adelaide in Interstate University contests for four years. Ill health interfered with his work and he retired from practice in 1926. For many years he has resided at Bridgewater and Waikerie.

PORTER—On 4th October, Frederick Windmill Porter, of "Cosford," Edwin Terrace, Gilberton, the beloved husband of Clara F. N. Porter, aged 56 years. He attended College 1892 to 1898 (School Reg. No. 2476), and was a Life Member, No. 263, of this Association.

PORTER—On 9th November, at his residence, 100 Suburban Road, South Perth, W. A. Ernest Saunders Porter, aged 75 years. He attended College 1876-1878 (School Reg. No. 498).

PRICE—On 1st December, at Mt. Gambier, Edgar James Price, aged 62 years. Another of Mt. Gambier's most prominent residents and business men died after a brief illness. Following the death of his wife ten days previously, Mr. Price was admitted to a private hospital, but did not rally. Born at Kapunda, Mr. Price completed his education at Prince Alfred College, 1885 to 1889 (School Reg. No. 1958). He afterwards entered the service of the Savings Bank, and at an early age became a fully qualified accountant, being an associate of the Institute of Accountants of South Australia. He first went to Mt. Gambier to open the local

branch of the Savings Bank, which he managed until his transfer to Kadina some years later. After several years at Kadina he resigned in 1913, and returned to Mt. Gambier, where he entered into partnership with Mr. J. H. Sheppard as accountant, land and estate agent. Five years later he purchased the business of the late Mr. S. J. Norris, which he conducted until the time of his death. In addition to his activities as an accountant and agent, he was the local representative of S. C. Ward & Co., share-brokers, and a director of Fidler & Webb Ltd., which firm he managed for 12 months while the manager was abroad on holidays. He was also a director of Central State Worsted Ltd. until the woollen mills were taken over by S.A. Worsted Mills Pty. Ltd., and he was interested in various other enterprises. He was a keen garden lover, and was connected with the A. and H. Society as a committeeman and judge for many years. He was also a versatile musician and elocutionist, and his services were in great demand for local entertainments. He was conductor of the Christ Church Choir and Orpheus Society for long periods, was people's warden at Christ Church, and a supporter of charitable organisations. At the time of his death he was Worshipful Master of the Masonic Lodge, and had been secretary for a number of years before taking that office. Two sons and one daughter survive—Messrs. Robert Price, of Oxford University; John Price, of Kimberley, W.A.; and Miss Mary Price, of Mount Gambier.

SHEPLEY—On 3rd October, at a private hospital, Herbert Thomas Charles, beloved husband of Florence A. Shepley, of 19 Godfrey Terrace, Leabrook, aged 65 years. He attended College in 1887 (School Reg. No. 1825). Mr. Shepley was a member of the Marryatville Bowling Club, and represented this Association in the Annual Old Boys' Bowls Match.

SMITH—On 29th December, at North Adelaide, Frank, beloved husband of Edith Mary Smith, of North Esplanade, Grange, aged 62 years. He attended College 1889 to 1890 (School Reg. No. 2108). Joining the Church office staff under Augustus Sturcke in 1892, he succeeded George Grundy as Accountant in 1899, and as Secretary in 1931. He was Secretary of Synod, Standing Committee, and the Financial Board, Registrar of the Diocese, Curator of the North Road Cemetery, and Secretary of the Leigh Trust. The accounts of the Bishop's Home Mission Society, St. Barnabas College, Dean and Chapter, and many Church funds were under his charge, and he attended most of the committee meetings. He was a cautious but sound business man, with a strict respect for precedents and a disinclination to welcome innovations till they had been thoroughly tested: not a bad qualification in a sphere where sanguine amateurs often put forward half digested schemes for ingathering or disbursing conjectural funds. In his younger days Frank Smith was a member of the Adelaide Rowing Club, and fond of tennis and swimming; golf

he played occasionally till the end. He was a Past Master of the Prince Alfred Collegians Masonic Lodge, a member of the Modern Pickwick Club and the Commonwealth Club, and Secretary of the South Australian Refuge (Norwood), 1923-31. Always courteous, unassuming, conscientious and methodical, he was a loyal friend and a trusted official, and will be long remembered by many for unobtrusive acts of kindness. He lived to see his son called to the Bar, and himself died at his post, as he would have wished.

WEBB—On 16th October, at his residence, 36 Westall Street, Hyde Park, Noel Augustin Webb, aged 71 years. He attended College in 1882 (School Reg. No. 1093), and matriculated first class in that year. He was for many years on the General Committee of this Association, and was elected President in 1913-1914. Many Old Boys will remember his stirring addresses during the early days of the Great War and of his patriotic work. Widely known as a practising solicitor, special magistrate and Arbitration Court judge, Mr. Webb became a prominent legal authority in South Australia at a comparatively early period of his career. He was the eldest son of the late Rev. A. Webb, taking his LL.B. degree at the Uni-

versity of Adelaide. He was called to the South Australian Bar in the following year, and practised his profession at Port Augusta. He returned to Adelaide in 1897, and joined the firm of Nesbit, Webb & Nesbit, of which firm the late Mr. Paris Nesbit, K.C., was the senior partner. Mr. Webb later became associated with Mr. Frank Kelly. He was appointed to succeed Mr. Commissioner Mitchell as Special Magistrate at Port Pirie, and in December, 1916, took his seat on the bench of the Industrial Arbitration Court of South Australia. He was Deputy President for six years. In 1922 Mr. Webb was appointed Deputy President of the Federal Arbitration Court. He was not re-appointed on the reconstruction of the Arbitration Court, and returned to South Australia, where he resumed private practice. Mr. Webb at one time was active in political affairs, and made an effort to enter Parliament. He was at one time Mayor of Port Augusta. Mr. Webb has left a widow, two daughters, and three sons—Mrs. D. A. Burnard, of Sydney; Miss Nancy Paton Webb, of Sydney; Messrs. Beecher Noel Webb, solicitor, of Alice Springs; Dudley Webb, of Adelaide; and Peter Noel Webb, who is at present with the Commonwealth geological survey party in Northern Australia.

Branch Reunions

STRATHALBYN

The first combined Reunion Dinner at Strathalbyn was held on Saturday, 4th December at the Terminus Hotel.

Forty-eight old scholars were present, of whom twenty-one were Princes.

Mr. N. D. Richardson (Princes) occupied the chair, and proposed the toast "The King."

The toast to the Colleges was proposed by Rev. H. Woolnough (Saints), and responded to by Rev. Guy Pentreath and Mr. J. F. Ward.

The toast "Our Associations" was entrusted to Mr. H. H. Pitt (Princes). Dr. A. G. Trott and Mr. J. H. Gosse responded on behalf of their respective Associations.

Items were rendered by Messrs. R. P. Johnston and H. H. Pitt (Princes), and the accompanist was G. G. Chapman (Princes).

Community songs were sung with great enthusiasm.

A fine tribute was paid to the late Mr. W. R. Bayly, former Headmaster.

The new Association tie found favour with many members.

Mr. Ward, during his response, referred to the progress now being made by the School and the improvements effected in regard to the Preparatory School, and also in respect to the new building to be erected for manual training.

Dr. Trott, on behalf of the Association, congratulated the Committee on their excellent arrangements, and expressed hopes that the function would become an annual affair, and promised support of the Association at future gatherings.

The following Old Reds were present:

G. G. Chapman	Doug. Richardson
Dr. H. H. Formby	Rev. W. S. Statton
G. E. Harris	H. H. Statton
J. B. Hastwell	W. W. Statton
R. P. Johnston	R. M. Tucker
A. G. Lee	G. D. Whittam
R. D. Meyer	J. F. Ward
E. R. Nicholls	L. B. Shuttleworth
H. H. Pitt	L. P. A. Lawrence
M. B. Prime	Dr. A. G. Trott
N. H. Richardson	

The Joint Secretaries were Mr. H. B. Prime (Princes), and Mr. L. A. Wadlow (Saints).

Annual Meeting

The Fifty-ninth Annual Meeting of the Association was held at the College on the 25th November, and about 60 Old Boys were present. The President, Mr. F. L. Collison, occupied the chair, and in the course of his remarks stated that this Association is the largest of its kind in Australia, the membership now being 2,252, of which 918 are Life Members. This is a satisfactory increase of 40 over last year's figures. The financial statements for the year were quite satisfactory, and showed a small surplus, whilst the capital account still continued to increase.

The financial statements having already been forwarded to members were adopted.

As a mark of respect for our late Headmaster, members stood in silence for two minutes. Mr. Collison informed those present that the question of a suitable memorial to the late Mr. W. R. Bayly would be taken up with the School Council.

The President also stated that the "Old Collegians" Scholarship would in future be known as the H. W. A. Miller Scholarship as a mark of appreciation for Mr. Miller's work in connection with the School and the Association.

The following officers were elected:— Patron, The Headmaster; President, Dr. A. G. Trott; Vice-Presidents, Messrs. J. Crompton, W. J. Hiatt and F. L. Collison; Hon. Treasurer, Mr. A. G. Collison; Committee, Messrs. P. R. Claridge, G. T. Clarke, F. T. Cooper, H. H. Cowell, T. C. Craven, M. W. Evans, C. J. Glover, R. P. Goode, M. S. Joyner, S. G. Lawrence, F. E. Piper, H. N. Shepley, L. S. Walsh, L. S. Clarkson; Hon. Auditors, Messrs. J. H. Burgess, C. W. L. Muecke; Joint Hon. Secretaries, Messrs. L. B. Shuttleworth and L. P. A. Lawrence.

Mr. Collison congratulated Dr. Trott on his election as President, and on be-

half of the members of the Association expressed a hope that he would have a happy and successful term of office.

Dr. A. G. Trott, in responding, stated that he was particularly anxious to revive interest in country reunions, and hoped to attend several gatherings during the coming 12 months.

In proposing a vote of thanks to Mr. F. L. Collison he congratulated him upon his very successful year, and particularly in connection with his successful work in regard to the Endowment Fund.

A vote of thanks to the Honorary Auditors was carried unanimously. Mr. L. S. Clarkson proposed a vote of thanks to Mr. and Mrs. Ward for their assistance during Old Boys' Week and at other functions, including the Association Committee Meetings.

At the conclusion of the meeting Mr. A. E. J. Klose, with the assistance of some senior scholars, gave a picture show on the various School activities, which proved very interesting.

Members then adjourned to the dining hall for refreshments.

COMMITTEE VISITS SCHOOL

At the invitation of Mr. J. F. Ward, just prior to the close of the third term, the President, Dr. A. G. Trott, and several members of the Committee attended the Morning Assembly at the College.

Dr. Trott addressed the senior boys who were about to leave, giving them a brief outline of the activities of the Association and its objects, and urging them all to join the Association immediately and continue their relations with the School, unbroken.

Old Boys in Sport

OLD COLLEGIANS' FOOTBALL CLUB

We regret that an error occurred on page 129 of the September Chronicle. The trophy for the best player of the "B" Team, presented by Mr. F. L. Collison, was awarded to R. K. Masters, and not to T. Cotton, as previously stated.

CRICKET

At the function arranged to commemorate the 70th anniversary of the laying of the foundation stone at the College, Old Boys of many different vintages were present. One of the older and more matured—an 1880 vintage to be concise—was particularly reminiscent, and besides admitting offences which perhaps it would be wiser not to publish for fear of sidetracking the illustrious scholars that now fill the desks, he unearthed a most interesting, and I think previously unrecorded, item of sporting interest. In the seventies of the last century a young lad in Richard Henderson entered the School, and eventually graduated to the first cricket team, his skill as a bowler, so it is whispered, being the outcome of conscientious practice in the quince fights that were wont to occur in those days. After a digression into the art of quince fighting the reminiscent Old Boy—no other than the matured Richard Henderson—went on in all modesty, yet natural pride to report that in the oval cricket match of 1880 he captured three Saints wickets with consecutive balls—an hat trick that has escaped recognition.

Speaking of unrecorded hat tricks reminds me that Colin Alexander, during the five-day Intercollegiate of 1924, was responsible for a hat trick of most unusual character. After taking a wicket with the last ball of an over he was taken off, and did not resume bowling for six or eight overs. Coming on again, however, he took two more wickets with his first two balls. Hat tricks of this species are rare. Shortly afterwards Colin blos-

somed into one of the most stylish batsmen in Australia, but the prophesy of many that his scintillating bat would flourish and sparkle at Lords, and the Oval, and Old Trafford was never fulfilled.

Very seldom is it that two brothers play in the same cricket eleven—two sets of brothers would be rarer still—three sets, one would say to be bordering on an impossibility, but in the Old Collegians' team—rare body of folk that it must be—are to be found four pairs of brothers: The Walsh's (Norm. and Laurie), the Male's (Garnet and Euston), the Clarkson's (Len and David), and the Newman's (Harry and Howard), and I am led to believe that the family interest goes a step further in the father and son combination of Harry and Peter Kirkwood. Intending members should send in their applications for membership accompanied by family qualifications. If, unfortunately, you are brotherless, then it looks like another case of "just too bad."

Whilst on the subject of the Old Collegians' Cricket Team I noticed recently that Len Clarkson took 5 wickets for 14 against Western Australia during the A.I.F. carnival. It looks as if the Western Australian troops are like the old grey mare: "not what they used to be." It surely couldn't have been good bowling! We have been informed that Len was recently seen umpiring in a women's cricket match. Now this is more believable—playing up to form!

Norm. Walsh, who has so ably assisted the Sturt Cricket Team during recent years, has retired from the seriousness of district competition, and is now playing with the Old Boys in the Turf Association. His consistency has already proved itself to be of immense benefit to the team. Another player doing well is Harry Newman; he has an Intercollegiate century to his credit.

As far as Old Reds are concerned the outstanding success of the present cricket season is that of Graham Williams. At Christmas time he took 6 wickets for 21 against Queensland, and this magnificent performance seemed to set him going: if he wasn't doing well with the ball he would compensate with a punishing innings with the bat—his recent scores of 75 not out and 37 at Brisbane have bought him still further into the lime-light, so much so that at the moment he is spoken of as a likely candidate for a place in the Australian team to tour England this year. It is a long while since an Old Boy went overseas with an Australian Eleven, and so we join in wishing this tall, loose-limbed boy all the best.

Mention of tallness and loose limbs brings to mind the fact that Bernie Mattiske played in the Richardson-Grimmett testimonial match played at Nuriootpa. He bowled excellently, and in taking the wickets of such players as Badcock, Robinson and Whittington he may well be satisfied.

Cricket items of interest seem to be numerous for this issue of the Chronicle, but there are one or two more that still call the linotype to action. Colin Gurner registered a fine double in the inter-Varsity match against Melbourne this year—he was top scorer in both innings, and in his second knock was unfortunate not to reach his century.

Another player performing consistently is V. Gibson, of East Torrens. This left-hander seems to be developing into an all-rounder, as his performances with both bat and ball have been very good—7 for 70 last week, an excellent bowling effort!

BILLIARDS

Members of Parliament always seem to find time to play their annual billiards tournament, and this year the event was won by H. H. Shannon, of Bridgewater, an Old Red, in defeating the Speaker in the final. We hope that he has not jeopardised his chances of catching the

former's eye during the periods of debate. Another Old Red in R. W. Hunt, of Bordertown, could not quite last the distance, and fell by the wayside during the quarter finals. Mr. Hunt, it will be remembered, addressed the collegians at one of our monthly luncheons.

RIFLE SHOOTING

A sport that is seldom written up in this column is rifle shooting, but there is a family of old collegians that excel in this branch of sport, and they are the Coopers. I heard whispers that they are better noted for something else, but we musn't advertise. Recently Ray won the Metropolitan Club Kingship with a fine shoot of 151 out of a possible 156, and it was fitting that he should have won the prize given by his father (S. R.), one of the foundation members of the club.

BOWLS

F. T. Cooper, who, incidentally, is a member of the Old Collegians Committee, is an enthusiastic bowler. He is a skipper in the Marryatville First Team, and on the death of Mr. Walter Gurner he took over the position of treasurer of the club. We hope that he will find the process of getting subs. from members even easier than taking the tops from bottles.

GOLF

A short time ago I spent a happy day at the Kooyonga Golf Links, when the father and son competition was being conducted. This annual event has become increasingly popular, and I was particularly pleased to see Gordon Felstead (an Old Red) and his father win the cup. Golf at the moment is "out of season," so there is very little to report, however my notice has been drawn to a feat by one of our older old boys, C. J. H. Wright, who although 73 years of age completed five rounds of golf in one day! Some feat! Sore feet!

TENNIS

For many years South Australia has striven to win the Linton Tennis Cup for junior players, and this year has accomplished the feat. It is rather unique that both players representing South Australia are Old Reds, and Max Newcombe and W. Mates have not only established a record by winning the cup for the first time, but by playing wonderful and consistent tennis have put up a record that will take a good deal of beating. We offer them our hearty congratulations on their efforts.

RESULTS

South Australia v. Western Australia

M. Newcombe-W. Mates (S.A.) d. Cairns-Hill-Davey, 6-4, 6-4; Newcombe d. Stephen 8-10, 6-1, 6-2; Mates d. McDermott, 6-2, 2-6, 6-4. Totals: South Australia, 3 rubbers 6 sets 46 games; Western Australia, 2 sets 35 games.

South Australia v. Victoria

R. Clements-Crosby d. Diggle-Barton, 4-6, 6-1, 6-2; M. Newcombe d. C. Vickers-Willis, 6-3, 6-3; Mates d. Hartley, 6-4, 9-7. Totals: South Australia, 3 rubbers 6 sets 43 games; Victoria, 1 set 26 games.

South Australia v. New South Wales

Newcombe-W. Mates (S.A.) d. J. Gilchrist-D. Pails, 6-4, 4-6, 6-2; Newcombe d. Gilchrist, 6-3, 10-8; Mates d. Sidwell, 6-4, 4-6, 11-9. Total: South Australia, 3 rubbers 6 sets 53 games; New South Wales, 2 sets 42 games.

MAX NEWCOMBE

W. MATES

And now for a word about tennis. All the "usual" old boys are still wielding their racquets in the "usual" way. The recently indisposed Gar Hone is fit again. Brother Ron, when he is not dipping a pen in the literary inkwell, still finds time to cast prodigious shadows across the court. Ted Luke, of course, is for ever seeking a potential champion, and generally the tennis world goes peacefully on its way.

However, in this branch of sport we have watched with interest the further outstanding successes of Max Newcombe. After brilliant wins in the Junior Championships in the Eastern States he is now ranked No. 1 Junior of Australia, and in the forthcoming Australian championships to be held in Adelaide we wish him well. The performances of Williams in cricket and Newcombe in tennis are by no means every day occurrences, and in the next issue of the Chronicle, with summer sports completed, the editor should be able to give a more comprehensive report of their respective performances.

OLD BOYS' BOWLS AND TENNIS

The joint sub-committees of St. Peter's Old Collegians and this Association have arranged the Old Scholars' Bowls Match to be played at the South Park Rinks on Wednesday evening, 23rd February next, and all Old Boys interested in the game are requested to immediately communicate with the secretaries.

The Annual Old Scholars' Tennis Match will probably be played early in March, but final arrangements have not yet been made.

PROPOSED OLD BOYS' RUGBY AND HOCKEY CLUBS

The Committee of this Association has received applications from several Old Boys who are desirous of forming Rugby and Hockey Teams to play in their re-

spective Associations. The Committee is always desirous of encouraging healthy sport amongst its members, and already the Old Collegians' Football and Cricket Teams have reflected great credit on themselves, the Association and the School.

This Association favours no sport in particular, but exercises a certain measure of control over the various clubs by stipulating that only members of the Association are eligible to play in Old Boys' teams. It is to be hoped that these two new clubs will be successful in their endeavours to obtain representative teams, and we are pleased to publish the following letters in connection with the above.

PROPOSED RUGBY CLUB

As Rugby is gaining popularity in South Australia we think it fitting that the Old Scholars' Association should be represented in that branch of sport. Therefore a club is being formed for affiliation with the Rugby Union of South Australia.

It is desired that as many members of the Association as possible should give the club their support. Already a number of Old Reds have signified their intention of joining, and we hope to get at least two teams in the field next season. It is proposed that subscriptions will be 12/6 per annum for playing members, and 7/6 for supporting members.

Any Old Red who is interested is asked to get in touch with C. M. Bennett, 71 Park Terrace, Parkside, Phone U1642; or J. B. Hastwell, 64 Ferguson Avenue, Myrtle Bank, Phone U4979.

PROPOSED HOCKEY CLUB

Mr. G. B. Holding and others, who are forming the above club, are anxious for those who are interested and wish to join to get in touch with him as soon as possible, c/o F. B. Holding & Son, Opticians, 134 Rundle Street.

It does not matter whether you have played before or not, help to put an Old Red team on the field.

OLD COLLEGIANS' CRICKET CLUB

The Cricket Club began the season with the help of several new players, notably N. A. Walsh, H. P. and H. L. Newman, B. Felstead and Max Wellington. Our success up to date has been due to the new players in no small measure, as witness the fact that Max Wellington has made the highest individual score, namely 99, and N. A. Walsh has the highest aggregate.

The 14 members of the club are all as regular at practice each week, as is to be expected, and competition for inclusion in the teams has been keen. At present we are third on the premiership table, and there is no reason why we should not be at the top before the season ends.

In the first match of the season our team was defeated by Hawthorn, but as the weather had prevented a practice night being held beforehand, the result was not altogether surprising. Since then the team had not been defeated until the match against Brighton, held on January 8 and 15. On the second day of that match our team experienced one of those days in the field when nothing goes right. We hope that this will not occur again.

The most important engagement for the season was the match against St. Peters Old Collegians, played at Saints on December 11 and 18. On the first day we were sent in to bat on a wicket which was considered unfit for play before 2.45. However, our batsmen were equal to the occasion, and largely through the efforts of Norman and Lawrie Walsh, who scored 76 and 55, respectively, we finished with 9 for 223 (declared). Saints batted on the following Saturday on a batsmen's wicket, but were unable to cope with the hostile bowling of Angel, Shepley and Felstead. They were out for 99 in the first innings, and were 9 for 77 in the second. We were unfortunate in not breaking their tenth wicket before 6 p.m. for an innings victory.

RESULTS

October 2 and 9—P.A.O.C. v. Hawthorn

Hawthorn—First Innings, 273; H. L. Newman, 3 for 30; B. Felstead, 3 for 78. Second innings, 86. P. Kirkwood, 3 for 13; N. A. Walsh, 2 for 1.

P.A.O.C.—First Innings, 100. N. A. Walsh, 36; L. S. Walsh, 27.

October 23—P.A.O.C. v. Prospect (1 day match)

Prospect—First Innings, 8 for 75 (declared). D. A. Clarkson, 3 for 31; H. N. Shepley, 3 for 15.

P.A.O.C.—First Innings, 9 for 85. M. W. Evans, 16; P. Kirkwood, 15 not out.

October 30 and November 6—P.A.O.C. v. S.P.S.C.

S.P.S.C.—First Innings, 141. L. S. Clarkson, 5 for 22. Second Innings, 99. L. S. Clarkson, 2 for 17; H. L. Newman, 2 for 16; P. Kirkwood, 2 for 10.

P.A.O.C.—First Innings, 201. H. P. Newman, 72; L. S. Walsh, 55.

November 13 and 20—P.A.O.C. v. Payneham

P.A.O.C.—First Innings, 9 for 384 (declared). M. Wellington, 99; N. A. Walsh, 84; M. W. Evans, 44; H. P. Newman, 42; L. S. Walsh, 42.

Payneham—First Innings, 247; L. S. Clarkson, 3 for 71.

December 11 and 18—P.A.O.C. v. S.P.O.C.

P.A.O.C.—First Innings, 9 for 223 (declared). L. S. Walsh, 76; N. A. Walsh, 55; D. A. Clarkson, 39.

S.P.O.C.—First Innings, 94. N. Angel, 6 for 22. Second Innings, 9 for 77; H. N. Shepley, 5 for 12; B. Felstead, 4 for 16.

January 8 and 15—P.A.O.C. v. Brighton

P.A.O.C.—First Innings, 219. N. A. Walsh, 73; H. P. Newman, 42; D. A. Clarkson, 24; M. W. Evans, 22.

Brighton—First Innings, 6 for 256. D. A. Clarkson, 2 for 28.

LOST TOKENS

Tokens remain the property of this Association, and are held by members on trust only. In the event of the loss of a token, the member should immediately report this to the Secretaries of the Association.

Interstate Branches

BROKEN HILL

At the present moment the Broken Hill Branch is without a Secretary, and a new Secretary is required immediately. Old Reds of Broken Hill are requested to give the matter their attention and to elect a new Secretary and Committee for the ensuing year. Every assistance will be given by the Association in Adelaide to revive this Branch.

Dr. G. M. Hains represented this Association at St. Peter's Old Collegians' Annual Dinner, held at the Freemasons' Hall on September 28.

NEW SOUTH WALES

The Branch Secretary is Mr. E. A. Kesting, Newington College, Stanmore, N.S.W.

Mr. Allan Lyon will continue as President, and may be found at 73 Pitt Street, Sydney. Any Old Scholars visiting Sydney are invited to communicate with them.

Mr. Allan Lyon writes:—"I am not only deeply distressed with all our Old Scholars here for Mrs. Bayly and family, but I know the loss to the School and to the Old Collegians' Association. There is a personal living contact gone, but his memory will remain with us for all time. Mr. Bayly was the embodiment of strength, of courage, and of true manliness. His wide understanding of people and his tolerance enriched his fine character, and impressed a personality of all the best attributes of character and citizenship which we know are held in reverence of him by all those who had the privilege of his friendship. A most distinguished son of the College has passed on, leaving behind him the love of his fellows, which will remain forever with us.

"May I throw out the suggestion to the effect that it is a gesture always appreciated by the Old Scholars and by the present boys to perpetuate such a memory within the School walls, and I have in mind that the Science Hall might be named 'The W. R. Bayly Memorial Hall.' A suitable tablet could be affixed and a reverent ceremony conducted on a particular day set aside for such a purpose. I think the dedication of such a room would give pride to all associated within and outside the School. It is simple yet dignified, and I believe many of the Old Boys would endorse such a gesture.

There is already a scholarship to perpetuate for a particular purpose the memory of the late Mr. W. R. Bayly, and the idea in my mind, as enumerated, seems to have merit as well as meaning.

"Today No. 1 Old Scholar Dr. J. T. Mitchell, Mr. B. S. Berry, and Mr. Joseph Crompton are my guests at luncheon, when Mr. Crompton will detail for us such particulars as he knows lie nearest our hearts, for the success of the Old Scholars' Association and the School in particular. The new executive may be assured of our close co-operation in all things concerning the welfare of the School, and anything which will help, you might kindly advise me, and the fellows over here will be invited to co-operate."

VICTORIA

Mr. D. F. Burnard is the Branch Secretary, and his address is: C/o Chief Engineers' Branch, P.M.G. Department, Treasury Gardens, Melbourne, C2. He will be pleased to hear from any Old Reds who may be in Victoria. 'Phone number Central 5551 or WM 1547. He would be glad to receive notifications of changes of address.

VISIT TO "LOG HUT"

Two important events have overtaken the Victorian Old Scholars Branch during the last three months: Firstly, a visit to Dr. Leon Jona's "Log Hut," near Montrose; and secondly, a General Meeting and Lecture by Dr. Jona on Modern Palestine. Both events were successes.

On Sunday afternoon, October 31, in almost perfect spring weather, about 40 Old Princes and Saints gathered at "Wyuna," Montrose, for afternoon tea. The ladies brought the total to approximately 80. The "Log Hut," fittingly named provided one reads "House" for "Hut," is just the kind of place one reads about but seldom sees. Dr. Jona locked up his valuables and allowed us to inspect every corner, and everyone was intensely interested. This was the second opportunity that the Old Boys had had of meeting together at "Wyuna," and for the sake of those who have been unable to accept Dr. Jona's invitation, it is hoped that it will not be the last. Afternoon tea, the tea being of an especially good make, viz., billy tea, was served on the flat below the house amid beautiful surroundings. Dr. Jona has taken every care to preserve the natural timber and undergrowth, with very happy results. It was a most enjoyable afternoon, and it is quite unnecessary to say that we all appreciated very much Dr. Jona's hospitality.

GENERAL MEETING

The General Meeting was held at 8 p.m. on Wednesday, November 17, in the Bankers' Institute Library. Our thanks are due to Mr. E. T. Bailey for making this arrangement possible. Eighteen (18) Old Scholars were present; Messrs. E. T. Bailey, J. A. Blundell, D. F. Burnard, C. W. Crompton, Paull Fiddian, A. H. Gifford, A. L. Kaines, W. S. Kelly, R. H. Leggoe, W. A. Leitch, E. J. Maley, F. R. Potts, K. F. Richardson, R. M. Scott, G. Searle, A. J. Willsmore, F. S. Wylie, and Dr. J. Leon Jona.

The total of 18 seems small when it is known that over 100 Old Boys are living in Melbourne and the suburbs, but the success of this meeting for those present was independent of numbers.

The retiring President, Dr. Jona, chaired the meeting in the early stages, until Mr. C. W. Crompton took over on being elected as President for the next two years. Appreciation for the interest and work of the retiring President, and confidence in the ability of the new President to carry on the good work, were expressed and endorsed by the meeting.

The presentation of a bag of golf clubs was made to Paull Fiddian in recognition of his long and efficient service as Secretary. It is unfortunate for us that Paull's time has become so full that he has found it impossible to carry on this job.

The election of officers resulted as follows:— President, Mr. C. W. Crompton; Vice-President, Mr. W. S. Kelly; Secretary and Treasurer, Mr. D. F. Burnard; Committee, Dr. Jona and Messrs. E. T. Bailey and Paull Fiddian.

Out of respect for the late Mr. W. R. Bayly the meeting observed a short period of silence. Several matters of interest to the Victorian Branch were discussed, and it might be mentioned here that consideration is being given to the possibility of holding a separate Annual Dinner in 1938. The success of this proposal will depend on the interest and co-operation of the other Victorian Old Scholars, who will be circularized on this and other suggestions at a later date.

Dr. Jona then gave a very interesting and entertaining talk on his recent trip through Palestine. A mass of lantern slides assisted in giving us a vivid picture of the remarkable changes that are taking place in this much-heard-of country. The development of waste and desert country in the face of very great difficulties is an achievement in which the Jewish people have just cause for pride. Once again the Old Boys were indebted to Dr. Jona, and he can be assured of our appreciation.

QUEENSLAND

The Branch Secretary is Mr. Len. King, Secretary's Office, Royal Queensland Golf Club, Eagle Farm, Brisbane, Queensland.

Recently Mr. Joe Crompton paid a brief visit to Brisbane and was entertained there. Mr. King writes:—

"In reply to your memo. of the 25th November, I have to advise having had the pleasure of meeting your Vice-President, Mr. Crompton. He came down and lunched with me at the golf club, and Messrs. F. Bennett, W. F. Gardiner, R. W. Thomas, R. Muir and C. Bray—all old P.A.C. boys. We afterwards had a round of golf, by virtue of which I now possess a little 'foreign capital.' You will, no doubt, recall Mr. Muir, as I understand some 18 months ago he delivered a lecture to you in Adelaide on the merits of the Queensland sugar industry."

WESTERN AUSTRALIA

The Branch Secretary is Mr. E. Witherage Cotton, No. 5 Melrose Crescent, North Perth, who will be pleased to hear from all Old Reds in W.A.

ANNUAL GENERAL MEETING

The Annual General Meeting of the W.A. Branch was held at the "Wattle Tea Rooms," Perth, on Thursday, December 9 last, during the lunch hour. As the monthly meeting of the Committee was held at the same gathering and those present had to get back to their offices, the proceedings were limited to practically

business only. The eighth annual report and statement of accounts were, on the motion of the President, Mr. G. M. Wilson, adopted, and the election of officers resulted as follows:— Patron, Sir T. M. Coombe, K.B.; President, H. Boas, Esq.; Vice-Presidents, S. J. Dimond, Esq., W. R. Rogers, Esq.; Committeemen, W. C. Fawcett, Esq., F. C. Waldeck, Esq., R. J. B. Miller, Esq., F. S. Pilgrim, Esq., P. D. Coles, Esq., J. C. Livingstone, Esq.; Hon. Secretary and Hon. Treasurer, E. W. Cotton, Esq.; Hon. Auditors, W. E. Southwood, Esq., R. R. Matiske, Esq.

Mr. Boas, in briefly thanking those present for honouring him by electing him President for the ensuing year, mentioned that he would strive during his term of office to bring the membership up to the century, and moved a vote of thanks to each, the retiring President, and the Hon. Secretary, Mr. Cotton, which was carried with acclamation and responded to by both.

Apologies were received from Dr. J. L. Rossiter and Messrs. N. Lowe, A. E. Stephens and S. S. Glyde.

ANNUAL DINNER

The Annual Dinner of the W.A. Branch of the P.A.O.C. Association was held at the Savoy Hotel, Perth, on October 8 last. The President of the Branch (Mr. G. M. Wilson) presided over a gathering of 35 "Old Boys," among those present being Messrs. J. Marychurch Jenkins and George C. Brown, who were Masters in the 80's, and Mr. Keith Jenkins, a delegate from the Adelaide Association.

In proposing the toast of "The Old School and its Masters," the President made special reference to the presence of the two "Old Masters" and quoted Kipling's lines:—

Let us all praise Famous Men,
Ancients of the College;
For they taught us Common Sense,
Tried to teach us Common Sense,
Truth, and God's own Common Sense,
Which is more than Knowledge."

In replying to the toast, both of the "Old Masters" expressed pleasure at being able to associate with the "boys" on more friendly terms than when at school.

The toast of "the P.A.O.C. Association and the health of the Delegate from South Australia" was submitted by Mr. G. L. Burgoyne in his usual humorous manner, making special reference to the "College tie," both as an attraction to the dress and as a significance of our upbringing. The latter he, of course, deprecated because of its likelihood of being used perhaps unwisely and unfairly. Mr. Keith Jenkins responded to the toast in a similar humorous vein, giving some of his experiences as a boy at P.A.C.

As Mr. Fred C. Waldeck was appearing for the first time as a benedict, one of the younger members, Mr. P. D. Coles, proposed the health of the newly-wed. "Fred," in response, assured members that his wife was most interested in

the Association and would encourage his attendance at all gatherings.

During the evening the Coat of Arms of the College, carved in jarrah, was exhibited. This was the work of Mr. Marychurch Jenkins and had been presented to the Branch some months previously. With the consent of the donor this was handed to Mr. Keith Jenkins to convey to Adelaide, in order that it might be placed in the College in some suitable spot, where it could remain for all time.

Musical items were rendered by Messrs. F. S. Pilgrim, H. Jessop, and K. Jenkins, and before the close of the gathering Mr. H. Boas submitted a toast to those who had contributed to the evening's entertainment and to the veteran Secretary, Mr. "Ted" Cotton, for his organisation of the gathering.

Messrs. Pilgrim and Cotton briefly responded, and "Auld Lang Syne" terminated the proceedings.

Present:—G. M. Wilson (President, in the chair), Mr. Keith Jenkins (Delegate from Adelaide), Mr. J. Marychurch Jenkins (old Master), Mr. G. C. Brown (old Master), M. A. Goode, H. L. Jessop, S. J. Dimond (Vice-President), R. J. B. Miller, S. M. Wreford, G. A. Crombie, A. L. Tilly, C. L. von Bibra, H. Boas, A. E. Stephens, W. R. Rogers, A. G. Lee, D.C.M., G. C. Jackson, P. D. Coles, R. R. Mattiske, G. N. Lowe, W. G. Morecombe, W. C. Fawcett, H. R. L. Hardy, L. T. Boas, F. C. Waldeck, F. S. Pilgrim, H. H. Wheatley, G. L. Burgoyne, W. E. Southwood, Hayward A. Cooke, F. C. Carlin, C. Cockram, F. S. Freebairn, E. W. Cotton (Hon. Secretary and Treasurer). Apologies were received from:—A. Ern. Sharland, R. Lilywhite, H. G. Eaton, A. V. Robertson, W. J. McRostie, E. H. Jolly, R. J. Dumas, E. H. Stirling, Rev. H. H. Fennell, Dr. J. L. Rossiter, A. H. Henning Con. Bussenschutt, A. A. Strickland, B. M. Craig, A. J. Mellor, R. E. Dimond, P. R. Stone.

PERSONAL

Mr. A. V. Robertson has received an important position with musical duties at the Geelong Grammar School, which has adopted quite a new system.

Mr. Harold Boas, the newly-elected Branch President, is a very keen and active "Old Red" and still remembers his old School. In a recent letter he writes:—"I am very sensitive of the honour that has been conferred on me in being elected President of the Old Boys' Association in Western Australia, and shall do all I can, during my year of office, to stimulate its activities and to maintain its interest in the old School, and also in its association with Wesley College in this State. I had the pleasure of attending the Annual Break-up last evening of this college, and the Headmaster, Dr. Rossiter, made kindly references to the Association of the Prince Alfred Old Collegians in Western Australia with the school, and asked me to convey to our Association here, and to yours, the fraternal greetings of himself, his Council, and the boys of the School."

Mr. A. E. Grant recently had a most successful Annual Sale of his Stud Sheep on his property at Yanget, the prices realized ranking easily first amongst many private country Stud Stock Auctions which have been conducted this year. The Yanget Merino Stud is one of the few stud flocks in Western Australia which can claim absolute purity of breeding on one blood. It was founded in 1908 by Mr. A. E. Grant when he acquired Yanget, and stud ewes and rams were imported direct from the Koonoona proprietors of Koonoona, Kooringa, South Australia, for the establishment of the stud flock. During the past 30 odd years Mr. Grant has adhered rigidly to Koonoona blood and no outside introduction has been made. During that period he has expended some £25,000 in regular annual importations of high-class stud ewes and special stud rams from the parent flock.

The following Branch members have been elected:—Frederick C. Carlin, Philip D. Coles, R. R. Mattiske, George A. Crombie, William Ingleton, Albert E. Stephens.

NEW MEMBERS

We are pleased to again report a satisfactory increase in membership. We sincerely hope that all members will do their utmost to obtain further increase in membership.

LIFE MEMBERS
