SCHOOL OFFICERS

Prefects

M. W. Stain (Captain of the School), M. C. Bartholomæus, G. R. Battye, P. F. Edwards, V. L. Hawke, D. E. Hosking, D. M. Jorgensen, J. A. Nelson, A. E. Norman, R. D. G. Reed, R. J. Wilson.

House Prefects

A. E. Norman (Head), M. C. Bartholomæus, P. F. Edwards, S. J. Holder, S. W. Howland, F. R. Humphris, H. A. Martin, D. S. Plush, B. Wibberley, P. M. Williams, R. J. Wilson.

Games Committee

The Headmaster (Chairman), Messrs. C. R. Davies, W. L. Davies, A. E. J. Klose, T. G. Luke, R. T. Smith, J. S. Steele, S. Williams (Secretary), and M. W. Stain, J. G. Andrew, M. C. Bartholomæus, R. J. Wilson, D. M. Jorgensen, G. R. Battye, P. G. Sullivan, P. F. Edwards.

Games Sub-Committees

Cricket—Mr. C. R. Davies, R. J. Wilson, J. G. Andrew.

Tennis—Mr. T. G. Luke, G. R. Battye (Capt.), D. M. Jorgensen.

Football—Mr. R. T. Smith, M. W. Stain, G. G. Hoad (Capt.), M. C. Bartholomæus.

Athletics—Mr. J. S. Steele, M. W. Stain (Capt.), G. G. Hoad, D. M. Jorgensen.

Rowing—Mr. A. Yule, P. G. Sullivan, P. F. Edwards.

Library Committee

J. A. Nelson (Librarian), J. H. Furness (Asst. Librarian), A. E. Norman, J. C. Jennison, J. M. Cowley.

Historical Society

E. J. Martindale (President), P. J. Hutson (Secretary), M. B. Brown, D. L. Waxman, B. M. Check.

Debating Society

Mr. A. E. J. Klose (Master in Charge), M. W. Stain, A. E. Norman, D. M. Jorgensen, R. J. Wilson, P. F. Edwards, M. C. Bartholomæus.

School Magazine

Mr. W. L. Davies (Master in Charge), M. W. Stain (Editor), A. E. Norman, J. C. Jennison, B. F. Venner, J. A. Waugh.

S.C.M.

Mr. G. M. Potts (Master in Charge); President, H. W. Linn; Vice-Presidents, J. G. Andrew, L. G. Rowe; Secretary, A. E. Norman; J. A. Nelson, J. E. Chinner.

Scout Troop

Scoutmaster, Mr. A. H. Dennis; Patrol Leaders, T. H. Allen, J. C. Jennison, J. P. Keeves, D. R. Newman.

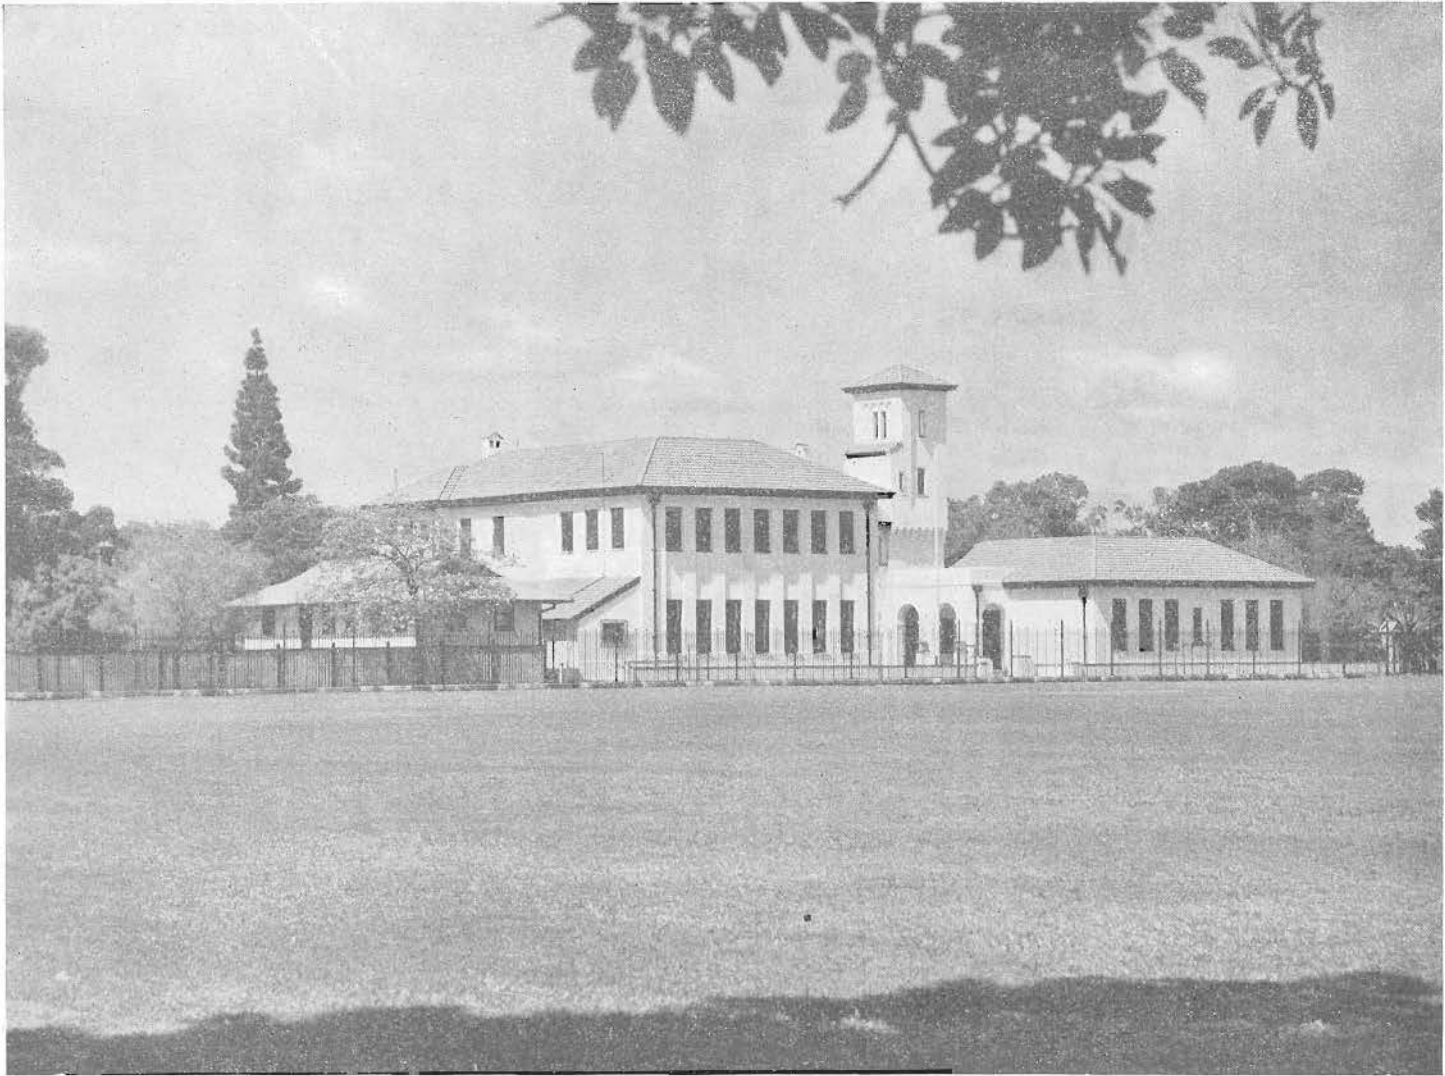

Cadet Corps

O.C., Capt. W. L. Davies, M.C.; Cadet Lieuts., R. D. G. Reed, D. B. Dunstan, V. L. Hawke, H. W. Linn, J. L. Cleland; C.S.M., J. F. Lavis; C.Q.M.S., P. M. Williams; Sgt., M. W. Edgerley; Cpls., A. W. Crompton, F. H. Voss, B. C. Partridge, K. P. Robin.

Form Captains

VIu	M. W. Stain
VIa	H. A. Martin
VIb	D. M. Jorgensen
VIc	M. C. Bartholomæus
Va	A. W. Crompton
Vb	R. J. Andrew

JANUARY, 1940

No. 186

Editorial

Once more the inevitable third term has come, and is now rapidly disappearing. It is odd how, once the final term is begun, the breakup seems to rush at one with the speed of a locomotive; quite as odd, we venture to remark, as the snail-like pace of the weeks during the first term.

Speech Night spells the end of the School year; but for many it spells the beginning of a new and important period of life. These go out to take their first steps towards a career which will determine to a large extent their future happiness and success. These first few steps may be strong, purposeful strides; or they may be weak and faltering, for unfortunately there will always be some who fall by the wayside.

To some will come the opportunity to pursue their studies further. They will attend other schools and universities; they are the specialists, the chosen few to whom we look to take up and carry on the torch of knowledge. It is their task to preserve and develop civilisation, despite the chaos of war and the threat of Nazi domination. Others will go out to take up positions in industry or commerce; that first "job" which is often so elusive. They will be absorbed into an apparently callous world, which seems not at all impressed by their advent; and then they begin to work for their object in life, whether it be wealth or wisdom. That object cannot be attained without effort and good, honest sweat comprises a large part of that "divinity which shapes our ends." Thus on the foundations of a sound education will be built their future life. May their constructive efforts justify the foundations!

An unfortunate few will succumb to the unhappy era into which they have been born. Bewildered by the changing standards of a world at war, disheartened by the uncertainty of the future, they will be content to become spectators of

the struggle of life. Without the grit to struggle from their own particular slough of despond, they will sink lower and lower. A busy world will dub them failures, and do its best to forget them, for it is very true of the modern world that nothings succeeds like success.

Does the state of world affairs today encourage ambition, or does it present a dull and uninviting future to the rising generation? Even now men are fighting and dying for their beliefs. That in itself may be either stimulating or depressing and mental depression leads to an apathy, which can sap the highest ambition.

To European peoples the reflection that one may be dead within twenty-four hours is not a great stimulus to constructive effort. By such gloomy thoughts it is very easy to slip into the practice of living solely in the present. But right must prevail, no matter what the cost, and from this chaos

"... a loftier race

Than all the world hath known shall rise."

This is the aim to which we must aspire; a world not burdened by the consequences of past mistakes, but glorified and brightened by the efforts of a wiser people for a happier future.

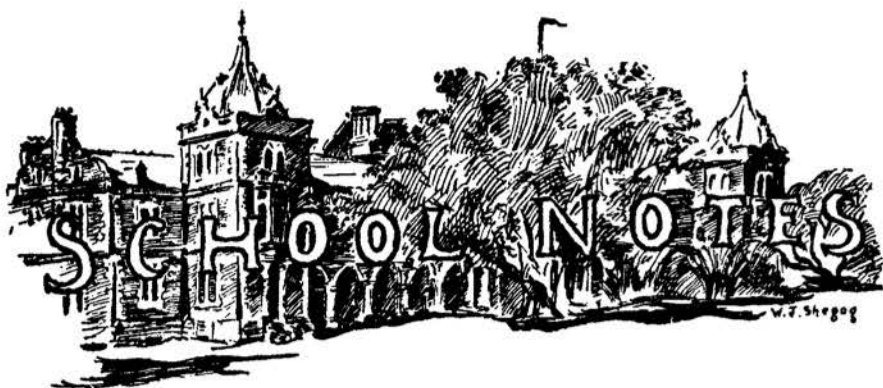

There is a Latin tag which pithily declares:

"Palma non sine pulvere."

Certainly there are few who can gain the palm of success without the dust of toil. Those who have the perseverance to work for what they want can make an appreciable dent in the world's indifference. There is always a place in life for the worker; the drone may find his reception far from enthusiastic.

So, to those who would start life on the road to success, we say: "Work while it is day, for the night cometh when no man can work."

B. F. V.

The end of the year has come. We all have sympathy for the boys who missed so many interesting things at the end of the year through sickness. Let us hope that 1940 will be clear of mumps, German measles, measles and all other epidemics.

Very hearty congratulations to Wilson and all the Cricket team on their victory against St. Peters. It was a well-fought fight; a match worth winning.

The Leaving Honours results were published just too late for Speech Day. Congratulations to the Upper Sixth on a very fine result. In every subject we scored credits, and to secure eight names on the general honours list is very good for a school of our size. We are all very proud of the good work done.

Everyone was delighted and honoured by His Excellency's visit on 16th October. Sir Malcolm was very keen to see what everyone was doing and his interest and kindness were a great inspiration to us all.

In November, Rev. Dr. Calvert Barber of Queen's College, Melbourne, stayed at the School. Everyone appreciated his address at morning assembly.

Two visits were received this term from people skilled in schools and school work. Dr. Colin McDonald and his wife came in November. Dr. McDonald is a member of the Council of Scotch College,

Melbourne, who takes his duties very seriously, and looks at all the schools he can wherever he goes. He spent a long afternoon looking all over the College. Not long after this visit a party from the Headmasters' Club came to inspect the School one Saturday morning. They spent a very enjoyable morning, and appreciated what they saw.

Hearty congratulations to the Prep. on the success of its display and concert. The separate breaking-up was a great success.

Many congratulations to our new Cadet-Lieutenants, and to Cleland and Dunstan on their entrance to Duntroon.

The Headmaster has had several very interesting letters from Mr. A. Menzies Sharpe, of Ponsbourne Manor, Hertford, England. Mr. Sharpe, an Old Boy of the School, is air warden and generally in charge of the village under the A.R.P. scheme and the war precautions and evacuation plans. His letters are full of information. They are too long to be given at length, but from first-hand experience, Mr. Sharpe gives a wonderful picture of the evacuated children in their new surroundings, and of the great changes that are coming over England under war conditions. It is to be hoped that some extracts from Mr. Sharpe's letters may be published in the Chronicle.

Valete

[The names of J. L. Cleland (12 years at the School), R. D. G. Reed (11 years) and M. W. Stain (10 years) can now be added to the list published in the Chronicle, May, 1933.]

M. W. Stain (1930-39)

Captain of the School, 1938-39; Intermediate, 1934-35; Government Exhibition, 1935; Leaving, 1936; Leaving Honours, 1938-39; Government Bursary, 1939; Dux of the School, 1939; Intercollegiate Athletics, 1936-7-8-9 (Captain, 1938-39); Intercollegiate Football, 1937-8-9 (Vice-Captain, 1938-39); Robertson Scholarship, 1931; Malpas Scholarship, 1938; Keith Swann Memorial Medal, 1938-39; Cotton Medal, 1939; Melrose Prize for Shakespeare, 1938; Gifford Essay Prize, 1939; Harold Fisher Prize, 1938-39; H. J. Priest Memorial Prize, 1939; Sports Committee, 1938-39; Library Committee, 1937; Swimming Committee, 1937; Chronicle Committee (Editor), 1938-39; Concert Committee, 1939; Debating Society Committee, 1938-39; Debating Team, 1938; Cadet Corps, 1938-39; Champion Gymnast of the School, 1937-38.

R. D. G. Reed (1929-39)

Prefect, 1939; Intermediate, 1936; Leaving, 1938; Intercollegiate Athletics, 1936-7-8; Intercollegiate Rowing, 1939; Cadet Corps, 1937-8-9; Cadet Lieutenant, 1939; School Orchestra, 1939.

J. L. Cleland (1928-39)

Intermediate, 1936; Leaving, 1938; Scout Troop, 1933-35; Patrol Leader, 1935; Cadet Corps, 1936-39; Cadet Lieutenant, 1939; Rifle Team, 1938-39.

A. E. Norman (1935-39)

Prefect, 1939; Head of Boarding House, 1939; Intermediate, 1936; Leaving, 1937; Leaving Honours, 1938-39 (Honours List); Robb Scholarship, 1937; Longbottom Scholarship, 1938; Debating Society Committee, 1939; Library Committee, 1939; S.C.M. Secretary, 1939; Magazine Committee, 1939.

V. L. Hawke (1935-39)

Prefect, 1939; Intermediate, 1936 (Government Exhibition); Leaving, 1937; Leaving Honours, 1938-39; Government Bursary, 1939; Fiddian Entrance Scholarship, 1934; Cadet Corps, 1937-1939; Cadet Lieutenant, 1939.

D. E. Hosking (1935-39)

Prefect, 1939; Intermediate, 1936 (Government Exhibition); Leaving, 1937; Leaving Honours, 1938-39; Grasby Scholarship, 1935; Cadet Corps, 1936-1939.

R. J. Wilson (1937-39)

School Prefect, 1939; House Prefect, 1939; Intermediate, 1937; Intercollegiate Athletics, 1937-8-9; Intercollegiate Football, 1938-9; Intercollegiate Cricket, 1938 (Vice-Captain), 1939 (Captain); Merit Badge, 1938; Sports Committee, 1938-9; Debating Society Committee, 1939.

M. C. Bartholomaeus (1935-39)

School Prefect, 1939; House Prefect, 1938-39; Intermediate, 1937; Leaving, 1939; Sports Committee, 1939; Debating Society Committee, 1939; Swimming Sports Committee, 1939; Intercollegiate Athletics, 1937-38; Intercollegiate Football, 1938-39; Intercollegiate Cricket, 1938-39; Merit Badge, 1938; Cadet Corps, 1938-39; Champion Gymnast, 1939.

P. F. Edwards (1935-39)

School Prefect, 1939; House Prefect, 1939; Intermediate, 1937; Leaving, 1938; Intercollegiate Rowing, 1939; Sports Committee, 1939; Debating Society Committee, 1939; Cadet Corps, 1938-39.

J. A. Nelson (1935-39)

Prefect, 1939; Intermediate, 1936; Leaving, 1937; Leaving Honours, 1939; Craven Scholarship, 1937; Library Committee (Librarian), 1939; S.C.M. Committee, 1939; Cadet Corps, 1938-39.

G. R. Battye (1937-39)

School Prefect, 1939; Leaving, 1937-38; Intercollegiate Tennis, 1938-39 (Captain, 1939); "Bill" Jeffries Prize, 1938; Sports Committee, 1939.

J. M. Cowley (1937-39)

Leaving, 1937; Leaving Honours, 1938-9; Government Bursary, 1939; Grasby Scholarship, 1936; E. B. Colton Scholarship, 1938; Library Committee, 1939.

J. H. Furness (1936-39)

Intermediate, 1936 (Government Exhibition); Leaving, 1937; Leaving Honours, 1939 (Honours List); Grasby Entrance Scholarship, 1935; Colton Scholarship, 1938; Concert Committee, 1939; Assistant Librarian, 1939.

H. W. Linn (1933-39)

Intermediate, 1937; Leaving, 1938; Intercollegiate Athletics, 1938-39; S.C.M. Committee (President), 1939; Cadet Corps, 1936-39; Cadet Lieutenant, 1939.

J. C. Jennison (1936-39)

Intermediate, 1936; Leaving, 1937; Epworth Scholarship, 1936; Library Committee, 1939; Chronicle Committee, 1939; Scout Troop, 1936-39; Patrol Leader, 1938-39.

D. J. Guppy (1936-39)

Intermediate, 1937; Leaving, 1938; Intercollegiate Athletics, 1937-39; Intercollegiate Football, 1938-39; Intercollegiate Rowing, 1939; Rowing Committee, 1939; Cadet Corps, 1939.

B. W. Wibberley (1935-39)

House Prefect, 1939; Intermediate, 1937; Leaving, 1938; Cadet Corps, 1938-39.

P. M. Williams (1937-39)

House Prefect, 1939; Intermediate, 1937; Leaving, 1938; Swimming Sports Committee, 1939; Cadet Corps, 1937-39; Sgt., 1938; C.Q.M.S., 1939.

Jorgensen, D. M. (1935-39)

Prefect, 1939; Intermediate, 1937; Leaving, 1939; Intercollegiate Athletics, 1938-9; Intercollegiate Football, 1938-9; Intercollegiate Tennis, 1939; Merit Badge, 1939; Games Committee, 1939; Form Captain VI B.

H. A. Martin (1938-39)

House Prefect, 1939; Intercollegiate Football, 1939-39; Intercollegiate Cricket, 1938-39.

D. S. Plush (1937-39)

House Prefect, 1939; Intermediate, 1937; Leaving, 1938; Leaving Honours, 1939; Cadet Corps, 1939.

L. G. Rowe (1936-39)

Intermediate, 1936; Leaving, 1938; Intercollegiate Athletics, 1939; Intercollegiate Football, 1939; Robb Scholarship, 1938; S.C.M. Committee, 1939.

J. E. Chinner (1936-39)

Intermediate, 1937; Leaving, 1938; S.C.M. Committee, 1939; Cadet Corps, 1938-39.

F. H. Voss (1938-39)

Intercollegiate Rowing, 1939; Rowing Committee, 1939; Cadet Corps, 1938-39; Corporal, 1939; Rifle Team, 1939; Leaving Honours, 1939.

S. W. Howland (1935-39)

House Prefect, 1939; Intermediate, 1936; Leaving, 1938; Cadet Corps, 1939; Scout Troop, 1935-38; Patrol Leader, 1938.

P. G. Sullivan (1935-39)

Intermediate, 1936; Leaving, 1938; Intercollegiate Rowing, 1939 (Captain, 1939); Sports Committee, 1939.

R. F. Beverley (1938-39)

Leaving, 1938; Leaving Honours, 1939; Cadet Corps, 1939.

J. A. Waugh (1937-39)

Leaving, 1937; Chronicle Committee, 1939; Cadet Corps, 1937-39.

J. M. COWLEY

Bursary Winner
(Science)

Speech Night

The final School function of the year was held on 21st December, in the Adelaide Town Hall. The President of the Methodist Conference, Rev. D. J. Wellington, presided and extended greetings to His Excellency the Governor, Sir Malcolm Barclay-Harvey. "Both His Excellency and Lady Muriel seem to be going day and night, visiting all parts of the State and helping every good cause. They have proved themselves to be friends of the people," he said.

After the School orchestra had given an item, and the Captain of the School (M. W. Stain) had read the Games' Report for the year, the School sang two carols.

"I must confess," said His Excellency in responding to his welcome, "that before the beginning of this week, I did not know that there were so many beautifully bound books in the world as I have presented in the last few days. To those who have not won prizes, I would point out that the prizes of life are not always won by those who gain them at school, valuable though those may be. I wish you a Happy Christmas and as prosperous a New Year as you can reasonably hope for, with the dark clouds of war hanging over you."

Mr. J. Crompton, acting for the President of the Old Boys' Association who was unfortunately indisposed, warmly thanked His Excellency for presenting the prizes.

THE HEAD'S REPORT

"Before dealing with School matters, as this is the first Speech Night at which your Excellency has honoured us with your presence, may I express the gratitude which we feel to you, sir, for the interest in our work which your presence here evinces; assure you of our loyalty to His Majesty and to you as His representative, and wish not only that you may have a happy term of office in our State, but that long before you leave our shores we may see real peace and harmony established in our Empire and in the world," said Mr. Ward.

"Last year we had to begin our review by reporting the serious break in our work caused by the epidemic of infantile paralysis. Only two of our boys were affected by this disease, and of these one has been back at school this year, and has done a good year's work, while the other, though not yet fit for school is considerably better than he was. This year, fortunately, we have no such serious disturbance to report, but it has not been a good year. Mumps attacked a number of boys in all schools in the early part of the year. We extended our May holidays to three weeks and by this practically rid ourselves of that complaint. During the second term we had German measles among the boys most of the time, but had never a great many away at once. Towards the end of this third term, we have had several cases of the genuine measles, and also a few cases of whooping cough among the smaller boys at the Prep. This is a most unusual condition of affairs for us. In all these troubles we have, as always, had much help and advice from Dr. L. L. Davey, our School doctor, and I desire to express here my sincere gratitude to him for all that he does for us.

BURSARIES AND EXHIBITIONS

In the Public Examinations of 1938, our boys aga'n did very well. In the Leaving Honours we had 12 full certificates; six boys, Hughes, Gray, Blight, Stace, Cowley and Stain, had places on the General Honours List, while Hughes, Gray and Blight were awarded Government Bursaries with which to proceed to the University. In the Leaving we had some excellent results, and I do not think we have ever had more than the 47 certificates gained or completed in these examinations. In the Intermediate, 52 boys gained or completed the certificate, and four boys, Anderson, Ellis, Beckwith and Dunn, gained Intermediate Exhibitions.

The woodwork which the generosity of Mr. Amos Rowley and Sir John Melrose enabled us to introduce two years

ago, has continued to be of great value, not only in the boys' making of soundly useful articles, but in the capacity gained for the use of tools and the exact precision in drawing and working of wood that is essential for success. Last year, you may remember, I spoke of the introduction of drawing into the IV Forms. In 1940 we hope to continue this work in the V Forms. It will not be possible for boys who have any prospect of proceeding to professional work of any kind to do the drawing, but for boys who have no such ambition it should in some cases be a very valuable course of study.

Last year I told you, Ladies and Gentlemen, of our intention to establish a second Chemistry Laboratory as a memorial in the School for Mr. W. R. Bayly, our late Headmaster. The Old Boys' Association, with its usual zeal for anything that will help the School, took this matter in hand very readily and easily raised the amount of the estimated cost. At Old Boys' Day, on 3rd August the new Laboratory was officially opened by Mrs. W. R. Bayly. Mr. Crompton, the president of the Old Collegians spoke very feelingly of what the College owed to Mr. Bayly, and Rev. D. J. Wellington, our president, spoke very graciously of Mrs. Bayly's kindness and of the School's gratitude to the Old Boys. Next year's Chemistry classes will benefit greatly from the increased accommodation this new Laboratory will give us.

THE STAFF

This year has seen a few changes in our Staff. In the Preparatory School, Mr. J. R. Dickinson, B.A., Mr. E. R. Dale and Mr. K. W. Slade, all joined us last February, and have settled down very quickly in their new surroundings. Those of you who were at the Prep. breaking up this afternoon will not need to be told of the success of their work. Mr. Martin Lewin came to us in February, and has been happily engaged in teaching German and doing other general subjects. In May, Mr. Norman Chinner, to whose energy and ability our School music owes so much, found that pressure of work forced him to give up his duties with us. We were all very sorry to lose him; and I should like to tell

him how grateful we are, especially for the pioneering work he did with our singing. We were fortunate in securing the services of Mr. Arthur Brewster Jones for the music. Mr. Brewster Jones has taken up the work very earnestly, and it is entirely due to his keenness that we have been able for the first time to do some combined instrumental work. His orchestra has done very well, and I am looking forward to its growth in size and ability. Mr. Clifford Lathlean, an Old Boy of the School, has had charge of the singing, and with Mr. Lathlean's reputation as a soloist, I am sure you will feel that the work has been in capable hands. Mr. Alex Yule, after three years at P.A.C.—partly in the Prep. and partly in the big school—is leaving us to take a new position at Geelong Grammar School. Mr. Yule has done very good work. We are grateful to him for all that he has done for us, and wish him every success in his new sphere. Mr. Yule's place will be taken by Mr. J. A. Long, B.A., from Melbourne. We have had very valuable help during the year from Mr. Rex Ingamells, B.A., in the English work of the Senior Forms, and from Mr. Guster who has helped with the practical work in the Chemistry Laboratory. To both these gentlemen I wish to offer the School's most hearty thanks.

Our Chaplain, the Rev. D. J. Wellington, has returned to his duties after his serious illness of last year. As President of the Conference, he has been away a good deal, but he has taken a keen interest in all our doings, and we are very grateful for his help.

CADET CORPS

In these days of war and wartime efforts, our thoughts easily turn to the School Cadet Corps. It has had an excellent year under the very able control and real leadership of Captain W. L. Davies, M.C. At the beginning of the year, the Corps received a very large increase in numbers and this has been maintained, so that whereas a year ago we had about 75 cadets, we now have about 130. The keenness of many of these boys is shown by the large number who have attended a voluntary Saturday

morning training class, and by the fact that we have a full complement of N.C.O.'s while five boys, R. D. G. Reed, V. L. Hawke, J. L. Cleland, H. W. Linn and D. B. Dunstan, have qualified by examination, and are holding positions in the Corps as Cadet Lieutenants, and taking a good share in the work of training the boys. Of these boys, J. L. Cleland has just lately received word that he has been accepted for entrance to Duntroon Military College. Two other boys, J. F. Lavis and P. M. Williams, have also qualified for the rank of Cadet Lieutenant, but are waiting for a vacancy before they can be appointed. In May a camp was held for N.C.O.'s and our Corps was very well represented. Seventy-five of our Cadets were booked to attend a camp in the Septemehr holidays, but the outbreak of war necessitated the indefinite postponement of this camp. Two occasions when the Cadet Corps did excellent work might perhaps be mentioned. Their marching and general turnout at the Anzac Day Parade was particularly good, and was commented on by many, and in October they mounted a Guard of Honour for His Excellency, and made a very fine job of it indeed. I do ask for the continued support of all parents in this very necessary branch of our work

You have heard the Games Report from the Captain of the School, and can judge from that that the games have been carried on with our usual vigour and a good measure of success. I too should like to express my gratitude to all those members of the Staff—and there are a good many of them—who in one way or another, do so much to make possible the organisation of the School Sports. It would surprise many of you to know just how much work the Sports of a school involve. It is a great debt of gratitude that we owe to these men who so willingly and unsparingly give of their time and energies to this work.

The Scouts this year have been in the capable hands of Mr. A. H. Dennis, and the Troop has had a very good year. Some of our boys took part in the rally that welcomed His Excellency on his arrival in the State. We had second place in the competition for combined message carrying. This was a fine effort.

The various Societies have had a good year, particularly the Debating Society, which finished a very interesting session by winning the annual debate against St. Peter's College.

Tonight for the first time, we shall present the Gifford Essay Prize of which I spoke to you last year. The subject was set by Mr. Gifford himself: "Co-operation as an essential factor in life." Three judges read the essays, and out of six or seven who attempted it, the judges unanimously placed Max Stain first. I should like to congratulate Stain on a very good essay and the winning of a substantial prize of £10/10/-. Mr. Gifford takes a very close personal interest in this competition; he read the winning essay and sent it back with some very practical and valuable criticism.

On 16th October, His Excellency honoured us with a visit of inspection. The Cadets turned out a very good guard of honour and His Excellency was very complimentary about their steadiness and their good marching. His Excellency is a very thorough visitor; he saw everything we had to be seen, and we are very grateful for his visit which was both a help and an inspiration to us all.

OLD BOYS' SUCCESSES

On the programme tonight you will see as usual a goodly list of academic successes gained by our Old Boys. They are too numerous for me to give them all in detail, and to speak of some and not of all is perhaps unfair; but I should like to congratulate W. A. Dibden and H. J. Edelman for their splendid results in the medical school, and A. J. Bloomfield and D. W. Trott in dentistry. Bloomfield was recommended for the Australian Dental Association's Prize. It is a difficult task to compile this list of Old Boys who have done well in the various professional courses and examinations. If you know of any names that have escaped our notice, I do hope you will let us know.

Nor are we insensible to the great debt of gratitude that we owe to our non-academic Old Boys. I say gratitude advisedly, Ladies and Gentlemen, for this School and all schools in Australia owe most of their success to the influence of their Old Boys on the general life of the

community; and while the learned few loom large in our view, there is no doubt that people's opinion about a school is based very largely on the general bearing, ability and character of its boys in the business, commercial and pastoral industries of the country. We are proud of our boys and of the great work so many of them are doing in the various avenues of life. In the public life of our State we are very proud of the great work that some of our Old Boys are doing in Parliament, and we were particularly proud just a few months ago when one of our Old Boys, A. L. McEwin, was chosen to succeed Sir George Ritchie as Chief Secretary.

THE WAR

There is unfortunately one sphere of activity in which our boys are playing their part, and will play a bigger part as the months go by. I mean, of course, service in the military forces. Again, after 20 years of so-called peace, our Empire is at war. It is a great blow to us all that this awful thing has to be faced again, and that our boys, many of whom left school not so long ago, may be called upon to do great things for the defence of their land and ideals. This hangs like a dark cloud over the future; none of us know how long we shall be under its shadow, but we can only pray that there may rise men in our land and in others who can keep clear the ideals for which they fight and when it is over can make a peace that will be a real peace, and will leave all nations free and untrammelled by fear and want. In the Great War of 1914-1918 there were hundreds of our Old Boys who went with the forces, and a very careful record was kept and their names have been set out on the walls of the Memorial Library as one of our most treasured and sacred possessions at Prince Alfred College. There must be quite a number of Old Boys who have joined the 2nd A.I.F., and if any of you, Ladies and Gentlemen, know of any Old Boy who has joined, you will help us considerably by sending in the name, along with initials, rank and unit, and any other details you can secure.

Civilization must go on after the war. It may be a different civilization, for it is

not at all impossible that this contest with its conflict of ideas, and moving of our own peoples and of others, may produce enormous social changes. It may be that many of the institutions and ways of life that we hold dear will suffer radical revolution. But will there not then be greater need than ever for men with right ideas and ideals of life, men with faith and determination that right must come out of the chaos of wrong? It will need all our education, and a bigger and better education to which I hope and believe we are moving to fit our boys to play their part in this new life.

The Old Boys' Association has again been a strong tower of defence and help to the School, and I must once more express my gratitude to its officers and members. Five years ago we began, on "Old Boys' Day" to invite to the 9 o'clock assembly all Old Boys who were sixty years from their school days. It has become very popular with the "old Old Boys," and I know several men of some years and dignity who are counting the years that must pass before they are eligible for this gathering. At one or two of these gatherings the oldest Old Boy has spoken of his recollections, but this year the President, Mr. Joseph Crompton, spoke. Mr. Crompton has had a very successful year of office, but I think one of the best things he has done even in that fine year, was his speech to the boys that morning.

The Bayly Memorial is of course the outstanding feature of the Old Boys' work for the School this year, but in addition to that, they have presented the College with a new grass tennis court.

A year ago I told you of the formation of a Parents and Friends' Association. This body has grown and is continuing its fine activities. Again tonight we are giving in each form a progress prize, presented by the Parents and Friends. The Association has not the numbers, and consequently, not the resources of the Old Scholars, but I can assure you that its plans for the betterment of the School prove that it is in no way behind the Old Scholars in good thoughts and designs for the future. May I here express to the Association and its officers and Commit-

tee the sincere gratitude of the School for all that it has done?

It only remains for me to express once more the thanks I feel so deeply to all those who help to make the school life move along so easily and happily. This is the tenth annual report I have presented as Headmaster of this School, and during all these years, I have enjoyed the same loyal support for which I wish to express my thanks tonight. To the Council, and especially to its officers, for kindly advice and a ready ear; to the masters, one and all, for happy relations, and cordial loyalty in all our work; to the prefects, and especially to Max Stain, who for two years has been Captain of the School, on whom I have relied very often and who has never yet failed me. I owe him much that can never be paid; to the boys for their willingness and help in many things; to the Matron and her helpers, and all those who each in his own way has given that cheerful service that has done so much to make 1939 a good year."

GAMES REPORT

Your Excellency, Mr. President, Members of the Council, Ladies and Gentlemen:

It is a pleasure to report a successful year in the School sports, not only in the five Intercollegiate contests, of which we won four, but also in the many matches played by junior teams, in which interest and enthusiasm have been well maintained.

Early in the first term tennis claimed most attention. Our team was well up to the standard of previous years, although the captain, G. R. Battye, was the only remaining member of last year's team. We were successful against St. Peter's by 11 rubbers to 4, and Mr. Luke must be congratulated on coaching his tenth winning team in the last eleven years.

At the end of the term a tournament was held, and the School Singles Championship was won by G. B. Schwartz. The Boarders' Tournament was revived, and the Singles Championship went to N. R. Granit.

In the Schoolboys' Championships, completed at the Memorial Drive Courts today, two of our boys, Wright and Battye, played off in the final of the Open Singles, Wright winning 4-6, 6-4, 11-9. All four finalists in the Open Doubles were P.A.C. boys, and Battye and Schwartz defeated Wright and Schafer 5-6, 6-2, 7-5.

A very welcome gift to the School, and one further evidence of the keenness and generosity of the Old Boys, is their recent decision to present the School with a lawn tennis court. This

is making satisfactory progress, and should be ready for use in the new year.

A record number of entries was received for the long programme at the Swimming Carnival, which was held at the Unley Crystal Pool. The carnival was most successful, and we are all looking forward to the time when we shall have our own pool.

The Intercollegiate Athletics were held on the Adelaide Oval in most unfavourable conditions. Rain had made the track very heavy, and a changeable wind hampered the runners, but in spite of this two records were bettered. G. G. Hoad reduced the time for the quarter-mile hurdles by $1\frac{1}{2}$ secs., while G. R. Kelly ran the mile in the record time of 4 min. $47\frac{1}{2}$ sec. Unfortunately he subsequently lost the race for crossing an opponent too soon. P. A. Dalwood won three Senior events, and M. I. Evens two Under 16 events. The final scores were: P.A.C. 72½ points, S.P.S.C. 57½ points, and Messrs. Wadham and Steele, our coaches, are to be congratulated on this result.

A week after the Intercollegiate contest the Annual School Sports were held on the College Oval. This year we had three cup competitions for the first time in the history of the sports, and the increased keenness and competition justified this step. The senior and junior contests were particularly close and exciting, and the result of the Senior Cup depended on the last event, the half-mile, when Hoad, Jorgensen and Stain were all in a position to win the cup. The Junior Cup was won by K. James, the Under 16 Cup by M. I. Evens, and the Senior Cup by G. Hoad.

Although none of last year's crew had returned to School, several experienced rowers were available for the Eight, and quite a good crew, stroked by P. G. Sullivan, represented the School. In addition, the Rowing Club took delivery of a new racing eight a few weeks before the regatta, and we had every reason to be hopeful of success. We were successful against the Adelaide High School in the first heat of the Head of the River race, but lost to Scotch College by three-quarters of a length in the final. We congratulate Scotch on their first victory for the Gosse Shield.

On the following Thursday the Eight rowed against St. Peter's for the Blackmore Shield, and won rather easily by a margin of $1\frac{1}{2}$ lengths.

Two other P.A.C. crews were successful at the regatta. The Under 16 crew won from the Adelaide High School in the final of their event, and the Old Boys' crew won a thrilling race by two feet from St. Peter's Old Boys.

At the beginning of the football season it appeared that we should have a strong team, as ten of last year's eighteen were available. However, in spite of intensive training by Mr. R. T. Smith, we were not good enough, and St. Peter's narrowly defeated us by 3 points in an exciting finish, after we had been 31 points ahead at half-time. The lead see-sawed in the last few minutes of play, and it was impossible to foretell the winning team right up to the final bell. The scores were: S.P.S.C., 16 goals 20 behinds; P.A.C., 16 goals 17 behinds.

At the end of the season the football team visited Melbourne to play a match against Wesley College, and we were again narrowly defeated, this time by one point, again after being in the lead at half-time. The scores in the match were: Wesley College, 8 goals 13 behinds; Prince Alfred College, 9 goals 6 behinds.

Several of the junior teams had very successful seasons, although it is necessary to impress on the members of these teams the need for regular attendance at practice. We wish to express our thanks to those masters who devoted a great deal of time and energy to coaching the juniors.

This year the Intercollegiate cricket was played on our oval, as the Adelaide Oval was not available. Six of last year's eleven were included in our team, which was captained by R. J. Wilson. St. Peter's scored 311 in their first innings, to which we replied with 352, of which Martin made 99 and Evens 92. In their second innings, after having lost four wickets for 228, St. Peter's collapsed before the bowling of Wilson and Robin, and the last six wickets fell at a cost of only 17 runs. We scored the 205 runs needed with the loss of four wickets, Clarke remaining 75 not out. We congratulate J. G. Shierlaw, of St. Peter's, on compiling a century in the second innings.

At the end of this term the boxing and gymnastic contests were held in the remodelled gymnasium, where a special movable ring has been provided for boxing. The heavyweight division in the boxing was won by D. K. Baraclough, while M. C. Bartholomaeus defeated M. W. Stain by two points in the gymnastics contest.

Three merit badges have been won this year. These badges are awarded to boys who have gained their blazers in at least three Intercollegiate contests, and have been won by D. M. Jorgensen for tennis, athletics and football, and M. I. Evens and P. A. Dalwood, each of whom represented the School in athletics, football and cricket.

The Old Boys, and various parents and friends of the School, too numerous to mention, have shown continued interest and generosity by donations and trophies, by their assistance and encouragement, and we wish to thank them for their unflinching support.

In conclusion, we wish to express our gratitude to the masters in charge of sports, and to congratulate them on the excellent results their coaching has achieved.

AWARDS AND PRIZES

Fourth Form (C)—Dux, W. G. Nosworthy; 2, C. R. Webb; 3, R. E. Davey; 4, R. T. Davidson; 5, D. N. Davies; 6, R. C. Wills; 7, R. B. Newbold.

Fourth Form (B)—Dux (John W. Blacket Memorial Prize)—J. H. W. Shannon; 2, R. G. Strange; 3, J. R. Myhill; 4, P. R. Mead; 5, C. Kidd; 6, D. R. Lang; 7, L. J. Perkins.

Fourth Form (A)—Dux (F. B. Holland Memorial Prize)—M. W. Dunstone; 2, F. R. Zeppel; 3, D. J. Howland; 4, M. J. Carter; 5, N. G. Peters; 6, S. D. Thomas; 7, C. A. Welch; 8, B. B. Martin. General Proficiency: K. M. Pearson, G. S. M. Fowler, Y. F. Whittenbury, J. G. Spinkston, R. W. Johns, D. H. Bunday, R. C. Collins.

Fifth Form (E)—Dux, W. S. DeGaris; 2, V. R. Murdoch; 3, J. P. Kelly.

Fifth Form (D)—Dux, W. Dickson; 2, A. F. Statton; 3, R. C. I. Harris; 4, W. J. Mills; 5, N. E. Taplin.

Fifth Form (C)—Dux (Keith Swann Memorial Prize)—D. L. Waxman; 2, K. V. Buick; 3, M. G. Western; 4, B. F. Butchart; 5, D. G. Morris; 6, J. G. Crawford; 7, P. W. Curtis.

Fifth Form (B)—Dux (presented by Messrs. Gillingham & Co. Ltd.)—C. S. Gum; 2, J. R. Nicholls; 3, R. J. Andrew; 4, R. R. Barlow; 5, R. R. Magarey; 6, D. L. Davies.

Fifth Form (A)—Dux (Alan Johnson Memorial Prize)—R. B. Potts; 2, J. P. Keeves; 3, C. R. Carter; 4, C. H. S. Dolling; 5, R. W. Parsons; 6, B. J. Potter; 7, R. J. French. General Proficiency: B. M. Cheek, R. D. White.

Sixth Form (C)—Dux, F. J. Nicholls; 2, G. Johns; 3, D. B. Robin; 4, F. O. Hill; 5, H. K. Harley; 6, M. C. Bartholomaeus; 7, D. K. Read; 8, M. B. Brown.

Sixth Form (B)—Dux (presented by P. E. Johnstone, Esq.)—C. R. Middleton; 2, E. J. Symons; 3, I. H. Hobbs; 4, D. M. Jorgensen; 5, A. T. James; 6, J. W. Crompton; 7, D. M. Martin; 8, H. R. Lee; 9, J. H. S. Parsons.

Sixth Form (A)—Dux (Jas. and Geoff. Robin Memorial Prize)—D. R. R. Anderson; 2, J. L. Waddy; 3, J. M. Brown; 4, R. S. Beckwith; 5, H. J. Ellis; 6, L. H. May; 7, D. B. Carter; 8, J. E. Dunn; 9, J. F. Lavis.

Upper Sixth Form—Dux of College (Holder Memorial Prize)—M. W. Stain; 2, J. M. Cowley; 3, A. E. Norman; 4, V. L. Hawke; 5, J. H. Furness; 6, J. A. Nelson; 7, G. H. Jones; 8, S. B. Martin; 9, D. E. Hosking; 10, B. F. Venner.

SPECIAL PRIZES AND SCHOLARSHIPS

Athletics—Merit Badges: P. A. Dalwood, M. I. Evens, D. M. Jorgensen. Intercollegiate Sports Medals: P. A. Dalwood (3), M. I. Evens (2), M. W. Stain, G. G. Hoad, K. W. Chinner, K. B. James, T. H. Allen. College Championship: G. G. Hoad.

Football Prizes—Best Player for Season (presented by Old Collegians' Association), D. M. Jorgensen. Best Player for P.A.C. in Intercollegiate Match (presented by M. S. Joyner, Esq.), M. I. Evens. For consistently good play at forward for the season (presented by W. G. Taylor, Esq.), J. D. Clarke.

- Cricket Prizes—First Eleven Batting, P. A. Dalwood. First Eleven Bowling, D. B. Robin. Highest Score in Intercollegiate Match (presented by C. R. Davies, Esq.), H. A. Martin. Bowling in Intercollegiate Match (presented by Old Collegians' Association), R. J. Wilson, D. B. Robin. Fielding in Intercollegiate Match (presented by Old Collegians' Association), M. I. Evens. Best All-round Player in Intercollegiate Match (presented by H. W. A. Miller, Esq.), M. I. Evens.
- Tennis—School Singles Championship (presented by N. I. Gryst, Esq.), G. B. Schwartz.
- Rowing—H. E. Freburg Trophy for Coxswains (presented by H. E. Freburg, Esq.), D. H. Buttery. Senior Trophy (presented by J. C. Williams, Esq., for most improved oarsman), R. D. G. Reed.
- Gymnastics—Form Medals: IV C, L. A. Williams; IV B, W. R. Ferguson; IV A, R. H. Pearce; V E, J. P. Kelly; V D, M. Bond; V C, M. G. Western; V B, R. R. Barlow; V A, J. V. H. Padman; Fifth Form Champion, K. B. James; VI C, H. K. Harley; VI B, C. R. Middleton; VI A, G. D. Mitchell; VI U, M. W. Stain. Champion Gymnast of the School: Cup (presented by C. E. Bennett, Esq.), M. C. Bartholomaeus.
- Boxing—Division III (Cup, presented by M. Schlank, Esq.), J. M. Thurston; Division II (Cup, presented by Dr. M. Erichsen), D. G. Morris; Division I (Cup, presented by the Headmaster), D. K. Barraclough.
- Abotomey Cup, for best Patrol in Scout Troop, Magpies.
- Rifle Shooting Trophy (presented by Parents and Friends Association), D. B. James.
- Best Contributions to the "Chronicle"—Presented by the Headmaster, B. F. Venner. Presented by W. L. Davies, Esq., D. L. Waxman.
- Debating Society Prizes (presented by W. D. Taylor, Esq.)—Best Speaker, J. G. Bunday. Most Improved Speaker, R. J. Wilson.
- Scripture—Form Prizes: IV C, L. A. Williams; IV B, J. H. W. Shannon; IV A, T. B. Mills; V E, W. S. DeGaris; V D, W. A. Kelly; V C, B. F. Butchart; V B, J. R. Nicholls; V A, G. W. Hassell; VI C, P. J. Hutson; VI B, E. J. Symons; VI A, R. E. Gryst; VI U, V. L. Hawke.
- Recitation Prize (presented by Rigby Ltd.)—D. B. Cheek.
- Neatness Prizes—Junior, D. H. Bunday; Senior, D. R. R. Anderson.
- Arithmetic Prizes—Fourth Forms, D. J. Howland; Fifth Forms, R. B. Potts; Sixth Forms (presented by S.A. Cricketing Association), G. Johns.
- General Improvement Prizes (presented by the Parents and Friends' Association)—IV C, P. J. Sanderson; IV B, C. Thomas; IV A, W. J. E. Smith; V E, M. J. Hitch; V D, L. M. Clarke; V C, M. E. Thompson; V B, P. Dickson; V A, D. B. Cheek; VI C, A. B. Cox; VI B, J. E. G. Griffiths; VI A, D. W. Dadds; VI U, F. R. Humphris.
- H. J. Priest Memorial Prize for Mathematics—M. W. Stain.
- James Clarkson Sunter Memorial Prize for Languages—J. H. Furness.
- Harold Fisher Prize for English Literature—M. W. Stain.
- George Thorburn Melrose Prize for Shakespeare—S. B. Martin and B. F. Venner (aeq.).
- Special Essay Prize (presented by R. Ingamells, Esq.)—M. W. Stain, H. W. Linn (proxime accessit).
- A. S. H. Gifford Essay Prize—M. W. Stain.
- Smith Prizes for History—Junior, D. L. Waxman; Senior, M. B. Brown.
- Cotton Medal for Applied Chemistry—M. W. Stain.
- Frank L. Hunter Memorial Prize—A. E. Norman.
- Wesley Lathlean Memorial Prize—M. W. Dunstone.
- William ("Bill") Jeffries Memorial Prize—P. A. Dalwood.
- Keith Swann Memorial Medal—M. W. Stain.
- Head of Boarding School—A. E. Norman.
- Captain of the School—M. W. Stain.

SCHOLARSHIPS

Won and Held during 1939

- Entrance Scholarships—(a) Elder, J. Ayres; (b) Grasby, C. E. Stolz; (c) Fiddian, K. L. Jones; (d), M. W. Dunstone.
- Epworth Board Scholarships—(a) Chinner, J. D. Clarke; (b) Ingamells, D. J. Howland; (c) Waterhouse, K. G. Lewis.
- Scholarships Gained and not Announced at end of 1938
- Fifth Commercial Form—(a) George Wills, N. R. Granit.
- Fifth University Form—(a) Clarkson, L. H. May; (b) Elder Foundation (under 16), D. B. Carter.
- Sixth Commercial Form—(a) Arnold Davey, C. R. Middleton.
- Sixth University Form—(a) Churchward, S. B. Martin; (b) Craven, G. H. Jones; (c) Robb, L. G. Rowe.
- Upper Sixth Form—(a) Malpas, M. W. Stain; (b) Longbottom, A. E. Norman; (c) Colten, J. H. Furness; (d) Old Collegians', T. V. Holland; (e) E. B. Colton, J. M. Cowley; (f) Spicer, J. H. Stace.
- Alfred Muecke Prize for Good Work in Intermediate Forms—D. M. Martin.

His Excellency the Governor's Visit

On Monday afternoon, 16th October, His Excellency Sir Malcolm Barclay-Harvey, accompanied by his private secretary, Mr. Legh Winser visited the School and saw it at work. After being received by the Headmaster and Mrs. Ward, His Excellency inspected a guard of honour of the School cadets, in command of Capt. W. L. Davies, assisted by Cadet Lieuts. R. D. G. Reed and J. L. Cleland. He was pleased to comment favourably on their general appearance, and also on their steady marching. The Head conducted him on a tour of inspection of the School, including the Prep. and the woodwork room, and our vice-regal visitor showed a lively interest in

all our activities. Later, in addressing the assembled School, His Excellency said that if he and his wife enjoyed the remainder of their sojourn in South Australia as much as they had already enjoyed the first two months, they would be happy indeed. His advice to the boys was that they ought to give their whole energy, interest and zeal to whatever task lay before them; to pursue their games, their hobbies, their studies with enthusiasm and not in any half-hearted fashion.

He intimated, in conclusion, that he had just accepted an invitation to be present at our Speech Night in December. This good news was received with cheers.

Prefects' Jottings

The Prefects, as usual, were well represented in the term's activities, Stain being Dux of the School, and Wilson captaining the Cricket Team.

The approach of the Public Exams. curtailed the activities of the rowdier element in the Prefects' Room, and when Don Jorgensen and Max Stain were occupied with their studies, it was sometimes possible to make oneself heard. Then little Edgie, our Viv., and Gussie got busy with cherry stones and their innocent delight gladdened our hearts.

Wilson (captain) and Bartholomaeus gained places in the Inter-Collegiate cricket and nobly upheld the honour and prestige of the Prefects, while Peter (Zuke) Edwards entered for both the boxing and gym. competitions, but was unsuccessful in both. The latter contest was won by Bartholomaeus by a narrow margin from Stain, last year's winner.

Battye did very well in the School-boys' Championships at the Memorial Drive Courts. He was runner-up to

another P.A.C. boy, Wright, in the Open Singles, while with Gordon Schwartz (a member of the proletariat, though an habitue of our room) as partner, he was successful in the Open Doubles.

Nelson and Norman did good work at the cricket as official scorer and "Chronicle" reporter respectively. Nelson deserves a special word of commendation. Although not gifted with sporting ability himself, he does all he can to aid his fellows, and has given up almost every Saturday afternoon throughout the year to act in the capacity of scorer for the First Eleven, and goal umpire for the First Eighteen.

Our year of office has been very successful from all points of view, and no Prefect has failed to pull his weight in the School. Most of us are leaving, and to next year's Prefects we wish all that they can wish themselves. We hope they will have a very successful year, and that they will amply justify their promotion to the office of School Prefect.

Annual School Service

This service was held on Sunday evening, 17th December in the Assembly Hall. A few boys owing to lack of travelling facilities were not present, but most of those living in the suburbs close by came and brought their parents with them.

The usual order of service was followed, with Max Stain, Captain of the School, reading the lesson (Matt. xxv, 14-29). Reverence and simplicity supplied the atmosphere for the Headmaster's concluding talk for the year. As a basis for our thoughts he chose a sentence from St. Matthew: "He that is not with me is against me."

He said: "The lesson contains one of Jesus' best known stories—the parable of the talents. You know the story. The man to whom the master had given the one talent, had it snugly wrapped up in a napkin; he had buried it, as so many people in the East still bury things they are frightened of losing. He handed it back, quite safe, unused and untouched. The master was angry, and ordered the talent to be given to the man with ten, while the timid soul who was afraid to use his one talent was punished very severely. But please notice that he was punished, not because he failed, but because he did not even try to do anything. Of course the man who failed was full of excuses; we always are for our own failures. But his master's judgment was stern and inexorable. Life and God who rules our life are always hard on those who do not try.

"Now you will often feel like that, boys, about something in your own lives. As you look round, other people's jobs seem so much interesting than your own, and they appear to be so much better at things than you are. 'If only I were as clever as Jones, or as good at games as Smith, or had as good a start in life as Robinson,' and so on, and we persuade ourselves what a difference that would have made and how excusable it is for us to sit down and do nothing because we have not these advantages. Now Jesus wants to make us see that this is

all wrong. You must use your little bit, even if it is ever so little. It is yours and no one else can use it. Moreover, you don't know what God can help you to do with it. You remember the story of David killing Goliath?

"Again it is possible that our one-talent man felt like this: 'My master is a hard man; he expects a lot—far more than I can do. He would like to come back and find that I have made my one talent into ten. Well that is impossible! But I won't risk robbing him of this talent. I'll keep it safe until he comes back. I cannot do any good with it, but I won't risk doing any harm.' That is a very easy and a very fatal mistake to make, boys. We read a lot about neutrals in the war, and you can gather from that how hard a position neutrality is. But you just cannot be neutral in life. You cannot find a place half way between good and evil where you will be on neither side. In the text you hear Jesus saying: 'He that is not with me is against me.' You must help or you must hinder. You cannot stand still and let life flow past you.

"If you are living at all, you can no more help having some influence on others than you can help throwing a shadow when you stand in the sunlight. Do what you know to be right, even the very little things, and don't ever think about your influence. That is what others feel. You cannot feel it any more than you can cool yourself by sheltering under your own shadow. You may do very little, have only one talent, but God's purposes will be realised in the world more readily if all of us are doing the little things that are right, and the parable is tragically true to life. If we do not follow the right, we cease to see it. There is no power of body, mind or soul that we can keep if it is idle. We must use or we lose.

"The war has roused us all to a sense of horror that nations can deal so with other nations, and rob them of their home and liberty, and that men can smash and torture the bodies of their fel-

low men. All this we feel cannot be God's will. I don't for a moment believe it is, and we must do all we can to help to stop it; to win and so end the war and put right the things that caused it. But are these the only things that are wrong? We are so horrified at the evils of war, but so used to the evils of peace. We are quite hardened to knowing that thousands of men are workless and hopeless; we are accustomed to many men and women's minds and souls being crushed by fear—fear of unemployment and of sickness and the ruin it brings; we are used to having so many in every land either starving or very nearly starving, in a world of plenty. Don't lose sight of these things, boys. They are wrong, and can we feel that the wrongs and brutalities of war are worse in God's sight than

these? And yet the world is God's world and we must believe that in the end His will and purpose will be fulfilled.

"Use the powers you have; use your five talents; use your two—yes, and use your one. Keep clear before you the ideals you have; ideals of service for others and justice for all. Don't think that a man or a country—ours or any other—is great because of its wealth, or because it keeps others in subjection, for in God's good world, all must be free; but think a nation great if it can lead the world to better things. And remember the story of the talents; that we are hindering God's purposes if we do not help, and that, when we help, we may perhaps bring happiness to others, but we shall certainly gain it for ourselves."

Historical Society

During the final term of 1939, examinations and functions prevented the Society from holding more than one meeting.

The meeting which was held on 12th October in the Boarders' Library, was a great success. In the absence of the president, M. B. Brown took the chair. The chairman welcomed Mr. Rex Ingamells, the speaker for the evening, and then the secretary gave a brief resume of the League of Nations debate which had occurred the previous Tuesday evening.

Mr. Ingamells chose for his subject "Captain Arthur Phillip," the first Governor of Australia, who was of German descent, and whose ancestors had been seafaring men for centuries.

We were told of how, as a result of the American war of Independence, the first fleet of eleven ships under Captain Phillip set out from England in 1787 for Australia, and arrived at Botany Bay on 28th January, 1788.

For a time the colony was entirely dependent on England, and the Cape of Good Hope for her supplies. The convicts were unwilling workers and the

soldiers and marines were dissatisfied, so that successful cultivation was impossible. Supreme power was in the hands of Governor Phillip. Many anxious periods were experienced when food supplies ran low and when supply ships were wrecked, and to relieve this anxiety, he sent some of the convicts and soldiers to Norfolk Island, in the Pacific.

The first success at agriculture was at Parramatta, where an ex-convict succeeded in supplying his own needs. This stimulated farming and by the time Phillip left in 1792, the colony was nearly self-supporting. All this was the result of Phillip's resourcefulness and courage, which survived, despite the setbacks he received from the Home Government and his own officers.

The excellent talk of Mr. Ingamells was followed by several impromptu speeches on various subjects from the boys present. The secretary then proposed a vote of thanks to the speaker, which was seconded by Waxman, after which the chairman declared the meeting closed.

Cricket Notes

INTERCOLLEGIATE CRICKET

(Played at P.A.C. on Dec. 15-19)

This was a most interesting game, full of surprises, excellent partnerships, collapses, and fluctuating fortunes generally. The wicket was in good order—a batsman's wicket—though occasionally a ball would keep a little low. The umpires appointed by the S.A.C.A. were Messrs. Searson and Dawe, and they carried out their task efficiently. The state of affairs of which we had to complain last year was happily absent this year.

The scientific geniuses of sixth upper form arranged an amplifier in the pavilion and broadcast the scores of the Interstate match taking place at the Adelaide Oval, together with other bright comments very distantly related to cricket.

FIRST DAY

Saints won the toss and batted. Shierlaw and Steele were associated in a splendid opening partnership and had scored 133 before Steele succumbed to a straight ball by Wilson. In spite of frequent changes in the bowling these two were unconquered at lunch with 74 showing on the board. Thompson, who had maintained a good length with his medium stuff should have had Shierlaw's wicket after lunch, but Clarke at square leg was too slow moving to the ball and dropped the chance. Indeed, on the first day, our fielding was often ragged and unimpressive. Steele was the first to go. Hill, who had shaped so well last year, then stood on guard. Almost immediately he snicked the ball into Dalwood's hands at first slip, but the chanced was mullied. Soon after, however, Dalwood made amends by running Hill out with a quick shot at the wicket. With 200 runs now on the board the new ball was produced and handed to Robin. Wilson and Robin then, between them, bundled out four batsmen for 11 runs, the board now showing 7 for 227. This quick run of wickets put Gogler on his mettle, and in spite of the efforts of our bowlers he and Cowell were still at the wickets at six o'clock—7 for 294, of which Gogler had contributed 60 by sound play.

SECOND DAY

On resumption Gogler fell a victim, l.b.w. to Thompson, and the remaining batsmen offered little opposition. Saints' opening bowlers were Robertson and Wells, but the former for a time was very erratic. In Wells's second over, Fuller was bowled with a beautiful ball. Clarke followed, but did not last long, being bowled with a ball that kept a little low. Two wickets down for 16—our supporters sat silent and glum, looking hopefully at Evens as he took guard at the wicket. Nor did they look in vain. Martin and Evens stayed together for just over two hours, and their partnership yielded 166 runs. It was unfortunate that neither of them reached the coveted century, but they provided excellent cricket and showed our later batsmen that there was nothing very terrifying in our opponents' attack. Evens, who had scored more rapidly, was the first to go, but McKay, the in-coming batsman, soon settled down. Selth, a vigorous bat, came in late in the day and was out through excessive caution in trying to keep his wicket intact. However, with 267 on the board for the loss of five wickets we had no cause to complain.

THIRD DAY

The wind on Monday was somewhat boisterous and gusty, but it did not affect the keenness of the players or that of the spectators.

Dalwood and McKay carried on our score to 300, when Gogler claimed McKay's wicket. Dalwood was helping himself liberally, and every ball short of a length was sent spinning to the boundary, but our remaining batsmen offered little resistance to the wiles of Gogler, who took our last five wickets. Princes finished the first innings 41 in the lead.

In the afternoon His Excellency the Governor and Lady Muriel Barclay-Harvey were present and evinced a keen interest in the game.

Saints began their second innings sensationally. In his first over, Robin, taking advantage of the strong wind, clean bowled Steele and Hill with successive

balls. The next batsman, Gun, also suffered the same fate after making 14. With 3 wickets down for 29, our prospects had improved, but Shierlaw and Gogler then became associated in a great partnership of 193, and our hopes faded.

In spite of many bowling changes the two remained together. Soon after afternoon tea Shierlaw reached his century. He was given a well-earned round of applause.

After the 200, which was compiled in 184 minutes, the new ball was brought on. This proved to be Gogler's downfall, for he quickly fell a victim to Wilson when he hit a hard catch to Clarke, who accepted it. He had batted well for his 81 runs, not giving a chance.

The scores at stumps were 4 for 228, Shierlaw being 126 and Sims 1.

FOURTH DAY

Just as there had been a collapse early in Saints' second innings, so there was another collapse before lunch. Saints' last 6 wickets fell for 17 runs. Shierlaw, who had batted so confidently the day before, was bowled by Wilson in the second over, having added only five to his over-night score.

The side was thus dismissed for 245, leaving us 205 to make to win. Wilson and Robin, who both bowled well, shared the wickets, taking five each.

In our second innings, Martin and Fuller opened confidently, and runs came freely. When the score was 37, however, Fuller, backing up too far, was run out for 12.

Martin and Clarke then became associated in a partnership of 76, Martin finally being bowled by Wheaton for 65. Evens then came in and batted brightly to reach 20, when he was caught behind by Hill off the bowling of Gogler. The score was then 3 for 161.

McKay, the next batsman, was not at the wickets long, being bowled by Gogler for 11. Clarke, in the meantime, had been scoring steadily and seemed set for his century. The winning hit, a four to square leg, was made by Dalwood.

The final scores were 4 for 207, Clarke being 75 not out. We thus had won the match by 6 wickets.

A. E. N.

[Now a word about our cricket coach, Mr. C. R. Davies, to whose knowledge of the game many P.A.C. cricketers are deeply indebted. Of the last ten annual matches against S.P.S.C. we have lost on only one occasion, in 1937. We congratulate him on such a splendid record.]

CRITIQUE

M. C. Bartholomaeus—Although he has found difficulty in striking form he is a promising batsman with many good shots. A fast outfield.

J. D. Clarke—A reliable bat who has played many valuable innings throughout the season. His innings of 75 not out in the Intercollegiate match was a fine effort.

P. A. Dalwood—A batsman with plenty of reach, who drives with great power but is inclined to be reckless. Quite a good outfield.

M. I. Evens—A splendid all-rounder who has been very consistent with the bat. Is to be congratulated on his performances in the Intercollegiate match. A good length bowler and a very fast and safe outfield.

G. G. Fuller—A stylish and correct batsman who has made several valuable scores. A rather unreliable field.

H. A. Martin—A sound opening batsman, who has made several splendid scores. He is to be congratulated on his excellent scores in the Intercollegiate match. A good outfield with an accurate return.

I. L. McKay—As a slow bowler he has taken many wickets throughout the season. A good batsman with plenty of shots. An excellent point-field.

M. E. Thompson—A keen all-rounder who has made several good scores. A valuable change-bowler who keeps a consistent length. A safe field.

D. B. Robin—A fine opening bowler who keeps a good length. He is to be congratulated on his great bowling in the Intercollegiate match. A fast field with a good return.

R. B. Selth (Vice-Captain)—A very able and promising 'keeper who performed particularly well towards the end of the season. He is an enterprising bat, who has made some good scores.

R. J. Wilson (Captain, by C. R. D.)—Very good length bowler who varies his pace well. He is a good batsman, but has given himself few opportunities. Has handled his team most successfully.

FIRST XI GAMES

We began the season with practice games against the Sturt Club and a University side. Though we were easily beaten in both matches we were glad to have had the experience of playing against some seasoned cricketers. Very early in the term we settled down to regular practice in readiness for a busy programme of Association matches. R. J. Wilson was chosen captain and R. B. Selth, the wicket-keeper, vice-captain. Not until December did we really strike batting form.

P.A.C. v. S.P. OLD COLLEGIANS

(Association Match)

After winning the toss S.P.O.C. decided to bat on a fast and true wicket. Apart from Richards, the opposing batsmen showed poor form, and were out for 134. Wilson and Evens both were in form with the ball, the former obtaining the hat-trick.

Unfortunately, we had to bat on a very sticky wicket the next Saturday, and were not able to reach the score set.

This year the Cadet Corps has been the largest since the voluntary system was inaugurated, and we hope that the corps will be still larger next year. Our establishment of 116 has been easily exceeded.

For the first time for some time, we have had our full quota of officers, but unfortunately several are leaving at the end of this year. Lieutenants J. L. Cleland and D. B. Dunstan will be going to the Royal Military College at Duntroon, and we wish them every success there. The progress of the cadets during this year has been quite satisfactory for such a large corps working under the difficulties experienced. Usually a Warrant Officer or Staff Sergeant is sent out for our weekly parades to assist in instruction, but this year, owing to the war, this has not always been possible, so that we have been handicapped by the small number of efficient instructors available. Nevertheless the progress has been quite good.

The N.C.O. class has not had a very large attendance this term, but those who attended were keen on their work, and the instructors are more than satisfied with the progress that has been made. An examination for promotion was held at the end of this term, and the results were as follows:

Passed—L.Cpls. R. W. Hone, R. D. Cartledge, E. J. Symons, J. Ayres, R. M. Temple, J. G. Bunday, H. F. B. Brock

and Cadets P. M. Cotton, G. B. Mitchell, J. M. Linn, P. J. Hutson, B. J. Kohler, R. E. Gryst.

Six of these—Cotton, Symons, Hutson, Bunday, Hone, Cartledge—also passed a further test on the handling of the Lewis gun.

In October the Governor (Sir Malcolm Barclay-Harvey, K.C.M.G.) paid a visit to the College. The Corps mounted a guard of Honour in his honour, and made a very fine job of it. They marched and drilled excellently, and then executed a fine impromptu march past when they met the Governor on the back oval while on their way back to the parade ground for dismissal.

During the term a second room was placed at our disposal which has become Company Orderly Room. This is used by the C.Q.M.S. for storing certain stores and papers relating to the corps. This has, to a certain extent, alleviated the congestion to which the Armoury was subject.

On 20th November, the corps, together with those from S.P.S.C. and Scotch College, went to the Port Adelaide Rifle Range for the annual musketry course. Conditions were fairly good. The top score for us was made by L.Cpl. D. B. James with 86 out of a possible 100, with Cadet Lieut. D. B. Dunstan, 83, runner-up.

—V. L. H.

Student Christian Movement

The first meeting for this term was addressed by Mr. H. R. Ralph, who chose for his subject the statement that Christianity is a plus religion, the Cross representing the plus sign. He stressed that Christians should try to make their religion a plus religion. At present they are being judged, not by what they do, but by what they don't do.

Mr. S. Moyle, M.A., B.Sc., the speaker at the next meeting, urged us to put more faith in God. "We should," he said, "in spite of the present turmoil, stand by God, making hardships a test of our faith. God's Kingdom must ultimately come to the world."

Rev. R. E. Stanley addressed the third meeting, taking for his subject the need for self-reliance. In the case of emergency, it is only our self-reliance which will keep us out of trouble. He pointed out that we must make the best of our circumstances, and concluded by saying that "Heaven helps those who help themselves."

Rev. A. E. Bottrell, in his address at the fourth meeting, urged us to make more use of our leisure. We should use it for prayer and worship, for we cannot see Jesus unless we kneel at his feet.

In his short discussion on the life and music of John Sebastian Bach, at the last meeting, Rev. H. P. Finniss emphasised the fact that, in spite of the opinions of many people, Bach's music was not dry, uninteresting, academic or high-brow. His music, in fact is one of the outlets for his religion.

The S.C.M. committee and all boys going to the University next year are very grateful to Mr. Bob Cotton and Mr. Frank Coaldrake for coming out to the School and telling them about the different societies there and their aims and importance. The committee hopes that all boys going to the University will continue to show their interest in the S.C.M. at the University.

We desire to thank most sincerely all who have so cheerfully found time to come and address our meetings throughout the year.

Library Notes

MEMORIAL LIBRARY NOTES

With the approach of the November examinations a larger number of Sixth-formers availed themselves of the opportunities offered by the Library and our seating accommodation was often taxed to the utmost during the lunch hours. The number of books borrowed by Leaving Honours students was much larger and Bradley's "Shakespearian Tragedy" was difficult to obtain, although we have more than one copy.

The Prefects have again generously offered to present several volumes, and Mr. E. W. Cotton, of Mt. Lawley, Western Australia has kindly forwarded

Homer's "Iliad" (a translation), a prize won at the School many years ago.

The following volumes have been added:

"The Proper Study of Mankind," by B. A. Howard—presented by the Headmaster; "The Admiralty Handbook of Wireless Telegraphy"; "First Electrical Theory for Schools," by H. W. Heckstall-Smith; "Intermediate Electrical Theory," by H. W. Heckstall-Smith; "Translation of Homer's Iliad" (2 Vols.)—presented by E. W. Cotton, Esq.; "Prefaces to Shakespeare" (second series), by H. Granville-Barker—presented by the Prefects.

The School Orchestra

At the beginning of the second term, Mr. A. Brewster Jones formed from the musical talent of the School, an orchestra consisting of piano, six violins, string bass, flute, clarinet, saxophone, bassoon and percussion. The purpose of the orchestra is to further the musical education of those boys at school who are studying music, practices being held in the assembly hall each week.

At the School Concert in August, the orchestra made its debut, giving a creditable performance of "Persian Market." At Speech Night it played "In a Monastery Garden," and accompanied the School in the singing of the carol "Holy Night." During the year some of Strauss' waltzes have been studied with varying degrees of success.

Among information we have gleaned during the year are the following:

1. It is a great improvement to an introduction if each violinist plays an impromptu cadenza.

2. Some musical notes are red or yellow, whereas others are blue.

3. A genius is a chap who can play a saxophone very softly and in tune; nor do his pads leak and his reed is never too dry.

4. Nightingales sing only when they have had a drink.

With some of the players leaving at the end of this year, the orchestra will welcome new players in 1940, particularly as the string section needs building up, and there are at present no brass instruments at all.

In conclusion, we would like to express our gratitude to Mr. Brewster Jones for his untiring efforts to convert a lot of raw material into a finished combination. We would also like to thank Messrs. Dale, Lewin and Slade for the help they have given us.

—J. H. F.

THE SCHOOL ORCHESTRA

The Boxing Competitions

The Boxing Competitions were conducted in the gym. on Wednesday, 13th December. For the first time the ring was erected in the centre of the gym., and this gave the spectators a better view of the boxing than had previously been possible. The Headmaster had a wooden floor twenty feet square, constructed, and on this the ring was placed, and the whole structure proved very satisfactory. Unfortunately the boxing class was not very large this term, and there were fewer bouts than usual. However, the boxing was excellent, and in nearly every bout the contestants were very evenly matched. It is a matter for congratulation that we have several experienced Old Boys who annually act as referee and judges. Mr. Frank Nicholls, once the champion gymnast of the School, and later middleweight amateur champion boxer of the State, is an ideal referee, who immediately stops a bout, if he considers the contestants unevenly matched, and so saves a boy any punishment.

Mr. Jack Williams was a good boxer at school, and has helped us with the judging for several years. I do not know whether he still keeps up his boxing, but having been married since we last saw him, perhaps he may get or need a bit of practice. Mr. Joe Roberts seems to be as fond of boxing as he might of his best girl-friend. He has won innumerable contests, some while at school, and others at Inter-Varsity competitions, and he is still as good-looking as ever. Mr. Mutton, our other judge, is thoroughly capable and conscientious, and I feel sure the boys have as much confidence in him as a judge as they have in him as a master.

Barracrough and Middleton of the heavy division were the first pair. This bout was so one-sided that, after Middleton, by sitting down a couple of times for a rest had shown that he approved of the new floor, Mr. Frank Nicholls declared Barracrough the winner. It is only fair to Middleton to say that he has been slacking on boxing this term, and consequently was right out of condition.

Waugh and Edwards of the Leaving division then came along. This was a good contest. Both boys were at first very cautious, but they soon warmed to their work, and after a close and interesting contest, Waugh was declared the winner.

Morris and Collins of the middle division came next. These boys gave a splendid exhibition, and it was only because of Morris' greater experience that he won. He was expert at dodging, and Collins's blows in consequence often went astray.

Faehse of the middle division had to fight a bye, and Edwards very kindly obliged. Byes are usually a source of annoyance, but this one proved to be quite interesting, as Faehse did not attempt to conserve his energy, and so both boys kept moving.

Thurston and Sutton of the light division were next. Light, in regard to Sutton, is really a misnomer, as Jack weighs about a ton. Thurston was the sole representative of the land of sin, sorrow and sore eyes. He often has to listen to rude remarks about sandgropers from his fellow-boarders, but as a result of this contest perhaps next year he will be treated with more respect. Many Old Scholars will perhaps remember Thurston's uncle, Mr. Jack Thurston. He was a good boxer, a good soldier in the Great War, and had to be a fighter in the early days of New Guinea.

Thurston waded into Sutton for a while, then he wisely fenced for a time, got his breath, and then waded in again. Sutton battled well, and on one occasion nearly did some French boxing; you know, the boxing where boots and all go in. Of course Sutton was not intending anything like that, it just happened that one of Thurston's rushes made him lift one leg well in the air. It seemed as if Sutton did not know whether he had met a W.A. blizzard or a wizard.

The younger Barracrough and Clark, of the light division were the next pair. This was the lively bout of the day. Barracrough seemed to have an idea that

Clark ought not to be there, so he got right down to business, and went after Clark as if he were seeing blue. This proved his undoing, as his wind gave out, and Clark was then able to score. Had Barraclough adopted Thurston's tactics, he probably would have won; but then—no offence to Barraclough—we can't all be brainy like Thurston.

Barraclough and Waugh then decided the final of the heavy division. Both started well, and vigorously; but Barraclough scored, and made Waugh test the ropes. Both boys were boxing well, but Waugh's wind was not as good as Barraclough's. I wonder why? Condition won the bout for Barraclough.

Morris and Faehse then tried conclusions for the final of the middle division. The first round was very tame, and neither boy would take any risk. In the second round Faehse made a wild rush and scored a little, but Morris was too clever and got the verdict.

Thurston and Clark then settled the right to the title of the light division. Clark started off, feinted and tried to give a bit of cheek, but Thurston as wily as ever, avoided the trouble, and then hopped in and reminded Clark that he wasn't in the ring by himself. In the second round Clark had another try, but it was no good; he found that master-brain of Thurston's too much to contend with.

We wish to thank the referee and the judges for their services, and also the Headmaster, Dr. Ericksen and Mr. M. Schlank for kindly providing silver cups for the winners of the divisions. The Headmaster, as usual made the whole School free to see the contests, and we thank him for that concession.

It was very pleasing to see the parents of some of the boys watching the contests. We wish more parents would do this, and we can assure them they would be very welcome.

Boarders' Notes

We started this term with slightly fewer members, several of the lads having left at the end of the second term.

Everyone was sorry to hear of the tragic death of Peter Drew's father at the beginning of the term, and we offer our sincere sympathy.

Once again we were disappointed at not being able to have a Boarders' Party this term. This was due to the prevalence of measles and the ease with which the more unfortunate ones picked them up. After a short respite in the middle of the term, the complaint returned, this time in a more serious form. The German measles were replaced by the ordinary measles, and those who were misguided enough not to have had them in their youth remained in the sick-room until the end of the term.

Even the most irresponsible decided to study hard for the exams, and for a while the warmth of a bed in the late hours of the morning lost its charm. We would like to congratulate Nosworthy, De Garis

and F. J. Nicholls on coming top of their respective forms. Once again the boarders have shown that the day-boys are not top-dogs!

Although Wilson, Martin and Bartholomaeus were in the cricket team last year, the boarding-house is proud that Wilson was made captain of the team. We offer him our congratulations.

The boxing and gym competitions gave further evidence of the supremacy of boarders, both in competitors and helpers. We congratulate Bartholomaeus on winning the cup for gym., and also Morris and Thurston, who won cups for boxing.

We take the opportunity of saying "Good-bye" to all lads who are leaving at the end of the term, wishing them the best of luck for the future. We also say farewell to Mr. Yule, who has accepted a position at Geelong Grammar School. We trust that he will carry away with him some pleasant memories, and we add our best wishes.

The Gymnasium Contest

The competition, to decide who was to be the champion gymnast of the School, was held in the gym. on 14th December. There were eight competitors, two of whom overshadowed the other six. Boys cannot in these days find time enough to become proficient in all the physical activities of the school, and if a boy wishes to be good at gym., he has to make up his mind to work, and work hard. Nothing else produces such development, and no other physical activity of the school gives a boy that grace of movement and control of his body as good gym. exercises.

Responsible boys, who wish to improve themselves and their gym. work can get permission to do special practice, but the gym cannot be thrown open to the general community of the School, because, even at Princes, there are the usual few, who unthinkingly do silly, risky things.

Boys these days have everything made so easy for them that they think they should be able to do gym., play football and other games with a minimum of practice. I feel sure that if the boy of today had to live the life of the boys of many years ago, they would be better than those boys, but as it is, I think they lack the stamina. One never saw, in the old days, boys of both football teams dropping from cramp, and some of the teams we used to play were neither of the gentle or lady-like type. Portland Imperials, Semaphore Centrals, Tusmores, Avenues and Kingswoods, were teams we used to play on Saturdays, and if your head wasn't well fixed on, it was in danger of being knocked off. One had to be hard to stand those games, and the way we got hard was to practise hard and often. During four years' experience in the first team while at school, I cannot remember a boy going down with cramp. In those days if we wanted to go anywhere, we generally walked or ran; today if a boy has to go a few yards, he gets a motor or the tram, and most boys will nearly die from shock if you tell them you used to walk twenty to twenty-five miles in the hills to get fit for football. Boys these days want hot baths

and a rub down after practice. Poor darlings! If one of the boys of our day talked about a hot bath after football the others would have put skirts on him. Massage is a great thing in its place, but a boy should not need it unless to cure an injury. His muscles are not set like a man's. Instead of wasting time being rubbed down, put in a bit more work, and you will find that the best way to help yourselves, and your coach. The best athlete South Australia has produced for many a day—Victor Richardson—never had a rub down in his life. He played all games and never tired because he was fit. I feel proud that he was an old pupil of mine at Kyre College. No, boys, if you want to excel at football, gym., or anything else, you must put heart and soul into it. You can't develop stamina, strength or courage by correspondence lessons. There is only one royal road, and that is the hard work road.

Bartholomaeus was the winner of the championship by a narrow margin of two points, and his was a very popular win. It was physical condition, due to special practice that won Bart. the prize. Stain, during the term, wanted a rest, and so developed the mumps. This no doubt contributed to his defeat, because owing to lack of practice, he was not at his best. I know Bart would be the first to admit that Stain was unfortunate, and I feel sure that as Stain has won for two years, he would be pleased that Bart. had won.

The work of these two boys was excellent. Harley and Dix came third and fourth, and they did very well, and I am sure they are both elated with the improvement they made, while doing extra practice. Edwards, James, Mitchell and Middleton showed quite good work, and no doubt next year James and Mitchell will do very well.

All the boys of the School came down to see the competition, thanks to Mr. Ward. I would like to say here to any old scholars interested—and I know there are many—that the alterations in the gym. have in no way affected its efficiency.

Debating Society

DEBATE AGAINST ST. PETER'S COLLEGE

On 30th September, in the S.P.S.C. library, the annual debate between Saints and Princes was held on the subject, "That we have more to learn from our enemies than from our friends," with Saints taking the affirmative side. Our three speakers were Bunday, Wilson and Norman, while our opponents were Rudall, Kerr and Price. Mr. Bills was in the chair and Mr. Genders kindly acted as adjudicator.

Rudall, first speaker pro, opened the debate by saying that our planet is much too small to allow us to do our duties conscientiously without making enemies. "Popularity," said Rudall, "is a rock upon which many a man or woman's life has been wrecked."

Bunday, first speaker con, then informed his audience that the most important terms in the subject for debate were "learn," "enemies," and "friends." He went on to say that, to learn from anyone, one must have access to him, and friends are more likely to listen and teach than enemies.

Kerr spent much time impressing upon the audience that Bunday was leader of a Mutual Friends' Society. He refuted some of Bunday's arguments and went on to say that, although your friends look at you through rose-coloured spectacles, your enemies are tactless and blunt, telling you all your faults without troubling about your feelings.

Wilson then spoke on the International situation, reminding us that the Germans proclaimed blood and race as the only standard of right and wrong, and threatened to turn what was once a wonderful land into a state of barbarism. He quoted from recent speeches by both Hitler and Anthony Eden. "Hitler, our enemy in the present crisis, has dishonoured pacts and agreements," said Wilson. Civilization must collapse if the pledged word of countries cannot be trusted."

Price then convincingly attacked the idea that friends are always true, and said that the belief that a friend was one in whom one could place one's trust was

false. He enlarged upon his leader's declaration that man is seen at his best when fighting.

Norman then put forward some mathematically precise refutations of his opponents' arguments. He quoted Thackeray, and submitted that, friends usually being of opposite natures, strive to bring out each other's good points, assimilating each other's qualities in the process.

The debate was then thrown open to discussion, and after one or two new aspects had been pointed out by those of the audience who were awake, the chairman called on Bunday to sum up and Rudall to reply.

Mr. Genders, in summing up the debate, gave his decision to the con side (P.A.C.), by 176 points to 171. He said that, in his opinion, the best speakers of the evening were Bunday and Norman, with Price a close third. He gave a few hints to each speaker, suggesting remedies for various faults.

Bunday then humorously proposed a vote of thanks to Mr. Genders, which was seconded by the leader of the opposition, Rudall. The chairman then closed the meeting, and combatants and spectators trooped to the dining hall, where an excellent supper was laid out.

—M. C. B.

DEBATING SOCIETY BANQUET

On Thursday night, 5th October, the Annual Banquet, which took the form of an International Peace Conference, was held in the Dining Hall. Mr. Klose took the chair. We had with us two of the Pirie Street Debating team who had so kindly run us through our paces the night before the debate against Saints, viz., Messrs. Holland and Claridge.

The various Powers and their representatives were:

England—Mr. Chamberlain (P. Edwards)

United States—President Roosevelt (R. J. Wilson)

Soviet Russia—Comrade Stalin (J. G. Bunday)

France—M. Daladier (A. E. Norman)

Italy—Benito Mussolini (M. Bartholomaeus)

Germany—Adolf Hitler (D. Jorgensen)

The meeting—and necessarily the eating—commenced well, and after the most fastidious palate had been soothed, Mr.

Klose called us to the toast of "His Majesty, the King," and then asked Mr. Chamberlain to address the meeting. At the conclusion of this enlightening (?) speech, Mr. Tavender favoured us with some music, accompanied by the lusty shouts of the multitude. Then followed in quick succession (thank goodness) the speeches of the other magnates, including the three dictators, who after being heartily jeered declared that they didn't want war. To quote Hitler: "We don't want war, but peace; give me Europe and Europe shall have peace." The speeches were interspersed with songs, and towards the end Mr. Longmire favoured us by his rendering of "Alexander's Rag-time Band." Mr. H. A. Martin then consented to sing, but his powerful melodious baritone was too much for his audience who collapsed in tears, bringing his plaintive number to a close.

Mr. Klose then proposed a vote of thanks to Matron, who was able, however to resist the entreaties of Mussolini to come personally and receive our thanks, and the meeting had to be content with a lusty rendering of "For She's a Jolly Good Fellow." Mr. Jorgensen then proposed a vote of thanks for Mr. Klose, which was received with acclamation. Mr. Holland, speaking for himself and Mr. Claridge, then thanked the Commit-

tee for inviting them to the banquet, and the meeting broke up with the customary "Auld Lang Syne."

We must not omit to mention the valiant efforts of the waiters, who despite the taunts of their guests, did excellent work, and the Committee wishes to take this opportunity of thanking them for their valuable services.

—M.C.B. (Secretary).

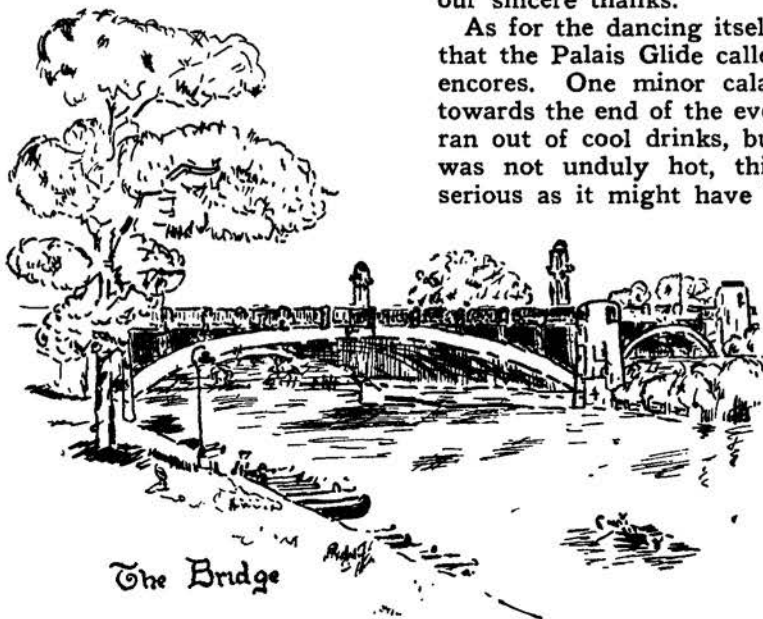

THE "ROUGE"

This year's "Rouge" was held in the College Assembly Hall on Tuesday, 19th December. This was the second time the dance had been held at the School, and its success makes it reasonably certain that it will be held here in future.

The arrangements made by the committee left little to be desired, and the reward of their labours was the unanimous expression of appreciation by all who were present.

Mrs. J. F. Ward arranged the catering for us, and she also called together a committee of ladies, comprising Mesdames Stain, Jorgensen, Nelson, Battye, Hosking, Linn and Miss Hosking, to assist with the floral decoration of the Assembly Hall and the Dining Room, where we had supper. To these ladies and to Mrs. Ward especially we extend our sincere thanks.

As for the dancing itself, it was noted that the Palais Glide called for repeated encores. One minor calamity occurred towards the end of the evening when we ran out of cool drinks, but as the night was not unduly hot, this was not as serious as it might have been.

PRINCE ALFRED COLLEGE CHRONICLE

FORMS REGATTA ON THE TORRENS

HIS EXCELLENCY INSPECTS THE GUARD

SCOUTS

In our last Scout Notes, mention was made of the Cycle Rally on 2nd September, to welcome His Excellency, Sir Malcolm Barclay-Harvey, and of the competition in message-carrying which followed it. In this competition we won second place, and, on our return to school were honoured by a letter of congratulation from the State Chief Commissioner.

With this good start, we reverted to our usual Monday afternoon parades, and set to work, mainly at Morse signalling, in which the troop has made good progress. Further exercises in message-carrying by relays produced some interesting and original results.

The patrol competition for the Abotomey Cup has been unusually close. Dur-

ing the first and second terms the Wood-pigeons had a steady lead, but in the last term, they unfortunately lost their Patrol-leader, D. R. Newman, who was absent as a result of appendicitis, and the Magpies, under J. P. Keeves, won the cup by a narrow margin. The Jamboree medals awarded each year for the keenest and most efficient scouts are won this year by D. R. Newman and J. P. Keeves.

During the term we have had several recruits from the Preparatory School, and as a result, there have been some changes in patrols, the Patrol-leaders and Seconds of which are now as follows: Wood-pigeons, D. R. Newman and W. S. Morrow; Magpies, J. P. Keeves and J. M. Thurston; Eagles, T. H. Allen and D. B. Cheek; Kangaroos, D. L. Davies and C. R. Carter.

The annual cricket match in which the Scouts meet the parents, though hurriedly organised, was thoroughly successful, the parents winning by a margin of less than 30 runs.

We should like again to thank the parents and friends who help to make this event so enjoyable.

On the first day of the holidays, we left for a camp at our shack near Mylor. Because of the brief interval between Speech Day and Christmas, it was necessarily short, but, as weather favoured us, those who attended had a good time. Besides twelve scouts and the scout-master, our party included Mr. Slade and Mr. Dale, whose help and company we much appreciated. We took with us a very good First Aid kit, the purchase of which was made possible by a gift from Mr. Keeves, the chairman of the Scouts' Parents' and Friends' Committee. We ask him to accept our very sincere thanks for his kindness.

Ready for his duel with Cesario

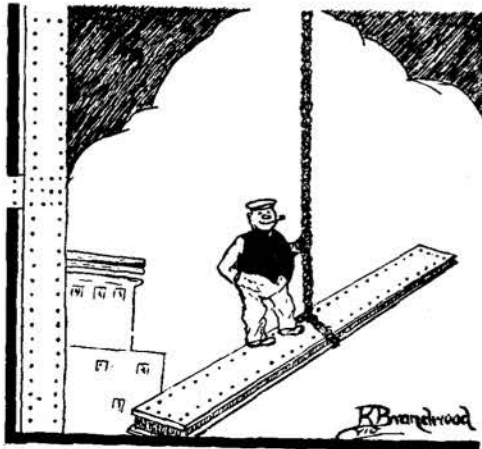

Original Contributions

THE LOGGIA DELLA PODESTA

And the humid streets will be all astir
 Today.
 And every ray of light, streaming
 Over antique rococo ruins
 Still habited, strikes the wide
 Stone market-place—a great
 Wide bare piazza.
 The morning air jingles in and
 Lies panting on the cold stones—
 Still cold with night's chill breath
 Which, but a few hours gone lay chanting
 Wild nocturnes to the moon.

So the wanton airs, sensuous, free, exultant,
 Crouch heavy on the square and breathe life
 Into the pallid stones, life
 Into the foot-worn stones
 Which now lie
 Steaming, dazzling in the clear air
 The casual eye.
 A laden donkey sidles from a shadowy lane,
 Brays, and the morning silence is shattered—
 Flung against the blazing walls
 And absorbed in a flash.
 And the walls stand unperturbed.
 This is their morning ritual.
 Once they heard the clatter of the horse
 Which, foam-flaked, weary, bore Cesare Borgia
 From his enemies.
 They are venerable—these rocks, these
 Age-stained shafts which stare morosely
 On the early risers.
 They must have stared on Beatrice and Dante.
 As I stand here my heart is breaking too—
 As yours should;
 O you symbols of a forgotten age!
 You stand in a Fascist land.

"de Sada" (V C)

"Pity help the poor bloke below if this girder falls!"

DREAMS

A dream is a procession of images or fantastic ideas passing through the mind while one is asleep. A modern explanation is that they are the sleeping mental fulfilment of the unexpressed wishes or desires of the person dreaming. It is a belief among savages that the soul or mind leaves the body and travels abroad in the spirit world, meeting with adventures and experiences called a dream.

According to another theory, a dream is a communication from the other world, a hint which the dreamer does well to interpret and heed with care. In Greek mythology the gods frequently spoke to the heroes in their sleep.

In the Biblical story of Joseph, the dreamer of dreams, we have an excellent illustration. He dreamt that his brothers' slaves bowed down to his sheaf, thus forecasting the time when his brethren bowed themselves before the great man of Egypt. The chief butler in prison dreamt that he gave the king to drink again. This actually came to pass. Pharaoh dreamt of the seven fat kine eaten up by the seven lean ones, and of the seven full ears of corn devoured by the seven blasted ears. By interpreting this dream Joseph was able to foretell the seven years of plenty followed by those of grievous famine.

A dream is an activity of the mind produced either by some sort of mental excitement, such as trouble, worry, something that one has read, or heard, or seen; or else the dream arises from some condition of the body, as cold, hunger, or some other form of bodily discomfort. An imaginative child, who has heard or read Indian tales of massacre and burning, not infrequently dreams of passing through similar scenes. The child's sufferings are, for the time, quite as keen and vivid as though they were real. Such dreams as trying to run against a strong wind, leaping from a house-top, and the like, are due usually to some uncomfortable position of the body, or to an overloaded stomach. A cold foot may cause one to dream that he is tramping through a snow-drift.

One of the strangest features of dreaming is the immense amount of experience that is packed within a few moments. Events that would occupy hours of waking time may be crowded into a few seconds.

K. I. C. (VI B)

OUR JACARANDA

Planted in 1914 as a tiny seedling by the then Matron, Nurse Eley (now Mrs. A. M. Graves), the jacaranda in the Matron's garden has grown in strength and beauty until it is now "the observed of all observers." Early in December it was, as usual, a mass of bloom, and Mr. Joe Crompton brought along "Vox" of "The Advertiser" to view it. They agreed that it was the largest they had seen.

GENERAL NOTES

Once again we have come to the end of another term, and the last in the Prep. for the boys of IIIa. Naturally we have been busy with our final examinations and preparing for the exhibition of work, but nevertheless have managed to complete the rather formidable list of sports fixtures remaining to be decided.

About half way through the term, Miss Dunn was unfortunately forced to undergo an operation for appendicitis. Miss Lee, however, came to the rescue and took her place while she was absent. In saying goodbye to Miss Lee, we thank her for the interest she showed in us for the short time she was here, and at the same time we assure Miss Dunn of our pleasure at seeing her amongst us once more.

Visits have been paid by IIIb to the Amscol Factory, and by IIIa to the sugar refinery at Port Adelaide. Twelve boys from IIIa also went to the Shell Installation at Birkenhead, and afterwards competed for the Shell Essay Scholarship prize. All these three excursions were heartily appreciated by the boys concerned.

Another event of importance was the sports. After a disappointing postponement owing to rain, they were eventually held on 18th November, and were voted a great success by all who saw them. Cricket also has been in full swing up to the time of the examinations, when we settled down to really serious business. Fortunately we had a week of cool weather, which helped considerably to relieve this trying period.

We have looked forward keenly to our annual Concert and Prize-giving this year. It has been quite a departure for the Preparatory School to have a separate Speech Day celebration, held for the first time in the afternoon—a change which we hope will be repeated in future years.

We thank Rev. D. J. Wellington for consenting to hand us our prizes.

PRIZE LIST

- Form I C—Dux, M. G. R. Perry; M. R. Lindsay.
 Form I B—Dux, D. R. Macrow; H. A. Williamson.
 Form I A—Dux, J. W. Smith; I. G. Berry, C. R. Brebner.
 Form II B—Dux, G. M. Kneebone; J. D. Haigh, R. L. Collison, P. C. Dunn, and D. M. Branson.
 Form II A—Dux (presented by Messrs. Gillingham & Co. Ltd.), B. V. Truscott; J. T. Mellor, J. L. Cleland, M. S. Cooper, J. W. Burns, and R. B. Waxman.
 Form III B—Dux ("Jack Glover" prize), J. W. Burchmore; D. M. Brebner, J. B. West, D. L. Steele, and N. J. Platten.
 Form III A—Dux (George C. Davies memorial prize), D. E. Dunn; R. W. Crompton, J. B. Ward, R. D. Hastwell, J. B. White, D. A. Williamson, and D. E. W. Sumner.

SPECIAL PRIZES AND SCHOLARSHIPS

- Tennis Championship (presented by Mrs. M. L. Morris)—C. L. Cooper.
 Games Prize—B. E. Hockney.
 Gymnastics—Forms II B and II A, B. V. Truscott; Form III B, J. A. Cooper; Form III A, D. E. Dunn.
 Scripture—Form II B, J. D. Haigh; Form II A, B. V. Truscott; Form III B, J. W. Burchmore; Form III A, D. E. Dunn.
 Elocution (presented by Mrs. Jas. Anderson)—J. B. Ward and R. W. Crompton.
 "Mrs. J. R. Robertson" Prizes—Form III B, J. B. West; Form III A, D. E. Dunn.

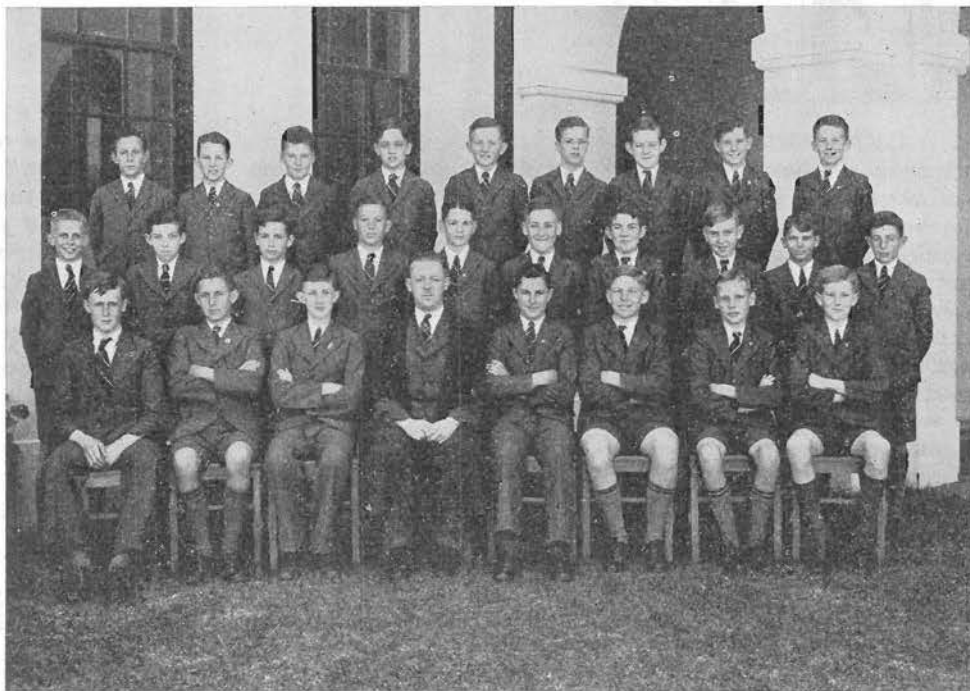

General Improvement Prizes (presented by the Parents and Friends' Association)—Form I A, P. F. Kemp; Form II B, B. I. Harris; Form II A, R. W. Piper; Form III B, W. P. Murray; Form III A, R. J. Deland.

G. S. Cotton Scholarship, J. W. Burchmore; James Ashton Scholarship, R. W. Crompton; J. R. Robertson Scholarship, D. E. Dunn.

House Competition for Work and Games—The A. W. Welch Cup, won by Chapple House.

its shelves the large number of over six hundred books. We wish to extend our thanks to Woollard, Toll and Welch for their gifts to this section.

Fresh reading material is always in demand, so we should be more than grateful to any kind friend who could help us to improve and widen this very popular School activity.

FORM III A

LIBRARY NOTES

The Reference Library has again progressed most successfully, owing to the good work done by Mr. Dale and his energetic librarians. Mr. J. A. Thurston, M. Cooper and D. B. Wildash are to be thanked sincerely for their presentations of books. These have been most useful in the boys' studies for special projects. We are glad to be able to say that this term more than ever before, the library has been used by boys out to obtain extra knowledge for themselves. The lending library as usual, has proved its great usefulness, having now between

SHELL TOUR

Early in October twelve boys from III A took part in an excursion to the Shell Installation at Birkenhead. Arriving there at two o'clock, we noticed several fire extinguishers set up at suitable points to be used in case of fire. Our guide met us in the dining hall and gave us a few notes to help us to become familiar with what we were about to see. He told us that the Company used petroleum for making such by-products as inks, varnishes, paints, hair oils and face creams, and said, too, that they handled "crude oil," which is formed by small fish and animals which have decomposed to form the oil. This is obtained by sinking wells, the deepest of which at present goes down some three miles. The oil for Australia is refined at Clyde in New South Wales, while the Company's headquarters are in London.

This plant cost ten million pounds, and has five thousand employees, which bring the amount of wages up to a million pounds per annum.

At first we visited the case factory, and were told that the cases were made of Canadian hemlock. Next we saw the general store, in which everything needed throughout the plant could be obtained. Near by was the boiler room, in which huge boilers burnt fuel oil, which ran machines in the next section we visited. This place was called "The Tin Shed," and it contained no less than eleven machines for making tins to transport the motor oils and spirits to their various destinations. After having seen a very complete repair shop, we came to a shed where we could watch the tin-filling machines in action.

Our guide told us that the premises were divided into two compounds. The south compound was used for storing fuels and lubricating oils only, one of the tanks holding a million gallons, while the north compound was reserved for storing the other products. So that the spirits will not get mixed a colour scheme has been adopted, which reads as follows: Aluminium for Super Shell, red for Shell, yellow for Cross Power Kerosene, blue for Pennant Lighting Kerosene.

We returned home after a most enjoyable day.

D. TOLL, III A

HOUSE COMPETITION FOR WORK AND GAMES, 1939

The A. W. Welch Cup was won by Chapple boys, who scored $73\frac{1}{2}$ points to Robertson boys' $70\frac{1}{2}$ points.

	Chapple	Robertson
Cricket	9	9
Football	3	15
Athletics	—	18
Gymnastics ..	12	6
School Work ..	$28\frac{1}{2}$	$7\frac{1}{2}$
Examinations ..	21	15
Total ..	$73\frac{1}{2}$	$70\frac{1}{2}$

UNDER THIRTEEN CRICKET

We did not quite fulfil our boast of finishing the year with an undefeated record, but the team has maintained its enthusiasm, and fully enjoyed the games played.

V. U.H.S. "B" at Home.

P.A.C., 1 for 157; U.H.S., 75.

Bartram, scoring 101, gained for the team the only century this year, in fine style. This gave us an easy victory, while Cleland made a useful 26, and Brebner accompanied Bartram with 21 not out. In the bowling Cleland, Williamson, Bartram, B. Hockney and C. Hockney shared the honours.

V. Rostrevor "B" at Rostrevor.

P.A.C., 7 for 87; Rostrevor, 22.

Our boys easily gained a win, Brebner making 21 and Dunn 18. Cleland bowled 4 for 2, Cooper 2 for 1, Bartram 2 for 6, and Keeves and Williams 1 wicket each.

V. S.P.S.C. "B" at S.P.S.C.

S.P.S.C., 77; P.A.C., 73.

This was a very exciting match, and we just failed to pass our opponent's score. Hockney, making 22, kept us going, and Bartram, C. Hockney and Cooper were our best bowlers. The bowling was at times erratic.

V. A.H.S. "B" at Home.

Another very exciting game resulted in a draw, both sides scoring 110. The successful batsmen were: Bartram 25, Brebner 23, and Dunn 21.

V. A.H.S. "B" at A.H.S. Grounds.

P.A.C., 7 for 44; A.H.S., 34.

This match proved difficult for the batsmen because the grass of the parklands was so long. However, we made slightly better use of our time than Adelaide High, Dunn making 13 not out. Hall shone in the bowling, for in less than three overs he had dismissed three batsmen for no runs. Bartram also gained three wickets at the cost of five runs.

V. Rostrevor "A" at Rostrevor.

Rostrevor, 8 for 127; P.A.C., 5 for 85.

Batting first, we found it rather difficult to score against good length bowlers. Williamson contributed 30 not out, and Dunn 27. We could not manage to keep our bowling up to Rostrevor's standard, and some of their hard-hitters took full advantage of our weakness. Successful bowlers were Bartram, C. Hockney and Dunn.

Out of six matches two were lost by our team, and though better length is still required of our bowlers, improvement has been clearly shown throughout the term.

UNDER TWELVE CRICKET

This term we have again been unlucky, as several games have had to be postponed owing to bad weather. However, of the four games played we have been successful in winning two and losing two, both to Queen's College.

V. Queen's at Queen's.

This was an exciting game, which was only decided in the last over by lusty hitting by the Queen's captain. L. Cleland and Southwell batted soundly for 20 and 18, respectively, and then retired. They were chiefly responsible for our score of 4 for 45, which Queen's just passed to record 2 for 46.

V. King's at King's.

King's batted quite strongly to score 4 for 85 in their time, Southwell and White being our only successful bowlers. Southwell and Robinson gave us an excellent start, making 35 retired and 15 retired, respectively, but then wickets fell frequently until with only two minutes to go we passed them, and the score remained at 7 for 86.

UNDER TWELVE CRICKET TEAM

UNDER THIRTEEN CRICKET TEAM

V. Scotch at P.A.C.

L. Cleland and Robinson showed excellent batting form in scoring 34 and 14, and White's 10 helped us along to score 7 for 79. Southwell and White bowled too accurately for Scotch, who could only muster 9 for 62. Southwell, with 4 for 19, and White, with 2 for 6, were the best of the bowlers.

V. Queen's at P.A.C.

Our batsmen were at sea with the bowling of Laycock from Queen's until Bennett and Willcox became associated and made an unfinished partnership of 30, of which Bennett made 15 and Willcox 9. Our total was 6 for 45. We appeared to have the game well in hand just before stumps, but a burst of hitting by Queen's enabled them to go to 5 for 47.

HOUSE CRICKET

The two remaining cricket matches were completed, resulting in a win for Robertson House on each occasion.

Results

Firsts—Robertson, 113 and 0 for 36, defeated Chapple, 110 and 2 for 37.

Seconds—Robertson, 66, defeated Chapple, 39.

During the year Robertson won three out of four matches.

TENNIS

C. Cooper won the Tennis Championships for 1939, defeating M. Cleland in the final in straight sets, after he had survived a very close game with Bartram in the semi-final rounds, with the score at 6—5.

A list of matches was drawn up at the end of term from those who had their names on the "tennis ladder" for the year. It was found necessary to reach a decision in this way, seeing that some boys had played insufficient matches to get near enough to the leaders on the "ladder."

PREPARATORY SCHOOL SPORTS

The Preparatory School boys held their Sports Meeting on Saturday, 18th November. This year we did not have very good luck with the weather. On the 4th November, the sports were postponed because of heavy rain, and it was a little showery on the 18th, but eventually it cleared up and the sports went on nicely. There was again a very good attendance of parents and friends to see the races, the results of which were

broadcast by Mr. J. F. W. Dunn, whom we thank for helping us. We are grateful too, to the officials who saw to it that we got through the large programme of thirty events to time, thus keeping the proceedings interesting to the spectators. Robertson House won the House competition with 39 points, to Chapple, 23 points. The honour of being School champion fell to Bruce Hockney, who was outstanding in his performances in the 150 yards and 100 yards. R. Hill and C. Cooper filled second and third places respectively in the Open Section. Of the younger runners, R. Hill won the Under 13 Championship, B. Truscott the Under 12, and R. Collison the Under 11 Championship.

At the close of the sports, the visitors assembled in the quadrangle, where the Headmaster introduced Mrs. F. T. Cooper, who distributed the prizes to the successful competitors.

RESULTS

100 Yards Handicap, open—B. Hockney.
 100 Yards Handicap, under 12—Southwell.
 100 Yards Handicap, under 10—Sanderson.
 100 Yards Handicap, under 13—Taylor.
 100 Yards Handicap, under 11—McBride.
 100 Yards Preparatory Championship—1, B. Hockney; 2, C. Cooper; 3, R. Hill.
 100 Yards Championship, under 11—1, Collison; 2, Robinson; 3, Fricker.
 100 Yards Championship, under 13—1, R. Hill; 2, A. Morris; 3, D. Dunn.
 100 Yards Championship, under 12—1, B. Truscott; 2, Clarkson; 3, Willcox.
 75 Yards Handicap, under 9—1, Badger; 2, Southwood; 3, Berry.
 Little Brothers' Race—1, Graham Fricker; 2, Beth Mellor (sister); 3, Richard Morris.
 50 Yards Handicap, under 8—1, Badger; 2, Southwood; 3, Berry.
 Egg and Spoon—1, White; 2, Larkin; 3, McLachlan.
 High Jump—1, R. Hill; 2, C. Cooper; 3, D. Truscott. Height, 4 ft. 4½ in.
 Three-legged Race—1, D. Truscott and B. Hockney; 2, D. Hall and C. Hockney; 3, Clarkson and Fricker.
 150 Yards Preparatory Championship—1, B. Hockney; 2, R. Hill; 3, C. Cooper.
 Flower-pot Race—1, D. Truscott; 2, J. Ward; 3, B. Truscott.
 Obstacle Race, over 11—1, Mellor; 2, Brebner; 3, D. Truscott.
 Obstacle Race, under 11—1, Sanderson; 2, Collison; 3, Prest.
 House Relay—Robertson.
 Throwing Cricket Ball—1, D. Wildash; 2, McLachlan; 3, P. Kelly.

UNDER TWELVE FOOTBALL TEAM

UNDER THIRTEEN FOOTBALL TEAM

DONATIONS

Four cups were kindly presented; one by the Parents' and Friends' Association, two by Mrs. F. A. Hill, and one by Mr. J. Crompton.

For donations to the Prize Fund, the boys tender grateful thanks to the following: Mr. F. T. Cooper, Mr. J. F. W. Dunn, Mr. S. J. Kallin, Dr. A. F. Hobbs,

Dr. F. R. Hone, Mr. H. F. Beauchamp, Mr. W. H. Glyde, Mr. A. W. Perry, Mr. E. W. Keeves, Mr. A. W. Fricker, Mr. J. A. Williamson, Mrs. E. M. Welch, Mr. L. Clarkson, Dr. H. R. Branson, Mr. L. Crompton, Mr. W. T. Wildash, Mr. S. Harvey, Old Boys' Association, the Headmaster (Mr. J. F. Ward), Mr. R. McEwin.

Original Contributions

DAYBREAK

The daylight is breaking
 Upon the grey earth;
 The world is awaking
 With singing and mirth.
 The sun is now shining
 Above the hillcrest;
 The cloud's golden lining
 Shows out at its best.

D. E. D.

THE MOST EXCITING THING
I HAVE READ

A person who has read John Buchan's "The Thirty-Nine Steps" has gained, in an interesting and exciting way, knowledge of the power of enemy spies acting so strongly against Britain shortly before the War of 1914 to 1918.

Genuine interest and suspense are held throughout the pages, filled with the adventures of daring police and spies, plotting attacks and escapes all over the face of England.

D. E. D.

THE LORD A SHEPHERD IS TO ME

The Lord a shepherd is to me,
 My needs He doth supply;
 And near the waters I am led,
 Quietly there to lie.

He takes my soul and it restores,
 And sin is made to flee;
 And when to death's dark vale I come,
 I feel Him near to me.

R. W. C.

SHIPS

One bright and sunny autumn day,
 When all the yachts were on the sea,
 They glided o'er the glassy bay,
 And all who watched were filled with glee.

J. B. W., III A

SHIPS

The ships that ply the ocean broad,
 With cargoes rich and rare,
 Are sheltered by our gracious Lord
 And guided by His care.

And so it is that we should be
 A world of grateful men,
 For He has guided you and me
 With love beyond our ken.

J. W., III A

DAYLIGHT

The daylight is breaking
 Away where the light
 Is calling the wild birds
 Again to their flight.
 From hilltops and valleys
 They go on their way
 Up, heavenwards soaring
 They welcome the day.

The daylight is fading
 Away to the West,
 Now birds are all winging
 Home to a nest;
 When shadows are deepening
 And soft breezes sigh,
 As night is just sprinkling
 The stars in the sky.

III A

BREEZES

The sailing ships go to and fro
 Across the deep blue sea;
 The breezes whisper as they blow,
 And talk of things they see:

Of pirate ships, and mutinies
 In days of long ago,
 When Spanish men and Portuguese
 More of the world would know;

Of harbours and of ports they sing,
 Of sands and islands green,
 Of schooners, cruisers, everything
 That they have ever seen.

B. T., III A

TRAMS

Coming up the roadway,
Humming round the bay,
Go the shining tramcars
Up and down all day.

When it's dusk I linger,
Just to see the sight
Of all those twinkling, shiny things
Crawling through the night.

C. H., III B

TRAMS

Climbing up the hillside,
Tearing round the bend,
Trams are always humming,
Ceaseless, without end.

D. L. S., III B

He shot potato in his face,
In his face, in his face.
But Tommy was put in deep disgrace
Early in the morning.

The master made him touch his toes,
Touch his toes, touch his toes.
But masters always have been foes
Early in the morning.

Now Tommy is a grown-up man,
Grown-up man, grown-up man.
From school potato guns they ban
Early in the morning.

MASTER OF THE PREPARATORY AND FORM IIB

THE LIGHTER SIDE

There was a boy called Tommy Took,
Tommy Took, Tommy Took.
He stole potatoes from the cook
Early in the morning.

He put them in his potato gun,
Potato gun, potato gun.
He thought he'd have a bit of fun
Early in the morning.

He took his potato gun to school,
Gun to school, gun to school.
He'd make the master look a fool
Early in the morning.

TRAVEL

I'd love to see the Khyber Pass
And India's figures made of brass;
And if I could I'd see the Nile
Flowing slow for many a mile.

J. L. C., II A

THE TRAIN

The train puffed out of the station,
Heading for the beach;
It made some funny noises—
A funny sort of screech.

It was a black and sooty train;
It went so very fast.
I looked out of the window
And saw the things we passed.

G. A., II A

THE STREAM

See the creek
Rippling past
And the fish
Swimming fast.

All the year
'Neath the trees
Flows the stream
Quite at ease.

G. H., IIA

WISHES

I wish I were a blackbird
To whistle in the morn,
And when I'd finished whistling
I'd eat grubs off the lawn.

G. H., IIB

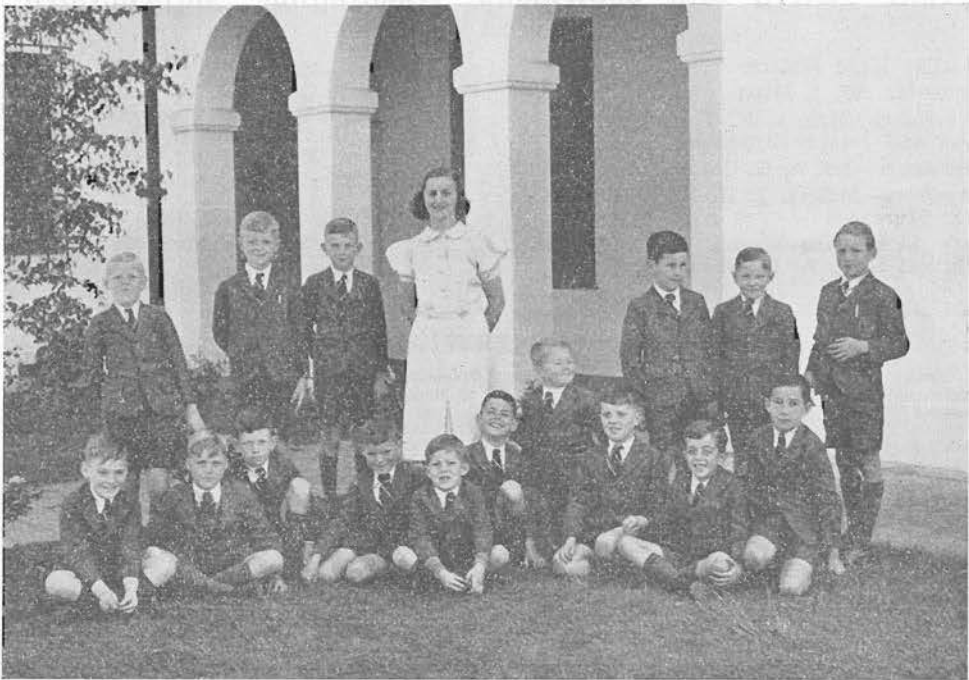

I wish I were a swordsman
And had a shiny sword;
Or yet, perhaps, a master
To wear a mortar-board.

D. M., IIB

MY DOG

My little dog is grey and fawn,
With eyes like twinkling lights;
He scampers round the tennis lawn
And always looks for fights.

P. K.

FORM I

DUCKS

Down in the rushes
Straight and tall
You will find ducks,
Up tails all.

Down in the rushes
Ducks are at play;
They are all thinking
What a fine day!

I M, IIB

"HE FELL"

He fell into the fish-pond,
He fell on to the lawn;
He fell into the coffee
And came out fawn.

D. B.

He fell into the kerosene,
He fell into the ink;
They dropped him in the river
And he began to sink.

C. W.

OLD BOYS'

SECTION

Edited and controlled by the Committee of Prince Alfred Old Collegians' Association, Incorp.

The co-operation of Old Boys is earnestly invited to make this part of the Magazine of real interest to all P.A. Collegians. Letters, reminiscences, or paragraphs containing news of interest about Old Boys, their whereabouts, and their doings, will be welcomed. All communications should be addressed to the Secretary.

From down the far years comes the clarion call:
"Your school and my school, the Best School of All."

Prince Alfred Old Collegians' Association, Incorporated

Founded 1878.

Patron—The Head Master.

President—Mr. W. J. Hiatt.

Vice-Presidents—Messrs. F. T. Cooper, L. S. Walsh and Joseph Crompton.

Hon. Treasurer—Mr. A. G. Collison.

Hon. Auditors—Messrs. J. H. Burgess and C. W. L. Muecke.

Honorary Secretaries—Messrs. L. B. Shuttleworth and L. P. A. Lawrence.

Committee—Messrs. G. T. Clarke, H. N. Shepley, R. P. Goode, M. W. Evans, C. J. Glover, M. S. Joyner, S. G. Lawrence, F. E. Piper, F. L. Collison, Dr. D. G. McKay, A. H. Preston, W. H. James, Dr. A. G. Trott and D. A. Clarkson.

Messrs. F. L. Collison, Crompton and Piper are also Members of the School Council.

PAST PRESIDENTS—

Year.	President	Year.	President	Year.	President
1878-1891	J. A. Hartley	1905-09	W. R. Bayly	1927	H. B. Piper

The Objects of the Association are: To keep Old Boys, wherever they may be, in touch with one another and with the boys at the School; also to foster and maintain their interest in the School.

"Old Boys' Week" is observed annually towards the end of July, during which a dinner and other social functions as well as sports contests are held. Also social gatherings are held whenever any occasion arises that makes them desirable.

The Association has donated the following Scholarships to the School:

H. W. A. Miller (Old Collegians') Scholarship.

J. A. Hartley Scholarship.

Fredk. Chapple Scholarship.

W. R. Bayly Scholarship.

A. G. Collison Scholarship.

"The P.A.C. Chronicle," of which a large part is devoted to matters of special interest to Old Boys, is forwarded to each member of the Association.

The subscription is six shillings per annum. It is suggested that Country Members should remit sufficient to cover four years' subscription or become Life Members by payment of £5 5s. Any Old Boy wishing to become a member can do so by forwarding his name and address to the Head Master, or to any member of the Staff, or to one of the Secretaries.

Editorial

WE ARE AT WAR

The events which led our nation and France to take up arms against the machinations of National Socialism are too well known to need repeating. His Majesty the King, in his 3rd September broadcast, epitomised our views when he said:

"We have been forced into a conflict. For we are called with our Allies to meet the challenge of a principle which, if it were to prevail, would be fatal to any civilised order in the world.

"It is the principle which permits a State, in the selfish pursuit of power, to disregard its treaties and its solemn pledges; which sanctions the use of force or threat of force against the sovereignty and independence of other States. Such a principle, stripped of all disguise, is surely the mere primitive doctrine that might is right; and if this principle were established throughout the world the freedom of our own country and of the whole British Commonwealth of Nations would be in danger. But far more than this—the peoples of the world would be kept in the bondage of fear, and all hopes of settled peace and of the security of justice and liberty among nations would be ended.

"This is the ultimate issue which confronts us. For the sake of all that we ourselves hold dear, and of the world's order and peace, it is unthinkable that we should refuse to meet the challenge."

We have not refused. The Empire stands today more united, more determined, more prepared than ever to pre-

serve the liberties which our people cherish.

No national assemblies with the superficial splendour of banners, drums and ceremonial were necessary to assure the King of the nation's will to serve. As in 1914 there is a part for all to play. Many who scan this short article will have no recollection of the Great War. That 881 "Princes" fought and 120 died in those years is part of our heritage, part of the tradition of our School—accepted and honoured.

Now for the third time in the lives of many of us we are at war again. In its initial stages, this is a different kind of war, cold blooded, calculated, planned.

But mechanisation and concrete have changed only the complexion of war. Men and women, money and materials are still the price of victory—Mars can only be appeased with human sacrifice and countless treasure.

After only four months of war Australia has made a substantial contribution to Empire defence—a War Budget of £60,000,000 for the first year is an excellent effort for a Commonwealth of 7,000,000 people. This will entail sacrifices: heavier taxation, a call on savings, elimination of waste in both Government and business undertakings, and more prudent spending from our private purses.

These obligations will be willingly undertaken in the knowledge of our relative immunity from attack, our plentiful supply of food and our democratic right to think, to speak and act as our Christian conscience prompts us to do.

G. T. C.

Our President

Our new President entered the School in 1900, and was at School until the close of the first term in 1902.

At that time his father, who is a Methodist clergyman, was transferred to Melbourne, and Mr. Hiatt left Adelaide for Melbourne with the family.

The President served with the A.I.F. for about three years.

Mr. Hiatt has taken a keen interest in School affairs. He has had two sons at the School, both of whom took an active part in School life, particularly on the athletic side. The elder son rowed in the

MR. W. J. HIATT

He began his business career in an Insurance Office in Melbourne, and was later sent to Sydney. In 1913 he joined the staff of The Victoria Insurance Company, Melbourne, and has been with that Company ever since. In 1931 he was transferred to Adelaide as Manager for South Australia. Last year he was elected Chairman of the Fire and Accident Underwriters' Association of S.A.

crew which won the Head-of-the-River in 1933, and the younger son was in the Intercollegiate tennis team, and in four years' athletic teams.

Mr. Hiatt was interested in the inauguration of the Parents and Friends Association, and was one of the Committee of that body in its first year.

Mr. Hiatt is also a member of the General Committee of the School.

New and Retiring Committeemen

At the Annual Meeting regret was expressed at the retirement of Mr. L. S. Clarkson from the Old Scholars Committee. Mr. Clarkson is one of the very active Presidents of recent years, and took a very keen and active part in the organising and raising of funds at the College Fete in connection with the Building and Endowment Fund. To his efforts a great deal of the success was due.

Mr. Clarkson is also a member of the School Council, and is doing equally good work there, and although he will not be actively engaged in the Association's management, his interest in the Association will always be maintained.

Mr. L. S. Clarkson did not offer himself for re-election.

It is a fitting tribute to him, and also to his brother, Mr. D. A. Clarkson, that the latter was elected unopposed in his stead.

Mr. D. A. Clarkson, the new committeeman, also takes a great interest in matters relating to the Association, and for many years has been an active member of the Old Scholars Cricket Club. His interest in the Association and his wide sphere of acquaintances in the Association will enable him to perform very useful work on the committee.

College Endowment Fund

This fund still continues to grow slowly, but your Committee do not consider it prudent to take any immediate active steps in view of the present unsettled conditions.

Whilst the Empire is at war there will be many calls made upon the people of South Australia for urgent requirements, and your Committee therefore consider

that this fund should remain open for contributions but that no organised attempt to augment the funds should be made until a later date.

Annual Subscription

The annual subscription of 6/- is now due for the current year. A very considerable proportion of the Association's income is devoted to the cost of the Chronicle.

Your Committee always endeavours to "balance the budget," and therefore an early payment assists your Committee.

The work of the Association Secretaries naturally increases each year as the membership total grows bigger. The work of collecting subscriptions entails much time, but each member can materially assist the Association's work by sending his subscription promptly by return mail.

Old Collegians' Scholarships

The Old Collegians' Scholarships are awarded on the "Rhodes Scholar" lines.

Eleven applications were received, and your Committee have awarded scholarships to the following: Master W. M. Shannon of Freeling, who is a nephew of

Mr. Clem Dimond, an old P.A.C. boy; Master R. O. Osborn of McLaren Vale, who is a son of Mr. Frank E. Osborn, an old boy; and Master G. I. Barton of Ardrossan, a son of Mr. Ian C. Barton, who is also an old boy.

A. J. Charles has passed the final examination of the Australasian Institute of Cost

Accountants, and has qualified for the Diploma of the Institute.

D. M. Bowering, of Murray Bridge, has passed the final examination of the Federal Institute of Accountants.

J. T. Lang has passed the final Book-keeping Examination of the Institute of Chartered Accountants, and thus completed his qualification for admittance.

Robert Lang has passed in Statistics for the Diploma of Commerce Course at the Adelaide University.

Second A.I.F.

MILITARY NOTES

For the third time within the memory of many old "Princes" the British Empire is again at war, and Australia, as part of the Empire, has heard the calls.

From 1899 to 1902, 65 Old Boys enlisted for service in the Boer War in South Africa, and of these two died. In the 1914-1918 War, no less than 881 Old Boys left the shores of Australia, and of these 120 were killed or died from wounds.

The present war has only just commenced, but already "Old Boys" are enlisting. At this early stage it is difficult to compile a complete list, and if any errors occur in the attached lists please advise the Secretaries.

During the last war, it will be remembered, the Old Collegians Association formulated, in conjunction with the School, an Educational Scheme for the education of the children (boys and girls) of members of the A.I.F. who died on active service.

This fund was raised by subscriptions from amongst members of the Association and fulfilled a most useful work.

The activities of the fund continued until the end of 1932, when the last student's education was completed. This fund accomplished a work of which Old Reds can rightly feel proud. Your Committee considered the formation of a similar fund at its last Committee Meeting, and as soon as the necessity for such

a fund comes into existence immediate steps will be taken in the formation of such a fund. Any Old Red who enlists may do so with the knowledge that this Education Fund will be available for the education of children of Old Boys who may die on active service.

Members are requested to forward to the Secretaries, for record purposes, information in respect to enlistment of Old Boys for Active Service.

Purely Personal

Mr. K. K. Angel has been appointed Secretary to the Barley Board.

Mr. W. D. Allen is engaged in aeronautical research for the British Government.

Dr. T. D. Campbell, D.D.Sc., has been appointed a member of the Museum Board.

We congratulate the Hon. A. Lyell McEwin upon his appointment as Chief Secretary.

Mr. Alexander Melrose, LL.B., has been appointed Chairman of the Art Gallery Board.

Mr. R. K. Wood has been appointed a member of the Libraries Board of South Australia.

Mr. K. R. Michell has returned from an eight months' trip to England, Canada and America.

Dr. A. T. Harbison has been appointed a member of the Moonta Technical School Council.

Mr. J. H. Cowling, of Norton's Summit, is Chairman of Directors of the East End Market Co. Ltd.

Professor J. B. Cleland, M.D., Ch.M., has been appointed a member of the Aborigines' Protection Board.

Mr. E. H. McMichael, F.R.A.I.A., has been appointed a member of the South Australian Architects' Board.

Dr. H. M. Southwood has been appointed Acting Deputy Superintendent, Northfield Mental Hospital.

Mr. Arthur V. King has been elected President of the S.A. Builders and Contractors Association.

Sgt. C. F. Bennett (2nd A.I.F.) has been acting physical instructor to C Squadron Reconnaissance Regiment.

Mr. A. E. Hamilton, M.B.E., has been appointed a member of the Council of the School of Mines and Industries for S.A.

Mr. J. Firmin Jenkins, J.P., has been appointed a member of the Board of Management of the Port Pirie Hospital.

Dr. Colin Chapple is still in England and will be occupied with hospital work in Middlesex for at least six months.

Mr. E. C. Gifford has been transferred to Victoria and appointed manager of the Commonwealth Bank at Warrnambool.

Mr. Joseph Blitz and Mr. John Hannah (Sydney) left England just after the declaration of war, and have arrived safely home.

At the last monthly luncheon we were pleased to have two country visitors—Mr. H. E. Hoad, of Tungkillo, and Mr. D. Chapple, of Naracoorte.

Sir Wallace Bruce and Mr. J. C. A. Rundle have been re-appointed members of the Board of Trustees of the Savings Bank of South Australia.

Mr. L. W. Jeffries, D.S.O., O.B.E., and Dr. H. H. E. Russell, O.B.E., V.D., F.R.C.P.

(Eng.), are members of the Medical Board of South Australia.

Mr. Doug. Allen, Rhodes Scholar for 1937, was recently married in London to Miss G. G. Thomson, daughter of Mr. and Mrs. J. S. Thomson, of Kensington Park, S.A. We offer them our heartiest congratulations.

Mr. H. E. Fuller, F.R.A.I.A., and Mr. C. A. E. Sullivan, F.C.A. (Aust.), F.I.C.A., have been appointed to the Council of the Institutes Association of South Australia.

Mr. Geo. D. Cowan, who has been residing in England and Belgium for the past twenty years, has returned to Adelaide, where he again intends practising.

Mr. Hubert A. Solly, Secretary of Engineering and Water Supply Department, has been appointed a member of the Public Supply and Tender Board.

Mr. Clem Hill, writing from Toorak, Victoria, expressed regret at not being able to attend our Annual General Meeting, but sent his best wishes to all.

Mr. Ernest Chapple recently returned to Adelaide after an absence of many years in India and England. He is now residing at Glenelg.

Mr. W. R. Rogers, former President of the W. A. Branch, attended our November luncheon. Afterwards he paid a visit to the School at the invitation of Mr. and Mrs. J. F. Ward.

Members will regret to learn that Mr. A. G. Collison, the Association Hon. Treasurer, has been ill for several weeks, but we all hope that he will soon be about again.

Dr. E. Lawrence, after a long absence in England, recently returned to Adelaide. His many friends will be pleased to learn that he has now recovered from his serious illness whilst in London.

Messrs. Alexander Melrose, LL.B., and Henry E. Fuller, F.R.A.I.A., have been appointed to the Board of Governors of the Public Library, Museum and Art Gallery of South Australia.

Mr. William Allen Shepley, manager of the Rundle Street Branch and the East End Market Agency of the Bank of Adelaide, has been appointed a Justice of the Peace for Queensland. Mr. Shepley is also a Justice of the Peace for New South Wales.

Mr. W. D. Allen, who has completed two years of research work at Oxford as a South Australian Rhodes Scholar, has been given permission to postpone the final year so as to take up scientific work for the Air Ministry for the duration of the war.

Mr. Lloyd Prider is still taking an active part in musical play production. In addition to assisting in the writing of the libretto and lyrics of "Tropical Trouble" he directed the play. This is his fiftieth major production for the "Playbox."

Mr. Hayley Lever, who has been in America for several years, hopes to return to Adelaide on a visit shortly. He has kindly loaned his large painting of Cornwall to the School, and it is now hung in the main entrance hall at the College.

The following have been appointed Honorary Clinical Assistants at the Royal Adelaide Hospital—Medical Section: Ivan S. Magarey, M.R.C.P.; Malcolm W. Miller, M.R.C.P. Surgical Section: Sydney Krantz, F.R.C.S.; Douglas G. McKay, F.R.C.S. Dermatological Section: Leslie W. Linn, M.B., B.S.

Mr. Victor F. Gameau has been appointed to represent this State's poultry farmers on the Egg Supervision Committee. He is a practical man, and ready at all times to help his fellow-producers. After leaving College he returned to Two Wells. He served with the 27th Battalion, A.I.F., and on his return to civil life established his wide-known poultry farm.

Mr. R. H. Cotton, as President of the Australian Master Printers Federation, presided at the Convention held in Adelaide last October. He is also President of the S.A. Master Printers Association, which office he has held for the past six years.

Another "veteran" to visit the School was Mr. F. W. Beach of Sydney, N.S.W., who is spending a holiday in Adelaide. At the Headmaster's invitation Mr. Beach attended the Intercollegiate Cricket Match at the College, and afterwards inspected the School buildings and grounds. Mr. Beach entered the School during its first year, viz., 1869.

B. E. Monfries, at School 1919-25, visited the School during the Intercollegiate Cricket Match and was very interested in noting the many changes of the last fifteen years. For many years he has resided in New South Wales, and is shortly leaving Australia with the 2nd A.I.F. as a Y.M.C.A. representative attached to one of the N.S.W. units. Our best wishes go with him in the very useful work he is undertaking.

Dr. H. G. Prest has lately received a vellum vote of thanks recording a minute made in the books of the St. John Ambulance Association of London. This notes the appreciation of the Grand Prior and officers of the Order in London for his work in First Aid in South Australia. We understand that this is the first occasion in South Australia that such an honour has been awarded.

Mr. K. W. Vernon Smith, B.E., who is with the English Electrical Company in England, applied for a position in the Royal Naval Volunteer Service, and after examination was accepted by the Admiralty with rank of sub-lieutenant (E), and instructed to report at H.M.S. "Victory," Portsmouth. However, his Company, being anxious to retain his services, have made representations to the Admiralty, who have requested him to remain at his post for the present as his work was "of national importance."

Flying Officer Colin Leslie Gilbert, of the Royal Air Force, son of Mr. and Mrs. L. M. Gilbert of Clifton Street, Prospect, has become

engaged to Daphne, daughter of Captain N. M. F. Corbett, of H.M.S. Cornwall, according to a cable received from London. Flying Officer Gilbert, who is 22, was transferred three years ago to the R.A.F. for five years.

We offer them our heartiest congratulations.

Mr. Will Ashton has won the Wynne Prize with his landscape in oils entitled "Morning Light, Middle Harbour."

Mr. O. L. Isaachsen, general manager of the Bank of Adelaide, has been elected chairman of the Associated Banks of South Australia. Mr. Isaachsen, who succeeded Mr. W. J. Masson on his retirement as general manager of the Bank, was born in Adelaide, and has been connected with the Bank of Adelaide since 1905.

Mr. Jack Waddell has returned home after nearly two years of musical study in London. He intends to continue his singing studies in Adelaide.

Mr. Waddell attended all the important productions of opera at Covent Garden and Sadler's Wells, and met many of the celebrity principals of the entertainment world, including Richard Tauber, who was singing in Mozart operas at Covent Garden, George Arliss, and the film star Luise Rainer.

He worked at first under the direction of Spencer Clay, a famous teacher of singing, and instructor of his former Adelaide teacher, Clifford Lathean. Clay has also been teacher to John McCormack and the Australian soprano Essie Ackland.

Mr. Waddell also took part in dramatic work at the Stratford festival in East London, where he was awarded a medal for competition work.

Mr. Harold G. Darling, who has been appointed to the Australian Wheat Board, guides the destinies of two enormous industries—John Darling & Son, grain merchants and flour-millers, and the Broken Hill Proprietary Company.

After leaving College he entered in 1903 the business of John Darling & Son, grain merchants, and, on the death of his father, John Darling, junr., in Adelaide in 1914, succeeded to the management. John Darling & Son has been a dynastic institution, for it was founded by John Darling, senr., more than 100 years ago, and since then there always has been a Darling at the head of it.

In due course he became chairman of directors of Broken Hill Pty. Co., and, as time marched on, of the National Bank of Australasia Ltd. as well.

Now his activities, through B.H.P., embrace also another great Australian industry, Commonwealth Aircraft Corporation's "Wirraway" factory at Fishermen's Bend, Melbourne.

At heart, Harold Darling is a wheat man. His knowledge of wheat and its problems is profound, and this knowledge he is giving gladly to the Commonwealth as a member of the Australian Wheat Board, just as he did during the war of 1914-18, when he was a member of the Advisory Committee of the Australian Wheat Council.

In his spare time he plays golf and tennis.

Mr. F. T. Perry has been elected president of the Chamber of Manufacturers in succession to Mr. E. W. Holden, M.L.C.

Mr. Perry, who was a vice-president of the Chamber, is a prominent industrialist. He is chairman and managing director of Perry Engineering Co., Ltd., of Mile End, which has 400 employees.

He is a member of the Commonwealth Advisory Panel on Industrial Organisation, and of the Board set up in South Australia to advise the Government on general defence works in this State.

Other positions held by Mr. Perry include vice-president of the Associated Chambers of Manufacturers, vice-president of the Employers'

Federation, president of the Iron Trades Employers' Association, a member of the Prince Alfred College Council, and of the Memorial Hospital Board.

Mr. Perry has spent many years in municipal and Parliamentary affairs. He was a member of the St. Peter's Council from 1923 to 1933, when he was elected mayor, and represented East Torrens in the House of Assembly from 1933 to 1938.

As a member of the Industries Assistance Corporation, Mr. Perry has played a big part in South Australia's campaign for more secondary industries. He joined the Council of the Chamber of Manufacturers in 1930 and became a vice-president in 1935.

Annual Meeting

The 61st Annual Meeting of the Association was held at the College on Thursday, 30th November, 1939, when about 70 Old Boys were present.

Mr. Joseph Crompton, President, occupied the chair, and in referring to the report drew attention to the very successful year notwithstanding many difficulties met with during the period.

Membership has increased by 100, showing a new record of 2,366 members, of whom 989 are Life Members.

The income and expenditure account for the year showed a small surplus of £5/5/4, whilst the capital account has now increased to £5,205/3/-.

The following officers were elected:— Patron, The Headmaster; President, Mr. W. J. Hiatt; Vice-Presidents, Messrs. F. T. Cooper, L. S. Walsh and J. Crompton; Hon. Treasurer, Mr. A. G. Collison; Hon. Auditors, Messrs. J. H. Burgess and C. W. L. Muecke; Honorary Secretaries, Messrs. L. B. Shuttleworth and L. P. A. Lawrence; Committee, Messrs. G. T. Clarke, H. N. Shepley, R. P. Goode, M. W. Evans, C. J. Glover, M. S. Joyner, S. G. Lawrence, F. E. Piper, F. L. Collison, Dr. D. G. McKay, A. H. Preston, W. H. James, D. A. Clarkson, Dr. A. G. Trott.

Mr. Crompton congratulated Mr. Hiatt upon his election as President, and wished him on behalf of the members of the Association a successful and happy term of office.

Mr. W. J. Hiatt, in responding, said that he appreciated the great honour paid

to him, and would use his best endeavours to further the interest of the Association both in the country and the city.

In moving a vote of thanks to Mr. Crompton (the retiring President) for his very successful year, Mr. Hiatt paid tribute to his untiring energy and loyalty to the School, and congratulated him upon a most successful year of office.

In supporting the vote, Mr. L. S. Clarkson also paid a great tribute to Mr. Crompton for his work on the School Committee.

Mr. L. S. Walsh proposed a vote of thanks to the retiring Committeeman, Mr. L. S. Clarkson, who did not seek re-election, and reminded members of the excellent work carried out by Mr. Clarkson whilst a member of the Committee, and more especially during his term of office as President, and his very successful efforts in connection with the Endowment Fund.

A vote of thanks to the Honorary Auditors by Dr. A. G. Trott was carried unanimously. Mr. L. P. A. Lawrence proposed a vote of thanks to Mr. and Mrs. Ward for their assistance during the Old Boys' Week and other functions, including the Association Committee Meetings.

The Hon. S. W. Jeffries, who has recently returned from England, gave a very interesting talk upon his travels in England, and more especially about the Public School life abroad.

Members then adjourned to the dining-room for refreshments.

Obituary

SIMPSON—On 27th November, 1939, at a private hospital, North Adelaide, Alfred Allen, beloved husband of Doris Simpson, of Burnside, aged 64 years. Although Mr. Simpson had not taken a great part in public life in the past few years because of illness, he was always public spirited, and up to 1936 held positions in numerous bodies bound up with the welfare of the community. Mr. Simpson's last public activity was to associate himself with the desert in Central Australia, which had already been given his name by the Senior Lecturer in Geology at the University of Adelaide (Dr. C. T. Madigan), in recognition of assistance given to his exploration in the interior. At Mr. Simpson's request, Dr. Madigan recently led an expedition to explore the desert. It was financed by Mr. Simpson, and his son, Robert, acted as wireless operator. Born at Kent Town on 15th April, 1875, Mr. Simpson was the eldest son of the late Mr. Alfred Muller Simpson. He was educated at Prince Alfred College 1885-1891 (School Register No. 1,489) and the University of Adelaide. He was made a C.M.G. in 1919, and a C.B.E. in 1923. He was presented with the Medaille du Roi Albert in 1921, and in 1930 was made a Knight of Grace of the Order of St. John of Jerusalem. Mr. Simpson became a member of the Adelaide City Council in 1901, and in 1904 was elected an alderman, a position which he occupied until 1913. For the succeeding two years he was Mayor of Adelaide. During the Great War he took a great interest in patriotic activities, and was chairman of the S.A. Soldiers' Fund and the Patriotic Fund. In 1921 he was chairman of the Military Hospitals Advisory Committee, and was chairman of the Metropolitan County Board from 1908 to 1910. Appointed an honorary commissioner, he reported on old age pensions in Europe in 1904, and in 1916, on the introduction of new industries from America after the Great War. He was president of the Royal Geographical Society of Australasia from 1925 to 1930, and honorary treasurer of the Associated Chambers of Commerce of Australia from 1931 to 1932. He was president of the Adelaide Chamber of Commerce from 1933 to 1935, and a vice-president of the Associated Chambers of Commerce of Australia from 1935 to 1936. He was a Life Member, No. 42, of this Association.

ANDREWS—On 31st October, 1939, at Burra, James Albert Horace, beloved husband of Vivien Andrews, aged 50 years. Rev. J. A. H. Andrews was born at West Wallsend (N.S.W.). He was a son of the late Mr. and Mrs. William Andrews. At an early age he went with his parents to Broken Hill, where he lived and worked until he entered the Methodist ministry in 1911. During that year he entered the late Dr. Torr's training home, and then he went to Prince Alfred College, 1912 to 1913 (School Reg. No. 4,664), to complete his education. He was ordained at Kent Town Methodist Church in March, 1917. On 4th April of that year he

married Miss Vivien Budge, of Gladstone. Mr. Andrews was attached to the following circuits in South Australia:—Morgan, Mount Gambier, Unley, Renmark, Terowie, Moonta Mines, and Solomontown. Transferred to Western Australia, he was attached to Katanning, Subiaco and Kalgoorlie circuits. Returning to South Australia, he was appointed to Tod Street, Gawler, in 1935, and his last circuit, Redruth-Burra, in April last year. He was Toc H padre. Mr. Andrews was a member of the local golf, tennis and bowling clubs. He leaves a widow and one son, Deane.

FWLER—On 17th December, 1939, James Richard Fowler, late of Osmond Terrace, Norwood, aged 74 years. Mr. Fowler was the son of the late Mr. G. S. Fowler and was born in 1865. He received his education at Prince Alfred College, 1874 to 1881 (School Reg. No. 390), and in England, where he attended St. John's College, Cambridge. Mr. Fowler had been a director of D. & J. Fowler Ltd., the Adelaide Milling Co., Ltd., and the local board of the A.M.P. Society. He was chairman of D. & J. Fowler Ltd. from 1899 to 1932. He was a director of the Bank of Adelaide and Alliance Insurance Co., and for many years was a member of the Council of the University of Adelaide. He was the first chairman of the Board of Commercial Studies, and was a member of the Rhodes Scholarship Selection Committee in this State. In 1892 Mr. Fowler was married to Miss Esther Tinline Murray, the youngest daughter of the late Mr. William Murray, of Glen Osmond. There were three sons by the marriage. He was Life Member No. 2 of this Association.

CRAGEN—On 6th August, 1939 (suddenly), at his late residence, Levi Street, Woodville West, Thomas Ewart, beloved husband of Mollie M. Cragen, aged 61 years.

BRANDENBURG—On 10th December, at a private hospital, Adelaide, Alfred Henry John, the loved husband of Charlotte Matilda Brandenburg, of 73 Robsart Street, Parkside, aged 77 years. Mr. Brandenburg attended College 1875 to 1876 (School Reg. No. 427), and was lately employed at the Islington Workshops. When Governor Hindmarsh's historic H.M.S. "Buffalo" was a wreck, some of its teak and oak timbers were salvaged. Mr. Brandenburg was commissioned to make with the material the chair used by the Mayor of Glenelg. This chair bears testimony to the care and affection which he bestowed upon the work. Cyclists of "penny farthing" machine days will remember Mr. Brandenburg, along with Feegher, Mehrtens, Charlie Hins'ey and others, all of whom were trophy winners. Old cricket enthusiasts also will recall his tricky googly bowling, which netted him a good average. George Giffen was a team mate of his, and taught him many points in the game. Mr. Brandenburg was active in the South Park Cricket Club, and the Amateur

Swimming Club of South Australia. He was official time-recorder for the latter. He had pleasant recollections of good swimmers—Bill Bushby, Earle and Moon. He was a regular attendant at the "Veterans' Assembly, held annually at the College on "Old Boys' Day."

DIX—On 23rd December, 1939, at Battams Road, Payneham, George C. L. Dix, aged 63 years. He attended the School 1891 to 1892 (School Reg. No. 2,286). Mr. Dix was appointed Deputy Director of Postal Services early this year, and in April, co-ordinating officer on all matters in the State war book dealing with emergency postal services and stores and the telegraph and wireless branches involved in any State plans. Mr. Dix was born on 4th August, 1876, and was educated at Prince Alfred College. He entered the service of the Postmaster-General as a junior clerk in March, 1893, during the regime of Sir Charles Todd. He was appointed clerk in the correspondence branch, and then senior clerk in the inspection branch. In April, 1914, Mr. Dix was appointed district postal inspector in the metropolitan area, and seven years later he was given charge of the Murray Bridge postal district. On the transfer of Mr. S. C. Francis to Queensland, the office of senior inspector for South Australia became vacant, and Mr. Dix received the appointment in September, 1923. On several occasions Mr. Dix made visits of inspection on the overland telegraph line to Darwin, and there is scarcely a post office in this State which he had not visited.

DREW—On 20th September, 1939, at Adelaide, Alan George, beloved husband of Lottie Drew, of Baringa, Leighton, aged 45 years. He attended the School 1910-1912 (School Reg. No. 4,389).

TOMS—On 18th January, 1940, at a private hospital, Henry Howard, beloved husband of Amy Toms, of 228 Napier Terrace, Unley, aged 64 years. Mr. Toms, who was a son of the late Mr. Samuel Toms, of Adelaide, has left a widow and two sons, Bob and Alex., of Adelaide. For many years Mr. Toms was connected with the late firm of Good, Toms & Co., soft-goods merchants, and in recent years he was with the firm of H. W. Hodgetts & Co. For many years Mr. Toms was a member of the old Havelock Cricket Club. He entered the School in 1885 (School Reg. No. 1,577) and was a Life Member, No. 75, of this Association.

SAMUEL—On 15th November, 1939, at 99 Palmer Place, North Adelaide, Joseph King Samuel, aged 72 years. Although Mr. Samuel had never taken a prominent part in public life, his influence extended in many directions. His ripe judgment and high reputation for meticulous probity caused many people to seek his advice on commercial questions; and, in quarters where he was known, his death will leave a blank which no one can completely fill. His many friends will remember him with the deepest affection. Mr. Samuel was chairman of directors of the Adelaide Electric Supply Company, and a director of Elder, Smith & Co., Elder's Trustee & Executor Company, and

Wallaroo-Mount Lyell Fertilisers Ltd. Born in Adelaide on 26th September, 1867, Mr. Samuel attended at Prince Alfred College in 1883 (School Reg. No. 1,274), and entered the service of Elder, Smith & Co. in December, 1883. Between 1886 and 1888 he was engaged on a station obtaining practical knowledge of the pastoral industry, but on 1st July, 1888, he rejoined the city staff of Elder, Smith & Co., with whom he continued until 1895, when he resigned to go into business on his own account. Mr. Hedley L. Todd, a son of Sir Charles Todd, resigned from Elder, Smith's at the same time, and the two set up in partnership. When Mr. Todd died, Mr. Samuel took as his partner Mr. Charles Sprigg, subsequently secretary of the Adelaide Electric Supply Co. During this period, Mr. Samuel was associated with many companies as secretary or director, and he was widely recognised as an authority on company business and an able business executive. In September, 1915, he was invited to join the board of Elder, Smith & Co., the firm in which he had begun as a boy; and in 1919 he visited England on behalf of that company. Mr. Samuel's direct connection with the Adelaide Electric Supply Co. dated back to 1907, when that company became independent of the Melbourne body and was placed under London control. Mr. Samuel, in that year, became a local director and co-attorney with Sir George Brookman. When, in 1921, the company became independent of London, Sir George Brookman was chairman and Mr. Samuel a member of the board. In 1927 he was appointed chairman in succession to Sir George Brookman, and had held that position ever since. The company made great strides during the period of Mr. Samuel's chairmanship. He gave a great deal of his time to its affairs, and his sound judgment was reflected in its ever-increasing strength. Mr. Samuel joined the board of Wallaroo-Mount Lyell Fertilisers Ltd. in 1920. For 12 years Mr. Samuel was a leading member of the council of the Adelaide Chamber of Commerce, and when he resigned, in 1930, a special resolution was adopted, placing on record the Chamber's indebtedness to him for his services. He was for a time correspondent for the British Board of Trade, and in other directions also was active quietly in promoting the prosperity of the Adelaide business community. At all times he shunned publicity. At the time of his death Mr. Samuel was president of the Royal Adelaide Golf Club. He was vice-president from 1935 to 1938, and had long been an active supporter of the club. In 1914 he was vice-captain, and for three years, from 1915 to 1917, inclusive, he was captain. Mr. Samuel visited South Africa, England and the Continent last year, partly on a private trip, but partly in the interests of the companies of which he was director. While he was abroad his wife, to whom he was deeply attached, died suddenly. He leaves four sons and one daughter.

SHARLAND—On 17th October, 1939, E. C. Sharland, late of Mildura, aged 79 years. Mr. Sharland went to Mildura in 1887 as an architect for Chaffey Bros. During the first 25 years

of Mildura's settlement he was active in its public life. For some time he was secretary of the Mildura Hospital; also, he was a Past Master of the Masonic Lodge. He attended the School 1875 to 1877 (School Reg. No. 413).

PITT—On 11th January, 1940, at Woodside, Henry Charles, dearly beloved husband of Matilda Pitt, aged 77 years. He attended the School 1874 to 1878 (School Reg. No. 355), and was a member of this Association.

Branch Reunions

STRATHALBYN

The only country dinner which has been held since the last issue of the Chronicle is the Strathalbyn combined dinner which was held at the "Permanent Hotel," Strathalbyn, on Saturday, the 16th of September. Prior to the dinner a golf match was held, which virtually resulted in a draw, so that socially both these functions were a success.

The number present was very disappointing. As regards the dinner, only 12 P.A.C. men attended, of these seven journeyed from the city to Strathalbyn. Mr. G. M. Potts represented the Headmaster on behalf of the School, and the President, Mr. J. Crompton, and the Secretary, Mr. Lawrence, represented the Association. The joint secretaries of these two functions were E. G. Chapman (P.A.C.) and L. A. Wadlow (S.P.S.C.), and they are to be congratulated on the running of these two functions, and

it must have been extremely disappointing for them to see such poor attendances after all the hard work they had put into these arrangements, but no doubt this was mostly owing to the recent declaration of war and its unsettling re-action. The chairman was Mr. M. D. Richardson (P.A.C.), who handled the meeting, exceptionally well and proposed the toast of "The King." Mr. W. L. Von Doussa proposed the toast of the Colleges, which was responded to by Mr. J. H. Hill (St. Peter's) and Mr. G. M. Potts (Prince Alfred). The only other speeches were: "Our Association," proposed by Mr. G. D. Whittam, which was responded to by Sir Wallace Sandford and Mr. J. Crompton.

Country members are especially requested to make an effort to attend these re-unions, as they are most essential to the improvement of the Association, and therefore the School, and we look forward to a very much better rally next year.

New Members

The enrolment of new members still continues very satisfactorily, but your Committee wants every eligible Old Boy to join now and give the Association added strength.

If you know of an Old Boy who is not a member, send his name and address to the Secretaries; or, better still, bring him along personally to join up.

LIFE MEMBERS

- 1130—Eckersley, A. B.
- 1131—Dennis, E. A.
- 1132—Granit, N. R.
- 1133—Beanland, H. R.
- 1134—Hoad, G. G.
- 1135—Boer, M. D.
- 1136—Drew, P. A.
- 1137—Stain, M. W.
- 1138—Bond, Max.
- 1139—Hardey, H. R. L.

WESTERN AUSTRALIAN BRANCH:

Jackman, F.

LOST TOKENS

Tokens remain the property of this Association, and are held by members on trust only. In the event of the loss of a token, the member should immediately report this to the Secretaries of the Association.

Monthly Luncheons

The attendances throughout last year at the monthly luncheons were indeed gratifying, and some very excellent speeches were made, whilst the subjects were very varied. The Hon. E. W. Holden was to speak to us at the September luncheon, but owing to illness was detained at the last moment. Lindsay Dawkins came to the rescue and gave a very amusing speech on experiences in America on the way home from England. His humour is always well received by the members as he has spoken previously to them.

At the October luncheon Mr. H. T. M. Angwin gave a very interesting address, or lantern lecture, on the early days in Port Adelaide, and this again was very well attended and well received by the members.

Perhaps the most successful luncheon meeting of the past year was that held in November, when our Secretary, Len. Shuttleworth, gave an address on his impressions on his trip abroad. It will be remembered that he had only just returned from England, and he had been

there at the outbreak of war. It is worthy to mention that the popularity of our hard working Secretary apparently did the trick, and an all time record attendance can be reported.

Your Committee once again wishes to remind members that luncheons are held on the last Thursday in every month at Birks' Piccadilly Cafe, Rundle Street, and the speakers are asked to finish up at 1.55 p.m., so that members can return to their offices by 2 p.m. A new procedure has been adopted, and set luncheons are now available, thus giving very much greater time for speaking. Any members who would like reminders sent to them are asked to send their names to the Secretary, so that they can get their usual memo. as to when these luncheons are held. You are also asked to endeavour to bring along one other member so that we can give speakers a greater number of listeners.

Our attendances actually averaged about 50 per meeting, which is really quite good.

Country Notes

Mr. H. V. (Harold) Lord, with his wife and family, is down from Pine Valley Station on holiday. He is the eldest of a family of six brothers, all of whom are station owners.

Three of the brothers comprise the well-known firm of J. V. Lord & Sons, and own Pine Valley, Kalkeroo, and Oakvale in this State.

Two other brothers (Percy and Sylvester) own Thackeringa and The Pinnacles in New South Wales, and another brother owns Balcanoona, also in the north of this State.

Mr. Lord has managed Pine Valley since 1914. Before that he had always worked with his father on one station or the other.

Many years ago his father took up 10,000 acres of land at The Pinnacles, near Broken Hill, and eventually added several homestead leases to the area. Later he purchased Wanda Vale.

As the years passed by, father and sons, who throughout the years had always worked to-

gether, gradually acquired other holdings, until today they are among the biggest landholders in this State.

Harold, Percy, Sylvester and Eric are members of this Association.

PRINCE ALFRED COLLEGIANS' LODGE

No. 51, S.A.C.

W.M.: Wpl. Bro. K. J. Mellor
I.M.P.: Wpl. Bro. C. R. Sutton
S.W.: Bro. R. T. Mellor
J.W.: Bro. W. L. Davies
Chaplain: Bro. W. A. Dunn
Treasurer: R. Wpl. Bro. A. A. L. Rowley
Sec.: Bro. R. G. Neill
D.C.: Wpl. Bro. C. G. Crump

The Lodge meets on the first Friday of each month at the Masonic Temple, North Terrace.

Old Boys in Sport

TENNIS

For this issue of the "Chronicle," sporting par. No. 1 must go to Max Newcombe, of tennis fame. Last season a troublesome appendix rendered him hors-de-combat, but now, completely recovered, he has gone from success to success. This season he has beaten such renowned players as Crawford and Hopman. He now plays as No. 1 string for South Australia, and, as we go to press, news comes of his success in the City of Perth Championship. It's a long time since Princes produced the top ranker of the State, so it's congratulations to Max. Bill Mates played No. 3 in Interstate matches, and this also makes pleasant reading. Bill is of more recent vintage, and, when fully matured, should be very potent in effect.

CRICKET

Another to rank highly in this edition of sporting pars is Vic. Gibson, the East Torrens cricketer. Early in the season he made a rapid century, and on other occasions has made good scores; combined with his batting, his ability as a slow left-arm bowler has made him one of the best all-rounders in "A" Grade competitions. As secretary of his club, he also takes an interest in the executive side of sport.

Another old Red performing well with East Torrens is Arthur Dawkins. In mid December he made a brilliant score of 190, or thereabouts. At the time Interstate matches, then in progress, over-shadowed a very fine effort, the daily press allowing the event to pass without comment. However, it is recorded here as one of the best cricketing contributions by an old Red for many seasons. In his next innings the score sheets showed:

"A. W. G. Dawkins, b. Grigg - - 0"

Jack Treggning has had his first taste of Interstate cricket, and although at the moment he has been sent away from the table, we hope that, like Oliver Twist, he will return and ask for some more. He started the season in fine style, following a fifty with a century. The Interstate selectors were impressed and picked Jack as twelfth man; a vacancy in the original selection occurred and Jack won his colours. Unfortunately, he had to meet O'Reilly bowling at his best, and so occurred the first check to an excellently progressive career. There is an old saying that "little apples will grow again."

As predicted in the last issue of the "Chronicle," Fred. Catt has been awarded a "double blue" at the University for cricket and baseball. At the end of the winter he was chosen as the best second base man in Australia—probably the highest honour ever received by an Old Boy in the American game.

Chester Bennett—a fine all-round athlete—has been one of the mainstays of the Teachers' College cricket team this year. A good batsman

at School, and later for Prospect, it comes as a surprise that he had not made a century before the present season; however, this year he already has two to his credit, helping to give him the fine averages of 90 for 350 runs.

After an absence of several years Gordon Harris has returned to cricket to captain the Colts whilst Clarrie Grimmett is away from the State. Another "A" Grade captain is Angus Woolcock—he is still playing with West Torrens. Whilst on the executive side of the game it is interesting to note that Colin Gurner is secretary of the University team. After a somewhat shaky beginning, he has settled down and is now making runs and taking wickets in sufficient numbers to warrant an occasional photo in the daily press. At the moment he is 'Varsity's best (or should I say only) all-rounder.

The Old Collegians' cricket team is playing with great consistency this season—so far they have not won a match. However, there was a slight consolation when Peter Kirkwood was picked in the Turf Association team that played against the "B" Grade on New Year's Day. A few of the "old-timers" have retired—Dave Clarkson, carrying a stone or two handicap, has given up his fast bowling to follow a more sedate and restful existence (cf., Ferdinand the Bull); Neil Shepley, another erstwhile fast bowler with excellent credentials, has surrendered his cricketing portfolio; Euston and Garnet Male have taken up gardening; and Len. Clarkson seems to have reached the crossroads between the willing spirit and the not-so-willing flesh. However, all have helped considerably in the pioneering of Old Collegian cricket, and gratefully the Editor records the Association's thanks.

News comes from Melbourne that Arthur Bradshaw is playing in "A" Grade district cricket. Whilst in Adelaide he played with Sturt, and later transferred to the city team. He is also a fine footballer, endowed with ability and cunning.

GAME FISHING

G. R. Cowell, of Balhannah, has made another record by landing, at Dangerous Reef, Port Lincoln, the largest White Pointer ever caught on regulation rod and tackle. It measured 13 ft. 8 in. in length, with a girth of 5 ft., and weighed 1,334 lb.

GENERAL

If you know of an Old Boy who has recently holed out in one, or one who has hit the target at which he was firing, or one who perhaps never missed an opportunity of driving "kitty" to the ditch, or one who has caught (i.e., landed) a rare species of fish, then do not keep it to yourself. Write in to the secretaries and let them know; make this column YOUR column, and let it bubble over with effervescent pars.

OLD BOYS' TENNIS AND BOWLS

Arrangements are now in hand for the holding of these annual contests against members of St. Peter's Old Collegians' Association. The bowls match will be played at the South Park Bowling Club Rinks on Wednesday, 21st February, and the tennis probably early in March. Final arrangements have not been made.

Please advise the Secretaries if you wish to take part in either of these games.

**COMMITTEE VISITS SCHOOL**

Towards the close of the third term it is the usual practice for the Committee to attend the morning assembly at the College.

At the invitation of Mr. J. F. Ward, the Headmaster, the President, Mr. W. J. Hiatt, and several members of the Committee attended the morning assembly, just prior to the close of the term.

Mr. Hiatt addressed the senior boys who were about to leave, giving them a brief outline of the Association's work and its objects and urging them to join the Association immediately upon leaving School, so that their interest in the School would continue and remain unbroken.

**Life Members' Certificates**

Life Members who have not yet received their membership certificates are requested to communicate with the Secretaries.

The newly-designed Life Membership Certificates are now available. These will be issued under the seal of the Association, and are obtainable by all Life Members upon payment of 2/6 to cover necessary costs of printing.

Life Members who have been already issued with old style Certificates are eligible to obtain a new Certificate if they so desire.

ASSOCIATION TOKEN

Owing to the increased price of gold, the costs of the Association Token has been raised to 21/-. This increased cost will operate in future until further notice.

Your Committee regret the increase, which is unavoidable under existing conditions.

**ASSOCIATION TOKENS**

Association Tokens will be issued to members upon payment of 21/-. These remain the property of the Association, and are returnable if the holder ceases to be a member. To the end of December last, 1,559 tokens have been issued.

**MINIATURE TOKENS**

In order to meet the wishes of many "old boys" a miniature token has been approved by this Association in addition to the ordinary large size token. These miniature tokens will be issued on the same conditions, viz., that they remain the property of the Association and may be recalled upon cessation of membership.

The price of the miniature token is still 20/-, when issued to members. Any member already holding a large sized token may exchange it for a miniature token upon payment of 10/-. So far 11 have been issued.

**ASSOCIATION BLAZERS AND TIES**

The Association blazers and ties are available for members of this Association only. Any member of the Association desiring to secure a blazer or tie is requested to write to the Secretaries of the Association for a Certificate of Membership in order to avoid delay in obtaining delivery when purchasing.

These articles cannot be supplied by the stores unless an order is produced.

Interstate Branches

BROKEN HILL

The Branch Secretary is Mr. R. Glasson, c/o Bon Marche, Broken Hill.

The annual cricket match was played between St. Peter's Old Collegians and Prince Alfred Old Collegians of Broken Hill on the Silverton Oval on Sunday, 19th November.

In the first innengs St. Peters scored 50 to Prince Alfred's 87.

In the second innings St. Peters scored 103 and Prince Alfred replied with 5 for 60, when the fielding side appealed against the light, which the umpires upheld.

An enjoyable day was spent by all who attended, but owing to the proximity of the Silverton Hotel the more serious aspect of the game was apt, at times, to be neglected.

The following are the details of the scores:

VICTORIA

Mr. D. F. Burnard is the Branch Secretary, and his address is: C/o Chief Engineers' Branch, P.M.G. Department, Treasury Gardens, Melbourne, C2. He will be pleased to hear from any Old Reds who may be in Victoria. Phone number Central 5551. He would be glad to receive notifications of changes of address. His private address is: 69 Strathalbyn Street, East Kew, E5. Telephone, Hawthorn 6275.

PERSONAL

Messrs. A. S. H. Gifford and D. F. Burnard recently paid a visit to Adelaide, and there met many of their former schoolmates.

Mr. T. A. Laurance, of 15 Baird Terrace, East Brighton, paid a visit to Western Australia last year and attended the Annual Dinner at Perth on 5th October last. He there met some of his former school-fellows, including Messrs. Brown and J. Marychurch Jenkins (former Masters at the School), both of whom he had not met since leaving in 1884. He also met Joe Darling (of cricket fame) at the "Grosvenor" whilst passing through Adelaide on his return journey. Mr. Laurence's many friends will regret to learn that just prior to leaving Adelaide his wife was taken ill and has been very sick ever since. We hope she will soon have a speedy recovery.

WESTERN AUSTRALIA

The Branch Secretary is Mr. E. Witherage Cotton, No. 5 Melrose Crescent, North Perth, who will be pleased to hear from all Old Reds in W.A.

ANNUAL DINNER

Our Annual Dinner passed off very successfully on 5th October, despite the small attendance of only 19; of these three, namely Messrs. J. Marychurch Jenkins and G. C. Brown were old Masters of P.A.C., and Mr. T. A. Laurence of Melbourne, who, an Old Collegian of the '70's, stayed in Perth a week longer on purpose

that he might attend. Amongst the others were the new faces of Rev. A. B. Lloyd and Messrs. Feuerheerd, Whitham and Smart. The President, Mr. W. R. Rogers, gave the toast of "The King" and followed with that of "Our Guests," in reply to which Messrs. Jenkins and Laurence spoke feelingly of the Old School and the many friends that they have since found amongst Old Collegians in various places. Mr. Brown said a few words in similar vein. The toast of the "Old School" was in the hands of the Vice-Presidents, Messrs. W. C. Fawcett and F. C. Waldeck, supported by Messrs. Whitham, Feuerheert and Smart. The Rev. A. B. Lloyd apologised for having to take up so much time in replying but could not help mentioning facts of his days at P.A.C. and of the help he got there, finding it difficult to adequately narrate the pleasure that comes in meeting Old Collegians since, and how good it was to him to meet them in the West. A long evening was used up in the large lounge of the Hotel Australia after the Dinner by most sitting in groups and going over school days and interests since, again.

MONTHLY LUNCHEON

At our Monthly Luncheon, held from 1 to 2 p.m. on Thursday, 28th September, Mr. R. J. Dumas addressed us, giving many most interesting facts and figures about the Canning Dam, not far off completion, for the purpose of giving a full supply of fresh water for the Metropolitan area. The *West Australian* reported as follows:

"An air raid on Canning Dam could not inflict any material damage that the department would be unable to cope with, Mr. R. J. Dumas, Chief Engineer for Water Supply, Sewerage and Drainage, stated on Thursday in a lunch-hour talk at the Wattle Tea Rooms to the West Australian Branch of the Prince Alfred Old Collegians' Association. Mr. Dumas spoke on various engineering aspects of the dam.

"Because of the great volume of water, he said, there was no possibility of an enemy air force polluting the water by dropping chemicals, while the use of typhoid germs could be overcome by chlorination. The wall—about 170 ft. thick at the lower levels—was so massive that no bomb could do any harm to the concrete. On the downstream toe of the wall was the valve house, controlling the flow from four 42-in. diameter pipes laid from the dam. Should anything go wrong with the valves or the structure, emergency gates each weighing 3½ tons could be lowered on the upstream face of the wall and, even if the water were running at a very high velocity, they would jam themselves across the entrances to the pipes and stop the flow.

Mr. Dumas said that a roadway, 18 ft. wide, and two 3-ft. footpaths were being built across the top of the wall. Motorists would be able to travel from the northern abutment along a new road leading to the Beverley Road by which they could reach Kalamunda and Mundaring. The new road, which was used by the department, would probably be improved and made into a scenic road in the future."

In addition, Mr. Dumas said that there were a few features in this dam that were new, beside the fact that its concrete strength was much more than engineers considered adequate, for there is a tunnel right through the whole length of the dam from which cross bores can and will be taken to test the settlement and consolidation of the concrete as time goes on, for future reference. Also, there is a tunnel crosswise under the structure and under the ground beneath it for the purpose of relieving the upward pressure of water from below. This, he said, was quite a new feature.

On 26th October we had a short talk from Mr. J. A. Richards, giving interesting experiences that he has had in the psychology of children of both sexes during his forty years of school-teaching in England and Australia since he left P.A.C. He did not pretend to speak, he said, of Psychology as a science that he has made theoretic use of, but rather showed the practical application as it seemed to him to meet the case of each individual child.

ANNUAL MEETING

We had our Annual General Meeting on 30th November, when the disadvantage of such being held at the same time as the Monthly Committee Meeting during lunch hour was experienced, insomuch that time would only permit of a hasty election of officers. This ended in Dr. J. L. Rossiter, M.A., being elected again. "whether he wanted to or not"—he said he did!—as Patron; Mr. W. C. Fawcett, as senior Vice-President was elected in the place of Mr. W. R. Rogers, the retiring President, who was absent on holiday leave. The new Vice elected was Mr. R. J. B. Miller, and the vacancy on the Committee was filled by the election of Mr. G. A. Crombie. Complete list of officers for the year 1939/40 is: Patron, Dr. J. L. Rossiter, M.A.; President, Mr. W. C. Fawcett; Vice-Presidents, Messrs. F. C. Waldeck and R. J. B. Miller; Committeemen, Messrs. R. R. Mattiske, J. C. Livingston, Rev. H. H. Fennell, F. A. Potts, H. Boas, G. A. Crombie; Hon. Secretary and Hon. Treasurer, Mr. E. W. Cotton; Hon. Auditors, Messrs. A. A. Strickland and G. M. Wilson.

It was a pleasure to have present at the Annual General Meeting an Old Collegian of the eighties in Mr. Frank Jackman, who was very glad to meet so many of his time and promptly joined up with the Adelaide Association. We have had Mr. R. L. Whitham already of the Adelaide Association join our local Branch, and Mr. H. R. L. Hardey has become a Life Member of the Adelaide Association. We are very sorry to lose Mr. S. M. Wreford, but do not begrudge him his well-earned promotion to Melbourne whence he goeth in February next, with our very best regards and wishes.

PERSONAL

Subscribers to the "Jim Throssell Memorial Scholarship" at Wesley College, Perth, will be pleased to learn that Ric has passed the Leaving Exams. in English, Latin, French and History, and Physiology and Hygiene with distinction.

We are sorry to have to lose Mr. S. M. Wreford, who leaves Perth on 25th January for promotion in the Eastern States offices of the National Bank. A Life Member of the parent Association, he has been with this Branch since its inception ten years ago, as President for one year, Vice-President for two years and an Hon. Auditor for some time.

Our meetings were always enlivened by his broad-minded sayings and actions, whilst his generosity was unequalled. At cricket he was ever ready to do his bit. We all wish him what he well deserves—the very best.

Our annual cricket match against Old Saints will most likely take place at Wesley College grounds round about 2nd March. Will all Old Reds able and willing to play please communicate early with Mr. F. C. Waldeck, care of Goldsbrough, Morts, St. Georges Terrace, Perth. By the way, Fred has a son, recently presented to him—congratulations.

NEW SOUTH WALES

The Branch Secretary is Mr. E. H. Kesting, Newington College, Stanmore, N.S.W.

Mr. Allan Lyon is President, and may be found at 73 Pitt Street, Sydney. Any Old Scholars visiting Sydney are invited to communicate with them.

PERSONAL

Mr. F. J. Beach, one of our earliest Old Boys who entered the School during its first year of existence, viz., in 1869, recently returned to Adelaide with his wife for a holiday visit to relatives. Whilst in Adelaide arrangements were made and the Association President (Mr. W. J. Hiatt) called upon Mr. Beach and motored him to the School to witness the Old Scholars v. Present Eleven Cricket Match. Mr. and Mrs. J. F. Ward entertained the visitor at afternoon tea, and then he inspected the Old School and the new Preparatory School and other improvements.

Mr. Beach also paid a second visit to the School to witness the Intercollegiate Cricket Match, and must have appreciated to the full the marked contrast between the conditions of this present day cricket match and the cricket matches of 1869 (if there were any).

We all hope that both Mr. and Mrs. Beach enjoyed their visit to Adelaide and the School, and no doubt will tell Old Reds in Sydney all about it.

QUEENSLAND

At the present time the Association is lacking a local Committee and Secretary in Queensland, and the Committee is appealing to Old Reds in that State to interest themselves and form a small local Committee and elect their officers.

The first step towards realizing this formation will be to find someone who will undertake the secretarial duties.

A list of members in Queensland is attached, and although the members appear to be widely distributed, your Committee hope that the formation of a local Branch will result.

Mr. Colin Alexander, 50 Anthony Street, Ascot, Brisbane; Mr. A. A. Atherton, c/o Shell Co. of Aust., Ltd., Brisbane; Mr. L. N. Davidson, "Manfred," Longreach; Mr. R. L. Davidson, Arno Station, Isiford; Dr. H. Flecker, 70 Abbott Street, Cairns; Mr. F. M. Forsyth, Norley Station, Thargomindah; r. W. M. Hamlyn, c/o Union Assurance Co., Creek Street, Brisbane; Mr. F. Johnson, Mosman Street, Charters Towers; Mr. M. A. P. Mattingly, Church of England Grammar School, Brisbane; Mr. J. H. Middleton, c/o State School, Biddillibah, via Woombye, North Queensland; Mr. R. J. S. Muir, c/o J. B. Anderson, Esq., Youla, Edmonton, Near Cairns; Mr. R. B. Nancarrow, c/o Bank of Adelaide, 305 Queen Street Brisbane; Mr. M. L. Staer, "Kilcummin Station," Clermont; Mr. A. D. Stapley, c/o Commonwealth Bank of Australia, Bundaberg; Mr. R. W. Thomas, c/o J. Kitchen & Sons, Box 377 G.P.O., Brisbane; Mr. J. E. Tregenza, Otonta Road, Ashgrove, Brisbane.

LONDON

The recently formed Branch of the Association in London has had its activities hampered by the outbreak of war.

In May, 1939, a Committee of Management was elected, with Dr. F. F. Muecke as President and Mr. D. C. Winchester as Secretary. We now learn that Mr. Winchester has enlisted for active service with the British Army.

One of the main objects of the London Association is to arrange for the meeting of overseas visitors, and until the hostilities cease it would appear that the London Branch activities must remain more or less in abeyance.

Dr. F. F. Muecke's address is: The Greenings, Charlwood, Surrey, England.

Mr. A. Menzies Sharpe, who is now residing at Ponsbourne Manor, Hartford, England, is having a very strenuous time with war work and in local A.R.P. work.

He is also Parish Billeting Officer in regard to evacuated school children, etc., and official in charge of petrol supply for emergency use.

He has sent several very interesting letters about the conditions in London and the war precautions in England.

TASMANIA

At the present time the Association is lacking a local Committee and Secretary in Tasmania, and the Committee are appealing to Old Reds in that State to interest themselves form a small local Committee and elect their officers.

The first step towards realizing this formation will be to find someone who will undertake the secretarial duties.

A list of members in Tasmania is attached, and your Committee hope that the formation of a local Branch will result.

Mr. W. C. Annells, c/o Mr. C. Annells, Friends High School, Hobart; Mr. R. H. Berriman, 15 Toorak Avenue, New Town, Hobart; Mr. G. Herriot, c/o Union Bank, Hobart; Mr. H. P. Tuck, University of Tasmania, Hobart; Mr. C. W. Wright, 12th Mixed Brigade Signals, Anglesea Barracks, Hobart.
