Year 12 International Baccalaureate Diploma Results

Dear Members of the Prince Alfred College Community,

The 2014 International Baccalaureate Diploma Programme (IBDP) results were released this morning and, as with our SACE results in December, it gives me great pleasure to share these with you. Overall, our International Baccalaureate results compare favourably with previous years, and we are pleased that we now have larger cohorts undertaking the Diploma.

Two students, John Dongas and William Miller, have achieved the highest possible ATAR of 99.95, joining SACE student, Xin Louis Xiao, who also achieved this distinction. John and William gained a score of 43 out of a possible 45 IB Diploma points.

Additional highlights for our IBDP students include the following:

- Six students received an ATAR over 98, with the others being Mitchell Porter, Tyson Bateman, Angus Read and Jack Doney.
- 22 Merits were achieved by 13 students, in 13 different subjects.
- 74% of our students completing the Diploma were placed in the top 10% of the State, achieving an ATAR of over 90.
- The median ATAR for PAC IBDP graduates was 94.05.

In February, we will provide a more comprehensive report on our overall academic performance, for both SACE and IB students, together with details of our students’ post-secondary destinations.

The Dux and Proxime Accessit, together with other Year 12 academic prizes for 2014, including 25 new members of the Over 95 Club, will be awarded at the College Emeritus Assembly to be held in ANZAC Hall on Wednesday 11th February, commencing at 9.00am.

We congratulate all our 2014 graduates on their outstanding achievements. I would like to acknowledge the work and dedication of our teachers in leading and guiding our students throughout their education at Prince Alfred College.

Yours sincerely,

Bradley Fenner
Headmaster
