SCHOOL OFFICERS

School Prefects

R. L. Elix (Captain of the School), R. C. Bennett, L. K. Burton, P. C. Dunn, N. B. Effick, R. L. Griggs, J. R. Harbison, K. A. Huelin, G. M. Nicholls, B. H. Pittman, R. L. Sharland, G. G. Ward.

Boarding House Prefects

J. R. Harbison (Head of the House), R. C. Bennett, N. B. Effick, G. M. Nicholls, I. W. Offe, H. R. Tiver, L. C. Tucker, G. G. Ward, G. D. Woodard.

"Chronicle" Committee

Messrs. G. M. Potts and W. L. Davies (Masters-in-Charge), M. E. Gale (Editor), P. C. Dunn, A. M. Duguid, R. L. Griggs, G. D. Woodard.

S.C.M. Committee

Messrs. G. M. Potts and J. P. Keeves (Masters-in-Charge), P. C. Dunn (President), B. R. Cox, I. H. Higgins, R. G. Medlow, G. D. Woodard.

Memorial Library Committee

Mr. S. Williams (Master-in-Charge), R. C. Bennett, R. S. Davie, P. C. Dunn, R. L. Elix, R. L. Griggs.

Games Committee

The Headmaster, Messrs. W. L. Davies, A. S. Johnston, A. E. J. Klose, B. H. Leak, T. G. Luke, H. E. H. Mutton, Rev. C. J. Perry, Messrs. G. M. Potts, R. T. Smith, J. S. Steele (Sports Master), L. K. Burton, R. L. Elix, R. L. Griggs, K. A. Huelin, K. M. Morris, B. H. Pittman, R. L. Sharland, D. F. Trowse, P. G. Warnecke.

Games Sub-Committee

Tennis—Mr. T. G. Luke (Coach), K. A. Huelin.
 Rowing—Mr. G. M. Potts, K. M. Morris.
 Athletics—Mr. J. S. Steele, L. K. Burton, K. A. Huelin, R. L. Sharland, P. G. Warnecke.
 Football—Mr. R. T. Smith, R. L. Elix, K. A. Huelin, B. H. Pittman.
 Cricket—Mr. B. H. Leak, R. L. Griggs, B. H. Pittman, D. F. Trowse.

Scout Troop

Scoutmaster, Mr. A. H. Dennis; Asst. Scoutmaster, Mr. J. P. Keeves; Patrol Leaders, R. S. Davie, A. M. Duguid, N. B. Effick, G. D. Clarke.

Cadet Corps

C.O. Detachment, Capt. G. W. Mansfield; Acting C.O., Capt. A. S. Johnston; Lieut. C. N. Kurtz; Lieut. G. A. Dillon; Cadet Lieuts. D. H. Zanker, L. K. Burton; Sergeants B. H. Pittman, M. J. Scholz, R. R. Harris, H. B. Standen, R. W. Piper.

House Committees

Bayly House—Messrs. R. T. Smith, B. H. Leak, R. L. Griggs (Captain), R. L. Elix (Vice-captain), P. C. Dunn, D. F. Trowse, D. G. Harley.

Cotton House—Messrs. H. E. H. Mutton, K. W. Smith, K. A. Huelin (Captain), L. K. Burton (Vice-captain), D. M. Fox, B. K. Giles, J. R. Hill.

School House—Messrs. G. Mansfield, J. P. Keeves, J. R. Harbison, R. C. Bennett, G. M. Nicholls, M. P. Tiddy, D. C. Young.

Waterhouse House—Messrs. J. B. Allen, A. M. Hart, K. B. Manser, B. H. Pittman, D. Prest, R. S. Sharland, P. G. Warnecke.

FAC FORTIA ET PATERE

Vol. XV

JUNE, 1947

No. 208

Editorial

Today we are confronted by a dazzling prospect. The world stands at the frontiers of vast unexplored lands—the realms of power, electronics, engineering, chemistry—the whole gamut of science. It is an era of material which, in many ways, is dangerously brilliant and attractive.

Science seeks to understand and conquer man's environment, thereby enslaving it to his wishes. In this respect it has been very successful. Science showers upon man atomic power, jet engines, radar, television—"ad infinitum". Thus it gives him the power to improve the conditions under which he lives, and enjoy greater comfort and leisure.

But so far, science has done nothing to show us how to use its wonderful discoveries in the promotion of international peace, understanding and prosperity. Though it seeks to explain the chemical and physical mysteries of the body, it has been helpless in non-material things—tolerance and justice; the understanding of man's nature and his motives have lain beyond its pale.

It has done less than nothing with regard to ethical and spiritual values, because its glittering material discoveries have distracted many who, having lost their conception of ethics and morals, are floundering far behind. At this stage despair or frivolous disregard is equally perilous. We must sanely and resolutely face the social problems science raises and will continue to raise.

From the national view-point, it is disastrous for us to encourage and employ all our best brains on the work of science. We need all the scientific knowledge we can obtain, but we need, even more urgently, men of high character and understanding, who possess the wisdom and perception to direct the use of that knowledge into the highest purposes of life.

Although we must not make the mistake of cramping scientific research, it is

imperative that we should direct as much brain-power of equal quality into the study of man's history, culture and social relations. Then we may expect equally useful and enlightening results with which we can tackle these immensely practical and urgent questions.

A broad social education that enables us to control, in the general interests, the inventions of scientists embraces potential "followers" as well as potential leaders. Such an education adequately equips us to contribute something intelligent and creative to the solution of pressing social problems.

In recognition of the need for a broader, cultural education, many American colleges and universities give liberal, as well as technical, training. Subjects appertaining to the humanities, such as English literature, economics, history and philosophy can be taken in addition to a purely scientific course. Our own university views this innovation favourably, but whether cultural subjects should be a compulsory part of every faculty's course or merely be made available to students sincerely interested, is a moot point.

But if "social studies" are left to those who normally take such a course, we must still recognise the vital importance of this work. The proper administration of science's discoveries is, at least, as important as the process and act of making those discoveries.

At present no university in Australia is adequately equipped for social research and training in the understanding of cultural and social relations. The proposed Canberra National University provides an opportunity of maintaining the balance between the demands of science and the needs of social culture and training.

We hope that our leaders are wise enough to ensure that progress in the study of the material is not made at the expense of the intangible.

School Notes

First term has gone: always a broken term with more holidays and sports events than any other. Many find it hard to settle down to real work.

A very touching ceremony on February 28th when the School finally said goodbye to Mr. J. E. Langley, Classics Master, Second Master and Bursar—each in turn had helped to make up his tally of 50 years in the service of the school. A great record. It was good to see the College Council and the Old Boys represented that day, to help us do honour to one we have all learned to love.

Congratulations to Huelin and the Tennis Team—and also Mr. Luke—on the fine victory in the Intercollegiate Tennis.

The Eight did wonderfully well at the regatta. To lose by so narrow a margin in record time was for so inexperienced a crew a great performance. We are all very grateful to Mr. Frolich for his good work as coach.

The Intercollegiate Athletics was not a good day for us. Two or three of our boys were unfortunate, but generally speaking St. Peter's had the better team and we congratulate them cordially on their win.

The Preparatory Sports, the Swimming Sports and the Senior School Sports all provided good entertainment for boys and parents. At the two Athletic meetings the attendance was very fine and everyone seemed to enjoy the afternoon.

Congratulations to the Cadet Corps on a good turn-out for the Anzac Day Procession.

The Boarders and a few Day boys all enjoyed seeing the religious film at a Service in St. Peter's Cathedral. It was a good thing to see this new development in the teaching of the Bible under circumstances that helped with an atmosphere of worship such as evensong in a Cathedral can afford.

A while ago Rev. W. H. P. McKenzie paid us a visit. Probably many boys in the sixth forms still remember him as one of our staff a few years ago. It was a pleasure for all his colleagues to have a talk with him.

The Science Department is indebted to Sgt. Robin Hone (who left school in 1941) for gifts of a very fine set of weights (0—500 gm., including small weights), a thermometer and a fractionating column, all of which will prove exceedingly useful to the Science Teachers.

Prefects' Palaver

The first term has passed in which the conduct of the boys of P.A.C. has been exceptionally good, due, no doubt, to the inhabitants of that battered but dear old room—the prefects' den.

This year Ralph Elix (Gus) was appointed Captain of the School and Jim Harbison Head of the Boarding School. We offer them our hearty congratulations and feel sure that they will maintain the high standard set by their predecessors.

The tennis intercollegiate was a walk-over, mainly due to fine captaincy by Keith Huelin, and good support from Neil Effick, with Graham Nicholls (Emerg.) looking after the key to the changing room. (Seven years' bad luck, Pol?).

We realise that the Eight did well this term although they lost the Head of the River, but, of course, there weren't any prefects in the crew! Congratulations go to Lance Burton for stroking the clinker crew in grand style, but bad luck, Lance! Why will those pleasure boats get in the way?

Prefects dominated the school sports, and we congratulate Keith Huelin for winning the

senior cup and being appointed captain of the athletics team, and Geoff Ward who was runner up. Perhaps the best feat of the day was the way in which Gus carried the school flag in the march-past. The newspapers seem to think him a glamour boy too.

Dick Bennett achieved the remarkable distinction of being dux of VI U although only a first year student. Good work, Dick, keep it up.

Brian Pittman had a couple of spells in hospital this term and had to give up sport for a while, but by the way he jumps about the table in the Prefects' Room, we think he's back to normal again. Bob Griggs also seems to prefer a quiet home life, although he found the intercollegiate attractive.

Four of our number attended the Blue and White, and seem to have enjoyed themselves!

In closing, as seems the custom, we would like to know the answer to the following questions—

- (1) Why are ping-pong balls scarce?
- (2) Who answers the name of "Ruth"?
- (3) Why were the prefects so eager to see Perce in hospital?

Student Christian Movement

The first meeting of the year was held in the Assembly Hall on March 13th. Following his normal custom, the Headmaster addressed this meeting. He outlined the rise and development of the Student Christian Movement and its inauguration at Prince Alfred College, stressing its value in the life of the School. He went on to review the great work of Professor Henry Drummond and Dr. John Mott and to tell of their visits to this State.

The second meeting for the term was to be taken by Rev. B. H. Phillips. Unfortunately, Mr. Phillips was ill at the time, and at very short notice Rev. V. R. Secombe kindly agreed to address us. He described the condition of the world today, and emphasised the marked change the outlook and morals of the people have undergone since the younger days of our parents. Pointing out that we must arm ourselves with a strong, unwavering faith in God on going out into the world, Mr. Secombe completed his address with an interesting account of the life and work of that great Moravian patriot, Vaclav Vancura.

Padre A. T. Strange was the speaker at our next meeting. After a short, introductory talk on nicknames, he spoke on a passage taken from one of Paul's epistles, and related the differences of opinion between Paul and Barnabas over the less experienced traveller, John Mark. Mr. Strange defended Barnabas, who forgave Mark and took him on his second

journey, and urged the importance of the injunction—"Give a man a second chance."

The fourth meeting was addressed by Mr. Ken Newman, the State President of the Student Christian Movement. Mr. Newman spoke on symbols—especially that of the Cross—and, pointing out that all our words are but symbols warned us against a passive acceptance of our language without trying to see the ideals and qualities for which it stands. His talk was concluded with a deprecation of the artificiality which tends to intrude upon the outlooks of Christians today.

The speaker for the last meeting of the term was one of the travelling secretaries of the S.C.M., Miss Joan Chadwick. Miss Chadwick outlined the position of Christianity in the world today, and described the Geneva Conference of the committee of the World Student Christian Federation held in August last year. This committee has made preparations for a World Youth Conference to be held at Oslo in a few months time. The relation between Christianity and internationalism at the close of the Second World War was then discussed by the speaker.

We are grateful to our speakers for giving up their time to address our meetings.

Next term we want to form discussion groups. Two or three Old Boys, who have taken a prominent part in the S.C.M. at the University will act as group leaders.

Scout Notes

We have had a very successful term in the Scout Troop as we have made much progress in raising the standard of our scouting. Twenty two new members have joined the troop, this is the largest enrolment for several years and we now have a full troop.

We welcome back Mr. J. Keeves, who was Troop Leader in 1942. Since then he has done the Gilwell scout masters' training course and he became our A.S.M. when he joined the school staff at the beginning of the term.

This term has special significance as we are now working under the patrol system as set down by B. P. The troop is run by a Court of Honour consisting of the Scoutmaster, the Assistant Scoutmaster and the four Patrol Leaders. As far as possible, all instruction in badge work is carried on in patrol-corners by the Patrol Leaders and their seconds, helped, when necessary by one of a group of boys, who as they are officers in other troops are ineligible for office in ours and have formed a special H.Q. Patrol.

On the afternoon of Saturday March 22nd a troop hike took place. The four patrols each set out from different points and met near the top of Gandy's Gully. The hike was held mainly to give the tenderfeet an opportunity

to pass the fire-lighting and cooking tests included in the work for the Second Class badge.

In the Easter holidays, a camp was held near our shack in the hills. The patrols camped in tents on the flat by the creek in front of the shack. Twenty three scouts came to the camp. A fairly good standard was attained but we hope to do much better next time. We are very grateful to Andrew Keeves, Bob Steele and Peter Stobie for coming to help Mr. Keeves run the camp.

On Anzac Day this year the scouts were once more asked to line the route of the march near the saluting base. This privilege was limited to scouts holding the Second class or higher badge. Almost all of our boys who were eligible attended.

After school on Friday, May 2nd, a rally was held with Saint Peters' and King's College troops in the parklands in front of our school. The competition was won by a Saint's senior scout patrol. Our four patrols finished very close to each other, about half way down the list of twenty patrols.

During the May holidays a training camp for seniors is being held. Those attending will set out from Adelaide on Tuesday May 20th and, hiking in pairs, will meet at the shack on Thursday and return home on Friday.

The Scout Camp

"THE MORE WE ARE TOGETHER"

WOODPIGEON PATROL

House Notes

BAYLY

With prominent members of the school in their ranks, Baylyites are looking forward to another good year. Perhaps it was only natural that the Captain of the School should be a Baylyite and we all congratulate Elix on his appointment. At the first meeting, Dunn, Elix, Griggs, Harley, and Trowse were elected as a committee and because Elix had other responsibilities Griggs was made captain and Elix vice-captain. We opened the year with a win in the swimming, this completing the hat trick as we had won the swimming the two previous years. Friebe was our star performer, while Harris also did well, and Miller and Duguid added to our tally of points.

The house tennis, however, is a much sadder story for unfortunately there were no intercollegiate tennis players in the house and several cricketers tried their hand at serving and smashing. Although they tried hard, lack of practice and more experienced opponents combined to defeat us and we were beaten by both School and Waterhouse, though bad luck also helped us to lose to Waterhouse.

We congratulate Morris, Burchell and Short on their selection in the eight. We had several other prominent oarsmen in our ranks and they should prove hard to beat when the time for the house rowing arrives.

In the school sports, we finished second to School whom we congratulate on their victory but next year we hope it will be a different story. Many Baylyites did well in the sports, but perhaps Ellis gained most points for the house. Harris and Friebe both did well in running second to the school's best sprinters, while Medlow ran splendidly to win both his events. Elix's victory in the 440 yards hurdles was a further indication of what our fellows can do. Forrest and May were others to gain places, but what happened in the march?

Many Baylyites are in the intercollegiate side but their achievements will be dealt with next term.

On the scholastic side, most of our house has worked hard, while we congratulate Duguid on being dux of VIA.

In conclusion we would like to thank Mr. R. T. Smith and Mr. Leak for their help, interest and enthusiasm in furthering the cause of Bayly House.

COTTON

Throughout the first term sporting activities were most pronounced. Our part in these activities was fairly good but not as good as we had hoped for.

The first event to take place was the swimming sports in which we were runners-up to Bayly House. Burton and Moss are to be congratulated on their fine efforts.

In the Intercollegiate tennis we were represented by Huelin, Billing and Head, half of the team. Congratulations! Our chances in the house tennis looked very bright. In the first

round we defeated Waterhouse. Then came the clash between School House and ourselves in the final. After a close, hard fought match we were defeated and have not heard the last of it since. We are just waiting to get our own back on School house in the football match next term; so beware School.

The rowing came next and two of our men, Giles and Beauchamp, were included in the eight. We congratulate them on their fine effort.

The school sports were held on the last Saturday of the term. Huelin won the senior cup and Fricker tied for the Under 15 cup. We were sorry to see James miss an event in the Under 15 championships as we think he would have been in the running for the cup. Half way through the programme a march past of houses was organised. We were hailed victors of this event.

Congratulations to Huelin on his appointment as Captain of the Intercollegiate Athletics. All the best to him and his team.

In conclusion, we would like to remind other Houses that we won the House Football last year and intend to do so this year.

WATERHOUSE

First we thank Mr. Hart and Mr. Allen for the interest they have shown in our house activities. We congratulate Pittman and Sharland on being prefects. Pittman our house captain was absent for four weeks after an appendix operation, but we are glad to see he has returned none the worse for his absence.

The first of the sporting fixtures was the swimming sports. Somehow Bayly managed to win, but after a keen afternoon's sport we came third. This was mainly due to the fine efforts of Kevin Manser who had a meritorious victory over Lance Burton in the 220 yards freestyle.

The inter-house tennis competition was held this term. Although Cotton defeated us in the first round, our boys played extremely well and these results make our prospects bright for next year. We easily defeated Bayly to take third place.

Congratulations to Warnecke on winning the senior 100 and 220 yards flat at the sports. Sharland's strength landed him 42½ feet in the U16 shot putt, while Branson, Michell, Prest, Brabham and Fuller helped to boost our score. We congratulate School on winning the cup.

Unfortunately half of our boys were not at the sports, or made themselves scarce when the march was on. They left a very heavy burden for the remainder. If they tried to impede our score they did a good job, but we wish they would get into some other house.

Not one member of the eight was from Waterhouse. Was this the obvious reason why we lost? Well just look at the first five letters in Water-house and there's the solution.

With the first term complete, we can look forward to a good football season.

SCHOOL

The term commenced with the enrolment of an unusually large number of new boys. We were pleased to welcome three new House Masters; Mr. Hudson, Mr. Keeves and Mr. Laycock, and also Sister Lane.

Congratulations are extended to J. R. Harbison on his appointment as Head of the House, and also to Bennett, Effick, Nicholls and Ward as school prefects.

Sporting activities of the House have been carried out with a very pleasing amount of zest. We were again unfortunate however in losing the swimming sports conducted at Henley Baths, though the participants are to be congratulated on their fine and untiring efforts. In the House Tennis, however, we proved easy victors, and the members of our team, Effick, Cane, Nicholls and Young are to be congratulated, not only for their excellent performance in this competition, but also for their inclusion in the Intercollegiate team.

Our numbers were also well to the fore in the Intercollegiate rowing, M. P. Tiddy, J. F. Naughton, D. L. McLachlan and R. A. Crawford being chosen as members of the eight,

and J. L. Watkins and D. G. Smith as juniors in the under age crew.

For the last five weeks of the term, afternoon sport was devoted to training for the Athletics and sports, the latter of which, held on the last Saturday of the term, were won by School house, by a comfortable margin of 47 points. To Ward, Kennewell and Menzies, we extend congratulations for successes in the cup events.

In the scholastic side of school life we have likewise been very successful, and we heartily congratulate the duces of the various forms on their results.

We would also like to thank the Masters, and those who made available the necessary materials for the introduction of Saturday evening entertainments in the form of organised games and pictures.

In closing, we append a variety of questions that are bothering some of our members—

Who is associated with wine, women and NAGS?

Who is it that feels the draught so badly?

Since when have the prefects taken up menial duties?

Memorial Library Notes

The following new books have been added during the term.

English Literature—

- "Henry IV," Parts I and II—Shakespeare.
- "Back to Methuselah"—G. B. Shaw.
- "I Give You My Word"—Ivor Brown.
- "Crime and Punishment"—Dostoevsky.
- "These Three—Love, Faith, Hope"—Professor J. R. Wilton. (Presented by L. B. Shuttleworth, Esq.).

History—

- "A Study of History"—A. J. Toynbee.
- "Zito Hellas"—C. E. Robinson.

Social Science—

- "If Men Want Peace"—Collection of Essays. (Presented by Professor L. A. Mander).

Biography—

- "Steer"—D. S. MacColl.
- "Man with Wings (Leonardo da Vinci)"—J. Cottler.

Science—

- "The New Background of Science"—Sir James Jeans.
- "Mr. Tompkins Explores the Atom"—G. Gurnow.

General—

- "Lords 1787—1945"—Sir Pelham Warner.

Mr. R. H. Cheek has kindly continued his subscription for the Christian Science Monitor and Magazine, and its excellent articles are very much appreciated.

Cadet Notes

This year, the Corps has been divided into four companies, each company representing one of the four houses, i.e. the cadets from each house form a company.

The idea behind this move is to foster a competitive spirit among the cadets and thus improve the standard of the drill and training.

The O.C. of each company should be a lieutenant, but at present there are only two officers, one each in Cotton and School companies, but after the May camp we may have two more N.C.O.'s promoted to that rank.

Owing to an injured back, Capt. Mansfield was forced to retire temporarily from the position of C.O. of the Corps, and Captain Johnston has taken his place.

An unusual feature in the Corps this year, is the fact that the parade is held on Wednesday morning instead of in the afternoon. This arrangement has proved very satisfactory to all concerned.

There have been several promotions this term, some prefects being among the number.

The May camp this year is to be held at Woodside. Considering the size of our Corps, the number of cadets attending from this school is not very flattering. Those of us who attended the Woodside camp in 1944, remember the good time we had up there in the Adelaide hills.

On Anzac Day, about 80 cadets marched in the Anzac March along with cadets from other colleges.

In July, we believe, Lord Montgomery is to visit Adelaide and the second, third and fourth year cadets are to take part in a parade. This is something to look forward to.

Intercollegiate Athletics

This year the fiftieth Intercollegiate Athletic Sports Meeting was held on the Adelaide Oval on Thursday, 8th May, the next to last day of the first term. This is the first time for many years that this meeting has been held after the school sports, and so late in the term.

The sky was overcast almost throughout the afternoon, and at ten past three a short shower of rain held up the proceedings for a few minutes. The track was heavy owing to rain which had fallen during the morning and previous night.

Princes started well by winning the first three events. In the senior 120 yards hurdles Fox (P.A.C.) won by a very narrow margin from Lawrence (S.P.S.C.). In the 100 yards flat under 16, Kennewell (P.A.C.) gradually overtook and drew away from Dawes (S.P.S.C.) who gained an early lead. Friebe gained third place for Princes. The time for this race was 10 $\frac{3}{8}$ sec., which was $\frac{1}{8}$ of a second faster than that of the senior flat, which was won by Warnecke (P.A.C.). Warnecke finished strongly to defeat Boothby (S.P.S.C.) by inches while Zanker (P.A.C.) was third. At this stage Princes were leading 16 points to 9; but now Saints completely took charge and won the remaining thirteen events.

In the senior high jump, Hayward, Brown and Huelin all cleared 5 ft. 3 in. On the count back Hayward (S.P.S.C.) was placed first, Brown (S.P.S.C.) second, and Princes' Captain, Huelin, third.

In the junior high jump Greatwich (S.P.S.C.) cleared 5 ft. 3 $\frac{1}{8}$ in. to break the record of 5 ft. 3 in. made by A. D. R. Marlow of Princes in 1933.

DeGaris (P.A.C.) hurdling neck and neck with Dawes (S.P.S.C.) in the 100 yards hur-

dles under 16 crashed into the last hurdle and Saints took the three places.

The Broad Jump, both senior and under 16 was dominated by Dawes (S.P.S.C.). His final leap in the under 16 event covered 21 ft. 6 $\frac{1}{4}$ in., breaking the under 16 record by 16 $\frac{1}{4}$ in. and put in the shade his jump of 20 ft. 3 $\frac{1}{2}$ in. which won the senior event. Huelin's best jump was 19 ft. 4 $\frac{3}{8}$ in. for which he was placed third, while Scott in the under 16 event covered 18 ft. 1 $\frac{1}{4}$ in. to gain second place.

In the 440 flat, Effick made excellent time until he entered the straight, but was then passed by Fuller (S.P.S.C.) and Harris (P.A.C.).

Gilfillan (S.P.S.C.) ran an excellent race and equalled the record in the junior 100 yards hurdles. In the 440 hurdles Elix stumbled at the last hurdle and so lost his chance of gaining a place. In the 880 yards under 16 Medlow (P.A.C.) led in the second lap until Cockburn, sprinting home over the last 120 yards passed him about 15 yards from the tape and went on to win by about two yards and to break the record by $\frac{1}{8}$ sec.

During the afternoon 3 records were broken and one was equalled—all by St. Peter's athletes. Our opponents' superiority was most marked in the field games and distance events.

After the last race, which was the one mile flat, also won by Saints, Mr. Ward introduced His Excellency the Governor who spoke a few words and then presented the certificates to the winners of the events and the challenge cup to Boothby, captain of Saint Peter's team. The final scores were—

Saints 96 points, Princes 34 points.

Our team is indebted to their coach Mr. Foreman and to Messrs. Steele, Davies and Keeves, as well as to several old boys for assistance during the training period.

Tennis Notes

Students' Section

We entered three teams, and did very well, finishing first or equal first in all three sections.

Results

A team equal first with Concordia College, with 22 points.

B team first with 22 points while Norwood High School were second with 18 points.

C team equal first with Rostrevor B.

Dinner

We wish to thank Mr. and Mrs. Huelin for entertaining the team at dinner. Owing to rain, this dinner was held prior to the match, and was followed by a picture party.

Boarders Tournament

About 160 entries were received, and some good play resulted. The only final reached was in the Under 15 Handicap in which Bruce Newman defeated Doug. Pittman 6-2, 6-1. The play will be continued during the 3rd term.

Thanks

We especially wish to thank Mr. E. T. Rowe for helping us during our preparation for the Intercollegiate match. His advice and kind interest were much appreciated. Others to whom we are indebted include Messrs. Cliff Harvey, Les Hill, Don Candy and Dave Rowe.

Under 14 and Under 13

We have some very promising players in these groups, and they all did well in their Saturday morning matches. The strength of these players augurs well for the future.

House Tennis

This was completed this term, and resulted in a good win for School who defeated Cotton in the final in a close match 3 rubbers to 1. The houses finished in the following order—School, Cotton, Waterhouse, Bayly.

It is suggested that some of the weaker houses take these contests more seriously, as it is only by this means that they can hope to improve.

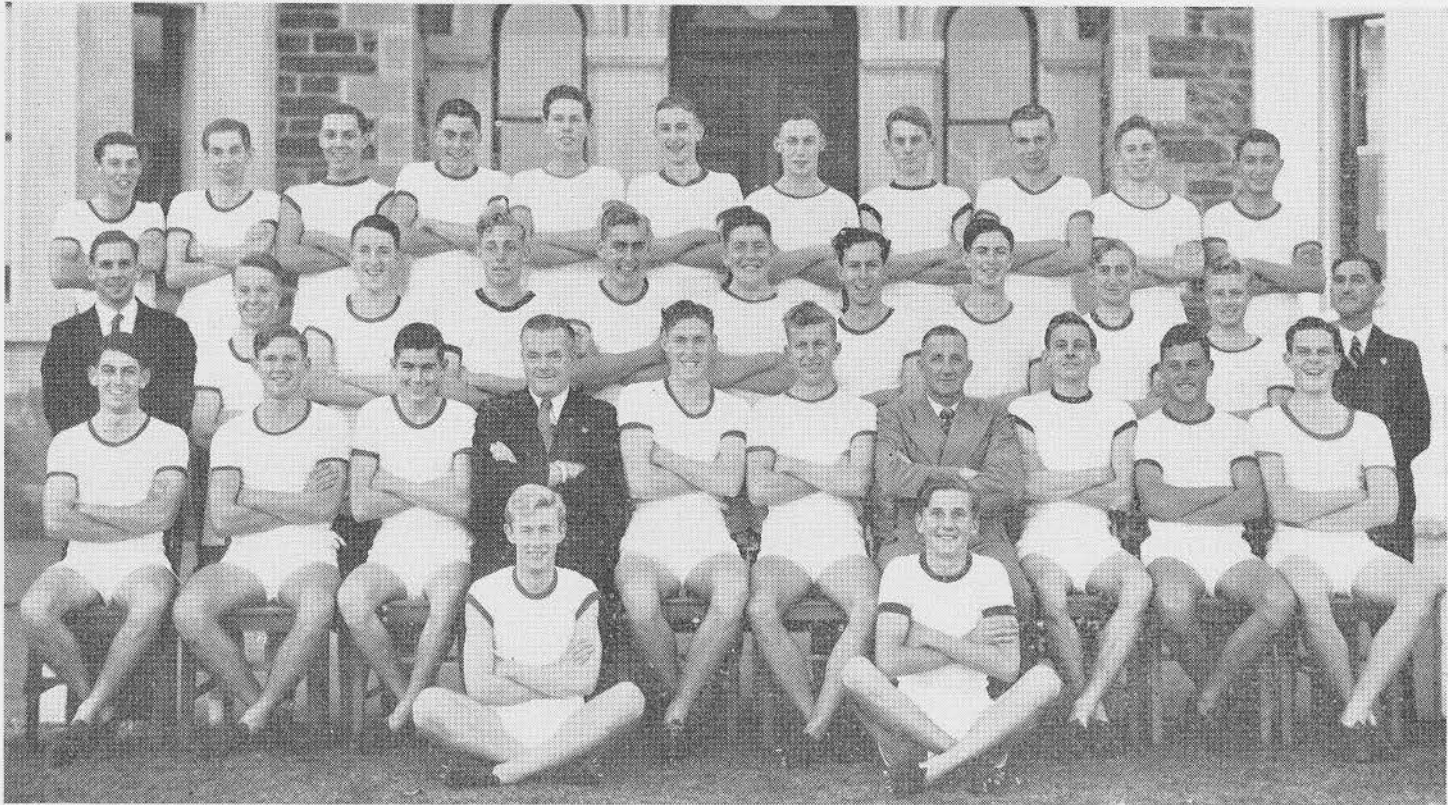

Table of Results of Intercollegiate Athletics 1947

EVENT	FIRST	SECOND	THIRD	TIME OR DISTANCE	RECORD	RECORD HOLDER

Absent: R. W. Bennett

School Sports Day

Under ideal conditions, the School sports were held on the College Oval on the last Saturday of the term, May 3rd.

There was an excellent attendance, parents and friends assembling until the oval was lined on all sides with motor cars and spectators.

Huelin proved outstanding in the field games, winning the high jump, 12 lb. shot putt and broad jump, and though Warnecke ran excellently to win the 100 and 220 yards championships, and G. Ward too, to win the 880 yards and the mile, Huelin succeeded in winning the Senior Cup with 15 points, with Ward 13 points, and Warnecke 12 points second and third respectively.

In the under 16 events, B. Kennewell ran well to win the 100 yards and 220 yards championships, placings in the other events gaining for him cup honours. R. G. Medlow winner of the 440 yards and 880 yards championships was second with 11 points, and J. R. Michell third with 9.

Hobbs and Fricker tied for the under 15 cup with 10 points each. B. Forrest being third with 8 points. The under 14 and under 13 cups were won by D. F. Ellis with 23 points, and A. B. Menzies with 14 points respectively.

This year an interesting innovation was introduced. At 3.20 a parade of athletes marched round the oval led by Elix the Captain of the School who carried the school flag. The boys were grouped according to their houses and each house was led by its house captain. Lt. Col. Geoff Cooper kindly acted as judge of this parade and awarded the honours to Cotton house with School house second. Music for the march was supplied from the amplifier but this was not wholly satisfactory and perhaps a better method can be devised next year.

Actually this was a competitive event and was part of the House Competition. The 880 yards House Relay race, under 16, 440 yards House Relay and under 14, 440 yards House Relay evoked great excitement, the boys of each house urging on their champions with cheers, yells and advice.

A very pleasant afternoon ended with the presentation of cups and trophies. We have to thank Rev. A. D. McCutcheon for attending and distributing the prizes to the successful competitors.

We offer our thanks to all those old boys and friends who so kindly officiated as judges and track stewards, and to the Masters and those boys to whom special tasks were allotted.

We also thank those friends who so generously contributed to the prize fund.

Finally a word of praise for Mr. Johnston on whose shoulders the bulk of the work fell and who was chiefly responsible for the smooth running of the long programme of events.

Results

100 Yards Championships—

Under 14— 1. Ellis; 2. Clarkson; 3. Looker.
11½ secs.

Under 15— 1. Ferris; 2. Forrest; 3. Fricker.
11½ secs.

Under 16— 1. Kennewell; 2. Fricker;
3. Prest. 10½ secs.

Senior— 1. Warnecke; 2. Harris; 3. Zanker.
10½ secs.

The Swimming Sports

Our annual swimming sports were held once again at the Henley Pool on Wednesday, 19th February. Although the sun was shining there was a cold breeze blowing which chilled the swimmers after they had climbed out of the water. This, however, did not cramp the style of Friebe who won three open events. They were the 55 yards backstroke championship, the 55 yards open championship and the under water swim. The certificates for the winners of the events were kindly presented by Mrs. W. L. Davies. These certificates were changed into trophies later on in the term and the headmaster presented them at assembly.

The results of the events were—

Preparatory School Championship 33½ Yards—
D. C. Brown.

Under 13 Championship 33½ Yards—S. W.
Schofield.

Under 14 Championship 55 Yards—L. B. Moss.

Under 15 Championship 55 Yards—A. M.
Barnden.

Under 16 Championship 110 Yards—D. H.
Prest.

Open Championship 55 Yards—J. C. Friebe.

Open Championship 110 Yards—L. K. Burton.

Open Championship 220 Yards—K. B. Manser.

Open Breast-stroke Championship 110 Yards—
K. B. Manser.

Open Back-stroke Championship 55 Yards—
J. C. Friebe.

Open Under water swim—J. C. Friebe.

Open Dive—G. R. Weymouth.

Senior House Relay; Cotton, Waterhouse,
Bayly, School.

Junior House Relay; Cotton, Bayly, Waterhouse,
School.

We congratulate Bayly House on gaining the most points in the house competition.

House Points

Bayly	-	-	53½	pts.
Cotton	-	-	36	"
Waterhouse	-	-	35	"
School	-	-	27½	"

We extend thanks to Mr. Mutton, Mr. Steele and members of the committee for arranging these sports at very short notice.

The Intercollegiate Tennis Team

PRINCE ALFRED COLLEGE CHRONICLE

Back Row: D. C. Young, R. H. Billing, P. C. Cane, J. G. Head
Front Row: K. A. Huelin (Captain), T. G. Luke, Esq., N. B. Effick

Intercollegiate Tennis

After two postponements because of inclement weather the tennis match against S.P.S.C. was held on Wednesday April 2nd. It was a fine day and the courts had rolled out well and played well throughout the day. Our team for the match was ranked, 1. Huelin, 2. Young, 3. Effick, 4. Head, 5. Billing, 6. Cane.

Our first pair Huelin-Cane overwhelmed Saints third pair Klemich-Mallen and lost only 1 game for the rubber.

Young-Effick, our second pair, showed too much courtcraft and tennis sense for Beaven-Bednall. Their accurate lobbing and passing shots always had Saints in trouble and we won the rubber 6-3, 6-1.

In their match against Dowding-Gawler, Head-Billing found the opposition just a little too good. Our pair were slow to settle down and lost the first set 6-2. In the second set Head and Billing played extremely well to take the set 6-1. The third set however went to Saints 6-4 owing to fine work by Dowding.

Driving with consistently good length Head accounted for Bednall 6-1, 6-1. Head was too consistent and steady and made very few errors whereas Bednall appeared a trifle impetuous.

Billing was defeated by Klemich in a match in which at first neither player would take the net but waited patiently for his opponent to make errors. Klemich, however, began to attack and maintaining a steady offensive won 6-3, 6-5 after being down 5-2 in the second set.

Cane began brilliantly against Mallen but Mallen improved his game and then errors at net by Cane enabled Mallen to gain the upper hand and win the rubber 2-6, 6-5, 7-5.

At the end of the morning's play the score stood—

P.A.C. 3 rubbers 8 sets — S.P.S.C. 3 rubbers 6 sets.

In a match which Huelin and Dowding dominated, superior net work and serving enabled us, after losing the first set 6-5, to wear down Saints to win the rubber 5-6, 6-4, 6-0.

Head-Billing, despite desperate attempts by Saints to gain the initiative, defeated Beaven-Bednall 6-1, 6-3.

Young-Effick, continuing their good form of the morning, proved too clever for Klemich-Mallen who tried hard.

The two captains Huelin and Dowding staged an interesting single with Huelin winning in straight sets. Huelin was in top form, smashing well and serving with plenty of venom. Dowding could not cope with the vigorous attack.

Effick played consistently and despite a few slight volleying lapses defeated Beaven in straight sets 6-3, 6-3.

Maintaining his good form Young easily defeated Gawler 6-2, 6-0.

At this stage we had won the match and some of the interest went out of the contest.

Again Huelin-Cane overwhelmed their opponents with their fierce net onslaught and they quickly defeated Beaven-Bednall 6-2, 6-1.

Young-Effick, both of whom had played consistently well throughout defeated Dowding and Gawler. Our pair showed superior tactical knowledge and their accurate placements continually made trouble for Saints.

The match between Head-Billing and Klemich-Mallen was something of an enigma. Our pair had to fight hard to retrieve a 5-2 lead by Saints in the first set and we won the set 6-5. The next set went to Saints 6-1. Head-Billing then seemed to settle down once more and they

EFFICK SERVES

disposed of Saints 6-5, 1-6, 6-0. Head-Billing's play was spasmodic, but they were evidently not concentrating quite so hard and were rather tired.

At the end of the days play we had gained another victory in tennis, the final scores being P.A.C. 12 rubbers 26 sets, S.P.S.C. 3 rubbers 8 sets. Mr. Luke is to be congratulated on the way he has so successfully trained the boys year after year.

SCORES

Singles

- K. A. Huelin defeated A. L. Dowding 6-0, 6-3.
- D. C. Young defeated Gawler 6-2, 6-0.
- N. B. Effick defeated B. W. Beaven 6-3, 6-3.
- J. G. Head defeated D. M. Bednall 6-1, 6-1.
- R. H. Billing lost to M. A. Klemich 3-6, 5-6.
- P. C. Cane lost to A. L. Mallen 6-2, 5-6, 5-7.

Doubles

- Huelin-Cane defeated Klemich-Mallen 6-0, 6-1.
- Young-Effick defeated Beaven-Bednall 6-2, 6-1.
- Head-Billing lost to Dowding-Gawler 2-6, 6-1, 4-6.
- Huelin-Cane defeated Dowding-Gawler 5-6, 6-4, 6-0.

Young-Effick defeated Klemich-Mallen 6-2, 6-5.
 Head-Billing defeated Beaven-Bednall 6-1, 6-3.
 Huelin-Cane defeated Beaven-Bednall 6-2, 6-1.
 Young-Effick defeated Dowding-Gawler 6-3, 6-3.
 Head-Billing defeated Klemich-Mallen 6-5, 1-6, 6-0.
 P.A.C. 12 rubbers 26 sets defeated S.P.S.C. 3 rubbers 8 sets.

CRITIQUE

(by K. Huelin)

Effick, N. B.—Probably the most improved player in the team. Service is fast and well placed, and difficult to return. Forehand and volleys are most effective, but his backhand is inclined to fluctuate. Paired excellently with Young to make our best double in recent Intercollegiate match.

Young, D. C.—A most promising player, having good ball sense, courtcraft and sound judgement. Very consistent and powerful in forehand and volleying. Lacks confidence in his service, but backhand is sound. Won all rubbers in Intercollegiate without losing a set.

Head, J. G.—Youngest member of the team. Ground shots are sound and well placed, while his service is well directed. Smashing and volleying need practice, but he is one of the most promising members of the team. Is to be congratulated on his play during the Intercollegiate.

Billing, R. H.—Left hander with an excellent service. Backhand and forehand are forceful and well placed. Overhead work and volleying can improve, but his courtcraft is good. To perform well in his first Intercollegiate at age of 15 indicates the standard of his tennis.

Cane, P. C.—A much improved player. Forceful on both backhand and forehand. Service uncertain, while volleying lacks confidence. Prefers doubles play, and performed well with Huelin in the Intercollegiate.

(by N. Effick)

Huelin, K. A. (Capt.)—A forceful player with a strong and much improved service. No apparent weakness in either backhand or forehand, but is inclined to be erratic. His net attacks are well judged and purposeful. Inspired his partner and team by an almost flawless display in the Intercollegiate.

Cricket Notes

FIRST ELEVEN

Although we did not win a match this term, the cricket team showed definite promise of moulding into a match-winning combination. Pittman was chosen as captain, but he was forced to miss two matches through a sojourn in hospital and Griggs took over the position.

The first match of the season was against S.P.O.C. who gained an outright win. Our batsmen collapsed rather badly in the first innings except for a hard-hitting 31 not out by Harris. S.P.O.C. then made 260 with our spin bowlers getting most of the wickets. Harley getting 3 for 67 and Griggs 5 for 86. Our second innings saw a slight improvement, Trowse 53 n.o. and Hill 24, making a fighting stand but we were dismissed for 125. Lucy for S.P.O.C. had taken 7 for 31 in the first innings.

In the second match Brighton batted first and two dropped chances in the opening overs proved costly as both batsmen went on to make centuries. Our bowlers could make little impression on Powell's brilliant batting even though Harley was bowling splendidly and eventually took 3 for 67. Brighton declared at 4 for 280 late on the first day. Our opening batsmen batted in a poor light but Brebner and Sharland both went in the last over of the day after dogged batting by our openers. The second day saw our batsmen determined to give nothing away and after Griggs went for 22, Hill and Trowse again made a stand which looked likely to give us a winning chance. However, the dismissal of Trowse for 58 and two bad run outs saw the end of our chances,

and we were all out for 182, Hill having made 30. We had averted the follow on and Brighton played out the remaining time.

Against Woodville, we won the toss and elected to bat on a perfect wicket. Griggs and Sharland put on 77 for the first wicket and after Griggs dismissal for 43, Sharland and Trowse put on 114 for the second wicket, when Sharland was bowled for a sound, hard-hitting 102.

The remaining batsmen particularly Fuller and Tidswell showed good form and after Trowse had gone for 53, his third successive 50, we were all out for 264. Rain caused play to be abandoned on the second day when we had a good chance of forcing a win.

SECOND ELEVEN

This term the Seconds played three matches, winning two.

P.A.C. v. C.B.C.

The second day of this match was lost owing to the tram strike. We declared half an hour before stumps at 9 for 251, Tucker contributing a well made 73. In the time remaining we captured four of their wickets for 25.

P.A.C., 9 for 251 (Tucker 73, Brebner 54, Langdon 31).

C.B.C., 4 for 25 (Cartledge 3/8, Bascomb 1/17).

P.A.C. v. A.H.S.

This match was played on a matting wicket. We batted first for 91. A.H.S. followed with 69 giving us a first innings advantage of 22.

We did a little better in our second innings, declaring with 9 for 102. Thus we won on the first innings.

P.A.C., 91 and 9 for 102 (Brabham 45 not out, Bascomb 24, Prest 21).

A.H.S., 69 and 1 for 43 (Tucker 4/7, Cartledge 5/22 and 1/4).

P.A.C. v. S.P.S.C.

This was made a one day match as the second day was to be the Intercollegiate tennis. We batted first, making 8 for 143, Prest compiling a much needed 49 not out. The match finished in a thrilling climax when their last

batsman was clean bowled in the last over of play with Saints only three runs behind.

P.A.C., 8 for 143 (Prest 49 not out, Hayman 27, Norsworthy 21).

S.P.S.C., 140 (Bascomb 4/22, Cartledge 4/46).

In the three matches played our opponents lost 25 wickets for 277 runs at an average of 11.1 runs per wicket; while we lost 36 wickets for 587 runs at an average of 16.3 runs per wicket.

Cartledge captured 13 wickets at an average of 6.15 and Prest compiled 92 runs (average 30.2).

Rowing Notes

At the beginning of the year the Boatshed Committee was elected, consisting of K. M. Morris (captain) M. P. Tiddy (vice captain), B. K. Giles, R. A. Crawford, J. F. Naughton.

The year's rowing began at Murray Bridge where the usual training camp was held in January. The Eight went down to the camp and the training proved very valuable to them. Many thanks to the Murray Bridge Rowing Club which so kindly made available their shed and boats.

Those chosen to represent the School in the 1947 Eight were—

Burchell, G. R., Bow; Tiddy, M. P., 2; Naughton, J. F., 3; Beauchamp, F. J., 4; McLachlan, D. L., 5; Crawford, R. A., 6; Giles B. K., 7; Morris K. M., Stroke; Short, D. G., Cox.

Many thanks are tendered to Mr. F. J. Frolich, who coached the Eight and to Messrs. J. E. Dixon, J. A. Cooper and D. M. Lavis who trained the junior crews. Owing to their untiring efforts our crews which suffered from the serious handicap of youthfulness and inexperience, gained whole-hearted applause for their plucky efforts and excellent oarsmanship.

The Eights' brilliant rowing and its narrow defeat in the Head of the River race is the more noteworthy in that the average age of the crew was only 16 years. Their performance was a credit to themselves and to their coach Mr. Frolich.

The Committee is very grateful to J. P. Looker, who, forfeiting the joy of supporting the crews with his school-pals, assisted the starters of the Eight and Clinker races by holding the rudders of our boats.

METROPOLITAN ROWING CLUB'S REGATTA

Only the open crew took part in this Regatta and though they rowed well, Cox and his crew were unsuccessful. The experience they gained

proved very valuable, for in the School's Regatta on the following Saturday they were narrowly beaten by the High School crew after a very fiercely contested race.

HEAD OF THE RIVER REGATTA

After a week of threatening weather the Schools Regatta was held on April 19th in brilliant sunshine which drew a large crowd to Torrens lake.

The first race was the under 15. Our crew consisting of—

Tanner, P. R., Bow; Watkins, J. L., 2; Bower, I. D., 3; Smith, D. G., Stroke; Humble, D. S., Cox, rowed determinedly, though unfortunately lacked experience, and lost their heat to A.H.S., whose crew won by a half a length.

The Under 16 crew,

Malcolm, D., Bow; Williams, G. E., 2; Silk, R. K., 3; Harris, R. K., Stroke; Welch, I. O., Cox, rowed an exciting race against Saints. The crews rowed evenly and steadily until Long's Point was reached. Both crews increased their ratings, but Saints went on to win in a final spurt by three quarters of a length.

The Open crew,

Sara, D. F., Bow; Robinson, G. M., 2; Parsons, D. A., 3; Cox, B. R., Stroke; Cooper M. J., Cox., more evenly matched their opponents and rowed well in an exciting race. The lower rating and stronger strokes of High School proved more effective than P.A.C.'s higher rating, and after Long's Point, High School gradually drew ahead to win a hard-fought race by 4 ft.

We congratulate A.H.S. Clinker crew on their victory which regains for them the Wallman Trophy, as they defeated Scotch in the finals. Our crew consisted of

Higgins, I. H., Bow; Bailey, D. W., 2; Crewes, R. S., 3; Burton, L. K., Stroke; Ross,

J. R., Cox. Very soon High School assumed the lead and though P.A.C. crew rowed gallantly, High School steadily drew ahead. At the Willows their lead was $\frac{3}{4}$ of a length and at the bridge, 1 length. Without apparent effort they won by $1\frac{1}{2}$ lengths.

A last minute substitution was made in P.A.C. Old Boys' Eight, M. Solomon replacing K. Stanton in the fourth seat.

Old Boys' Eight—

James, P., Bow; Heitmann, J., 2; Heitmann, L., 3; Solomon, M., 4; Whitehouse, J., 5; Hocking, J., 6; Cooper, J. 7; Phillips, M., Stroke; Sanderson, J., Cox., did not capture the lead from Saints until Long's Point was reached. Both crews had been rowing very well in a keenly fought tussle but P.A.C. crew now drew ahead and won by four feet.

In the finals, however, High School Old Boys shorn of the luxuriant beards in which they had promenaded, gained the victory and the Shannon Trophy, by a canvas. A thrilling struggle.

HEAD OF THE RIVER

Saints Eight is to be congratulated on retaining the title of "Head of the River" for 1947 which they achieved after one of the day's most exciting races.

In their heat of the Eight's race, the main event, P.A.C. crew rowed magnificently, winning by $1\frac{1}{2}$ lengths from Scotch. After a false start our Eight led by a canvas in the first eight strokes. With a vigorous, well-controlled style, officially described as the "cleanest and prettiest in the whole day's rowing" they steadily increased their lead. With perfect co-operation they maintained their higher rating throughout the race, completing the course in 2 mins. 57 secs, which equalled record time.

Our hopes for the final were high, though Saints' Eight had, in their heat, also equalled record time.

In the first three strokes P.A.C. crew gained a 3 foot lead. Emulating the style they had earlier shown, they increased this lead from a half a length at the Willows to $\frac{3}{4}$ of a length at the Morphett St. Bridge. In the turn, however, this lead was reduced to a margin of a third of a length.

Our crew held its own until Long's Point. Both crews were rowing superbly, with exceptionally clean blade-work. In an intensely exciting finish Saints gained the upper hand, and amidst wild cheers (and groans of dismay) they won by $\frac{1}{2}$ length.

Their time, 2 min. 56 secs., created a new record, and we congratulate Saints' Eight on a magnificent performance.

CRITIQUE

K. M. Morris, (Stroke). The best oar in the crew, very powerful; his best seat should be the 6 seat in a really good combination.

B. K. Giles (7). Rowed well together with stroke, his timing is perfect; with more weight behind his oar will make a fine oarsman.

R. A. Crawford (6). Rows very conscientiously; is reliable in the boat; has to learn to relax more.

D. J. McLachlan (5). Is a good smooth oar with plenty of spirit; should learn to use his weight to better advantage.

F. T. Beauchamp (4). Strong oarsman who needs more experience; inclined to row short.

J. F. Naughton (3). One of the strongest boys in the crew; lacks the ability to concentrate, has to learn to relax.

M. P. Tiddy (2). Is another very conscientious oarsman; is lacking power in his catch.

G. R. Burchell (bow). Excellent oarsman with the most promising future when he will have more weight behind his oar.

D. G. Short (cox). Steered a very good course in the race; a willing cox who will be even better as time marches on.

"LE CHEVAL"

The Eight, 1947

D. G. Short (cox), K. M. Morris (stroke), B. K. Giles (7), R. A. Crawford (6), D. J. McLachlan (5),
F. J. Beauchamp (4), J. F. Naughton (3), M. P. Tiddy (2), G. R. Burchell (bow)

AN UNFINISHED ODE TO DAY DREAMING

Now, boys, let me see your sum,
Nunc pueri mihi operum
Oh! Mum!
I should have finished
And diminished
My CAESAR—(b)
Section (iii)
Paragraph Seven
Line eleven.
But me do work?
That's what I shirk.
Meme bonbons acidule—gulp!—I mean acidules
Why, that's what I have when I'm hungry!

The lesson drones on and on and on,
Time is flying and life is gone;
The Pearly Gates have come in sight
And at my fingers I take a bite.
But it's too late.
The Judgment Day has arrived.
"My boy", the words ring out loudly,
"Why haven't you done your homework sound,
ly?"
"Me? homework? No, I never do that".
"Then why write this poemette?"
Well, there you are

K. G., Vu A

PRACTICAL JOKES

"There is a time and place for everything" is a common phrase, but some people play jokes whenever the opportunity arises.

It was a standard joke to put a tack upon the master's chair and raise him to the roof, but now it is time for more scientific jokes. By attaching a shocking coil to the master's chair or spraying laughing gas round the room you will be delighted to find that it is quite impossible to read about the death of Caesar or Cicero's fervid orations with the gravity proper to such occasions.

When you are being attacked by an irate master for not having done your Latin homework, you can, as a last resort, use sneezing powder. This is most effective and in the ensuing confusion you can copy from the boy across the aisle, if you yourself are not too much affected.

If you are a person like myself, you will find mathematics very hard. The best way to create a diversion and have an easy time is to place a time-clocked smoke-bomb in the master's table-drawer or cupboard. Just as the master is about to set some trigonometrical equations or problems on Apollonius' theorem, a dull roar interrupts him and black smoke blots out the horrible sight.

If you don't mind shedding tears some tear-gas bombs may be used instead as these are even more effective.

During a practical chemistry period, and unnoticed by the master, you may be lucky enough

to mix up a stink-box so powerful that it drives everyone from the lab, which cannot be entered for the rest of the day.

You may like to try another highly diverting trick, but as a caution let me add that, for safety's sake, it should be played at the end of the term. The trick is quite simple and consists of sticking a rotten kipper in a fold of the master's gown. The result is very shattering to his ego, until his best friend tells him, when its shattering effect is liable to spread much further.

Unfortunately I am unable to supply formulas for the smoke and stink-bombs, but in your experiments you may discover one. (By the way pepper makes a good substitute for sneezing powder if you are unable to obtain the real stuff).

If you can escape punishment you're either very lucky or a terrible liar, but it may be fun to try some of these.

THE LAWS OF CRICKET

The game shall be between two sides
Of six-or less-or more;
You don't count no-balls, byes, or wides,
And each man keeps his score.

The Umpire, next man in of course—
Must be prepared to shout,
And always take the bat by force
If batsmen won't go out.

The over is as short or long
As it may be required,
The bowler often going strong
Until his arm is tired.

The batsman starts when he succeeds
In collaring the bat;
To get him out one only needs
A voice to shout, "How's zat?"

A-FISHING

I thought I'd go a-fishing,
A-fishing by the sea,
To catch a lot of whiting,
That we could fry for tea.

I took a brand new fishing rod,
I took a tin of bait,
I even took some luncheon,
In case I had to wait.

I fished and fished till it was dark,
An optimist was I,
In spite of all my casting out,
The fish went swimming by.

Alas by brand new fishing rod,
Alas my shining reel,
The only fish I caught that day,
Was a boot without a heel.

B. H. R., VI A

LARRIUS REX

INTRODUCTION

"King Lear" is not Shakespeare's best work chiefly because he was copying a Latin version of it known as "Larrius Rex". Here is a free (very free) translation of the original pre-Caesar Latin.

Prologue— Spirit of Progress speaks.

Spirit of Progress— In previous instalments we have seen

- (1) Lear has divided his kingdom between his bad daughters—Goneril and Regan.
- (2) Lear has banished his good daughter—Cordelia.
- (3) Edmund (Gloster's son) has persuaded Gloster (his father) to banish Edgar (Gloster's son, his half brother).

all of which lead to a MESS.

ACT I—

Scene 1—A room in Goneril's palace. Enter Goneril and Lear.

G. "Oh, now I've had you, pop. You can just get out."

L. "I am cut to the quick. I will go to your sister Regan." (Flourish).

EXEUNT

Scene 2—Anywhere. Enter Lear and Edgar.

L. "This is just to show I'm not mad yet".

E. "No, but I am. Ho! Ho! Ho!"

EXEUNT (to sounds of mad laughter)

Scene 3—A room in Regan's palace. Enter Regan and Lear.

R. "If Gonny doesn't want you, I don't. So there—git!"

L. "Nobody loves me. You have driven me into the storm. I go, farewell!"

EXEUNT to the sound of thunder, wind, rain.

Scene 4—A room in Gloster's palace. Enter Goneril and Regan.

G. "Now let's kill Lear."

R. "Um.—let's bump him off."

Enter Gloster.

Glost. "Oh, I say, I heard that, you know. What, what?"

G. "A spy! Kill him!"

R. "Pluck his eyes out, slay him, Grind him in the dust."

EXEUNT to sound of fighting.

END OF ACT I

ACT II—

Scene 1—Another room in Gloster's palace. Enter Goneril and Regan.

G. "Well, we've fixed Gloster—now all I want is Edmund".

R. "But I want Edmund".

G. "No, I do".

R. "No, I do and you can't have him". (Strangles Goneril).

G. (dying). "Well, you won't have him". (Shoots Regan).

Enter Edmund.

E. "Eh, I say, they're dead. Whoopee!"

Enter Edgar.

Edg. "And so are you". (Nasty laugh). (Shoots Edmund).

Exit Edgar.

Scene 2—Still another room in Gloster's palace. Enter Lear (natty as a fruit-cake) Enter Cordelia (separately).

L. "Cordy, darling!"

Grabs her and hugs her.

C. "My ribs!"

Dies.

L. "I've killed her!"

Dies.

Enter Edgar.

E. "They're dead. Looks as if I'm the only one left." Enter shade of Shakespeare.

S. "That's what you think."

Draws gun and kills first Edgar and then himself. Removal of corpses.

Epilogue—Spirit of Regress speaks.

Spirit of Regress. "Well, that's what it said".

Draws a gun and shoots himself.

THE END

LIMERICKS

Now a cox whom we all know as "Shorty",
In his row-togs looks handsome and sporty,
In their ribbons and lace
The girls watched him race,
Were there 10, 20, 30 or 40?

C. S., Vu A

There was a young man from Gibraltar
Who thought his bad ways he must alter,
But he tried this in vain
For it gave him a pain
So now he's in gaol mixing mortar.

P. D., Vu A

FARM LIFE

Farm-life for a bright young lad
Is hard work and lots of fun.
But the poor old farmer's hand,
He's glad when the day is done.

The farmer too has lots of work
To try his skill and muscle,
But he can reap the benefits
After years of strenuous tussle.

But if to town they were asked one day,
To live in comfort where all was gay,
They would shake their heads and proudly say,
"Give me the country any-day!"

P. D., Vu A

PIGEONS

The pigeon is a very remarkable bird. An ordinary bird drinks by filling up its beak and then tilting the head backwards, allowing the water to run down its throat, but the pigeon, which belongs to the same family as the dove, drinks by suction, that is, it drinks like a horse. The most amazing characteristic of the pigeon is its homing sense. No one has been able to account satisfactorily for this sixth sense. The migratory birds possess it, but not to the extent the pigeon does. Some people say that it finds its way home by sight and by memory of certain landmarks, but this is not true, as a reasonably good homer, if taken one hundred miles away in a covered box, will return to its loft in a matter of hours.

One American pigeon on a training flight somehow managed to fall into a patch of oil, and the feathers were so impregnated with oil that it was unable to fly. The next day, when the owner was walking down the street not far from the loft, he espied the pigeon walking home.

Another pigeon fancier in New York sold one bird to a man in Venezuela. Several months later it escaped and returned 3,000 miles to its original owner in New York. Perhaps the longest flight known is the 7,200 mile journey made by a homer from Arras in France to its home in Saigon, Indo-China.

Given a fair tail wind, racing pigeons often acquire a speed of more than 70 miles an hour, but against a very strong head wind they might fly only at about thirty. At an airport, six pigeons were released at the same time as an aeroplane took off. The machine averaged about 110 miles an hour, but the pigeons arrived at their home before the aeroplane did. Sometimes, on a windy day, one might see a flock of pigeons flying practically at ground level or along a sheltered rise in the ground. This might seem strange, but they would merely be avoiding head winds.

The principal enemies of pigeons are falcons, hawks, eagles and kites. Generally the pigeon manages to escape by using speed and evasive tactics, but quite often one arrives at its loft with its crop torn open or a leg missing.

If permitted pigeons breed all the year round, but the hens and cocks should be separated except between September and January. Two white eggs are always laid, one about 40 hours after the other. Both birds take turns at keeping the eggs warm, the cock during the day and the hen in the night. After about 17 days the eggs hatch, and the young are covered with yellow, hair-like down, which is replaced by feathers about seven days after hatching. Both parents feed the young by regurgitation of a substance known as pigeon milk.

When about four weeks old, the pigeon is able to fly short distances, and at twelve months old, it is able to fly 100 miles. However, a very promising youngster can fly up to 500 miles. As the age increases, it is able to fly up to 1,000 miles, and usually can make long distance flights until about six years old.

Through the ages, man has bred many queer birds known as fancy pigeons; the pouter is the queerest of all. When excited, it fills its chest with air, swelling to an enormous size. It has a long, thin body, and long, feathery legs, thus giving it a rather ungainly appearance. The fantail has a tail very much out of proportion to its body and it struts about its cage with the head bent far over its back, colliding with every object in its path. The tumbler flies up very high in the sky, and then turns backward somersaults as it plummets down to earth, often striking the ground and killing itself. A good jacobin has long feathers growing upwards from its neck, forming a hood over the head, so that it is hardly able to see.

Pigeons are very quarrelsome, often fighting for no apparent reason, but when the ownership of a nest or perch is disputed, the fight is on full pressure. They peck at one another's eyes, and deal painful blows with their powerful wings. This goes on for hours until one pigeon is almost killed, or the owner shifts one to another cage. Many people have felt the weight of a pigeon's wing or received several vicious pecks on intruding into a nest.

During the war, the American Army owned and trained about 54,000 homers, of which about 36,000 were sent abroad for active duty. One pigeon called G. I. Joe is officially credited with saving over 1,000 Allied soldiers in Italy. The soldiers had just occupied a certain town, when the Air Force, not knowing this, were sent out to bomb the town. The pigeon was released by the soldiers and it travelled the twenty odd miles in as many minutes, and the bombers were called off just in time.

Another pigeon in the Solomon Islands was released by a number of soldiers who had been surrounded by the Japanese. He was shot several times while in the air, and fell to the ground. The message should have taken 20 minutes, but five hours later the bird, split down the middle and covered with blood, arrived at its loft, and relief was immediately sent to the hard-pressed soldiers.

A blue-checker pigeon in Morocco flew 90 miles to deliver a message, and arrived safely after having been shot twice through the crop and once through the wing.

Several birds have recently been decorated with the Dickin medal, the equivalent of the Victoria Cross for soldiers, for valuable work in action. Thus pigeons, usually unimportant, did their bit in helping to win the last war.

B. T., VIA

MORNING

I love the early morning,
The new grey light of dawn,
To hear the magpies warbling
In their nests so safe and warm

To hear the creek hurrying
Down the hillside steep,
And the bull-frogs croaking
In the marshy pools so deep.

J. L. W., L.V.D

END OF TERM MEDLEY

Tonight is the lucky night, as we in VIA have been given a chance to show our talents in writing contributions for the school magazine. Consequently for the past two hours I have been laboriously thinking of subjects on which to write poetry, and although fortune sometimes favours me for the first verse on some particular subject, I rarely get further. I stare round this room with the end of my pencil in my mouth, and see my lucky brother doing his mathematics. How lucky he is! I wish that our maths. master had set more home-work and then I would not have time for this. (We never get enough maths.)

Early in the night I was inspired by the idea of describing a week of the Christmas holidays in verse form. This is as far as I got.

"On New Year's Day we pitched our tents,
The sea not far away,
And oh! we thought we'd have great fun,
Whatever the folks did say".

It sounds brim full of possibilities, but . . . I am now compelled to think along different lines and for the next few minutes I ponder until suddenly a thought strikes me. The Chem. lab. We have had many enjoyable periods down there; surely I could compose something, I begin—but that's all. After thinking in vain for a word to rhyme with demonstrations, I peter out. However, the first two lines of my "Ode to the Chem. Lab," run this way.

"Two days a week we humbly sit,
Watching the demonstrations".

With a bit of luck I may have this effort finished for the next Chronicle, but as my rate of work is something like Dr. Strong's in Charles Dickens' "David Copperfield," it is highly improbable that the readers will ever have the pleasure of reading it.

I start again. A few lines on "The Head of the River" make no sense whatsoever, and after trying to write poems on such hopeless subjects as "The Peach," "Pigeons" and "My Room," I finally give up in disgust. As I sit with my head in my hands thinking of the English master who will half kill me for not attempting a contribution, I am suddenly struck by an idea. As a consequence I write this essay and hope for the best.

D. H. P. VIA

TODAY

It's today that I am living,
Not a month ago;
Having, losing, taking, giving,
As time wills it so.
Yesterday a cloud of sorrow
Fell across the way,
It may rain again tomorrow
It may rain—but stay,
It's fine enough today.

B. G. W., VIA

SCHOOL

The master roared, the boys were bored,
He tried to make them work.
He told them all about his Ford,
They bore it with a smirk.

The bell had rung and wagging tongue
Now ceased its idle chatter.
The master's praise was loudly sung,
The boys had learnt a smatter.

And when at last exams were passed
The pupils were content
Because they had withstood the blast,
So homeward bound they went.

M. P. T., VIC

REFLECTIONS

When I am clear of worldly things
And to realms of fancy fly,
I ponder there a while, as kings
High throned in that sky.

To wonder at this endless life
This foolish game of people
So care-free, yet so full of strife,
A boy upon a steeple.

Then, down again to earth I come
To view at saner levels
Men's hopes and fears, the race well run,
Their worries and their revels.

R. S. C.

THE ZINC CORPORATION MINE
BROKEN HILL

The Zinc Corporation Mine is the largest in Broken Hill, and probably one of the most modern in the world.

The main entrance to the mine is very picturesque, with a large oval on one side, and on the other are lawns between which run tree-lined drives. At the back, and on one side of the mine is a plantation which contains many thousands of trees.

Some of the equipment used is made in the workshops at the mine. The ball bearings for the ore crushing rollers are all made at the mine, because the tremendous friction involved requires their replacement every few days.

The most amazing part of the mine equipment is the machinery which hoists up the "cages" or lifts from the different levels underground. There are two of these machines and they can be worked automatically or by hand. The instruments in the control-room are so perfect that the operator can stop the "cage" at any level to within a fraction of an inch of the corresponding floor, although the "cage" may be 1200 feet below him.

The zinc mine is the largest producer of zinc, lead and silver in Australia. Huge quantities of these metals are exported, mainly to England and America after Australia's requirements have been filled.

Any visitor to Broken Hill should not miss the opportunity of inspecting this mine.

B. G., VLD

MATHEMATICS

Hour upon hour do I strive
 With multiplication and division,
 Always contending in battle
 With rigorous precision.
 But leaving elementary maths,
 Trigonometry is far worse,
 For after an ordinary problem
 I invariably need a nurse.
 And when, bewildered and with fluttering
 thought,
 I turn the pages of my Latin book,
 Wondering if ever learned Cicero
 Such a subject as maths took,
 I integrate the first sentence
 And try to rationalize the words
 But, thank heaven! they are rational
 For Cicero know no surds.
 But in the mind
 Fiercely rages the conflict;
 First Latin, then maths succeeds,
 But so strong is maths' pervading influence
 That the Latin's accuracy quickly recedes,
 And the translation of the Cicero unseen
 Astonishes the master when he reads
 The pigeon-Latin with mistakes thirteen.
 The Latin master perceives the whole class
 Their homework thus have executed,
 But he, a humane man, understands
 And wishes Pythagoras electrocuted.
 My English too, has become affected,
 And the essays seem irrational,
 The master marks out quadratic expressions
 Which to him seem imaginary and unnatural.
 C. J. S., VIA

THE SOUTH-EAST

Recently I visited a large holding near Millicent. It consisted of about two thousand acres of slightly undulating land, heavily timbered in parts. The country is in the process of being cleared and prepared for grazing lands. Several hundred acres had already been cleared and were being worked down for grazing. The ground has to be ploughed many times before it can be used. When ready the soil is generally well fertilized and grasses are sown. By this means, country previously carrying but one sheep to three acres, now grazes three sheep to one acre.

Land is being rapidly cleared with powerful machinery and thousands of acres are opened up every year. After careful draining the country becomes heavily productive grass-land. With a few exceptions the South-East is only suitable for grazing, the climate being too cool and wet for cereal crops.

Although the winter is very wet and cold, summer temperatures are as high as those in northern districts of South Australia. Water is, however, no problem in summer as there are many wells and bores to supply the stock.

There is a great deal of natural animal life in the South-East, especially in the more thickly-timbered parts. Of the pests, rabbits and emus are the most serious. Both fur and feather abound in this sportsman's paradise, and

if he is lucky, he may get a shot at some deer. There are quite a number of these creatures in the South-East, and the owner of the holding I mentioned has seen bands of them at various times. He has several pairs of antlers he has found.

As yet the roads are not very good, and except for the main roads which are bitumenised, they are mainly white-metal tracks, rather rough to travel on, but fairly well kept and graded. The few bitumen roads are excellent and it is very pleasant to drive along the road to Mount Gambier and to pass through the Pine Forests near Millicent and Mount Burr. It is amazing to see the number of saw-mills by the side of the road with large "hills" of sawdust near them. This is the most important industry in the South-East at present.

It is evident that the South-East has a great future. Its needs and possibilities are only now being fully realized and appreciated. The government is clearing large tracts for the fulfilment of a scheme for closer settlement of the district. It also plans to build a deep sea-harbour at Robe and complete the draining of this rich but neglected corner of the state.

L. T. O., VIA

GLORIOUS RAIN

The thunder pealed,
 The lightning flashed,
 The sky was clouded o'er.
 The slashing rain in torrents came
 And off went our front door.

Another peal;
 Another flash,
 Our tree was split in twain.
 The only peach it ever had,
 Was ruined by the rain.

So here's to the rain,
 The bringer of wealth.
 Fill up your glasses
 And drink to its health.
 But remember full well,
 Ne'er trust it, 'tis wet,
 Cos you might end up
 With a cold in the head.

A. B. M., Vu A

THE OLD MILL

It seems but yesterday that I stood on the bank of the old mill stream. The breeze was soft and cool upon my cheeks as I watched the sun, now a crimson ball of fire, sinking behind the distant blue hills. The coloured water, the green grass, the rose tinted clouds, together with the dark green hawthorn bushes pricked out with red berries held me entranced, whilst the old mill waved its mighty arms aloft as if praising the beauty of Nature. Although the vision soon fades, I am left with something that will inspire me for many days to come.

J. G. F., VIB

A TREATISE ON LUNAR EXPEDITIONS

In commencing this noble work I must correct the vulgar illusion that the object of a lunar expedition is to reach the moon. As a learned (and slightly inebriated) savant remarked, "the essential object of a lunar expedition is the lessening of the distance between the moon and oneself until the aforesaid distance is zero, and furthermore, the study of existent and non-existent phenomena with (or possibly without) regard to the satellite body revolving around the earth and termed, in common parlance, the "moon". Although he did not say so, the savant might have added that, having attained zero distance from the surface of the lunar body, it is rather a good idea to be able to return to within zero distance from the earth's surface.

Before commencing a lunar expedition it is a good thing to set up a laboratory. This should contain all manner of scientific apparatus, e.g., microscopes, telescopes, gyroscopes, milligrams, telegrams and parallelograms, not forgetting voltmeters and water-meters. Here the rocket-ship (for specifications see "Buck Rogers" or "Atomphysiksience" by Professors Einstein and Frankenstein) must be built. It should have as many electrical gadgets and scientific devices as possible, but need not necessarily be able to move under its own power.

Everything ready, a suitable day must be chosen for the start of the expedition—the Ides of March or a Friday 13th, not April 1st. The

press, photographers and autograph hunters are now called in and at the assigned time everything goes off with a bang (possibly including the rockets).

The usual procedure is for the mighty rocket-ship (a converted tiger-moth) to steer directly towards Mars, and then, of course, it will hit the moon.

For the benefit of any moonstruck people who may happen to read this treatise, the next point of discussion will be the rocket-ship's impact with the moon. Several things might result from the shock:—

- (a) The moon might be knocked out of its orbit.
- (b) Such heat might be evolved that the moon would melt.
- (c) The rocket-ship might be smashed.
- (d) Nothing might happen at all.

Assuming that (d) was the result (the writer is an incurable optimist or eye-specialist) the scientist should emerge from his ship, set up all his gadgets and work them furiously for some hours. He should send radar messages to the earth. Then having achieved his goal, and now being the aforesaid zero distance from the lunar body, he would most certainly discover that he had exhausted his rocket fuel. Then let us leave him, so happy in being on the earth's bright satellite that the inevitable result would be that (to employ a colloquialism) he would go "moony".

I. N. B., VIA

Preparatory School Notes

Once again we have started the year with a full complement of scholars. We hope that all new boys have by now settled down to our ways and that they are happy with us.

We wish to welcome to the staff, Mrs. Hurnell and Miss Gryst, who are looking after the welfare of the little boys in IB and C. We hope too, that they are happy with us.

Early in the term we were visited in assembly by Mr. Roy Collison, an Old Boy, who was a member of the 1911 Conigreve Expedition which set out to explore an unknown part of north-western Western Australia.

On 1st May, Rev. W. F. Hambly conducted morning prayers. To illustrate his text, "Greater love hath no man than he lay down his life for his friend," he told the story of a friend of his, the Rev. Owen McCutcheon, who, as a missionary in India, gave his life for the poverty-stricken natives amongst whom his work lay. It was the story of an ordinary man, who by his sincerity, his love and his utter selflessness won the affection of the Indians.

We have to congratulate D. C. Brown on winning the Preparatory School Championship and G. Weymouth on winning the Open Dive at the School Swimming Sports.

HOUSE COMPETITION

In the competition for the Welch Cup rivalry is keen. The slight advantage gained by Chapple at sport has been offset by Robertson's superiority in school work and examinations.

Points for the Cup—

	Chapple	Robertson
Cricket - - - -	6	3
Athletics - - - -	9	9
Gymnasium - - - -	2	4
School Work - - - -	7	8
Examinations - - - -	7	8
Totals - - - - -	31	32

CHARITIES

Weekly collections, this term, have totalled £37/5/0. This total was divided between the Food for Britain Fund, the Seamen's Mission and the Children's Hospital.

"LEARN TO SWIM" CAMPAIGN

Forty-five boys took advantage of "The Advertiser" "Learn to Swim" Campaign. Of these, 23 were awarded certificates to prove that they could swim the minimum distance of ten yards.

SCHOOL CONCERT

This year the Prep. Concert will be held in the second term instead of the third as formerly.

Rehearsals have begun. Mrs. Anderson has managed to get almost all of the senior boys into her plays because a number expressed their disappointment when they thought they were to be omitted.

Mr. May has been rehearsing his singing groups for some time, and already the first and second parts have started to work amicably together.

UNDER 13 "B" CRICKET

With the exception of the match against Ros-trevor "B," in which the Prep. team compiled 161 runs and won by 120 runs, all games were characterized by exciting finishes.

The match against a scratch side from Senior School was won, 67 to 58; the match against C.B.C. "B" was won in the last over with some spirited hitting by Beck and McTaggart, 81 to 67; and the match against U.H.S. "B" resulted in a win, 113 to 100. In the fifth game three successive fours from the dour McTaggart forced a draw with S.P.S.C. "B," 95 each, and in the final game against Queen's, we lost on the second last ball of the day when two byes gave the victory to Queen's.

Hall, with an aggregate of 115 runs and an average of 23, was our most successful bat, while Beck with 18 wickets was the most successful bowler.

Bowling and Batting Averages

Batting—

	Runs	Innings	Averages
Hall	115	5	23
Sumner	69	4	16.75
Beck	62	4	15.5
Tregilgas	88	6	14.7
Babidge	76	6	12.7
McTaggart	33	3	11

Bowling—

	Runs	Wickets	Average
Hambly, F.	19	6	3.2
McTaggart	31	9	3.4
Beck	102	18	5.7
Hall	35	4	8.75
Clarkson	85	7	12.1

On the first Saturday of April an under 12 team played against St. Peter's under 12 side. The Prep. side was made up by boys who had not represented the School before, and most of them were overwhelmed by the occasion. St. Peter's won comfortably.

HOUSE MATCHES

Chapple confounded the critics by winning both the First and Second House matches. In the Senior game Chapple, through a hard-hitting partnership by Babidge 74, and Weymouth 31, amassed a total of 128 for 5 wickets, to which Robertson replied with 114 for 9 wkts. (Hall 37, Brown 16). Weymouth completed a good double with 4 wickets for 33.

In the Junior game, Chapple 134 (Atkinson 24, Michie 32, Fielder 19, Pearlman 18, Gibbs, R. 3 wickets for 45) defeated Robertson 112, (Dingle 28, Renk 22, Macey 18, Burfield 3 wkts. for 27).

ATHLETIC SPORTS

This year a break was made with tradition by holding the Prep. Sports in the first term and on the Front Oval. The programme was also changed to include House Relays in place of several of the handicap events. In addition to add colour to the meeting, all boys placed in Houses wore their House colours.

The smooth running of the meeting was considerably hindered by the overeagerness of the spectators who flocked on the ground, making the jobs of the starters and judges more difficult than it need be.

G. C. Marshall again excelled by winning the Preparatory School Open Championship for his wins in the Open Hundred and Hundred and Fifty Yards Championships and also the Under 13 100 yards Championship.

A fitting conclusion to the House Competition was a tie between the two houses, 61 points each.

We wish to thank Mrs. R. C. Hall, who presented the prizes to the successful competitors, the fathers, who acted as officials, Mr. N. I. Gryst, who again provided prizes for all entrants in the Under 7 race, and Mr. W. O. Menz, who supplied the prizes for the Little Brothers' and Sisters' races.

Original Contributions

(PREPARATORY SCHOOL)

MY ISLAND

The waters of Encounter Bay,
So calm, so bright, so blue,
Are gleaming on a sunny day:
They have a lovely hue.

And rising like a tiny guard
Out from the monstrous sea,
An island stands so fast, so hard,
A lovely sight to me.

R. B. S., III A

THE RAIN

Little drops of rain are falling
And they make a little pool.
"Four bob, Four bob", frogs are calling,
Frogs are splashing in the cool.

R. D., II B

THE BUTCHER

The butcher's shop is open wide
And everyone can see inside;
He stands behind the rows of meat
And gazes out into the street.

J. K. G. O., II B

THE RAIN

Little drops of rain are falling,
Refreshing all the flowers.
All the birds have stopped their singing
Waiting for the sunshine hours.

B. A. McK., II B

FAIRIES

I saw a ring of toadstools
Where I think some fairies danced,
The toadstools were by seven pools,
I saw this when that way I glanced.

D. K. D., II B

THE RAIN

Little drops of rain are falling,
As I lie tucked in bed,
And every time the thunder roars,
I cover up my head.

G. C. P., II B

THE POPLAR TREES

The poplar trees are faded now
And soon the leaves will fall
To make a carpet on the ground
And build up quite a wall.

BIRDS

Birds in the evening fly to their nests
To tend and feed their young
Then they settle down to rest
Till they see the morning sun.

THE SEASONS

In the year we find the seasons,
Summer, Autumn, Winter, Spring;
Each has its fun worth looking for—
But in the summer birds will sing.

They sing with voices sweet and clear;
Sweet music fills the day.
Friends answer from the treetops near,
Before they leave and fly away.

I. R. D., III A

RAIN DROPS

Little drops of rain are falling
Down by the stream
And you hear the children calling
Oh! its all a dream.

R. W. G., II B

RAIN

Little drops of rain are falling,
Down, down, down.
Some fall in the country
And some fall in the town.

D. F. W., II B

A BLACK BIRD

I saw a little black bird
Sitting on a tree,
Although I gaily spoke to him,
He would not talk to me.

G. B., II A

MY RABBIT

I had a little rabbit
With big furry ears,
But when he ran away
I burst into tears.

G. B., II A

THE RAIN

The drops of rain are falling down
Gently from the sky,
And they fell on Baby's gown
Which took a long time to dry.

W. A. McE., II B

A pirate bold and brave am I
With a crew of savage knaves.
We live beneath the wide blue sky,
And we rule the ocean waves.

A. J. C. H., II B

THE BIRDS

Birds in the evening fly to their nests,
Away up in the trees.
There they stop for food and rest,
And sing because they're free.

R. G., II B

LIMERICKS

There was a young lady named Brewer,
Who was riding a horse when it threw her.
A butcher passed by,
And said, "Do not cry,
I'll fasten you on with a skewer.

R. H. D., III A

There was an old Scotchman, McNab,
At talking McNab was a dab.
He kept on with chatter,
And long drawn out patter
And bored his relations with blab.

B. W. S., III A

There was an old man in a Nash,
Who thought he was all very flash,
His name was D. Queale,
And he let out a squeal,
When his Nash got a bash in a crash.

D. L. L., III A

There was an old seadog called Drake,
Who Spain's richest treasures did take.
He took them at pleasure
And spent them at leisure,
That crafty old seadog called Drake.

R. B. S., III A

There once was a seaman called Drake
Who said, "What is Spain's, I will take".
Her galleons he plundered,
And never once blundered,
Though always his life was at stake.

W. J. N., III A

There was a young fellow of York,
Whose favourite savoury was pork.
He became very ill,
And remained that way till
He altered his diet to chalk.

D. B. McE, III A

There is an old fellow called Pepys,
The lowest of low things, who crepys
With wide open ears,
And records what he hears
In a scurrilous diary he kepys.

III A

INDECISION

I've sixpence and some coupons for a quarter
of a pound,
And I'm staring in the sweetshop till my head
goes round and round.

I've been standing here for hours, and I
haven't been inside

To buy chocolates—or toffees—for I really
can't decide!

Or there's liquorice or fruit drops or barley
sugar lumps,

Or chocolates with cream or fruit, all stuck with
nutty bumps,

Or toffees that are soft or hard—the crunchy,
crackly kind—

Oh, they're simply all my favourites, and I
can't make up my mind.

C. S., III B

LOST IN THE WOODS

A man walked through the silent wood,
His clothes were few and torn,
His legs were scratched and red with blood,
His face was so forlorn.

The moon shone in the eastern sky,
The clouds crept over head;
The ghostly trees went slowly by,
He thought of friends in bed.

But all at once his heart grew gay,
His eyes grew large and bright,
For just in front of him there was
A window's cheering light.

A. R. McT., III A

FLIGHT

The aeroplane is a man-made bird
It carries one well at a height,
Though many a man has often heard
Of some that fail to go right.

The parachute is the next supporter,
When the pilot comes to strife
It enables him to avoid hot water,
And gives him a chance for life.

If both of these should happen to fail,
And the pilot is dropping fast.
I'm sure that he'll have reason to quail.
For this ride is surely his last.

J. G. P., III A

THE EXAMS.

Oh dear! Oh dear! Oh dear!
The exams. are drawing near.
I'll have to swot
And swot and swot
Though personally, I think it's rot.

Oh my! Oh my! Oh my
The exams. have just gone by.
I think and think,
But wrote down bunk,
And now I fear that I'll be sunk.

P. S. P., III A

AUTUMN

In autumn when the days are short,
The cold frost lies upon the ground;
It is so cold when we awake,
It makes us run around.

In autumn when the leaves are shed
They fall among the knotted roots.
Around the lovely wildflowers bloom,
And ripen many fruits.

J. P. R., III A

SUNSET

The sun was sinking in the west,
The clouds were pink and yellow.
The sea beneath was very calm
And everything was mellow.

III A

AUTUMN

Autumn days have come around,
Deciduous trees their leaves have shed,
Upon the frosty ground they lie,
Gold-brown, and russet red.

The birds have ceased to sing their songs,
To warmer countries now they go,
Except the robin all forlorn,
Whose red breast gleams amid the snow.

Night breathes her frosty breath,
To leave a carpet white,
Which sparkles 'neath the silver moon,
All through the Autumn night.

G. M., III B

THE LEAVES

The leaves are descending
From trees big and small.
And as they look down
To the earth big and brown,
They shiver and say
"It's a long way to fall".

F. S. H., III A

WISHES

I wish I had an aeroplane
To fly up in the sky;
I wish I was immortal,
Then I'd never never die.

I wish I owned a motor car,
A boat upon the sea;
And if these wishes all came true
How lucky I should be.

J. A. R., III A

RUSTY

Rusty is a little dog,
A lovely one is he,
He loves to beg
He loves to bark,
He loves to shout with me.

R. A. C., II A

AUTUMN

Early in the autumn,
When leaves fall all around,
The colours red and yellow,
Make carpets on the ground.

The trees are gently waving
Their branches through the air,
Winter will soon be coming,
When they will all be bare.

J. F., III A

HOLIDAYS

The work of the term is almost done,
And the holidays have nearly come,
And we are preparing for lots of fun,
So pack up your troubles and let's all run
Down to the beach to bask in the sun,
Forget your work in two weeks' fun.

P. N., III A

THROWING STONES

There was a lad called Jimmy Jones
Whose favourite sport was throwing stones.
While other boys were studying hard,
Jones was playing in the yard.

When other boys were safe in bed
Jones was throwing stones instead;
He threw one at his teacher's head,
Next day poor Jones wished he was dead.

R. D. H., III A

MY DOG

I have a little dog
Who barks at foreign people.
He always jumps a log,
And looks up at the steeple.

At night he comes to our back door
For some food to get,
And after that comes back for more,
My very nicest pet.

M. I. S., II B

AUTUMN

The leaves are changing colours,
Red, yellow, green, and brown,
I noticed this this morning,
When walking off to town.

R. J. G., III B

POPLAR TREES

The Poplar trees are faded now,
They've lost their leaves so green,
And I can see a great big bough
Which they no longer screen.

D. K. D., II B

THE BIRDS

Birds in the evening, fly to their nests,
Little boys put on their warm woolly vests.
Cockatoos smooth down their bright
yellow crests.
Little animals seek their rests.

A. H., II B

POPLAR TREES

The poplar trees are faded now,
In the cool green wood,
And that twisted old grey bough
Might break if it could.

A. P., II B

MY DOG

I have a dog,
Whose name is Pete,
And by the fire
He takes his seat.
Although he tries
To be his best
He really is
A little pest.

N. T., II A

OLD BOYS'

SECTION

Edited and controlled by the Committee of Prince Alfred Old Collegians' Association, Incorp.

Prince Alfred Old Collegians' Association, Incorporated

Founded 1878.

Patron—The Head Master.

President—Dr. M. W. Evans.

Vice-Presidents—Messrs. J. F. W. Dunn, G. T. Clarke and G. K. Ryder.

Hon. Treasurer—Mr. N. S. Angel.

Hon. Auditors—Messrs. R. F. Middleton and C. W. L. Muecke.

Honorary Secretaries — Messrs L. B. and Harold Shuttleworth

Committee—Messrs. F. H. Chapman, D. A. Clarkson, J. F. Lavis, C. J. Glover, J. Crompton, F. E. Piper, R. B. Craven, A. V. King, R. W. Pearson, W. D. Verco, N. A. Walsh; Dr. A. F. Hobbs; Messrs. R. W. M. Johnson and L. P. A. Lawrence.

Messrs. J. Compton, F. E. Piper, J. F. W. Dunn and G. K. Ryder are also Members of the School Council.

The Objects of the Association are: To keep Old Boys, wherever they may be, in touch with one another and with the boys at the School; also to foster and maintain their interest in the School.

"Old Boys' Week" is observed annually towards the end of July, during which a dinner and other social functions as well as sports contests are held. Also social gatherings are held whenever any occasion arises that makes them desirable.

"The P.A.C. Chronicle," of which a large part is devoted to matters of special interest to Old Boys, is forwarded to each member of the Association.

The subscription is six shillings per annum. It is suggested that Country Members should remit sufficient to cover four years' subscription

or become Life Members by payment of £5 5s. Any Old Boy wishing to become a member can do so by forwarding his name and address to the Head Master, or to any member of the Staff, or to the Secretaries.

The Association has donated the following Scholarships to the School:

H. W. A. Miller (Old Collegians') Scholarship.
J. A. Hartley Scholarship.
Fredk. Chapple Scholarship.
W. R. Bayly Scholarship.
A. G. Collison Scholarship.

L. B. and HAROLD SHUTTLEWORTH,

Joint Secretaries

Editorial

The old quotation "Absence makes the heart grow fonder" is not always true, but like many other sweeping statements, it has much truth in it. This can be vouched for with enthusiasm, almost with reverence, by those who attended the carefree and hilarious Dinner held in London on 28th March, 1919, when we were on the way home and imagined all life's troubles were behind us.

Distance lends enchantment to the scene, and on the other side of the world "Home" means much more than the place in which one lives. Opponents of school days, members of rival colleges in the home town, have so much in common that rivalry is almost forgotten, and the colour of one's school tie seems to be of little consequence. The closer one gets to the city which has given birth to two such great colleges the harder it is to dismiss from one's mind the boyhood remembrance that, however much we have in common with one another, we remain rivals and competitors at all times. In some places and in some circumstances joint reunions have great advantages. Let those able and willing to organise reunions decide such matters according to their inclinations and local conditions.

Reunions don't just happen—they eventuate because of the efforts of one or two able and willing workers with ability to organise and inspire others to give their support. To John Creswell of St. Peters must be given pride of place among those responsible for the historic dinner at Amiens.

Wherever Princes foregather it is a Reunion. Whether we be alone or accompanied by less fortunate people from other Schools the gatherings are fundamentally the same. They are all Reunions and there are not enough of them.

One who has had the good fortune to attend the two dinners referred to above as well as somewhat similar functions in many places including Melbourne, Broken Hill, Berri (Upper Murray), Cummins (Eyre Peninsula), Naracoorte and Strathalbyn knows the value of such gatherings to Old Boys, to their Associations, and to their School. It will be a good thing when such gatherings again become frequent all over the State; better still, all over the world.

If dinners can be organised on the other side of the world in war time, how simple it must be to organise them at home in times of peace. Within the State, representatives of the School and of the Association invariably attend, but the success of these functions does not depend on any particular feature and certainly not on oratory. No one, least of all himself, would regard our beloved and famous old master and old boy, James Drinkwater Iliffe as an orator, but those who heard him speak, when he represented the School at Berri, fifteen years ago, considered it one of the finest and most impressive speeches they had ever heard at any sort of School gathering. Our beloved master must have wished his classes sometimes displayed the same intense interest and concentration.

What has been done in the past can be done again. Customs change from generation to generation but an affection and regard for the old School, by all normal people, remains constant. Give old boys the opportunity to get together and they will respond but it is necessary for somebody to give a lead if we are to have, once again, those delightful Country Reunions which were such a happy feature of the Association's activities.

J. C.

Military Notes

We congratulate the following for being "Mentioned in despatches", Lt.Col. D. W. Brummitt; Maj. Alan Frank Hobbs, Maj. W. B. Dorsch; Lt. C. L. Whitrow; W/O Norman T. Todd; L/Sgt. H. C. Finlayson; L/Cpl. K. B. Burnard.

Maj. Colin Chapple, who served with the R.A.M.C. is now at the Military Hospital, Gold Coast Colony, British West Africa.

F/O. J. H. Gooch was recently in Adelaide, but has now returned to Japan. His address is 481 Squadron, R.A.A.F., B.C.O.F., Japan.

Andrew Patten (1942-43) is now serving in the American Army Air Corps, after an adventurous life since leaving school. Soon after he left school he shipped on a cattle boat taking cattle to India. In Colombo he picked up an American tanker, with which he served for almost a year, between Persia (Iran) Australia and the Pacific. He was at Balikpapan on another ship about VP day, and after a little troop ferrying went to America through the Mediterranean. In the next year or so he served around the American coast and on a cruise to Russia, and enlisted in the Air Corps towards the end of last year. His address is 17,204,947, Private A. L. Patten, Sqdn. TP3, Base Unit 3,704 A.A.F., Keesler Field, Biloxi, Mississippi, U.S.A. He expects to be sent to the Pacific later but would appreciate letters in the meanwhile.

Military Awards

We congratulate Norman Harris upon the award of a Member of the Order of the British Empire in recognition of his services whilst serving with the 6th Australian Division, more particularly as Liaison Officer (Intelligence) attached 8th U.S. Army in the Phillipines. This work also included special work in North Borneo for 1st Aust. Corps operations.

CAPT. NORMAN HARRIS, M.B.E.

Presentation to Mr. J. E. Langley

There was an enhanced attendance at the February luncheon to pay homage to Mr. J. E. Langley who retired after 50 years of faithful service to the School.

Dr. Mervyn Evans (President) referred in eulogistic terms to the excellent record and achievement of Mr. Langley for whom all have so much affection and gratitude and presented him with a handsome armchair on behalf of members of this association.

Mr. Langley was reminiscent in interesting vein and recalled that the first 12 years of his life were spent in South Africa. He went to England for education, and after leaving Kingswood School obtained a position in a bank at Cardiff. Then he decided to take the offer of a scholarship and he spent the happiest years of his life studying for a degree and playing cricket and other games.

Mr. Langley spoke of the marked improvements at P.A.C. since he arrived there 50 years ago, and of his happy association with Mr. Chapple, his successors, and many masters and students.

Among those present were two of Mr. Langley's first pupils—Mr. J. F. Ward (present headmaster of P.A.C.) and Mr. Bernard Berry (son of the Rev. Joseph Berry), over from Sydney, where he is a chemist. Mr. Egbert Howard specially flew from Melbourne to attend the lunch.

COLLEGE ENDOWMENT FUND

Your committee has decided that no special effort to augment this fund should be made. The fund is still open and receiving contributions from time to time.

COUNTRY REUNIONS

The association committee will be pleased to assist in organising Country Reunions. Will local committees kindly suggest tentative dates and communicate with the association secretaries.

On Active Service

(This is a supplementary list to the Roll published in the last September Chronicle).

The Honour Roll now includes the names of over 1,200 Old Boys who have enlisted for active service. The School and every "Old Red" is proud of the ready response to defend Right, Justice and Liberty.

British Army
Chapple, Colin

R.A.N.
James, G. J.

2nd A.I.F.
Hodby, D. C.

R.A.A.F.
Crace, J. C.

A.M.F.
Battye, G. R.
Lewis, P. A. C.

Purely Personal

Mr. Alan Lyon (Sydney) recently paid a brief visit to Adelaide to attend the Taxpayers Conference. He hopes to return to Adelaide for a holiday later in the year.

We congratulate Mr. Tom E. Cleland upon his appointment as City Coroner.

We also congratulate Roger Opie, son of Mr. and Mrs. F. G. Opie of Prospect upon his appointment to a diplomatic service cadetship by the Department of External affairs.

Dr. Alan F. Hobbs is paying a visit to the United States of America and expects to be away for 3 months.

Drs. M. E. Chinner and I. S. Magarey have been elected to the Fellowship of the Royal Australian College of Physicians.

This association is non-political, but has the following nine members in Parliament, Hon. A. L. McEwin (Chief Secretary), Messrs. E. A. Anthony, J. L. S. Bice and F. T. Perry M.L.C's., S. W. Jeffries, R. W. Pearson, G. T. Clarke, H. H. Shannon and R. McLachlan, M.P's.

Rev. G. H. Young, advises that he will remain in Rabaul after discharge from the Australian Army. His address will be Methodist Overseas Mission, Rabaul, T.N.G.

Mr. A. G. Parker has been elected President of the Bread Manufacturers Association of South Australia.

At our February Luncheon we were pleased to see Bernard Berry (Sydney, and Egbert Howard (Melbourne)).

Prince Alfred College War Memorial

It is very pleasing to note that the encouraging start given to this appeal is being well supported. The following list shows that amounts received total nearly £8,100, and with the further steady response that the Committee controlling this fund anticipate real progress toward the goal of £25,000 to provide a suitable memorial is being achieved.

In the erection of a memorial to perpetuate the memory of those Sons of the School who

served, and who made the Supreme Sacrifice in the Service of the Country, there is no more fitting place than at the school of their boyhood.

Contributions to the Fund may be forwarded to Mr. E. M. Forbes, Epworth Building, Pirie Street, Adelaide, or to Mr. W. Douglas Verco, 178 North Terrace, Adelaide, or to the Association Secretaries.

Monthly Luncheons

The Monthly Luncheons which are held on the second Thursday of every month at the "Apollo" Rooms (Myers') Rundle Street are being well attended.

At the February lunch the opportunity was taken to make a presentation to Mr. J. E. Langley upon his retirement.

Mr. S. W. Smith, whilst on leave from India, gave an address on "Handicrafts and Trades in India", which proved very interesting.

The address given at the April meeting by

Professor Sir Kerr Grant was entitled "Atomic Energy", and the speaker dealt with this important subject from both military and industrial aspects.

"Development of British Industry and its relations in connection with the Export Drive" was the subject of the address by Mr. F. Hambleton, who was in charge of the Mulberry operation by the British Forces in the landing in France, and much useful information was gained.

Obituary

BARTRAM—On 25th May, 1947, result of accident Colin George (late R.A.N.), beloved elder son of Mr. and Mrs. R. G. Bartram, 33 Aberfeldy Road, Woodville. Aged 20 years. He attended the School 1938 to 1943. Regd. No. 7624 and was a Life Member No. 1421 of this association.

BRUSE—On 27th September 1946 (suddenly) Gordon Cameron Bruse, aged 32 years. He attended the School 1930 to 1931. Regd. No. 6774 and was a member of this association.

COTTON—On 27th February, 1947 at Adelaide, Charles Henry Cotton, aged 73 years. He attended the School 1880 to 1888. Regd. No. 884 and was a member of this association.

DOMASCHENZ—On 24th February, 1947, Alfred Theodor Domaschenz (late 2nd. and 48th Btn. 2nd A.I.F.) dearly beloved only son of Mr. and Mrs. G. Domaschenz of Yorketown aged 42 years. He attended the School 1919 to 1920. Regd. No. 5342 and was a Life member No. 435 of this association.

GREENSLADE—On 12th October 1945 at Maitland, Frederick, dearly beloved husband of Olive Greenslade, aged 69 years. He attended the School 1890 to 1891, Regd. No. 2250.

JAUNCEY—On 19th May, 1947 at St. Louis, U.S.A., G. E. M. Jauncey dearly beloved husband of Ethel Jauncey aged 58 years. He attended the School 1904 to 1906 Regd. No. 3762.

KAINES—On 27th April 1947 at Balwyn, Victoria, Albert Leopold, beloved husband of Emily Kaines, aged 75 years. He attended the School 1878 to 1886. Regd. No. 648.

KAY—On 23rd May, 1947 at "Amery", McLaren Vale, Frederick Walter Kay aged 76 years. He attended the School 1880 to 1886, Regd. No. 799 and was a Life member No. 192 of this association.

PORTER—On 24th April 1947 at Largs Bay. John Ellison Porter aged 50 years. He attended the School 1908 to 1915, Regd. No. 4262 and was a Life member No. 1564 of this association.

STREMPEL—On 5th May, 1947, Arthur Charles, dearly beloved husband of Dorothy Stempel of Blackwood, aged 52 years. He attended the School 1907 to 1909 Regd. No. 4080.

WARD—On 4th March 1947 at his residence Barkers Road, Auburn, Victoria, Edward Ward, aged 76 years. He attended the School 1882 to 1885, Regd. No. 1039.

WILLIAMS—In February 1946 at Wallaroo, Mark Henry Williams, aged 53 years. He attended the School 1904 to 1908, Regd. No. 3857.

WEIR—On 15th May 1947 at Adelaide, Alexander Weir of Albert Street, Semaphore, aged 57 years. He attended the School in 1904. Regd. No. 3796 and was a member of this association.

EDUCATION FUND

This fund is being raised for the purpose of educating the children (boys and girls) of Old Boys who lost their lives on Active Service. The response to this worthy object is very gratifying to your committee, and over £2,200 has been subscribed, of which £1,600 has been invested in the Victory Loans.

Messrs. C. J. Glover, N. S. Angel and L. B. Shuttleworth have been appointed Trustees to administer this fund, under direction of the association committee. Enquiries are now being made to ascertain those who are entitled to the benefits of the fund. Members are requested to notify the secretaries should they learn of any child desiring educational benefits.

ADDITIONAL LIST OF CONTRIBUTIONS TO 20th May, 1947

Previously acknowledged	-	-	2,210	14	11
Interest	-	-	-	27	17

Total — £2,238 12 5

ANNUAL SUBSCRIPTIONS

Subscriptions for the year ending 30th September 1947 are now due, and members are requested to remit promptly to facilitate the work of the association.

As the amount of Annual Subscription, 6/., is so small, it is suggested that members forward two, three or four years' subscriptions, thereby saving postage and exchange. The prepayments of subscriptions will also save the association expense of postage, etc.

The work of the association has increased considerably, and your co-operation by prompt payment of subscriptions is requested.

SCHOOL ENROLMENTS

Old Boys are reminded of the necessity of early enrolment if they desire their sons to attend the School. To avoid disappointment, enquire NOW from the Headmaster. Some enrolments have already been made for 1952.

Old Collegians Abroad

Mr. Franklin White of "The Reedbeds", Shoreham, near Sevenoaks, Kent, England has kindly presented to the College Library a book "Steer" by D. S. McColl in which a reference is made to the donor. During the war Mr. and Mrs. White entertained many members of the Air Force and the following letter of appreciation has been received by them.

Air Ministry,
King Charles Street,
Whitehall, S.W. 1.
15th July, 1946.

Dear Mr. and Mrs. Franklin White,

I have been told of the splendid work which you did during the war in entertaining so many of the Air Force personnel from overseas who were stationed in this country.

It must have meant a great deal of work and careful planning to give hospitality to so many people so frequently, with all the difficulties of rationing and other war-time restrictions to overcome. I want you to know how much we, at the Air Ministry, appreciate the work you did. The Royal Air Force owes a special debt of gratitude to the men and women of the Air Forces of the Dominions and Allies who came from all parts of the world to fight with us in England against the common enemy. We feel that you have helped us to express our gratitude to these people in a way which meant much more to the individuals than any official arrangements we made.

I am sure the Air Force guests who enjoyed your hospitality have left you in no doubt about their individual gratitude to you. I should like to add the thanks of the Royal Air Force and the Air Ministry for your very great service.

Yours sincerely,
Stansgate.

The following interesting letter has been received from F/O. J. H. Gooch.

JAPAN

There is so much to tell about this country that I scarcely know where to start; perhaps it would be appropriate to commence by giving a brief description of the people, and the living conditions.

The average Japanese male is a miserable looking specimen—very seldom more than five feet two inches in height, with an average weight of about eight stone. A large percentage of them are still wearing ex-army clothing in the day time, but in the evenings, many don their drab, uninteresting looking kimonos. The women are very little smaller in stature; all that I have seen are brunettes, and although western dress is becoming more and more popular, the traditional kimono still predominates. I have seen thousands of these, but never two with the same floral design. Some of these gorgeous affairs have hand painted

designs, whilst the majority are hand worked, with gaudy coloured silks.

The Japanese house is a very simple affair, it has no foundations other than a few stones for the upright column footings. Some walls are permanent, whilst others are made of sliding screens (a light wooden frame covered with oiled paper) which may be removed, or opened to increase the size of the rooms. The gable roofs are covered with slate grey tiles, and as no paint is used on the wooden walls the houses naturally have a very drab exterior.

The internal furnishings are extremely simple, the whole floor is covered with two inch thick mats, with a wall to wall effect, a few lacquered cabinets not more than two feet in height, a low table, perhaps a radio, and a few scrolls (which take the place of pictures) usually completes the furnishings. During the day the bedding is rolled up, and placed in wall cupboards. As every one sleeps on the floor and any room can be used for any purpose, sleeping accommodation does not present much of a problem.

Heating arrangements are very primitive, I have seldom seen a fireplace, or a chimney in any of their houses and heat is usually supplied by a portable charcoal brazier known as a "Habashi". These are made of clay, or porcelain averaging from one to two feet in diameter, and about one foot six inches in depth. The warmth produced by the habashi is very inadequate, and the whole family literally hug them during the bitterly cold winter weather.

The Japanese, if possible baths daily, if he is wealthy he may possess his own bath house with sunken wooden or tiled bath in which the whole family soaks in nearly scalding water. This is usually kept hot by a fire beneath the bath; if he is too poor to own one of his own there is always the village bath house, where any one may bath for a few sen.

I have attempted to collect a few facts about the Japanese educational system and I find that Primary education has been compulsory for many years. Children must attend for a period of six years and a higher primary school may be attended for a further two years. After that, successful students who have the necessary qualifications, and wish to continue their studies, may attend what is known as a Middle School. This school as far as I can ascertain teaches subjects similar to our High schools. There is a Japanese High School, but this appears to be restricted to specialist subjects, such as medicine, engineering etc., in preparation for entry to the university.

There is very keen competition between students who wish to proceed to universities, as the number that can be accommodated there is very limited, and the Japanese higher authorities are very class conscious.

Much has been said about the Japanese aptitude for copying: the best example of this that I have seen is what is said to be an exact replica of Buckingham Palace. Before the war

this Detached Palace was used for entertainment purposes and I am told that the Duke of Windsor stayed there during his visit to Tokyo.

Amongst the western sports played by the Japanese, baseball is the most popular. Large baseball pitches are to be found in most of the larger cities. The native sport of Sumo is very popular—the Japanese call this wrestling; it is merely a series of grotesque gyrations performed by twenty-two stone giants, who after much ceremony attempt to knock each other down. You may wonder how the participants of this farcical wrestling game attained their huge bulk, more than twice the weight of the average Japanese; the reason for this is that they have been fattened on rice, sake, and rich foods since childhood, specially trained and pampered like a prize beast. Judo, better known to us as Jujitsu is also very popular, this is certainly a very clever form of self defence.

I have been asked by many "How do you like Japan?" I can only answer "O.K.; it is a very beautiful country; if you can stand the smell."

SIR FREDERICK YOUNG

Sir Frederick Young, Chairman of the E. S. and A. Bank whilst visiting Adelaide was entertained at lunch by the Association Committee and several of his contemporaries.

Replying to a welcome by Dr. Mervyn Evans, Sir Frederick said the parcel of food the committee sent to him in England was welcome, but the thought behind it was the thing which gave him a deep measure of pleasure.

"I wish now to tell you personally that I was greatly touched by your remembrance," he said. "When I told people in England about it, they were amazed that any college should think of doing such a thing 50 years after a person had left school."

"I always feel pleased to see anybody from Australia pay a tribute to England; we have all been brought up through our lives to honor that country, and we have all had great reason to do so."

"She has a wonderful history and a grand influence on the development of the world. In the last war she brought before the world the real moral strength of the British people.

"Times were difficult and hard, and we all shared in tremendous anxieties, but it is astonishing how people do become accustomed to difficulties. If I were to give special credit, it would be to the great masses of people of England's crowded cities and suburbs, many of whom lived in small and often ill-built cottages which would hardly stand a rattle, let alone a bomb.

"I emphasise the bravery of the masses who worked in crowded factories and went on with the job. Being the bulk of the people, they

deserve all the help outlying parts of the Empire can give them in this difficult crisis."

People naturally after going through a long and dark period looked for the little crevice of light—and that crevice was the coming of peace—and all would be reasonably well. They all knew now that peace did not come with victory, and unfortunately the little streak of daylight was missing.

It had created a deep feeling of frustration. That, therefore, would explain why in the Old Country, traditionally steady, there had been an undue amount of unsettlement of ideas and lack of steady effort.

"I think there is abundant explanation of it; many have been the victims of a lot of false teaching. You cannot go through a war of this magnitude and expenditure of life and substance, and step straight into better things materially.

Spiritually, I think we might have stepped into a better world, but unfortunately materialistic teaching has been too prominent, and people thought their new world was one of leisure and plenty; which is an absurdity following upon a war; and so they feel disillusioned. That applies to a great part of the world, and it is a period which we have to get through.

"Most of us here know something about real values, because we can reflect upon the happy times we had made by ourselves and the company we kept. It was not a matter of plenty of money to spend, but a simpler life and happy associations and one can only hope that we shall get to the new world through moral rather than through material prosperity."

Great Britain, passing through extremely difficult times, will need all the help the Dominions and Colonies can give her; we were very much linked up with Britain. She created most of our traditions, and she certainly had been the standby for generations for our welfare; and it would be a sorry plight if the Mother Country did not re-establish herself.

"I do not think people who have braved a world for 1,000 years up to wonderful greatness will sink out of sight. It would be a tragedy for the world if she did. I think other countries are realising that.

"They have stood up to tremendous war hardships, and will eventually, and fairly soon, return to more sincere ideas of life, escape from false teachings, and make that effort necessary to recover. The history of all time has been one of redemption following upon tribulation. We shall have to go through our tribulation, pay the penalty of false thinking and false gods, and recover our moral fibre, and then all the values of the past will revive, and the British people will soon be leaders."

It was with deep sorrow that we learned a few weeks later of Sir Frederick's sad bereavement by the death of his wife in Melbourne.

Successes of Old Boys

AT ADELAIDE UNIVERSITY

Old Scholars Tennis

Back Row: D. T. Rowe, Don Candy, A. Morris, M. Newcombe
Front Row: D. Babbidge, A. R. Wright, G. B. Schwartz, R. Lock

The annual Inter-Association Tennis Match was played at St. Peter's College courts on 24th March.

Some bright tennis was produced, and Princes won 5 rubbers to 3.

Both sides were well represented, with district and State players. P.A.C. played Max Newcombe, former Australian Junior Singles Champion, and Don Candy, present Australian Junior Singles Champion and holder of the Victorian and South Australian junior titles, while S.P.S.C. included Don Turnbull, ex-Davis Cup player.

With a slightly stronger side P.A.C. had the advantage, but Saints were able to minimise their losses by winning the last two rubbers of the day.

The present contests are held with 8 players per team but it has been suggested to increase the number to 12 a side for future contests.

RESULTS

D. P. Turnbull and J. Mehaffy (S.P.S.C.) d. R. Lock and M. Newcombe (P.A.C.), 6-3, 5-6, 6-5; G. B. Schwartz and A. R. Wright (P.A.C.) d. J. R. Black and K. W. Bruce (S.P.S.C.), 5-6, 6-2, 6-5; D. Babbidge and A. Morris (P.A.C.)

d. K. R. Allen and R. W. Mallen (S.P.S.C.) 6-1, 6-3; D. Babbidge and A. Morris (P.A.C.) d. J. R. Black and K. W. Bruce (S.P.S.C.) 6-2, 6-0; G. Schwartz and A. R. Wright (P.A.C.) d. K. Allen and R. Mallen (S.P.S.C.), 6-4, 6-2; D. W. Candy and D. T. Rowe (P.A.C.) d. D. Davidson and M. J. Astley (S.P.S.C.), 6-5, 5-6, 6-2; D. P. Turnbull and J. Mehaffy (S.P.S.C.) d. D. W. Candy and D. T. Rowe (P.A.C.), 6-4, 6-4; D. Davidson and R. J. Astley (S.P.S.C.) d. M. Newcombe and R. Lock (P.A.C.), 6-4, 2-6, 6-4.

Old Collegians' Rowing

At the recent Regatta held on the Torrens the following crew represented this association in the Old Boys Eight. P. James (bow), J. Heitmann, L. Heitmann, K. Stanton, J. Whitehouse, J. Hocking, J. Cooper, M. Phillips, stroke, J. Sanderson, (Cox.)

In the first heat our crew defeated St. Peters by 4 feet after a hard fought race. In the final Adelaide High School won a very exciting and close contest by 2 feet.

Old Collegians Cricket Club

What promised to be a really successful season turned out to be rather a dismal affair as regards results—only 3 wins.

After having 22 players from whom to select the team for the early matches, in the second half of the season it was difficult to find players: this was partly due to injuries.

Early in the season Mervyn Evans, who had again been elected skipper, decided to stand down in favour of younger players. Judging by the form he showed on the occasions when he did play, his retirement was decidedly premature.

The Club was fortunate to still have the services of Chas. Cosgrove, who took the helm. Unfortunately Charlie's bowling was not the winning factor it had been of yore, and it was left to Howard Newman to head the wicket-takers. His was a most meritorious performance.

With Ray Smith, Newman shared the distinction of being the best all-rounder. Geoff Barton topped the batting aggregate—one run ahead of Smith.

Results: Won on 1st Innings, 3.

Lost outright, 1.

Lost on 1st innings, 7.

Drew, 1.

Batting Averages

Old Scholars Bowls

The annual Bowls Match with St. Peter's Association was held at the South Park Bowling Club rinks on 7th February and resulted in a win for Princes by 223 to 177.

We are indebted to the South Park Bowling Club for again making their greens available and also to Mr. J. A. Gibson, for making the necessary arrangements.

The following are the scores.

Prince Alfred College

Dowie, Puddy, Royal, Moore,	19
Whittington, Goldsmith, Parsons, Mutton	27
Perry, Clarkson, Richards, Playford	24
W. A. W. Evans, M. W. Evans, Cohen,	19
King	19
Humphries, Ryder, Cowell, Taylor	19
Clarke, McKay, Piper, Williams	22
Marshman, Kendrew, Cooper, Langley	24
Smith, Fiddy Shepley, Trott	32
May, Close, Craven, Brown	23
Steele, Lawrence, Lavis, Slatter	14
Total	223

St. Peter's College

M. F. Brown, M. H. Rymill, Wills	16
Voysey	20
Bagot, C. T. Gun, Reynolds, Stalley	14
Stokes, Edmunds, Wald, Milne	25
McBryde, Gepp, Skipper, Badger	26
Bednall, G. H. Boucaut, Thwaites, D.	26
L. Boucaut	13
Wilson, Makin, Sabine, Taylor	23
Clampett, Ross, Burford, Lucy	8
H. B. Bruce, F. T. Bruce, Cudmore,	8
Phillis	12
J. W. Rymill, Laidlay, Toms, Chambers	20
N. Brown, Chapman, Canaway, Hanson	177
Total	177

Weather conditions were very favourable, and there was a fair attendance of supporters of both associations.

The usual supper arrangements were made and those present, both players and spectators, spent a very enjoyable evening.

After meeting all expenses there was a surplus which has been forwarded to the South Park Bowling Club as a donation to the Club's Charity Fund.

Old Collegians Football Club

After an exceptionally successful season in 1946 when the "A" team were the premiers of Amateur League "Grade A2" promotion to the higher grade has followed. The "B" team is again playing in the Students' grade. The officials for this season are—

"A" team: Captain, Arthur Dawkins; Vice-Captain, J. Parham.

"B" team: Elliot Johnston was elected captain.

John Stephens a stalwart who has played with the club for many years is coach and helping him is his brother Ted another very experienced player.

At the Annual General Meeting, Ross Johnston announced that he would be unable to act as secretary again this year. Thanks are due to him for the time he has devoted to the club

over several years, and in particular for the fine job he did when it was reformed at the beginning of last year. His continued interest is noted with pleasure and his attendance at practice and matches is much appreciated.

Although the team is perhaps young and inexperienced, it has already met with success. After losing the first match to a very fit and solid Payneham team, a win against Walkerville was registered.

With more practice and with good players steadily joining the practice lists, it is hoped to keep improving and to win most matches.

The "B" team while so far unsuccessful, is settling down as a keen and happy team, and should improve towards the middle of the season.

Old Collegians Rugby Club

The season has opened unfortunately with a couple of losses but with the acquisition of a coach of high repute in E. Davidson, last year's Burnside and State Captain who has given up playing there is hope of settling down into a winning combination in the near future. This year the Club has been successful in gaining several experienced players from interstate and from the Services so that for the first time it has been possible to select a team each week which in itself shows that the game is gradually gaining a grip in this State. This has been noticeable in the establishment of a junior grade this year and perhaps in years to come the schools may field regular teams in rivalry with Australian rules. Judging by the success last year the team may succeed in fighting its

way to the final in the Carnival to be held on the Kings birthday holiday.

Several of the team have been selected for the State side which will visit Sydney late in May. This year thanks to the generosity of the Headmaster, Mr. and Ward and Mr. Steele the back oval has been available to the club for a number of matches, a privilege especially appreciated after encountering the hard ground in the parklands.

Now that one team has been well established it is the Club's ambition to field a second team, and should any readers be interested will they please contact Mr. J. Hopton at the Norwich Union Insurance Co., in Waymouth Street, or Mr. F. Henderson at the Bank of N.S.W. in Morphett Street.

Old Collegians Sporting Clubs

The association committee has approved the following conditions for the guidance of Old Boys' Sporting Clubs:

CONDITIONS ATTACHING TO THE CONDUCT OF SPORTING CLUBS, TEAMS OR CREWS

The association may approve of a club, team or crew using a name connecting it with the association upon the following conditions:

1. Title or name to be approved by the Association Committee.
2. Members or players of the team, club or crew and officials (other than coaches and trainers, if any) must be financial members of the Association.
3. The names of all players and officials must be available to the Secretary of the association at any time.
4. The Association does not accept any responsibility for debts contracted by any club, team or crew, but may, without prejudice, make a grant if thought fit, to the funds of any club, team or crew, but all clubs, teams or crews must be prepared to finance their own affairs from subscriptions paid by members or from funds raised by other approved means.
5. Any social functions arranged by any club, team or crew for which a charge is to be made for admission must be approved by the Association Committee.

OLD BOYS WEEK

JULY 21st - JULY 27th

MONDAY, 21st JULY

Bridge Match—Old Blues v. Old Reds, at Arcadia

TUESDAY, 22nd JULY

Lacrosse and Hockey at P.A. College—Old Blues v. Old Reds
7.30—Table Tennis—Old Blues v. Old Reds.

WEDNESDAY, 23rd JULY

Baseball, Rugby and Football at St. Peters—Old Blues v. Old Reds
7.30 p.m.—Masonic Temple: United Collegians Royal Arch Chapter

THURSDAY, 24th JULY—Old Boys' Day at College

8.50 a.m.—Morning Assembly
Football—Town v. Country
7.30 p.m.—Reunion Dinner at the Dining Hall, John Martin Ltd.

FRIDAY, 25th JULY

Annual Dance at Palais Royal, North Terrace, 8 p.m.

SATURDAY, 26th JULY

Intercollegiate Football
7.30 p.m.—Masonic Temple: Prince Alfred Collegians' Lodge

SUNDAY, 27th JULY

11 a.m.—Old Scholars' Service

All members interested in these sports are requested to advise the Joint Secretaries as early as possible.

As regards the Golf Match; this will be played at a date and place to be arranged, and will not take place during Old Boy's Week. All golfers are requested to advise the Secretaries as early as possible if they desire to play in this match.

The Town and Country Football Match will be played on Old Boys' Day at the College. All country footballers who desire to play are requested to advise the Secretaries as early as possible.

The Re-Union Dinner is usually the most popular event of the week, and it will be held at the Palais on the Friday night.

The Annual Service will be held at the School on Sunday, 27th July, to conclude the week. Arrangements have been made for the broadcasting of the Service. Branch Dinners will also be held in Melbourne and Sydney on Thursday, 24th July.

Booklets giving further particulars in regard to the Old Boys' Week Programme will be forwarded to members later.

New Members

The enrolment of new members still continues very satisfactorily, but your Committee wants every eligible Old Boy to join now and give the Association added strength.

If you know of an Old Boy who is not a member, send his name and address to the Secretaries; or, better still, bring him along personally to join up.

ORDINARY MEMBERS

Barton, M. J.
Berriman, P. S.
Collison, R. L.

THE SCHOOL COUNCIL

Messrs. G. K. Ryder and J. B. Craven have been elected to the general committee.

At the last general meeting of the College Committee the following members of the Association Committee were elected to the School Council. Messrs. Joseph Crompton, F. E. Piper, G. K. Ryder and J. F. W. Dunn.

LOST TOKENS

Tokens remain the property of this association, and are held by members on trust only. In the event of the loss of a token, the member should immediately report this to the Secretaries of the association.

ASSOCIATION TOKENS

The restrictions in respect to the manufacture of tokens have been removed, and limited supplies are now available to members from the association secretaries upon payment of 10/-.

FOOD PARCELS FOR BRITAIN

In order that Old Boys in England should be able to celebrate "Old Boys Week", your Committee has despatched 16 food parcels to members of this association which should arrive at their destination about the middle of July.

CHANGE OF SECRETARY'S ADDRESS

Will members please note that the address of the Secretary is now 50 Grenfell Street, Adelaide (5 doors west of Gawler Place).

MINIATURE TOKENS

Miniature tokens may now be exchanged for the larger tokens, without any additional cost.

LIFE MEMBERS CERTIFICATES

Life Members Certificates are available upon payment of 2/6 to cover cost of printing and postage.

PRINCE ALFRED COLLEGIANS LODGE

No. 51, S.A.C.

W.M.: Wpl. Bro. W. L. Davies
I.P.M.: Wpl. Bro. R. W. M. Johnson
S.W.: Bro. W. O. Menz
J.W.: Bro. H. M. Wilson
Chaplain: Bro. C. J. Perry
Treasurer: Bro. R. G. Neill
Secretary: Wpl. Bro. R. P. Goode
D.C.: Wpl. Bro. G. M. Potts

ASSOCIATION BLAZERS

The Red-and-White striped cloth is not procurable at present, and your Committee has therefore approved of the following:

- (1) Navy blazer with Old Collegians' pocket badge.
- (2) Maroon blazer with white braid and Old Collegians' pocket badge.

Both designs are now obtainable by members of this association but a certificate of membership must be obtained from the association

Interstate Branches

BROKEN HILL

Steps are being taken to revive the Broken Hill Branch. It is intended at a later date to arrange functions, particularly sporting fixtures with Old Collegians Associations.

All Od Reds in Broken Hill and surrounding districts are requested to communicate with Mr. Brown as soon as possible.

The Secretary's address is: Mr. J. J. Brown, c/o "The Barrier Miner", Broken Hill, or P.O. Box 19 C, Broken Hill.

NEW SOUTH WALES

The Branch Secretary is Mr. E. A. Kesting, 7a Wolger Road, Mosman, N.S.W.

Mr. Allan Lyon is President and his address is 73 Pitt Street, Sydney. Any Old Scholars visiting Sydney are invited to communicate with them.

PERSONAL

John Burchmore is continuing his music studies. His address is c/o State Conservatorium of Music, Sydney, N.S.W.

T. V. Holland is now residing at 20 Boambillee Avenue, Vaucluse, Sydney.

Fred Harris, whilst regretting the loss of his very fine motor launch, which was acquired by the Navy at the commencement of war, now has the satisfaction of knowing that the depth charge which destroyed the Japanese submarine was dropped from his launch.

About 30 of the Old Scholars in New South Wales entertained Mr. L. B. Shuttleworth at Usher's Hotel at a Cocktail Party on Wednesday 14th May.

Fully represented from our limited number of members it proved one of the most successful functions over the years. "Everyone belonged to the family" and reunions and incidents of the various periods spent respectively at the College were lived again.

We have waited for some years to meet Mr. Shuttleworth officially in Sydney and when Alan Lyon, President, referred in his words of welcome to Mr. Shuttleworth as "a corner stone and bulwark" of our Association the remark was acclaimed with warm and prolonged applause.

There was genial company and a warm hearty reception to give "the honoured guest" a befitting speech night, and Mr. Shuttleworth had an attentive audience in his acknowledgements. He detailed so much that proved informative, and in his easy and natural form of address warmed the hearts of his hearers, his sincere and earnest manner won their regard and esteem.

He mentioned the award of M.B.E. to Captain Norman Harris with appropriate dignity and the gathering was very pleased also to learn of the recent appointment of Mr. L. F. Burgess as Managing Director for Australia of the Associated General Electric Industries.

A characteristic and genuine tribute over a long term of years, both as Pupil and Master, was paid by Dr. F. W. Wheatley, C.B.E., who supported the President's toast to our greatly esteemed guest.

Those noted as present included—

Fred Harris (I.X.L.); Norman Harris, M.B.E.; Lewis A. Harris; Les. Cowan; Herbert W. Botten; C. Lawrence; Dr. H. L. Brose; Dr. F. W. Wheatley, C.B.E.; Brian E. Monfries; Ian Nottle; L. S. Edelman; Angus R. Read; H. N. Walter; Paul Henstridge; D. R. Letcher; A. C. Lyon; E. A. Kesting; B. S. Berry; A. L. Newman; Dr. R. M. Dunstone; W. F. Barton; W. P. Davies; Adrian Ashton; L. F. Burgess; X. A. Seppelt.

Apologies: G. H. Jeffrey; D. M. Davidson.

VICTORIA

Mr. A. N. Dawkins, c/o Electricity Supply Department, Town Hall, Melbourne, is Branch Secretary. Phone JM1511. His private address is 110 Elizabeth Street, Kooyong, S.E.4.

BRANCH COMMITTEE

The following officers have been elected for the ensuing year; President, Mr. C. W. Crompton; Committee: Messrs. Harold Brennen, Roy Jackett and Arno'd Weidenhofer. Hon. Sec. and Treasurer: Mr. A. N. Dawkins.

OBITUARY

We regret to learn of the death of Mr. Gordon C. Bruse which occurred on 2th September 1947 also that of Mr. Edward Ward who died suddenly at his home Barkers Road, Auburn on 4th March 1947. Mr. Ward was well known on the Stock Exchange and was a director of a number of public companies. He represented the Auburn Ward in the Hawthorn Council for 34 years and was Mayor of Hawthorn several times and a Commissioner of the Board of Works for 33 years. A wife and 2 daughter survive him.

BRANCH MEETINGS

The Victorian Branch holds "get together" meetings at intervals of approximately 2 months. These meetings take the form of dinners, usually held at the Hotel Federal on a Friday night from 6 p.m. to 8 p.m.

The first of these dinners for 1947 was held on 21st March when the guest of honour was Mr. H. W. A. Miller. "Mit" had just commenced a comprehensive tour of Australia by motor car which he interrupted in order to be present. He had proceeded as far as Mt. Gambier and made a hurried trip to Melbourne, returning subsequently to the Mount to resume where he left off. "Mit" entertained those present in his own inimitable and humorous style with numerous anecdotes of events which occurred during his long period as honorary joint secretary of the association. He met with a minor tragedy the morning after the meeting when he slipped in the bath and fractured a wrist. He was treated at a casualty hospital, but continued to walk around as though nothing had happened and left Melbourne on schedule to resume his tour. All members of the Victorian Branch trust that he has now fully recovered, and hope that the mishap will not deter him from paying them another visit.

The second meeting was held on the 16th May, and was honoured by the School Chaplain, Rev. Charles Perry, who made a special trip to Melbourne in order to be present. Mr. Perry referred to many of the present day school problems, and touched also on various sporting events in the "inter-col". matches during the last 30 years. His address was most interesting and fascinating and members regretted that time did not permit him to speak very much longer.

At the conclusion of this meeting an election of officers was held to determine who should bear the responsibility of piloting the branch for the 1947/48 season. Charlie Crompton was re-elected President and the following were elected to the committee: Harold Brennen, Roy Jackett and Arnold Weidenhofer with Norm Dawkins as Hon Secretary and Treasurer.

GOLF MATCH

Probably the most popular game in Melbourne is golf. Consequently it is not to be wondered at that the Victorian Branch utilises this sport as another means of promoting social intercourse amongst its members. And

so, another golf meeting was held recently—to be exact on the 20th April at that delightful, but tricky course at Flinders, some 60 odd miles from Melbourne on the Bass Strait coast.

A dozen members motored down with their families, and picnic lunch was the order of the day. Dr. Ted Rosanove made an excellent start and threatened to burn-up the course, but half way round he fell into serious error and appeared to deliberately hit several balls into the scrub. However he recovered touch just in time and returned the best score against bogey—3 down. Charlie Crompton started even better and at one stage was showing figures superior to Von Nida, but he also fell away at the half way mark and beyond. However, in the nick of time he remembered there was a trophy for the best nett score, and he carried it off with a nett 73.

As to the scores of the other players it is perhaps best that nothing be said. But Fred Jackett, who hadn't had a golf stick in his hand for goodness knows how many years, was driving off (at times) like Ossie Dickworth and quickly earned the soubriquet "Ossie Jackett".

FUTURE MEETINGS

The next meeting of the Victorian Branch will coincide with the Annual dinner of the parent association in Adelaide on Thursday 24th July. All "Old Reds" living in Victoria are requested to bear this date in mind and to make a special effort to attend.

Last year the Branch meeting was "hooked up" to Adelaide by land line and loud speaker, and greetings were exchanged by the respective Presidents. It is hoped that similar arrangements will be made this year.

QUEENSLAND

Mr. P. D. Coles, Branch Secretary, advises his change of address to Room 12 (4th Floor) National Mutual Building, 293 Queen Street, Brisbane. His postal address is Box 822 L G.P.O., Brisbane. He will be pleased to see any "Old Red" who may call on him.

PERSONAL

Gordon Glasson has arrived in Brisbane to take up an executive position with Broken Hill Pty., Ltd.

WESTERN AUSTRALIA

The acting Branch Secretary is Mr. R. J. B. Miller, 18 First Av., Mt. Lawley, W.A.

PERSONAL

We regret to learn of the continued illness of Mr. J. C. Livingstone, Branch Secretary, and during his absence Mr. Miller has kindly consented to carry out the secretarial duties. Mr. Livingstone is proceeding to New Zealand for an extended holiday and we wish him a safe journey and early return to good health.

Mr. F. C. Waldeck has been appointed State Manager of Goldbrough Mort and Co Ltd.

Mr. Alec L. Dawkins advises change of address to 34 the Esplanade, Peppermint Grove, Perth, W.A.

Prince Alfred War Memorial

The following amounts have been subscribed by Old Boys in Western Australia and have been included in the total amount.

This Branch is also donating War Savings Certificates with a face value of £35.

CRICKET MATCH

The annual Cricket Match with St. Peter's Old Scholars was revived this year when the match was played on the Wesley College oval on 26th April. St. Peters were captained by Dr. Hayward and F. Waldeck was elected for Princes. Rain on the previous day had softened the wicket. St. Peters won the toss and batted but were all out for 68. Princes then lost 6 for 90 by afternoon tea time. Rain then set in and the game was not continued. A very enjoyable time was spent, 27 attended the luncheon and the numbers increased to 54 for afternoon tea. Bowling honours went to Waldeck with 7 for 42 whilst Wilson 35 was top scorer. Thanks are due to Mr. Miller for making the necessary arrangements and reviving interest in the association.

St. Peters, Hinds c. Haslam b. Waldeck 0; Good c. Wilson b. Waldeck 10; Murphy b. Waldeck 21; Smith l.b.w. b. Wilson 3; Hayward b. Wilson 2; Langdon b. Waldeck 0; Clarkson c. Wunke b. Waldeck 9; Marsh c. Waldeck b. Dawkins 0; Reynolds l.b.w. b. Waldeck 4; Hayward, Ian stpd. b. Waldeck 14; Owen-Smith n.o. 3; Sundries 2, Total 98.

Bowling: Waldeck 7 for 42; Wilson 2 for 20; Dawkins 1 for 4.

Prince Alfred 6 for 90, Haslam c. Owen-Smith b. Hayward 1; Wunke b. Murphy 11; Wilson c. Clarkson b. Murphy 35; Waldeck b. Murphy 4; Dawkins n.o. 25; Chapman b. Clarkson 8; Thurston b. Murphy 1; Dawe n.o. 2; Sundries 3.

Bowling: Hayward 1 for 19; Murphy 4 for 39; Clarkson 1 for 9.
